An Ongoing National Challenge

2012	Engage to Excel: Producing One Million College Graduates with Degrees in Science, Technology, Engineering and Mathematics
2011	Complete College Georgia
2007	Rising Above the Gathering Storm
2004	The Engineer of 2020: Visions of Engineering in the New Century
2001	Federal No Child Left Behind Act
1983	A Nation At Risk: The Imperative for Educational Reform

By 2020, it's anticipated that 60% of jobs will require some form of higher education (certificate, associate's, bachelor's).

Currently, 42% of our young adults (age 25-34) qualify.

100 Georgia Public 9th Graders

56 Graduate High School

24 Start a 4-year College

19 Become Sophomores

6 Graduate Within Time

13 Start a 2-year College

6 Become Sophomores

3 Graduate Within Time

91% Loss

STEM *Education* is Critical

PCAST's conclusion:

1,000,000 STEM graduates → **10 years**

Currently, of all intended STEM majors:

40 percent → **complete degree**

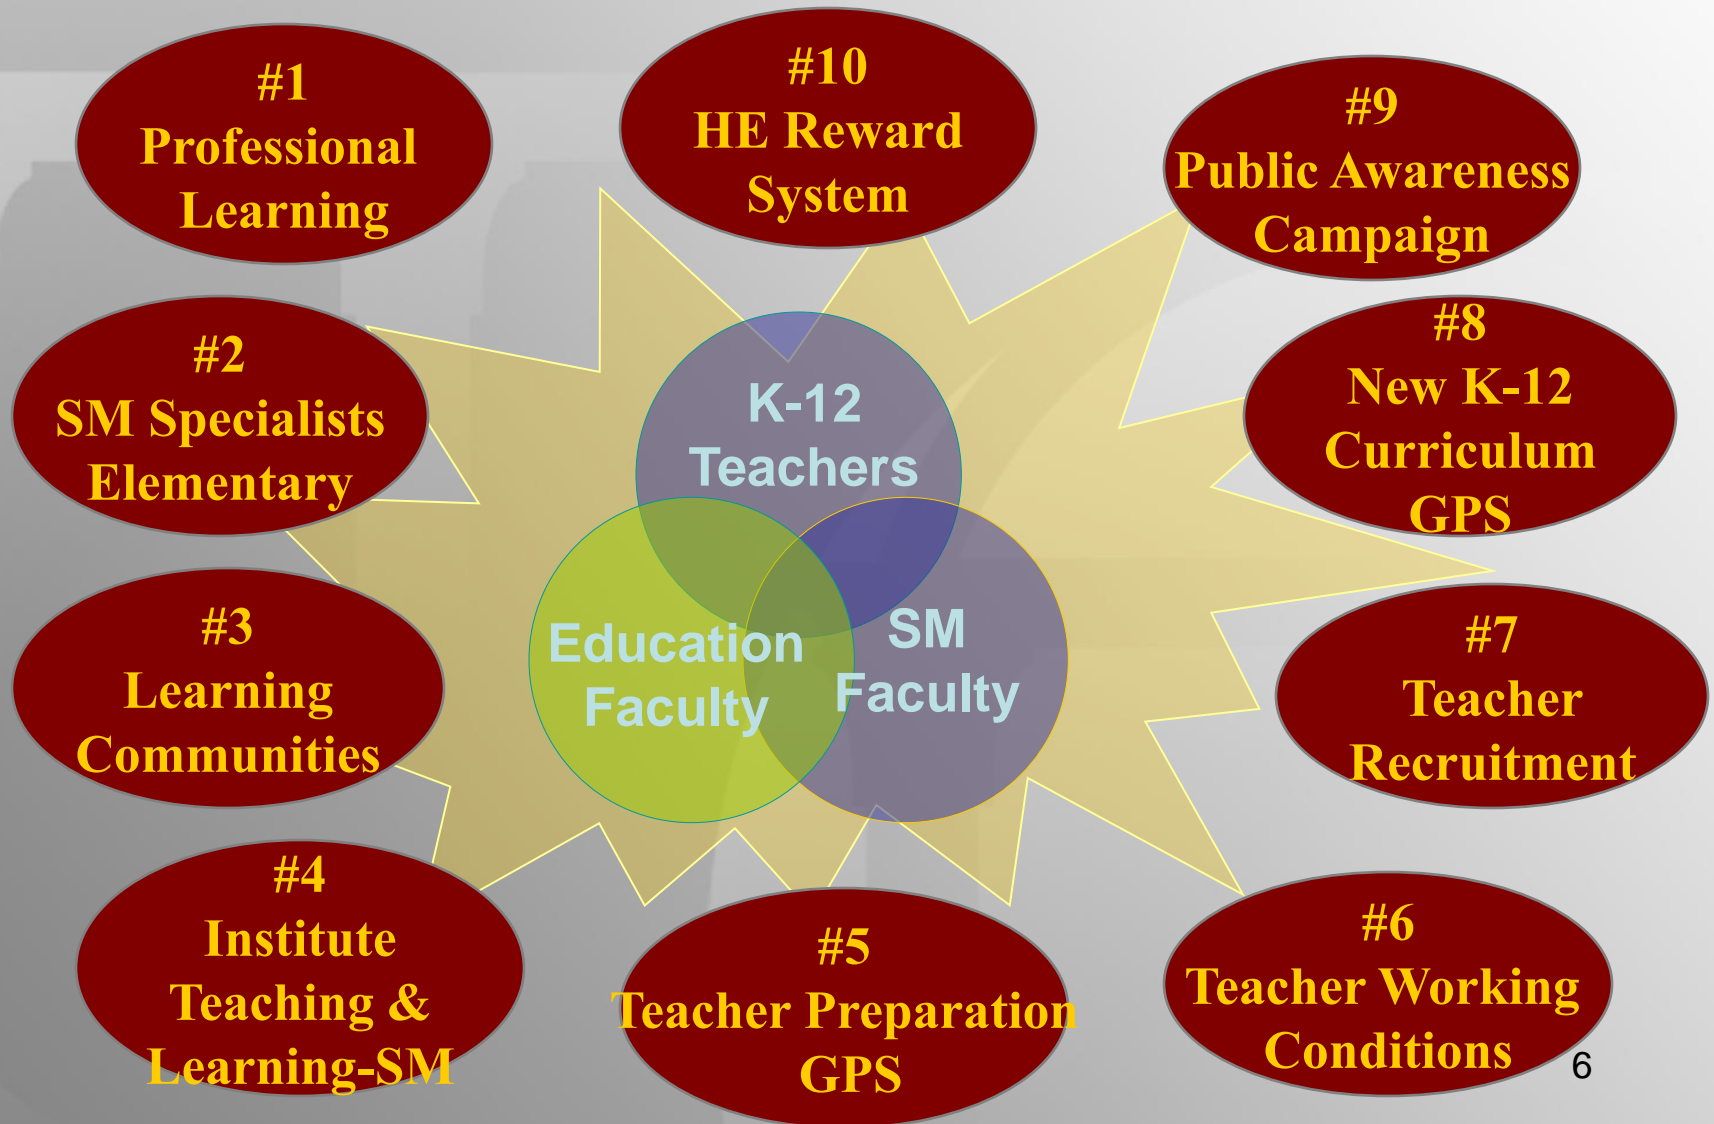

Georgia's commitment:

expanding access and success through innovative practices

Setting the Stage

- HOPE Scholarship (1993)
- Regents' P-16 Initiative (1995)
- Regents' Principles for the Preparation of Educators for the Schools (1998)
- The Partnership for Reform in Science and Mathematics-- PRISM (2003)

8.3.15 Enhancing Teaching and Learning in K-12 Schools and USG Institutions

The BOR recognizes the value of USG faculty engagement in the effort to continuously improve teaching and learning in K-12 schools and USG institutions.

- **Work in K-12 Schools**

USG institutions **will support and reward faculty who participate in significant and approved efforts to improve teaching and learning in K-12 schools, including teacher preparation**, through decisions in promotion and tenure, pre-tenure and post-tenure review, annual review and merit pay, workload, recognition, allocation of resources, and other rewards.

