BROOKLET NEWS

Mrs. F. W. HUGHES, Reporter

Mr. and Mrs. H. B. Durden and children visited Mr. and Mrs. R. A. Lanier last week end.

Ernest Daves, of Jessup, a graduate of the Brooklet High School, was a visitor here this week.

The Ladies' Aid Society of the Primitive church met at the home of Mrs. F. W. Hughes Monday afternoon and enjoyed a Bible study led by Mrs. Earl Hallman.

Mr. and Mrs. J. D. Alderman entertained with a lovely dinner Friday evening. Covers were laid for Mr. and Mrs. D. L. Alderman and children, Mr. and Mrs. Felix Parrish and Miss Emily Kennedy, of Statesboro.

The new McCormick hotel and service station is now completed and is operated by Mr. and Mrs. J. H. McCormick Jr. The building is made of brick veneer, equipped with new furniture, and well situated to care for the tourists that may stop.

The Women's Missionary Society of the Methodist church was hostess to a zone meeting here in an all-day session Tuesday. Prominent on the program was an address given by Mrs. Marshall, of Savannah. The welcome address was given by Mrs. E. W. Graham.

Mr. and Mrs. H. G. Parrish entertained Sunday with a Christmas dinner. Those present were Mr. and Mrs. W. D. Parrish and children, of Stillmore; Mr. and Mrs. W. E. Parrish; Mrs. Wayne Parrish, Mrs. Edith Parrish, Mr. and Mrs. Felix Parrish, Miss Emily Kennedy, of Statesboro, and Wayne Parrish.

The Epworth League held an interesting meeting Monday night at the Methodist church. The following program was given, arranged by Miss Norma Simon: Song; devotional; Rae Minick and Mary Elarbee; talks, Carol Minick, Mary Elizabeth Elarbee and Rae Minick. The theme was "Co-operation of all Christians."

Mrs. J. H. Wyatt entertained twenty-three members of the Methodist Missionary Society Monday afternoon at which time the following program, arranged by Mrs. C. B. Griner, was rendered: Devotional, Mrs. M. G. Moore; vocal duet, Mary Elizabeth Elarbee and Mary Elarbee; reading, Miss Myrtle Brown; Christmas Medley, Miss Helen Enecks; talk, Mrs. C. B. Griner.

Both the boys' and girls' basketball teams of the school played games last Friday night, when the Brooklet boys defeated the Hillside boys 24 to 18 and the Hillside girls defeated the Brooklet girls 25 to 21. Pauline Everett won eleven of the twenty-one points for her home team, and Mary Elizabeth Elarbee won the other nine. The outstanding improvement made in the boys' team was that of Claude Cowart, whose skill helped to win the game for the boys.

The Parent-Teacher Association held its regular program meeting on Thursday afternoon. Mrs. W. C. Cromley arranged the following program on the theme "The Under-Privileged Child": devotional, Mrs. M. G. Moore; poem, "The Boy That Didn't Pass," Mrs. H. T. Brinson; poem, "Investment," Mrs. J. H. McCormick Jr.; violin solo, "Mighty Lak a Rose," Mrs. H. T. Brinson; vocal duet, "These Little Boys of Mine," Mrs. T. R. Bryan Jr.; address, "The Under-Privileged Child," Mrs. F. W. Elarbee.

The W. C. T. U. held an interesting meeting at the Methodist church last Wednesday afternoon. Mrs. M. G. Moore, the president, is a wide-awake worker, and she, together with the other members of the union, cordially invites the town and community to attend these monthly meetings. The following program, arranged by Mrs. E. W. Watkins, was rendered Wednesday afternoon: Theme, "Echoes of the National W. C. T. U. Convention"; song, "Carry On," devotional, Mrs. Hoastetter; songs, fourth grade children; address, "Yesterday, Today, Tomorrow," Rev. J. J. Sanders; prayer, "The Lord's Prayer," Mrs. Parrish; poem, "Peace," Mrs. Felix Parrish; song, "Some Glad Day."

