Rotarians Urged To Learn Art Of Visiting
E. N. Uphaw Speaks At Regular Rotary Meeting
Mr. E. N. Uphaw, Assistant Manager of the Savannah office of the Prudential Insurance Company of America was the guest speaker at the Rotary Club meeting here Monday.

Mr. Uphaw in his talk stated that it is his opinion that people today have forgotten how to play together. He pointed out that community play has returned, but that there is too much supervision to give it the old time freedom. Mr. Uphaw went on to say that "we of today have lost the art of visiting," adding that that to go visiting does not mean "going to your neighbor's home and sitting down and immediately get out the bridge table and begin dealing the cards, but it means talking with each other, visiting each other."

Among the other things that Mr. Uphaw pointed out that we have lost is the art of civility and emotion in religion.

Mr. Uphaw teaches a class of men at the Baptist Church in Savannah and is heard at intervals over the radio there.

The Jaeckel Hotel was built in 1905 by the late Austin Franklin. The hotel was built on the property owned by Mr. Olliff Investment Company.

The hotel began as the Statesboro Hotel Corporation with G. Jaeckel president, in 1904. It was capitalized at \$15,000. There were 140 stockholders and all were Bulloch county citizens, except two. These two were F. A. Wjide and A. N. Davis, both of Savannah.

Some of the stockholders who are still living are: Josh Zetterrow, R. F. Donaldson Sr., W. G. Raines, R. Lee Moore, J. L. Mathews, F. N. Griggs, Albert Deal, O. W. Rogers, W. H. Kennedy, S. F. Olliff, E. L. Smith, Gordon Blitch, and others.

H. W. SMITH, CELEBRATES 20TH ANNIVERSARY
Yesterday Harry Smith celebrated the twentieth anniversary of his jewelry store. Mr. Smith is well known in this section for the high class merchandising which he renders. He has been at his present location for the past 14 years. He began business in 1919 in the building now occupied by the billiard parlor. From there he moved into the building now occupied by the billiard parlor.

From there he moved into the building now occupied by Carter jewelry store and from there to his present building.

Mr. Smith renovated and installed new fixtures in his store recently which display his merchandise to the very best of advantage.

Working with Mr. Smith are Josh Lanier in the watch repair department and Miss Menza Cummings, saleslady.

The only thing about work that a lot of folks like is getting out of it.

Interest is running high in the reorganization of the local council, since a district council has been set up here with Mr. Byron Dyer as Commissioner. A Scout official out of Savannah will help Mr. Dyer with the local district.

WHO WILL BE THE FIRST TO ENTER
If you are one of the first to get started you will have advantage of your friends who are "thinking it over." So many persons will pay their subscription to the first one who asks them. More votes are given for subscriptions turned in the first week. The attractive prizes are to be awarded to the contestants having the most votes.

This is emphatically not a beauty competition nor a contest in which one has to be lucky in order to succeed. It is merely an opportunity to make your time (or any part of it) pay big dividends. You cannot lose.

THIS COMPETITION IS DIFFERENT
Many persons reading this announcement will think, "I would enjoy collecting for The Bulloch Herald, and receive the cash each week, according to my work, as winning either the \$500 or \$200 cash, but I am afraid there may be some unfairness in the campaign department." The rules of this drive are different from most competitions of this kind. Each worker is permitted to select his own judge to have complete charge of all subscriptions and votes collected during the entire last period of the campaign. All our subscription records from the beginning of the drive until the end are open to all the contestants and their friends after the campaign has closed. Each worker assists the campaign manager in counting the votes when they are turned in to the Campaign Department twice a week.

INFORMATION AND ASSISTANCE
So that everyone entering this subscription drive will be given every possible assistance, a campaign department will be placed in the office of The Bulloch Herald and an experienced manager, Mrs. J. Roy McGinty, of Calhoun, will be in charge of this campaign. Mrs. McGinty is an experienced newspaper woman and we are sure that all participants will be pleased with the way the subscription drive is managed.

