I Take great pleasure in saying to my riends and customers that I have now on hand, and am constantly making, a large number of the most Elegant Carriages, in Style, Finish and durability ever offered in New England.

Having greatly enlared my factory, I hope hereafter to be able to supply my numercus customers, with all kinds of time Carriages, including my celebrated "Jump Seat," invented and Facented by me in 1864, in addition to those herefofore built which I have greatly improved. I have just invented an entirely New Style Jump Seat, with Buggy Top to fall back or take off, making six different ways the same carriage can be used, each perfect in itself, and manufactured by no other concern in the United States. These carriages give the most perfect satisaction, as some hundreds of testimonials I have at my office will prove. Cuts of the Jump Seats, sent nction, as some hundreds of testimonials I have at my office will prove. Cuts of the Jump Seats, sent by mail to those wishing to purchase.

All persons are hereby cautioned againt making or elling the Kimball Patent Jump Seat without first surchasing of me a right to do so, as my inventions in Patents cover every possible movement to to the seats.

both seats.

All carriages sold by me are made in my factory under my own supervision, by the most skillful workmen, nearly all of whom have been constantly in my employ for many years, and their work cannot be excelled. All my carriages are warranted and sold for prices lower than the same quality and finished carriages can be purchased for at an other establishment. Please call and examine before purchosing. C. P. The object of this Patent is to prevent rain and melting snow from entering houses from beneath doors and windows. It has been thoroughly tested and is warranted not to fall.

This Threshold is admirably adapted to that much-desired style of windows called Casement or French windows, for by this invention all the disagreeable features of that style of window are obviated, and there can be no reason now why it cannot be brought into general use.

JOSHUA L. CHAMBERT, ATN

OF BRUNSWICK. The Maine State Press. Published to-day, contains the decisions o he Supreme Judicial Court at the law term recently held in this city; the recent extraorlinary developments in the Auburn murde ase; an account of the preliminary exercises of Commencement week at Lewiston; a full account of the late disaster at Mount Desert from an occasional correspondent; letters from regular correspondents in Bangor, New York and Virginia; a sketch of the Surratt trial, by "A. D. R." of the New York Tribune; a review of the decisions of the Supreme Court on the taxation of United States stocks; notes on the Cooly trade; an account of a fight with Indians on the Plains; the history of the recent coup d'etat in Columbia; two columns of agricultural and domestic matter, prepared by "Traxi"; Parson Nasby's call for a national Democratic convention; a capital story from the French of Chatrian; with the usual variety of foreign and domestic news, market reports,

shipping news, &c., &c. Battle Cries of the Past. The Argus and other copperhead journals may kick and flounder and wince as much as they please; they may blazon on their columns the number of totes they have cast; they may talk themselves hoarse on taxes; they may count their scars and tell what deeds they have done; they may paint Gen Lee an Inch thick, and court the smiles of Jeff. Davis; they may appeal to the worst passions of human nature and stir up the poor against the rich; they may invoke the nvisible spirit that steals away men's brains; they may appeal to the sympathies of the people and urge the admission of Southern rebels into Congress without conditions or without repentance; and they may even climb up and attempt to sit on Gen. Grant's broad shoulders and ride thereon into place and power; but all that will be in vain. The

eople have marked the course of that party or the last six years. Its tracks are still plain, and they cannot be covered up. The truth is, the leaders of the Demo eratic party are seeking position and power inder very grave difficulties. They have no active sympathy with public opinion, and when politicians lack that powerful agent and instrumentality, they cannot achieve success. They do not understand nor appreciate the tendency of public sentiment. To them it has become a foreign element. They cannot adapt themselves to that deep current the public heart with unabated force. Destitute of all such characteristics, how can they appe to breathe the breath of political life much longer? Of what use can it be to talk of the victories the party has won in days long since gone by? The battle cries of a past era have lost their charms. The late war has changed the whole aspect of political affairs, and the party that identifies itsel with dead Issues has no living principles and must go down never to rise again. It cannot ive upon such issues. As well might an anmal attempt to live and breathe in an exhausted receiver.

