CENTRAL BUREAU CHECKING BILLS

Is it not time now for the joy riders to quit? The reckless autolot and his liberty should be parted.

AGREEMENT INTENDED TO SAFEGUARD COTTON SHIPPING DOCUMENTS EFFECTIVE.

THE RAILROADS ADOPT PLAN

Why become excited if you do not happen to own any sheep? Possibly you wouldn't like to be the ice man if you had to carry the ice.

Liverpool Bill of Lading Validation Scheme Opposed by Southern Exchanges.

Mark Twain's estate feels up nearly half a million. Evidently he wasn't joking for nothing.

New York.—The new agreement intended to safeguard cotton shipping documents went into effect, and the central bureau provided for in that agreement began its activities with the backing of practically all the cotton-carrying railroads. It was announced here by the Liverpool cotton bills of lading conference committee in a statement which explained the plan and the reasons for its adoption.

Indian farmers break into print by predicting an early winter. Raining the season, as it were.

Women are displacing men in all walks of life. In this case no man has been killed in an airplane flight.

The eastern woman who died and left ten sets of teeth evidently was well equipped to chew the rag.

South Should Be Abundantly Able to Finance and Handle Its Own Crop.

A New ocean liner is to be called the Gigantic, and in this case no doubt there will be something in a name.

Union City, Ga.—National President Charles S. Barrett of the Farmers' union made his first official expression regarding the attitude of that big organization in the battle that is coming this fall to maintain the price of cotton at a proper level.

Now comes a learned scientist and proposes that the snake shall be substituted for the cat as the household mouser.

Barriers Oppose Admission of Negro Lewis to Bar Association.

Doctors tell us that the old oxen bucket is unsanitary, but it strikes us that our forefathers were healthy individuals.

Boston.—When a considerable number of members in the American Bar association learned that in admitting William H. Lewis to the bar, they were admitting a negro, there came a storm of protest and several threats to resign were made.

The hobbie skirt is to go, which will be a loss to the contemporary numerals but a decided gain to society at large.

The floaton negro was proposed for membership by the local branch of the association and elected to membership. It was not then known by the Southern members that he was a negro.

A Chicago traction road has awarded a gold medal to a polite conductor. Such a rarity in Chicago certainly merited some recognition.

President Taft.

In New York for the second time. Always thought opportunity was supposed to knock only once.

Now is the time for the farmer to get into the market. It is not only the duty, but the individual profit, of every element in the Southern states to join with the Farmers' union, to the end that the powerful machinery of this organization may be brought to bear with complete success upon the present situation.

The Denver man who has an achy void where his appendix once held forth also has an achy void in the vicinity of his pocketbook.

It is believed that the estimate placing the total property damage at \$1,000,000 is decidedly within the mark, though no man is able to judge as yet with anything like accuracy. No reports have come in as yet to throw light on the damage to crops in the region between Charleston and Savannah, and on the sea islands. It is feared, however, that the cotton and rice crops have been dealt a staggering blow.

New York is going to keep a card index of the drunks, which shows that the bigness of an undertaking doesn't daunt little old New York.

It is to be illegal in New Jersey for women to wear birds on their hats. The women will doubtless be able to find something equally expensive.

The insect that bit St. Louis clergyman and stopped a wedding evidently wanted to show that his sting was more effective than Cupid's dart.

Now is the time for the farmer to get into the market. It is not only the duty, but the individual profit, of every element in the Southern states to join with the Farmers' union, to the end that the powerful machinery of this organization may be brought to bear with complete success upon the present situation.

A Tacoma man on a bicycle won a race with a wild cat, but he cannot hope to compete with the French aviator who won a battle with an eagle.

Now is the time for the farmer to get into the market. It is not only the duty, but the individual profit, of every element in the Southern states to join with the Farmers' union, to the end that the powerful machinery of this organization may be brought to bear with complete success upon the present situation.

Scudrun are busy destroying the Kansas corn crop. Don't blame the squirrels. If they were not destroying the crop something else would be doing so.

Now is the time for the farmer to get into the market. It is not only the duty, but the individual profit, of every element in the Southern states to join with the Farmers' union, to the end that the powerful machinery of this organization may be brought to bear with complete success upon the present situation.

Pennsylvania has a book agent one hundred years old. Undoubtedly he is tough enough to stand all the alleged witchcrafts that will be printed about him.

Now is the time for the farmer to get into the market. It is not only the duty, but the individual profit, of every element in the Southern states to join with the Farmers' union, to the end that the powerful machinery of this organization may be brought to bear with complete success upon the present situation.

Mary MacLane, silent in a literary sense for nine years, says confidentially: "Take it from me," in giving an impression. This phrase is not pronounced even in the discerning use of slang.

Now is the time for the farmer to get into the market. It is not only the duty, but the individual profit, of every element in the Southern states to join with the Farmers' union, to the end that the powerful machinery of this organization may be brought to bear with complete success upon the present situation.

Tearing his shirt from his back, an Ohio man flagged a train and saved it from a wreck. That was good for a mere man, but the regulation article for flagging a train in an emergency is a red petticoat.

Now is the time for the farmer to get into the market. It is not only the duty, but the individual profit, of every element in the Southern states to join with the Farmers' union, to the end that the powerful machinery of this organization may be brought to bear with complete success upon the present situation.

The New York Times has heard of a woman who desires to drive five pennons because she was married to a man who served in the Civil war. It looks as if she had tried to turn matrimony into a sort of progressive pension game.

Now is the time for the farmer to get into the market. It is not only the duty, but the individual profit, of every element in the Southern states to join with the Farmers' union, to the end that the powerful machinery of this organization may be brought to bear with complete success upon the present situation.

They have put a man in a lunatic asylum in Ohio because he believes he has invented a telephone that will enable him to establish a direct connection with heaven. If they are going to shut up all people who think the universe listens when they speak the asylums will soon be overcrowded.

Now is the time for the farmer to get into the market. It is not only the duty, but the individual profit, of every element in the Southern states to join with the Farmers' union, to the end that the powerful machinery of this organization may be brought to bear with complete success upon the present situation.

At a recent plumpers' convention there was a spirited discussion over the question: "Why do you not Make More Money?" The reason probably is that they don't send back to the shops often enough for tools.

Now is the time for the farmer to get into the market. It is not only the duty, but the individual profit, of every element in the Southern states to join with the Farmers' union, to the end that the powerful machinery of this organization may be brought to bear with complete success upon the present situation.

A clergyman in South Carolina prayed so successfully for rain that farmers, fearing for their cotton crop, were about to consider the clergyman as a pest against his praying any more. Which shows again how a sense of humor can keep in keeping people from making themselves ridiculous.

