THE MINER FORTY-NINER

AS PORTRAYED
IN THE 1949
ROLLAMO, EDITED
BY THE STUDENTS
OF THE MISSOURI
SCHOOL OF MINES
AND METALLURGY . . .
ROLLA, MISSOURI
MAY, 1949

O U R T H E M

ONE hundred years ago the forty-niners proceeded toward a land of gold and adventure. Some of them were successful, but for the most part the search led only to hardship and disappointment.

During the past century man has increased his technical knowledge by leaps and bounds. The young engineer has a bright future to look forward to as he steps forth into this modern world.

E F O R ' 4 9

The Missouri School of Mines and Metallurgy has cast its influence about the advancements made in the twentieth century. Mankind has profited greatly and will continue to do so as man expands his knowledge of worldly goods and their uses.

Today, men are confronted with many problems similar to those experienced by the forty-niners. With greater knowledge and new techniques the engineers of tomorrow eagerly anticipate what the future holds for them.

FOREWORD

HERE is the book which we feel portrays the life of the MINER during 1948-1949. The Missouri School of Mines enrollment hit an all-time high this year which means that the ROLLAMO '49er will also be the largest in history.

More students, campus organizations, and other activities are represented in this volume of the ROLLAMO than ever before. Other timely additions are included in the opening section, which is highlighted by President Middlebush and the Board of Curators.

With the demands of industry depending upon the engineering profession, the Missouri School of Mines and Metallurgy strives to train those students who will make advancements in science for the welfare of mankind.

CONTENTS

We have divided this forty-third volume of the Rollamo into five principal categories exemplifying college life characteristic of the Missouri School of Mines and Metallurgy.

ADMINISTRATION AND DEPARTMENTS

SENIORS AND UNDERCLASSES

ATHLETICS AT M. S. M.

ACTIVITIES AND FRATERNITIES

ST. PATS AND FEATURES

Summer Time

Twin Stacks

Reaching Skyward

Winter Time

ADMINISTRATION AND DE

We can well be proud of those men who formulate our general administrative policy. Accompanying the administration are the departments and their respective professional societies on our campus. Under their excellent leadership the MINERS are stimulated to attain high standards of professional competence.

DEPARTMENTS

Dr. Frederick A. Middlebush

**President
School of Mines
and Metallurgy
University of
Missouri**

Dr. Frederick A. Middlebush has been president of the University of Missouri since 1935. As one of the leading educators in the nation, President Middlebush has made many contributions toward bringing honor and prestige to the University and the Missouri School of Mines and Metallurgy.

At the present time he is a member of the Executive Committee of the Association of Land Grant Colleges and Universities, President of the National Association of State Universities, and member of the Commission on Organization of the Executive Branch of the Government. President Middlebush has also been a member of the Missouri Resources and Development Commission, the Executive Council of the American Society of International Law, Executive Council of American Political Science Association, the Committee on Vocational Education of the National Association of State Universities, European Conference of Professors of International Law and Relations, and many other important national organizations in education and public affairs.

Students are indeed grateful to President Middlebush for his great interest in promoting the welfare of the Missouri School of Mines and Metallurgy.

Board of Curators

The Board of Curators of the University of Missouri, of which Missouri School of Mines and Metallurgy is a division, is made up of nine members, citizens of Missouri, appointed by the Governor of the State by and with the advice and consent of the State Senate. They are appointed for terms of six years each. The terms of three members expire every two years. Members are eligible for reappointment and many have served over a long period of time.

Three members of the Board of Curators serve as the Executive Committee for Missouri School

of Mines and Metallurgy. The present Executive Committee consists of Mr. Frank C. Mann, Chairman, Mr. Stratton Shartel, and Mr. Guy A. Thompson.

Leslie Cowan, Vice-President of the University of Missouri, is Secretary of the Board of Curators and also Secretary of the Executive Committee.

The Board of Curators has made possible the many advancements in construction on the campus, including the addition to the new Chemical Engineering Building.

MEMBERS OF THE BOARD OF CURATORS

President, Allen McReynolds.....	Carthage
Vice-President, David W. Hopkins.....	St. Joseph
Mr. Rosco F. Anderson.....	Webster Groves
Mr. Frank C. Mann.....	Springfield
Mr. Harold J. Moore.....	Brookfield
Mr. Stratton Shartel.....	Kansas City
Mr. Frank Stonner.....	Chamois
Mr. Guy A. Thompson.....	St. Louis
Mr. John H. Wolpers.....	Poplar Bluff

Around the table clockwise are: Dean Curtis L. Wilson, President Frederick A. Middlebush, Mr. Leslie Cowan, Mr. Frank Stonner, Mr. Rosco F. Anderson, Senator Allen McReynolds, Mr. John H. Wolpers, Mr. Frank C. Mann, Mr. Stratton Shartel, Mr. Guy A. Thompson.

Curtis L. Wilson

Dean

Missouri School of Mines and Metallurgy

For the past eight years Dean Wilson has done an admirable job in directing the fortunes of the School of Mines. During the war his capable leadership and tireless energy kept M.S.M. an engineering institution worthy of the highest possible merit. Although expansion of the school's facilities was impossible due to the limitations of war, Dean Wilson directed extensive planning for post-war expansion. These plans are now being carried out and soon they will near completion.

Dean Wilson is well qualified for his position, having received his E.M. in 1920 at Montana School of Mines and his Ph.D. in 1928 at the University of Goettingen. His devotion and careful decisions have earned him respect and admiration from the student body. Dean Wilson's association with M.S.M. has influenced its growth and world-wide fame.

The start of a busy day.

Eleventh and State

Rex Z. Williams

Assistant Dean

Dean Williams was appointed to the newly formed office of Assistant Dean in 1946 after capably serving as Acting Dean of the faculty during Dean Wilson's absences from the campus during the two previous years. Dean Williams was first associated with the M.S.M. faculty in 1931 as Instructor of Mechanics. He became a full Professor in 1946 and is now chairman of the Mechanics Department.

Dean Williams' amiable personality, boundless energy, and astute mind have earned him membership in many honorary fraternities and societies. He will be long remembered here at M.S.M. as a superior student, an excellent instructor and administrator, and for the great work he has done as the middle man between the graduating seniors and prospective employers.

Noel Hubbard

Registrar

Mr. Hubbard has completed his sixth year as Registrar and his twenty-sixth year of service at the Missouri School of Mines. Through his capable work and untiring efforts he has gained the respect and admiration of the students.

Mr. Hubbard and his efficient office staff offer the sound advice and competent guidance that every individual student needs at some time during his years at M.S.M. Aside from his normal capacities as Registrar, Mr. Hubbard takes a personal interest in all problems presented to him by students and conscientiously endeavors to solve them to the best of his ability. Because of this interest, Miners have often affectionately spoken of him as "Mother Hubbard". M.S.M. is indeed fortunate in having such a commendable personality on its staff.

Harry J. Fields

Business Manager

Mr. Fields' first year as Business Manager at M.S.M. was in 1947. Prior to that time he served M.S.M. as an auditor. Since the large enrollment, which began in 1947, the Business Office has an additional amount of work to perform. Mr. Fields and his staff have done an excellent job during the past two years to cope with this problem in an outstanding manner.

A graduate of the University of Missouri, Mr. Fields has a B.S. in Business Administration. During the war he served in the U. S. Navy.

Although M.S.M.'s bookkeeping system is complicated, Mr. Fields is a very capable man to handle such a task. The business transactions of our outstanding institution are comparable to those of big business since M.S.M.'s recent growth.

Ernest P. Hendrix

Superintendent of Buildings and Grounds

Mr. Ernest Hendrix, Superintendent of Buildings and Grounds, performs all types of duties ranging from administrative direction to skilled electrical work. He does all of them excellently, enacting each varied function of his office with the precision and skill of an expert of that particular profession.

An electrical contractor by profession, Mr. Hendrix first served the School of Mines in 1943 in the capacity of electrician. Even now he, the most adaptable executive in Parker Hall, is called upon to straighten out and complete the seemingly impossible tasks which often confront his maintenance crew.

Mining Engineering Department

Castelli and Dare trammimg.

The present Mining Building was completed in 1926. It is equipped to present every phase of the required curriculum. On the first floor is a display of models of various types of mines, screening plants, an aerial tramway, head frames, ore bins, types of timbering, rock drills mounted to show the details of their operation and mechanism, mine safety and rescue apparatus, and blasting tools and materials. The Petroleum Engineering laboratory on the second floor affords adequate apparatus for testing petroleum products and determining the permeability and porosity of oil-bearing sand. This building is supplemented by M.S.M.'s full-scale mine. Many of the department's lab courses are conducted in this mine, thereby offering practical experience.

The petroleum engineering students are guided by Professor C. M. Davis, who came to M. S. M. in 1948.

The Mining Department chairman, Dr. J. D. Forrester, is the foremost

J. DONALD FORRESTER
Department Chairman
Professor of Mining Engineering, 1944.
B.S. 1928, Utah; M.S. 1929, Ph.D. 1935, Cornell.

authority on the serious matters common to the future exploitation engineer. Dr. Forrester came to this Mining Department in 1944. In 1945 he became chairman of this department.

Mine Surveying is instructed by W. A. Vine, who came to M.S.M. in 1947. The laboratory work in this course is conducted at the school mine. Another familiar man in the Mining Department is R. F. Bruzewski who also first taught here in 1947.

The fame of the Missouri School of Mines has been spread throughout the world by the graduates of this outstanding department.

"Can that be right?"

A. I. M. M. E.

The Student Associate Chapter of the American Institute of Mining and Metallurgical Engineers was founded on the M.S.M. campus over thirty years ago. Its object is to present to its members timely information pertaining to mining and mineral industries. Prominent members of the mining and metallurgical professions present the latest developments in their fields and answer questions at the meetings.

Under the able leadership of James Chaney, together with the enthusiastic support of the members, the A.I.M.M.E. membership was built up this year to an all-time high of over two hundred and fifty student members.

With the ever increasing interest shown in this organization it may well remain the largest student association on the campus in the years to come.

Metallurgy Building.

Metallurgical Engineering Department

In 1909 a three-story brick building with two large one-story wings and basement was erected to afford working space for the Metallurgy Department's activities. One laboratory is equipped for fire assaying of minerals and ores for silver and gold, and smelting of ores. With the apparatus provided in the Spectrographic laboratory it is possible to determine very rapidly the elements in minerals, impure metals, and alloys being tested. Samples of metals are prepared for microscopic structure study in the Metallographic laboratory. This building also provides adequate classroom space. The Ore Dressing laboratory is located in the Ceramic Engineering Building.

ALBERT W. SCHLECHTEN
Department Chairman

Professor of Metallurgical Engineering, 1946.
B.S. in Met. E. 1937, Montana School of Mines; Sc.D. 1940, M. I. T.

Metallurgy may be defined as that branch of engineering which employs the art and science of extracting the metals from ores and concentrates, refining of these metals, manufacturing of these metals and alloys produced from them, and fabricating both metals and alloys into useful shapes for utilization by mankind. Here at M.S.M. the metallurgical engineering students receive a thorough training in theory and practical application to develop sufficient technique to assure usefulness for the graduate upon entering his chosen profession.

