cannot fail to attract the attention of the thousands of people who will visit "The State Fair." There is no reason why Bulloch cannot carry off the first prize for an agricultural exhibit. We have within our county limits all the resources from which to get up such an exhibit. It can be done. It cannot be done however if the people stand with their hands folded, every man depending on the other fellow to do it. It is true it will take a strong pull, a long pull and a pull all together to accomplish this. But it can be done and it ought to be done. The benefits to be derived from a successful exhibit cannot be estimated. If it should succeed in turning the eyes of industrious hardworking farmers to this section, they will move in, clear up our lands, help build up churches and schools, support stores and build towns, in fact there is no line of business that would not be benefited by an increase in the number of successful farmers. A snug farm house on every hill with the adjoining lands put in cultivation would instill new life into every community so touched. Thinly settled sections would be settled up and where to-day a small country school is run three months in the year you would see

## TAKE YOUR CHOICE,

ten days lost from Business.

It means ten days of unhappiness for you and ten days of hard work and anxiety for those who love you.

This is putting it in its very happiest aspect. It might mean your death, and it often means a breakdown in general health from which some recuperate very slowly. If you are a rich man your time is worth much to your estate. If you are a rich man your time is worth much more to your family. The rich much the teter afford to suffer a loss of \$100.00 a day, as a result from endiabsence from business than the poor man can lose the value of his labor. Both men—rich or poor—are stupid to lose 10 days when 24 to 48 hours is unit of time required to put them in good condition by Johnson's Chill and to Tonic.

I always feel serry for the family that is wedded to the plan of subjecting Emselves to the Quinine treatment.

The process is slow. The result uncertain. The treatment disappointing.
Johnson's Tonic has two cardinal points that should immediately commend
to every thinking man in this country.

First of all, it is harmless. Absolutely harmless. Harmless under all cir-

as more or less of a guess. Probably it is safe to say that the exact population of this most populous of all the countries in the world will never be known. It is quite too numerous to mention.

We notice that a Cleveland, Ohio, newspaper speaks patronizingly of Argentian as a "little republic." What tarks! exclaims the Hartford Courant. Why you should insure in the

NATIONAL LIFE OF THE U.S A.

BECAUSE it is the only National Life Insurance Company incorporated by Congress.

BECAUSE it has \$1,000,000 Capital Stock all paid in.

BECAUSE it is 34 years old and never contested a just claim. BECAUSE its premium rates are low, and guarantees high.

BECAUSE it will sell you a policy with every figure warranted.

BECAUSE it has a larger percentage of Surplus than any other leading company. BECAUSE it has more Assets in proportion to its outstanding insurance than any other

leading company.

BECAUSE it has more surplus in proportion to its insurance liability than any other leading company in the world, which means that the Stockholders put up more money to guarantee the payment of its claims than any other leading company. BECAUSE it sells you a policy that guarantees to be paid up in full in 15 years for a less annual premium than some companies charge for a 20 Pay Policy.

Why Agents Should Represent The

NATIONAL LIFE OF THE U. S. of A.

BECAUSE its managers belong to no association or compact, and are at liberty to and do pay better commissions than any other leading companies doing business in

BECAUSE its managers pay the same commission on all kinds of policies. They do not reduce the commission on Stock rate and cheap insurance in order to force the agent to sell to the people the higher priced policies.

BECAUSE the Company has just begun to develop the Southern territory, and furnishes better chances for promotion than a company aiready established.

BECAUSE our policies absolutely guarantee the results, and are sold at prices that come

within the reach of all. If you want to know more 'reasons why' you should take a Policy or an Agency, Address,

A prominent club woman, Mrs. Danforth, of St. Joseph, Mich., tells how she was cured of falling of the womb and its accompanying pains and misery by Lydia E. Pinkham's Vegetable Compound. "Dear Mrs. Pinkham's Vegetable Compound.

"Dear Mrs. Pinkham's Life looks dark indeed when a woman feels that her strength is fading away and she has no hopes of ever being restored. Such was my feeling a few months ago when I was advised that my poor health was caused by prolapsus or falling of the womb. The words sounded like a knell to me, I felt that my sun had set; but Lydia E. Pinkham's Vegetable Compound came to me as an elixir of life; it restored the lost forces and built me up until my good health returned to me. For four months I took the medicine daily and each dose added health and strength. I am so thankful for the help I obtained through its use."—Mrs. Florence Danfortin, 1007 Miles Ave., St. Joseph, Mich.

A medicine that hus restored so many women to health and can produce proof of the fact must be regarded with respect. This is the record of Lydia E. Pinkham's Vegetable Compound, which cannot be equalled by any other medicine the world has ever produced. Here is another case:—

"FREE MEDICAL ADVICE TO WOMEN."

Women would save time and much sickness if they would write to Mrs. Pinkham for advice as soon as any distressing symptoms appear. It is free, and has put thousands of women on the right road to recovery.

Mrs. Pinkham never violates the confidence thus entrusted to Mrs. Pinkham hever violates the condense of testimonials from her, and although she publishes thousands of testimonials from women who have been benefited by her advice and medicine, never in all her experience has she published such a letter without the full consent, and often by special request of the writer.