Now is the time for the farmer to get into the market. It is not only the duty, but the individual profit, of every element in the Southern states to join with the Farmers' union, to the end that the powerful machinery of this organization may be brought to bear with complete success upon the present situation.

NOW FOR SCHOOL

UNION SAYS HOLD COTTON

South Should Be Abundantly Able to Finance and Handle Its Own Crop.

Union City, Ga.—National President Charles S. Barrett of the Farmers' union made his first official expression regarding the attitude of that big organization in the battle that is coming this fall to maintain the price of cotton at a proper level.

LAYERS DRAW COLOR LINE

Barriers Oppose Admission of Negro Lewis to Bar Association.

Boston.—When a considerable number of members in the American Bar association learned that in admitting William H. Lewis to the bar, they were admitting a negro, there came a storm of protest and several threats to resign were made.

The floaton negro was proposed for membership by the local branch of the association and elected to membership. It was not then known by the Southern members that he was a negro.

BIG LOSS SHOWN BY COTTON CROP

DROP OF SLIGHTLY OVER 14 POINTS SHOWN DURING MONTH OF AUGUST.

Severe Droughts, Hot Winds and Worms Responsible for the Heavy Drop.

New York.—According to 1,900 replies of special correspondents of the Journal of Commerce and Commercial Bulletin bearing an average mail date of August 23, 24 percent reduction of cotton was on that date, 72.6, as compared with a month ago. This compares with 70.7 per cent last year, 68 per cent in 1909, 78.1 per cent in 1908 and 73.9 in 1907. The ten year average is 73.9 per cent, and the loss of 14.3 points during the month of August is the greatest in that month in the past ten years.

Incident Overlooked. A New England farmer, noted for his uncontrolled temper, became converted, according to the St. Louis Republic.

Finally growing enthusiastic in his description, he called on his wife to uphold his assertions.

There was a dead silence; then came in meek, yet reminding tones from the other end of the table.

There was a dead silence; then came in meek, yet reminding tones from the other end of the table.

There was a dead silence; then came in meek, yet reminding tones from the other end of the table.

WHY BE WEAK?

Why suffer backache, headache, dizziness, weariness, urinary irregularities and other troubles that arise from diseased kidneys when relief is so near at hand? Doan's Kidney Pills have cured thousands.

Mrs. A. M. Milburn, So. Covington, Tenn., says: "A terrible pain centered in my back. My nervous system was shattered, and noise of any kind drove me almost frantic. I was overcome with dizziness and subject to smothering spells. My eyesight became poor and kidney secretions were intensely painful in passage. After doctoring without help, I began using Doan's Kidney Pills. In six weeks I was entirely cured."

Remember the name—Doan's. For sale by druggists and general storekeepers everywhere. Price 50c. Foster-Milburn Co., Buffalo, N. Y.

BLACKZ OF THE LOUJANES

By MARCIN BARBER ILLUSTRATIONS BY RAY WALTERS

SYNOPSIS. The story opens with a screen from Dorothy March in the opera box of Mrs. Missioner, a wealthy widow, in the orchestra when Mrs. Missioner all over the floor. Curtis Griswold and Mrs. Missioner, together with the orchestra, are taken to prison. Missioner, in an attempt to recover the Maharane, is taken to prison. Missioner, in an attempt to recover the Maharane, is taken to prison.

CHAPTER IX (Continued). As the detective left the office, he could not help a feeling of depression at the slow progress of events. The intricacies of the mystery were vaguely outlined in his mind. He saw them as a floating mist, heavy with possibilities but charged with delusive signs of beckoning trails that he instinctively knew led to nowhere.

There was a dead silence; then came in meek, yet reminding tones from the other end of the table.

BULLOCH TIMES

ESTABLISHED 1892.
Published Weekly By The
BULLOCH TIMES PUBLISHING CO.
D. B. TURNER, Editor and Manager.

SUBSCRIPTION, \$1.00 PER YEAR.

Entered as second class matter March 23, 1905, at the postoffice at Statesboro, Ga., under the Act of Congress, March 3, 1879.

WEDNESDAY, SEPT. 6, 1911.

Push and pull will get a man most anywhere.

We understand the meat trust is trying to hog the pork market.

Most of us find at certain times that we have too many friends.

The fellow who is grabbing everything else won't take advice.

If you are ever so foolish as to borrow trouble, never try to return it.

When the worm turns, it is sometimes a good turn for the early bird.

There will be no plain clothes cops when women get on the police force.

Discretion is a wise thing—but there is such a thing as too much caution.

Culture is what makes you act just ordinary when with just ordinary people.

The kind of a wife a man has is clearly indicated by the way he starts for home.

There's nothing wrong with the world as long as you and I are satisfied with it.

Every time you make a resolution and don't keep it, your will power becomes weaker.

A pessimist is a man who isn't contented unless the world is going to the demitison bow-wows.

The automobile will soon be within the reach of all. It reached a few poor docters the past year.

No proud mother will admit that any other children ever had chicken pox or measles half as hard as hers.

About as impudent looking thing as a person can imagine is a street gamin with a wart on his turned-up nose.

When a woman gets a husband by mail, she should take care to see that he hasn't been through the dead letter office.

You never yet saw a man so proud of his wife that he wanted her to wear short skirts when other men were around.

Col. Roosevelt never lived in a crowded community, or he might be less aggressive in his support of anti-race suicide.

Happy marriages depend much on what kind of a wife you get—and just as much on what kind of a husband your wife gets.

A married man who shows no desire to spend his evenings down town may not be happily married—he may be just henpecked.

A pallbearer at a Georgia funeral became engaged to the widow while the funeral was being conducted. The early bird gets the worm.

An equitable manner of assessment might be to tax a man according to the valuation declared when he takes out fire insurance.

A bill mailed to a New York man 72 years ago has just been received by him. Some of the subscription bills we have sent out must be taking the same route.

An easy way to settle property line disputes would be to have the disputants pull the weeds or keep up the fences on their own property. The line would be very closely defined.

There isn't anything that looks more cool and comfortable than a woman in a low-necked, short-sleeved dress sitting beside her hubby sweltering in a boiled and starched cravat.

Those Clerical Errors.

Quite a good deal of discussion has arisen over the discovery of a number of clerical errors in many of the bills recently passed by the legislature; and in one particular instance, where the city of Atlanta is most directly affected, the people of the capital city have almost been thrown into a frenzy by one of the errors.