This liberal offer is worth investigating. We will gladly give full information without any obligation on your part. You do not know what you can do until you try. If you work for one week and decide to quit—you are paid 20 per cent cash commission of subscription money you collect. Why not win \$500 and some of the other attractive prizes that can be had.

POTASH PAYS
Your Agricultural Authorities Recommend 3-10-10 for TOBACCO
The Official Recommendation for tobacco on average Georgia soils is 3-10-10 TOBACCO FERTILIZER at 800 to 900 pounds per acre at planting, plus a potash side-dressing equal to 100 to 200 pounds of Sulphate of Potash per acre. The side-dressing should be applied within 20 days after transplanting in the field. Authorities state that experiments indicate that the acre value of tobacco may be materially increased by additional potash.

THE LEGEND OF THE DOGWOOD

An interesting legend concerning the dogwood will reveal the likeness of a cross, two long petals opposite and two short ones opposite, and on each a brown scar, sometimes with a blood streak from it. The brown notches are formed as the horny winter scales break away, and leave clusters of little green knobs in the center surrounded by the white brunt-ended bracts.

People of Stateboro do not have to go to Atlanta to see this beautiful shrub in bloom. Our woods here in this section present their own dogwood festival which may be seen from any of our country roads.

IT CAN HAPPEN

A news dispatch from Screven, Ga., announced Sunday that the Screven High School was forced to suspend school last Friday, due to the lack of funds for teachers' salaries.

Atlanta is beginning to become dogwood conscious. They are trying to make the people believe that Atlanta is the Dogwood City of the United States.

THEY NEED MAGIC NOW

With the Georgia legislature due to adjourn Saturday the question comes up—What have they done? Unless they pull several feats of magic in a remarkable short time the answer will be—Nothing.

This legislature began its session with an excellent opportunity to distinguish itself but has managed to bungler it rather badly and at the expense of the people who sent them as their representatives.

LEST WE FORGET

A local retail merchant, who has a sense of humor, was in our office last week tells a story of the darkey who had come to town with cotton to set-

tle up his winter charge account at the general store. After figuring it up he found he had one bale over what was required to pay his debts at the store and asked the merchant, "Mars Johnson, would it be all the same to yo' if ah got cash fo' de othah bale?"

"All right, Sam," replied the merchant, and he gave the old darkey the cash. Sam immediately took the money and bought himself a whole new outfit. When he was all dressed up in his new clothes he strutted back to the old store and sat around "proud as a peacock." The old merchant looked up over his glasses and spied Sam, dressed fit to kill.

"Sam where did you get that outfit," he exclaimed. "Ovah at the Cas' Store, suh," Sam replied. "Well, you ungrateful wretch you! After me trusting you all year, you go over there and buy a whole new outfit. Why didn't you buy those clothes from me?"

"Law, me, Mars Johnson, Ah sho didn't know yuh store so' for cash!" And the local merchant added: "Believe it or not that very thing happened in my store."

This week, the Bulloch Herald announces a campaign in which we are offering a number of valuable prizes. In launching this campaign we wanted to be sure of securing someone who would work with us and help us conduct the campaign in keeping with the policy of the Bulloch Herald. We have such a person.

Mrs. Roy McGinty, of Calhoun, Georgia, is working with us and will help bring the Bulloch Herald to more readers in Bulloch county and Stateboro. Mrs. McGinty comes here from Calhoun, Georgia. She works with her husband, Roy McGinty the editor of the Calhoun Times. He is also a member of the state Senate, representing the 43 Senatorial district.

Mrs. McGinty is known to a number of people here in Stateboro. She is prominent in newspaper circles in the state, and understands the problems of weekly newspapers and their readers. Mrs. McGinty will be with us for some time, making the Rushing Hotel her home while here.

For the past few weeks a group of ladies of the Community Center who meet at the Grammar School Building on College Street have been quilting. In a recent competition Mrs. Bill Prosser was awarded first prize for the prettiest quilt pattern. Right here in Stateboro is an old fashioned activity which has kept step with the times. We have been doing a bit of research on the art of quilting and have found that there are more than fifty quilt patterns. Upon finding that many we are that there must be more.

