READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

1) The Commonwealth may answer the motion. If the Commonwealth chooses to respond to the motion, such response shall:

a) be submitted within ten days of receipt of the motion; and

b) include a verification that the facts set forth in the answer are true and correct to the best of the attorney's personal knowledge or information and belief and that any false statements are made subject to the penalties of the Crimes Code, 18 Pa.C.S. § 4904, relating to unsworn falsification to authorities;

2) The court may order the Commonwealth to file an answer within a timeframe established by the court.

Comment

A motion for relief under this rule is to be filed with the clerk of courts in the court in which the alleged error occurred. Rule 120 defines "court" as the Court of Common Pleas. *See* Rule 120. Because the court has continual supervision over a juvenile until court supervision is terminated pursuant to Rules 631 or 632, the juvenile court is the appropriate forum for such a motion.

This process allows the juvenile court to accept late motions when there is a sufficient basis for the delay. *See* paragraph (C)(6) for requirement of the grounds for the motion. Because the court is providing relief *nunc pro tunc*, the requirements of 42 Pa.C.S. § 5505 do not apply. *See City of Philadelphia Police Dep't v. Civil Service Comm'n of City of Philadelphia*, 702 A.2d 878 (Pa. Commw. Ct. 1997) (absent specific rule, only technical errors may be corrected after 30-day period); *see also Justice v. Justice*, 417 Pa. Super. 581, 612 A.2d 1354 (1992) (after a 30-day period the order can be opened or vacated if there is fraud or some other circumstance so grave or compelling as to constitute extraordinary cause which justifies intervention by the court); *Com., Dep't of Transp., Bureau of Driver Licensing v. Duncan*, 144 Pa. Commw. 261, 601 A.2d 456 (1991) (after a 30-day period order can be opened or vacated upon extraordinary cause).

Pursuant to paragraph (A), the motion is to be filed as soon as possible but no later than sixty days after the date the error was made known or discovered. It is best practice to file the motion within thirty days.

Pursuant to paragraph (B), counsel is to remain in the case unless ineffective assistance of counsel is alleged. *See* Rule 150(B). If ineffective assistance of counsel is alleged, counsel is to withdraw and the court is to appoint new counsel. *See* Rule 150(C).

Pursuant to paragraphs (C)(6) & (7), the juvenile is to aver the basis for relief and allege facts to support the grounds for the relief upon which the court may conclude the delay was justified and should be overlooked in the interest of justice.

Second or subsequent motions will not be entertained unless a strong *prima facie* showing is offered to demonstrate that a miscarriage of justice may have occurred. *See Commonwealth v. Szuchon*, 534 Pa. 483, 633 A.2d 1098 (1993) (citing *Commonwealth v. Lawson*, 519 Pa. 504, 549 A.2d 107 (1988)). This standard is met if the

juvenile can demonstrate either: 1) the proceedings resulting in the juvenile's disposition were so unfair that a miscarriage of justice occurred which no civilized society can tolerate; or 2) the juvenile is innocent of the delinquent acts petitioned. *See Szuchon, supra.*

Rule 625. Hearing and Findings on Motion for *Nunc Pro Tunc* Relief.

A. *Hearing.*

1) The judge may grant an evidentiary hearing to resolve material questions of fact.

2) The hearing shall be conducted as soon as possible but no later than thirty days after the filing of the motion for *nunc pro tunc* relief unless, upon good cause shown, the judge determines more time is necessary for investigation and preparation.

B. *Grant with No Hearing.* If sufficient facts exist in the record to warrant relief, the judge may grant the motion without a hearing. If the judge grants the motion, it shall be granted within thirty days of the filing of the motion unless an extension is granted.

C. *Dismiss with No Hearing.*

1) The judge shall give notice to the parties of the intention to dismiss the motion, stating the reasons for the dismissal in the notice upon conclusion that:

- a) there are no genuine issues concerning any material fact;
- b) the juvenile is not entitled to relief; or
- c) no purpose would be served by any further proceedings.

2) The juvenile may respond to the proposed dismissal within twenty days of the date of the notice.

3) The judge thereafter shall order the motion dismissed, grant leave to file an amended motion, or direct that the proceedings continue.

4) The judge may dispose of only part of a motion without a hearing by ordering dismissal of or granting relief on only some of the issues raised, while ordering a hearing on other issues.

D. *Findings.* The judge shall:

1) state the findings and conclusions of law for all material issues raised:

- a) on the record when there is a hearing; or
- b) in the order when there is no hearing; and

2) issue an order denying relief or granting a specific form of relief, and issue any supplementary orders or modification of dispositional orders appropriate to the proper disposition of the case.

E. *Dismissed by Operation of Law.* If the judge fails to decide the motion or grant an extension within thirty days:

- 1) the motion shall be deemed denied by operation of law and not subject to reconsideration; and
- 2) the clerk of courts shall forthwith:

- a) enter an order on behalf of the court; and
- b) as provided pursuant to Rule 167, shall serve a copy of the order on each attorney and the juvenile, if the juvenile has waived counsel, that the motion is deemed denied.

F. Appellate Rights.

1) If the judge disposes of the case in open court at the conclusion of the hearing, the judge shall advise the juvenile on the record of the right to appeal from the final order disposing of the motion and of the time within which the appeal must be taken.

2) If the case is taken under advisement or the judge denies the motion without a hearing, the judge shall notify the juvenile of the right to appeal pursuant to Rule 628.

Comment

The judge is permitted, pursuant to paragraph (C), to summarily dismiss a motion in certain cases. To determine whether a summary dismissal is appropriate, the judge should review the motion, the answer, if any, and all other relevant information included in the record. If, after this review, the judge determines that the motion is patently frivolous and without support in the record, or that the facts alleged would not, if proven, entitle the juvenile to relief, or that there are no genuine issues of fact, the judge may dismiss the motion.

A summary dismissal would also be authorized under this rule if the judge determines that a previous motion involving the same issue or issues was filed and determined adversely to the juvenile. See Comment to Rule 622 for second or subsequent motions.

Additionally, relief may be granted without a hearing pursuant to paragraph (D)(2) after an answer has been filed.

Rule 628. Order of Court on Motion for *Nunc Pro Tunc* Relief.

A. *Order by court.* The court order shall:

- 1) state the judge's findings and conclusions of law;
- 2) provide for appropriate relief and supplementary orders or modifications of the dispositional order as to:
 - a) the detention of the juvenile;
 - b) whether a new adjudicatory hearing is granted;
 - c) correction of the adjudication of delinquency;
 - d) correction of the disposition;
 - e) termination of court supervision; and/or
 - f) other matters that are appropriate.

3) include a statement explaining the right to appeal from the final order disposing of the motion, and of the time within which the appeal must be taken.

B. *Order by clerk of courts for deemed denied by operation of law.* When the clerk of courts has entered an order providing that the motion for *nunc pro tunc* relief is deemed denied by operation of law pursuant to Rule 625(E), the court order shall:

1) state that the motion is denied by operation of law pursuant to Rule 625(E); and

2) include a statement explaining the right to appeal from the final order disposing of the motion, and of the time within which the appeal must be taken.

EXPLANATORY REPORT

February 2012

The Supreme Court of Pennsylvania has adopted the renumbering of Rule 520 to 620 and new Rules 622, 625, and 628 with this Recommendation. The changes are effective April 1, 2012.

Rule 520 to 620—Post-Dispositional Motions

Rule 520 on Post-Dispositional Motions has been placed in Chapter Six under new Part C, Motions as Rule 620. This new Part C will include post-dispositional motions and motions for *nunc pro tunc* relief.

Rule 622—Motion for Nunc Pro Tunc Relief

This new rule sets forth the requirements for filing a motion for *nunc pro tunc* relief.

Paragraph (A) requires a motion for *nunc pro tunc* relief to be filed within sixty days of the date the error was made known. In many instances, the error will be discovered upon consultation with an attorney. It is sixty days from that discovery that the motion must be filed. It is best practice to file the motion immediately and within thirty days, however, in some instances, thirty days is not practicable.

Paragraph (B) requires counsel to withdraw pursuant to Rule 150(C) when ineffective assistance of counsel is alleged. The court must allow counsel to withdraw and appoint new counsel for the juvenile.

Paragraph (C) lists the requirements of the motion. For the motion to move forward, the allegations must aver that: 1) there is a need for correction of an error to accurately reflect the court's findings; or 2) the juvenile has been adjudicated delinquent for a delinquent act and is currently under the court's supervision; there is a legitimate basis for the appeal; and there are sufficient facts upon which to conclude the delay for the motion was justified and should be overlooked in the interest of justice. See paragraphs (C)(6)(a) and (b).

In addition, the specific relief requested must be stated. See paragraph (C)(5).

Paragraph (D) provides that the Commonwealth may answer the motion. The answer is discretionary unless the court orders the Commonwealth to answer. If the court orders an answer from the Commonwealth, the court must establish a deadline for the answer. See paragraphs (D)(1) & (2).

Rule 625—Hearing and Findings on Motion for Nunc Pro Tunc Relief

This new rule allows the judge to grant an evidentiary hearing if it is clear there is no evidence or insufficient evidence on the record upon which the Superior Court could base its decision. This is important because if an appeal was taken and there was no evidence in the record

for the Superior Court to review, the case would be remanded to the juvenile court for an evidentiary hearing. Remand to the lower court is common for ineffective assistance of counsel claims because there is no evidence in the record. Also, in some cases, there may be new evidence that was just made available and it did not appear in the record.

This bypass procedure of allowing evidentiary hearings in the juvenile court streamlines the process and will prevent an overload of cases to the Superior Court. It also saves judicial resources to have the juvenile court judge or another Common Pleas judge hear cases that would otherwise be remanded anyway.

The judge may also grant or deny a motion without a hearing. Before the judge denies the motion under paragraph (C), the judge is to give notice of the intention to dismiss the motion and state the reasons for the dismissal in the notice. The juvenile may respond to the notice within twenty days, whereupon the judge will make his or her final ruling.

Paragraph (D) requires the judge to state the findings and conclusions of law on the record when there is a hearing or in the court order when there is no hearing. The court is also required to state the specific form of relief granted or denied and may issue supplementary orders or modify the dispositional order when appropriate. See paragraph (D)(2).

If the judge fails to decide the motion within thirty days or grant an extension, the motion must be deemed denied by operation of law and the clerk of courts must enter an order on behalf of the court denying the motion and provide notice to the attorneys and the juvenile. See paragraph (E).

The juvenile may appeal the final order made by the judge. The judge shall notify the juvenile of this right. See paragraph (F).

Rule 628—Order of Court on Motion for Nunc Pro Tunc Relief

This new rule governs the contents of the court order. The order must include the judge's findings and conclusions of law; any appropriate relief and supplementary orders or modifications of the dispositional order; and advise the parties of the right to appeal and time within which the appeal must be taken.

Title 249—PHILADELPHIA RULES

PHILADELPHIA COUNTY

Mass Tort and Asbestos Programs; General Court Regulation No. 2012-01

Background: In an effort to consider and address a number of concerns and criticisms of this Court's Mass Tort Program and the Asbestos Program in particular, the Coordinating Judge of the Complex Litigation Center and the Administrative Judge of the Trial Division reviewed the Mass Tort protocols and subsequently issued a Notice to the Bar on November 28, 2011. This Notice confirmed the Court's decision to end reverse bifurcation in all

pharmaceutical cases, established a two month comment period whereby counsel were invited to submit comments concerning the utilization of consolidation and reverse bifurcation trial methodologies and further requested comment on addressing claims of punitive damages.

During the two month comment period spanning December and the month of January, 2012, this Court independently examined its docket of asbestos claims and reviewed certain relevant and pertinent information upon which it now bases the implementation of substantial changes and revisions to the conduct of its Mass Tort Program and in particular the trial of asbestos cases (asbestos cases constitute a large portion of the inventory of the Mass Tort Program).

The asbestos case inventory as of February 3, 2012 numbers 770 cases. Since 2006 when the asbestos inventory numbered 589 cases, there has been a pronounced upward trend in filings in each successive year. Although the disposition rate remained at an average of 244 cases per year over this six year period, the Court's disposition rate has not kept pace with filings and a significant backlog has developed and will continue to develop if measures are not implemented to ameliorate the trend.

In January and again in March, 2009, certain Court leadership invited the filing of asbestos cases from other jurisdictions and did so apparently unaware that, at that time, this Court's asbestos program was only meeting the ABA's suggested standards for resolving these cases in 24-25 months in 42% of the cases filed. During a five year period from 2007 through 2011, 82.2% of the cases were disposed of within 31-36 months, leaving almost an entire fifth of the inventory undisposed after three years.

Administrators provided online "Age of Pending Cases" and "Disposed Age Analysis" reports, however, until now no corrective action was taken internally to address the growing backlog of asbestos cases.

From 2001 to 2008, an average of approximately one-third of the filings were from outside the Commonwealth. A dramatic increase in these filings occurred after this Court's leadership invited claims from other jurisdictions. In 2009, when published comments were offered encouraging the filing of claims in Philadelphia, out-of-state filings soared to 41% and in 2011 reached an astonishing 47%.