BOX SUPPER AT IMPROVE
There will be a box supper at Harville church Thursday evening, December 20th, at 7:30 o'clock, for the Denmark P. T. A. The public is invited.

IN MEMORIAM
In sad and loving remembrance of our dear husband and father, W. E. BRUNSON, who died one year ago, December 16, 1933.

We little thought when leaving home that you would never return; That death so soon would part us, And leave us here to mourn.

What pain you bore we'll never know, The issues were not took as printed and offered. The report that 25,000 shares changed hands last Tuesday on the board was not confirmed because this was not, however, it ain't no trouble to swap stocks to admit the income tax at this season of the year. I suggest you sell your weak stocks and sell your loose bonds.

Thousands of Women Benefited by Cardui
The benefits many women obtain from Cardui give them great confidence in it. I have four children," writes Mrs. J. L. Norred, of Lurline, Ga. "Before the birth of my children, I was very nervous and tired. I had a lot of trouble with my back. I took Cardui each time and found it so helpful. And that our hearts are healed. Friends may think you are forgotten, but that our hearts are healed. That our groaning hearts conceal. DEVOTED WIFE AND CHILDREN.

A CHRISTMAS GUM-DROP TREE

A gay and comical "gum-drop tree" for the Christmas table will provoke smiles, and it won't shed! It makes use of the vogue of cutting ordinary tin food-cans with scissors into long, pliable strips and twisting them into modernistic plant forms for artificial flowers. Cut each strip almost around the can. The lengthwise section of the can that remains, to which the strips are attached, forms the base of the "tree." The strips are twisted artistically and to each swirling silver "branch" is speared a colored gum-drop. Christmas tree "ice" is made by mixing into a silver phantasy, accented charmingly with the many-colored candies.

By Christmas Eve there should be a goodly store of glittering, colorful candies molded in the shapes of Christmas time, to parade down the branches of the big tree. And there should be an abundance of chewy, fruit confections, stuffed dates, glazed fruits and bonbons, when the last gift-basket has been packed. In other words, "translucent sugar tinct with cinnamon" should be bubbling on our stove right now.

Two simple foundation recipes which can be made now will just about complete the Christmas candy needs in any home. First is barley sugar, for making lollipop sticks and molded candies and for glazing fruits and nuts. These can be stored in a cool place for two weeks or more, until needed. The second is fondant, for making Christmas bonbons, for filling prunes, dates and figs, and for dipping fresh pop-corn. After fondant has been worked until it is smooth and creamy, it will keep for a long time in a covered glass jar in the refrigerator.

The simple combination of sugar, water and cream of tartar called "barley sugar" is the foundation of most of the variously colored and flavored hard candies at Christmas time, the lollipop sticks and sugar toys. One reason is that it is safe for children to eat. It is cooked until it turns brittle when tipped into cold water, then poured into well-greased molds. For pull candy, it need only reach the soft-ball stage. Simple molds can be bought for lit.

Walnut Mints
1/4 cup sweetened condensed milk.
1/4 cup sifted confectioners' sugar.
1/2 teaspoon peppermint extract.
1/2 cup halves of walnut meats (36).
Slowly add the condensed milk to the confectioners' sugar while blending thoroughly. Add the peppermint extract and mix until smooth and creamy. Form the fondant into balls 1 inch in diameter. Then press half a walnut, meat on each side of each ball. Delicious served as an after-dinner mint. Makes 18 walnut mints. By substituting an equal amount of vanilla extract for the peppermint extract, this fondant makes a delicious stuffing for dried fruits, etc.

Sweet Cigars
Spread 1 cup California walnut kernels in buttered pan. Bring 2 cups strained honey to a boil; boil gently 5 minutes. Pour over nuts. Set in cool place. When hard crack in small pieces.

Flavor a portion of candy base with almond extract. Knead into it a mixture of chopped candied or dried orange, sliced almonds and cover the surface with chopped nuts. Place in a refrigerator and allow roll to become firm. Cut into thick slices. Such fruits as candied cherries, pineapple and citron make a light colored roll, while dried prunes, dates, currents and raisins make a dark one.