A glance at the platforms adopted at the re enough that all the party's sympathies, all its proclivities, all its affiliations are bound up and connected with the dead past. According to their own showing, their only hope success is based upon the wished for oblivior of the lessons the war has taught. But will our country ever forget, ignore or discard these lessons? Never! The trials and triumphs of the past six years will never be for-

gotten, and surely the present generation will This party, which pretends to champio the Constitution, would bring back the Southern States just as they were, with rebels ramant and the freedmen at the mercy of a crue and ignorant class. Such democracy as that annot live in this age. The spell of that mpty word is broken, and its charm has gone forever. The Democratic wire-pullers don't believe the war has settled anything. They make up their political platforms just as if there had been no war, and for very good reasons desire to wink all such matters out of sight. But their platforms will not hide the

truth from the people. Hiw omen of T It is well known to all who remember the history of political parties for thirty year. past, that Slavery has been the right arm of the Democratic party's power. Calhoun, many years ago sciemnly declared that the Northern Democracy was "the natural ally of Slavery," and no man knew better what he was talking about than John C. Calhoun-This sharp Southern politician told the truth We all know that every Democratic Presilent since Jackson has been elected by the united force of the Slave Power, North and bouth. Without that combination of forces no Democratic candidate could have reached he White House. Now, having lost the right arm of its power, the Democratic party under the lead of Pendleton, Vallandigham, Wood and others of that school, set up the cry, "the constitution has been trodden upon: ts sacred provisions have been violated, and the devil is to pay generally." But if one looks carefully at the proceedings of their recent conventions and examines the wormeaten planks of their platforms, he cannot fail to see that the constitution they swear by is he constitution as interpretated by Taney. Dred Scott decisions, human bondage, State ights and other matters as John C. Calhoun ounded them more than quarter of a cenury ago constitute the essential features of emocratic constitutional law.

Wby, the war which has cost so much blood and treasure to save the nation's life, in the pinion of that party, was unconstitutional rom beginning to end. When the war began and during its progress, every village had its Copperhead expounders of the constitution, most learned and potent fellows, whose nouths were always open against the war because it was unconstitutional. Such a cry could be heard at every village, hamlet and cross-road in the country. And the Copperhead leaders now take up the same cry and hope to deceive a loyal people and drag them back into the Democratic fold. It is a false cry, and the Copperhead wire-pullers know it; and thanks to our common schools and to the essons the war has taught us, the people know it too. We say again, the party that attempts to rally its forces with the battle Near the old site, but a few rods below, where they cries of the past and plants itself on exhaustfrom a loyal and intelligent people.

The water at its base is said to have been sounded 1200 feet and no bottom found. The name, Kineo, is musical, as Indian names generally are when properly pronounced. We began to catechise him about many things, and when asking the meaning of the word Kineo, a smile came over his wrinkled face, and he replied that the Indians have many traditions which reach far back into the past, and some of them are very foolish ones. It was evident that from is stand-point of a higher civilization he ooked upon most of the legends of his red brethren as being quite foolish and superstitous. The Sultan has gone to England, having spent a few days at Paris, and having been entertained by receptions, a grand review and visits to the Exposition. It is rumored, too, that while here it was his custom to wander about the streets incognito, seeing without being seen studying the customs of Paris. Detective Baker testifies to capturing from a spy during the war a letter purporting to be written by Gov. Andrew Johnson, of Tennessee, to Jefferson Davis. A witness, who was one of the President's private secretaries when Mr. Johnson was inaugurated as Vice President, testifies as follows, his evidence being made public to-day:

Q. Were you at the Metropolitan Hetel in February, 1865, in this city, with President Johnson, and while you were there were any cards sent up to President Johnson?

A. There was one, and I saw that.

friends.

Q. How long did you stay?
A. Not over five minutes after Mr. Booth came in. I left with the two boys, leaving Mr. Booth and President Johnson together.