Preliminary Conclusion: With regard to other Mass Tort Programs, the Court failed to meet ABA suggested standards for the disposition of cases in the HRT, Paxil, Beryllium, Phen-Fen and Vioxx matters, but achieved 100% compliance with the Avandia, Trasyolol, Digitek, Firefighters' Hearing Loss, Gadolinium and Anti-Convulsant Drugs programs. The Asbestos Program was by far the one Mass Tort Program most out of compliance with the standards. Significant results were achieved in HRT, Paxil and pharmaceutical mass torts.

With regard to asbestos cases, this Court has invited out-of-state filings, has failed to meet the ABA's suggested standards in over half the filings and may not at the present time meet the needs of the citizens of the Commonwealth for the prompt and fair resolution of these claims, while at the same time addressing the claims of non-Pennsylvania residents. Therefore, in the interests of the orderly administration of justice, this Court is required to thoughtfully review the present methodologies employed in the trial of mass tort cases and, in particular, the asbestos inventory.

During the comment period, 32 comments were submitted by a broad cross-section of the Asbestos Bar and the

Court expresses its sincere and grateful appreciation for all recommendations received. These comments were instrumental in formulating revisions of this Court's Mass Tort Program and have facilitated this Court's examination of various methodologies allowing for the disposition of a vast number of cases against the ultimate imperative of providing a fair and prompt resolution of each and every claim. Furthermore, the Court cautions out-of-state plaintiffs to seek other venues to file their claims until and unless this Court's revisions have successfully resolved the backlog of outstanding claims and achieved compliance with the ABA suggested standards.

Order

And Now, this 15th day of February, 2012, it is hereby *Ordered, Adjudged and Decreed*, for all of the reasons expressed herein above and considering the thoughtful recommendations of many members of the Bar engaged in the trial of mass tort cases in Philadelphia and elsewhere, that the following protocols are hereby adopted for the prompt, efficient and orderly administration of justice in the disposition of all mass tort and asbestos claims with the understanding that the Court will monitor the implementation of these revisions over the coming year and make revisions as necessary:

1. There shall be no reverse bifurcation of any mass tort case, including asbestos, unless agreed upon by all counsel involved.

2. Consolidation of mass tort cases shall not occur absent an agreement of all parties, except in the asbestos program in accordance with the protocols set forth herein.

3. All punitive damage claims in mass tort claims shall be deferred.

4. Pro hoc vice counsel shall be limited to no more than two (2) trials per year, but otherwise will not be limited on pre-trial appearances. The Court encourages non-Pennsylvania counsel to pass its Bar Examination and thereby become familiar with Pennsylvania law, rules and procedures.

5. Unless otherwise agreed by defense counsel or upon showing of exigent circumstances, all discovery shall take place in Philadelphia.

6. Except for those cases already scheduled for trial through February 29, 2012, asbestos cases thereafter shall be grouped in groups of a minimum of 8 and a maximum of 10 and counsel shall be required to propose cases for consolidation considering the following criteria:

a. *Same law*. Cases that involve application of the law of different states will not be tried together;

b. *Same disease*. The disease category for each case in a group must be identical. The disease categories of cases to be grouped for trial are mesotheliomas, lung cancers, other cancers and non-malignancy cases;

c. *Same plaintiff's law firm*. Primary trial counsel for all cases in each group will be from a single plaintiff firm. Cases where Philadelphia plaintiff firms serve as local counsel for out-of-state counsel will not be grouped with cases from the local firm;

d. Fair Share Act cases will not be consolidated with non-Fair Share Act cases;

e. Pleural mesothelioma is a disease that is distinct from mesotheliomas originating in other parts of the body, and will not be tried on a consolidated basis with non-pleural mesothelioma cases and not necessarily tried on a consolidated basis. Non-pleural mesothelioma cases will be further classified for trial, so that non-pleural

mesothelioma cases allegedly caused by occupational exposure will not be tried on a consolidated basis with non-pleural mesothelioma cases allegedly caused by para-occupational (bystander) exposure;

f. And such other factors as determined appropriate in weighing whether all parties to the litigation can receive a prompt and just trial. The Court's present backlog of asbestos cases shall not be an overriding factor in the consolidation determination.

7. Any grouping of cases less than 8-10 in number shall not receive a trial date until a group is formed of 8-10 cases. A maximum of 3 of these 8-10 cases may be tried, with the other 5-7 cases either resolving through settlement or returned to the Coordinating Judge for regrouping and relisting for trial.

8. *Mediation*: Once grouped, assigned a trial date and after Motions for Summary Judgment have been decided by the Court, counsel are urged to seek mediation from a special panel of former judges named herein below. Either side may request mediation. The mediator selected by the parties shall advise the Court whether the plaintiff firm's participation was in good faith or not. In the discretion of the Coordinating Judge, any plaintiff firm's failure to proceed in good faith in mediation may constitute just cause to remove that group of cases from the trial list and any defendant's failure to proceed in good faith may result in an increase of the maximum 3 cases consolidated for trial. Since no more than 3 cases may be consolidated and proceed to trial in any group of 8-10, the remaining 5-7 cases should be resolved and settled. Otherwise, those unresolved cases shall be relisted for trial. All parties will share the expense of mediation.

9. The panel of former judges invited to participate in the special mediation of mass tort cases are the following:

1. Jane Cutler Greenspan, Judge
JAMS Arbitration, Mediation and ADR Services
1717 Arch Street
Suite 4010—Bell Atlantic Tower
Philadelphia, PA 19103
(215) 246-9494
2. G. Craig Lord, Judge

One Logan Square
130 North 18th Street
Philadelphia, PA 19103-6998
(215) 569-5496
3. James R. Melinson, Judge
JAMS Arbitration, Mediation and ADR Services
1717 Arch Street
Suite 4010—Bell Atlantic Tower
Philadelphia, PA 19103
(215) 246-9494
4. Russell Nigro, Judge
210 W. Washington Square
Philadelphia, PA 19106
(215) 287-5866
5. Diane M. Welsh, Judge
JAMS Arbitration, Mediation and ADR Services
1717 Arch Street
Suite 4010—Bell Atlantic Tower
Philadelphia, PA 19103
(215) 246-9494

10. The plaintiff firm shall designate which of the cases will proceed to trial. The defendants have the right to object to the cases selected to be tried together.

11. Immediately prior to trial of up to 3 consolidated asbestos cases, the assigned trial judge shall independently determine whether the cases will be tried in a consolidated manner based on the criteria herein above set forth and any other factors deemed relevant to the issue of consolidation and a fair trial.

12. *Expediting of Cases.* There shall be no expediting of cases based on exigent medical or financial reasons until the backlog of pending cases has been resolved, unless otherwise agreed by a majority of the defendants. When this Program achieves 80% of all asbestos cases resolved in 24-25 months, advanced listings based on exigent medical circumstances will be considered for plaintiffs with Pennsylvania exposure only.

13. Effective May 1, 2012, the Honorable Arnold New, presently assigned to the Commerce Program, will be reassigned as a Co-Coordinating Judge of the Complex Litigation Center and will join the Honorable Sandra Mazer Moss in administrating all programs in the Complex Litigation Center. Judge Moss will assume senior status as of December 31, 2012 at which time Judge New will thereupon serve as the sole Coordinating Judge of the Complex Litigation Center and its Mass Tort Program.

14. Effective May 1, 2012, the Honorable Gary Glazer will be reassigned to the Commerce Program and will assume Judge New's commerce inventory. Judge Glazer's assignment to the Commerce Program shall not interfere or impair in any fashion his continued services to the Supreme Court as Administrative Judge of Traffic Court.

15. Throughout this year, the Court will entertain suggestions to improve these protocols. During the month of November, 2012, the Court will once again invite and consider comments from interested members of the Bar addressing these protocols and the necessity for any changes and/or modifications.

This General Court Regulation is promulgated in accordance with Pa.R.C.P. No. 239 and the April 11, 1986 Order of the Supreme Court of Pennsylvania, Eastern District, No. 55 Judicial Administration. The original General Court Regulation shall be filed with the Prothonotary in a Docket maintained for General Court Regulations issued by the Administrative Judge of the Trial Division, Court of Common Pleas of Philadelphia County, and shall be submitted to the *Pennsylvania Bulletin* for publication. Copies of the General Court Regulation shall be submitted to the Administrative Office of Pennsylvania Courts, the Civil Procedural Rules Committee, American Lawyer Media, *The Legal Intelligencer*, Jenkins Memorial Law Library, and the Law Library for the First Judicial District of Pennsylvania, and shall be posted on the website of the First Judicial District of Pennsylvania: <http://courts.phila.gov/regs>.

New Rules of The Civil Division of the Court of Common Pleas; 2012-209 C.P.

Order

Now To Wit, this 17th day of February, 2012, it is ordered that, effective sec. leg., Susquehanna County Rules of Civil Procedure Civil Rule 1940.2. Definitions., Susquehanna County Rules of Civil Procedure Civil Rule 1940.3. Order for Child Custody Mediation. Selection of Child Custody Mediator., Susquehanna County Rules of Civil Procedure Civil Rule 1940.4. Minimum Qualifications of the Child Custody Mediator., Susquehanna County Rules of Civil Procedure Civil Rule 1940.5. Duties of Child Custody Mediator., Susquehanna County Rules of Civil Procedure Civil Rule 1940.6. Termination of Mediation., be and the same are hereby Adopted as follows:

Civil Rule 1940.2. Definitions.

As used in this Chapter, the following terms shall have the following meanings:

"Mediation" is the confidential process by which a neutral mediator assists the parties in attempting to reach a mutually acceptable agreement on issues arising in a custody action. The role of the mediator is to assist the parties in identifying the issues, reducing misunderstanding, clarifying priorities, exploring areas of compromise and finding points of agreement. An agreement reached by the parties must be based on the voluntary decisions of the parties and not the decision of the mediator. The agreement may resolve all or only some of the disputed issues. Parties are required to mediate in good faith, but are not compelled to reach an agreement.

While mediation is an alternative means of conflict resolution, it is not a substitute for the benefit of legal advice.

“Memorandum of Understanding” is the written document prepared by a mediator which contains and summarizes the resolution reached by the parties during mediation. A Memorandum of Understanding is primarily for the benefit of the parties and is not legally binding on either party.

Civil Rule 1940.3. Order for Child Custody Mediation. Selection of Child Custody Mediator.

(a) Upon commencement of an action for custody, partial custody or visitation of minor children, or the filing of a petition seeking modification or contempt of an existing order or seeking relocation, the Prothonotary shall collect a nonrefundable fee of \$20.00 which will be used to benefit the newly enacted custody mediation program.

(b) After the initial filing, the filing party shall present the complaint or petition to the Court of Common Pleas during Motions Court on any Tuesday at 10:00 a.m. Once presented, the Court Administrator shall schedule a custody conference within forty-five (45) days.

(c) If the parties can agree to a custody schedule on or before the date of the custody conference, that schedule shall be accepted by the Court if it is in the best interests of the minor child or children.

(d) If the parties do not agree as to any part of the custody schedule, or if the Court does not accept the proposed agreement at the custody conference, the case shall be set down for mediation.

(e) Mediation shall occur within 60 days of the custody conference in all cases, unless the parties are ineligible for mediation, or if the appointed Child Custody Mediator determines that mediation would be fruitless after speaking with the parties. The Court Administrator shall schedule the Mediation.

(f) Pursuant to 23 Pa.C.S.A. § 3901, parties cannot be ordered to participate in mediation if a party or a child of either party is or has been the subject of domestic violence or child abuse either during the pendency of the action or within 24 months preceding the filing of the action.

(g) Parties ineligible for court ordered mediation, because of domestic violence, may request in writing that they be permitted, by the Court, to attend mediation.

(h) If at any time during the mediation process, the Child Custody Mediator reasonably believes that the proceedings are inappropriate for mediation, the Child Custody Mediator shall advise the Court of the decision to terminate the mediation and will further recommend what fee, if any, should be returned to the parties.

(i) If mediation is not appropriate, the Court Administrator shall set a custody hearing date.

(j) Mediation shall be held at the Susquehanna County Courthouse. The appointed Child Custody Mediator shall contact the parties, using the contact information provided at the time of filing of the complaint or petition to discuss mediation fundamentals and collect information. The duties of the Child Custody Mediator are defined in CIVIL RULE 1940.5.

(k) An initial fee of \$500.00 shall be paid by the parties to the Office of the Susquehanna County Prothonotary at least seven (7) days prior to the mediation. Each party shall pay one half of the mediation fee. Further, if either party is indigent, he or she shall motion that the other

party pay the full mediation fee and the Court will direct what party shall make payment. If both parties are indigent, petition to proceed in forma pauperis shall be submitted to the Court in the form specified in Pa. R.C.P. 240.

(l) Additional fees may be assessed as necessary by the Court in accordance with the recommendation of the Child Custody Mediator. These fees shall be paid to the Office of the Susquehanna County Prothonotary before mediation continues.

