Rice Station, Minn., April 16.—The fatal end- ing of the wedding party near this village forms one of the saddest leatures of the wholesale de- struction of life and property wrought in this sec- tion by Wednesday's cyclone. The party was as- sembled at the residence of John Schniz, a farmer, to celebrate the wedding of his daughter Mamie, and the ceremony was performed about 1 o'clock by Rev. Gustavus Smith. The afternoon was spent in social enjoyment, and at 4 o'clock the party gathered about the wedding feast. It was a happy assemblage of nearly forty people cele- brating the bridal festivities for the favorite daughter of the house. The cyclone came and in the kindling wood and scattered all over the farm. Of the happy party of a few minutes be- fore, ten were corpses and many others injured, several of whom will die. There was not a build- ing left in which the few survivers could care for those not past help. The bridgeroom was killed outright, but the bride was only injured. Mr. Parnell assured Mr. Chamber-lain that Davitt would not act from motives of personal spite or jealousy (Parnellite cheers), but solely out of regard for ireland. To the speaker, it appeared that the appointment of a receiver-general was unnecessary and absurd, because ac-cording to the Premier's statement the receipts from customs and excise duties in Ireland will amount to within £20,000 of the total amount payable by Ireland to the imperial exchequer. At the close of Mr. Parnell's speech, Secretary Morley announced that the bill would be in the members' hands on Monday. Michael Davitt says the only persons who will be benefitted by the scheme will be the absentee landfords, who will jump at an opportunity to sell out and be delighted to get rid of their property. Seven clubs have entered the High School League, including Portland, Yarmouth, Auburn, Bath, Brunswick, Bridgton and Lewiston. Mr. Geo. W. for reflection. Florida marshes have been depopulated of their egrets and herons, while the State at large has become the favorite slaughter ground of the milliner's emisaries. It would be a good thing for our cruelty to animals societies to extend their spheres by a crusade against this wholesale slaughter of birds for ornamental purposes. If the matter was urged upon their attention undoubtedly the great majority of women would discard the bird decorated hat

There ought not to be any difference of opinion amongst law-abiding people concerning this boycotting business as it is now carried on, and it is the duty of every decent citizen to frown it down, and, if necessary, to appeal to the law to put it down. It is gratifying to see that this latter step has been taken in one instance at least, and that the "walking delegates," who have been parading in front of Mrs. Gray's bakery in New York, have been hailed into court and fined. Here is a woman, who has done no her workmen make no complaint whatever, hounded day after day by a secret society, because she will not permit them to say whom she shall employ or shall not employ. That is the length and breadth of her offend ing, but for this, from morning until night, for more than a week, men have paraded in front of her place of business, bearing banners accusing her of tyranny, and urging people not to patronize her, while others have gone round to grocery men who have been in the habit of buying bread of her and threatened to ruin their business if they bought any more. And this performance has been going on for days in the most populous city of a land that boasts of being a land of liberty and of equal rights. That it should be suffered to go on for even five minto have been committed to jail.

MEDICINE AND STIMULANTS Getting a Black Eye.

Last year Lieut. Moxie and some friends acci-entally found a food plant while visiting the outh American province of "Matto Grosso," that as the most remarkable effect on tired nerves maginable. Simple, harmless as gruel; neither nedicine, stimulast, tonic nor alterative, it makes ou feel solid, vigorous, hungry and capable of reat endurance, leaving no reaction, but as per-nament results as beefsteak. It recovers from verwork at once, even blindness, insanity and aralysis. It breaks up intoxication and the quor thirst at once, and makes the drinkers feel eiter than stimulants. It has already stopped alt the liquor traffic in Lowell, and is creating an mmense sensation in New England and the Mid-le States. A gigantic company has been formed e States. A gigantic company has been forme r its manufacture and sale all over the world or its manufacture and sale all over the work. The physicians say it is the best nerve food yet iscovered, and will supersede stimulants and onics. In honor of its discoverer, it is called the 'Moxie Nerve Food.' It already crops out in the fruggists' windows almost everywhere. The wholesalers say its sale has never been equalled. For a wonder, it is very cheap, considering its reputation.—Courier.

A LITTLE SUFFERER

Cleansed, Purified, and Beautified by the Cuticura Remedies.

the Cuticura Remedies. It affords me pleasure to give you this report of the cute of our little grandchild by your CUTICU-RA REMEDES. When six months old his lett hand began to swell and had every appearance of a large boil. We poulticed it, but all to no purpose. About five mouths after it became a running sore. Soon other sores formed. He then had two of them on each hand, and as his blood became more and more impure it took less time for them to break out. A sore came on the chin, beneath the under lip, which was very offensive. His head was one solid scab, discharging a great deal. This was his condition at twenty-two months old, when I undertook the care of him, his mother having died when he was a little more than a year old, of con-sumption (scrothul of course). He could walk a little, but could not get up if he fell down, and could not move when in bed, having no use of his hands. I immediately commenced with the CUTI-CURA REMEDIES, using the CUTICURA and CUTI-CURA SAP freely, and when he had taken one bottle of the CUTICURA RESOLVENT, his head was completely cured, and he was improved in every way. We were very much encouraged, and con-tinued the use of the Remedies for a year and a half. One sore after another healtagly convessed and were taken out; then they would heal rapidly. One of these ugly bone formations I preserved. After taking a dozen and a half bottles he was completely cured, and is now, at the age of six years, a strong and healthy child. The scars on his hands must always remain, his hands are strong, thobgh we once feared he would neal rapidly. One of these ugly bone formations I preserved. Advice to Mothers .- MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the guins, allays all pain, relieves wind, regulates the owels, and is the best known remedy for diarrhoea, whether arising from teething or other causes.
