Paul R. LePage
GOVERNOR

David Bernhardt
COMMISSIONER

Members of the 125th Maine Legislature:

The Maine Department of Transportation (MaineDOT) is pleased to present this \$764.6 million *Capital Work Plan (Work Plan)* for the FY 2012-FY 2013 biennium (July 2011-June 2013). This *Work Plan* contains projections of capital transportation resources (federal, state, other) and MaineDOT's strategy to apply them to the design and construction of transportation infrastructure of all modes throughout the state. As you will see, the *Work Plan* invests \$688.7 million in highways and bridges and \$75.9 million in capital multimodal projects including aviation, industrial rail access, small harbors, transit, and pedestrian facilities. Though not capital in nature, Appendix A also lists \$46.4 million in multimodal operational funding that has been included in previous biennial work plans. This plan does not rely on legislative authorization of any additional bonding.

This truly is a "Work" plan in that over 80% of MaineDOT's capital funding supports private sector jobs in the form of construction contracts, consultant services, private equipment rental and construction materials. It will create, sustain and support over 21,000 jobs based on federal estimates.

As you will see, this *Work Plan* calls for delivery of the following highway and bridge improvements located throughout the state.

- 34 bridge replacements
- 53 bridge rehabilitations or other improvement projects
- 63 miles of highway reconstruction
- 480 miles of pavement preservation and rehabilitation, which includes heavier, more structural paving treatments
- 1,200 miles of light capital paving (formerly known as Maintenance Surface Treatment or MST), a thinner paving treatment to smooth roads with lesser statewide or regional significance and keep such roads serviceable.

Although projected total capital investment is slightly less than the FY 10-FY11 biennium (largely due to previous extraordinary bonding levels), this *Work Plan* maintains core programs, leverages all anticipated federal funding, and will keep our existing transportation system serviceable for this biennium. Further, utilizing practical design standards that match the priority and use of the road, this *Work Plan* will stretch funding to achieve more miles of improvement. For example, though planned funding for highway reconstruction is projected to be about 5% less than actual amounts for the current biennium, we estimate that we can reconstruct about 19% more miles. Further, while this *Work Plan* predictably reduces bridge funding by about 22% as the extraordinary bridge funding program authorized by P.L. 2009, Ch 647 winds down, it targets this funding such that bridge preservation investment is projected to increase 61.5%.

PRINTED ON RECYCLED PAPER

Of course, actual delivery of this *Work Plan* depends upon delivery of anticipated funding – federal, state, and other. About 57% of this projected capital funding is federal, about 40% is state, and about 3% is from local and private sources.

Predicting funding levels has proved difficult in recent years. Continuing global financial challenges exacerbated by rising fuel costs will likely affect both state and federal transportation motor fuel-tax revenue as people drive less and switch to more fuel efficient vehicles. Moreover, broader budget and debt level debates in Congress make predicting federal transportation funding very difficult. The last multiyear federal transportation funding authorization expired in 2009. Instead, Maine and all states are currently receiving funding month by month via continuing resolutions (CR) as Congress and the President continue to work on future transportation funding policy. Possible federal funding outcomes under deliberation range from a reduction of 50% to an increase of 25%. This *Work Plan* assumes flat federal transportation funding based upon current CR levels.

Further, in addition to traditional state Highway Fund sources, planned funding also includes a \$20 million General Fund appropriation. Obviously, if actual resources over the next two years differ significantly from projections, MaineDOT will be required to make adjustments to this *Work Plan* to fit within existing resources.

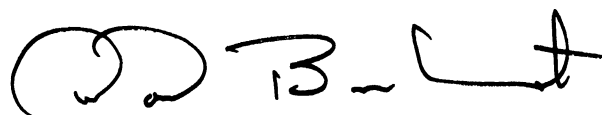

Just as differing funding levels could require adjustments to this *Work Plan*, differing costs due to market forces and efficiency savings can alter this plan. Recent bids received are currently under estimates, but increases in the cost of asphalt are possible. We plan to work with the private sector and MaineDOT staff to find ways to stretch every transportation dollar as far as possible. Efficiency savings, municipal and other partnerships, practical design standards, streamlining of environmental and permitting processes, and other innovations could lead to additional projects.

