About Us

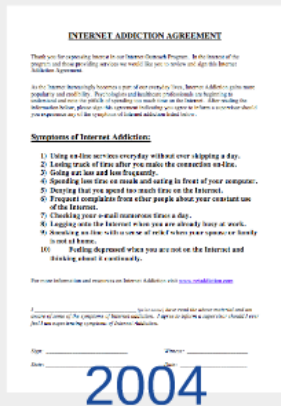

Kenny Neal Shults has worked with adolescents for over 20 years. He specializes in HIV prevention and risky behavior change with a variety of "at risk" populations. Kenny is also an actor, writer, filmmaker, and stand up comedian. For over 14 years he has specialized in developing guidance and programming that utilizes new media for prevention and health promotion.

Emily Hanlen has a Masters in Education and a Masters in Public Health. She was a public school teacher in East Harlem New York for four years, where she taught 6th and 8th grade English classes. Emily received her MPH in Global Health from NYU and now works in the field of sexual and reproductive health and education for high-risk adolescents. She is currently exploring the impact that non-clinical services have on risk-behaviors of teens in immigrant communities.

Together Kenny & Emily deliver CHS' most innovative new-media programming to adolescents (and their providers) from every walk of life.

iCBA Internet-based Initiatives
Capacity Building Assistance

2007

iCBA assists agencies to:

- ▶ Develop sound infrastructural components of Internet-based health promotion and HIV/STI prevention programming
- ▶ Increase staff capacity to deliver web-based health promotion and HIV/STI prevention services to a variety of target populations
- ▶ Develop protocols, policies and procedures for conducting consistent, ethical and confidential Internet-based health services
- ▶ Increase staff and agency capacity to evaluate the effectiveness of Internet-based efforts
- ▶ Increase agency capacity to monitor and manage front-line Internet-based staff
- ▶ Increase management and agency capacity to ensure staff privacy and safety
- ▶ Reduce the potential for compulsive internet use by staff
- ▶ Decrease agency liability associated with working with minors
- ▶ Increase staff and agency capacity to utilize mobile communication technologies in the delivery of health and prevention services

Preventing Digital Disasters

MyMedialife is a program that takes any population through a process where they envision, design, and produce their own beautifully crafted pieces of social marketing (commercial-length videos or posters) that can be leveraged by the host agency as online outreach, marketing, or fund-raising tools. The campaigns can surround any area of focus including:

- Behavioral Issues - bullying, violence, unhealthy relationships
- New-Media Abuses - texting while driving, sexting and cyberbullying
- Environmental Concerns - recycling, water conservation, fire prevention
- Public Health Issues - smoking cessation, STD/HIV prevention, teen pregnancy prevention
- Mental Health Issues - depression, suicide, anxiety, addiction

Effects of MML on Participant Self Efficacy in Getting SRH Info from PP Clinic

As a result of engaging in the MML process participants' perspectives and behaviors around the chosen topic are forever altered as they gain a fuller understanding of the issue, new media, their values, emotions and motivations, all while enhancing cognitive-behavioral skills.

AGENCY BENEFITS

These campaigns can be used for community-level behavior change, recruitment and outreach, public awareness, and can also be leveraged as marketing, branding, and fund-raising tools for the host organization.

Preventing Digital Disasters - in this new communications landscape driven largely by new media (email, SMS, social media) interpersonal skills and responsible new-media use are quickly becoming scarce among teens and adults alike. The impact of this shift can be seen all around us.

- TEXTING WHILE DRIVING
- SEXTING
- CYBERBULLING
- SOCIAL MEDIA OVER-SHARING
- ADDICTION TO LIKES
- SCREEN OBSESSION
- DEPENDENCE ON TEXTING FOR DIFFICULT COMMUNICATIONS
- DECREASE IN MOTORIC AND PRE-FRONTAL BRAIN MATTER
- INCREASE IN NEGATIVE MOOD

DYNAMIC AND FUN WORKSHOPS THAT CHANGE DIGITAL BEHAVIORS AND ENHANCE INTERPERSONAL SKILLS

OUTCOMES INCLUDE:

- NEW MEDIA LITERACY
- BETTER COMMUNICATION
- EMOTIONAL AND BEHAVIORAL CONTROL
- NEURO - BIOLOGICAL FUNDAMENTALS
- THE VALUE AND MANAGEMENT OF PRIVACY
- CONSTRUCTIVE USES OF NEW MEDIA
- EMPATHY & COMPASSIONATE ACTION