(m) Only the parties shall attend the scheduled mediation. If parties are represented by counsel, counsel will be permitted to approve any Memorandum of Understanding. However, counsel is not permitted to attend or participate in any mediation session. Third parties are not permitted to participate in, or attend, the mediation.

(n) All applications for continuances of mediations shall be made in writing to the court and shall be delivered via hand delivery, postal mail, or facsimile to the Court Administrator no less than 24 hours before the scheduled mediation.

Civil Rule 1940.4. Minimum Qualifications of the Child Custody Mediator.

(a) A Child Custody Mediator must have at least the following qualifications:

(1) a bachelor's degree and practical experience in law, psychiatry, psychology, counseling, family therapy or any comparable behavioral or social science field;

(2) successful completion of basic training in domestic and family violence or child abuse and a divorce and custody mediation program approved by the Association for Conflict Resolution, American Bar Association, American Academy of Matrimonial Lawyers, or Administrative Office of Pennsylvania Courts;

(3) mediation professional liability insurance; and

(4) additional mediation training consisting of a minimum of 4 mediated cases totaling 10 hours under the supervision of a mediator who has complied with subdivisions (1) through (3) above and is approved by the court to supervise other mediators.

The Department of Revenue (Department), under the authority in section 6 of The Fiscal Code (72 P. S. § 6) and the Local Option Small Games of Chance Act (10 P. Subsection (a)(5) contains the identical language in § 7.5(e) regarding evidence.

Subsection (a)(6) is language from § 7.5(f) regarding subpoenas with minor rewording.

Subsection (a)(7) is language from § 7.5(h) regarding additional hearings and evidence.

Subsection (a)(8) contains language from § 7.6 (relating to decision and order) regarding the Board's decision and order.

Section 901.1 (relating to definitions) is proposed to be amended to change the definition of “Board” to mean the Board of Appeals rather than the Small Games of Chance Board.

The last sentence of § 901.161 (relating to jurisdiction and purpose), regarding the Board's recommendation to the Secretary, is proposed to be deleted to maintain consistency with other amendments in this proposed rulemaking.

Sections 901.162 and 901.163 (relating to composition; and powers and duties) are proposed to be rescinded.

Section 901.164(b)—(e) (relating to petitions) is proposed to be deleted.

(6) *Subpoenas.* The Board, on its own motion or at the request of a petitioner, may compel the production of books, records, documents and other data pertinent to the issues and may require persons having information to appear and submit to oral examination under oath or affirmation. The petitioner shall pay the costs associated with the issuance of a subpoena requested by the petitioner as a condition precedent to the issuance of the subpoena.

(ii) The Board's final decision and order will be in writing and signed by one or more members of the Board.

(iii) When provided by statute, the Board's exercise of equity power will be limited to situations when the petitioner establishes that he has acted in good faith, without negligence and with reasonable diligence.

(iv) One copy of the final decision and order will be mailed to the petitioner or to the petitioner's authorized representative at the mailing address shown on the petition.

(v) The Board may publish precedential decisions if the identity of the taxpayer is kept confidential.

(9) *Reconsideration.*

(i) Within the statutory appeal period and prior to the statutory time when the Board's failure to act results in a denial of an appeal, and upon the written request of a petitioner or upon request of the Department, the Board may reopen a case in which a final decision and order has been issued, for the following purposes:

(A) Correcting clerical or computational errors.

(B) Considering evidence that the Department or the Board received on or prior to the mailing date of the final decision and order and not taken into consideration as part of the final decision and order.

(ii) If the Board decides to reopen a case, a member of the Board will notify the petitioner in writing and provide an opportunity for a hearing. An amended decision and order will be issued.

(4) *Decision and order.* In the Board's discretion, the Board's final decision and order involving an assessment of tax, interest, penalties or additions may separate the reassessment into one of the following:

(i) Reporting periods involving disputed and nondisputed tax, interest, penalties or additions.

(ii) Disputed and nondisputed tax, interest, penalties or additions.

(5) *Bonds and security.*

(i) *Sales, use and hotel occupancy tax bonds.*

(A) In the case of petitions involving the sales, use and Hotel Occupancy Tax, the Department may by notice require a petitioner to file a surety bond. This bond shall be filed within 5 days of the date of the notice. Surety bonds shall be on a form approved by the Department, in an amount of 120% of the amount of the assessment remaining unpaid at the time of notice of bond requirement and shall be issued by a surety company authorized to do business in this Commonwealth.

(B) A petitioner, instead of filing a bond, may deposit with the Department a certified check payable to the "Pennsylvania Department of Revenue" in the amount of the bond required. On written application to and approval by the Department, the petitioner may post other security.

(C) If a surety bond is required, a petitioner may, within the time for filing the bond, file a written request for a hearing before the Board regarding the need for or amount of the bond. The petitioner shall furnish a financial statement to the Board at the time the request for hearing is made. The validity of the assessment itself may not be considered at the hearing. The determination of the Board will be final and its order shall be complied with within 15 days after notice thereof is mailed to the

petitioner. If a taxpayer fails to appear at a scheduled hearing, the Board may immediately cause a lien to be filed under section 242 of the TRC (72 P. S. § 7242).

(ii) *Personal income tax security requirement in jeopardy assessment appeals.* A petition for reassessment of a jeopardy assessment shall be accompanied by a bond or other security in an amount that the Department deems necessary. The bond shall be executed by a surety company which is authorized to do business in this Commonwealth. A petitioner may deposit with the Department cash or a certified check payable to the "Pennsylvania Department of Revenue" in the amount required by the Department. On written application to and approval by the Department, the petitioner may post other security. In the case of failure to post an acceptable bond or other security, the Board will nonetheless accept the petition, if filed within the 10-day period provided by statute. If an acceptable bond or other security is not posted, the Department has the right to file a lien or otherwise proceed with collection of the assessment, even though the assessment has been appealed.

(c) *Administrative proceedings.* In addition to subsection (a), practice and procedure before the Board related to administrative proceedings shall be as follows:

(1) *Applicable law.* Sections 501—508 and 701—704 of 2 Pa.C.S. (relating to Administrative Agency Law) and other applicable laws and regulations related to the proceeding apply.

(2) *Record.* A full and complete record shall be kept of the proceedings.

(3) *Transcripts.* Hearings and testimony provided during hearings shall be stenographically recorded. Copies of hearing transcripts will be made available to the petitioner at the petitioner's cost.

§ 7.16. Security upon petition for review.

(a) *General rule.* The Pennsylvania Rules of Appellate Procedure provide that a petition for review of an order of the Board of Finance and Revenue in a tax matter filed with the Commonwealth Court operates as a supersedeas upon the filing of appropriate security.

(b) *Alternate procedure.* If appropriate security is not filed as described in subsection (a), the Department will pursue collection activity, including the filing of a lien, to collect unpaid tax, interest, additions or penalties subject to the Commonwealth Court's review except as provided subsection (c).

(c) *Rules and procedures.*

(1) *Request for Department review.* A person may submit a request to the Department to determine whether the amount of unpaid tax, interest, additions or penalties is in jeopardy of collection if appropriate security is not provided.

(2) *Determination.* If the Department determines that the amount of unpaid tax, interest, additions or penalties is not in jeopardy, then the Department will not pursue collection activities during the Commonwealth Court's review. The Department's determination will be based upon the documentation required to be submitted in paragraph (3). The Department's determination under this paragraph is made solely at the Department's discretion.

(3) *Procedure.* The request under paragraph (1) shall be made in writing on a form prepared by the Department. The written request shall include the person's most recent financial statements, including a balance sheet,

income statement and all notes pertaining to the statements. The Department may request other financial documentation. An individual may be required to submit a personal balance sheet.

ENVIRONMENTAL QUALITY BOARD

[25 PA. CODE CH. 86]

Coal Mining Fees

The Environmental Quality Board (Board) proposes to amend Chapter 86 (relating to surface and underground coal mining: general). The proposed rulemaking establishes a schedule of fees for coal mining activity permit applications.

This order was adopted by the Board at its meeting of October 12, 2010.

A. Effective Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

B. Contact Persons

For further information, contact Thomas Callaghan, Director, Bureau of Mining Programs, P. O. Box 8461, Rachel Carson State Office Building, Harrisburg, PA 17105-8461, (717) 787-5103; or Richard S. Morrison, Assistant Director, Bureau of Regulatory Counsel, P. O. Box 8464, Rachel Carson State Office Building, Harrisburg, PA 17105-8464, (717) 787-7060. Persons with a disability may use the AT&T Relay Service, (800) 654-5988 (TDD users) or (800) 654-5988 (voice users). This proposed rulemaking is available on the Department of Environmental Protection's (Department) web site at www.depweb.state.pa.us.

C. Statutory Authority

The rulemaking is proposed under the authority of section 5 of The Clean Streams Law (52 P. S. § 691.5); sections 4(a) and 4.2 of the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.4(a) and 1396.4b); section 3.2 of the Coal Refuse Disposal Control Act (52 P. S. § 30.53b); and section 1920-A of The Administrative Code of 1929 (71 P. S. § 510-20).

D. Background and Purpose

Section 4(a) of the Surface Mining Conservation and Reclamation Act states: "The department is authorized to charge and collect from persons a reasonable filing fee. Such fee shall not exceed the cost of reviewing, adminis-

tering and enforcing such permit.” The proposed regulations revise permit application review fees for coal mining activity permits. A schedule of fees for coal mining activity permit applications is proposed.

The coal mining regulatory program (program) is funded, in part, through a grant from the Federal government under Title V of the Surface Mining Control and Reclamation Act (30 U.S.C.A. §§ 1201—1328). Under this grant, funds are provided to cover the costs of up to 50% of the program. The Commonwealth must provide matching funds. The State share has been provided through the General Fund appropriation to the Department. For the current Federal Fiscal Year (October 2011 through September 2012), the Title V grant provides about \$11.8 million towards total program costs of approximately \$23.7 million, with the State share of about \$11.8 million coming almost entirely from General Fund appropriations because the current fees generate only about \$50,000 per year in revenue. It is estimated that the revised fees established by this proposed rulemaking will generate about \$400,000 per year in revenue.

This fee proposal is the result of a process where the Department worked with the Mining and Reclamation Advisory Board (MRAB). The proposed fee amounts were calculated using a workload analysis system, the primary purpose of which is to manage staffing for the program. The workload analysis assigns a specific number of hours to each task (that is, type of application) based on historical data recording hours spent by staff for permit reviews. Factors used for the fee calculations include the hourly wage rates for the employees who typically perform a given task, benefits and overhead. Wages are paid in accordance with a pay scale that has 20 steps for each pay range. For the purpose of the proposed fee schedule, the first step (that is, the lowest wage rate) was used. Benefits (for example, health insurance, retirement and leave/holidays) cost the Commonwealth about 41% of the wage rate. Operational costs (for example, management, rent and utilities) cost the Commonwealth about 30% of the wage rate. The 30% figure is used to represent the costs described as “indirects” under the Title V grant application. This proposal establishes fees calculated to cover only a portion of the State share of the workload cost (that is, about 37%, or 3/8 of the total cost) for the selected authorizations. The list of authorizations included in the fee schedule is not exhaustive. There are other types of applications for which fees are not being proposed (for example, minor revisions, blast plans, completion reports, preapplications and annual bond reviews).

Fee Calculation Example

A new surface mining permit takes about 200 hours to review. These applications are reviewed by staff in pay range 8 (step 1 for 2010 is \$25.64/hour). Adding 41% for benefits, 30% for overhead and multiplying by 200 hours, then multiplying by 3/8 results in \$3,288 or \$3,250 if the amount is rounded.

MRAB

At a meeting in October 2009, the Department presented a proposed rulemaking package to the MRAB that included a proposed permit application fee schedule. The MRAB would not endorse the proposal and requested that the Department work with an MRAB committee to develop an alternative proposal. The strongest specific objection was the amount of the fees (for example, the proposed fee for a new surface mining permit was \$11,675). The October 2009 proposal contained permit

application fees designed to cover the State share of the Department’s costs to review mining permit applications. It was estimated that the October 2009 fee proposal would have generated about \$1.2 million per year in revenue.

In response to the MRAB’s recommendations, the Department met several times with the MRAB’s Regulatory, Legislative and Technical (RLT) Committee. During this process, various options were explored, including trying to develop a fee approach that would generate the full State share for funding the program (about \$11.8 million). This option was dismissed as unrealistic based on industry opposition and the fact that it would represent a dramatic policy shift from the status quo where the fees are nominal. The approaches taken by other states and the Federal Office of Surface Mining were also reviewed. The result of this process was a series of recommendations adopted by the MRAB at their January 2010 meeting. The recommendations are summarized as follows:

- Because permit fees have not gone up since 1982, a permit fee increase from the current amount of \$250 per application (\$500 for coal refuse disposal permit applications) is reasonable.
- An increase in permit fees should be dedicated exclusively to finance the program permit review process.
- The Department should not establish fees which would discourage or provide disincentives to reining activities and their reclamation benefits to the Commonwealth.
- It is reasonable to ask the industry to contribute to funding some part of the program.
- The MRAB would like to continue to advise the Department on appropriate permit fee assessment and allocations.