Q. Had you seen Booth before?
A. Once on the stage—more frequently at the Kirkwood and Metropolitan Hotels; and he had been pointed out to me, though I never had been introduced to him.

Q. Did you see Mr. Booth at the Kirkwood House at any time before the assasination—and if so, how long?

A. I saw him, I think, on the 12th of April. He came in. I was sitting there. He inquired at the desk of the office if President Johnson was in. He was told that he was not. He then said he wanted to see him on private business, and went away without further remark.

The great distribution of prizes has taken place and of course, from that date the interest in the Exposition began to lessen. I do not me in that the number of visitors was very sensibly diminished, for the daily average remains about fifty thousand, but the interest of exposants is fast ebbing away. The monstrous task of exhibiting wearies their minds while the gay life of Paris outside of the Exposition bewilders their senses and makes them long for "sweet home."

-An old Canadian hunter declares that the reason why the wild deer are not all killed when young (as they breed once a year and are are always surrounded by other animals which prey upon them, as dogs, wolves, bears, panthers, etc.,) is that "no dog or other animal can smell the track of a doe or fawn while the latter is too young to take care of itself!" He stated that he had often seen it demonstrated. He had taken his dogs over the ground when he had just before seen them pass, and they would take no notice of the track, and could not be induced to follow when taken to the spot, while they would instantly discover the track of any deer not having young ones.— This, if true, is but one proof of the adapta-

GEN. SHERIDAN'S CASE.—The Washington orrespondents are industriously collecting aff sorts of ramors in regard to the unticipated removal of Gen. Sheridan. It seems that the President has put his foot down in a mulishly obstinate way, and will not even listen to Grant, who stanchly defends his old brother in-arms. The President has never favored the appointment of Sheridan, but waived his own objections at the so licitations of Gen. Grant, who pressed Sheri dan's claims very warmly. It was thought too, that the experience Sheridan had already gained in the Department would be found valuable, and therefore he was retained in command and clothed with the power of military

THE Wisconsin State Register, in an edito rial concerning the debate in the Senate be tween Messrs, Fessenden and Chandler, in dorses the views we expressed yesterday mor ing upon the subject of the Republican nomi-nation for President. After commenting with much severity upon the conduct of Mr Chandler, the Register says:

Chandler, the Register says:

We have read Wendell Phillips' crazy rantings, and Charles Sumner's criticisms of the loyalty of Gen. Grant and Gen. Sherman and it only excited a smile, for the public would be surprised to hear a rational, reasonable political question stated by Wendell Phillips; but when Republican senators and Republican journals criticise the loyalty of such a man as Senator Fessenden, the ablest and safest counsellor the party has in the United States Senate—may we not reasonably inquire, what is it that these men would have? what do they want? It is true that Senator Fessenden has not regarded insanity as the best criterion of a man's radicalism, but his faithful and unfaltering devotion to the Republican party has carned for him the admiration of every well disposed member of the party throughout the entire land, and the statesmallike ability with which he has presented his views, has directed the attention of a large portion of the party to him as an excellent man to place on our next national tleket; and should not Gen. Grant be the nominee of the Republican party for President—as he most likely will be—there is no civilian in the land who would be more likely to receive the nomination than Senator Fessenden. Is this fact not the server of these ferments of the party to the server of these ferments. no civilian in the land who would be mor likely to receive the nomination than Senato Fessenden. Is this fact not the secret of the attacks on his political standing? It looks a to us. We envy not the heart of the man wh will thus deliberately fill the role of assassi of a man's political character, for person ends. Did not the fortunes of the world place such men beyond pecuniary want, we shoul be unwilling to place temptation between then and the object of their wants.