The metallurgy curriculum provides a complete training in Process Metallurgy and Physical Metallurgy. The theory is supplemented with practical work in the required courses. The department has the equipment available to afford the student every opportunity to further his knowledge. The laboratories are equipped for research in hydro-metallurgy, pyro-metallurgy, or electro-metallurgy in the Process Metallurgy field; and for work in chemical, physical, and thermal tests accompanied with the study of microscopic and macroscopic structures in the Physical Metallurgy field.

Progress in the metallurgy field has been extensive during the past decade. Naturally the war contributed to this advancement because of the increased demand for metal and metallic material. Although small in number as compared to other types of engineers, the demand for graduate Metallurgists is constantly exceeding the supply.

The chairman of the department, Dr. Albert W. Schlechten, came to M.S.M. in the fall of 1946. In 1947 he became the Metallurgical Engineering Department chairman. Although Dr. Schlechten is not personally interested in strenuous sports, he is active in bowling and golf.

The student first meets Professor D. F. Walsh when taking Principles of Metallurgy. Next he is instructed by Professor Legsdin in Mineral Dressing courses.

American Society for Metals

The American Society for Metals is an association for students in Metallurgical Engineering which helps to acquaint them with developments in the metal industries. The object of the society is to promote the arts and sciences connected with either the manufacture or treatment of metals, or both.

The M.S.M. Student Chapter of the American Society for Metals, a national organization, was established in October, 1937. The organization is so designed nationally that student members may retain their membership after graduation.

At the present time the student membership of the Student Chapter exceeds eighty.

Learning how.

Mechanical Engineering Department

The Mechanical Engineering Department once again led the Miner enrollment this year with 543 who will upon graduation compete with the problems of industry in the fields of design and mechanical processing. It is fitting that a department of this importance is guided by the capable judgment of Dr. A. J. Miles. Dr. Miles received his Sc.D. from the University of Michigan in 1935 and has been chairman of the Mechanical Department at M.S.M. since 1943. His jovial personality is a great asset in controlling the affairs of this department.

The department strives to acquaint the student with the problems in design of mechanical equipment, the combustion reactions entailed in the operation of power plant

AARON J. MILES

Mechanical Engineering Department

equipment, the theory of heat transfer, and the application of theory to the functions of mechanical equipment and processing.

An outstanding figure in the field of Combustion Engineering is Professor G. C. Boyer, who received a plaque by ASME for recognition of his contributions toward combustion reactions.

In the design laboratory you would meet Prof. A. V. Kilpatrick, who came to M.S.M. in 1926. The practical application of the theories involved in mechanical equipment comes under the scope of Prof. R. H. Young, who came here in 1925 from Georgia Tech.

Hot on the job.

A. S. M. E.

The student branch of the American Society of Mechanical Engineers, from its opening fall program dealing with "Prefabricated Holes" up to the traditional spring banquet, has experienced a very busy year. Student interest in the society was evidenced by the number that joined it as well as the members that attended its meetings.

Many outstanding engineers were brought to the campus during the year. Among those who appeared at its meetings were such men as Dr. M. A. Elliott, assistant chief of the Research and Development Branch, office of Synthetic Liquid Fuels, U. S. Bureau of Mines; Mr. J. K. Myers, assistant general sales manager, Black, Swalls and Bryson, Inc.; Mr. A. F. Lyster, the Socony-Vacuum Oil Company; Mr. John Kane, American Air Filter Company; and Mr. F. A. Fauelle, Fauelle-Levalley Corp., and chairman of the Citizenship Development Committee of A. S. M. E.

Norwood Hall.

Electrical Engineering Department

Now the second largest department in the school, increasing with each registration, is the Electrical Engineering Department. The reason for this is the widespread industrial use of this form of energy with its flexibility, efficiency, convenience, and accurate control. Many opportunities have been created for employment of men with electrical engineering training in industries in which few opportunities formerly existed. The innumerable applications of electricity have given rise to the need for training all types of engineers in its principles.

ISRAEL H. LOVETT
Department Chairman
Professor of Electrical Engineering, 1921, 1931.
B.S. 1914, M. I. T.; B.S. in E.E. 1924, Missouri School of Mines;
M.S. in E.E. 1928, Michigan.

Theoretical classroom work is accompanied by laboratory courses which not only present fundamental electrical testing methods, but also aid the student in the formation of habits of accurate observation and in gaining experience in the preparation of technical reports. The department curriculum is, for the most part, elective in the senior year. This is to enable the student greater opportunities of specialization in his chosen field, either power transmission or electronics and communications.

Professor Lovett has this year assumed the chairmanship of the E.E. Department. He has been active on the department staff since 1921 and is very familiar with its operation. Although a soft-spoken man, he is well liked for his good-natured attitude and reliable advice to troubled students.

Professors W. E. Feist and P. M. Gray, who both came to M.S.M. in 1947, are familiar to all E.E. students when they take their first E.E. course as a sophomore.

A. I. E. E. -- I. R. E.

The outstanding event of the year for electrical engineering students has been the formation of a joint A.I.E.E.-I.R.E. student chapter. Both of these organizations, the American Institute of Electrical Engineers and the Institute of Radio Engineers, are directed toward the advancement of the theory and practice of electrical engineering and the allied arts and sciences. The formation of this joint student chapter will facilitate the achievement of these objectives by being more representative of the broad field of electrical engineering.

Other memorable events of the past year's activities include such diverse items as an outstanding address by Mr. Dean Fales of the Ralston Purina Company, the annual outing at Meramec Springs, and the annual banquet and joint meeting of the Missouri chapters of the A.I.E.E. The local chapter was proud to be host to this event.

WALTER T. SCHRENK
 Department Chairman
 Professor of Chemical Engineering, 1923, 1929.
 B.S. 1915, Monmouth; M.S. 1919; Ph.D. 1922, Wisconsin.

The field of Chemical Engineering is the most diversified of all fields of engineering. A graduate Chemical Engineer is qualified to assume a position in a large number of industries, such as those manufacturing dyes, explosives, petroleum products, glass, plastics, and other essential manufacturing industries. The majority of the graduates in this curriculum obtain jobs in the laboratory, design, plant operation, technical sales and administration, or enter the teaching profession.

The Chemical Engineering Department at

Chemical Engineering Department

M.S.M. adequately prepares the young chemists for any phase of the science he endeavors to enter. The field is broad and sufficiently varied to suit the most discriminating. Just as success in Chemical Engineering demands a smattering of knowledge in other fields of engineering, success in other fields require a basic knowledge of chemistry. The Chemical Engineering Department offers this valuable instruction by supplementing the curricula of the other departments with advanced chemistry and chemical engineering courses.

As chairman of the department, Dr. W. T. Schrenk directs the department's activities and a staff of men who are brilliant chemists and capable instructors. The staff includes Dr. E. D. Fisher and Dr. E. C. Henley, a recent addition to the M.S.M. faculty, who teaches freshman chemistry, which is one of the most important phases of the curriculum. Dr. R. A. Cooley, Dr. R. R. Russell, and Dr. J. B. O'Hara, newcomers to the faculty also, teach advanced department courses.

The completion of the department's new building this year will mark considerable progress in the advance of the department's activities.

A. I. Ch. E.

The Missouri School of Mines Student Chapter of the American Institute of Chemical Engineers provides opportunities for the professional development of students majoring in Chemical Engineering by featuring outstanding professional men and scientists as speakers at its regular meetings. The Ira Remson Society was organized on the M.S.M. campus October 11, 1923. In March, 1939, this society was granted a charter in the A.I.Ch.E.

Under the capable leadership of the officers and Dr. F. H. Conrad, counselor for the local chapter, the society has had its most successful year including the largest enrollment in the history of the college.

JOE B. BUTLER
 Department Chairman
 Professor of Civil Engineering, 1920, 1931.
 B.S. in C.E. 1915; B.S. in Ed. 1924, Oklahoma A. & M.;
 M.S. in C.E. 1924, Missouri School of Mines.

The oldest engineering profession, Civil Engineering, is offered in a manner designed to provide thorough training in the fundamental principles upon which professional engineering was founded. Although the C.E. curriculum includes subjects common to all curricula for the first two years, specialization in various branches of the profession is provided during the junior and senior years.

Harris Hall, which was completed in 1940, is equipped for the department's activities. Hydraulics, Soil Mechanics, Bacteriology, and Materials Testing laboratories are located in Harris Hall. The various survey classes under the leadership of Professor C. W. Eshbaugh spend their laboratory periods on the campus and throughout the town of Rolla.

The C.E. Department strives to prepare

Civil Engineering Department

the graduate for technical positions in design, construction, management, operation, and promotion of engineering projects.

Professor J. B. Butler, who has been with M.S.M. since 1920, is chairman of the department. Although his chief interest is vested in hydraulics, he has supervised map making of county roads throughout Missouri during the recent years. Other leaders of this department are Prof. Carlton, structural engineering chief, and Prof. Gevecker, soil mechanics expert.

A. S. C. E.

The M.S.M. Student Chapter of the American Society of Civil Engineers has been quite active in promoting interest and advancing the knowledge of its members by having outstanding professional men from all branches of civil engineering as featured speakers at the regular meetings.

Operating under the competent advice of Professor E. W. Carlton, capable officers, and cooperation of all members, the society has had a very successful year. Early in the school year the chapter was host to nine other schools that came to M.S.M. for the annual conference of the Mid-Continent Student Chapters of the A.S.C.E. Another outstanding event was the trip into St. Louis to attend the meeting of the St. Louis section of the American Society of Civil Engineers. For the final event of the year the society held its annual spring outing, providing an all-time record of fun and relaxation.

Ceramic Engineering Department

Since 1898, when ceramic education began in America, less than two thousand graduates have gone into this industry composed of more than thirty-five thousand plants in the United States. M.S.M. is one of the few colleges in the United States offering degrees in Ceramic Engineering.

Ceramic Engineering is that branch of engineering concerning the manufacture of products utilized by mankind from non-metallic inorganic material, the processing of which employs high

temperature reactions. The following manufactured products are included in this branch of engineering refractories, structural clayware, glassware, porcelain enamelware, electrical porcelain, abrasive wheels, cement, lime, and plaster. These products have made possible many of the marvels of the modern age.

The curriculum of the Ceramic Department affords a well-rounded study of the fundamental sciences and allied engineering subjects, as well as all branches of Ceramic Engineering. The Ceramics course features more laboratory work than the other department on the campus, and concentrates on the study of clay and its products.

Dr. P. G. Herold, who came to M.S.M. in 1936, heads this department, which is one of the best of its kind in existence.

Another important man in this department is Professor W. J. Knapp. Professor Knapp came here in 1947.

A. C. S.

The present M.S.M. Student Branch of the American Ceramic Society was first organized as such in 1937. Previously it had been known on the campus as the "Orten Society".

The purpose of the organization is to unite the students both socially and professionally, and to promote interest in and acquaint the student with the ceramic industry. In this regard the society holds annual social events and monthly meetings, at which motion pictures, concerned with the ceramic industry, are shown and interesting talks are presented by prominent speakers.