The RLT Committee met on March 15, 2010, and reviewed a proposal containing permit application fees and an annual administrative fee that would have generated about \$750,000 per year in revenue. The RLT Committee decided to report to the full Board their recommendation to proceed with the section of the draft regulations regarding permit application fees, but to recommend the Department not implement the annual administration fees. At the April 22, 2010, meeting, the MRAB recommended that the Department proceed with a fee approach that includes only permit application fees in a form that would generate about \$400,000 per year in revenue. This proposed rulemaking was prepared following these MRAB recommendations.

E. Summary of Regulatory Requirements

§ 86.1. Definitions

Definitions are being added for the “major permit revision” and “permit application fee.” These definitions are needed to implement the fee schedule.

§ 86.3. Use of Coal Refuse Disposal Control Fund

Proposed amendments to this section add subsection (b), which necessitates the lettering of the existing paragraph as subsection (a). Subsection (b) is intended to provide clarity regarding the use of the money collected from permit application fees that are deposited in the Coal Refuse Disposal Control Fund. This reflects the MRAB’s recommendation that the money collected from the fees should be used specifically for the Department’s cost of reviewing permits.

§ 86.17. Permit and reclamation fees

Proposed amendments to this section include a detailed fee schedule for coal mining permit activity applications.

The requirement to pay by check is being deleted from subsection (a) to allow applicants the option of paying by other methods (for example, credit card).

Subsection (b) sets forth the detailed permit application fee schedule.

Proposed amendments to subsection (c) specify that the money collected from permit application fees will be used by the Department to pay the costs of reviewing permit applications. This reflects the MRAB's recommendation that the money collected from the fees should only be used for the Department's cost of reviewing permits.

Proposed amendments to subsection (d) establish a framework for periodically reviewing the fee schedule and providing a report to the Board regarding the Department's costs and the necessity for changes to the permit application fees.

F. Benefits, Costs and Compliance

The proposed rulemaking will enable the Commonwealth to generate a small percentage (less than 5%) of the State share of the funds required to operate the program.

Compliance Costs

The proposed rulemaking will impose a total additional compliance cost on the regulated community (approximately 500 mine operators) of about \$350,000 per year. Currently, permit application fees cost the operators about \$50,000 per year. The proposed fee schedule is estimated to cost operators about \$400,000 per year.

Compliance Assistance Plan

The Department will provide written notification to coal mine operators to inform them of the adoption of this proposed rulemaking.

Paperwork Requirements

The proposed rulemaking will require the Department to update its fact sheets explaining the law and regulations.

G. Pollution Prevention

The proposed rulemaking will not modify the pollution prevention approach by the regulated community and maintains the multimedia pollution prevention approach of existing requirements in 25 Pa. Code (relating to environmental protection).

H. Sunset Review

These regulations will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the regulations effectively fulfill the goals for which they were intended.

I. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 29, 2012, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House and Senate Environmental Resources and Energy Committees. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory

Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

J. Public Comments

Written comments—Interested persons are invited to submit comments, suggestions or objections regarding the proposed rulemaking to the Environmental Quality Board, P. O. Box 8477, Harrisburg, PA 17105-8477 (express mail: Rachel Carson State Office Building, 16th Floor, 400 Market Street, Harrisburg, PA 17101-2301). Comments submitted by facsimile will not be accepted. Comments, suggestions or objections must be received by the Board by April 9, 2012. Interested persons may also submit a summary of their comments to the Board. The summary may not exceed one page in length and must also be received by April 9, 2012. The one-page summary will be provided to each member of the Board in the agenda packet distributed prior to the meeting at which the final regulation will be considered.

Electronic comments—Comments may be submitted electronically to the Board at RegComments@pa.gov and must also be received by the Board by April 9, 2012. A subject heading of the proposed rulemaking and a return name and address must be included in each transmission. If an acknowledgement of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt.

GAME COMMISSION

[58 PA. CODE CH. 141]

Hunting and Trapping; Beaver Trapping

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its January 24, 2012, meeting to amend § 141.62 (relating to beaver trapping) to extend the 15-foot trap placement restriction near beaver dams and lodges Statewide and extend the body-gripping trap limit of 10 to wildlife management units (WMU) where beaver bag limits are 40 or more per season.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 24, 2012, meeting of the Commission. Comments can be sent, until April 20, 2012, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

In an effort to comply with its beaver management plan, the Commission is proposing two amendments to § 141.62. First, the 15-foot trap placement restriction near beaver dams and lodges should be enforced Statewide which will simplify regulations and help protect juvenile beavers in the colony. This can be accomplished by deleting references to WMUs 3B, 3C and 3D in § 141.62(b)(2). Secondly, the body-gripping trap limit of 10 should only apply to WMUs with high relative harvest/complaint density and with bag limit of 40 beavers per season. The purpose of this change is to lift the two body-gripping trap limit only in WMUs with high relative

beaver harvest and complaint densities. Because of the high efficiency of body-gripping traps, these devices should be limited to two in WMUs with medium to low beaver harvest and nuisance complaint densities. Limiting body-gripping traps also creates beaver trapping opportunities for the maximum number of trappers.

Section 2102(d) of the code (relating to regulations) authorizes the Commission to "promulgate regulations stipulating the size and type of traps, the type of firearms and ammunition and other devices which may be used, the manner in which and the location where the devices may be used, the species the devices may be used for and the season when the devices may be used." Section 2102(a) of the code provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to § 141.62 are proposed under this authority.

2. Regulatory Requirements

The proposed rulemaking will amend § 141.62 by extending the 15-foot trap placement restriction near beaver dams and lodges Statewide and extending the body-gripping trap limit of 10 to WMUs where beaver bag limits are 40 or more per season.

3. Persons Affected

Persons wishing to hunt or trap beavers within this Commonwealth will be affected by the proposed rulemaking.

4. Cost and Paperwork Requirements

The proposed rulemaking should not result in additional cost or paperwork.

5. Effective Date

The proposed rulemaking will be effective upon final-form publication in the Pennsylvania Bulletin and will remain in effect until changed by the Commission.

[58 PA. CODE CH. 141]
Hunting and Trapping; Hunting Hours

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its January 24, 2012, meeting to amend Chapter 141, Appendix G (relating to hunting hours) by updating the current hunting hours table and migratory bird hunting hours table to accurately reflect the dates and hours of legal hunting for the 2012-2013 hunting license year.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 24, 2012, meeting of the Commission. Comments can be sent, until April 20, 2012, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. *Purpose and Authority*

Each year there is a shift in calendar days for each month. As a result of this occurrence, the tables of hunting hours in Appendix G are amended and updated each year to reflect the current year's hunting dates and corresponding legal hunting hours. The Commission is proposing to amend Appendix G to update the tables of hunting hours for the 2012-2013 hunting year to reflect the annual change in days and subsequent hunting times.

Section 322(c)(1) of the code (relating to powers and duties of commission) specifically empowers the Commission to "fix seasons, daily shooting or taking hours, and any modification thereof, and daily, season and possession limits for any species of game or wildlife." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to Appendix G are proposed under this authority.

2. *Regulatory Requirements*

The proposed rulemaking will amend Appendix G to update the tables of hunting hours for the 2012-2013 hunting year to reflect the annual change in days and subsequent hunting times.

3. *Persons Affected*

Persons wishing to hunt or trap game or wildlife within this Commonwealth during the 2012-2013 hunting year will be affected by the proposed rulemaking.

4. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in additional cost or paperwork.

5. *Effective Date*

The effective dates of the proposed rulemaking are July 1, 2012, to June 30, 2013.

6. *Contact Person*

For further information regarding the proposed rulemaking, contact Richard R. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

[58 PA. CODE CH. 141]

Hunting and Trapping; Special Regulations Areas

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its January 24, 2012, meeting to amend § 141.1 (relating to special regulations areas) to permit hunters to legally harvest deer during any deer season through the use of bait on properties authorized under a valid deer control permit (red tag farms) in wildlife management units (WMU) 5C and 5D in the southeastern Pennsylvania special regulations areas.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 24, 2012, meeting of the Commission. Comments can be sent, until April 20, 2012, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. *Purpose and Authority*

On March 31, 2010, the Commission’s 3-year evaluation of the effectiveness of a broad scale and widely accessible authorization permitting the baiting of white-tailed deer across the southeast special regulations areas expired. The Commission’s final review of the baiting authorization generally concluded that broad scale and widely accessible baiting did not establish viable increases in harvest rates to justify an extension of the experimental program. Agricultural deer damage continues to be a challenge in the more developed areas of this Commonwealth. Special hunting regulations exist for these areas, but hunting and permitted control provisions at times create conflicting regulations. On February 1, 2011, the Commission amended §§ 147.552 and 147.556 (relating to application; and lawful devices and methods) to create a

focused, limited authorization permitting the baiting of white-tailed deer in WMUs 5C and 5D on approved properties enrolled in the Red Tag Program. See 41 Pa.B. 1767 (April 2, 2011). In furtherance of the Commission’s continuing efforts to find effective tools to manage the population on agriculture lands in this area of this Commonwealth, the Commission is proposing to amend § 141.1 to permit hunters to legally harvest deer during any deer season through the use of bait on properties authorized under a valid deer control permit (red tag farms) in WMUs 5C and 5D in the southeastern Pennsylvania special regulations areas.

Section 2102(a) of the code (relating to regulations) provides that “The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth.” The amendment to § 141.1 is proposed under this authority.

2. *Regulatory Requirements*

The proposed rulemaking will amend § 141.1 by permitting hunters to legally harvest deer during any deer season through the use of bait on properties authorized under a valid deer control permit (red tag farms) in WMUs 5C and 5D in the southeastern Pennsylvania special regulations areas.

3. *Persons Affected*

Persons wishing to hunt deer through the use of bait in the southeast special regulations areas will be affected by the proposed rulemaking.

4. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in additional cost or paperwork.

5. *Effective Date*

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

[58 PA. CODE CH. 141]

Hunting and Trapping; Wild Pheasant Recovery Areas

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its January 24, 2012, meeting to amend § 141.28 (relating to wild pheasant recovery areas) to eliminate the Pike Run wildlife pheasant recovery area (WPRAs) and include crows to the list of species that can be hunted within WPRAs from the first Sunday in February through July 31.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 24, 2012, meeting of the Commission. Comments can be sent, until April 20, 2012, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. *Purpose and Authority*

The Pike Run WPRAs study in southwestern Pennsylvania has concluded unsuccessfully. Habitat patch analysis shows that Pike Run meets only one of five habitat targets in the pheasant model. Pheasant densities are at one hen per square mile, far short of the ten hens per square mile objective. In light of the area's habitat characteristics and low pheasant densities, and in keeping with the pheasant management plan, it is proposed that this area be opened to either sex pheasant hunting and stocking of game farm pheasants be reinstated beginning with the 2012-13 season. To complement this proposed season change, the Commission is proposing to amend § 141.28 to eliminate the Pike Run WPRAs. The Commission is additionally proposing to amend § 141.28(b)(2) to include crows along with waterfowl and woodchucks to the list of species that can be hunted within WPRAs from the first Sunday in February through July 31. This addition will not have a detrimental effect on pheasant recovery.

Section 322(c)(4) of the code (relating to powers and duties of commission) specifically authorizes the Commission to "Define geographic limitations or restrictions." Section 2102(c) of the code (relating to regulations) directs that "The commission shall promulgate regulations concerning the transportation, introduction into the wild, importation, exportation, sale, offering for sale or purchase of game or wildlife or the disturbing of game or wildlife in their natural habitat." Section 2102(a) of the code provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or

wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to § 141.28 are proposed under this authority.

2. *Regulatory Requirements*

The proposed rulemaking will amend § 141.28 by eliminating the Pike Run WPRAs and including crows to the list of species that can be hunted within WPRAs from the first Sunday in February through July 31.

3. *Persons Affected*

Persons wishing to hunt wild pheasants, release propagated pheasants, train dogs or hunt small game within the area designated as the Pike Run WPRAs will be affected by the proposed rulemaking. Persons wishing to hunt crows within an area designated as a WPRAs from the first Sunday in February through July 31 will also be affected by the proposed rulemaking.

4. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in additional cost or paperwork.

5. *Effective Date*

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

[58 PA. CODE CH. 135]

Lands and Buildings; All-Terrain Vehicles

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its January 24, 2012, meeting to amend § 135.50 (relating to definitions) to delete references to 75 Pa.C.S. § 7702(3) (relating to definitions), which no longer exists, and replace them with a generic exclusory reference.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 24, 2012, meeting of the Commission. Comments can be sent, until April 20, 2012, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

Section 135.50 defines the term "ATV—All-terrain vehicle" for the purpose of restricting the type and design of off-road vehicles that may be operated on State Game Lands under applicable allowances. Section 135.50 contains a specific reference to 75 Pa.C.S. § 7702 to aid in defining this term. The act of June 25, 2001 (P. L. 701, No. 68) (Act 68) amended the meaning given to the terms "all-terrain vehicle" and "ATV" under 75 Pa.C.S. § 7702. The Act 68 amendments were not incorporated in § 135.50. The Commission is proposing to amend § 135.50 to eliminate references to 75 Pa.C.S. § 7702(3), which no longer exists, and replace them with a generic exclusory reference. This proposed rulemaking is nonsubstantive and is not intended to further expand or further limit the types of off-road vehicles that may be operated on State Game Lands under applicable allowances.