In drafting a bill calling for a special election for September 27th on the subject of a new charter, it was made a requirement that all voters should have paid their taxes up to and including "1910." After the bill had been passed, the clerk in copying it made the figures "1911," and this bill was signed by the governor. And there is where the trouble arises.

It really does not seem reasonable that a clerical error should cast doubt upon the validity of a law. There is no doubt as to the intention of the legislators in adopting the law; and intention is the essence of law. A subsequent error in it is really not a copy, and even though the governor may have affixed his signature to such copy, it could not become operative on account of such error in copying. However, there are two sides to Atlanta's dispute over the election, and while one faction holds that the law in question is not affected by the error of the copying clerk, the other faction proclaims that the error vitiates the law.

In a multitude of lawyers there is multiplicity of counsel, and it looks like Atlanta is in for a hot game of ball, with the legal lights doing the pitching.

An eastern young women's club proposes that young ladies wear "Don't Kiss Me" signs to protect them from the hordes of male men. We, for one, are not superstitious.

Free Advertising.

Every newspaper is called upon to do more or less free advertising, and sometimes they get thank you for it—sometimes not even so much.

A gentleman of our acquaintance, not a subscriber to the paper, not many months ago "accepted" the agency for a new farm tool, which he said would work wonders and which every farmer would want to buy. He confided all the foregoing facts to the editor and requested him to state in the paper that he would be at a certain court ground on the next gathering day prepared to demonstrate his machine and to take orders. "Write up a nice piece about it," he requested.

"About a dollar's worth?" asked the editor.

"Well, er—no; not an advertisement," objected the aforesaid acquaintance. "I didn't want to spend any money in advertising. The season is so late I am afraid it wouldn't do me any good. I just want you to write a news item it; you need 'something to fill up with,' don't you?"

The gentleman was told that, inasmuch as he thought the season was too late to do him any good, the Times would not put itself to the trouble to mention the facts which he seemed so anxious to get gratuitously before the public.

And that man was only one of a numerous species. There are many who pretend to doubt the virtue of advertising who frequently suggest, "You might say so-and-so in your news columns." This so-and-so is something which promises direct benefit to them in their business. The newspaper is looked upon as a public vehicle that may be ridden upon at liberty. A baseball team will pay rent for grounds to play on—hand out money at the drug store for a ball—give the hardware store the price of a bat—fork over to the clothier the cash for a suit—lay down the coin for a pair of shoes—and then ask the newspaper to donate sufficient space to get a crowd out to see the game. In Statesboro they do all this, and don't even remember to hand out the customary complimentary ticket for the editor to attend the game.

Special Notices

Notice.
If you have any farm property for sale, see us.
SORRIER & BRANNEN.

Guanos.
If you need any fertilizer for fall gardens or oats will be glad to furnish you, as I have a few tons left.

B. B. SORRIER.

House and Lot for Sale.
Three-room cottage and one-quarter acre lot on East Main street; can be built to small expense. For particulars call at this office.

Money to Lend.
We have money to lend upon improved farm lands in Bulloch county. See us before placing your application.
DEAL & RENFROE, Attorneys.

WANTED—Men to learn to repair, care for and drive automobiles. We assist graduates in securing positions paying from fifteen to forty dollars per week. Write for particulars. Automobile School, 446 Drayton Street, Savannah, Ga.

Yearling Eaters.
Strayed from my place 6 miles west of Statesboro about May 1st, one red guinea steer, 2 years old, marked swallow-fork and under-bit right ear, under-lope and split in left. Please send information and receive reward.

ISAAC AKINS,
R. F. D. No. 2, Statesboro.

Notice.
All persons indebted to me are requested to make prompt settlement of their accounts. I have some very heavy obligations to meet at once, and will appreciate at least a partial settlement. A small bit from each one will help me at present. I will also appreciate a continuance of the public patronage.
Very respectfully,
J. E. DELGACH,
R. F. D. No. 1, Brooklet, Ga.

Lost.
I have lost on the streets in Statesboro one gold watch charm, with my initials on outside and my wife's picture inside. Finder will please return it and get reward.
H. B. STRANGE.

Farmers Union, Take Notice.
All locals of the Farmers' Union are requested to send delegates to the next monthly meeting, Sept. 16th, instructed to vote for or against a rally of all the Farmers' Union or non-union men.
J. F. EMMETT,
Committeeman.

"I was Crippled, could hardly walk and had to Crawl"
down stairs at times on my hands and knees. My doctor told me I had an acute attack of inflammatory rheumatism. I was in the hospital for weeks, but was scarcely able to walk when I left it. I read about Dr. Miles' Nerveine

bought a bottle and began to get better from the start, and for the past six months I have had scarcely any pain and am able to walk as well as ever." J. H. SANDERS, P. O. box 5, Rockaway, N. J.

Few medicines are of any benefit for rheumatism, but Mr. Sanders tells plainly what Dr. Miles' Restorative Nerveine did for it. One ounce of salicylate of soda added to one bottle of Nerveine makes an excellent remedy for rheumatism, which is now known to be a nervous disease and therefore subject to the influence of a medicine that acts through the nerves, as does Dr. Miles' Nerveine

Sufferers from rheumatism seldom fail to find relief in the use of Dr. Miles' Nerveine, with salicylate of soda.

Sold under a guarantee that assures the return of the price of the bottle if it fails to benefit. At all Druggists. MILES MEDICAL CO., Elkhart, Ind.

SEE ME TO SEE RIGHT
Dr. C. R. COULTON, of course.

There's nothing too good for your eyes.

Between old fashioned spectacle fitting and optical service there is a very wide difference, and this difference counts in the preservation of sight. Falling or imperfect vision may be due to any of a large number of causes. These causes can be determined only by very delicate scientific tests, and each eye being tested separately according to correction needed. I provide modern optical service. I learn just what the trouble is and correct it, having lenses specially ground when necessary. My charges for fitting glasses are reasonable.
CALL AND SEE MY UP-TO-DATE OPTICAL PARLORS UPSTAIRS IN SEA ISLAND BANK BUILDING
Will be at my office Mondays only during June, July and August.

The White Barber Shop

If you have ever visited our shop, you know it's both neat and sanitary—no danger of disease from hot towels, because our heating system is absolutely perfect. Our barbers are the best in the profession, and will be pleased to serve you.
J. D. Brown,
Proprietor

After the fire
The next morning after the fire how natural it is to hear the loser say, "And I had \$500 in currency in the bureau drawer." And the insurance policy don't cover such a loss! You can hide your money where thieves may not find it—but how about fire? For this reason alone, overlooking the many other advantages, you should keep your money in the bank. We call your attention to our fire and burglar proof vault and invite you to leave your money with us for safe keeping.
The Bank of Statesboro

City and County

Mr. W. H. Chandler spent Sunday with his father's family at Sardis, returning Monday afternoon.

