Rain and Cold To Boost Quail Hunting

Stymied by warm, dry weather during the first two weeks, birds, dogs and bird hunters over the state gained hope for better luck following recent rains and the appearance of reasonable temperatures.

Facing what is believed to be the finest crop of birds in a decade, hunters as a whole had poor luck on early jaunts into the fields. Veteran dogs were unable to locate birds because of a combination of heat, excessive cover and in some sections "frost" grass and weeds which had soured.

Most of the birds have been found in or near swamps, according to wildlife rangers who are checking bugs in the field. The most successful hunter reported last week was John Burns, who killed within one of the weekly limit. Hunting is Rabun county Burns killed 15 birds one day and 14 the next. He was an exception, however, as the average was around five birds.

Vegetable Laxative Makes Happy Friends

This is a laxative that usually acts gently as a laxative once but is a gentle persister for intestines when used this way: A quarter to a half-teaspoon of spicy, aromatic BLACK-DRAUGHT on your tongue tonight; a drink of water. There's usually time for a good night's rest, with a gentle, thorough action next morning relieving constipation's headaches, biliousness, sour stomach, bad breath.

BLACK-DRAUGHT is a splendid combination of vegetable ingredients, chief of which is an intestinal tonic-laxative that helps impart tone to lazy bowel muscles. It's economical. 25 to 40 doses: 25c.

PORTAL SCHOOL

Section C of the first grade is enjoying a study of Christmas, and are busy working on their toy ship. The pupils in second grade A are finding pleasure in reading the several new charts they have made about pets.

Fourth grade B is making plans for their study of Christmas. Some of the things they are looking forward to are: Reading Christmas stories, reading and writing poems, learning new songs, and making decorations for the room.

"Resolved, that life in the country is enjoyed more than life in the city," was the subject of the first debate in sixth grade A last week.

The Portal basketball team played two games last week. On Tuesday night they played Brooklet in the Brooklet gym. Portal girls won 22-21, and the Brooklet boys won 21-6.

Thursday night the boys and girls played Stillton in the Brooklet gym. Portal girls lost 19-17, and Portal boys lost 27-13. This is the only game the girls have lost this season. The score at the half was 12-6 in Portal girls' favor. It was one of the best games we have had thus far.

The second year home economic girls have finished their clothing unit. Each girl had some garment to show. Their next unit will be social entertainment.

The ninth grade class held its meeting Friday, November 29. They discussed Christmas plans, and are to have a "Christmas pie" in the class room. They also decided to have a small tree for the ones who wish to give more than one gift. They will have a program, which is being planned by the executives.

We are very sorry to have Dentley White and Louise Riggs leave us. Dentley is going to Metter High School, and Louise to Savannah.

The eighth grade home economic class is beginning to cook. Last week they planned, prepared and served a breakfast with baked apples, shredded wheat, toast and milk. We are very sorry that one of the eighth grade girls, Willie Jean Hart, has broken her arm.

FARMERS FACE URGENT TRUTHS

Agent Urges Cotton Growers to Vote in Saturday's Referendum

A call for all eligible Bulloch county cotton growers to vote in the marketing-quota referendum on Saturday, December 7, is made by Bulloch county extension agent.

Reviewing the referendum background, Mr. Dyer points out that there are two important facts for growers to consider: First, that a marketing quota is provided by the Agricultural Adjustment Act of 1938 when cotton supplies are 7 per cent or more above normal, and second, that a two-thirds majority of the growers voting in the cotton belt is required to put quotas into effect.

Today's cotton supplies are 37 per cent above normal, he states. The world supply of American cotton is estimated at 25 billion bales, as compared to the normal supply—which is made up of normal exports and domestic consumption plus an adequate allowance for carry-over—of about 18 billion bales.

The county agent declares that increased world consumption of American cotton is not indicated in the immediate future. Past history shows that war conditions not only cut down the nation's cotton exports, but also reduced world consumption, he says.