We have repeatedly insisted that the Den cratic party has but a single element of unit in its constitution. That element is hostili to any measure present, past or prospect that their opponents may suggest. They have never forgiven the Republican party yet for estoring the Union and overthrowing slavery foreseeing that by these great acts it has en titled itself to a long tenure of power, and a most illustrious name in history. For their Leon: part, the Democrats can only attach themthey find most likely to be of service to them strong predilection for such as are the most latent selfishness and stupidity to enable them to make political capital out of a cry for the taxation of government bonds. In other localities it happens that the party takes precisely the opposite ground. This is unfortunate, for the newspapers and public speakers are con stantly making the most damaging assertion respecting the hobby of their Maine brethren The National Intelligencer, knowing nothin bout the dogmas of Down Hast platforms grows very fierce, in its capacity of Thunderer in-ordinary to the President, over Mr. Wash burne's still-born resolution providing that "the right to tax the bonds of the government should be given in any future system of fund-ing said bonds." Ludierously enough, styles this dilution of the Maine Democratic creed, "rank repudiation," and says it is wha the "radicals" are after. We quote a sing!

The work of repudiation and confiscation, so promisingly begnn, will undoubtedly be prosecuted at the next session. It amounts to a general system of a division of property in accordance with the principles of what Mr. Wade considers as "radical rizhteomsness." The property of individuals is to be absorbed by the radical rulers. In this great game it is easy to see that the government will get nothing, and that the people will lose everything. The usurping radical demagogues will sweep the board.

But how should the Intelligencer know his faithful subordinates of the Standard and Argus? In the absence of any definite information, it might well suppose that our neigh-bors were devoting themselves solely to the task of showing up the "bloody" prohibitory code, or denouncing the satraps of the Grand Turk Constable.

THE Argus explains the President's applic tion of "international law" to the question responsibility for the State debts of the South as an argumentum ad hominem. The Presi-dent did not really think the acts of Congress would compel the assumption of these debts, as the Argus represents the case, but being possessed of a logical devil he wanted to show Sumner and Thad. Stevens that their theories were absurd. In that case we are compelled to say that the President chose a singular occasion to chop logic about abstractions for which the nation cares not a straw. The nation cares nothing for Mr. Sumner's theories or Mr. Johnson's theories. We want the Southern States restored to their normal rela-tions to the Federal government, on terms which as far as human foresight will allow, hall insure us perpetual peace and harmony acreafter—nothing more, nothing less. It is singular that Democratic Senators like John-son of Maryland should have failed to detect the sarcasm in the President's message, and should have felt called upon to express their regret at the President's suggestion and their opinion that he was wrong. In the courteous nguage of the Argus, "the difficulty with ator Johnson was, that he did not distinguish between the taking of an opponent's reapons to floor him with, and regular, serious

The struggle for the silver ball began yest day. It had been settled beforehand that only five clubs would at this time contend for the championship, and it was decided late Tuesday night that the playing should take place on the grounds near the Arsenal. Messrs. Caudleigh of the Atlantic club, Brooklyn, Henry Dennison of the Lowell club, Boston, Frederick Gerrish of the Bowdoin club, J. C M. Furbish of the Eon club, and George F Abbott of the Atheletic club, were selected as judges, to award the several prizes for the best shall reign throughout the land? BOWDOIN VS. CUSHNOC. Early in the afternoon the crowd began to gather, and at three o'clock the field was thronged. By the united exertions of the field committee and the police, the grounds were cleared and kept clear. The game was call-ed by the umpire, Mr. Dennison, of the Lowell Bizoin was called to order by the President, on club, at a few minutes past three, the Bow-doin boys going to the bat. The Bowdoin boys had scored 3 with only one out, and Cole had made his first base, when Rundlett struck the ball straight into the right field when Deering caught it and sent it to the first before Cole, who had started to run, could recover his base. The Cushno's then went to the bat and made 18 runs, going out finally with Ladd and Robinson on the bases. Rundlett's pitching during the inning was very wild. At one time, four men took their bases in succession on called balls. The execution of the traitors, which I had the satisfaction of directing, is good food for digestion. It will satisfy the Europeans, and the Yankees, too, that to triffe with Mexico is death by the law. Had we complied with the request of the Yankees to spare the filibustero and his associate traitors, it would have been taken for cowardice and the next thing would have been a request to give up our hands, our mines and our women. After this we shall be allowed to worship our own God, till our own soil, work our own mines, and not have our women defiled by Yankee libertines. I am now in favor of making clean work of the detested. "Gringos." This country belongs to God and us, and just so long as one foreigner cemains on our soil, our liberty is in jeopardy. By every means in our power we should make the country Mexican; and as all the property in the hands of foreigners was made by our misfortures, we should take it, now that we have the power, and hunt them from the country. My motto now is, death to all estrangeros! There is no danger of the Yankees interfering with us so long as the Southern States (Estados del Sar) are kept out of the Unioa; besides, the black men would side with us, and may at any tima panamane against the thing Perfore we get through with the foreigners, the Yankees will think we are in earnest and the time will come when their notables will be for their own leads instead of begging for the Austrian.—In our struggle for liberty we have lost nearly all. Our lands, and our mines, and our liberty, and our women, and our honors we still have, but the foreigners have all the available wealth of the Republic; but they will see in less than three years that Mexicans will have what they want in Mexico. You will understand my unalterable platform. Whenever the time comes you can make this letter public in such manner as you think proper. I know that my countrymen will applaud our patriotic determination.