Section 721(a) of the code (relating to control of property) provides "The administration of all lands and waters owned, leased or otherwise controlled by the commission shall be under the sole control of the director, and the commission shall promulgate regulations . . . for its use and protection as necessary to properly manage these lands or waters." The amendments to § 135.50 are proposed under this authority.

2. Regulatory Requirements

The proposed rulemaking will amend § 135.50 by deleting references to 75 Pa.C.S. § 7702(3), which no longer exists, and replacing them with a generic exclusory reference.

3. Persons Affected

Persons wishing to exercise limited authorized operation of all-terrain vehicles on State Game Lands within this Commonwealth will be affected by the proposed rulemaking.

4. Cost and Paperwork Requirements

The proposed rulemaking should not result in additional cost or paperwork.

5. Effective Date

The proposed rulemaking will be effective upon final-form publication in the Pennsylvania Bulletin and will remain in effect until changed by the Commission.

6. Contact Person

[58 PA. CODE CH. 139]

Seasons and Bag Limits

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its January 24, 2012, meeting to amend § 139.4 (relating to seasons and bag limits for the license year) to provide updated seasons and bag limits for the 2012-2013 hunting license year.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 24, 2012, meeting of the Commission. Comments can be sent until April 20, 2012, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

The Commission is required to set hunting and furtaking seasons and bag limits on an annual basis. Although the 2012-2013 seasons and daily season and possession limits are similar to those set in 2011-2012, the 2012-2013 seasons and bag limits have been amended to reflect current available scientific data, population and harvest records, field surveys and professional staff observations,

as well as recommendations received from staff, organized sporting groups, members of the agricultural community and others interested in the wildlife resources of this Commonwealth.

Two changes are proposed for small game seasons. First, it is proposed to open wildlife management unit (WMU) 2B to the hunting of pheasant cocks and hens. The Pike Run Wild Pheasant Recovery Area study in southwestern Pennsylvania has concluded. Habitat patch analysis shows that Pike Run meets only one of five targets in the pheasant habitat model. Pheasant densities are at one hen per square mile, far short of the ten hens per square mile objective. In light of the area's habitat characteristics and low pheasant densities, and in keeping with the pheasant management plan, this area of this Commonwealth is to be opened to either sex pheasant hunting and stocking of game farm pheasants is to be reinstated beginning with the 2012-13 season. The second proposed change concerns reducing the porcupine daily bag to three and establishing a season limit of ten per hunter. This proposal is based on a growing concern for commercial exploitation of this species.

In WMUs 1A, 1B and 2A, the Commission proposed to remove the sporting arm limitations for the fall turkey season, which presently requires the use of shotguns, bows and arrows only.

An expansion of bear harvest opportunity is also proposed. The taking of black bear by properly licensed hunters during all deer seasons from September through mid-December in WMUs 1A, 2B, 5B, 5C and 5D will be allowed. The black bear population in this Commonwealth is larger and more widely distributed than ever and bear-human incidents are becoming commonplace, especially in more developed areas. Continued expansion of residential development into areas occupied by black bears has resulted in more frequent sightings and encounters between people and bears. In these five WMUs with relatively high human population densities there currently are low bear densities, the Commission wants to continue to have a minimum number of bears and the Commission wants hunters to have an opportunity to play an important role in bear population management in these areas.

Changes to beaver trapping regulations follow the recently implemented beaver management plan. Changes are proposed for WMUs 3A, 3D and 5D. Based on annual beaver harvest and nuisance complaint densities, WMUs fall into three categories of harvest and damage frequency characteristics. WMUs with high harvest rates (less than 50 beavers per 100 square miles) and high nuisance complaint rates (less than 1.5 complaints per 100 square miles) should have a combined bag limit of 40 beavers per season. WMUs with low harvest rates (less than ten beavers per 100 square miles) and low nuisance complaint rates (less than 0.60 complaint per 100 square miles) should have a combined bag limit of five beavers per season. WMUs that fall between the low and high harvest/complaint categories should have a combined bag limit of 20 beavers per season. WMUs 3A and 3D fall between the low and high harvest/complaint categories therefore it is proposed to reduce the season bag limit to

20 beavers in these WMUs. However, the nuisance complaint density in WMU 5D is currently the fourth highest in this Commonwealth. To help alleviate beaver damage complaints in WMU 5D, it is proposed to increase the beaver bag limit to 20. These bag limit changes will be monitored as to how they influence population numbers and nuisance complaint levels.

The addition of WMU 4C in the 2012-2013 bobcat hunting and trapping seasons has been proposed. This proposal is based on expanding population numbers and a trend of increased incidental captures of bobcats in WMU 4C. The addition of two WMUs, 2G and 4D, for fisher harvesting has been proposed. This is based on expanding fisher populations and increased numbers of incidental captures in these WMUs. As the next license year is fast approaching, the Commission is proposing to amend § 139.4 to provide updated seasons and bag limits for the 2012-2013 license year.

Section 322(c)(1) of the code (relating to powers and duties of commission) specifically empowers the commission to "fix seasons, daily shooting or taking hours, and any modification thereof, and daily, season and possession limits for any species of game or wildlife." Section 2102(b)(1) of the code (relating to regulations) authorizes the Commission to "promulgate regulations relating to seasons and bag limits for hunting or furtaking . . ." The amendments to § 139.4 are proposed under this authority.

2. Regulatory Requirements

The proposed rulemaking will amend § 139.4 by establishing when and where it is lawful to hunt and trap various game species and also place limits on the numbers that can be legally taken during the 2012-2013 license year.

3. Persons Affected

Persons wishing to hunt or trap game or wildlife in this Commonwealth during the 2012-2013 license year may be affected by the proposed rulemaking.

4. Cost and Paperwork Requirements

The proposed rulemaking should not result in additional cost or paperwork.

5. Effective Date

The effective dates of the proposed rulemaking are July 1, 2012, to June 30, 2013.

[58 PA. CODE CH. 147]**Special Permits; Mentored Youth Hunting Program Permit**

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its January 24, 2012, meeting to amend § 147.804 (relating to general) to allow a mentor to transfer a valid fall turkey license issued to him to an eligible mentored youth upon the harvest of a fall turkey.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the January 24, 2012, meeting of the Commission. Comments can be sent, until April 20, 2012, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

The National Wild Turkey Federation and others have continued to express an interest in having the Commission expand mentored youth turkey hunting opportunities to include fall turkeys. Commission staff has expressed conditional support as long as fall turkey harvest would not increase. With the advent of mentored youth license exemption language in the code, the Board has the ability to amend its regulations to allow for the transfer of a

mentor fall turkey tag by amending § 147.804(c) and adding § 147.804(h). This proposed rulemaking will not significantly increase the fall harvest or negatively impact the ongoing fall hen harvest rate and survival study and is consistent with the goal of providing additional mentored youth hunting opportunity as identified in the Wild Turkey Management Plan for this Commonwealth. The Commission is proposing to amend § 147.804 to allow a mentor to transfer a valid fall turkey license issued to him to an eligible mentored youth upon the harvest of a fall turkey.

Section 2711(a.1) of the code (relating to unlawful acts concerning licenses) states that “For the sole purpose of implementing and enhancing a mentored youth hunting program within this Commonwealth, the commission may establish regulations exempting certain limited youth hunting activities from the prohibitions specified in subsection (a)(1), (3), (5) and (8).” Section 2102(a) of the code (relating to regulations) provides that “The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth.” The amendments to § 147.804 are proposed under this authority.

2. *Regulatory Requirements*

The proposed rulemaking will amend § 147.804 by allowing a mentor to transfer a valid fall turkey license issued to him to an eligible mentored youth upon the harvest of a fall turkey.

3. *Persons Affected*

Persons wishing to hunt wild turkey within this Commonwealth under the mentored youth hunting program will be affected by the proposed rulemaking.

4. *Cost and Paperwork Requirements*

The proposed rulemaking may result in some additional cost and paperwork associated with the affects transferring tags will have on the Pennsylvania Automated License System. However, the Commission has determined that if there is an additional expense associated

with this effort, it will not be substantial and will be absorbed by the current budget.

5. *Effective Date*

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. *Contact Person*

DEPARTMENT OF AGRICULTURE

Dog Law Grant Program; Fiscal Year 2012-2013

The Department of Agriculture (Department) gives notice that the Grant Program (Program) that will run this year will run from July 1, 2012, through June 30, 2013, and will award up to \$250,000 in grants. The Program will award bill reimbursement grants to humane societies or associations for the prevention of cruelty to animals that meet the guidelines and conditions of this Program. Recipients of funds under this Program may not make any claim or request for fees under 7 Pa. Code § 25.1 (relating to general) for holding and disposing. The Program will be funded from the Dog Law Restricted Account, from funds which are hereby declared to be "surplus" funds for the limited purposes set forth in section 1002(b) of the Dog Law (3 P. S. § 459-1002(b)).

The Department hereby gives notice that although it proposes the Program for Fiscal Year 2012-2013, there will not likely be a similar program after June 30, 2013. Humane societies or associations for the prevention of cruelty to animals are hereby provided notice of this fact and—for budgeting and financial planning purposes—should proceed with the knowledge that the Department will not likely be offering a similar version of the Program after June 30, 2013, or, at best, will be offering a significantly scaled-back version of the Program.

A proposed version of these guidelines and conditions was published at 42 Pa.B. 565 (January 28, 2012). The Department invited public and legislative review of these proposed guidelines and conditions in accordance with 7 Pa. Code § 23.4 (relating to guidelines and conditions). The Department received comments from the Bucks County Society for the Prevention of Cruelty to Animals (SPCA) and the Federated Humane Societies of Pennsylvania jointly suggesting additions to subsection 2(c) regarding eligibility. Specifically, the Bucks County SPCA and the Federated Humane Societies of Pennsylvania jointly suggested adding to the eligibility requirements that a humane society or association for the prevention of cruelty to animals is eligible to apply to receive a grant under the Program if that humane society or association for the prevention of cruelty to animals: Has, in the performance of its dog control functions, accepted at least 100 stray or unwanted dogs from this Commonwealth into its facility within the year immediately preceding the application date. The Department has reviewed and adopted this addition. The Department has received additional inquiries from another commentator which does not go to the substance of the guidelines and conditions and which will be answered directly by the Department.

The guidelines and conditions for the Program are set as follows.

Guidelines and Conditions for the Fiscal Year 2012-2013 Dog Law Grant Program

1. *Definitions.*

The following words and terms, when used in these guidelines and conditions, have the following meanings:

Department—The Department of Agriculture.

Dog control—The apprehending, holding and disposing of stray or unwanted dogs, or as otherwise defined in the Dog Law (3 P. S. § 459-102).

Eligible Bill—A document seeking payment for materials, services (other than veterinary services and spaying/neutering services) or utilities from a grant recipient, setting forth the following:

- i. The date the document is issued.
- ii. The name and address of the humane society or association for the prevention of cruelty to animals to which the bill is issued.
- iii. If for materials, a description of the materials and the date of delivery. Invoices and/or receipts for materials must set forth or be accompanied by a written description of the intended use of the material and the date the material is used. Materials may not include computers, computer equipment or software. Examples of eligible materials include the following:
 - Cleaning supplies.
 - Office supplies—typical supplies used to carry on daily office duties.
 - Materials for building and repair projects.
 - Purchases of medication, needles, and the like.
- iv. If for services, the services must be other than veterinary services or spaying/neutering services, and shall include a description of the nature of the services and the dates upon which the services were rendered. Examples of services include the following:
 - Labor charges with respect to which the invoice details the exact service performed and the date of performance.
 - Cremation services with respect to which the invoice either verifies that only dogs were cremated or—in the event that animals other than dogs were cremated—separates the dogs from those other animals and identifies a charge attributable to only the cremation of the dogs.
 - Exterminator services with respect to which the invoice identifies the date of the service and identifies location of the service.
 - Property, casualty and liability insurance services (excluding workers compensation insurance).
- v. If for utilities (such as electricity, water, sewer, waste disposal and similar purposes), a statement of the period for which the utility, for which payment is sought, was provided.
- vi. The name, address and telephone number of the entity issuing the invoice or receipt.

Humane society or association for the prevention of cruelty to animals (SPCA)—A nonprofit society or association duly incorporated under 15 Pa.C.S. Chapter 53, Subchapter A (relating to incorporation generally) for the purpose of prevention of cruelty to animals, or as otherwise defined in the Dog Law (3 P. S. § 459-102).

Program—The July 1, 2012 through June 30, 2013 Dog Law Grant Program.