The society thus serves in the capacity of correlating social and intellectual activities of its members.

Of ever-increasing importance in the engineering curriculum are those courses under the direction of the Humanities Department. Educators have come to realize that pure technical knowledge does not make a good engineer, but rather an intimate mixture of the cultural and technical combined. The aim of this department is to complete this missing link in the engineering curriculum.

Heading the department and governing its duties is Professor S. H. Lloyd. He has held this position since 1946 and is well liked in this role by the students and faculty.

Rolla Building.

Mathematics Department

Mathematics, the foundation of all science, is an important tool for all types of engineers. The Math Department offers a series of subjects from algebra to differential equations. The student and graduate are continuously applying their mathematical knowledge to solve various problems he may encounter throughout his lifetime.

The Math Department's activities are centered on the second floor of the old Chemical Engineering Building; however, many math classes are held in Mechanical Hall and several of the newly erected temporary buildings on the campus. A large number of classrooms are available for the Math Department to afford favorable uncrowded classroom conditions.

Professor R. M. Rankin, who first taught here in 1922, is the chairman of the department.

The freshmen are soon acquainted with "Toots" Schuman, O. L. Loomis, and E. L. Cosart. Upper classmen meet Professors Dennie, Goodhue, and Erkilian.

Physics Department

Physics is that branch of knowledge including the fields of electricity and magnetism, light, heat, and mechanics. The Physics Department is principally located in Norwood Hall, but because of the increase in enrollment, expansion to other buildings on the campus has been necessary.

Dr. Harold Q. Fuller became chairman of the Physics Department in the fall of 1948, superseding Dr. L. E. Woodman, who has retired from the chairmanship after many years of service.

Dr. Fuller heads a commendable staff of physicists who possess the capabilities necessary to provide the young engineering student with a rigid foundation in this important science essential to all divisions of engineering. Among these men are Professors W. J. Jensen, P. N. Russell, J. M. Burger, L. E. Leaver, and Dr. E. Fisher, who came to M.S.M. in the fall of 1948, who are familiar to all sophomores when they enter general physics lecture and laboratory courses.

Engineering

Engineering Drawing Lab.

One of the basic requirements of an engineer lies in his ability to convey new ideas. This can usually be accomplished by a graphic or pictorial representation. Since there is a definite recognized procedure involved in presenting these representations, it is the aim of this department to present the underlying principles concerned in drafting work and at the same time to give enough practical drafting work to affix these principles in the student's mind. With the completion of each student's work in this department he should be able to present creditable professional drafting and layout since the professional viewpoint is emphasized throughout each course.

So that each candidate for his particular degree may be more thoroughly indoctrinated with the aspects of his phase of engineering, the students in the advanced sections of engineering drawing are segregated as to curricula and specialized drawings of the subjects he is most likely to encounter are presented to

him as projects. Examples of this are architectural drawing which the Civil Engineer encounters, mechanical drawing for all phases of Mechanical Engineering, and electrical layout designed for the needs of the Electrical Engineering student. Methods of mine layout and location of mineral lodes in a diagrammatical style are discussed in the descriptive geometry course.

The department has as its chairman Professor C. H. Black, who has been in charge of this department at the School of Mines since 1946. Another familiar face in this department is that of Professor L. C. Christianson, who has been associated with the drawing department since 1946.

Among the other capable instructors is Professor J. F. Rushing, who in addition to teaching has published several teaching and problem manuals on Engineering Drawing and Descriptive Geometry.

These men, with J. C. Forbes, F. E. Nevin, H. F. Thompson, G. B. Wilson, all of whom are M.S.M. graduates, and W. C. Henrici, a graduate of Oklahoma A. & M., compose the faculty of the M.S.M. Drawing Department.

CLIFFORD H. BLACK
 Department Chairman
 Associate Professor of Engineering Drawing and
 Descriptive Geometry, 1937, 1943.
 B.S. in Architecture, 1934, Kansas State; M.C.P. 1946, M. I. T.

REX Z. WILLIAMS
Department Chairman
Professor of Mechanics, 1931, 1946.
B.S. in Met. 1931, B.S. in C.E. 1937, Missouri School of Mines;
M.S. in Engr. Mechanics 1936, Wisconsin.

Mechanics Department

Technically speaking, Mechanics is the science that treats the effects of forces on bodies. Its basis for the field of engineering comes from the fact that the engineer continually faces problems involving the control and utilization of forces.

Required lecture courses include Statics, Dynamics, and Mechanics of Materials. This theory is supplemented by practical application in the materials testing laboratory.

Department chairman is no less a personage than R. Z. Williams, assistant dean of the college. His student rating is high both as a teacher and the student's friend. Other familiar men in this department are R. A. Schaefer and Professor N. C. Costakos.

Mechanics Department

- BREUER, D. W., Instructor in Mechanics, 1947. B.S. in Aero. E. 1947, Iowa State.

"That can't be right."

OLIVER R. GRAWE
Department Chairman
Professor of Geology, 1928, 1946.
A.B. 1922, M.S. 1924, Washington; Ph.D. 1927, Iowa.

The Geology and Mineralogy Department is located on the second floor of Norwood Hall. This department provides the necessary subjects to aid in the completion of the Metallurgy, Mining, and Ceramic curricula. One of the features that is provided by the department is a very complete and outstanding mineral collection which is displayed on the second floor of Norwood Hall. In the geology and mineralogy courses practical applications that will thoroughly train the student for a career in the geology field are stressed.

Dr. O. R. Grawe, who is chairman of the department, began at M.S.M. in 1928. When time permits, Dr. Grawe does consulting work and occasionally he spends his leisure moments along the lines of photography. The sophomores meet R. E. Basile and F. Woodward when they take Descriptive Mineralogy and Blowpipe Analysis.

What's the cleavage?

M. S. M. Military

CHESTER K. HARDING
Department Chairman
Professor of Military Science and Tactics, 1947.
B.S. 1918, United States Military Academy.

The largest class ever assembled on the M.S.M. campus meets each Wednesday morning, weather permitting, for drill. This class consists of first and second year basic R.O.T.C. students under the direction of cadet officers of the advanced R.O.T.C. unit, and supervised by the army personnel stationed here. Cadet Colonel for the fall semester of 1948 was James R. Hunt. The battalion was larger this year than ever before in its history, having over four hundred men in its ranks.

The Missouri School of Mines, a land grant college, is under the provisions of the Morrill Act, which requires four semesters of basic military training for all non-veteran students. A four semester course in advanced R.O.T.C. is offered to those interested after completion of the basic course. The advanced students receive a monthly subsistence allowance from the federal government and upon completion of the course, they are qualified to receive the commission of Second Lieutenant in the Officers Reserve Corps.

Since 1873, when the organization's activities began, the unit has instructed men in the principles of leadership, drill, and command; hygiene and first aid; bridge and road construction; and combat intelligence.

Colonel C. K. Harding heads a staff of officers and enlisted personnel whose experiences have been interesting and varied. These men are well qualified to teach the various phases of military training. Assistant Professor of M.S.&T., Captain C. M. Messall, who has just completed his first year here, assists Colonel

Capt. Messall

Lt. Bloom

WISMER, R. J., Lt. Colonel, Corps of Engineers, Army of the United States, Assistant Professor of Military Science and Tactics. B.S. in C.E.

MESSALL, C. M., Captain, Corps of Engineers, Army of the United States, Assistant Professor of Military Science and Tactics. B.S. in C.E.

BLOOM, E. C., First Lieutenant, Corps of Engineers, Army of the United States, Instructor of Military Science and Tactics. B.S. in Ed.

DRAGOTIS, B. A., Master Sergeant, Army of the United States.

WHITE, L. L., Master Sergeant, Army of the United States.

EDWARDS, G. R., Sergeant First Class, Army of the United States.

WHITNEY, G. G., Sergeant First Class, Army of the United States.

Department

Harding in training the advanced men. Lt. Bloom, who also instructs advanced students, still rates the field manual above the knowledge of his students. Sgt. Leo White, well known for his uncanny memory, is an instructor in the basic courses. Sgt. B. A. Dragotis handles the unit's administrative problems with his usual calm efficiency. Sgt. G. R. Edwards issues the uniforms which adorn the battalion each Wednesday. A new man on the staff is Lt. Col. R. J. Wismer, who came here in January after being stationed overseas. Sgt. B. B. Gregory left M.S.M. at mid-term of the fall semester for active duty. He was replaced at that time by Sgt. G. G. Whitney.

Colonel C. K. Harding, Professor of Military Science and Tactics, has led the Military Department since 1947. Colonel Harding, whose military experiences are very comprehensive, graduated from the United States Military Academy in 1918. During the time he has been here at M.S.M., the department has expanded and advanced considerably. One of the most outstanding achievements made was the construction of a building containing adequate facilities for the department's activities.

S.A.M.E. Officers.

The Society of American Military Engineers was founded in 1920, its membership consisting of past and present holders of commissions in the technical branches of the American Armed Forces. It was created in the interest of national defense to advance the science of Military Engineering.

Members of the M.S.M. post are, for the most part, advanced R.O.T.C. students. The annual Military Ball, second only to St. Pat's among M.S.M. social events, is sponsored by this organization.

M. S. M. Counseling Service

The M.S.M. Counseling Service is an organization designed to aid the individual in understanding where his vocational strengths and weaknesses lie. The Counseling Service, encouraging all students to approach their choices of vocations systematically, assists the student by providing various kinds of tests to cover their individual problems.

The Counseling Service is available to all persons attending M.S.M. A permanent record is carried on each student using the services available and he will be welcome to return to the Counseling Service as often as he wishes.

An occupational library is maintained which contains information concerning most of the major fields of work. The Counseling Service is located in Room 10, Parker Hall.

JAMES R. POLLARD
Director of Counseling Service

Veterans Guidance Center

The Veterans Administration Guidance Center was opened in Parker Hall on the M.S.M. campus on January 28, 1946. The purpose of opening Guidance Centers, here and in other areas where a large number of veterans are in training, is to decentralize the work of the Regional Offices and to give quicker service to

the veterans and the training institutions.

Most of the time of the Veterans Administration personnel is now taken up supervising the disabled veterans. Work formerly done in registration and supervision of Public Law 346 trainees is now cared for by M.S.M. officials.

GEORGE D. TATE
Training Specialist

GEORGE W. FARRAR
Chief of the Guidance Center

The territory from which veterans come for counseling consists of twelve South Central Missouri counties. Personnel from this office supervises the training of veterans under Public Law 16 in schools and "On the Job" in seven counties also.

This office attempts to help anyone concerned with Veterans Administration regulations on entitlements by giving rulings and assistance, or in directing the veterans to those who can provide assistance. The Guidance Center has been very successful here at M.S.M. under the leadership of Mr. G. W. Farrar.

SENIORS AND UNDERC

The student body has held high the traditions, character, and spirit of the MINERS. As the largest senior class in history steps forth in the field of engineering, the juniors, sophomores, and freshmen look forward to their commencement. The growth of M. S. M. in paralleling the demands of industry this year reached a peak enrollment of 2700 students.

