TECHNICAL REPORT

SUMMIT-UNIVERSITY COMMUNITY SURVEY

OVERVIEW

This survey of the Summit-University community (District 8) in the City of St. Paul was conducted by a coalition of community organizations with assistance from the Minnesota Center for Survey Research (MCSR) at the University of Minnesota.

The primary goal of the Summit-University Community Survey was to obtain information on the needs and attitudes of community residents. Selected respondents answered questions about community image, human services, business development, housing, law enforcement, and transportation.

A random sample of households in the Summit-University community was selected. This sample had been stratified by subdistrict, with the proportion of completed surveys in each subdistrict corresponding to the actual population distribution.

A total of 682 individuals were interviewed for the Summit-University Community Survey. Data collection was conducted between March and October 1987 with residents of randomly selected households in the Summit-University community. The overall response rate for the survey was 69 percent. This compares favorably with other social surveys which generally have response rates of 70 to 75 percent.

The questionnaire and results section of this report is a replica of the questionnaire. It contains the response frequencies and percentages for each question in the survey. Percentage distributions are also presented; "valid" percentages were computed after eliminating those who refused to answer, did not know, or were not required to answer a particular question.

GOALS

The primary goal of the Summit-University Community Survey was to obtain information on the needs and attitudes of community residents.

Selected respondents answered questions about community image, human services, business development, housing, law enforcement, and transportation. This information will then be used by the community for development and planning purposes.

MANAGEMENT PLAN

Three individuals were involved on a continuing basis throughout the project: Hardy Wright from the Hallie Q. Brown Center, Greg Finzell from the Summit-University Planning Council, and Rossana Armson from the Minnesota Center for Survey Research (MCSR).

Many organizations were involved in this project. Local sponsors were the Aurora-St. Anthony Block Clubs, the Hague-Laurel Block Club, the Inner City Youth League, Ramsey Action Programs, the Model Cities Health Clinic, the Ramsey Hill Association, the Selby District Commercial Club, the Selby Avenue Task Force, and the Summit-University Free Press.

Printing of survey forms was donated by the Better Neighborhoods Program and the Planning and Economic Development Department of the City of St. Paul, and printing of the final project report "The Report of the Summit University Needs Appraisal Project" was donated by the St. Paul Pioneer Press Dispatch. Copies of that final report can be requested from the Summit University Planning Council.

Staff assistance and supervision were provided by the Hallie Q. Brown Community Center, the Summit-University Planning Council and the St. Paul Urban League.

Finally, financial support for this project was received from the Community Services Department of the City of St. Paul, the Minneapolis Foundation, the St. Paul Foundation, the St. Paul Companies, and the Center for Urban and Regional Affairs at the University of Minnesota.

