Vision Statement

Alpha Ramble is a mobile application for users who are lost with letters. Users can get guidance to figure out what words they find with the letters they have. It takes the letters out of your hands and returns to you words that can help you win cash, like in the show of Wheel of Fortune, or help you beat your friends in the board game Scramble. User will be able to add some restrictions like "give me words that only have the letter 'a' in the second placement of the word". Alpha Ramble will be the end to all scandals. Unlike other applications, Alpha Ramble will be able to provide you with points for Scramble. This mobile application will be able to run cross-platform.