President '48. Treasurer Freshman Class '42-'43.
- Thielker, Edgar E.....Chem. E.....St. Louis, Mo.
Sigma Nu Treasurer. Alpha Chi Sigma. AICHe. Swimming
'47-'48. "M" Club. Student Council.
- Thomason, James B.....Min. E.....Granite City, Ill.
Honor List '46.
- Thomasson, Edwin M.....Min.-Pet.....Mounds, Ill.
Transfer University of Illinois and Southern Illinois Normal
University. Student Assistant Mining Department '48.
- Thompson, Clarence W.....Chem. E.....Fredericktown, Mo.
Honor List '46-'47. Student Assistant Chemistry Department
'48-'49.
- Thompson, Homer F.....C. E.....Rolla, Mo.
Tau Beta Pi. ASCE. MSPE. Instructor Drawing Department.
Received B.S. in Chemical Engineering '32.
- Thompson, Richard H.....E. E.....Kirkwood, Mo.
Kappa Sigma. AIEE. IRE.
- Thorp, John M.....Met. E.....St. Louis, Mo.
ASM '47-'48-'49. AIME. Transfer Washington University.
Student Assistant Meteorology Department '48.
- Tichy, Nicky.....M. E.....St. Louis, Mo.
Tau Beta Pi. ASME. Transfer Harris Teachers College.
- Tindall, Robert F.....C. E.....St. Joseph, Mo.
ASCE '48-'49. ROTC Staff Sergeant '47-'48. Second Lieuten-
ant '48. First Lieutenant '48-'49. Transfer St. Joseph Junior
College. Student Assistant Civil Department '47-'48. Physics
Department '48-'49.
- Tippitt, Vaughn.....C. E.....Joplin, Mo.
Independents '47-'48. Tau Beta Pi '48-'49. Honor List '47-
'48. AIEE '47-'48. ASCE '48-'49. Miner Board Reporter '47.
Student Assistant Dean's Office '47-'48-'49.
- Tittman, David W.....Met. E.....Springfield, Ill.
Sigma Pi Vice-President, Steward. ASM. AFS. AIME.
Treasurer Sophomore Class. Transfer Illinois Institute of
Technology.
- Todd, Joseph W.....M. E.....Salem, Mo.
Sigma Pi. ASME '47-'48.
- Toomey, John B., Jr.....M. E.....Greenwich, Conn.
Chi Sigma. ASME. Student Council.
- Tohill, Charles E. B.....Min. E.....Wytheville, Va.
Engineers Club. "M" Club Secretary. AIME. Track. Trans-
fer Trinity College.
- Trace, James J.....E. E.....Crystal City, Mo.
Engineers Club '43-'44-'47-'48-'49. Honor List '44-'47-'48.
Alpha Phi Omega '44-'49. ASME '47-'48-'49. Detonators '43-
'44. Received B.S. in M. E. '48.

Senior Class of Forty-Nine

- Trotter, Jack E.....Min. E.....Herrin, Ill.
Transfer Southern Illinois Normal University and New Mexico A. & M.
- Tucker, Arthur L.....C. E.....Flat River, Mo.
Engineers Club. ASCE. Glee Club. Transfer University of Cincinnati.
- Tucker, Robert F.....E. E.....Alton, Ill.
Transfer Shurtleff College.
- Turk, Carrol G.....M. E.....Springfield, Mo.
Engineers Club '43. ASME.
- Turner, Clifford E.....M. E.....Rolla, Mo.
Honor List. ASME. American Foundrymen's Society. Track "M" Club.
- Turner, William E.....C. E.....Walnut Ridge, Ark.
- Tweedy, John F.....M. E.....Rolla, Mo.
- Twombly, Robert C.....C. E.....Spartanburg, S. Car.
Engineers Club '46. ASCE '48-'49.
- Tyrer, Gene A.....Chem. E.....Affton, Mo.
Lambda Chi Alpha Ritualist '46-'48. Secretary '48-'49. Athletic Manager '48-'49. Convention Delegate '48. Phi Kappa Phi Bookplate '45. Honor List '45. Blue Key '48-'49. Alpha Chi Sigma '47-'49. AICHe '45-'47. Missouri Academy of Science '45-'46. St. Pat's Board '47-'49. Secretary '48-'49. Miner Board '45-'47. Sports Editor '46-'47. Student Assistant P. E. Department '46.
- Uriwal, Alfons F.....Met. E.....St. Louis, Mo.
Sigma Nu Commander '47-'48. Honor List '46. Phi Kappa Phi Bookplate '46. ASM. Student Council '46-'47.
- Van Hook, John T.....C. E.....Carthage, Mo.
ASCE '48-'49.
- Vaughn, George E.....Min.-Pet.....Rolla, Mo.
Honor List '47-'48. Transfer John Farleton Agricultural College. Student Assistant Mining Department '48-'49.
- Viles, Landon C.....C. E.....Bolivar, Mo.
Honor List '47-'48. ASCE '46-'47-'48-'49.
- Vreeland, Robert M.....E. E.....St. Louis, Mo.
Independents Vice-President '45. Tech. Club '44. Engineers Club Board of Control '45. AIEE. Student Council '45. Student Assistant E. E. Department.
- Wagner, Carl L., Jr.....M. E.....Kirkwood, Mo.
Engineers Club '45-'49. Tau Beta Pi. Phi Kappa Phi. ASME. Gamma Delta.
- Walker, James F.....Chem. E.....Hayti, Mo.
Tau Beta Pi. Honor List. Alpha Chi Sigma Historian. AICHe.
- Weber, Arthur H.....C. E.....Richmond Hgts., Mo.
Kappa Alpha Order '46-'47-'48-'49. Vice-President '47. ASCE '47-'48-'49. ARBA '49. Inter-Fraternity Council 46-'47. Transfer University of Minnesota.
- Weber, John G.....Sci.-Phys.....St. Louis, Mo.
Tech Club '42-'43. Engineers Club '47-'48. Physics Ferreters '48-'49. Photo Club '47. Miner Board Business Staff '43. N.Y.A. Assistant Registrar's Office '42-'43.
- Weismantel, William L.....C. E.....St. Louis, Mo.
Theta Kappa Phi Historian '46. Secretary '47. President '48. Theta Tau. ASCE. Football '45-'46. Track '46. "M" Club. Student Council. Rollamo Board '45-'49. Organization Editor '47. Editor-in-Chief '48. Secretary Junior Class.
- Weissman, Theodore S.....Cer. E.....Brooklyn, N. Y.
ACS '47-'48-'49. Student Assistant Veterans Office '48-'49.
- Wells, Vernon L.....M. E.....Caney, Kans.
Honor List '46-'47-'48. ASME '48-'49.
- Werner, Edwin J.....C. E.....Independence, Mo.
Independents. ASCE. ARBA.
- Wesley, Wallace M.....Cer. E.....Rolla, Mo.
ACS '46-'47.
- West, Leonard Jackson.....E. E.....Springfield, Mo.
Tau Kappa Epsilon. Phi Kappa Phi Bookplate. Honor List.
- White, John H.....Met. E.....Little Rock, Ark.
- Whitlock, Reginald R.....Min. E.....Clinton, Ind.
Honor List '48. AIME. Transfer University of California. Student Assistant Mining Department '47-'48-'49.
- Wilks, Robert Wm.....Met. E.....Caruthersville, Mo.
ASM. AIME. AFS. ROTC Staff Sergeant '47-'48. Second Lieutenant '48. First Lieutenant '48-'49. Transfer Illinois Institute of Technology.
- Williams, Raymond J.....Chem.-E. E.....Ste. Genevieve, Mo.
Triangle Treasurer '48. Tau Beta Pi Treasurer '48. Honor List '47-'48-'49. Blue Key. Swimming '47-'48.
- Willis, Judson M.....M. E.....Dexter, Mo.
ASME '47-'48.
- Winn, Ralph Alvin.....Min.-Pet.....St. Louis, Mo.
Sigma Pi Herald. Shamrock Club '42-'43. Honor List '46. AIME.
- Winters, Fred E.....C. E.....Marion, Ind.
Tau Kappa Epsilon Historian. ASCE. American Road Builders Association.
- Wirfs, Thomas P.....C. E.....St. Louis, Mo.
Sigma Phi Epsilon Historian '47. Vice-President '48. Honor List. Blue Key Vice-President '49. Theta Tau Inner Guard '48. Vice-Regent '48. ASCE. Miner Board Sports Editor '47-'48.
- Wisco, Harold A.....Min. E.....Darlington, Wisc.
AIME. Transfer Wisconsin Institute of Technology.
- Wisdom, David G.....C. E.....Rolla, Mo.
Lambda Chi Alpha Correspondent '47-'48. Honor List '46. Missouri Academy of Science '46-'47. ASCE '46-'47-'48. ROTC First Lieutenant. SAME '47-'48-'49. Student Council '48-'49. Alternate '47-'48. Miner Board '46-'47. Canterbury Club '47. Secretary, Commander and Vice-Commander Campus Vets. Association.
- Wissel, Charles K.....M. E.....Kansas City, Mo.
Honor List '47-'48. ASME '48-'49. Transfer Junior College of Kansas City, Mo.
- Withers, John S.....E. E.....Moscow Mills, Mo.
- Witherspoon, Dwayne R.....Min.-Geol.....Fredonia, Kans.
Sigma Phi Epsilon Senior Marshal '48-'49. Transfer Northwest Missouri State Teachers College.
- Withrow, Harold J.....Chem. E.....Doniphan, Mo.
Engineers Club '47-'48-'49. Blue Key '48-'49. Alpha Chi Sigma '46-'47-'48-'49. AICHe Vice-President '46-'47. Treasurer '47-'48. Glee Club '45-'46. ROTC Band '45-'46-'47.
- Wolfe, Clarence L.....E. E.....East St. Louis, Ill.
Tau Beta Pi. AIEE.
- Wood, James Edward.....Chem. E.....Rolla, Mo.
Tau Beta Pi. Alpha Chi Sigma. AICHe.
- Workman, William F.....C. E.....Parsons, Kans.
Jackling Terrace Council 48-'49. ASCE '48-'49.
- Wright, Floyd William.....M. E.....St. Louis, Mo.
Sigma Pi First Counselor '47. Third Counselor '47. Honor List '48. ASME. Inter-Fraternity Council '47-'48.
- Wright, John W.....M. E.....East St. Louis, Ill.
Engineers Club '46-'47. ASME '47-'48-'49.
- Wright, Joseph E.....M. E.....Florissant, Mo.
Engineers Club '47-'48. ASME. Rollamo Board. Transfer University of North Dakota.
- Wundrack, William A.....E. E.....St. Louis, Mo.
Engineers Club '46-'49. Board of Control '47. President '48. Independents '46-'49. Secretary-Treasurer. Honor List '48. AIEE. Glee Club President '48. Secretary '47. Student Council '47-'49. Treasurer '48. Vice-President Senior Class. Transfer Harris Junior College.
- Wunnenberg, Edward C.....M. E.....Webster Groves, Mo.
Tech Club '41-'42. ASME Treasurer '48. President '48. ROTC Band '40-'42.
- Yochum, Robert John.....C. E.....St. Louis, Mo.
Kappa Sigma President '48-'49. Vice-President '47-'48. Treasurer '43-'44. Flint Award. Honor List '48. Theta Tau '47-'49. ASCE Vice-President '48-'49. ROTC Captain '47-'48. Student Council '47-'48. Inter-Fraternity Council '43-'44.
- Young, Reagan Harris, Jr.....Chem. E.....Rolla, Mo.

