

# Capacity Building in Resource Mobilization for IDRC Research Partners

**Bringing the Proposal to Life**

# Where are we going?

## Project Outcomes

The project seeks to affect change among IDRC research partners...

- Individuals at managerial level;
- Southern organizations engaged in development research;

And also ourselves...

- PBDD and IDRC.

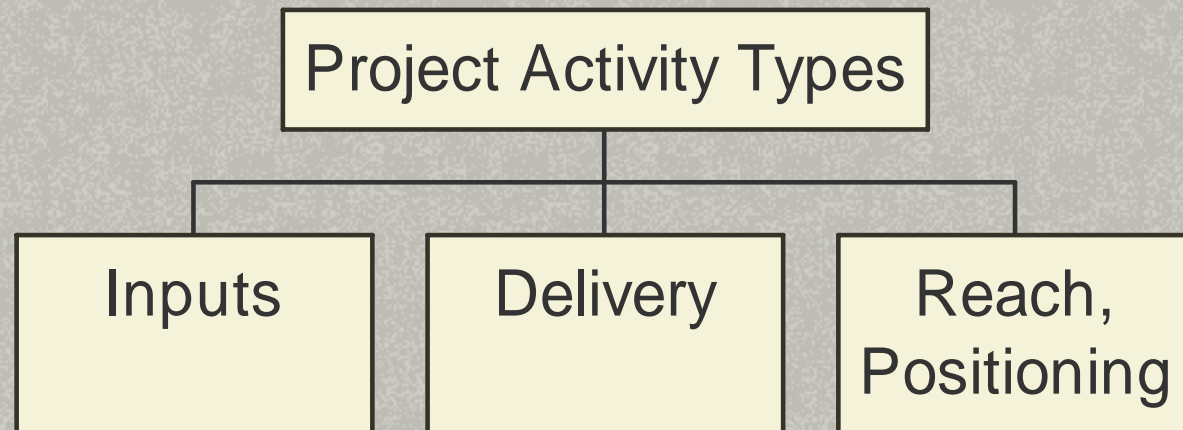

# Five Project Objectives

- A Refine training tools
- B Strengthen capacity and skill sets
- C Promote development of expertise
- D Interact with RM sector
- E Capture Learning

# Mosaic Approach to Project Implementation

# Project Activities: Delivering Capacity Building

- workshops
- post-workshop monitoring
- seed funds
- advisory services
- promote community of practice

# Project Activities: Inputs

- Design M&E system
  - conceptual framework
  - tracer studies
- Needs assessment learning
- Develop customized training tools

# Project Activities: Inputs

- establish processes to share lessons learned
- discuss at PBDD Annual Mtg

# Project Activities: Inputs

- Scoping study
- Ongoing consultation with program unit staff ..... Formation of Advisory Group

# Input: Advisory Group

- RM experience and/or interest
- Post workshop monitoring and assistance
- Program delivery modalities to promote individual and organizational learning
- Assessing capacity building
- Promoting community of practice
- Dissemination strategy

# Project Activities: Extend Project Reach, Positioning

- dissemination strategy
- network and share lessons learned with RM sector and other donors
- scholarship fund ???
- discussion with Senior Management

# Implications: IDRC partners

Learning is most intense among those most involved....

- WHENEVER possible, engage IDRC partners
- Input and reach activities may engage IDRC partners for the dual purpose of rendering the desired project, and building capacity

# Implications: Roles

## PBDD Officers

- Specific activities
- Engaged in delivery and reach activities
- Make space for dialogue and learning

## Coordinator

- Big picture
- Flow of input and reach activities
- Promote team dialogue, learning

# Implications: Tool for Team Communication

- Take stock of disperse activities
- Understand and visualize how clusters of activities are related, how big picture flows
- Other .....