Mike Clark's Weekly Market Letter
Liverpool cables reported strong winds in Bombay and some showers in Texas and the south, but Manchester spots remained firm in sympathy with free silver and high gold, the shorts delivered their nearby months and the longs straddled their far-off months when July broke 17 points on violent bankhead news from warm springs. The export-import bank has contacted Europe and hopes to sell them 50,000 barrels, provided she can raise 10 per cent of the money in cash. I advise further curtailment in chawing tobacco and gasoline, but hold your fifteen-sixteens and over for a spurt.

.. Nobody's Business ..

(By GEE MCGEE, Anderson, S. C.)

Thank You!
Our little town made very glad last week when a note came out in the newspaper that our telly-foam rates had been slashed. This will prove a big help to the users thereof. The reduction will put lots of money in circulation in other channels.

The new rates will go into effect in the near future. Where you have been paying 35 and 40 for a foam in your dwelling house, you will have to pay only 33, thus saving you the sum of 10 every month or a grand total of 18 and 40 per year. If you have been doing without a car, now is your chance to get one with this saving.

The french foam has been cut from 60 per month to 45 per month, but as nobody has a french foam in his house except yore cory spondent, Mr. Mike Clark, rñi, he will be the only person who benefits by this cut. Everybody else uses just a plain english foam, as they do not know how to talk french now. A french foam is a foam which you hold both ends up at yore year and mouth while talking over same.

holsum moore is figuring on buying bonds with the cash he will save each month, but art square has his eyes on some stocks and bonds, and is rally and trule thinking of investing his'n in telly-foam stock which is now fetching only about 1068 per share. I.o.b. well-wrest' mikenie veeve smith is going to pay off of the mortgage her ma owes the federal land bank on her farm.

The other 3 families in our little city who has foams are not yet made any plans for the future, but one of them is talking about starting up a bank, while the other 2 have their minds on a self-playing pi-anna, or a supper-hetrodyne radio with a short wave circuit so's they can tune in on cuby and japan and chicago. The 2 business foams were also cut to the tune of 40 per month. they will put this money back into their business and thereby double same.

This big slash in rates has been a brewing ever since the world war, and it came the other day like a bolt of thunder out of a clear sky. There was much rejoicing over our success which was due to the fact that the foam company finally at last got in first-class financial shape, and kerpiz, went the rates, the copper-rollers are not so-less people after all, and we want them to know that we foam talkers appreciate their kindness from the bottom of our respectable hearts.

The u. s. government will have a hard time winning another war for her allies on credit, as her boys will not feel like fighting until they get their bonuses paid in cash, so she might as well pay it before a fight starts, and then our soldiers will whip all of the nations as they did enduring the world war, the wall street men is already making plenty ammer-nation and balloons, and just as soon as they get the world well stocked up with fighting tools and gas and submarines, then look for the biggest war ever yet.

your trulle, mike Clark, rñi, fore-caster.

Highway Contracts Be Let December 21
(By Georgia Newspaper Alliance)
December 21 is the date set by the highway board for the largest letting of highway contracts in the Talmadge regime and one of the largest in the history of the state. This letting of thirty contracts, totaling \$1,500,000, will be entirely of federal funds. Between 3,500 and 4,000 workmen will be employed on the various projects.

Six of the largest contracts call for work on two new roads into Atlanta and construction of a bridge over the Chattahoochee river. In addition, \$225,000 is scheduled to be spent on the new Marietta-Atlanta road via Paces Ferry road and the new bridge, The Atlanta-Buford road, which is now under construction and which, when completed, will cost nearly half a million dollars, is affected by three contracts in the letting, to cost \$190,000, including paving of 5.159 miles on the Buford end in Gwinnett county.

In addition to these contracts, 24 others are announced by Chairman W. E. Wilburn for work in the following counties: Wilkes, Cobb, Talbot, Twiggs, Appling, Columbia, Jackson, Houston, Murray, Peach, Turner, Paulsboro, Meriwether, Butts, Jasper, Union, Ware, Crisp, Tift, Bryan, Richmond, Greene and Wheeler.