A T H L E T I C S A T

The athletic teams throughout the year have endeavored to bring glory and honor to our campus. In victory or defeat they have shown true Miner spirit and sportsmanship. M. S. M. thereby develops men as well as engineers, which is in keeping with the finest traditions of our college.

M . S . M .

Jackling Gym
M. S. M. Athletic Headquarters

Athletic Department

In helping to complete the education of the engineer, the athletic department here at M.S.M. has done a splendid job. Under its guidance and supervision, a well-organized athletic program has been instituted providing for the welfare of all the students. In addition to its sponsorship of varsity athletics, this department directs an intramural program as well as a course in physical education.

Departmental head is coach Gale Bullman; it is under his supervision that the football and track teams materialize. He is aided in this capacity by Dwight Hafeli, Chester Barnard, and Bill Speece. This will be Coach Hafeli's last year as head basketball coach. He is leaving the school to manage a private business concern. His absence in the athletic department will be sadly felt at M.S.M.

Throughout the year, Miner varsity aspirants have kept pace with the best that the Missouri Intercollegiate Athletic Association has had to offer. Under the capable direction of Coach Steinmeyer of the Humanities Department, the M.S.M. golf squad gained second place in the conference. Coach Barnard's swimming team enjoyed its most successful season in years, while the track and tennis teams also fought for the top of the M.I.A.A. conference.

In addition to these varsity sports, the ath-

Football Season

FOURTH ROW: Moscari, Cox, Sexton, Brown, Dempsey, Warner, Lodwick, Shourd, Teas, Maurer, Kennedy, Theiss. THIRD ROW: Steele, Matson, Davis, Weinel, Anderson, McGrath, Duerr, Kimball, Kruger, Heitman, Harter, Rausch, Huifman, Henson. SECOND ROW: Kemper, Whitney, Kwadas, Petska, Penotti, Duke, Bock, Eckert, Svejkosky, Dowling, Chew, Wohlert, Tschannen, Reichelt. FIRST ROW: Hoehn, Blanke, Roerman, Coolbaugh, Meyer, Williams, Gammon, Schmidt, Wilson, Hession, Beverage, Dougherty.

Though facing its toughest schedule in recent years, the M.S.M. football squad of 1948 performed admirably. Running from a well-blanced T-formation, the Miner backfield was sparked by two All-Conference backs. Coupled with a fine array of hard-hitting linemen, the Miners seemed destined for a great season. Plagued by injuries and several tied games,

however, the Miners were forced to relinquish their M.I.A.A. championship to a powerful Springfield eleven. The final record of four wins, three losses, and two ties seemed to present an inadequate picture of Miner might.

MINERS 6, Memphis State 0

The first game of the season found the Miners avenging last year's defeat at the hands of the Tigers of Memphis State in the upset of the year. Though rated as one of the best teams ever to visit the School of Mines, the Tigers were held to a virtual standstill by the powerful running and passing attack presented by the Miners. Guard Bill Chew and end Bill Teas performed their usual stellar game in deciding the Miner victory.

Washington University 19, MINERS 7

In the revival of the 22-year-old series with the Washington University Bears, the Miners faced their first defeat at the hands of a powerful ground attack. After a weak first half marked by fumbles, the Miners retaliated and consistently carried the ball deep into Bruin territory. Climaxing a last quarter drive sparked by the brilliant passing of Bob Kemper, the Miners drove across the double stripe for their only score.

MINERS 22, Shurtleff 13

Led by "Big Jim" McGrath, the Miners easily outclassed the Pioneers to jump back into the win column. Coach Gale Bullman made liberal

Coach Bullman, field general.

Hold that line!

use of his capable reserves who were instrumental in piling up the Miner point total. The significant outcome of the game pointed to the potential ground attack of the Miner eleven.

MINERS 18, Warrensburg 0

In registering a significant shutout against their first conference foes, the Warrensburg Mules, the Miners presented advance warning as to their potential might in their defense of the M.I.A.A. crown. Sparked by the brilliant offensive attack of co-captains Jim McGrath and Bob Kemper, the Miners presented an invulnerable scoring touch. This together with the alert defensive play of linemen Luther Steele and Gene Kennedy easily clinched the Warrensburg defeat.

PARENTS' DAY MINERS 24, Maryville 6

At the expense of the Bearcats, the Miners copped the lead in the M.I.A.A. race. A rain-soaked field resulted in a seesaw battle the first half with neither side inflicting any serious damage. The second half opened, however, with a vicious Engineers' attack, led by backs Whitney, Reichelt, Kwadas, and McGrath. A total of 405 yards and 17 first downs was amassed in the victory.

HOMECOMING Springfield 18, MINERS 0

Playing in a virtual quagmire, the favored Miners were dealt their only conference loss

of the 1948 season by the well-balanced S.M.S. Bears. Completely outplayed and plagued by fumbles, the Miners saw every virtual scoring opportunity fall short of the mark. Defensive standout of the game was tackle Bob Weinel. In spite of the inclement weather, "Lefty" Bob Kemper threw several ground-gaining passes that kept the Miners in the game.

Co-captains McGrath and Kemper.

MINERS 7, Cape Girardeau 7

In playing their third consecutive game on muddy turf, the Miners vied for yardage and were forced to accept a tie in a hard-fought struggle. Showing his usual stellar form, Jim McGrath proved his versatility and right to his second All-Conference berth. Early in the second half, "Big Jim" crashed over for the marker and then added the all important extra point. Al Svejkosky, at tackle, was the star of the Miner line.

MINERS 14, Kirksville 14

Battling the Kirksville Bulldogs to a standstill, the Miners seemed to lack the winning drive. A persistent Bulldog attack kept the Miners on the defensive for the greater portion of the game. Thanks to a safety early in the first quarter and a spectacular 95-yard run by freshman Gene Huffman, the Miners came from behind to keep the wolf pack from the door.

St. Louis University 19, MINERS 7

Determined to avenge last year's defeat, the Miners returned to their early season form and very nearly upset the highly touted St.L.U. Billikens. More than once, the Billikens had their backs to the wall and it looked as if the Miners were going to do the impossible. The M.S.M.

MONTE McCORD—Monte's persistent kicking kept the Miners out of the red all season.

ED KWADAS—A consistent ground gainer, Ed has the possibilities of a great ball carrier.

BOB REICHEL—Bob's bullet passing and quarterback sneaks have pulled the team from many a hole.

EARL HOEHN—Hard-fighting Earl leaves the team with four years of great punting and running to his credit.

BILL TEAS—A second year All-Conference selection, Bill is a graduating senior with glue on his fingers and water in his veins.

DUDLEY BLANCHE—Dudley leaves the team this year to do some roustabouting in Texas. The team will miss him.

GENE HUFFMAN—Freshman star of the year, Gene will probably be the leading ground gainer of '49.

BILL CHEW—Bill, an All-Conference selection, is known for his down field blocking.

DICK WHITNEY—Although small in stature, "Whit" is tops in defensive play. He will co-captain next year's team.

ROBERT DAVIS—Bob was a steady player in the line all season long.

GEORGE BOCK—George is a firm believer in being an eager beaver in scrimmage.

GENE KENNEDY—Already proving himself as a proficient pass receiver, Gene is sure to do honor for himself in the future.

JACK THEISS—A scrappy guard, Jack will undoubtedly be a mainstay for the next two years.

LUTHER STEELE—An outstanding tackle and a second year All-Conference man, Luther's pleasant disposition will be missed from the Jackling locker room.

LELAND BEVERAGE—Leland, a firm believer in conditioning, was an aggressive lineman this year.

BILL COOLBAUGH—Bill will see a lot of action next year.

AL PETSKA—A key man in the center of the line on both offense and defense, Al's specialty is running guard.

BOB KEMPER—Rolla's All-Conference quarterback has guided the team through many rough spots by his fine signal calling.

DON DOWLING—Don is a capable back who will carry the brunt of the attack next year.

BILL WOHLERT—A speedy and elusive fullback, Bill had one of the best yards-gained averages.

BOB WEINEL—A defensive mainstay, Bob held down the tackle position.

JIM McGRATH—A great back and All-Conference fullback for two years, "Big Jim's" shoes are going to be hard to fill next year.

HARLAN MEYER—"Spider" has three years of ball behind him and his experience will be valuable to the team.

JACK COX—Jack was a line backer deluxe as well as first string center.

ROY SHOURED—Next year's co-captain, "Bear-Tracks" may not be the biggest tackle in the conference but undoubtedly he is the roughest.

SID DUERR—A reliable man to have at end, Sid will be back for another season next year.

DICK ROEMERMAN—Dick is an outstanding sophomore guard who has and will see plenty of action for M.S.M.

ALDEN WILLIAMS—Williams is a reserve quarterback who can handle the reins in any situation.

BILL GAMMON—Bill was injured early in the season and his aggressive play was sadly missed by the team.

AL SVEJKOSKY—One of the outstanding linemen of the year, Al has the punch the team needs.

FRED ECKERT—A good end, Fred showed plenty of fight and determination.

Varsity

Hopeful glances.

Apparently having the same difficulty that has plagued the Miners in past seasons, the 1948-1949 basketball squad consistently found difficulty in chalking up vital wins away from the home court. The M.S.M. athletes played consistently good ball, but too often wound up on the short side of the close games. Though dropping back into the cellar this year, the Miners offered stiff competition to the best in the M.I.A.A. conference. The over-all scoring average showed the opposition only four points better than the engineers.

Mid-season injuries to two players on the starting lineup contributed to a not too impressive season's record. In spite of this record, however, the Miners showed the M.S.M. students a good brand of basketball. Led by Bob Perry, star center, and a host of scrappy ball-handlers, the M.S.M. cagers showed magnificent determination and spirit. In completing the season with a record of five wins and fifteen losses, the Miners won only one game on

Send me in coach!

Basketball

the road, many being lost by narrow margins. The atmosphere of the home gym seemed to give the squad the added impetus to win.

One of the closest games of the year was against Springfield, the conference leader, at Jackling Gym. Trailing at halftime by a substantial margin, the Miners rallied and came within four points of upsetting the champions. Bob Perry poured in 30 points for top honors and Pete Perino was second with 15.

The bulk of the playing assignments was handled by Bill Roark, Pete Perino, Bob Perry, Bob Faulkner, and Gene Huffman. The capable reserves included Norm Niederstadt, Ralph Baker, Cletus Voiles, and Joe Powell.

The M.S.M. squad will lose the services of Bob Perry, Bill Roark, and Norm Niederstadt next year, but with the greatest part of the team returning, the Miners may hit the winning stride.

Varsity Swimming

Who took the water out of my lane?

