CHRISTOPHER S. BOND
GOVERNOR

May 6, 1984

GREETINGS:

As Governor of the State of Missouri, it is my pleasure to welcome the International Conference on Case Histories in Geotechnical Engineering to St. Louis.

With our state's variety of geological formations, we Missourians have special reason to take interest in the data shared at this important conference.

During your stay, I hope you will have time to enjoy some of the many attractions St. Louis offers its visitors. Ranging from the Gateway Arch to historic sites, museums to riverboats, St. Louis offers cultural or entertainment attractions for everyone.

My best wishes for a productive and rewarding meeting and for a pleasant stay in St. Louis.

Sincerely,

GOVERNOR

MESSAGE

I am happy to learn that the International Conference on Case Histories in Geotechnical Engineering is being organised at St. Louis MISSOURI (USA) in May, 1984. This is an important theme. Compilation of such data/information would be very useful for reviewing traditional theories and evolving new methodologies.

It is significant that the Central Building Research Institute, Roorkee (India) is co-sponsoring the Conference. I believe the involvement and participation of CBRI scientists and engineers will provide useful feedback leading to more purposeful research.

I send my felicitations and best wishes for the success of the Conference.

(Shivraj V. Patil)