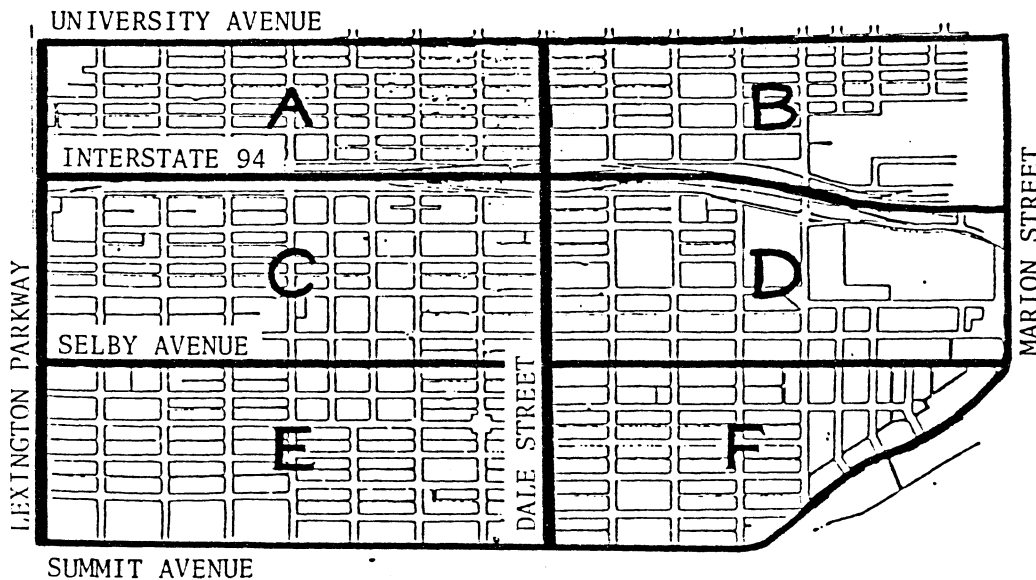

Extensive steps were taken to ensure community input on survey topics and questions. In addition to soliciting comments from local organizations, two large public meetings were conducted on December 1, 1986, with the assistance of a facilitator from Wilder Management Services. Following these public meetings, the survey was constructed and revised with the assistance of a project committee composed of community residents and representatives of local organizations.

SAMPLING

A random sample of households in the Summit-University community was selected by the Summit-University Planning Council. The boundaries for this community, which is west of downtown St. Paul, are shown in Figure 1.

FIGURE 1

LOCATION OF SUMMIT-UNIVERSITY COMMUNITY

These households were all located in District 8 of the City of St. Paul. This sample had been stratified by subdistrict, with the proportion of completed surveys in each subdistrict corresponding to the actual population distribution. The objective of this strategy was to obtain a sufficient number of interviews from each of subdistrict for the data to be analyzed at either the subdistrict level or aggregated for the entire Summit-University community.

Quotas were specified by the Minnesota Center for Survey Research for each subdistrict (see Table 1). Final counts of completions by subdistrict are shown in the questionnaire and results section of this report, page 5.

TABLE 1
QUOTAS BY SUBDISTRICT

Subdistrict	Estimated Total Number of Households	Sample Quota
A	763	76
B	926	93
C	1,085	108
D	1,100	110
E	1,387	139
F	1,555	156
TOTALS	6,816	682

INTERVIEWING

This survey of the Summit-University community (District 8) in the City of St. Paul was conducted by a coalition of community organizations with assistance from the Minnesota Center for Survey Research (MCSR) at the University of Minnesota.

The involvement of MCSR in the preliminary phases of the project began in October 1986. Survey design began on December 1, 1986 with the final survey form being completed on February 20, 1987. The survey was pre-tested by staff at MCSR. Interviewers were trained by Rossana Armson, and the data collection operation was coordinated by Hardy Wright, who was responsible for supervision of the interviewers and overseeing the project on a daily basis. Data collection was conducted between March and October 1987 with residents of randomly selected households in the Summit-University community. Although most interviews were conducted by telephone and in English, a small portion were conducted as face-to-face interviews or were translated into other languages.

MANAGEMENT OF THE DATA

After interviewing was completed, the coded questionnaires were key entered onto a data tape. Scott Nordwall at the Center for Urban and Regional Affairs converted the information from the paper survey forms to a computer format ready for analysis, and the final computer file was prepared by the Minnesota Center for Survey Research.

Data cleaning involved the use of a computer program to evaluate each case for (1) variables with values out of range, and (2) inappropriate branching on screening and filter questions. In addition, the file was examined manually to identify cases with paradoxical or inappropriate responses.

COMPLETION STATUS

A total of 682 individuals were interviewed for the Summit-University Community Survey. An additional 289 individuals refused to participate, and 23 were eliminated because of a physical or language problem. The remaining category in Table 2 represents situations where the interviewer could not interview anyone, either because the phone number had been disconnected, the phone number did not match the household living at that address, or multiple attempts had not resulted in any contact with the resident.

The overall response rate for the survey was 69 percent. This compares favorably with other social surveys which generally have response rates of 70 to 75 percent.