The 1949 M.S.M. swimming team, under the capable guidance of Coach Barnard, enjoyed its most successful season in years. Facing some of the toughest teams in this area, the Miners piled up a record of six consecutive victories before falling to St. Louis U., 38-37. The Miners had previously defeated this same squad in the first meet of the year. During the course of the season, the M.S.M. swimmers set six new records.

Coach Barnard's team traveled to St. Louis for the first meet, where they decisively defeated the previously undefeated Billikens, 47-28. The 300-yard medley relay team composed of Breidert, Williams, and Pounds splashed home to gather first place. Williams and Breidert

Swimming

followed with firsts in the 200-yard breaststroke and 150-yard backstroke respectively.

The next victory was a 60-15 clincher over Murray College of Kentucky. With the medley team setting a new pool record, the Miners grabbed first place in every event. In a return meet at M.S.M., the Kentucky Teachers were again defeated by a substantial margin. The Miner freestyle relay team clipped twenty seconds off the pool record with a time of 4:15.8.

Continuing in their winning ways, the M.S.M. boys rolled over Wentworth Military Academy, 60-6, gathering first and second place in every event and shattering three records. Keeping in stride, the Miners journeyed to Wentworth and emerged with a 57-8 win.

Washington University was the next victim in a dual meet held in St. Louis. The 42-33 score is indicative of the well-matched teams. The closest meet of the year was the return engagement with St. Louis University in Jackling Gym. The Miners lost this match, 38-37. Leland Beverage, freshman star, set a new pool record in the 220-yard freestyle.

Mainstays of the team throughout the year were Ray Williams, Elmer Breidert, Ivor Pounds, Paul Aegerter, Leland Beverage, and Bill Vose.

*The relay's relay.
I hope it's warm.
They're off!*

TOP ROW: Ramey, Ward, Smith, Perino, Reeves, Watts. SECOND ROW: Cox, Turner, Young, Maag, Mahan, Shaffer. FRONT ROW: Bock, Tothill, Hammond, Harrawood, Kirk, Brewer.

Varsity Track

Bock winds up.

The Miner 1948 track squad was one of the best since the entrance of M.S.M. into the M.I.A.A. Conference. With persistent regularity, the cindermen returned with the laurels. An unusually large schedule enabled the Miners to make an impressive record.

In an indoor M.I.A.A. meet held at Columbia, the Miners emerged victorious for the first time in M.I.A.A. history. Dave Ward set the pace with firsts in the broad jump and high hurdles. Also contributing to the Miner victory were Don Smith, who broke the tape on the two-mile jaunt, and George Bock, who set a new M.S.M. record of 43' 7 $\frac{1}{4}$ " with the shot.

A dual meet with Springfield found the Miners being forced to accept a 66 to 66 tie. Bill Kirk was high scorer with 13 points. Swinging back into the winning stride, the Miners easily overwhelmed Westminster, 81 to 50. The Miners lost the next contest, a triangular meet with Cape and Washington U. Don Smith walked off with first honors in the mile and two-mile runs.

In the three succeeding dual meets, the silver and gold tracksters really stepped into high

Track

The Greek god.

Nice form, Shorty!

gear, winning all three by substantial margins. Drury and Shurtleff College both fell before a terrific onslaught by the scores of $111 \frac{1}{3}$ to $24 \frac{2}{3}$ and $106 \frac{1}{2}$ to $22 \frac{1}{2}$. The next victim was St. Louis U., which the Miner thinclads defeated, 90 to 41.

The Miners were well primed for the M.I.A.A. outdoor conference meet held at Maryville on May 14. However, by the narrow margin of one-half point, the M.S.M. tracksters were squeezed out of first place by the Cape Girardeau Indians. High point man for the meet was Bill Kirk with 13. Hal Corbin set a new M.S.M. high hurdles record of 15.9 seconds. Kirk continued the record breaking with a 10.0-second 100-yard dash while Smith set the pace in winning the two-mile run.

Consistent winner and high point man for the season was Bill Kirk with $86 \frac{1}{4}$ points. He was closely followed by Don Smith with 72 and George Bock with 61 points. Dave Ward also helped add to the point total.

Up and over.

Cross Country Track

The endurance boys.

The varsity cross country team, beginning its second year, ended a short but successful season against Washington University on their 2.8-mile course in St. Louis on November 13. Miner distance star Don Smith succeeded in breaking the course record of 15 minutes set in 1947 with a time of 14:42. Smith was the second man across the finish line, however, as Ratcliff of Washington nosed him out to set a new record of 14:36. Other Miners placing were Shaffer, 8th; Sanders, 10th; Maag, 12th; Heetfield, and Tothill. Washington won the meet by a score of 19-43.

On November 6, Smith was again defeated

by Ratcliff in the final sprint in a dual meet on the M.S.M. golf course. The winning time was 14.24 while Smith crossed the finish line in 14:35 for the 2.5-mile course. The Miners lost this meet by a score of 36-21.

Those earning letters in the 1948 season were Don Smith, Bob Shaffer, Bob Sanders, and Ray Maag. A word of praise should be given to team captain and coach Charley Tothill, who handled the training program and arranged the meets. As Tothill is the only graduating senior, the rest of the squad will return next year as a formidable nucleus for a successful season.

Shaffer, Sanders, Tothill, Smith, Maag.

Varsity Tennis

The 1948 tennis season opened at Springfield, where the Miners met a 4 to 2 setback. However, the M.S.M. team quickly rebounded from this initial defeat with three straight victories.

Westminster was easily taken care of in a fine display of tennis by a 6 to 0 score. The defeats of Drury and Cape followed in quick succession with scores of 6 to 1 and 5 to 2. In the M.I.A.A. conference meet the Miners placed second to Springfield.

TOP ROW: Juenger, Williams, Rice. FRONT ROW: Ross, Axsom.

Varsity Golf

The 1948 version of the M.S.M. golf team, under the direction of Coach John Steinmeyer, enjoyed a highly successful season. With all lettermen except Denny McColgin returning this spring, the Miner team gives promise of improving last year's record of three victories and three losses.

The M.S.M. golfers opened the season with an 18 to 0 victory over Springfield.

The next four matches were split evenly, win-

ning two at home and dropping two away. In the final match, the Miners met defeat at the hands of Shurtleff College, 9½ to 8½.

On May 14, the Miner four-man team of Kramer, McColgin, Pantaleo, and Youngs emerged second behind Springfield in the M.I.A.A. meet held at Maryville. Tony Pantaleo, team captain, won the individual championship by shooting a 154 on the spongy 36-hole course.

Youngs, Shroyer, Kramer, Pantaleo, McColgin, Hubbard, Coach Steinmeyer.

Intramural Sports

TABLE TENNIS

Jumping into an early lead, the Kappa Sigma table tennis singles and doubles teams dominated the winner's column with a faultless season unmarred by a single defeat. Roy Evans retained his singles crown by downing D. Miller of the Frosh in the finals. Doubles champions were Kurt Frank and Bob McGowan, who dropped Roger Knoppf and Jack Stadelhofer, the Lambda Chi representatives, from competition in the deciding match. Second place honors in team play went to Jackling Terrace, who gathered third place honors in both the singles and doubles events.

CROSS COUNTRY

The annual cross-country race held between halves of the Homecoming football game saw the emergence of a new champion, Stan Dolecki of Pi Kappa Alpha. Tom Herrmann, last year's winner, jumped into a quick lead for the first half of the race. The lead changed hands, however, as Laytham of Triangle passed the Theta Kappa Phi boy and entered the home stretch. His pace was short lived also as Dolecki, putting on a brilliant drive, forged ahead of the pack and crossed the finish line well ahead of the other contenders. Second place winner was Laytham, who nosed out Shelton of Kappa Alpha.

Dolecki, cross-country winner.

*Evans, singles champ.
Kappa Sigma's doubles champs.
Sigma Nu gridiron victors.*

Intramural Sports

TOUCH FOOTBALL

Touch football, one of the major intramural sports, is reputedly the roughest athletic activity of the year. Marked by accurate passing, hard running and blocking, and precision punting, this championship is one of the most coveted. In inaugurating the fall season, Sigma Nu successfully defended its crown by defeating Kappa Sigma in the championship game. Each team had lost one game in the double elimination tourney prior to the final match. Third place was awarded to Jackling Terrace, whose only two defeats were at the hands of the two finalists.

SWIMMING

The three-day swimming meet was one of the hardest fought battles of the intramural program. With the exception of Sigma Nu and Kappa Sigma Fraternities, all the other organizations appeared to be equally matched. Sigma Nu proved to be the eventual winner by splashing past Kappa Sigma in the final event of the evening. Throughout all the events, these two teams held the upper hand, steadily gaining points as the meet grew older. In the final standing, Kappa Alpha snared third place, closely followed by Pi Kappa Alpha.

Bill Romermann, singles handball victor.

*Sigma Nu splashers.
Goller and Williams, doubles winners.
Pi Kappa Alpha's basketball champs.*

Intramural

INTRAMURAL ATHLETE OF THE YEAR

On the basis of his all-around athletic ability, Martin Hobelman of Kappa Sigma Fraternity was awarded the trophy as Outstanding Athlete of the Year. On the gridiron he directed his team from the quarterback position. Basketball and volleyball followed in quick succession. The 1948 boxing tournament found Hobelman defeating all opposition to cop the 145-pound title. To round out the season, he played a stellar game of softball at second base.

Martin Hobelman, intramural athlete of '47-'48.

HANDBALL

A powerful Sigma Phi Epsilon team grabbed first place in the 1949 intramural handball championship with a first in the singles bracket and a second in the doubles competition. Doubles champion for the second consecutive year was the Junior-Senior combination of Goller and Williams. The strong contenders from Sigma Phi Epsilon battled the winners in a two out of three series, losing the final set. Bill Roerman handily won the singles title, defeating Gene Kennedy of Sigma Nu. Alpha Epsilon Pi garnered second place in the tourney, closely followed by the Engineers Club and Sigma Nu.

VOLLEYBALL

In inaugurating the spring semester of intramural activities, the volleyball competition showed up keen and strong. Sigma Nu dominated the court, emerging victorious over the Theta Kappa Phi squad in the first match of the double elimination tourney. The Sigma Nu team had advanced to the finals with an unblemished record, while the second place Theta Kaps had previously lost one match to Sigma Pi. Kappa Sigma gathered third place laurels with Triangle maintaining the fourth position.

*Kappa Sig-Sig Nu playoff game.
Start of that long, long run.*

Sports

RIFLE

The rifle tournament, enjoying a longevity of one day, was the scene of some fine shooting by the M.S.M. students. The sharpshooters from Kappa Sigma displayed winning form in capturing first honors with 495 points, fifteen over last year's title-winning mark. When the final scores were tabulated Tau Kappa Epsilon was found to have captured second place, followed closely by Theta Kappa Phi and Sigma Nu, respectively. Individual high scorer for the day was Miller of the Sophomores with a 179.

Crucial game between Pikes and Snakes.

*Start of the medley relay.
Intermission time.*

SUMMER INTRAMURAL PROGRAM

The year round intramural program would not be complete without a mention of the summer athletic season preceding the 1948-49 school year. The Junior-Senior organizations carried off the summer intramural crown but were hard pressed by a powerful Kappa Sigma aggregation. Third place was captured by the Engineers Club.