Regarding the project selection process, this *Work Plan* uses better tools to perform MaineDOT's on-going task of prioritizing scarce resources. As is described more fully in section III of the narrative below, this plan uses common-sense and fact-based Highway Corridor Priorities (HCP) and realistic, engineering-based, and uniform Customer Service Levels (CSL's) to focus investments on projects that have the most traveler and economic benefits.

Though funding constraints and overall customer needs have required a focus on the highway and bridge system, this *Work Plan* also includes \$75.9 million multimodal capital program that matches all federal funds and leverages additional funding through partnerships. Further, \$46.4 million in multimodal operational funding is provided.

In closing, MaineDOT commits to you that we will implement this *Work Plan* in accordance with our core values of integrity, competence, and service. If you have any questions, we will be pleased to answer them. Thank you for your ongoing support; it allows us to do this critical work for the people of Maine.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Bernhardt". The signature is stylized and cursive.

David Bernhardt, P.E.
Commissioner

Introduction

The Maine Department of Transportation's (MaineDOT) *FY 2012-2013 Capital Work Plan (Work Plan)* covers July 1, 2011 through June 30, 2013. It supports the Department's mission of responsibly providing a safe, efficient and reliable transportation system that supports economic opportunity and quality of life. The *Work Plan* lists anticipated capital transportation funding and MaineDOT's strategy to apply this funding to specific transportation improvements throughout the state. The *Work Plan* emphasizes focusing scarce transportation resources on existing critical infrastructure needs – roads and bridges primarily – to the greatest extent possible. By utilizing about \$145 million from resources carried forward from the last biennium, it provides \$688.7 million for highways and bridges. This *Work Plan* also invests \$75.9 million in multimodal capital projects in accordance with federal policy and to leverage additional public and private transportation investment.

The *Work Plan* reflects sound transportation concepts and the best available forecasts of costs and funding. However, any significant changes impacting the costs of transportation projects will impact MaineDOT's ability to finance and deliver all of the projects identified in this *Work Plan*. The following circumstances will influence the stability of this *Work Plan*:

- Changes in federal or state resources
- Construction cost inflation
- Changing federal regulations
- Ecological and environmental factors, or
- Emergencies or currently unidentified critical infrastructure needs

The *Work Plan's* timing also coincides with increased efforts to stretch each transportation dollar as far as possible. Therefore, while reduced resources could require project reductions, MaineDOT will staff will work closely with industry and municipal officials to increase efficiencies in the way we do business that could enable project additions through actions including but not limited to:

- Organizational changes
- Environmental process changes and streamlining
- Review and modification of design specifications
- Increased use of design exceptions to federal standards where appropriate
- Public-public and public-private partnerships
- Reallocation of savings from maintenance activities to capital projects
- Innovative technologies

II. Funding

Funding for the *FY 2012-2013 Work Plan* totals \$764.6 million and comes primarily from a number of state sources and federal transportation programs with limited funding from municipalities and other sources.

Approximately \$145.3 million is carried forward from the previous *Work Plan*, representing 19% of all funding. This funding is available due to factors such as lower than projected bids for capital projects, increased flexible federal funding due to continuing resolutions and the absence of earmarks, and projects which have had schedules moved to the 2012—2013 biennium and are shown in this *Work Plan*. A breakdown of sources and several uses of capital funding levels is shown in the table below.

Estimated Levels of Capital Funding for FY 2012-2013 (millions of dollars)						
Program Area	Federal	State	Bridge TransCAP	TransCAP Cash	Local / Others	Total
Highways & Bridges	367.9	207.9	55	36	21.9	688.7
Multimodal Capital Improvements	68.3	5.1	--	--	2.5	75.9
TOTAL	436.2	213	55	36	24.4	764.6

A. Federal Funding

The \$436.2 million in projected federal funding noted above can be further broken down as follows:

- \$379.4 million from the Federal Highway Administration (FHWA),
- \$49.9 million from the Federal Aviation Administration (FAA),
- \$6.9 million from the Federal Transit Administration (FTA).