2. Eligibility.

A humane society or association for the prevention of cruelty to animals is eligible to apply to receive a grant under the Program if that humane society or association for the prevention of cruelty to animals:

- a. Has been in operation for at least 1 year immediately preceding the application date.
- b. Has performed dog control functions for at least 1 year immediately preceding the application date.
- c. Has, in the performance of its dog control functions, accepted at least 100 stray or unwanted dogs from this Commonwealth into its facility within the year immediately preceding the application date.
- d. Agrees—as a condition of receiving any grant money under the Program—to continue to perform dog control activities and to accept stray or unwanted dogs from the Department's State Dog Wardens performing dog control functions, through June 30, 2013.
- e. Agrees—as a condition of receiving any grant money under the Program—to accept stray or unwanted dogs as described in the preceding paragraph without regard to whether the stray or unwanted dog originates from a county other than the county in which the humane society or association for the prevention of cruelty to animals is located.
- f. Maintains a valid Pennsylvania 2012 and 2013 "Non Profit" kennel license, and operates only a nonprofit kennel at the facility for which grant reimbursement is requested. Facilities which house kennel operations other than a nonprofit facility (that is, boarding kennel and/or commercial kennel) at the same location are not eligible to participate in this program.

3. Use of Grant Funds.

The Department will allocate a specific maximum grant amount to a successful grant applicant through a written grant agreement. This maximum grant amount will be specified in the grant agreement.

The maximum grant amount will be retained by the Department and used to reimburse the grant recipient for eligible bills the grant recipient has paid with respect to materials, services or utilities provided to the grant recipient from July 1, 2012, through June 30, 2013. The total reimbursement the Department will pay a grant recipient will not exceed the maximum grant amount. Any money remaining in a grant allocation beyond the termination date of the grant agreement will lapse into the Dog Law Restricted Account. If a bill covers materials, services or utilities provided, in whole or in part, before July 1, 2012, or after June 30, 2013, that bill is not an eligible bill and will not be reimbursed by the Department under the Program.

4. Application Process.

a. *Application required.* A humane society or association for the prevention of cruelty to animals seeking a grant under the Program must complete a written application form and deliver it to the Department no later than 30 days from the date this notice is published in the *Pennsylvania Bulletin*. Applications received by the Department beyond that date will not be considered.

b. *Obtaining an application form.* The Department will provide grant application forms upon request, or the application may be downloaded from the Department's web site: www.agriculture.state.pa.us.

Requests for application forms should be directed to Lynn Diehl, Director, Dog Law Enforcement Office, Department of Agriculture, 2301 North Cameron Street, Harrisburg, PA 17110-9408, (717) 787-4833, fax (717) 772-4352.

c. *Contents of grant application form.* A grant application form shall require the following information:

- i. The name and address of the applicant.
- ii. Information to verify that the applicant is a humane society or association for the prevention of cruelty to animals and otherwise meets the eligibility requirements set forth in paragraph 2.
- iii. The maximum grant amount sought by the applicant.
- iv. A description of the eligible bills for which the grant applicant intends to seek reimbursement, including a description (and copies, if available) of bills received by the applicant in 2011 for the same type of materials, services (other than veterinary services and spaying/neutering services) or utilities for which reimbursement will be sought under the grant agreement.
- v. Verification that, in the event a grant is awarded, the applicant will continue to perform dog control activities, and to accept stray or unwanted dogs from the Department's State Dog Wardens performing dog control functions, through the Fiscal Year 2012-2013.
- vi. Other information as the Department might reasonably require.

5. Review and approval of grant application.

a. *Review and notification.* The Department will review each timely grant application and provide the applicant written notification of whether the Department awards the grant, denies the grant or awards a grant in some amount less than the applicant sought.

b. *Review criteria.* The Department will consider the following, among other factors, in determining whether to award a grant application:

- i. The number of applications received and the availability of funds for the grants sought.
- ii. The relative contribution of the applicant to dog control activities in the area it serves.
- iii. The relative contribution of the applicant to dog control as compared to the relative contribution of other applicants.
- iv. The relative importance of the grant to the continued operation of the applicant's dog control facility.
- v. The expense or logistical difficulty the Department would encounter if the applicant's dog control facility was no longer in operation.
- vi. The relative contribution of the applicant in terms of the number of stray or unwanted dogs it accepts from the Department's State Dog Wardens performing dog control functions.

6. Grant agreement.

a. *Grant agreement required.* A successful grant applicant must execute a grant agreement with the Department, setting forth the terms and conditions under which

the grant money will be used by the Department to reimburse the grant recipient for payment of eligible bills.

b. *Reimbursement requests.* The grant agreement will set forth the exact procedure by which a grant recipient shall seek reimbursement from the Department for payment of eligible bills. The basic reimbursement request procedure will be as follows:

By January 15, 2013, the grant recipient will: (1) deliver copies of the eligible bills it has paid between July 1, 2012, and December 31, 2012; (2) verify that these bills have been paid and are eligible for reimbursement; and (3) provide a detailed report of the dog control activities performed by the successful applicant during the referenced 6-month period.

By July 15, 2013, the grant recipient will: (1) deliver copies of the eligible bills it has paid between January 1, 2013, and June 30, 2013; (2) verify that these bills have

been paid and are eligible for reimbursement; and (3) provide a detailed report of the dog control activities performed by the successful applicant during the referenced 6-month period.

c. *Payment by the Department.* The Department will reimburse a grant recipient for eligible bills within 60 days of receiving a complete and timely reimbursement request.

d. *Termination.* The Department may terminate a grant agreement at any time by providing the grant recipient written notice of termination at the address set forth on the grant application.

The Department will also accept requests for public hearings on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Total Maximum Daily Loads of Nutrients and Dissolved Oxygen under Low-Flow Conditions in the Christina River Basin

Pennsylvania, Delaware and Maryland

The Environmental Protection Agency Region III (EPA) established these Total Maximum Daily Loads (TMDLs) for nutrients and other oxygen demanding pollutants in order to attain and maintain the applicable water Quality Standards (WQS) for Dissolve Oxygen (DO) in the Christina River Basin under Low-Flow conditions. The TMDLs were last amended on August 23, 2006. The previous TMDL, and the amendments were developed on assumed total nitrogen levels in the in the point sources. Since then actual total Nitrogen levels are available. Based on available data the Waste Load Allocations (WLAs) for Total Nitrogen are revised, however, the total WLAs for pollutant "Total Nitrogen" for Christina River Basin in unchanged.

The revised Total Nitrogen WLAs are listed in the table below:

* This permit contains conditions which authorize the permittee to apply nutrient reduction credits to meet the Net Total Nitrogen and the Net Total Phosphorus effluent mass limits, under the Department's Trading of Nutrients and Sediment Reduction Credits Policy and Guidelines (Document #392-0900-001, December 30, 2006). The condition includes the requirement to report the application of these credits in Supplemental Discharge Monitoring Reports (DMRs) submitted to the Department.

* The compliance date for Net Total Nitrogen and Net Total Phosphorus will begin on the Permit Effective Date. Since these reporting requirements are annual loads, the reporting on compliance with the annual limitations will be required to be reported on the Supplemental DMR—Annual Nutrient Summary by November 28, 2012.

In addition, the permit contains the following major special conditions:

- In the event that the final treated reclaimed water does not meet the effluent limitations required by this permit (i.e., off-specification water), the off-specification water may be recycled back to the Spring Creek Pollution Control Facility (SCPCF) prior to the effluent sampling and flow monitoring point and not be considered a discharge to the High Purity Water Wetland and/or Slab Cabin Run. When off-specification water is recycled back to the SCPCF and not discharged to the High Purity Water Wetland and/or Slab Cabin Run, the total volume of water, date and time of the recycling shall be recorded and included with the standard monthly reporting submissions required by this permit.

- The permittee shall not use reclaimed water for any Class A+ uses as identified in the Reuse of Treated Wastewater Guidance Manual (362-0300-009, DRAFT January 10, 2009). The use of reclaimed water for Class A+ uses must first be approved by a permit amendment to include Class A+ parameters, treatment standards and monitoring frequencies.

- This permit approves offsets for TN and TP for use in permits PA0234028 and PA0026239. One permitted facility may provide an offset to the other permitted facility based on treatment performance. The monthly offset shall be reported as pounds offset for that month on the DMR Supplemental form for Nitrogen and Phosphorous. For the permitted facility giving an offset to the other permitted facility, the offset will be reported as a negative value. For the permitted facility receiving the offset, the offset will be reported as a positive value. The offsets described in this paragraph are not to be considered permanent and may vary month to month. These offsets shall not be used to adjust the nutrient cap loads in future permits.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or

suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for

the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401–7671q) and regulations adopted under the Federal Clean Air Act.

04-00084: Monomoy Capital Partners LP—Anchor Acquisition (400 Ninth Street, Monaca, PA 15061) for an increase in the rolling 30-day glass furnace production rate from 240 tons per day (tpd) to 285 tpd by re-commissioning the gas-oxy system including the replacement of two gas-oxy burners, each rated at 4 MMBtu/hr, at the Anchor Hocking Monaca, Plant Monaca Borough, **Beaver County**.

In accordance with 25 Pa. Code §§ 127.44–127.46, the Department of Environmental Protection intends to issue Air Quality Plan Approval PA-04-00084B to allow an increase in the rolling 30-day glass furnace production rate from 240 tons per day (tpd) to 285 tpd by re-commissioning the gas-oxy system including the replacement of two gas-oxy burners, each rated at 4 MMBtu/hr, at the Anchor Hocking Monaca Plant located in Monaca Borough, Beaver County. The applicant is also proposing to install a multi-pollutant ceramic activated dust filtration (CADF) control system to achieve reductions in emissions from the glass melting furnace of: filterable PM through ceramic filtration; nitrogen oxides (NO_x) through selective catalytic reduction; and sulfur dioxide (SO₂) through injection of a dry sorbent.

The facility currently has a potential to emit (PTE) NO_x greater than the major source threshold. As part of this project the applicant has proposed to accept a facility-wide federally enforceable emission restriction of 99.0 tpy for NO_x. The facility does not have a PTE greater than the major source threshold for any other pollutant and after the proposed NO_x emission restriction the facility will no longer be subject to Title V requirements. The PTE for sources covered by this Plan Approval is estimated by the applicant to be 89.3 tons of NO_x, 25.5 tons

of SO₂, 27.2 of particulate matter less than 10 microns (PM₁₀), 27.0 tons of particulate matter less than 2.5 microns (PM_{2.5}), 20.4 tons of carbon monoxide (CO), 10.5 tons of volatile organic compounds (VOC), and 70,967 tons of carbon dioxide equivalents (CO₂e) per year. The authorization is subject to State regulations including 25 Pa. Code §§ 123.13 and 123.41, as well as, 25 Pa. Code §§ 129.301—129.310 requirements for control of NO_x emissions from glass melting furnaces. Compliance with the federally enforceable NO_x emission limitations from the glass melting furnace will be determined by the installation and operation of a continuous emission monitor as required by 25 Pa. Code § 129.308. The reporting of greenhouse gas emissions in the form of CO₂e and on a mass basis has also been required in this Plan Approval. This Plan Approval has been conditioned to ensure compliance with all applicable rules which includes stack testing, work practice, monitoring, recordkeeping, and reporting conditions. Once compliance with the Plan Approval is demonstrated, the applicant will subsequently apply for a State Only Operating Permit in accordance with 25 Pa. Code Subchapter F.

Interested persons may submit written comments, suggestions, or objections concerning the proposed Plan Approval to Alex Sandy, Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222. Written comments submitted to the Department shall include the following:

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in

surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*			
pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public

notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report,

risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show

existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Interstate Pollution Transport Reduction; Proposed 2012 Ozone Season NO_x Emission Limits for Nonelectric Generating Units

The Department of Environmental Protection (Department) is providing notice and an opportunity for comment concerning the proposed Nonelectric Generating Unit (non-EGU) 2012 Ozone Season Nitrogen Oxide (NO_x) emission limitations established in accordance with 25 Pa. Code § 145.8(d) (relating to transition to CAIR NO_x trading programs). The 15-day public comment period will end on March 25, 2012.

In April 2008, the Commonwealth's Clean Air Interstate Rule (CAIR) adopted by the Environmental Quality Board included NO_x Budget Trading Program amend-

ments to allow the owners and operators of non-EGUs in this Commonwealth to transition to the CAIR NO_x Trading Program. (See 38 Pa.B. 1705 (April 12, 2008).) Specifically, 25 Pa. Code § 145.8(d) establishes a non-EGU NO_x Budget Trading Program budget of 3,619 tons of NO_x, less a specified adjustment amount, to serve as a Statewide Ozone Season NO_x emissions cap for new and existing non-EGUs. This NO_x emissions cap also applies to CAIR-exempt EGUs that were subject to the NO_x Budget Trading Program. If total emissions from all of the units exceed the Statewide NO_x emissions cap of 3,438 tons, the owners and operators of non-EGUs must comply with the NO_x emission limitations established under 25 Pa. Code § 145.8(d). The owners and operators of units exceeding their individual NO_x limits would need to purchase and then surrender one CAIR NO_x Ozone Season allowance and one CAIR NO_x allowance for each ton of excess emissions. The proposed NO_x emissions limitations for individual units ensure that non-EGUs in this Commonwealth continue to meet the emission limits of the NO_x Budget Trading Program, as required under the United States Environmental Protection Agency's (EPA) CAIR.