The most successful sport turned out to be softball with a hotly contested race until the last game. Kappa Sigma emerged on top with an 8-1 record, followed by the Engineers Club and Junior-Seniors.

The tennis courts were the next scene of action as the doubles team of Roth and Mengel of the Junior-Seniors defeated all comers for the title. Second place was easily handled by Kappa Sigma and third place by Sigma Phi Epsilon.

The next event on the summer agenda was swimming. After a poor start Chi Sigma hit the pace and splashed home with the crown. Lambda Chi exhibited good form but weakened in the final events and allowed Sigma Nu to take second place.

Golf closed the summer program with a tie score for first honors. Pi Kappa Alpha and Junior-Seniors both showed identical marks, but in the playoffs the Pikes showed their superiority and were thereby awarded first place. These two leaders were followed by the Engineers Club and Jackling Terrace.

ACTIVITIES AND FRAT

Campus organizations and social fraternities have as their main objective the fostering of scholarship and social interest. Through their influence and service, we strive to experience the mutual satisfactions of true fellowship necessary for the enjoyment of human relationships, which enable us to gain universal respect and admiration as engineers.

Miner

The Missouri Miner, official publication of the students of the School of Mines, started out the year by sending complimentary copies of the first issue to all the members of the Alumni Association.

One of the main additions in the MINER has been the re-inauguration of the column, "As a Miner Sees It", which has been stagnant since the war years. The anonymous author has managed to remain known only to a few in spite of the many demands for his name from irate readers.

On October 2, Miner Board members and guests attended the annual Miner Board banquet at the Houston House in Newburg. Prominent guests at the banquet were Dean and Mrs. Wilson; Prof. Jelinek, faculty advisor, and Mrs. Jelinek; Football Coach Gale Bullman, guest speaker, and Mrs. Bullman; and Publisher Larry May and Mrs. May.

Outstanding features of the 1948-49 MINER—complete coverage of the M.I.A.A. Football Conference in Bill Sherburne's column "Around the M.I.A.A."; Jack Sontag's play-by-play diagrams of each Miner football game; a "clean-up" of the jokes; Roger Neidel's many feature articles and poems; and the St. Pat's Edition.

Getting the scoop.

The ROLLAMO office, which is in the new infirmary building, has helped to ease the work necessary to edit the yearbook. The circulation of the ROLLAMO exceeds three thousand copies this year due to the increase in the M.S.M. enrollment. The ROLLAMO '49er is bigger and more representative of the Missouri School of Mines than any previous year in its history.

The editing, planning, and completion of the ROLLAMO was under the supervision of Editor Bill Bach, while Business Manager Bob Morlock very accurately and diligently balanced the books. These men, together with a conscientious faculty advisor,

Board

Professor J. J. Jelinek, and an efficient staff carefully planned the ROLLAMO '49er. After these plans were completed, ambitious board members and hard-working tryouts carried them out under the supervision of the Editor and staff.

Organizations Editor, Ed Kyburz, was kept busy contacting the various wheels on the campus and compiling the information needed for the Activities and Fraternities section of the book. The Literary Editor, Bill Horst, accompanied by Joe Wright, Dick Bauer, and Roger Neidel, provided the descriptive material for the book.

Classes Editor, Clarence Isbell, handled the task of compiling the material for the Seniors and Underclassmen section of the book.

The photography was under the leadership of Coy Breuer. Coy was ably assisted by Bill Cox, Bob Johnson, R. Poppitz, B. Greaves, T. Davis, and L. Frank. The M.S.M. Photo Club contributed many excellent photos which appear in the ROLLAMO '49er.

Our officers.

It is the purpose of the Council to stimulate "school spirit" and to give good student government. Established in 1927, its present form has twelve fraternity men and an equal number of independent members.

The outstanding accomplishment under the excellent counsel of Professor Sam Lloyd was the drafting and approval of a new constitution which provides the operational funds for various student activities, and Student Council representation at faculty disciplinary meetings.

The Independent Organization is comprised of non-fraternity men interested in participating in social, athletic, and other campus activities. The organization was started in 1935, and since then has been of much service to the college.

The Independents have representatives in organizations including the Student Council, St. Pat's Board, and professional societies. The highlights of the past year's activities were the organization of class elections and aid given in reviving the Tech Cooperative Eating Club.

Phi Kappa Phi

The Honor Society of Phi Kappa Phi, founded in 1897, encourages scholastic endeavor by the badge of membership by sponsoring speakers and granting scholarships. Membership is open to scholars in all branches of learning.

The Missouri School of Mines Chapter was established in 1920. Seniors in the upper ten per cent of their class are eligible for election to membership. The Missouri School of Mines Chapter Book Plate is awarded annually to all students who have maintained a scholastic average of 2.00 or more for the academic year.

Blue Key

Blue Key is a national honorary fraternity whose real aim is expressed in its motto, "Serving I Live". New members are chosen on a basis of character, scholarship, student activities, and service. Membership is limited to a definite number of graduate and undergraduate students.

Service rendered during 1948-49 included publishing of the annual Student Directory, assisting in the Parents' Day and Homecoming celebrations, and introducing the school to the incoming frosh by means of two very successful smokers.

Alpha Chi Sigma

Alpha Chi Sigma is a national professional chemical fraternity which was founded in 1902 at the University of Wisconsin.

The Beta Delta Chapter at Missouri School of Mines started in 1936. The chapter awards the junior and graduating senior in Chemistry and Chemical Engineering having the highest grade point averages, and sponsors an active safety program with freshman instruction as a highlight.

In the fall the chapter was honored by having the district conclave meeting here in Rolla. In addition the chapter had its fall and spring outing, and smokers.

Keramos

Keramos is a national professional engineering fraternity. The Missouri Chapter of Keramos was established here in July, 1947. The object of this organization is to promote scholarship and character in the thoughts of ceramic students, and to promote interest in ceramic art, technology, and engineering.

Projects of the past year include Parents' Day exhibits, a demonstration of ceramic processes and products for the faculty wives, and the showing of technical and industrial films for the entire student body.

Alpha Phi Omega

The Beta Omicron Chapter of Alpha Phi Omega Fraternity was founded on March 12, 1939 to develop friendship and promote service to others in the fellowship of the Scout Oath and Law.

The annual Beauty and Beast Contest and Dance, sponsored by A.P.O., is one of the most popular dances of the year.

A.P.O. primarily serves the students. It sponsors "Keep off the grass" campaigns, maintains a car pool for riders and drivers, operates a book exchange, and annually distributes desk size blotters to each student.

"M" Club

The M-Club is an active organization composed of the varsity lettermen in school. Initiations are held twice a year. The purpose of the club is the betterment of sportsmanship and school spirit on the campus. Its foremost social event is the annual "Pigskin Prom", at which the "Intramural athlete of the year" is awarded a trophy. The M-Club selects the athlete on the basis of his ability and sportsmanship that he has shown throughout the year. The refreshment stands at the varsity games are sponsored by the club for the benefit of the students.

The M.S.M. Student Chapter of the A.F.S. was the second student chapter in the country to receive its charter.

While only in its second year of organization, some of its activities included nationally known speakers from the casting industry, joint meetings with the St. Louis chapter, and plant visits to foundries in the St. Louis area.

Through the efforts of the student chapter, M.S.M. was the recipient of a gift consisting of the necessary equipment to set up a foundry. This small scale plant was the donation of the St. Louis chapter of the A.F.S. and is to be used in familiarizing students in foundry problems.

Fencing Club

University Dames

The University Dames are the wives of students of the Missouri School of Mines. The purpose of this group is to provide entertainment and activities which will interest each individual member.

There are many smaller clubs within this organization. The Glee Club provides an outlet for musical talents. The Mothers' Club, composed of mothers and those interested in children, exchange ideas on the care of children. The Workbasket Club, a sewing group, and the Drama Club, one of the most colorful and interesting groups, round out this highly diversified organization.

St. Pat's Board

Every March since 1908, Joe Miner has laid down his slide rule and books, and replaced them with cigarettes, whiskey, and wild, wild women". March marks the arrival of St. Pat, the Engineers' Patron Saint. This is the high point of the social year for the Miners, and credit must be given to the St. Pat's Board members who have worked to make this celebration a long remembered one.

Established in 1930 and composed of two men from each social fraternity and four independents, the St. Pat's Board sponsors other affairs to help defray the cost of St. Pat's, such as: The Homecoming Dance and the Admiral Cruise.

Association

Gamma Delta is an international association of Lutheran students organized to encourage a study of the Bible and to promote fellowship within the school and between other colleges and universities.

Regular meetings are held each Sunday evening. Following the business section of the meeting, a topic discussion is conducted by the pastoral advisor, Reverend Ellerman.

The motto of the organization is symbolized by our name, Gamma Delta, this representing the first letter of the Greek words "Gnosis" and "Diakonia", which mean "knowledge" and "service", respectively.

The zenith of achievement experienced this year was the opening of the chapter house. Much time was spent in September and October making the house livable. Compliments received by the one hundred and twenty-five guests entertained on Parents' Day more than compensated for the hard work.

During the '48-'49 school year, Alpha Phi chapter was represented by delegates to the Gamma Delta International Convention at Detroit, Michigan, the Missouri Regional Conference at Troy, Missouri, the All-Missouri Seminar at Columbia, Missouri, and the Regional Convention at Carbondale, Illinois.

Competition in intramural sports has realized a marked improvement. A thirty per cent increase in membership promises even greater things.

Engineers Club

The Engineers Club has been organized here on the M.S.M. campus for many years, being the oldest of the student "co-ops". This organization was founded to obtain better and more economical meals for many of the Independent students. The club not only maintains a high standard of living for its members, but also tends to promote fellowship and stimulate interest in campus activities.

Members of the club will be found taking part in most of the campus organizations and the intramural sports program. The Engineers Club is also well represented on the M.S.M. varsity teams.

The Engineers Club is ruled by a Board of Control, the members of which are elected on the basis of capability and personality. The recent Board of Control has done much to improve the club during the past year.

Alpha Epsilon Pi was founded at New York University on November 7, 1913. The fraternity has as its goal the development of a high standard of social and intellectual fellowship among its members so that they may be better fitted to take proper seats in the universities and communities of America. From the beginning the fraternity was planned by the founders as a national college fraternity.

The Nu Deuteran Chapter was founded in May, 1947, and has since then progressed by leaps and bounds. As with every new-born

thing, they have had their growing pains, but these have disappeared and are now concentrating on becoming the best fraternity on the campus. February 1 saw the opening of their kitchen, and other additions and improvements are planned for the future. The main goal to the school and members is to take first place among the fraternities in scholarship, as they have been pretty close these past semesters.

The Chapter House is temporarily located at the corner of 12th and Pine Streets.

Fraternity

The Chi Sigma Fraternity was established on November 6, 1946, as a local organization. Under the guidance of Professor E. Carlton the goal of active participation in all campus social and athletic functions was achieved by the Fall of 1947, when it was recognized by both Student Council and the local Interfraternity Conference.