FHWA funding is predominantly limited to highways and bridges, FTA funding is intended for transit and FAA funding supports aviation. Funding under each of these federal agencies is further divided into distinct categories with different eligibilities. For example, certain types of federal funding are limited to improving bridges, the Interstate, commercial airports, etc. The funding amounts shown above represent the sum of three distinct pools of funds as follows:

- new federal transportation funding Maine anticipates receiving in the next two years,
- prior federal funding associated with previously scheduled projects that have been moved into the 2012-2013 biennium and
- reallocation of federal funding savings from previous work plans due costs savings associated with the current low bid prices.

B. State Transportation Funding

This *Work Plan* includes \$213 million in state transportation fund sources allocated primarily from the Highway Fund but also including \$20 million from the General Fund.

C. TransCAP Cash Resources

The TransCAP trust fund is a capital transportation funding account administered by the Maine Municipal Bond Bank which is funded with 7.5% of the motor-fuel tax collected by the state pursuant to MRSA Title 30-A. If this account is projected to have more money than needed to sustain existing bonds, money is returned to MaineDOT for capital projects. This *Work Plan* assumes that \$36 million will be returned to the Highway Fund from TransCAP.

D. TransCAP Bridge Bonding

Under Public Law, Ch 647, the Legislature authorized MaineDOT to bond \$160 million in capital improvements for bridges from FY2010 to FY2013. Though this *Work Plan* includes no new authorized borrowing, it does assume that the remaining authorized but currently unsold \$55 million in TransCAP Bridge bonding will be available. Consistent with the original plan, the total value of the updated four-year Bridge Work Plan is currently estimated at \$452 million.

III. Highway Corridor Priorities, Customer Service Levels and Project Selection

Compared to other New England states, Maine simply has a lot of miles of roads and relatively few people spread out over a large area. For example, New Hampshire has less than half the state roads as Maine and is located in less than one-third of the area, yet it has about the same population and state transportation funding. This means the Granite State has about twice the funding per mile that Maine does. Therefore, the MaineDOT must aggressively prioritize capital projects in order to get the most value out of every transportation dollar for Maine businesses and travelers.

A. Highway Corridor Priorities (HCP's)

Intuitively, most people will agree that the interstate is more important to our economy than a dead end road that carries one hundred cars a day. The interstate obviously has to

be wider, straighter, stronger, and smoother than the rarely used dead end road. Although we know that every road is important to someone, most can agree that we need to use objective, understandable criteria to determine priority. MaineDOT has gathered and analyzed straightforward, common-sense factors such as the economic importance of the road as determined from input from regional economic development districts, federal functional classification, heavy haul trucking use and the amount of relative traffic on the road by region. With this and other data, MaineDOT has classified all 23,142 miles of Maine public highways into six, easy-to-understand priority levels.

- Priority 1 roads include the Maine Turnpike, the interstate system and key principal arterials like Route 1 in Aroostook County, the Airline (Route 9), Route 2 west of Newport and Route 302. Priority 1 roads represent less than 6 percent of Maine’s total road miles, but carry 40 percent of all vehicle miles traveled in the state.
- Priority 2 roads are non-interstate, high value arterials that represent about 4 percent of the state’s total miles of road but carry 11 percent of overall traffic.
- Priority 3 roads generally are the remaining arterials and most significant major collector highways. They represent only 9 percent of total miles, but carry 19 percent of the traffic.
- Priority 4 roads generally are the remainder of the major collector highways, often also part of Maine’s unique “state aid” system, in which road responsibilities are shared between the state and municipalities. These miles represent about 10 percent of total miles, and carry 10 percent of the traffic.

As a subtotal, Priority 1 through Priority 4 roads are only 29 percent of public road miles, but carry fully 80 percent of all the vehicle miles traveled in Maine.

- Priority 5 roads are minor collector highways, almost all on the “state aid” system. They represent 9 percent of total miles, but carry only 7 percent of traffic.
- Priority 6 roads are local roads and streets, and are the year-round responsibility of our municipal partners. Though they carry just 13 percent of the statewide traffic, these 14,300 miles make up 62 percent of the total miles. That sounds like a lot, and it is, but Maine actually has the lowest percentage of local roads in New England, and the ninth lowest percentage in the country. In comparison, 74 percent of public roads in New Hampshire are local.