A pacifist is a fellow who, when his wife complains about a mouse squeaking around the house, buys an oil can instead of a trap.

trade winds were not strong enough to blow the market out of the rut it has got into oner count of the new deal putting the screws on wall street, but power issues seemed stronger than usual because of the t.v.a. let up on the bears in tennessee; however, rail loans sunk a right smart when the issues were not took as printed and offered. The report that 25,000 shares changed hands last Tuesday on the board was not confirmed because this was not, however, it ain't no trouble to swap stocks to admit the income tax at this season of the year. I suggest you sell your weak stocks and sell your loose bonds.

NEWS OF THE WEEK OVER THE NATION

HAPPENINGS THAT AFFECT DINER PAIDS, DIVIDEND CHECKS AND TAX BILLS OF PEOPLE.

No topic is more bitterly debated than that of whether or not extension of the powers and activities of the federal government is desirable or necessary. But it is not debatable that during the last two years there has been an astonishing and unprecedented development of the federal bureaucracy. There are now 30 agencies, wholly or partially supported by federal funds, or directly under governmental supervision, which have the power to make loans. Here is a partial list—and few will find many of the names familiar:

CBC (Central Bank for Co-operations)—Makes loans to large co-operative associations to finance the sale of farm products and the development of better marketing facilities.

CCC (Commodity Credit Corporation)—Works to stabilize the marketing of farm products, by making purchases in the open market and encouraging with financial aid the creation of marketing agreements among producers.

ECPLP (Emergency Crop Production Loan Office)—Makes loans, for crop production purposes, to farmers who cannot obtain credit from other governmental agencies.

EHFA (Electric Home and Farm Authority)—Is making possible the sale of electric home-saving devices at extremely low prices, by cutting interest and financing charges.

FCUS (Federal Credit Union System)—This bureau is backed and supervised by the government, but receives no public money. It promotes co-operative associations in order to provide members with a source of short-term credit.

FERA (Federal Emergency Relief Administration)—Grants money to states for loans to farmers, and finances homesteaders in the rural industrial community projects.

FLB (Federal Land Banks)—Makes mortgage loans on farm lands.

HOLC (Home Owners' Loan Corporation)—Relieves home-owners by taking over mortgages which they cannot meet, and replacing them with new mortgages whose terms are much easier.

PCA (Production Credit Associations)—Makes general farm loans. PWA (Public Works Administration)—Most famous of the bureaus, and most important. Makes loans to states, cities, counties, railroads and other types of corporations for improvements and developments.

FWEPC (Federal Works Emergency Housing Corporation)—Designed to stimulate the building of low cost homes, by making long time loans on highly favorable terms. Due to a decision against it by Comptroller of the Currency J. R. McCar, its work is being handled at present by the PWA.

FRFC (Reconstruction Finance Corporation)—A holdover from the Hoover regime. Provides emergency capital for financing agricultural and industrial undertakings.

TVA (Tennessee Valley Authority)—Builds municipal power plants in towns in the Muscle Shoals area, provides them with power at wholesale rates, and sells them the plants on the "easy payment" plan.

USREB (United States Shipping Board Bureau)—Lends to American ship-building concerns.

There, as Al Smith would say, is the record. Functions that, a few years ago, were considered the exclusive province of states or private interests have been taken over by the federal government in the course of its great recovery drive. Administration supporters say that the new bureau are essential, that they are doing an invaluable work which only the federal government can adequately do—administration critics, however, their heads, denounce what they believe is a trend toward Fascism. The average citizen, faced with a multitude of dissenting opinions and persuasive arguments, is in a continual daze.

Latest reports show slow but steady improvement in cotton and wool. It is certain that there will be a sharp rise in the immediate future, due to Christmas buying, which has not yet been reflected in the indicators. Specific items are:

Automobiles: Last week shows an increase in production of 4,000 and over preceding week. October assemblies were about 30 per cent under September. During the first eleven months of the year, sales were well above the comparable period in 1933.