The school year of 1948-49 was heavily weighted on the social side of the balance with two affairs standing out as extra special. The Christmas Formal filled that lull between Thanksgiving and Christmas, and the Spring Fete made the time between St. Patrick's Day and vacation time fly. These two social events were so popular with the men of Chi Sigma, it is planned to make them annual occurrences. Both affairs were held at the College Inn of the Edwin Long Hotel. With the mention of parties it is impossible to omit the Toomeys, for in Chi Sigma the name Toomey seems to be synonymous with "Let's have a party".

The Fraternity bids a fond farewell to its first graduates, Windsor Warren and Bill Simpkins, who left last June, Leonard Kane in January, and finally Rupe Bullock and John "Lollipop" Shute, who will leave this June.

Kappa Alpha was founded at Washington College (now Washington and Lee) in 1865, Beta Alpha Chapter being established at Missouri School of Mines on April 27, 1903. Since that time, Kappa Alpha has been very active on the campus of M.S.M. and is quite proud of its growth in the past forty-six years.

The chapter house is located at 1311 State Street and has just been remodeled, the newest addition being the glass brick card room on the south end. Besides the great material strides made in the remodeling work, the KA's have had many successful social events.

Striving to meet the standards for such occasions as set down by the Southern Gentlemen, after which the fraternity was founded, Kappa Alpha presented a "Country Style" dance in the fall and the Christmas Formal in early December. In the new year, the boys from the Kastle celebrated the birthday of Robert E. Lee, the spiritual founder of the fraternity, on January 19, and held their annual formal in the spring.

Kappa Alpha has also been very active in intramural sports and other campus activities.

Included in the social events of the year was the annual Pledge Dance. A new twist for the event was the pledge promenade and it turned out to be quite an attraction. This promenade will probably mark the Kappa Sig Pledge Dance in future years. The old Kostume Kar-nival was replaced this year by a hilarious affair under the name "Feiertag". Fifteen minutes after the guests had arrived they were ready for anything—and rightly so—because there were few tricks overlooked by the social committee.

As has been the case for quite a few years, the Kappa Sigs were again one of the leaders in intramural sports. After a weak start in football, they reorganized their strong team and pulled up into second place. Swimming saw the Kappa Sig lose the crown by only a few points, and their table tennis team proved to be champs for the second consecutive year.

The Kappa Sigs are optimistic about the future of the fraternity, and its fifty-four members and twenty pledges are looking forward to next year's events.

The gang's all here.

Fraternity

Whether you call it Alpha Delta Zeta or the "Little Red Playhouse," these boys from across the tracks are still the friendliest group on the campus. This tradition is older than the chapter itself, dating 'way back to the Mucker's Club from which it grew in the year 1917.

Always fostering leadership and scholarship among its members, the chapter is prominent among the fraternities on the campus. Current accomplishments include the intramural softball championship and the prize St. Pat's float, thus illustrating to some extent the diversity of its activities.

The annual Harvest Dance has become a campus favorite and a social must. It continues to grow each year, and though the 85-year-old landmark which is the house groans a little now and then, it's still good for many more years of fun and frolic. The Valentine Dance in February and St. Pat's rounded out the social season at the little red schoolhouse. The appearance of this three stories of red brick and the frequency of the festivities within have contributed to the eventful history of Lambda Chi Alpha on the campus.

As familiar on the campus as any student or prof. is their tiger-striped Great Dane, Olaf. His attendance at class is not too regular, but like his masters, he never misses a social function.

Hail, hail, the gang's all here.

Nine-thirty break.

Nice block, Stan.

On behalf of the '48 pledge class.

Pi Kappa Alpha Fraternity was founded on March 1, 1868 at the University of Virginia. Alpha Kappa Chapter, since its installation on December 2, 1905, has taken a leading role in intramural sports, social functions, and scholastic activities on the M.S.M. campus.

The past year has shown the "Pikes" outstanding in all phases of campus activities. An outstanding basketball team highlighted the year's sports calendar, which saw the Garnet and Gold take first place and team honors in the

annual cross-country race and make a good showing in all other intramural sports.

Pi Kappa Alpha entered the social spotlight with three dances: the Fall Pledge Dance, the Spring Dance, and the Winter Formal, the only true formal of the year on the campus. Founders' Day, Homecoming, and Parents' Day celebrations rounded out the year's social program.

Although enjoying a very successful year, next year should be bigger and better, for graduation did not claim any of the "Pikes" crew.

The Gamma Xi chapter of Sigma Nu was the first social fraternity on the M.S.M. campus, being chartered in 1903. Since that time it has grown into one of the largest and most financially settled organizations on the campus.

In the past year the men of Sigma Nu had very capable representation in the intramural sports and in the inter-fraternity contests. First place was taken in intramural football and swimming, and in the inter-fraternity chess tournament and the inter-fraternity sing. This is the second consecutive year that Sigma Nu has

captured both the football and swimming trophies. Much was also contributed to the keenness of the competition in the intramural basketball program.

The social committee of Sigma Nu did an excellent job in 1948 and 1949, for many successful parties were given at the "Snake House". The Fall Pledge Dance, the Homecoming Party, the Christmas Formal, and the annual Yukon Party in 1948, and the St. Pat's parties and the Spring Formal in 1949 all attracted many Miners and their dates.

Fraternity

The Missouri Gamma Chapter of Sigma Phi Epsilon came through its "sophomore" year with many achievements, most important of which was retaining the scholarship cup for the third straight semester. The chapter house, located at 401 East 7th Street, was first occupied by the chapter in September, 1947. During the last two years much has been done to put the house in the good condition it is at present.

In September, twenty-one pledges were welcomed by the thirty-two men at the house with the red door. Three members of the M.S.M. faculty, J. F. Rushing, E. A. Goodhue, and R. E. Basile; in addition to John Ketz, a transfer from West Virginia, were welcomed into the chapter.

The "Sig Eps" continued their success with many social events during the year. Most outstanding events included a "Sweater Dance" on November 6, the traditional "Sig Ep Sweetheart" formal on February 12, and the annual tri-Sigma Christmas party, held in conjunction with Sigma Pi and Sigma Nu, for seventy children from Rolla.

Sigma Phi Epsilon members and pledges have been very active in all of the campus organizations and the intramural sports program during recent years.

Alpha Iota Chapter of the Sigma Pi Fraternity, formerly the Prospector's Club, was established on this campus in May, 1933. Since then, the Fraternity has been one of the outstanding leaders in all the extra-curricular activities on the campus.

On the social calendar are such never forgotten dates as our "Drop in Dance" at Homecoming, the traditional Sigma Pi "Gay Nineties" Dance, the Tri-Sigma Children's Christmas Party, the annual chapter Christmas Party with St. Nick's usual expensive gifts playing second fiddle to his latest poetic accomplishments, the

fabulous St. Pat's celebration, and our annual Spring Outing and Dance.

Alpha Iota has done well during the past few years in maintaining its traditional activities and obligations on the campus. Many of its men have brought honor to our house by holding offices in various organizations of the college.

Improvements during the past year have consisted of purchasing a new rug for the living room, repairing kitchen facilities, a new cook, and interior redecoration of the dining room.

FOURTH ROW: Mabrey, Diefenbach, Peppers, Harper, Franklin, Burgess, Winn, Beverage, McCombs, Losco, Davis, Greer, Fleshman. The founding of Tau Kappa Epsilon on the campus of Illinois Wesleyan University on January 10, 1899, marked the beginning of Teke-dom in the fraternity world. The M.S.M. chapter, Beta Eta, was founded on March 9, 1947. Although a new chapter on this campus, Teke is rapidly attaining a place of high respect.

Teke's are represented on several varsity teams, and their intramural prowess is such as to be reckoned with in every sport. Already they have gained honors in many of the events. These events play an important part in the program to foster clean living through clean sports.

Last but not least in Tekedom is their social

life. Their outstanding dances of the year start with the annual Red Carnation Formal. This is followed in the Spring semester by a French Underground Party and an outing. They have a well-round social program which is long to be remembered by all who take part.

Another year has passed and some members will be leaving, but one thing to be sure of is that they will leave with memories of college life that could not be more complete. Teke hopes to maintain its good reputation and improve greatly in the year to come guided by the same ideals that put them where they are today.

*Still in action.

Fraternity

At Eighth and State, southwest, is located a massive brick residence, whose sleepy appearance is contrasted sharply to the vitality of its present owners. These men, about fifty in number, who step in and out of the red house comprise the membership of Mu Chapter of Theta Kappa Phi, a national fraternity for Catholic men, founded at Lehigh University in 1922. The organization has been on the campus since 1936, when the last of the old locals, the Mercier Fraternity, went national.

In 1948-49 the Theta Kaps threw their energies in many directions, following a diversified program ranging from the fall religious retreat to their spirited spring struggle for victory on the wrestling mats. Dinner table conversation touched on such subjects as Bullman's T-formation theories, the latest letter to the MISSOURI MINER editor, ROLLAMO yearbook problems, how to maneuver more gradepoints, and whose pin was next to fall.

At the fall initiation three honorary members were brought into the fold, Rev. Michael Gibson, Mr. Harry Allen, and Mr. Caesar Berutt. Latest attractions included the huge silver trophy for winning the second National Efficiency Award in the fraternity during 1948, and BOLGER, the affectionate boxer mascot who was singled out by the Rolla Herald as "Rolla's ugliest dog".

"Never a dull moment," might describe 707 State Street during the year.

Recent acquisitions of modern equipment and new additions to the "Ol' Rock House's" studying facilities have aided immensely to put the Missouri Mines Chapter of Triangle at its most efficient level since its inception in Rolla on December 10, 1927.

Alumni interest has shown a marked effect on the future outlook of the chapter. The fine contributions made to the fraternity by the very

recently conceived Mothers' Club, membership to which is limited to mothers and wives of Triangle actives and alumni, have greatly aided the chapter's program.

Scholastically, socially, and in college extra-curricular activities, Triangles have made good names for themselves and the chapter in the past. It will be their endeavor to continue to keep this reputation in the future.

Laytham, Sample.

S T . P A T S A N D F

The social features on our campus develop an atmosphere of warm friendship and intellectual culture which is indispensable to good school spirit. The main social events of the year are Homecoming, St. Pat's and the Military Ball. St. Pat's with its distinctive MINER traditions, is the highlight of the social season.

E A T U R E S

Erin Go Braugh

It's St. Pat's

Surrounded by snow and Miners, St. Pat once again made his illustrious entry into Rolla to reign over the largest and gayest celebration that the Miners have ever seen. After waiting a year for his arrival, the Miners paid him due homage with the traditional customs as he, on his diamond-studded manure spreader, led the parade to Parker Hall. There he held the audience spellbound by the golden oratory of his welcoming address. After knighting the seniors, Don Spackler, St. Pat of 1949, disappeared until the Costume Ball that evening where he took his place on the throne with his newly crowned Queen of Love and Beauty, Miss Paula Fite.

Saturday afternoon was highlighted by the Sigma Nu Tea Dance. That evening the 1949 celebration reached its peak at the Semi-Formal Dance. Music for both evenings was provided by Benny Strong. All too soon St. Pat departed, leaving the Miners with many fond memories.