Maine Highway Corridor Priority Miles	
One	1,482
Two	945
Three	2,029
Four	2,244
Five	2,119
Six	14,323
Total	23,142

A searchable map showing HCP by roadway can be found on MaineDOT's website at www.mainedot.gov.

B. Customer Service Levels (CSL's)

Where HCP's provide a level of priority, Customer Service Levels (CSL's) are engineering based measurements on an intuitive scale: A, B, C, D and F based on the safety, condition and service of the state's roads. The result is a fair, consistent measure of how a road compares to other roads of the same priority across the state.

This approach improves transportation decision-making, including:

- More emphasis on safety and customer service instead of compliance with national design standards.
- Replacement of the old terminology for unbuilt roads (i.e. "Backlog") with objective measures of roadway strength and reliability.
- Outcome-based measures as opposed to output (results vs. number and types of projects).
- Enhanced transparency and accountability due to its simplicity and repeatability.
- A unified methodology to benchmark current conditions, predict future conditions, examine differing CSL goals by HCP, and estimate costs to achieve them.

Customer Service Levels: MaineDOT has adopted the following intuitive grading scale:

A Excellent	B Good	C Fair	D Poor	F Unacceptable
-------------	--------	--------	--------	----------------

CSLs and their constituent measures are structured as follows:

SAFETY	CONDITION	SERVICE
- Crash History	- Ride Quality	- Posted Road
- Pavement Rutting	- Pavement Condition	- Posted Bridge
- Paved Roadway Width	- Roadway Strength	- Congestion
- Bridge Reliability	- Bridge Condition	

Implementation of Highway Corridor Priorities and Customer Service Levels could be used to redefine Chapter 470 Capital Goals by emphasizing highway adequacy, safety, and customer satisfaction over national design standards.

IV. Project Selection & Public Process

Highway Corridor Priority and Customer Service Levels provide a foundation for selecting highway improvement projects and improvements to features along highway including bridges, intersections, guardrail, lighting, etc. Upon this foundation, we build the *Work Plan* with extensive public involvement into project selection including sending a request for project candidates to all Maine municipalities, Metropolitan Planning Organizations, Indian Nations and Tribes and County Commissioners (for Unorganized Territories) which occurred for this *Work Plan* in early 2010. In addition, MaineDOT conducts planning studies and technical assessments such as bridge inspections, pavement condition evaluations, etc. to identify project candidates.

In order to refine the prioritization of projects, MaineDOT considered the following questions which are presented in no particular order:

- What is the Highway Corridor Priority, where applicable, of the project candidate?
- What is the Customer Service Level, where applicable, of the project candidate?
- Does the potential project address a demonstrated safety issue?
- Does the project represent a public-private or public-public partnership to stretch scarce transportation resources?
- Does the project relate to economic activity and job growth?
- Is the project candidate able to move to construction within the next two years based on potential environmental documentation and permitting?
- Does the potential project preserve the existing transportation system (such as replacing a failing bridge or protecting an already-existing transportation investment)?
- Are there funds restricted to a specific project or is there a federal program that mandates certain types of investment?

MaineDOT makes this *Work Plan* available to the public on the MaineDOT's Web site <http://www.mainedot.gov>, at Maine's four Metropolitan Planning Organizations, at MaineDOT's Regional Offices and at federal repository libraries.

V. Highways and Bridges

Maine is a large, mostly rural state with its population spread over a great land area. Its geography of thousands of miles of coastline, islands, lakes, rivers and mountains makes Maine a unique and wonderful place to live and visit, but these features sometimes also act as costly barriers to a comprehensive transportation system.