"BY THE WAY" Edna P. Rousseau Special Writer

Washington, D. C., December 8, 1934.
The car is stacked for a continuation of the New Deal. Under the president's skillful manipulation, he gained enough Democratic support through the last election to await with confidence the outcome of the 1936 returns. The United States is a fairly good barometer of this condition. If every Democratic senator coming up for re-election in '36 is defeated by Republican or third party candidates, there will still be a Democratic majority in that most august body. Merrily we roll along!

Makes Silk Socks Of Dixie Pines
Atlanta, Ga., Dec. 10 (GPs).—Dr. Chas. H. Herty, noted Georgia chemist who made newsprint from Georgia pine trees, now has produced rayon—and silk socks, gowns, clothing will come next.

The first silken yarn made from Georgia slash and loblolly pine trees by the new process was exhibited for the first time at a meeting of the Society of Organic Chemists in New York last week. Dr. Herty, who was present at the meeting, said there is enough of this southern pine to supply the entire world with clothing.

"There are 200,000,000 acres in the south not needed for agriculture," Dr. Herty said in addressing the chemical society in New York. "This land is producing 4,000,000 tons of pulp for manufacture, or 200,000,000 cords a year. For its entire wood pulp yield the world uses only 18,000,000 cords. It is up to chemists to find new uses for this storehouse in the south. This cellulose is waiting for the chemist's touch to make products we do not even dream of today."

The beautiful rayon yarn made from pine pulp, which Dr. Herty has announced as the second great development of his experiments conducted at his Savannah laboratory, is said to be similar to synthetic dress goods already manufactured through the industrial world. Previously these have been supplied by slow-growing northern spruce trees. The southern pine grows nearly five times as fast.

"I think this sample of rayon constitutes the glorification of the pine tree and furnishes abundant justification of my unflinching faith in its fibre," Dr. Herty declared.

Uncle Sam is leaning back in astonishment staring at Finland. A falling apple exploded an idea in the brain of Sir Isaac Newton, Einstein was hypnotized by a curve (no, you are wrong, it was not that kind), Nurni set Finland on its ears by his Olympic performance. But the United States is stricken speechless by the greatest feat of the age when Finland every year forks over the full amount due on the payment of her war debt. It calls to mind the phrase, "Words cannot express, etc." The other European countries are made to look rather silly in their defaulting, but we don't know whether to laugh or cry, Finland take a bow.

Now that the election is over, Prof. Tagwell is coming home, and that he remained in Europe until after November 6 is further evidence of President Roosevelt's good political judgment.

CARDS OF THANKS

The charge for publishing cards of thanks and obituaries is one cent per word... Do you want a guardian?

Do you want a guardian? If any part of our people want to be wards, if they want to have guardians put over them...

In those words, the war president, who had a greater knowledge of world history than almost any man who has held the mantle of chief executive...

It is likewise the spirit that we must keep constant in mind as a guide to the future, if we are to endure as a democracy in which liberty is always to be maintained...

These eleven men arrested as counterfeiter can put up a good defense by stating that they were just getting ready for inflation.

TAXES—THEN MORE TAXES

The purchaser of a loaf of bread, according to the National Investment Transcript, pays 17 kinds of taxes when he lays his dime on the counter.

If he takes an automobile, he is paying 42 different kinds of taxes.

If he takes a subway or an electric car, the total number of visible taxes which are part of his fare runs to about 58.

All of these taxes, obviously, are indirect—and very few of us know that we pay them.

It is obvious that these indirect taxes—which provide the bulk of governmental revenue—fall more heavily on persons of moderate means than on those with higher incomes.

We will have tax reduction when we spend less tax money—and not until then. Only massed public opinion, backed up by knowledge of the facts, can bring it about.

We guarantee satisfaction. W. AMOS AKINS & SON, Phone 3923

REDUCTION PLAN IS ANNOUNCED

Athens, Ga., Dec. 10.—A reduction of 25 per cent from the base acreage of co-operating cotton producers for 1935, as compared with a 40 per cent reduction in 1934, has been officially announced by Secretary of Agriculture Henry A. Wallace and Chester C. Davis, administrator of the Agricultural Adjustment Act.