Miss Maud Metzger, of Savannah, has been the guest for several days of Miss Emma McCoy, on Savannah avenue.

5 or 6 doses of "666" will cure any case of Chills and Fever. Price, 25c.

Mr. B. T. Outland returned yesterday from a ten-weeks' visit at Asheville and Brevard, N. C., which he has enjoyed to the fullest extent.

Mr. J. L. Brown, of Garfield, was a visitor to the city yesterday, being en route to the District Masonic Convention, now in session in Savannah.

Silver Brand Shirts and Collars—newest styles. The Simmons Co.

Supt. D. N. Bacot, of the Savannah & Statesboro, has returned home after a month's vacation with his family in the mountains of North Carolina.

Miss Marguerite Morrissey, of Savannah, who was the guest for several days of Misses Kittie and Annie Laurie Turner, returned home yesterday morning.

Tiffany wedding rings at J. E. Bowen's jewelry store.

The last July excursion for the season was run Sunday. On account of the very cool weather for the past few days, a smaller crowd than usual took occasion to visit the seashore.

Fackheimer-Fischel and Hackett Carhart Clothes—the leading makes. The Simmons Co.

Messrs. T. A. Waters, T. A. Jones, E. R. Collins and S. A. Prosser, representing Ogeechee Lodge F. & A. M., left this morning for the District Masonic Convention in Savannah.

Shoes! Shoes! W. L. Douglas and Boyden Shoes in latest shapes. The Simmons Co.

Mr. J. G. Mitchell has begun the foundation for the new stable building for C. H. Anderson on Vine street, near the cotton warehouse. The building is to be built of concrete building blocks.

Nice line of hats of the latest styles—Knox and No Name. The Simmons Co.

Elder Henderson Bennett, of Ormond, Fla., is visiting relatives in Bulloch county for several weeks. He was formerly a citizen of Bulloch, but moved to Florida forty-five years ago, and is a prominent minister of that state.

Our novelty line of silks cannot be improved. Please give us a call and let us convince you. The Simmons Co.

An important real estate deal was consummated Monday when J. P. Olliff exchanged a block of ten small houses on the S. A. & N. railroad in the southern part of the city with Grady Turner for the B. E. Turner home in East Statesboro.

5 or 6 doses of "666" will cure any case of Chills and Fever. Price, 25c.

Attention is invited to the advertisement of the sale of the Proctor property, which appears in another column. This property was previously advertised to be sold yesterday, but it was later deemed advisable to postpone the sale until the first Tuesday in October.

Foley Kidney Pills will reach your individual case if you have any form of kidney and bladder trouble or urinary irregularities. Try them. Sold by Lively's Drug Store.

Simmons-Brady.

At the home of the bride's parents, Mr. and Mrs. I. V. Simmons, on Sunday afternoon last, Mr. Rufus Brady and Miss Fannie Simmons were united in marriage, Rev. J. F. Eden officiating.

The young couple are now at home to their many friends on South Main street, where the young groom has recently completed a very handsome cottage.

Good Farm for Sale.
Tract of good land in 48th district, contains 50 acres, so under cultivation; house has six rooms; good barn and other necessary buildings; daily mail on rural route; 1 1/2 miles from church and school; 6 miles from railroad station. Apply at this office.

Mrs. Horace Marsh Dead.
Mrs. Horace Marsh died Tuesday morning at the home of her father, Isaiah Parrish, in the Lockhart district, from typhoid fever.

She and her husband, who have been residents of Statesboro since January, were both stricken with measles early in the summer. While convalescing from that they went to Mr. Parrish's for a few days and both relapsed, typhoid fever following. Mr. Marsh is now somewhat improved, but is not yet able to return to his home.

A number of Statesboro young gentlemen left during the week to attend the various colleges of the state. Among them are Iuman Foy, Grover Brannen and Clark Wilcox, who go to G. M. A. at College Park, and Ernest Smith, George Donaldson, Henry Waters, Arthur Morris and Dan Arden, to Gordon Institute, at Barnesville.

In selecting our fine stock during the last few weeks we have made every effort to see the latest European creations. We claim that we have a collection of coat suits and dresses of advanced styles well worth your time to inspect. The Simmons Co.

Oxen for Sale.
Three yoke of good steers: will sell at a bargain.
B. A. HENDRIX, Pulaski, Ga.

Lightning Struck Home.
During a thunder storm last Friday afternoon, lightning struck the home of Mr. Lawton Hodges, five miles north of the city. The bolt struck the window casing and traversed down its entire length, then knocked out one side of the window.

Mrs. Hodges and the children were in the house at the time, and Mrs. Hodges was quite severely shocked for the moment, though she soon recovered without ill effects.

Cow Estray.
Strayed from my place at Pretoria about July 1st, one light fawn-colored Jersey cow; sway-backed; short, stout horns; unmarked. Send information to me and receive suitable reward.
J. C. PEZZAGRUS,
R. F. D. No. 3, Statesboro, Ga.

The K. S. Club.
The K. S. Club, a new social organization among the younger set, were entertained at their regular weekly meeting Saturday afternoon by Miss Annie Laurie Turner. Games were played and light refreshments served, making the occasion a delightful one.

Those present were: Ida Mae Brannen, Blanche Porter, Annie Laurie Turner, Hazel Johnson, Wildred Donaldson, Bessie Maud Martin, Nellie Smith, and Mary Lou Lester.

Superior Brick

If you are going to build a home, a business house or any kind of structure, an investigation of our superior brick will mean that you will use them in preference to any other.

They are better and cost no more.
FACE BRICK, in popular light shades, strong and durable, at half the price of Northern Brick—\$10 to \$13 a thousand instead of \$20 to \$30. As artistic as any brick made.

You can buy our ALL-HARD BRICK at the same price of kiln-run common brick. They are far better, smoother and of uniform size. They have no chocks or cracks; they are true, and there are no bats. Superior for every purpose. Use them once and you will use them again.

Write for information.
Savannah Brick Works
Savannah, Ga.

New Undertakers
We take this method of announcing to the public that we have recently added a complete line of Coffins and Caskets to our business, and all other equipment necessary to conduct the business of Undertaking in all its branches and in a proper manner.
Mr. Melton Nessmith, who has been with us for several years, has recently fitted himself for doing Embalming, at one of the best institutions in the South. After finishing his course there, he stood the examination before the Georgia State Board of Embalming, which granted him a license to practice the profession. He will continue with us and have charge of that branch of the business.