In order to facilitate the dissemination of marketing content that advertises your brand and services, CHS offers Social Media for Social Change - a capacity-building workshop series that engages participants to:

- INCREASE THEIR NEW-MEDIA LITERACY AND BETTER UNDERSTAND AND EMPLOY THE POWER OF NEW MEDIA
- INCREASE THEIR ABILITY TO GENERATE AND BROADCAST AGENCY- SPECIFIC MARKETING MATERIALS
- BUILD AND DRIVE TRAFFIC TO YOUR ORGANIZATION'S SOCIAL NETWORKS
- FACILITATE SOCIAL CHANGE THROUGH SOCIAL MARKETING - THE SCIENCE BEHIND LARGE-SCALE BEHAVIOR CHANGE!

Can be implemented as a follow up to MML to disseminate digital products produced by MML, but no pre-requisites are necessary to participate in SM4SC

ALL PROGRAMS CAN BE DELIVERED TO:

AGENCY STAFF

To build in-house and/or institutional capacity.

TARGET POPULATIONS

Engage youth or other population in creation of their own new media marketing.

Internet Addiction
Texting While Driving
Sexting
Cyberbullying
Social Media Over-Sharing
Addiction to Likes
Screen Obsession
Text walking
Dependence on SMS for Difficult Communications
Decrease in Motoric and Pre-frontal Brain matter
Increase in negative mood offline

A psycho-educational workshop series that uses behavioral science, new media, positive reinforcement, and fun to generate a branded social marketing campaign while changing behaviors.

- Fun
- Extremely dynamic
- Nonjudgmental
- Youth As partners model - participants develop campaign, not adults

- Does not lecture
- Not punitive
- No negative reinforcement
- Does not take the process away from participants