"Each grower has a vital interest in working toward the best price possible for his cotton," Mr. Dyer states. "He needs to consider marketing quotas in terms of surplus cotton supplies and reduced consumption due to the present European war."

"Every farmer who produced cotton in 1940 should go to his community polling place on December 7, and express his opinion on quotas for 1941. A large majority of cotton growers voting will mean that the referendum outcome represents the true opinion of producers as a whole."

L. F. Martin, chairman of the AAA committee, said that cotton loans, which have helped this year in maintaining cotton farmer's income, can be made available to line growers in 1940 only if marketing quotas are approved in the referendum on Saturday.

The Agricultural Adjustment Act of 1938 specifically provides that if quotas are proclaimed and then voted down, loans cannot be made, he points out.

"With the present restricted export outlets, and in spite of an expanding domestic consumption, cotton today probably would be selling for the lowest price in history were it not for loans which have placed a floor under the price," Mr. Martin asserts.

He pointed out that if marketing quotas were not approved in the referendum on December 7, the 1940 cotton loan program would have to cease at the time ballot results are announced, and a loan could not again be available until August 1, 1942.

If quotas are approved, and if loans are made available, growers who plant within their acreage allotment are eligible for loans on all cotton they produce in 1941, the county AAA chairman says. Those who overplant their allotments are eligible for loans only on cotton produced in excess of their marketing quotas, and then only at 60 per cent of the loan rate for co-operating producers.

MISS SARA KATE ILER

Bulloch County Girl Wins 4-H Dress Award

Pleasant recognition for the clothing club work in Bulloch county has come with the receipt by the county home agent, Miss Irma Spears, of an award for participation in the 4-H dress revue. The award is a handsome silver medal bearing the words "County Dress Revue," a graceful figure in a flowing costume and the 4-H insignia in bold relief. It is thumb-nail size and worn with a clasp.

The award will be presented to Miss Jessie Kate Iler, of the Nevils club. Ten girls took part in the county revue. The state is being represented in the national revue at the nineteenth National Club Congress in Chicago now in progress by a girl chosen from county winners. The trip and all other awards are given by the Chicago Mail Order Company for the twelfth season to develop the skill and knowledge necessary to plan and construct suitable costumes and wear them becomingly.

DOBBS TO DIRECT BIRTHDAY PARTIES

Noted Georgia Leader Accepts Responsibility For Important Undertaking

Appointment of H. T. Dobbs, chairman of the state welfare board, as executive director of the Georgia committee for celebration of the president's birthday on January 30, was announced yesterday by Ellis Arnall, state chairman.

In announcing the appointment Chairman Arnall said: "Because of Mr. Dobbs' long connection with welfare work and his experience as a business man, the Georgia committee feels he will make one of the outstanding executive directors in the eight-year history of the president's birthday celebrations. We are fortunate that Mr. Dobbs will be able to lend his time toward carrying the 1941 celebration to a successful conclusion."

Accepting his appointment Mr. Dobbs said:

"There is no cause in the entire scope of welfare work more worthy than the 'Fight Infantile Paralysis' program, financed through the annual president's birthday celebrations. It is with great pleasure that I accept a small place in this great battle in behalf of humanity. We must surpass the already excellent records that have been made in this state for the cause against polio."

REGISTER CLUB

The Register Home Demonstration Club met at the school house on Friday, November 29, with Mrs. Franklin, Dorothy DeKle and Mrs. Akerman as co-hostesses. The demonstration was on simple Christmas gifts. The club members were requested by Mrs. O. C. Anderson to have their wood ready for the Statesboro Woman's Club this week.

As the next meeting date comes on Christmas week, the club decided to postpone their December meeting until the January meeting, which will be January 24th.

Newsy Notes From Nevils

Miss Margaret Lovving spent the week end with her parents in Augusta.

Miss Mildred Sell Anderson is spending some time with Mr. and Mrs. Ralph Dixon, at Sylvania.