Modern Mother

Her Duty Is Merely to Take Care of House

By LADY MACLAREN

OTHERS will come gradually to recognize the new requirements of the home, and when they cater for it will learn to go often to the newspaper and more seldom to the butcher.

The first fact to be grasped is that each home must not stand alone, but that it must unite with neighboring hands so as to obtain without effort the best results of civilization.

Once the material side of life is dominated there will be leisure for the mental and the spiritual to assume their rightful place. The home will feel its dependence on the greater whole, it will become more responsive to every wave of public feeling, more alive to every movement of the great body.

A Greek philosopher has advised that "if any man has two loves, let him sell one and buy lilies, for the soul has its needs as well as the body." This is the kind of catering for the housewives of the future, to collect the flowers of heart and mind and soul to deck the board, so that the breadwinner, worn with the toils of the day, will find more refreshment in the present monotony of mutton.

What elements in the home as it exists today can be dispensed with? The departments sentenced to disappear are so many that it might be well to consider how much of the home would be left should these changes be carried out.

The basement would be gone with its scullery, its coal cellar and its dust bin.

The servants' hall would disappear, and, greatest change of all, the troops of servants would be gone.

Upstairs the dining room would be gone, and the drawing room also. All the spare bedrooms would be gone, and most of the servants' bedrooms.

What, then, would remain?

Father's sitting room would be left. Mother's sitting room would be left. And, best of all, the children would remain, taking their right place in the house, the first place, each with a private room always well warmed and lighted, and designed for rest, meditation or private work, places where young minds would have that space, leisure and solitude which induce true growth.

The housewife would be a housewife no longer. After all, it is the man who wants a wife, not the house, and the children need a wise mother more than a housewife. It is the greedy home that has taken her from them and given them only the tired drags of her mind instead of its best work.

Obviously some specialist instructors are necessary. A child not only requires love but scientific knowledge of the processes of life from all its attendants.

Later an insight into the child's mind will be needed. His faculties need to be studied. The musician, the artist, the mathematician, the scholar must train him. He wants not the influence of one mind alone, but the acquired experience of many minds.

These teachers it should be the mother's business to provide, and all other objects of her life should be second to this.

Women must move the public mind. They must sit on public governing boards. They must lay their hands on the governing machinery of the country, which is the true way, the legitimate way, indeed, the only effective way of getting anything properly done, even for the home.

Athletics Interfere With College Studies

By JOHN D. MERRILL

If intercollegiate athletics interfere seriously with the college work of the students who take part in or watch them, it is reasonable and proper that the college authorities should try to have these contests as few as possible. Whether there is such a conflict, it seems to me, a matter of fact, the determination of which can safely be left, in the case of Harvard at least, to the athletic committee, a body made up of three members of the faculty, three graduates and three undergraduates. This committee should hear the arguments and representations of each side, decide what the facts are and make his recommendations accordingly.

Forms of sport which take the most time are not necessarily the most objectionable. The Harvard crew, for instance, has a much longer season than the football eleven; the crew practices regularly every afternoon on the Charles for months and then goes to New London, where it remains for two weeks or so during the period of the final examinations. Special examinations are held in New London for the benefit of the members of the crew and by arrangement with the faculty.

I have never heard any adverse criticism of this custom. The baseball nine plays every year twice or three times as many games as the football eleven; there has never been much serious complaint about the nine. Football is apparently the chief cause of the trouble in connection with intercollegiate athletics, if there is any trouble.

It might be well for the authorities of the different colleges to consider whether the particular form of athletics indulged in is not more important than the number of intercollegiate contests played in any year.

FARM and GARDEN

MACHINE THAT SHELLS CORN

Ears Fed into Hopper, and Kernels Are Separated Automatically—Lifts Farmers' Burden.

Another device to lighten the farmer's labor has been invented by the Nebraska man. This is a machine for shelling corn, and, with it, one man can do the work of a dozen or more by simply feeding the ears into the body of the machine is inside of scrapers between which the cobs pass and these scrapers are so constructed that they engage ears of

Machine Shells Corn.

GRASS OF GREAT IMPORTANCE

Great Problem of Maintaining Fertility of Soil for Future Crops Solved in One Way.

(By W. R. GARDNER)

In attempting to farm without a lever, he is fighting a load with the weight on the hind wheels; he is cutting with a dull ax.

With grass as a basis, grain, fruits, vegetables and most of the triumphs of farming are possible. The first thing that I would advise all those who contemplate buying a farm to look into. Want after its capacity to grow clover and other nutritious grasses and learn what means would be available for fertilizing such meadows.

The grass can be converted into milk and products into beef, pork or mutton and returned to the land in the form of manure for the grain crops or you may sell the hay by the ton according to the facts of your particular locality.

I would not advise any one to think of a farm that did not have at least 20 acres of grass land that would produce at least two tons of hay per acre under favorable conditions.

The greatest thrift and profit made by farmers off their farms in ten of the leading agricultural states of the United States during the past two years have been made by those who make dairying and the growing of live stock their chief reliance.

The great question of keeping up the fertility of the soil for future crops can be solved in only one way and that is by the growing of more clover and grasses and feeding more live stock and returning all of the manure thus made to the fields.

LIFE SAVED BY FRIEND'S ADVICE

About three years ago I suffered with appendicitis and after having an operation performed I left me with a severe case of kidney trouble. I was doctored by several physicians and getting no relief I took the advice of a friend and procured a bottle of Dr. Kilmor's Swamp-Root. After taking the contents of the first bottle I felt greatly relieved and decided to continue it. After using the contents of three more bottles, I experienced a complete cure. I cannot recommend Dr. Kilmor's Swamp-Root too highly to anyone suffering from kidney or bladder trouble.

Yours very truly,
E. P. HILAM,
Cartersville, Ga.

Sworn to and subscribed before me this July 12th, 1909.

HUBBY QUICK TO SEE POINT

Most Married Men Will Understand Just Why That Particular Hat Was So Becoming.

Mrs. Jones came downstairs one evening, after dinner, and displayed her hat. Her husband, unbothered by the result of her holiday shopping in the milliners' shops.

"John," she asked, "how do you like this hat on me?"

"Oh, I don't know," he answered.

"No, not exactly. I brought it home on approval. I intend to take either this or another one, which is five dollars more than this, but I thought—"

"Say, Florence," he interrupted, "that's the most becoming hat I ever saw you have on. Telephone to them first thing in the morning that you'll take it, so as to make sure they'll not sell it to anybody else."—Youth's Companion.