Some other changes were made in the positions of their players, but the odds were too heavy against them. In the eighth, the Cushnocs were choked Deering go-ing out on a fly caught by Charley Ring in the base, and Alden going out on a foul ball caught by Frank Ring, The score for the last five innings stood 15 to 13 in favor of the Bowdoin but the grim total was 31 to 48 the other was

Hutchins, of Brunswick,-were at work upon this section of the staging and they were precipitated to the ground, a distance of more than forty feet. It was supposed by those who witnessed the accident that that one, if not both, of them must be killed; but the only outward injury discovered was that one of the bones in the arm of Mr. Hutchins was broken. Mr. Woodman immediately called Drs. Tewks-bury and Small, who attended the men and had them taken to their residences. He also gave orders to have all their wants carefully attended to. The fall of the staging was s peculiar that it probably saved the lives of the

BAND CONCERTS. We are sorry to say that the funds proposed to be raised, for the purpose of having a course of "out door" concerts has failed for want of support. It is singular that our citizens do not liberally subscribe towards so worthy an object. We are, and always have been remiss in matters of this kind. While, with hardly an exception, the other cities of our size and calibre enioy entertainments of this description, we are compelled to deny ourselves that pleasure. Doubtless the losses sustained by the people from the great fire, have much to do with the want of interest long ago. The elevator is 280 feet long, iken, but however this may be, next ve hope to see substantial aid extended in sup-

OUR new City Hall might be fitted to answer Our new City Hall might be fitted to answer admirably for operatic performances at very little additional expense. It is only necessary to put in a wider platform to answer for a stage, and to furnish the fixtures for putting up the "flats" and a drop curtain, and we should have one of the fluest opera houses in the country. We have long needed something of this kind, in order that we might enjoy the best operatic perfermances, and here is now an opportunity to secure it at small expense. Many of our music loving citzens suggested that in fluishing the hall it should be so arranged as to admit of operatic performances and we hope the matter will be pressed upon the attention of those having the hall in charge. With the increased accommodations

on the attention of those having the hall in charge. With the increased accommodations afforded by the light gallery running around it, and the space gained by the removal of the proscenium, the hall will seat so large a number as to bring down the price of admission, and thus enable the people to enjoy the rich music of the opera, now so little known among us.—Transcript.

We second the motion of the Transcript.

As there seems to be no present of the creerequested. As there seems to be no prospect of the erec-tion of a Music Hall, a very slight addition to the platform, and a few necessary fixtures, would render the City Hall just the place. Let it be done by all means.