A. Bridges

This *Work Plan* contains \$184 million for significant improvements, rehabilitation, preservation or replacement of bridges and an additional \$9.5 million to begin preconstruction engineering for 18 bridges that will receive construction funding in a future biennium. Because of Maine's topography and waterways, bridges are vital. Bridges literally connect dozens of communities throughout the state and any bridge that is posted or closed represents lost productivity and inconvenience due to time consuming detours. Improvements to bridges may also be coordinated with highway improvements to achieve cost savings and minimize traffic disruptions. MaineDOT has complete or partial responsibility for:

- 2,212 bridges (equal to or greater than 20 feet in length on public roads), and
- 751 minor spans (10 to 20 feet in length on State or State Aid Highways).

Bridges	Projects	\$'s in millions
Engineering	18	\$9.5
Replacement	34	\$120.7
Rehabilitation/ Preservation/ Other	53	\$63.3
Statewide Safety Bridge Inspection		\$6.8
Total	105	\$200.3

B. Highway Improvements

The largest component of Maine's transportation system is its highway network. Maine's need to invest in developing, upgrading, and maintaining this infrastructure is significant as the vast majority of people and commodities travel over highways.

C. Highway Preservation & Rehabilitation Paving

Highway Preservation strategies cost a fraction of reconstruction projects if applied at the correct time based on highway deterioration, a highway investment can be

maintained almost indefinitely. Highway preservation is applied to Highway Corridors 1-3 that carry over 70% of Maine's traffic. The majority of these miles have been reconstructed to an adequate standard. Given their importance to the economy and our customers, these improvements represent hundreds of millions of dollars in prior investments that must be preserved. Highway rehabilitation, although not full reconstruction, makes roads much safer, improve ride quality, and last significantly longer than maintenance paving alone. By processing bituminous materials from previously completed projects into a cold pavement mix called Plant Mix Recycled Asphalt Pavement (PMRAP), this material can be placed on the existing highway as base. This enables MaineDOT to add some structure and correct deficient cross slopes at much lower costs than reconstruction. This Work Plan includes \$145 million for 480 miles of highway preservation and rehabilitation.

While light capital paving, preservation and rehabilitation are essential to a viable highway system, the costs have proven more volatile and difficult to predict than costs for other transportation projects, in large part because pavement requires large amounts of liquid asphalt, a petroleum byproduct. Should the cost of asphalt significantly increase, MaineDOT may need to delay or cancel significant amounts of paving as one done in prior biennia.

D. Reconstruction

The *FY 2012-2013 Work Plan* provides almost \$123 million in highway construction including the following improvements:

- Reconstruction of 8.6 miles of Highway Corridor 1 and engineering for 16.7 miles,
- Reconstruction of 5.7 miles of Highway Corridor 2 and engineering for 3 miles,
- Reconstruction of 16.3 miles of Highway Corridor 3 and engineering for 6.8 miles,
- Contribution of \$7 million for a *Municipal Partnership Initiative* to match local and private investment on Maine's highway system for improvements above and beyond any legal requirements anticipated to leverage an additional \$7 million in municipal or private contributions.
- Approximately \$11 million in a partnership between Augusta, the Maine General Medical Center and MaineDOT for mobility improvements at Interstate 95 Exit 113 to facilitate economic growth including a new hospital,
- Almost \$8.3 million for improvements at Interstate 295 Exit 15 in Yarmouth.
- Approximately \$5 million for design and construction of major mobility improvements at Maine Turnpike Exits 75 and Exit 80 in partnership with the Maine Turnpike Authority.

E. Highway Safety and Spot Improvements

Improving transportation safety remains MaineDOT's top priority. Safety is considered and applied to every capital transportation project. This Work Plan contains \$59.2 million in highway safety and spot improvements. Examples of projects included within it are intersection improvements, signage, railroad crossings, Interstate lighting along with spot infrastructure such as closed system drainage, unstable slopes, large culverts, hazardous rock walls, retaining walls, dams supporting or adjacent to the transportation system, etc., that are rapidly deteriorating.

F. Highway Light Capital Paving

Light capital paving is not a structural overlay but rather a light capital treatment and typically has a useful life of four to seven years. This treatment primarily serves as a mechanism to keeping lower priority highway corridors serviceable. This *Work Plan* provides \$44.3 million for approximately 1,200 miles of maintenance paving.