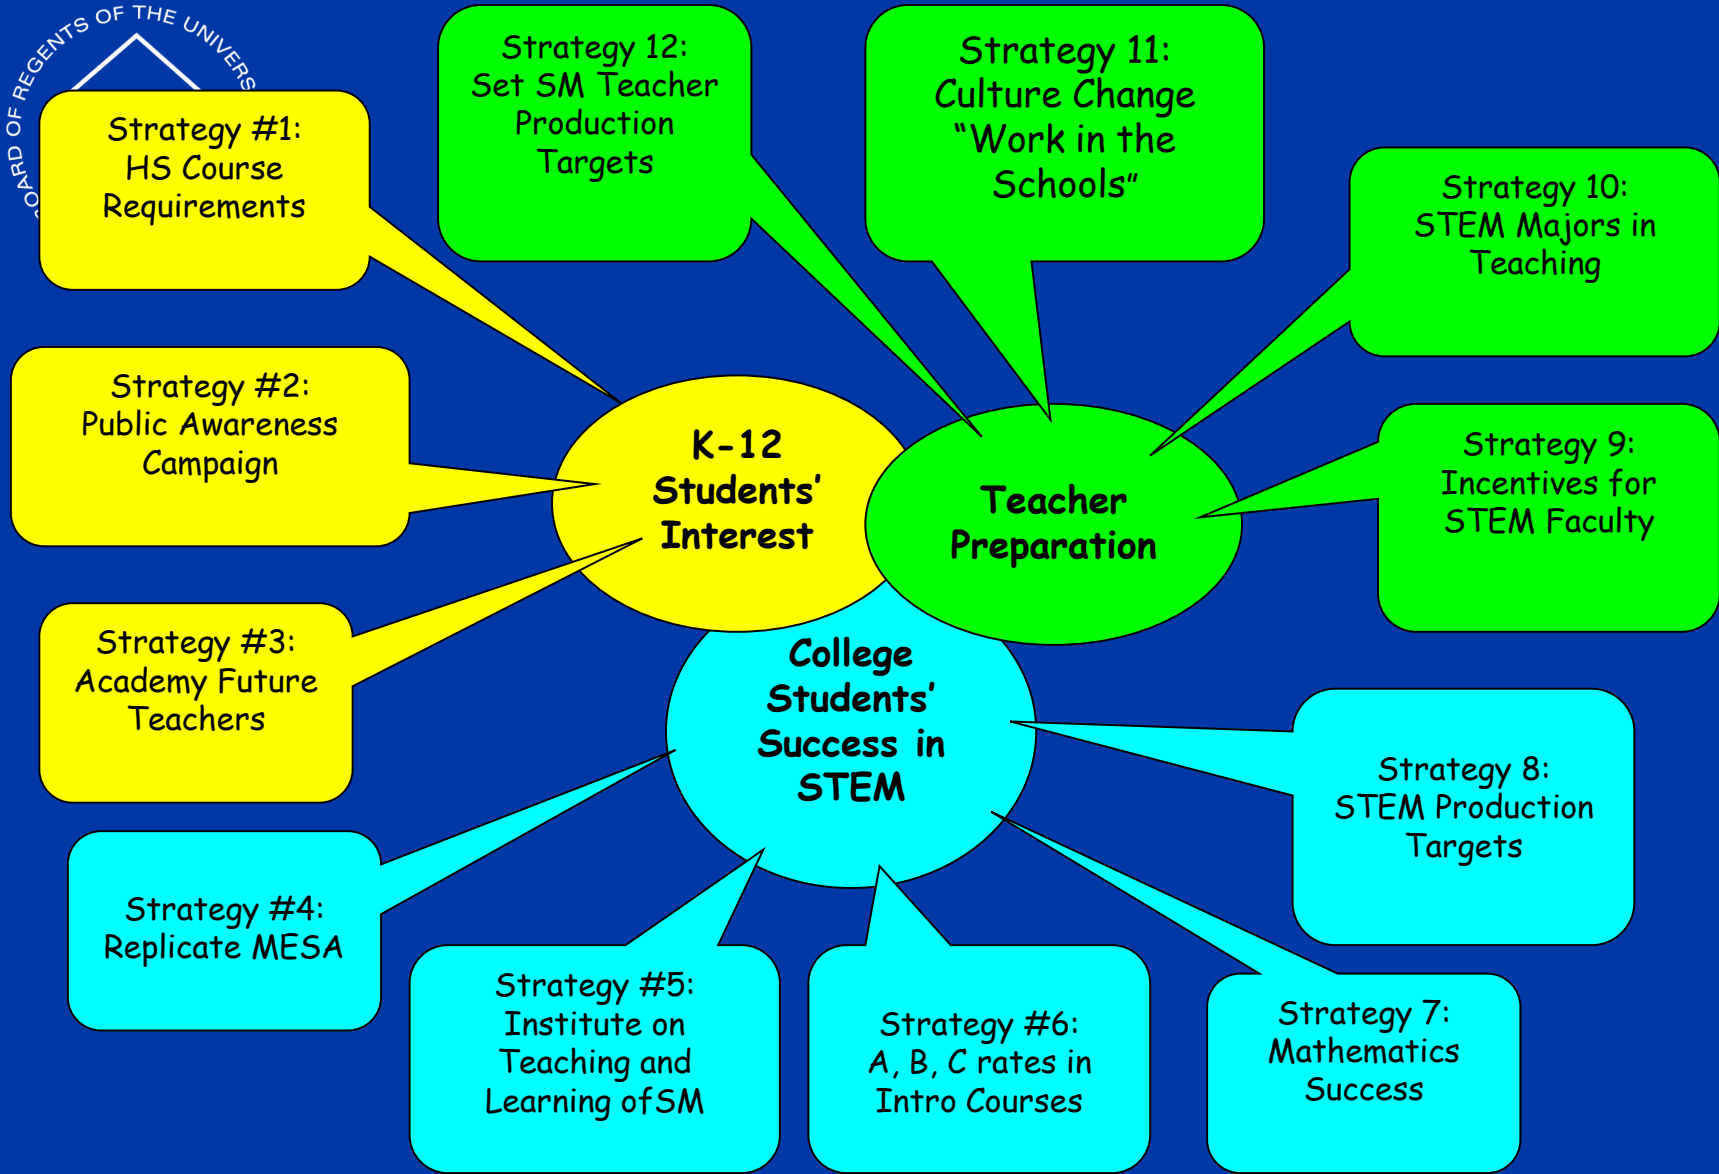

- **Work in USG Institutions**

USG institutions will **support and reward faculty who participate in significant efforts to improve teaching and learning in USG institutions** through decisions in promotion and tenure, pre-tenure and post-tenure review, annual review and merit pay, workload, recognition, allocation of resources, and other rewards.

USG STEM Initiative I

- Launched by Chancellor as a Presidential Initiative (2007-2011)
- Three Goals:
 - Increase the number of K-12 students interested in STEM
 - Increase the number of students in college who pursue the STEM disciplines
 - Increase the number of teachers prepared in science and mathematics

Key Programs & Outcomes

- Academy of Future Teachers
 - Attract talented HS students to teaching profession
 - FY 2008 – FY 2010: 6 Institutions
 - 334 High School students participated in AFT

Key Programs & Outcomes

- **Project MESA** (Mathematics Engineering Science Achievement)
 - Increase retention of underrepresented groups in STEM fields at 2-yr institutions
 - 95.8% increase in participation (119 to 233)
 - Increased retention rate
 - Increase in the number of students transferring to 4-yr institution

Key Programs & Outcomes

- **Structured Mini-Grant Program**
 - Faculty collaboration in K-16 Learning Communities & SoTL activities
 - Work to increase success and retention in introductory STEM courses
 - FY 2009- 80 Mini-grants funded
 - FY 2010- 57 Mini-grants funded