GOING INTO MOURNING .- Judging from the looks of a large number of the people, one would think that a great calamity had befallen them. We heard a good story of one of this class recently. An English friend of ours went into a liquor saloon to get his flask filled with "traveller's cordial." Looking around he saw signs hanging from the gas fixtures with "No liquors for sale here" on them, draped in black crape. On enquiring why the room was thus decorated the proprietor, with a most rueful countenance, informed him that it was in memory of departed spirits who were suddenly seized with constrabulary gripes, which carried them off fearfully quick. This was too much for John Bull, who burst into a roar of laughter, much to the surprise of the shop

Flint's poem was well delivered, and estab ished the existence of the poetic spark. The ladies did finely, as they always do upon such occasions. The parts of Misses Johnson Day, Goodwin and Knowlton were particular ly deserving of mention. Miss Ham's odd

subject provoked the mirth of her hearers, by its witty thrusts at the extravagant expression of the age.

The valedictory, by Miss Freeman, did credit to her head and her heart. The tears of her classmates and listeners were the best proof of the power of her effort. The clear and distinct articulation, which

especially distinguished the reading of the young ladies, is due to Miss Hoyt and is a credo. C. Wendell of Dover, N. H., received the prize-one of Marshall's portraits of Lincolnfor excellence in declamation, at the Sopho-more and Junior exhibition, Monday evening

TESTIMONIALS. Dear Sir:—I cannot but express my highest regard for your medical services. For more than 12 years, without any favorable result whatever, I have been under the treatment of most eminent physicians of ooth the larger and smaller cities in this country, for an ailing with which the greater number of my sex are afflicted, and thereby compelled to endure a miserable ex stence through life. Thus, as it appeared, without a chance for help, my friends and myself despaired of my life, in fact, I did not care how soon it would end, as with it my sufferings would terminate. But, thank Heñven, there was one chance yet for me! Having heard of certain cures you made in this place and vicinity, I determined on trying your skill, which I did on the 27th of last December, the day I was entered as one of your patients. I shall never forget that day, for it inspired me with hopes as I never was before. I had the most implicit confidence in your ability to cure me, and the many and varied questions you asked me, touching my lilness, seemed but to centirm me in this belief. And sure enough on the let of January last I began to realize a favorable change; ever since there has been a steady gaining, and such is the progress of my improvement now that, beyond the less doubt, I shall soon be restored to perfect health.

For the benefit of the feeble of my sex, and to prove to you that I shall ever be grateful for your services, I make this acknowledgment.

I remain under the greatest obligation.

Rock Lana, Me., March 22, 1867.

Bock LAND, Me., March 22, 1867.

Dr. Livor:—For the good of suffering humanity I am anxious to make it known that I have been cured of caterth, ot many years standing, unfer your treatment.

Yours, &c., Silas Kalloch. NEW YORK, March 21, 1867.

Dr. Livor, Rockland:—I consider it my duty to you and thousands of others suffering, as I did, from a diseased throat and lungs, to acknowledge publicly that I was cured under your treatment, and made able to go to work, which I was not capable of doing since 1865.

Yours truly, A. E. BOYSTON.

ROCKLAND, Me., May 4, 1867. Dear Sir .— It is my duy to humanity to make it public that you have saved my life when every one who knew my sufferings despaired thereof. Among the very many that have suffered as I did from cancer of the breast, and who have died from the treatment such diseases usually receive at the hands of physicians generally, many indeed might be alive to-day, could they have had the privilege of your skillitul treatment. Furthermore, I owe it to you to state that I shall ever consider myself under the greatest that I shall ever consider myself under the greatest obligations for your kindness in attending my case, though I was not able to pay you your full be, and shall ever pray for your wedars.

With the greatest regard for you, I remain yours, &c., HENRIETTA DRINKWATER.

BOCKLAND, May 8, 1867.

Dear Sir :—It I am under obligations to any one it is to you for your restoring me to health. Ever since twelve years I have suffered from heart disease, and for the last thee years, every night almost, I had an attack that would not permit me to lie down for fear of sufficiently, and every day was expected to be my last one. It would be unjust if I did not mention that my husband procured medical aid wherever he could, all of which, however, was most successfully resisted by my alling. But, thanks be to God, that he had the privilege of securing your services, for without them I could not have lived up to this time. I shall forever remain under the greatest obligations, HANNAH P. SHAW.