TABLE 2

SUMMIT UNIVERSITY COMMUNITY SURVEY FINAL STATUS OF INTERVIEWING

<u>Status</u>	<u>Number</u>	<u>(%)</u>
Completion	682	(42%)
Refusal	289	(18%)
Physical or Language Problem	23	(1%)
Other	613	(38%)
Total	1,607	(99%)

Response Rate * 69%

* Response Rate was calculated by the following formula:

$$\text{response rate} = \frac{\text{completions}}{\text{potential interviews}}$$

Potential interviews were defined as all instances where contact was made with the selected individual, and were represented by the sum of the first three categories in Table 2.

READING THE QUESTIONNAIRE AND RESULTS SECTION

The questionnaire and results section of this report is a replica of the questionnaire. It contains the response frequencies and percentages for each question in the survey. The absolute responses of all 682 respondents are shown for each question. Percentage distributions are also presented; "valid" percentages were computed after eliminating those who refused to answer, did not know, or were not required to answer a particular question.

The question numbers were used as variable labels in the computer data file. This information is provided as documentation for those who wish to use a computer and the SPSS software package for more detailed analysis.

A. COMMUNITY IMAGE

The first questions are about your perception of your neighborhood.

A1. What do you call the neighborhood you live in?

Aurora/St. Anthony	01	17	3
Central Village	.02	15	2
District 8	.03	1	0
Jamestown	.04	1	0
Laurel Hague	.05	13	2
Lonnie Atkins	.06	3	0
Portland Selby	.07	9	1
Ramsey Hill	.08	69	11
St. Phillips Gardens	.09	2	0
Selby-Dale	.10	87	14
Summit-University	.11	231	37
St. Paul	.12	22	4
Other (SPECIFY)	.77	156	25
DK	.88	36	
RA	.99	20	

(SPECIFY OTHER HERE)

A2. How many years have you lived at your current address?

See Appendix A, Page A-2

A3. Do you think you might move in the next five or 10 years?

Yes, 5 years 1	283	45
Yes, 10 years 2	43	7
No 3	308	49
DK 8	41	
RA 9	7	

A4. Is there enough open play space in your neighborhood?

Yes 1	416	67
No 2	205	33
DK 8	47	
RA 9	14	

A5. In your neighborhood, how often are you concerned about your safety ... very often, pretty often, or not very often?

Very often 1	114	17
Pretty often 2	175	26
Not very often 3	388	57
DK 8	3	
RA 9	2	

The rest of the questions on this survey are about what is called the Summit-University community. We have identified your neighborhood as being part of this community. The Summit-University community's boundaries are Summit and University, with the Cathedral on one end and Lexington Avenue on the other end.

		<u>Freq</u>	<u>Adj%</u>
A6. How would you rate the Summit-University community as a place to live compared to other communities in the Twin Cities area ... much better, slightly better, slightly worse, or much worse?	Much better. 1	134	21
	Slightly better. 2	308	49
	Slightly worse 3	165	26
	Much worse 4	25	4
	DK 8	38

G. DEMOGRAPHICS

Before ending this survey there are a few remaining background questions. As I mentioned before, all the information you give us is confidential and no one else will know what answers you give.

G1. What is your current marital status?
(DO NOT READ LIST)

Married	1	266	41
Single	2	249	38
Divorced	3	56	8
Separated	4	15	2
Widowed	5	70	11
DK	8	0	
RA	9	26	

G2. What year were you born?

See Appendix
A, Page A-7

G2a. (IF BORN BEFORE 1927) Is there anyone living in your household who is under 60 years old?

Yes	1	31	39
No	2	49	61
DK	8	31	
RA	9	2	
NA	0	569	

G3. Do you own or rent your residence?