This action makes effective for 1935 the approximately 1,104,000 two-year contracts signed during the early part of 1934, and also opens the way for producers operating farms not covered by contracts this year to sign a one-year contract for next season, it was announced.

Producers who desire to do so will be permitted to reduce up to and including 30 per cent of the base acreage and receive payment therefor. The permitted reduction of an additional 5 per cent is justified to allow more latitude in the arrangement of farm plans of individual producers, the announcement said.

The basis payment for the 1935 program is 30 cents per pound "on the average yield of lint cotton per acre for this farm for the years 1928-1932 with a maximum rental of \$18.00 per acre" for the acres rented under the contract, and a "parity payment" of not less than 14 cents per pound on the farm allotment.

If the Bankhead Act is continued, the production is estimated at twelve million bales, but if the Bankhead Act is not continued the yield is estimated at several million bales more.

A searching examination of all facts and factors relating to world cotton production indicates no immediate threat of appreciable expansion outside the United States, the announcement by Secretary Wallace said, and most of the increase that occurred this year is said to represent a restoration of previous reductions rather than new acreage brought in.

WTCC PROGRAM FOR THE WEEK

Editor Frank Miller, of the Pembroke Journal, Bryan county, was guest speaker on the December 11th program devoted to the twenty-five weekly papers in the WTCC listening area. On December 13th Editor G. M. Harrington, of the Jesup Sentinel, was guest speaker on the newspaper program.

Programs of especial interest to the county people for this week are the programs to be presented by friends from Estill, S. C., on Friday afternoon at 4:30 o'clock and on Saturday afternoon at 3:30 a program sponsored by a group from Millen, directed by Lyde Tate.

N. T. Stephens, news reader and publicity man of WTCC, addressed the Eighth District Press Association at Jesup on December 7th on the subject: "Co-operation between WTCC and the Newspapers of Southeast Georgia," meaning the two dozen weeklies which are part of the station's co-operating programs.

Three Wise Men Are "Stop, Look, Listen"

Athens, Ga., Dec. 10 (GPS).—Safety first organizations here, seeking to reduce deaths and injuries from accidents at railroad crossings and on the highways, today cited for illustration the school boy's reply to the teacher's question as to who were the "Three Wise Men." The statement says: "Tax ignorance is the crowning element in mass ignorance today." Most of us pay few or no taxes directly—and we think because of that we are contributing nothing to the cost of government.

There is not a thing in the world that isn't taxed. The house we live in represents a legion of taxes—running all the way from taxes on standing timber to taxes paid by the store that sold the finishing paint and the manufacturer which produced it.

It is obvious that these indirect taxes—which provide the bulk of governmental revenue—fall more heavily on persons of moderate means than on those with higher incomes. A loaf of bread will last a millionaire as long as it will a laborer—and the tax is the same on the loaf each buys. Tax reductions would be the greatest boon the average American could have—a boon that would at once be reflected in more jobs, more purchasing power, more spending for the necessities and luxuries which keep the industrial machine turning.

We will have tax reduction when we spend less tax money—and not until then. Only massed public opinion, backed up by knowledge of the facts, can bring it about. The cost of government can and must be reduced—all the way from Washington down to the smallest hamlet in the land.—Industrial News Review.

ASK DONATIONS FOR ORPHANAGE

We have set December 20th and 21st to collect hogs for the Georgia Baptist Orphan Home. We are asking each church chairman whose address appears on the list below to make a thorough canvass of the membership and other friends in the community to help provide these hogs. Any church can furnish as many as six or more. We are expecting our people to make as good showing on the hogs as they make on the cash produce which has already been shipped to the home. As church chairman, make a canvass of your community and have the hogs assembled at some central point in your community on the 20th and then they can be conveyed to Statesboro and from there to the orphan's home.

The following list of names are the men upon whom I am depending to stand by me in collecting these hogs: Bethel, Ben D. Nesmith, Statesboro; Brooklet, A. F. Joiner, Statesboro; Clito, J. R. Evans, Statesboro; Corinth, T. J. Hugin, Statesboro; Elmer, J. A. Hart, Statesboro; Emitt Grove, L. L. Clifton, Statesboro; Excelsior, W. W. Wallace, Register; Fellowship, J. H. Kindly let me know how many hogs you have assembled at my place. O. L. McEMORE, Statesboro, Ga.