To Dr. J. Livor. ROCKLAND, May 4, 1867. Dr. Livor:—I congratulate you npan the success you had in treating me for a congh, from which I suftered day and night for years. I must confess that the resistance it so successfully made to all previous medical treatment was of no avail against your well chosen remedies. With four little powders you cured my cough and relieved me of my night sweats.

Yours, &c., Mrs. E. A. Mrs. ev. Congress and Free

New York, April 22, 1867.

DEAR SIR:—Your mode of t catment is wonderful. A few of your Homopathic Powders have raised mo from my bed, to which I was confined since several months from theumatism.

I hope I shall never be thus afflicted again. If I should, I know where to go for help. I was, in part, waiting for Mrs. Chipman to inclose a note to you, testifying to the benefit and good results of the medicine you gave her, while you were here on a visit to your family.

I must say, before I close, that your mode in administering Homosopathic medicines to the many illusions is heir to, has proved not only a benefit, but a periect cure to the very many. All well.

Respectfully yours, &c.

C. D. CHIPMAN.

240 East 13th Street, New York.

DEAR SIE:—I will not be less grateful to you than others who testified to cures you have made for them, for I assure you that I consider myself under no less obligations. Every one that saw me before and at the time I was first brought into your office, believes you to have wrought a numele in the cure you made on me. Frem mher the day—I believe it was on the 28th day of February last—when you entereI me as your patient. At that time, as for several years previous, I was scarcely able to walk without the assistance of some one, or to sit in a chair without having some one or some thing for a support. My condition was certainly a precarious one, having suffered so long from a spinal disease, affection of the lungs and kidners, and from an intense female, weakness, not with tanding the medical treatment I had during many months previous to my seeing you. But now the case is different, for I am fully restreet to health. Rest assured that I shall a ail myself of every oppertunity to make this wonderful cure generally known, so that the afflicted may understand that there is yet hope for them in you. With he utmost sincerity I thank you, and remain forever.

"Well, sir, we shall see if you have." We had become obstinate, and believed we had a call to fight it out on that line. We therefore reinforced with the conductor, and moved upon the works. MEDICAL.

An Invaluable Medicine THE PURIFYING OF THE BLOOD! Dr. J. W. Poland's HUMOR DOCTOR A Positive Remedy for all Kinds of Humors, PARTICULARLY

Ervsipelas, Nettle Rash, Salt Rheum, Scrof ula, Carbuncles, Boils and Piles. It is very easy to say of this, or any other medicine, "It is the very best Remedy known. It is not always so easy to prove it. It is, however, exceedingly gratifying to the Proprietor of this medicine, that, while he declares to the public that this is a most wonderfut and effective specific for Humors, as stated above, he has abundant proof at hand to sustain his statement.

above, he has abundant proof at hand to sustain his statement.

For sixteen years the HUMOR DOCTOR has been manufactured and sold, and eyery year has increased the value of its reputation, and the amount of its sales. In New Hampshire, where it originated, no remedy for humors is so highly prized. An emiment physician (now an army surgeon) when practicing in New Hampshire, purchased between fifty and sixty gallons of it, during some seven or eight years, and used it in his practice. He has since then ordered it for the hospital where he was stationed. Other physicians have purchased it, and have used it in practice with great success. When the proprietor fived in New Hampshire, at Goffstown Centre, for the space of thirty or torty miles around, and in Manchester particularly the Humor Doctor was well known and highly valued for the numerous and wonderful cures which it effected. Though manufactured in large quantities, the supply was frequently exhausted, and purchasers had to wait for more to be made. In that region some very severe cases of Erysipelas were treated with—and they were cured! Erysipelas were treated with—and they were cured! Erysipelas were treated when—and they sere cured. So it was with Scrottala and Salt Rheum. The Humor Doctor cured them.