The Statewide cap for 2011 was not exceeded. Therefore, non-EGUs do not need to purchase allowances to meet their 2011 Ozone Season NO_x emission limitations established under 25 Pa. Code § 145.8(d). The preliminary NO_x emissions for the 2011 Ozone Season (May through September) reported to the EPA by the owners and operators of the affected non-EGUs are 1,550.78 tons. The Department's permanent retirement of 3,438 allowances under 25 Pa. Code § 145.8(b) covers all the NO_x emissions from the affected non-EGUs in 2011.

The NO_x emissions cap provides 181 tons of NO_x emissions for non-EGUs and the other units that need to address their emissions through accounting adjustments, including units that previously participated in the NO_x Budget Trading Program; emissions from these units were below the 25-ton exemption threshold. Adjustments were also made for the permanent retirement of NO_x allowances due to generation of emission reduction credits. The Department will also use a portion of the 181 tons of the budgeted NO_x emissions, if necessary, to address mistakes or miscalculations. This year, the Department is proposing to use 121 tons of the 181 tons of NO_x for account adjustments, leaving 60 tons available for any additional adjustments at the end of the control period.

The Department made accounting adjustments for the following facilities:

Retired Units: Naval Surface Warfare Division Unit 98; Shenango Units Nos. 6 and 9 (the generation of emission offsets for small non-NO_x Budget Trading Program units resulted in a permanent NO_x accounting adjustment of 45 tons).

Exempt Units: Each of the following units has a 25-ton NO_x permit limit: Armagh Compressor Station (Unit 31301); Entriken Compressor Station (Unit 31601); and the Naval Surface Warfare Division (Unit 100). The Naval Surface Warfare Division (Unit 99) has a 1-ton NO_x permit limit. All of these 25-ton exempt status units account for a total adjustment of 76 tons of NO_x emissions.

Units subject to the requirements in 25 Pa. Code § 145.8 are required to meet the monitoring and reporting requirements of the EPA's CAIR, found in 40 CFR Part 96, Subpart HHHH (relating to monitoring and

reporting) and maintain general accounts and account representatives under 40 CFR Part 96, Subparts BBBB and FFFF (relating to CAIR designated representative for CAIR NO_x ozone season sources; and CAIR NO_x ozone season allowance tracking system). The Proposed Non-EGU 2012 Ozone Season NO_x Emission Limits table below lists the following: the facility name, ORIS Code, the unit ID for each non-EGU unit, the operating year, the heat input for the 2011 Ozone Season, the calculated 2012 rate and the 2012 Ozone Season limit.

Written Comments

Written comments on the proposed non-EGU 2012 Ozone Season NO_x Emission Limits should be sent to the attention of Randy Bordner, Environmental Group Manager, Air Resource Management Division, Bureau of Air

Quality, DEP, P. O. Box 8468, Harrisburg, PA 17105-8468 or ranbordner@pa.gov no later than March 25, 2012. Any written comments (including e-mails) should include the name, affiliation (if any), mailing address and telephone number of the interested person and contain "proposed non-EGU 2012 Ozone Season NO_x emission limits" in the subject line.

Questions concerning this notice should be directed to Randy Bordner at (717) 772-3921. TDD users may contact the Pennsylvania AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

Nutrient Credit Trading Program; Actions

The Department of Environmental Protection (Department) provides notice of the following action under the Nutrient Credit Trading Program (Trading Program). This action was taken under 25 Pa. Code § 96.8 (relating to use of offsets and tradable credits from pollution reduction activities in the Chesapeake Bay Watershed), published at 40 Pa.B. 5790 (October 9, 2010).

Nutrient trading is a market-based program that provides incentives for entities to create nutrient reduction credits (credits) by going beyond statutory, regulatory or voluntary obligations and goals to remove nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System permittees to meet their effluent limits for nutrients.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board. Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

For further information about this action or the Trading Program, contact Karen Price, Interstate Waters Office, Department of Environmental Protection, P. O. Box 8465, Harrisburg, PA 17105-8465, (717) 772-4785, kprice@pa.gov or visit the Department's web site at www.dep.state.pa.us (DEP Keywords: "Nutrient Trading").

The following certification request has been approved by the Department. The approval of this request is considered a final action of the Department.

TeamAg Incorporated on behalf of Oregon Dairy and in coordination with Lancaster Farmland Trust. This approval is applicable to nitrogen reduction credits to be generated from the pollutant reduction activity of continuous no-till and cover crops. This approval includes a verification plan and authorizes the generation of 922 nitrogen reduction credits. This certification of annual credits is valid until September 30, 2016, as long as the pollution reduction activity is implemented, maintained and verified under the terms and conditions contained in the certification. After September 30, 2016, credits for the pollution reduction activity may only be generated if recertification, which will be based on the program requirements in place on the date of the recertification submission, is obtained. Notice of the certification request was published for comment at 41 Pa.B. 6932 (December 24, 2011).

Recycling Program Development and Implementation Grants under Section 902 of Act 101 The Municipal Waste Planning, Recycling and Waste Reduction Act of 1988

The Department of Environmental Protection (Department) announces the availability of applications to municipalities for recycling program grant assistance under section 902 of the Municipal Waste Planning, Recycling and Waste Reduction Act (act) (53 P. S. § 4000.902). Municipalities eligible for recycling grants include counties, cities, boroughs, incorporated towns, townships, home rule municipalities, councils of governments, consortiums or similar entities established by two or more municipalities under 53 Pa.C.S. Chapter 23, Subchapter A (relating to intergovernmental cooperation).

Applicants must be in compliance with the act and the implementing regulations, the Department's Guidelines for Proper Management of Recyclable Materials and any previous grant contract provisions to be eligible to receive grant funding. County applicants should be in compliance with planning and other county-related provisions of the act. Applicants who are not in compliance with the act's annual reporting requirements or the program requirements in the act of November 9, 2006 (P. L. 1347, No. 140) will not be considered in this grant application round. Municipalities that were a grant recipient from

the last 902 grant award round in 2010 will not be considered for funding this solicitation period. Programs operating in municipalities covered by land use plans and ordinances (as outlined under the acts of June 22, 2000 (P. L. 483, No. 67) and (P. L. 495, No. 68)) or projects that are in compliance with their municipality's land use plan will receive priority over similar programs and projects absent those conditions.

Municipalities are eligible for 90% funding of approved recycling program costs. Municipalities considered financially distressed by the Department of Community and Economic Development under the Financially Distressed Communities Act are eligible for 100% of approved costs. No application requesting more than \$250,000 in grant funding will be accepted.

Applicants are required to complete the Sustainability Plan portion of the application that includes definitive actions and strategies for optimizing program self-sufficiency. The plan shall include, at a minimum: strategies for reducing costs and generating revenues, provisions for establishing incentives associated with waste reduction and recycling, mechanisms for public outreach and stakeholder input and tracking mechanisms to document progress toward sustainability milestones until optimum sustainability is realized. The Department's technical report on *Building Financially Sustainable Recycling Programs* can provide assistance in developing these methods and strategies. The technical report can be found on the Department's web site at www.dep.state.pa.us/dep/deputate/airwaste/wm/recycle/document/fin_sust_rec.pdf. Applicants that fail to complete the Sustainability Plan portion of the application will not be considered for funding.

Applicants requesting support for the following (and demonstrating how the request will lead toward greater program self-sufficiency) will receive priority for funding:

- Newly mandated municipalities based on the 2010 decennial census by the Bureau of the Census of the United States Department of Commerce.
- An incentive based pricing and collection program designed to increase the quantities and types of recyclable materials and reduce the quantity of waste collected.
- Multi-municipal collection, processing and/or materials marketing program where capital costs are reduced and/or recycling marketability is enhanced due to inter-governmental cooperation.
- The development of electronic notices for recycling events and programs.
- New or expanded collection, education and outreach for commercial and institutional establishments, including school recycling programs.

In addition, communities whose existing recycling programs contain the following components will receive additional consideration:

- Municipally operated or municipal contracted waste and recycling services that provide consistency and uniformity of the waste and recycling programs.
- The collection of six or more of the following materials: newsprint, office paper, corrugated paper, other marketable grades of paper, aluminum cans, steel or bimetallic cans, colored glass containers, clear glass containers and plastics.

Only those projects involving municipalities that have a mandatory trash collection program or projects seeking support for a residential recycling program that have a

corresponding commercial recycling program will be considered for funding. Applicants seeking funds to replace curbside collection containers and/or collection vehicles will need to demonstrate that the new equipment will increase collection efficiencies and tonnage of materials.

Eligible recycling program development costs include: recycling program design costs, recycling market investigations, development of recycling market commitments, development of recycling program ordinances, development of recycling public education programs and the costs of developing contracts for procuring equipment or services necessary for the operation of the recycling program.

Eligible recycling program implementation costs include: purchasing or leasing vehicles used to collect recyclables (including automated and single-stream collection vehicles), transport recyclables to processing facilities or markets and vehicles used in the operation of a materials recovery facility; reusable containers for the collection or storage of recyclable materials; acquiring and/or renovating buildings for the processing or storage of recovered materials; equipment used to process or manufacture recyclable materials into usable products; improvements to land needed to operate a recycling facility or yard waste composting facility authorized under 25 Pa. Code § 271.103(h) (relating to permit-by-rule for municipal waste processing facilities other than for infectious or chemotherapeutic waste; qualifying facilities; general requirements); and the costs associated with educating the public on recycling program requirements. Under this grant solicitation, promotional items, glass crushing equipment (unless specific marketing arrangements have been identified), vehicles equipped with compaction units (except for the sole collection of yard waste, paper fiber and/or single-stream collection where a facility equipped to process such material has been identified), backyard composting units and public recycling containers for parks and streetscapes will not be considered eligible for funding. Other eligible and noneligible costs are listed in the grant application packet. Composting projects and programs will be considered to be recycling projects or programs accordingly.

A municipality must retain sole ownership of equipment or facilities funded by the grant. Funding for equipment or facilities purchased for the recycling program used for recycling and other purposes will be prorated according to its recycling use (no equipment used for recycling less than 50% of the time will be eligible for funding). Funding for certain leaf and yard waste collection equipment may be limited according to its seasonal use. Funding for wood chipping equipment will be approved only when the equipment is part of an approved yard waste composting facility operating under the Department's guidelines and where the material is collected curbside from residents. Funding of street sweepers for the purpose of leaf collection will not be considered.

Funding may be restricted in situations where equipment or services requested through a grant application may be available from the public or private sector within the county of the applicant. Public notices may be required before the grant application may be submitted depending upon the nature of the funding request. When the municipality submits the recycling grant application to the Department, it must include proof of compliance with the notification requirements, a description of any responses received to the notice, and an explanation of why the municipality has concluded that the mechanical processing equipment is not available to the program from the private sector.

Potential applicants must contact the appropriate Department regional planning and recycling coordinator to schedule a preapplication conference to discuss application requirements and program particulars. Applications will be returned to municipalities that fail to schedule preapplication conferences. Grant application forms are available from the Department's regional offices and the Department's web site, www.depweb.state.pa.us (DEP Keyword "Recycling Grants").

Grant applications must be received or postmarked by June 29, 2012. Applications received by the Department after that date will not be considered during the current round of solicitation. Applications must be on forms provided by the Department, with two copies submitted to the Department Central Office (Rachel Carson State Office Building, Harrisburg) and one copy submitted to the appropriate county recycling coordinator. Grant awards will be predicated on the receipt of recycling fees required by sections 701 and 702 of the act (53 P.S. §§ 4000.701 and 4000.702) and the availability of moneys in the Recycling Fund.

Inquiries concerning this notice should be directed to Mark Vottero, Recycling Grants Coordinator, Department of Environmental Protection, Rachel Carson State Office Building, Bureau of Waste Management, Division of Waste Minimization and Planning, P. O. Box 8472, Harrisburg, PA 17105-8472, mvottero@state.pa.us.

Patient Safety Trust Fund Surcharge for Fiscal Year 2011-2012 as Provided for Under the Medical Care Availability and Reduction of Error (MCARE) Act

On March 20, 2002, the Medical Care Availability and Reduction of Error (MCARE) Act (MCARE Act) (40 P. S. §§ 1303.101—1303.910) was enacted. Among other provisions, the MCARE Act established the Patient Safety Authority (Authority) to collect, analyze and evaluate data regarding reports of serious events and incidents occurring in certain medical facilities and to make recommendations to those facilities regarding changes, trends and improvements in health care practices and procedures for the purpose of reducing the number and severity of serious events and incidents.

Section 305(a) of the MCARE Act (40 P. S. § 1303.305(a)) authorizes the establishment of a Patient Safety Trust Fund (Fund) for the operations of the Authority. Section 305(c) of the MCARE Act states that beginning July 1, 2002, and for every fiscal year thereafter, each medical facility covered by the MCARE Act shall pay the Department of Health (Department) a surcharge on its licensing fee as necessary to provide sufficient revenues for the Authority to operate. Section 305(c) of the MCARE Act also states that the total assessment amount for Fiscal Year (FY) 2002-2003 shall not exceed \$5 million and that the Department shall transfer the total assessment amount to the Fund within 30 days of receipt. Section 305(d) of the MCARE Act provides that for each succeeding calendar year, the Department shall determine and assess each medical facility a proportionate share of the Authority's budget. The base amount of \$5 million provided for in FY 2002-2003 shall be increased no more than the Consumer Price Index in each succeeding fiscal year.