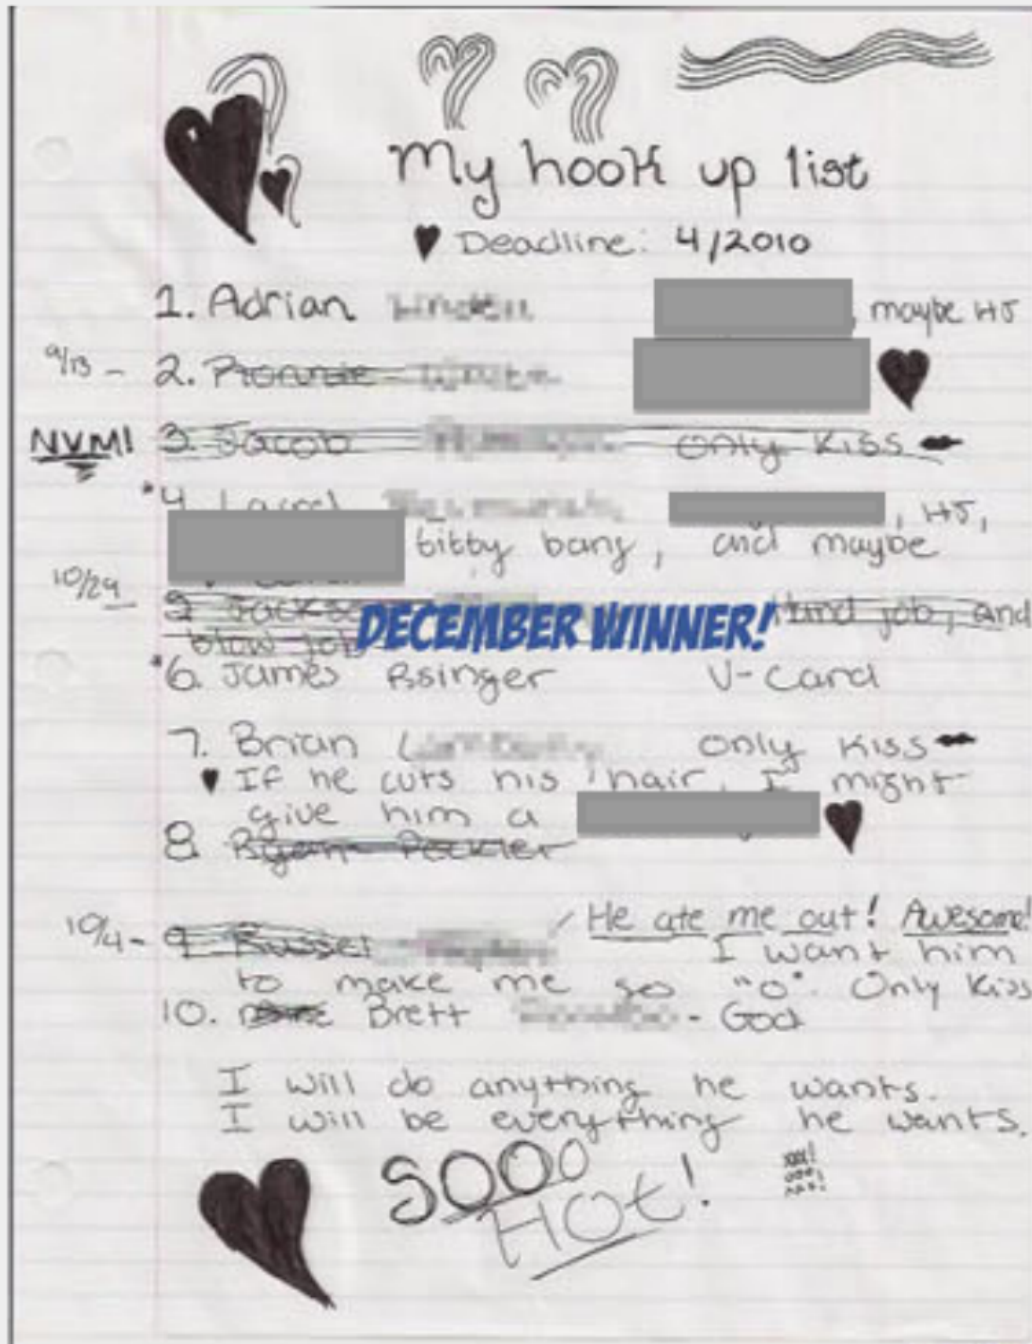

What is

Digital Aprosodia

"Facetime" - 2013

EXAMPLE DISASTER!!!

What do you think the brother was thinking? Feeling?

What do you think happened to the sister?

What do you think their relationship will look like in the future?

What is Social Marketing?

Social marketing is the systematic application of marketing, along with other concepts and techniques, to achieve specific behavioral goals for a social good.

History of Social Marketing:

The U.S. government sold bonds during the Civil War through newspaper ads for free in Northern newspapers.

National Child Labor Committee used this format to dramatize the outrages of child labor in the early 1900s.

The device was so effective that the national bond sales have been credited with demonstrating “what advertising could do” and resulted in the first national ad campaigns for baking powder, soap and railroad travel, thus launching the commercial advertising industry.

Six million women moved into the workforce to replace the men and help manufacture war materiel.

Another wartime campaign, Loose Lips Sink Ships, urged Americans to keep quiet about information that might be useful if heard by the enemy.

This is your brain.

This is your brain on drugs.

Was this effective?

The time of the personal broadcaster

32 percent of consumers actually consider themselves to be a "broadcaster" of their own media

45 percent are creating personal content for others to see

54 percent are increasingly making their OWN entertainment

69 percent of consumers are watching/listening to content created by other consumer/broadcasters

my media life™

Activities and Learn Units

What is MyMediaLife?

MyMedialife is a process where my peers and I come together to create a video campaign about an issue that affects us.

There are no bosses in this group. We work as a team and receive support from each other and our adult partners.

Some of us will be leaders, some of us will be idea people, some of us will be logistics people, some of us will want to be in front of the camera, some will want to be behind the camera, some will try to steal the camera!

These roles and negotiations will be OURS to make and this will be a dance that we will discover as a group through teamwork, support, and cooperation.

We will be answerable to ourselves and each other, not to Kenny, Emily, or any adult partners. My team and I will need to address issues that arise AS A TEAM. We will be challenged to organize ourselves and cooperate to meet deadlines, execute missions, and do everything we need to make a movie.

Most of the time we are used to adults running the show, but this time the show is ours.

New Media Primer

When were you born on this timeline?
Why is it important to know when these innovations were introduced?