For the sake of showing what is thought of it, a tew testimonials are here inserted:

Milton Gale, Eaq., Boston. Milton Gale, Esq., Boston.

Milton Gale, Esq., Boston.

I herely certify that I was sorely afflicted with Boils for two years, developing themselves upon my limbs and other parts of my body. The sufferings which I endured from them are indescribable. Suffice it to say that I faithfully tried several of the most popular humor remedies, but without removing the affliction. At length, by the earnest request of an intimate friend, I was induced to try Dr. J. W. Polind's Humor Doctor, and am very happy to attest that all my Boils were removed, and my health was restored by using Dr. Poland's aforesaid medicine.

an excellent remedy for humors. My numerous acquaintances it Manchester know how severely I was

Dr. Poland:—I received your letter inquiring to the effects of your medicine on sea-sickness and happy to say that I think it is "the medicine" that dreadful sickness. I tried various medicine. I have used it in my family since its introduction to the public, for bilious habits, headache and himors about my children, and have always found it

mors about my enliuren, and have sure cure.

I am not fond of having my name appear in public, and would not consent to it on any other account but for relieve the suffering; but if the foregoing will be of any service to you or the public, you can make use of it.

HARRIET M. PORTER Mrs. Wheeler, Stoucham, Mass.

It very confidently and carnestly recommend Dr. J. W Poland's Humor Doctor as an excellent remedy for Humors, having been wonderfully benefitted by it myself. My own case was a very severe and obstinate one. For more than two years the ski upon the inside of both my hands, and even down or the wrist, was constantly cracked and broken up, so that I was unable to use my hands in any kind o wet work, and was oblige to wear gloves in sewing to avoid getting blood upon my work. The humor which so afflicted me was probably a combination or Ervsipelas and Salt Rheum. My general health was quite poor. Som after I began to use the Humor Doctor I could perceive signs of healing I continued to take the medicine till I was finally cured. My hands are now perfectly free from humors and to al appearances my who e system is clear of it, and kas hands are now perfectly free from humors and to a appearances my who e system is clear of it, and habeen for several menths. I used eight bottles beto I folt safe to give it up chtirely, but they cared me.

Caution to the Public.

Every intelligent and thinking person must know hat remedies handed out for general use should have heir efficacy established by well tested experience in the hands of a regularly educated physician, whose preparatory studies fit him for all the duties he must fallil; yet the country is flooded with poor nostrums and cure-alls, purporting to be the best in the world, which are not only useless, but always injurious. The unfortunate should be PARTICULAR in selecting his physician, as it is a lamentable yet incontroverfible fact, that many syphilitic patients are made miserable with ruined constitutions by maltreatment from incerperienced physicians in general practice; for it is a point generally conceded by the best syphilographers, that the study and management of these complaints should engross the whole time of those own would be competent and successful in their treatment and cure. The inexperienced general practitioner, having neither opportunity nor tirue to making an indiscriminate use of that antiquated and dangerous weapon, the Mercury. Caution to the Public.

All who have committed an excess of any kind, which the in the solitary vice of youth, or the stinging rebuke of misplaced confidence in maturer years, seek for an analysis of the pains and Aches, and Lassitude and Nervous Prostration that may follow Impure Coition, are the Barometer to the whole system.

Hardly a day passes but we are consulted by one of more young men, with the above disease, some of whom are as weak and emaciated as though they had the consumption, and by their friends are supposed to have it. All such cases yield to the proper and only correct course of treatment, and in a short time are made to rejoice in perfect bealth.

There are many men of the age of thirty who are troubled with too frequent evacuations from the bladder, often accompanied by a slight smarting or burning sensation, and weakening the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sementies small particles of semen or albumen will appear, or the color will be of a thin mulkish lute, again changing to a dark and turbid appearance. There are many men who die of this difficulty ignorant of the cause, which is the ignorant of the cause, which is the