Rucker Makes Meat On Large Program J. Weston Rucker, once known as "Tater" Rucker because of his reputation as a potato grower, is equally entitled to recognition as a meat producer. At his home Monday afternoon, December 10, he was permitted to see hanging about the yard carcasses of twenty-two as fine hogs as were ever butchered. In weight they ranged from 250 pounds downward to slightly below 200. Apparently the average weight was around 225 pounds. Mr. Rucker had last week sold more than \$100 worth of the same sort of hogs at \$5.02 per 100 pounds. He preferred, he said, to make his hogs into meat and sell the meat later at better prices. Mr. Rucker took time away from his work to open his barn and show the abundance of feedstuff there, besides the many bags of home-grown wheat; more than 100 bushels of peas, and many tons of cotton seed. He said he had sold approximately \$300 worth of pecans from his farm, and that he was leasing to a farm without covering his entire plantation with cotton. It is a safe guess that nobody at "Tater" Rucker's home will be hungry during the coming year.

Cliponreka School The students of Cliponreka school throughout enjoyed a day in Savannah last week viewing and visiting the sights of historic interest in the sea coast city. Some of the places through which the students were carried were the City Market, Colonial cemetery, Bonaventure cemetery, Tybee, Fort Stevens, Thunderbolt, the aviation field, the docks, where they had the privilege of going through a large ship, Forsyth Park, the important statues and monuments and the sugar refinery.

The P.-T. A. met last Thursday night and enjoyed a Christmas program given by some of the school children. After the program an important business meeting was held. Blois Bailey was elected as our new president. Thursday was voted upon as the work day upon which the patrons of the school will meet to put in a new pump and plant grass, trees and other shrubbery. We already have a new volleyball court which we are very proud of. After the program and business was over, refreshments were served. The P.-T. A. will hold its next regular meeting on January 10th, 7:30 o'clock. A negro minstrel will be given in school auditorium next Thursday, Dec. 20th, at 8:00 o'clock. This minstrel is filled from beginning to end with the very peppiest songs, jokes and plays. Admission will be 10 and 15 cents. Hot dogs, cakes, drinks and ice cream will be served. The public is cordially invited to attend. FDANCIS BROWN, Reporter.

FARMERS UNION TO BE ORGANIZED EACH COUNTY WILL OPERATE INDEPENDENTLY OF OTHER STATE GROUPS. Atlanta, Ga., Dec. 17 (GPs).—Patterned on the Danish farmers market system and the famous English cooperative store distribution plan, a state-wide marketing organization for Georgia farmers is now in process of being formed. It was announced here today by the organizing division of the Farmers Union Exchange, of Atlanta. Preliminary to the launching of the marketing system, which will enable farmers to find a ready market for all their products, it was stated that farmers unions will be organized in every county, each union or group operating independently of other groups and state officials.

FARMERS PLAN TO DISCUSS PEANUTS WILL HOLD MEETING AT THE COURT HOUSE SATURDAY TO PERFECT CONTROL METHOD. Bulloch county peanut growers have been notified to attend a meeting to be held in the court house Saturday, December 22, at 10 a. m., to study the peanut control contract for the coming year. Bulloch county has been listed as one of the larger commercial peanut counties in the state by the Agricultural Adjustment Administration.

FIREMEN STAND BY AS HOUSE BURNS ATLANTA FIREMEN REFUSE TO GO INTO ACTION UNDER THEIR RULES. Atlanta, Ga., Dec. 16.—A brick residence lay in ruins today, mute evidence of a strange situation wherein a fire department called to the scene refused to go into action to save the building from fire. The house, that of Capt. Ade Orill, on Villa drive, in one of the city's best residential sections, caught fire yesterday. The fighting unit of the Druid Hills Fire Department, Inc., was called to the scene, but the firemen said their rules prevented them from fighting the fire. The house is outside the city limits and Atlanta's fire department could not, under its regulations, answer the alarm. So the house burned down.