LYING MAN'S WISH BARS EVERY WOMAN

Wife's Desertion Made Harsh Maker Loyal Enemy to Those of Her Sex—Tells Friend on Deathbed Why He Cherished Hatred.

Evansville, Ind.—Soured on the fair sex because his wife deserted him in Louisville, Ky., years ago, John Steller, aged 67 years, before he died here made the request that no woman be permitted to look upon his face after he had passed away and that they be kept away from his funeral.

"They are mischief makers and as treacherous as a rattlesnake," the old man said in his deathbed.

Out of gratitude for the man who had been his true friend, and who had saved him in his last days, Steller left a good farm in Warrick county, near here, to Joe Haas, a grocer and politician.

Years ago Steller came here from Louisville and got employment as a harness maker. He toiled steadily at his bench, and seldom lost a day from his work. Among the large number of employees in this establishment Steller was regarded as eccentric. He talked little, and to none of his fellow workmen did he make any confidences of his past life. Most of the men with whom he worked thought he was a bachelor, none knowing his wife. One time he had a happy home, and the best of a woman-hater because the wife he loved tenderly ceased to love him, and deserted him when the hand of affliction was laid upon his.

In silence and alone Steller bore his burden—and saved his money. He had no one to live for, and cared little about the companionship of his fellows. He lived alone above his

MAN WHO STOLE BEES DOES RUNNING STUNT

WOULD BETTER HAVE CARRIED OFF RED HOT STOVE WITH OUT ABBERS GLOVES.

Savannah, Ga.—The man whose thieving instincts led him into the taking of a red hot stove without the protection of asbestos has been sentenced to a term in the penitentiary for a year as an example of enterprise in this particular line, but he must step into second place for the man who attempted to steal a bee hive from E. W. Jewett, of this city. The particular hive selected by the thief in the absence of a census of its occupants is estimated to accommodate somewhere in the neighborhood of ten thousand bees.

The hive was found just outside the gate through which it had been taken, its position indicating that it had been left in a hurried manner. When Mr. Jewett found the hive its top and bottom were both off, and the ten thousand bees were flying about.

WIFE'S DESERTION MADE HARSH MAKER

Loyal Enemy to Those of Her Sex—Tells Friend on Deathbed Why He Cherished Hatred.

Evansville, Ind.—Soured on the fair sex because his wife deserted him in Louisville, Ky., years ago, John Steller, aged 67 years, before he died here made the request that no woman be permitted to look upon his face after he had passed away and that they be kept away from his funeral.

"They are mischief makers and as treacherous as a rattlesnake," the old man said in his deathbed.

Out of gratitude for the man who had been his true friend, and who had saved him in his last days, Steller left a good farm in Warrick county, near here, to Joe Haas, a grocer and politician.

Years ago Steller came here from Louisville and got employment as a harness maker. He toiled steadily at his bench, and seldom lost a day from his work. Among the large number of employees in this establishment Steller was regarded as eccentric. He talked little, and to none of his fellow workmen did he make any confidences of his past life. Most of the men with whom he worked thought he was a bachelor, none knowing his wife. One time he had a happy home, and the best of a woman-hater because the wife he loved tenderly ceased to love him, and deserted him when the hand of affliction was laid upon his.

In silence and alone Steller bore his burden—and saved his money. He had no one to live for, and cared little about the companionship of his fellows. He lived alone above his

WANTED SOMETHING SOLID.

Thought He Felt a Hop.

An Irishman went into a public house one day and asked for a mug of beer in a great hurry, stating that he was so dry that he thought he could drink a gallon. The publican told him if he would drink it in one draught, without taking the measure away from his lips, he should have it for nothing. "Aggrad," said Pat, "and wot the howly Saint Patrick'll do that same!"

The landlord then drew a gallon of the measure, handed it to Pat, who eagerly raised it to his mouth and drank away until the measure was almost perpendicular. The publican's eyes followed its motion in astonishment, and, looking in, he exclaimed, shaking the froth out:

"Pat, didn't you feel something going down with the beer when you drank it?"

"'Bers jabsers," said Pat, "I thowt I felt a hop, sur."

Here are Nine Good Farms that we Have For Sale

LIST NO. 202—\$2,200, 55 ACRES.

2 1/2 MILES SOUTHWEST OF STATESBORO. 40 acres under cultivation. Good house and out-buildings. Considering how near it is to Statesboro, this place is a bargain at the price. Terms cash.

LIST NO. 104—\$1,755, 349 ACRES.

IN THE BAY DISTRICT, 19 MILES FROM Statesboro. No land cleared, but nearly three hundred acres of good tillable land and nearly \$1,000 worth of saw mill timber, which will be available within two years, at the expiration of a turpentine lease. This is the best bargain that has been offered in land this year, as it is well worth double our price. Can arrange terms.

LIST NO. 102—\$1,500, 22 ACRES.

TWO MILES NORTHWEST OF STATESBORO, on public road. Fine pebble land, with practically all the entire tract under high state of cultivation. Good house, with barns, out-buildings, etc. This is an opportunity to get a good small farm near Statesboro at a reasonable price.

LIST NO. 103—\$1,750, 22 ACRES.

2 1/2 MILES FROM PORTAL ON PUBLIC ROAD. A real bargain. Will bring \$50 an acre by December. Thirty-five acres of the very best land—forty acres tillable, with twenty-five acres cleared and under new vine fence. Good tenant house on place. Terms cash.

LIST NO. 701—\$7,000, 144 ACRES.

SIX MILES NORTH OF STATESBORO ON public road. Fine pebble land, with 50 acres in very high state of cultivation. Nice large dwelling, with beautiful flower garden. All necessary barns, out-buildings, etc. No better place for a home in Bulloch county. See us at once about this. It is not often that you have the opportunity of buying property of this class at the price we are offering it for. Can arrange terms.

LIST NO. 1001—\$15 AN ACRE.

242 1/2 ACRES 5 MILES EAST OF STATESBORO; 160 acres of fine pebble land, with 50 acres in very high state of cultivation. Nice seven-room dwelling, with barns and all necessary out-buildings, and one good tenant house. Fine stock range adjacent to property, suitable for both hog and cattle raising. This is an opportunity to secure a good plantation. Can arrange satisfactory terms.

LIST NO. 101—\$1,750, 50 ACRES.

2 1/2 MILES SOUTHWEST OF STATESBORO, on clayed public road. 20 acres cleared, good tenant house, barn, etc. This place is the very thing for a man wanting a good small farm. Terms: One-third cash; balance one and two years.