The names of these quilt patterns reveal a beautiful realm created in the imagination of the quilters gathered around the quilting frame. These flights in imagination are found in such patterns as 'The Garden of Eden, Lady of the Lake, Wheel of Fortune and Solomon's Temple.

Other patterns indicate a more practical turn of mind. Churn Dash, Sugar Loaf, Ice Cream Bowl, Log Cabin and Circle Saw. Politics has reached its long fingers into the homely art of quilting and left its mark in such patterns as Lincoln's platform, Radical Rose, Harrison's Rose, Whig Rose, and Democratic Rose.

GOVERNORS OF GEORGIA FOR PAST FOURTY YEARS

Who was governor in 1908? or who succeeded Hoke Smith when he left governor's office and went to the senate in 1910?

After spending considerable time digging up the answers, Milton Fleetwood, editor of the Cartersville Tribune-News, offers the following on the governors for the past forty years, which is worthy of preservation for arguments that are sure to rise as the gubernatorial campaign waxens warm.

"Did you know that Georgia once had three different governors within a twelve-month period? That was in 1911. Former Governor Joseph M. Terrell, named as successor to the late Senator Augustus O. Bacon, himself died while holding the Senatorship, and Hoke Smith—although having just assumed the governor's chair for a second term—decided to ask the legislature to name him and thereby fulfill a life-long ambition. His wish was gratified, and John M. Slaton, then president of the State Senate, became governor. He served only a few weeks, until a special election could be called, and Joe Brown went in, unopposed, for an unexpected term, and which had been denied him by the Georgia voters only a few months previously, the records show. Such is politics—'up today and down tomorrow!"

BROOKLET NEWS

The Ninth and Tenth grade Grade Home Ec. girls have been sewing for the past eight weeks. The following six weeks will be spent in cooking. We decided to make something to protect our clothes while we were cooking. After several suggestions from our teacher and the class, we decided to make a smock.

Since we did not have but two machines, and most of us had never made a garment before, it took us quite a while. When I got my cloth I did not know how to cut it. It took me two days to cut it out.

I learned to make six kinds of seams; french felt, flat felt, over-casting, self-finishing, plain tailoring, and pink. We used the French felt seam on our smocks.

It took me almost a week to make them because I could not get each one the same size. I had my sleeves to take out twice. I did not have any trouble with my collar, although it took me a long time to get it on. Now that I have finished my smock I am very proud of it because it is the first thing I have ever made.

I believe I can make most anything that I wish now. I have certainly enjoyed this unit in sewing because we all work together and have a lot of fun.

CONSERVING VITAMINS
Do you make an effort to cook vegetables so that you save as much as possible of whatever valuable vitamins they contain?

As you know, it is not enough just to plan menus that supply what your family needs to eat. You have to follow through. It is plain, sensible caution to see that the food value you planned for so carefully in your menu not only gets into your kitchen—but also gets from there to the family table.

And right in the family kitchen, many an unnecessary vitamin loss may take place. Some of the vitamin content of a vegetable may be lost during storage. Some you may pour down the sink if you do not use the cooking water. And some may go off into thin air during the cooking.

In fact, if you do not control this so-called magic of cookery, it may turn into black magic. As far as vitamins are concerned, for instance, let cabbage get over-cooked and much of its vitamin C does a regular disappearing act. Or if you put soda in snap beans to make them a pretty green, you may just as well wave goodbye to a lot of the vitamin B that's in them.

But here is the bright spot of the whole situation. It is not especially difficult to cook vegetables so that you do preserve their vitamin content. In fact, it boils down to this simple rule—"Cook the vegetable quickly—in as short a time as possible. Use the smallest amount of liquid that is practical. And use the cooking water."

That is good vegetable cookery from whatever angle you look at it. For it is the best way to preserve not only vitamins—but the flavor, texture and color of the vegetable as well.