Newspapers Condemn Liquor Store Plan (By Georgia Newspaper Alliance) Editorial comment on the advocacy of a whiskey store by Atlanta Mayor James L. Key ranges from an editorial in the Carrollton Times, which says that the mayor "is a disgrace to Georgia and a very dangerous man," to one in the Jonesboro News stating that the writer "can't help but admire the sincerity of the Atlanta mayor." The main trend, however, reveals strong opposition to the plan. The general sentiment prevailing is shown in the following editorial excerpts: Valdosta Times: "It seems that the mayor, instead of seeking to enforce the law, was lending his influence to law violation."

LEGIONNAIRES HOLD INTERESTING MEETING An interesting meeting of the Dexter Allen Post of American Legion was held last evening, when officers were elected for the ensuing year, preceding which a banquet was served in the dining hall of the Masonic lodge. Officers elected were R. H. Kingery, commander, and H. F. Arundel, adjutant. Among the guests present were Lieut. Stanley Jones, department adjutant of the state of Georgia; Mr. Turner and E. Y. Mallory, all of Macon. Druid Hills department by subscribing the yearly fee, which he said were from about \$20 to \$30 yearly. Orill, an officer of the United States army, was not at home at the time the fire started. Neighbors were quoted as saying that there was no one in the house at the time.

108 More Trips To Go! PAUL MOTES of Statesboro, winner of the Arcadian Nitrate of Soda Corn Contest in Georgia, starts taking his corn to the mill. A bushel a trip, this young farmer and his mule would have to make 109 trips to get his prize-winning yield to the mill. After this task was done, Mr. Motes probably began to prepare for the trip to the 4-H Club Congress in Chicago which was awarded him by the Agricultural Development Bureau of The Barrett Company.

FARMERS FAVOR BANKHEAD BILL BY VOTE OF 9 TO 1 BULLOCH ENDORSES PRESENT METHOD OF COTTON CONTROL. Cotton producers in Bulloch county went on record last Friday by a 9 to 1 count favoring the Bankhead act to control the production of cotton. Of the 1,774 votes cast, 1,588 were in favor of imposing a tax on all cotton produced above the quota, while 186 growers disapproved the program. The 44th district, known as the Sinking, failed to cast a single vote against the Bankhead act. The total vote cast in this district was 111. In the 1209th district 253 favored the act and 39 opposed; 48th district had 274 for and 55 against; 157th had 35 for and 27 against; 154th had 35 for and 8 against; 45th had 82 for and 2 against; 134th had 59 for and 1 against; 47th had 90 for and 13 against; 1523rd had 153 for and 7 against; 46th had 79 for and 2 against, and the 1803rd had 106 for and 12 against.

EXPLAINS COTTON PARITY PAYMENTS COUNTY AGENT DYER OUTLINES PLAN OF PRODUCTION ADJUSTMENT CONTRACTS. Provisions governing the distribution of the 1934 parity payments under cotton production adjustment contracts are explained by County Agent Byron Dyer, who says that word has reached him from Washington that parity payment checks are now being mailed out at the rate of 20,000 per day. Bulloch county checks to the amount of \$33,000 are now being distributed. Parity payments are made at the rate of one cent per pound on the farm allotment, which is 40 per cent of the average production for the base period years 1928 to 1932. Forty per cent of the 1928 to 1932 production represents the average production of the crop which was consumed in the United States. Tenants and sharecroppers producing cotton on farms covered by cotton production adjustment contracts are entitled to a portion of the parity payment. Parity payment checks are received by landlords in trust to be distributed to sharecroppers and tenants according to the provisions of the cotton contract. When landlords receive these parity payment checks they sign an agreement which covers distribution to sharecroppers and tenants. They also agree to report within 30 days, on another form which is provided, the distribution of the parity payments, including signatures of tenants and sharecroppers who were entitled to a share of the payment. Instructions on procedure are included in the forms which are provided at the time of delivery of the parity payment check. Parity payments to be made this year to producers co-operating in the cotton production adjustment program are expected to total more than 26 million dollars.
