UBC: Tim Green, Kristina Michaux, Najma Moumin

IDRC: Annie Wesley

External Advisory Board: Klaus Kramer and Shawn Baker

FF4F Advisory Board Meeting Agenda

Time	Topic	Speaker/Facilitator(s)
5:00 – 5:10	Introductions	All
5:10 – 5:20	IDRC/CIFSRF support for global research on food security and nutrition	Annie Wesley, IDRC
5:20 – 5:30	Overview of the FF4F program and summary of implementation activities	Tim Green (UBC/SAHMRI) Zaman Talukder (HKI)
5:30 – 6:30	Discussion questions: <ol style="list-style-type: none">1. After learning about the achievements, findings and challenges of the FF4F project, what in your view should be our next steps to achieve further scale up?2. Have we demonstrated efficacy of EHFP in improving nutritional status?3. What else could we address through EHFP to help move the needle on stunting? Or is it more of an issue of doing existing components well and more systematically, rather than adding new elements?4. What are the possible opportunities for conducting multi-country research on the impact and sustainability of HKIs EHFP program?5. Do you have any thoughts on opportunities for EHFP around prevention of food losses	Facilitators: Tim Green (UBC/SAHMRI), Zaman Talukder (HKI)

	<p>and waste, as these are important components of the Zero Hunger Challenge?</p> <ol style="list-style-type: none"> 6. There has been a lot of discussion recently on the need for cost effectiveness in Nut Sen Ag programming - Is this something you see as being paramount? 7. NGOs like HKI are pushing for nutrition investment through our advocacy efforts at all levels, but how can donors do more in advocating for governments to increase their investment on nutrition in balance with their investment in other areas? 8. Donors stress that investing in nutrition is fundamental to development, and that tackling malnutrition is one of the most effective ways to boost economic development. How would you as donors see investment in this sector going in the next 5-10 years, especially in LMICs like Cambodia? And what would be their priorities for the investment in terms of nutrition sector? 9. Have you come across notable wins from any country whereby various stakeholders outside government (UN, Civil Society, Donors, academia) have successfully advocated for or held government accountable for implementation of commitments to substantial increases in investment in nutrition sector? 	
7:00 pm	Reception and Dinner – Le SUD