To sum up the situation, food values that may be lost in cooking are certain vitamins and minerals. Minerals are not destroyed but may dissolve in the cooking water and be lost if that is not used. Some vitamins may also be dissolved in the cooking water.

NEVILLS HOME EC. GIRLS ARE NOW LEARNING COOKING

The Ninth and Tenth grade Grade Home Ec. girls have been sewing for the past eight weeks. The following six weeks will be spent in cooking. We decided to make something to protect our clothes while we were cooking. After several suggestions from our teacher and the class, we decided to make a smock.

Since we did not have but two machines, and most of us had never made a garment before, it took us quite a while. When I got my cloth I did not know how to cut it. It took me two days to cut it out.

I learned to make six kinds of seams; french felt, flat felt, over-casting, self-finishing, plain tailoring, and pink. We used the French felt seam on our smocks.

It took me almost a week to make them because I could not get each one the same size. I had my sleeves to take out twice. I did not have any trouble with my collar, although it took me a long time to get it on. Now that I have finished my smock I am very proud of it because it is the first thing I have ever made.

I believe I can make most anything that I wish now. I have certainly enjoyed this unit in sewing because we all work together and have a lot of fun.

Lucile Nesmith.

NEW LAND PROJECT IN WHITFIELD CO., CONTAINS 35,000 ACRES

DALTON, Ga. March 16.—More than 35,000 acres in Whitfield county will be taken out of cultivation and put into pasture, and forests under the federal government's newest sub-marginal land purchase project, announced recently in Washington, D. C.

Located entirely within this county, the new project is to be known as the Limestone Valley and Uplands project of the Soil Conservation Service.

The predominant agricultural problem of the area is the continued mis-use of the land resources through the cultivation of rough land not primarily suitable for farm crops.

It is also proposed to establish recreational facilities in selected spots, and to encourage development of further soil erosion, fencing for establishment of pastures, and the development of forest protection work such as construction of fire lanes and towers.

Early entries have a decided advantage. Extra votes are given during your first week's work. Never again in the entire campaign will the votes count as much as they do during your first week. Win the \$500 your first week.

The "Weekly Play" Plan In Brief

The object of this big "WEEKLY PAY" drive is two-fold. Primarily to increase the already large subscription list of this newspaper; to collect arrears and advance subscription payments from present or old subscribers, and at the same time to afford the live-wire energetic men and women of this territory an opportunity to profit in a BIG WAY through their spare time during the next few weeks. So it is a plan that works both ways, and to the ultimate good of all concerned.

Let us be understood at the very outset that this is not a "Beauty" or "Popularity" contest, but a strictly legitimate, competitive proposition for enterprising men and women, and one into which no element of chance enters. Each active participant will receive a pay check every Friday afternoon. One feature of this drive is the fact that "Everybody Wins." There will be no losers.

How To Enter

Clip the entry coupon appearing below; fill in your name and address, mail or deliver to the Campaign Manager of The Bulloch Herald. This coupon entitles you or the person whom you may wish to enter, to 25,000 Extra Votes--if with one subscription 150,000 votes additional.

For further information come to the Bulloch Herald and have the Campaign Manager explain full details, without any obligation on your part.

Early Start Means A Profitable Finish!

The advantages of an early start are manifest. This "weekly pay" drive is of such short duration that immediate action is necessary for success. Orders taken during the early part of the campaign carry the MAXIMUM number of votes. Then, too, the first in the field will undoubtedly get the easy subscriptions, while those who put off entering until a later date will have to take what is left.

Don't lose valuable time "Waiting to see what the other fellow is going to do," but pitch right in and show the "other fellow" how to do it!

ENTER THIS "WEEKLY PAY" DRIVE. BE YOUR OWN BUSINESS MANAGER FOR A FEW WEEKS AND BE PAID A CHECK EACH FRIDAY AND AT THE SAME TIME BE FILING UP VOTES TOWARD WINNING THE MAJOR PRIZES.