Arpnet -
first
Internet

Telephone

	1800	1850	1900	1950
e. First email	Before 1800	1800- 1850	1851- 1900	1901- 1950
f. First cell phone	Before 1800	1800- 1850	1851- 1900	1901- 1950
g. First text messaging	Before 1800	1800- 1850	1851- 1900	1901- 1950
h. First smartphone	Before 1800	1800- 1850	1851- 1900	1901- 1950
i. Facebook invented	Before 1800	1800- 1850	1851- 1900	1901- 1950
j. YouTube invented	Before 1800	1800- 1850	1851- 1900	1901- 1950

7. On a scale of 1 to 10 (1 being the least, 10 being the most) how common are these behaviors?

1 2 3 4 5 6 7

The next questions are about words you can use to describe different behaviors. Write a word in the box below to show they have the same meaning...

Examining the issues

Activities that allow each participant to envision, develop, and produce a social marketing campaign.

Decisional Balancing

Pros and cons of:

Bullying

Sexting

Drugs

Teen Pregnancy

Name an issue

Pros of Sexting

Get laid
Hold on to partner
Confidence with opposite sex
Overcome shyness
Feel sexy
Flirt
To get them to send one back
Validating
Show friends
They show friends
Feel grown up
Feel cool

Take control of relationship
Strengthen relationship
Something to do
Connects you for life
Thrilling/exciting
Leverage/blackmail
Compete with other girls
Reach out
Get interest
Memento
Trophy
Joke/prank
Feel like model
Temporary self-esteem
Society and pressure to be sexy