Initially, the surcharge was assessed on ambulatory surgical facilities, birth centers and hospitals. Subsequently, the MCARE Act was amended and certain abortion facilities were also required to pay the surcharge.

With the cooperation of hospitals in this Commonwealth, birthing centers, abortion facilities and ambulatory surgery facilities, the surcharge has been implemented and has provided resources for the implementation of the web-based Pennsylvania Patient Safety Reporting System and the operation of the Authority.

This notice sets forth the procedure that the Department will follow in assessing and collecting the surcharge for FY 2011-2012. The Authority FY 2011-2012 surcharge assessment is \$5.1 million. The MCARE Act states that the surcharge shall be collected from medical facilities, which are defined as ambulatory surgical facilities (ASFs), birth centers and hospitals licensed under either the Health Care Facilities Act (35 P. S. §§ 448.101—448.904) or Article X of the Public Welfare Code (62 P. S. §§ 1001—1087). Also included, as of May 1, 2006, are abortion facilities which are defined in 18 Pa.C.S. § 3203 (relating to definitions) and which perform 100 or more abortions during a calendar year. Nursing homes, which are assessed under sections 401—411 of the MCARE Act (40 P. S. §§ 1303.401—1303.411), receive a separate assessment notification.

To assess the surcharge in an equitable manner, the Department continues to use a common denominator in these facilities. For ASFs, birth centers and abortion facilities, the Department has chosen the number of

operating and procedure rooms; and for hospitals, the Department has chosen the number of beds contained on the license of each hospital, whether by the Department (general and special acute care hospitals) or the Department of Public Welfare (privately owned psychiatric hospitals). It was also necessary to pick a point in time to make this assessment; the Department has chosen February 10, 2012.

The number of operating/procedure rooms (for ASFs, birth centers and abortion facilities) and the number of licensed beds (for hospitals) was totaled and that number was divided into \$5.1 million to arrive at a charge per unit for the assessment. The total number of units (operating rooms, procedure rooms and licensed beds) is 43,213. Dividing this number into \$5,100,000 results in a per unit assessment for each installment of approximately \$118.03.

To obtain a copy of the assessment for all facilities, send an e-mail to ra-paexcept@pa.gov, and request the 2011-2012 MCARE surcharge assessment list.

Each facility will receive notification from the Department setting forth the amount due, date due and the name and address to which the payment should be sent. Payment will be due within 60 days. The MCARE Act authorized the Department to assess an administrative penalty of \$1,000 per day on facilities who fail to pay the surcharge by the due date.

If a medical facility has questions concerning this notice, a representative from that facility should contact Joanne Salsgiver, Director, Department of Health, Division of Acute and Ambulatory Care, 625 Forster Street, Health and Welfare Building, Room 532, Harrisburg, PA 17120, (717) 783-8980.

GAME COMMISSION

White Nose Syndrome Response—Bat Rehabilitation Ban

Order

Whereas, White Nose Syndrome (WNS) remains a largely enigmatic disease syndrome that is found in, and proves highly fatal to, wild bats native to the Commonwealth of Pennsylvania; and

Whereas, on February 13, 2009, the Executive Director of the Pennsylvania Game Commission (Commission) issued an Order restricting the taking, possession, transportation, relocation, rehabilitation, release, and/or reintroduction of wild bats in an effort to reduce the risk of causing further concentration and/or spread of WNS among wild bats within this Commonwealth; and

Whereas, the Commission has determined that despite the issuance of the above-described Order WNS has since spread across the Commonwealth and to all of its neighboring states; and

Whereas, the Commission has determined that further taking, possession, transportation, relocation, rehabilitation, release, and/or reintroduction of wild bats within this Commonwealth no longer poses a significant and undesirable potential of causing further concentration and/or spread of WNS within or across the landscape of this Commonwealth; and

Whereas, The Game and Wildlife Code (Game Code) (34 Pa.C.S. §§ 101 et seq.) and its attendant regulations (58 Pa. Code §§ 131.1 et seq.) collectively provide broad authority to the Commission to regulate activities relating to the protection, preservation and management of all game and wildlife, including the various species of wild bats native to this Commonwealth (C.f. 34 Pa.C.S. §§ 322, 2101 and 2102); and

Whereas, Section 139.3 of the Pennsylvania Code provides the Executive Director with the broad authority to “remove protection on wildlife Statewide, or in a designated area and prohibit its possession alive and order the method of the disposal, if he determines the threat of a

disease poses a threat to human safety, farm animals, pets and wildlife within or adjacent to this Commonwealth” (58 Pa. Code § 139.3(b)); and

Now Therefore, I, Carl G. Roe, Executive Director of the Pennsylvania Game Commission, pursuant to the authority vested in me by the Code and regulations promulgated thereunder, do hereby order and direct that my previous executive order concerning WNS and bat rehabilitation restrictions issued on February 13, 2009 is hereby rescinded in its entirety. This Order is effective immediately.

Given under my hand and seal of the Pennsylvania Game Commission on this 21st day of February 2012.

Executive Director

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agencies must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>
16A-4711	State Registration Board for Professional Engineers, Land Surveyors and Geologists Qualifications For Licensure 41 Pa.B. 6975 (December 31, 2011)	1/30/12	2/29/12

**State Registration Board for Professional
Engineers, Land Surveyors and Geologists
Regulation #16A-4711 (IRRC #2926)
Qualifications For Licensure**

February 29, 2012

We submit for your consideration the following comments on the proposed rulemaking published in the December 31, 2011 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Registration Board for Professional Engineers, Land Surveyors and Geologists (Board) to respond to all comments received from us or any other source.

1. Consistency with caselaw.—Clarity.

This proposed regulation establishes professional licensure standards for engineers, land surveyors and geologists. The standards include the education requirements for these professions. The Regulatory Analysis Form (RAF #9) cites the *Whymeyer* case to explain that this regulation is intended to clarify that the Accreditation Board for Engineering and Technology, Inc. (ABET) is the only acceptable accreditor to the Board for engineering or land surveying educational programs. *Whymeyer v. State Reg. Bd. For Professional Engineers, Land Surveyors and Geologists*, 997 A.2d 1254 (Pa. Cmwlth. 2010). One issue raised but not decided in that case was that the Board “abdicated its statutory responsibility” to approve engineering programs by delegating that authority to ABET. Despite the fact that this regulation provides for ABET to be the exclusive accreditor, would the Board independently approve these programs pursuant to 63 P.S. § 151.2(d)(1), which provides for Board approval?

2. Terminology.—Clarity.

Throughout the regulation, the Board references both “candidates” and “applicants” for certification and licensure. The House Professional Licensure Committee (HPLC) noted the use of both terms and asked the Board to review the regulation to correct any inconsistencies created by the use of both terms. We agree and recommend the Board use one term consistently or explain the need for both terms.

3. Citations to statutory authority.—Clarity.

RAF #8 cites the following from the Engineer, Land Surveyor and Geologist Registration Law (Law) as the statutory authority for this regulation: 63 P.S. §§ 151.4(b), 151.4(I), 151.2, 151.3 and 151.4. However, the Preamble cites only 63 P.S. § 151(1) as the statutory authority. The statutory citations should be consistent in the RAF and the Preamble.

4. Section 37.31. Requirements for certification as an engineer-in-training and for licensure as a professional engineer.—Implementation procedures; Clarity.

This section explains the requirements necessary to obtain certification as an engineer-in-training (EIT) and licensure as a professional engineer. We raise six issues.

First, Subsections (1) and (2) require candidates for both EIT certification and professional licensure to “satisfactorily” complete certain National Council of Examiners for Engineering and Surveying (NCEES) exams. The final-form regulation should specify what constitutes “satisfactory” completion of these exams. Similar concerns apply to Subsections 37.33(b) and (c), 37.36(b) and (c), 37.47(1) and (2), and 37.49(b).

Second, in Subsection (1)(i), the Board should clarify the type of documentation required to demonstrate “proof” of graduation. Similar concerns apply to Subsections 37.36(b)(1)(i), 37.36(b)(1)(ii), and 37.47(1)(i).

Third, Subsection (1)(iii) requires that the progressive experience needed to sit for the NCEES fundamentals of engineering exam must be of a certain “grade and character.” This term is vague and the final-form regulation should clarify the intent of this language. Similar concerns apply to Subsections 37.31(2)(i), 37.47(1)(iii), 37.47(2)(i), and 37.49(c).

Fourth, Subsection (1)(iii) also states that “academic training” in engineering subjects may be counted toward the experience requirement necessary to achieve EIT certification. We recommend that the Board define this term and specify how this training will be counted toward the experience requirement.

Fifth, Subsection (2) references the “branches” of engineering. To improve clarity, we recommend that the final-form regulation include a cross-reference to existing Section 37.34, which provides a complete list of these “branches” of engineering.

Finally, Subsection (2)(ii) references the “breadth and depth” of the engineering curriculum covered as part of the teaching experience acquired by licensure candidates. The term is vague and the final-form regulation should specify what the Board intended to cover through the use of this phrase. Similar concerns apply to Subsection 37.47(2)(ii).

5. Section 37.33. Grandfather requirements for certification as an engineer-in-training and for licensure as a professional engineer.—Implementation procedures; Clarity.

This section contains the requirements to “grandfather” certification and licensure status for EITs and professional engineers. We raise three issues.

First, under Subsection (b) candidates for EIT certification who received a degree prior to January 1, 1968 are not required to complete the NCEES fundamentals of engineering exam. The Preamble to the final-form regulation should explain the significance of the January 1, 1968 date.

Second, what is the difference between “satisfactory” completion of the NCEES fundamentals of engineering exam for EITs in Subsection (b) and “successful” completion of same exam by licensure candidates in Subsection (c)(i)? The final-form regulation should clarify this issue.

Finally, Subsection (c)(1) lists the qualifications for a licensure candidate to sit for the NCEES engineering principles and practice examination. Subsection (c)(1)(i) includes four years of progressive engineering or teaching experience for graduates of an approved engineering curriculum, and (c)(ii) includes eight years of progressive engineering or teaching experience for non-graduates. The Preamble to the final-form regulation should describe how the Board determined these timeframes were appropriate.

6. Section 37.36. Requirements for certification as a geologist-in-training and for licensure as a professional geologist.—Clarity.

Subsection (b)(1)(iii) lists as one of the possible qualifications for a geologist-in-training candidate to sit for the National Association of State Boards of Geology (ASBOG) fundamentals of geology exam: “Graduation from a foreign college or university that World Evaluation Services or other Board-approved professional evaluation service

deems equivalent . . .” First, the HPLC commented that the name of the organization should be corrected to read “World Education Services.” We agree. Second, what are the other “Board-approved professional evaluation services?” To improve clarity, we recommend that the final-form regulation identify the “Board-approved professional evaluation services.” Alternatively, we recommend that the Board maintain the list on its website and cross-reference the website in the regulation.

In Subsection (c)(2), the term “technical completeness review” is vague and the final-form regulation should include a definition for this term.

7. Section 37.37. References for licensure as a professional geologist.—Clarity.

Subsection (a) describes the types of references needed for licensure as a professional geologist. Subsections 37.32(a) and 37.48(a) require references for licensure as a professional engineer and as land surveyors to be “unrelated” to the candidate. However, the regulation does not include a similar requirement for professional geologists. Why doesn’t the proposed regulation require references for professional geologist candidates to be unrelated to the candidate?

8. Section 37.47. Requirements for certification as a surveyor-in-training and for licensure as a professional land surveyor.—Implementation procedures; Clarity.

Subsection (1)(iii) states that in order to demonstrate the “progressive experience” needed to sit for the requisite NCEES surveying exam, surveyors-in-training (SIT) candidates must complete 25% field or office work experience. How did the Board determine this was an appropriate amount of experience in these areas? Similar concerns apply to Subsection 37.49(c).

9. Section 37.49. Grandfather requirements for licensure as a professional land surveyor.—Need; Implementation procedures; Clarity.

This section details the requirements necessary to grandfather licensure as a professional land surveyor. The Preamble states the following:

The grandfather requirements for licensure principally differ from the current requirements in that a candidate may take the [fundamentals of surveying] (FS) and license examinations at the same time; there is not a provision for being certified as a SIT; there is not an education option that permits a surveying student to take the FS examination in advance of graduation; and there is not an experience option regarding teaching experience in an approved surveying curriculum.

In the Preamble to the final-form regulation, the Board should further explain the basis and need for these changes to the grandfathering requirements for land surveyors.

Subsections (b)(1)—(3), list certain years of experience in order to qualify for NCEES land surveyor licensing exams, including 4 years of progressive experience in land surveyor work, and 10 years of progressive experience in land surveying work, which includes 5 years in responsible charge of primary land surveying functions. How did the Board determine these terms of years to be appropriate?