LIST NO. 201—\$15 AN ACRE.

135 ACRES, 9 MILES NORTH OF STATESBORO, within 1/4 mile of railroad station. 20 acres cleared; 75 acres good, tillable clay-subsoil land. Has small 5-room dwelling, with barn and out-buildings. No finer stock range to be found in Bulloch county. With a little improvement, this place could be made to bring double our price. Terms \$1,000 cash; balance to suit purchaser.

LIST NO. 1,201—1,800 ACRES, SUITABLE FOR FARMING AND STOCK RAISING, FOR \$12,500. LOCATED ON OGECHEE RIVER, 14 MILES east of Statesboro. Nearly all the entire 1,800 acres under vine pasture fence; 110 acres under cultivation; 750 acres of good tillable land. Small four-room dwelling, but good large barns, cow sheds, etc. One tenant house. Plenty of timber for all plantation purposes—for building houses, barns, fences, etc. With a place like this you will not have to depend on cotton alone or any other crop. Stock raising is coming to be one of the most profitable businesses of the day, and in this section is proving more profitable every year, with future possibilities that are almost unlimited. Places of this kind are going to enhance rapidly in value. Can arrange satisfactory terms.

For further information regarding any of the above property, call to see us or write. In writing, give list number.

The Uptown Church

had almost a capacity congregation for auditorium and Sunday-school annex last Sunday morning, and in the evening a very large congregation of young people with a good sprinkling of older ones. Something must be doing up there. Go and find out.

Next Sunday morning Pastor Eden will use as his theme, "Riding a Hobby." The church has granted the pastor the privilege of a two-weeks' vacation, of which he will no doubt avail himself and attend the "Dedication Week" of the Tabernacle Baptist church in Atlanta to hear Drs. Morgan of London, McArthur of New York, Mullins of Louisville, and other divines of world-wide reputation. He will probably leave Sunday afternoon. Services will be continued during his absence. He hopes to return with renewed power and refreshed in spirit to inspire his large congregations to enlarged visions and greater endeavor for the King.

TO SUE UNITED STATES FOR TWENTY-FIVE MILLION

INDIANS CLAIM BIG AMOUNT FOR PROPERTY TAKEN FROM THEM.

Muskogee, Okla., Aug. 26.—Rallying for the final stand, the full blood Cherokee Indians are preparing to instigate a suit, against the United States government for twenty-five million dollars. That sum, the Cherokees say, is due them for property rights and money dissipated by the government and paid to whites and negroes who were not Cherokees in the last hundred years.

The leader of the movement is Mrs. Susan Saunders, of St. Louis, a three-quarter blood Cherokee, 66 years old and blind. In the action the majority of the more progressive of the Cherokees take no part, being convinced that the suit will be in violation.

The principal claim of the Indians is for land in the Cherokee nation which has been allotted to negroes, who are known as freedmen, and to whites who have married into the tribes. There are 4,600 negroes who have been given allotments in the Cherokee nation.

When the Cherokees came to the Indian territory from Georgia in 1833-36, they brought many negro slaves with them. These they kept the same as the white slave owners, until the civil war. At the time of the war most of the Cherokees joined the Confederacy and when the emancipation of the slaves was declared the government declared that the slaves of the Indians should not only be freed but should share in all tribal property of the nation.

Some Facts About New Game Law.

MAP OF BULLOCH SOIL SURVEY IS RECEIVED

CONGRESSMAN EDWARDS WILL DISTRIBUTE COPIES.

The TIMES acknowledges the receipt of an advance copy of the Bulloch county soil survey, which has just been issued from the bureau of soils, department of agriculture, Washington.

This survey was secured by Congressman Edwards, and is the first complete survey to be granted to any county in the First District. Congressman Edwards will have several hundred copies of this survey, which he will send out to the people at an early date. Much valuable information is to be found in the pamphlet, and it will be read with especial interest by the people of Bulloch county. The report is most comprehensive in its scope, including a soil survey map and key tenable the farmers of Bulloch county to determine the exact location and character of the soils on their farms.

An analysis of the various soils is also printed in the report as well as valuable suggestions as to the various kinds of fertilizers which should be used for the different soils and the kind of crops which should thrive best in the different soils.

The report was compiled by Charles N. Mooney, R. B. Hardison, David D. Long and W. C. Byers, all experts of the department of agriculture, who made a careful inspection of the soils of Bulloch county.

A description of Bulloch county is given in the introductory part of the report, stating the location of the county and tracing the course of the rivers which flow through it. The climate, rainfall, history, mail service and crops of the county are dealt with at length.

The report says: "Twenty types, exclusive of swamp, a non-agricultural type of soil, were found in Bulloch county, representing seven soil series. The Tifton series is represented by two types, a sand and a sand loam. The latter type, agriculturally, is the best and most important soil in the county as well as over much of South Georgia.

The soil is the presence and abundance of the iron sandstone and claystone pebbles already mentioned.

"The Hoffman series is of small extent and is represented by some small areas of a fine sandy loam and coarse sandy loam. It occurs

in high, well drained situations and seems to be derived from the older formation only, having the peculiarly mottled sandy clay subsoil of this formation.

"The Norfolk series is the most extensive and widely distributed in the county, and is represented by the largest number of types, which range from fine sand to coarse sandy loam in texture. It seems to be derived almost entirely from the younger formation and is found under moderately good drainage conditions. The series is characterized by grayish to light yellow soils, underlain at varying depths by yellow sandy clays.

"The Portsmouth series has been derived entirely from the younger formation. The types are found in the 'flatwoods' section and along streams and in bays and are characterized by dark colored surface soils with poor drained subsoils, caused by drab colored conditions which have favored the accumulation of decaying vegetation in the surface soil and by the presence of water, which has inhibited oxidation of the subsoil. Four types were separated in this series.

"The Swanton series, represented by three types, is derived from the same materials as the Norfolk and Portsmouth, but under conditions of drainage intermediate between the two; the areas are intermittently wet and dry. This has resulted in a surface soil similar to the Portsmouth types, but the oxidizing processes have been active enough to produce the yellow colors in the subsoil found in the Norfolk subsoils.

"The Coxville clay loam is a single representative in the county of a series more fully represented elsewhere in the Coastal Plain. This type and also Muck occur in depressions in uplands.

"Swamp is a non-agricultural type occurring as first bottoms of alluvial origin along the Ogeechee river and branches throughout the year and support a water-loving vegetation.