Mr. and Mrs. G. C. Avery and children and Mr. and Mrs. B. F. Futch were visiting in Athens Saturday.

We have been having some very rough weather for the past several days; guess this is just-before Christmas weather.

Miss Lila Mae Nesmith, who is teaching at Leefield, was at the home of her parents, Mr. and Mrs. Watson Nesmith, for the week end.

Dr. C. E. Stapleton is back at his home here after having been in Augusta for the past two weeks. He has been taking a post course in medicine. He will probably go back one day each week for a while to all important clinics.

Our school seems to be moving along as smoothly as it can after our catastrophe. Lunches are now being served to the pupils of the grammar grades and they hope to arrange for the high school students to be served soon.

The November finance hospital committee has postponed the big play, "The Progress of Dress From 1890 to 1940," but will stage a short play and oyster supper on Friday night, December 13th, in the home economics department.

Mrs. W. A. Lanier and little son, W. A. Jr., spent the week end in Savannah with her son, Slaton Lanier, and Mrs. Lanier, and with her brother, Leon Proctor, and his family. Mr. and Mrs. Slaton Lanier came up on Sunday night and brought them home.

We have had several automobile wrecks among our folks during the past week; Mrs. LaDoris Anderson being among the unfortunates. In order to avoid striking a cow she lost control of her car, it turned completely over, damaging it badly. She and her small baby, only occupants of the car, miraculously escaped serious injury.

All of the Martin and DeLoach relatives from South Carolina and Florida came on Saturday night and Sunday to be present at the funeral of Mrs. D. E. DeLoach, which was held at 3 o'clock Sunday p. m. at Black Creek church. She died on Friday morning at 6 o'clock at her home in Columbia, S. C. She was the widow of the late Rad DeLoach, who lived nearly all of his life near Denmark, but who with his family

moved several years ago to South Carolina and the family continued to live there after his death ten years ago. Mrs. DeLoach had been in failing health for several years.

MISCELLANEOUS SHOWER

An interesting event of the season was the miscellaneous shower given Monday afternoon in the beautiful "new country" home of Mr. and Mrs. R. E. Anderson, with Mrs. John B. Anderson, Mrs. Ben Strickland and Mrs. R. E. Anderson as hostesses. The shower was given in honor of Mrs. E. C. Miller Jr., a recent bride. Misses Hazel Davis and Wilma Lee Anderson stood at the punch bowl. Miss Elida Anderson received the gifts. Mrs. Ben Strickland, of Claxton, met the guests at the door. Miss Linda Lee Helmuath had charge of the bride's book. Mrs. John B. Anderson was hostess of the gift room. Misses Mildred Nell Anderson and Ida Frances Helmuath were in the dining room. Mrs. Leon S. Anderson, Mrs. V. B. Anderson and Mrs. Penton Anderson assisted with the serving. Delicious refreshments of ambrosia and whipped cream, fruit cake and butter toasted pecans were served. The Christmas color scheme of red and green was used in all the decorations.

The Safest way to transport Gasoline

PIPE lines have been operating successfully in the United States for more than 75 years, and only the Southeast, of the great producing sections of the United States, is without pipe lines.

Throughout the United States today, there spreads a vast network of 122,000 miles of pipe lines transporting gasoline and other oil products.

These lines are protected,

sealed, continuously welded steel tubes laid two and a half feet underground.

They work 24 hours a day moving nothing except oil products; no dead weight is carried; operation is largely automatic, and each pipe line is built to withstand five times the pressure put upon it.

And gasoline and oil—in the condition in which they flow through pipe lines—actually are non-explosive.

Could anything be safer than this means of transportation?

Obviously not. There is not even as much hazard present as in the ordinary lines that so widely supply our cities and homes with cooking and illuminating gas.

The transportation of gasoline by pipe line is not just "reasonably" safe. It is by far the safest method yet devised for land transportation of oil and oil products.