(SPECIFY OTHER HERE)

Own	1	372	56
(IF OWN, GO TO G4)			
Rent	2	282	43
Other (SPECIFY)	3	4	1
DK	8	2	
RA	9	22	

G3a. (IF RENT) Have you ever filed your rent credit statement with the state? (NOTE: this is also called a Certificate of Rent Paid)

Yes	1	215	83
No	2	44	17
DK	8	23	
RA	9	0	
NA	0	400	

G4. How many people are living in your household now including yourself?

See Appendix
A, Page A-8

G5. What kind of housing unit do you live in? (DO NOT READ LIST)

Single family detached01	293	44
Townhouse02	38	6
Duplex or 2-unit building03	93	14
Apartment building with less than 5 units04	71	11
Apartment building with five or more units05	111	17
Co-operative06	7	1
Commune07	11	2
Mobile home08	0	0
Something else (SPECIFY)09	42	6
DK88	1	
RA99	15	

(SPECIFY OTHER HERE)

Freq Adj%

G6. What race do you consider yourself? (DO NOT READ LIST, BUT CODE THE FOLLOWING)

White/Caucasian.01	380	57
Mexican/Hispanic02	7	1
Black/Afro-American.03	243	37
American Indian/Native American.04	6	1
Oriental05	1	0
Asian.06	7	1
Mixed, no dominant racial identification	.07	13	2
Other (SPECIFY).08	8	1
	DK88	2
	RA99	15

(SPECIFY OTHER HERE)

Now I'd like to know the employment status of the person in your household who contributed most to the household income in 1986.

G7. Did this person have a paying job last week?

Yes.	1	496	76
No	2	157	24
(IF NO, GO TO G7c)			
DK	8	2	
RA	9	27	

G7a. (IF YES) Were they working full-time or part-time?

Full-time.	1	456	93
Part-time.	2	37	8
DK	8	1	
RA	9	2	
NA	0	186	

G7b. (IF YES) What is their main occupation? What kind of work do they do?

Blue collar.	1	102	22
Lower white collar	2	98	22
Upper white collar	3	189	41
Professional	4	67	15
DK	8	15	
RA	9	25	
NA	0	186	

G7c. (IF NO) Are they: (READ LIST)?

	<u>Yes</u>	<u>No</u>	<u>DK</u>	<u>RA</u>	<u>NA</u>	
G7c-1 Underemployed.	12 (18)	53 (82)	92	0	525	Freq (%)

Introduction
Summit/University Needs Appraisal Project
Winter 1987

A. Hello, my name is _____. I'm calling for the Summit/University Needs Appraisal Project. Your household has been chosen randomly by a scientific procedure to be interviewed for this project.

B. The first thing I need to do is verify that I've contacted the household that was selected for this study.

Is this the _____ household? (IF NO) I'm sorry, I must have a wrong number.

C. This project is being done by the Summit-U community, as a way for the community to set its own agenda of issues, needs, and priorities. The questions are about such things as community image, housing, and law enforcement.

D. Are you an adult, over the age of 18, who is currently living in this household?

(IF YES, GO TO PARAGRAPH E.)

(IF NO, ASK TO SPEAK TO AN ADULT AND WHEN THEY ARE ON THE LINE, REPEAT PARAGRAPHS A AND C AND THEN GO ON TO PARAGRAPH E.)

(IF AN ADULT IS NOT AVAILABLE) When would be the best time to speak with that person? (SPECIFY DATE AND TIME:)

DATE: ____ / ____ TIME: ____ : ____

What is his/her first name? _____

E. This survey can either be done over the telephone, or we could have someone come to your house to speak with you. Would you prefer to do the survey on the phone or in person?

Phone. 1
(IF PHONE, GO TO F)
In person. 2

(IF IN PERSON) When would you like someone to come over to your house?

DATE: ____ / ____ TIME: ____ : ____

CURRENT ADDRESS:

F. Your answers will be put with a lot of other people's, so you can't be identified in any way. If there are questions you don't care to answer, we'll skip over them. Okay, we'll begin.