PROHIBITION WINS IN MAINE

FINAL FIGURES SHOW THAT WETS LOST BY ONLY 295

Portland, Me., Sept. 13.—Revised returns on the question of the repeal of constitutional prohibition at 1 o'clock this morning reduced the majority against repeal to 295. The total vote stood: For repeal, 60,216; against repeal, 60,511.

The change from an apparent victory for the "wet" side by 700 votes, the 295 votes in favor of the "dry" side, came as a big surprise. The prohibitionists had practically conceded defeat, while reports of those who sought repeal had sent out numerous statements on the strength of their safe majority.

Notice. I am in the market for the purchase of cotton seed. I ask my friends to see me before selling. I. O. AKINS.

Before You Reach the Limit of physical endurance and while your condition is still curable, take Foley Kidney Pills. Their quick action and positive results will delight you. For backache, nervousness, rheumatism and all kidney, bladder and urinary troubles, Sold by Lively's Drug Store.

SOLE OF VALUABLE PROPERTY

PROCTOR ESTATE TO BE PLACED ON MARKET ON FIRST TUESDAY.

On the first Tuesday in October next, the undersigned will sell at public outcry the property in West Statesboro known as the Proctor estate, being the property of the late Mrs. Elizabeth Proctor. Said property consists of eleven tracts, as follows:

House and lot on West Main street, now occupied by C. M. Thompson; the home tract, divided into ten lots, lot No. 1 containing 3 1/2 acres; lot No. 2, 2 9/10 acres; lot No. 3, 2 1/2 acres; lot No. 4, 3 1/2 acres; lot No. 5, 3 1/2 acres; lot No. 6, 10 3/4 acres; lot No. 7, 11 6/10 acres; lot No. 8, 10 3/5 acres; lot No. 9, 11 1/10 acres; lot No. 10, 15 3/5 acres.

Terms of sale. Half cash, balance Nov. 1, 1912, with approved security. Blue print of said property may be seen at the store of Burns & Co., Statesboro.

H. A. PROCTOR, Manager.

Foley's Honey and Tar Compound still retains its high place as the best household remedy for all coughs and colds, either for children or grown persons. Prevents serious results from a cold. Take only the genuine Foley's Honey and Tar Compound and refuse substitutes. Sold by Lively's Drug Store.

R. J. Turner Dead.

Mr. R. J. Turner died at his home at Pulaski last night from typhoid fever, after an illness of five weeks. He is survived by his wife and one son and two daughters. He was a son of Mr. John Turner, and had lived in Bulloch county all his life.

Statesboro is now bonded for some forty odd thousand dollars for lights and water. We were assured that these necessary luxuries would be self-supporting, when we were asked to mortgage our town to install them and for our school building. The one was to give us pure water which did not and could not contain typhoid germs. That the well water here was largely responsible for what typhoid fever developed in our town. We first had the branches around town drained to stamp it out—a wise thing to do—then we had to fill up our wells and use artesian water, but we still have some fever in our midst—not more per density

BOND ELECTION CALLED OFF

ATTORNEYS FIND CITY CHARTER DOES NOT GIVE AUTHORITY.

At the meeting of the city council last evening, attorneys employed by the city to arrange the legal details with reference to the sewerage bonding election, rendered their opinion that the city's charter was not sufficient to authorize such an undertaking. Thereupon the election, announced for October 12th, was called off.

Messrs. Johnston and Cone and J. H. Anderson were the attorneys who concurred in the opinion above expressed as to the limitations of the city's charter. It is said that the present character restricts the issuance of bonds to \$50,000 for lights and water, making an amendment of the charter necessary before the \$50,000 sewerage bonds can be undertaken.

It is proposed to prepare the necessary amendment to the city's charter, and secure its passage at the next session of the legislature. This amendment will give the city all the needed authority in the premises, after which an election will be held, probably about October, 1912.

of population than the rural districts—but now it must be sewers. On our present bonded indebtedness we are having to raise a pretty penny in the way of taxation. Say the amount is \$45,000 (I am not far wrong), at a 4 per cent will make \$1,800 interest per annum for twenty years, amounting to \$36,000, which, added to the principal debt, foots up \$81,000 for something worth originally \$45,000.

In the year 1893 the question of bonding Bulloch county for \$17,000 to build a court house was agitated to some extent. The court house was built and paid for in three years by temporary raise in the tax rate of just, if I mistake not, a mill on the dollar, and our valuations of Statesboro property now are greater of very nearly as great as the county valuation at that time.

\$50,000 of bonds for sewerage for Statesboro? Mr. Property-owner of limited income, think what it will mean for you! Our tax valuation.

F. J. CHENEY & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm. NATIONAL BANK OF COMMERCE, Toledo, O.

YOU WORK HARD FOR YOUR MONEY MAKE YOUR MONEY WORK FOR YOU

WHEN you work hard for your money, don't fool it away. Make it work hard for you. It will if you only take care of it and put it in the bank. They'll make it work for you—that's their business.

THE PROPOSED BOND ISSUE

SOME PHASES OF THE SUBJECT WHICH HAVE NOT IMPRESSED THE VOTERS

Mr. EDITOR: Please allow me space to present some thoughts on the proposed issue of \$50,000 of bonds to install a system of sewerage for Statesboro, to be decided by vote on the 12th of October. As we are to vote on bonds or no bonds, we should have some idea as to what the question means, and, unless some one informs us, we cannot vote intelligently.

Let us take our location first. We are high and dry upon the ridge dividing the Ogeechee and Canoochee rivers—one being nine or ten miles north and the other eighteen or twenty miles south. Mill creek, three miles north-east, and Lott's creek, seven miles southwest, one emptying into the Ogeechee and the other into the Canoochee, either of them too remote and not sufficiently supplied with water at all seasons to afford an adequate outlet for the sewerage of the town.

Another phase of the subject is the increased burden of taxation which would be put upon the property owners of Statesboro without a general distribution of the supposed benefits to be derived therefrom. I may be answered in this instance as has been answered before when the matter of bonds was agitated for other purposes: "The money will be raised without increasing the tax rate," and the only way to do it will be for the board of tax assessors to assess the property at constantly increasing figures that it will be impossible for the laboring man to own his little home; and rents will increase in price correspondingly to an unbearable extent to the man working for wages.

Statesboro is now bonded for some forty odd thousand dollars for lights and water. We were assured that these necessary luxuries would be self-supporting, when we were asked to mortgage our town to install them and for our school building. The one was to give us pure water which did not and could not contain typhoid germs. That the well water here was largely responsible for what typhoid fever developed in our town. We first had the branches around town drained to stamp it out—a wise thing to do—then we had to fill up our wells and use artesian water, but we still have some fever in our midst—not more per density