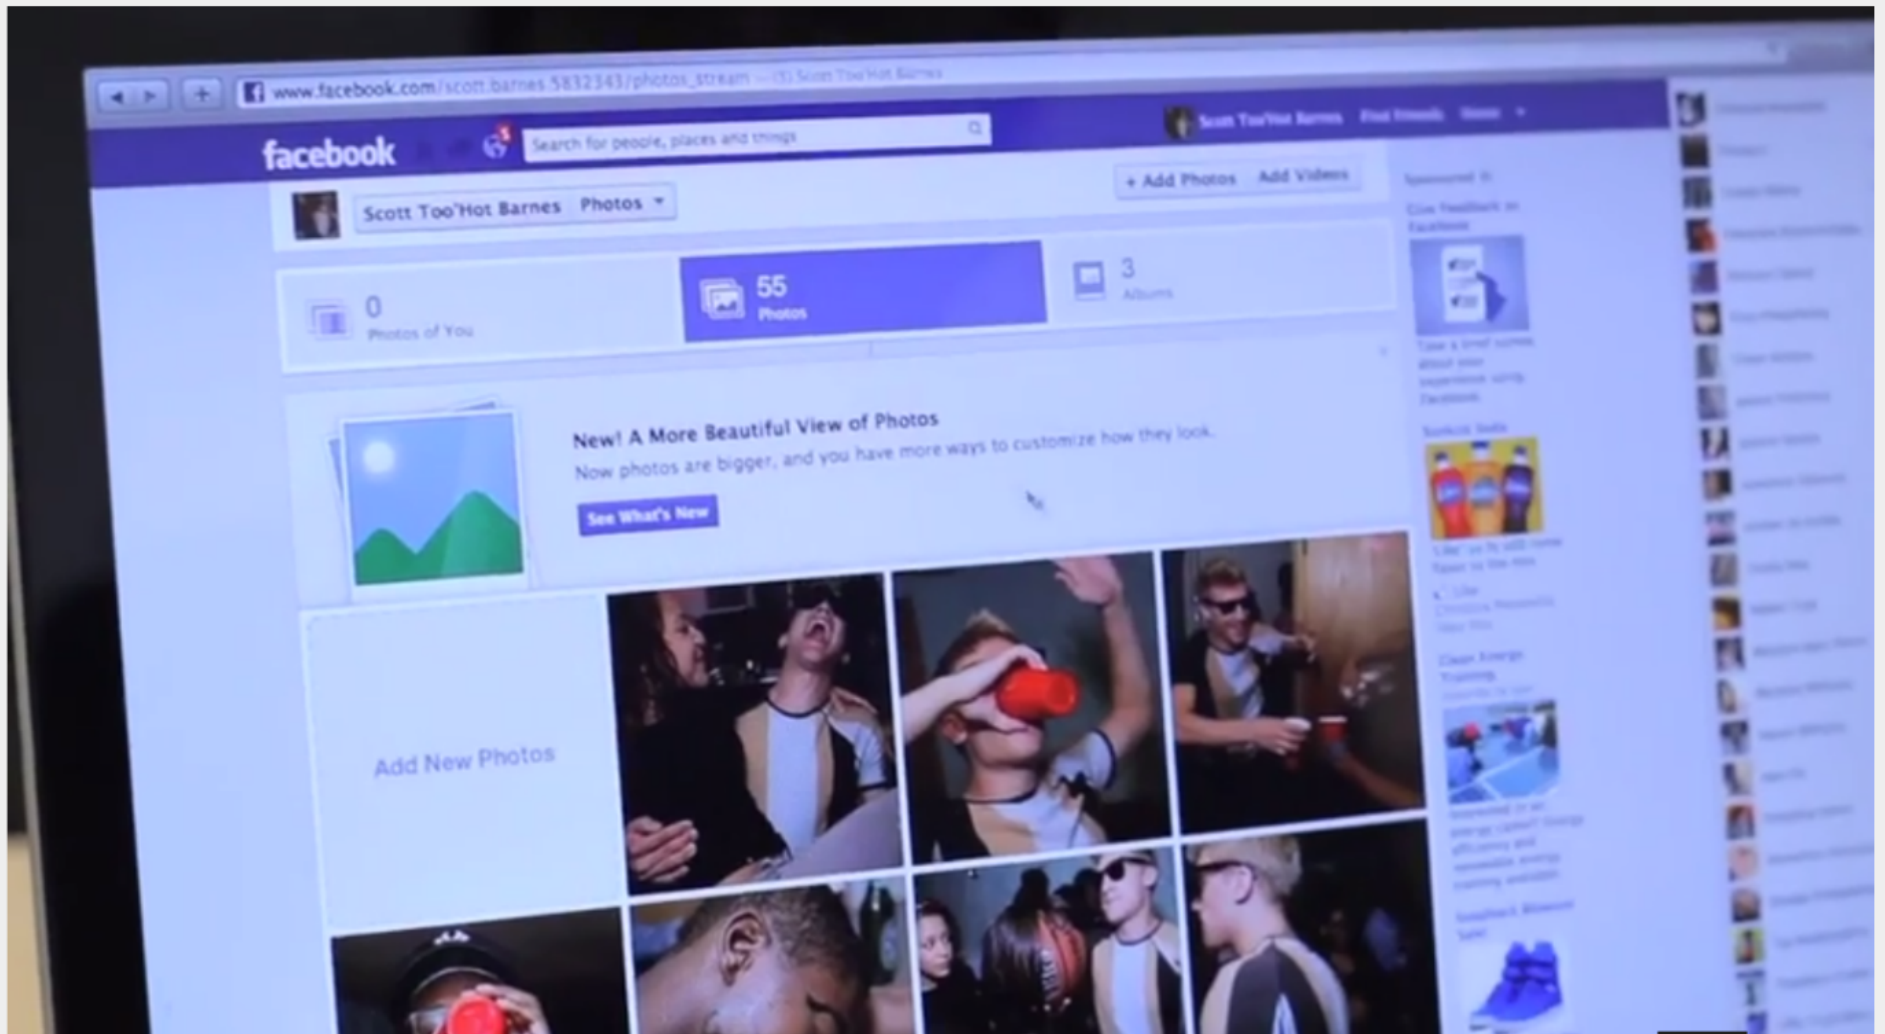

When Brainstorming in a social setting they reflect more carefully on these truths and learn some new ones. They unpack these themselves after the activities and ultimately use this experience to make better choices.

Level of Recommendation of MML to Other Teens

How has your attitude changed toward the PSA topic?

"I also realized how stereotypes can be formed and words should be chosen wisely so they won't be offensive to the audience."

"I've learned how to be patient and understanding."

How will you put into practice the information you learned about the PSA topic?

"Tolerance and understanding."

"I will definitely explain to my friends what the issues were and how to look at them in a better way or more positive way." □

How will you put into practice the new skills you learned?

"I learned a lot about writing scripts and filming. I also learned that not everyone is going to agree with what you're saying and compromise works best to conquer the situation." □

"I will put my new organization skills towards my school work!"

"I'm going to listen to others and focus on positive feedback instead of negative."

How did your ability to contribute to the making of the PSA surprise you?

"Usually I don't participate or contribute. But, the group of peers were very accepting and encouraging making an easy to participate atmosphere."

"It showed I am really good working with different people."