G. Highway Striping

Annual highway striping is one of the most cost effective safety improvements per dollar spent. As such it is eligible for federal funding. Like prior plans, this *Work Plan* includes highway striping. The estimated cost is \$10.7 million

H. Major Projects Study and Implementation

Planning studies provide detailed information regarding the costs and benefits of different solutions to transportation problems and MaineDOT must undertake them in many cases in order to comply with federal law. This *Work Plan* includes \$9.6 million to continue and or implement planning studies in Aroostook County, Brunswick, Gorham, Sanford and Wiscasset.

I. GARVEE Debt Service

A Grant Anticipation Revenue Vehicle (GARVEE) is a federal financing mechanism that involves a pledge of future federal transportation funds. While this *Work Plan* is not based upon any new authorized borrowing, it provides \$31.3 million in federal funding for debt service for previously authorized GARVEEs.

J. Administrative Transfers to Other Agencies

MaineDOT works with many other state agencies. In some instances, MaineDOT pays for services they provide MaineDOT. In others, MaineDOT supports programs where our agencies share similar goals. This *Work Plan* provides for \$15.7 million in agency transfers to the Office of Information Technology (\$9.7 million), Department of Conservation for recreational trail improvements (\$2.4 million), Maine's Controller's

Office and central government to recover the cost of providing un-billed central services to State Programs that operate with Federal and/or special revenue funds (\$3 million) and the State Police for vehicles (\$.6 million). This does not include funding transferred to the Northern New England Rail Authority to support AMTRAK Downeaster operations which is discussed in section XI below.

K. Project Support Services

This *Work Plan* provides funding to support MaineDOT's capital production including land survey, property appraisal, environmental compliance, engineering, quality assurance, materials testing and contracting. This *Work Plan* includes \$15.7 million in project support services.

L. Asset Inspection, Inventory and Analysis

Effective management of the State's transportation system requires accurate information about its extent, condition and usage. It also requires a history of the costs and results of work performed on it. Like prior plans, this *Work Plan* includes \$13.3 million to fund the development and maintenance of systems used to maintain transportation system data, assess the effectiveness of our investments, and to do predictive analysis for the best use of available resources.

M. Statewide Planning

The United States Department of Transportation mandates a number of federal planning, programming, reporting and public involvement requirements for state department of transportation. Like prior plans, this *Work Plan* includes \$9.3 million for statewide planning which includes outreach and education to municipal officials and transportation stakeholders. This amount is below the levels recommended by the federal government.

N. Production Support

Production support consists of a range of actions to ensure regulatory compliance and accountability to Maine citizens. Examples of production support activities include civil rights compliance, safety site evaluations, contracts with regional planning organizations, federal research programs and municipal training. This *Work Plan* includes \$13.3 million in Production Support activities which are listed separately within the document.

O. Metropolitan Areas

Please note that all Metropolitan Planning Organization (MPO) sponsored projects summarized below have already been included in the numbers above. MPO investments are being shown again in the table below because of the unique role of MPO's in project selection and sponsorship.

Based on population densities determined by the U.S. Census, the Federal Highway Administration (FHWA) has designated four MPO areas in Maine serving the Kittery, Portland, Lewiston-Auburn and Bangor regions. MPO membership consists of area cities and towns, public transit providers, MaineDOT and the Maine Turnpike Authority. These organizations are responsible for long-range transportation planning and programming of highway and transit capital improvements in their areas. It is MaineDOT's current practice to provide each MPO with an allocation of federal and state transportation improvement funding every biennium based on the MPO's relative share of statewide roadway lane miles and traffic. This process uses the same types of formulas that FHWA employs to distribute funds to states.

The four MPOs have \$50.2 million in federal, state and local funding included in this *Work Plan* for projects to be selected by those MPOs.

The funding breaks down as follows:

- Kittery Area Comprehensive Transportation Study (KACTS), \$2.8 million
- Portland Area Comprehensive Transportation System (PACTS), \$23.6 million
- Androscoggin Transportation Resource Center (ATRC), \$12.9 million, and
- Bangor Area Comprehensive Transportation System (BACTS), \$10.9 million

Each MPO then allocates its funds based on its priorities and necessities. Based upon data from the MPO's, these investments can be broken down as follows:

Summary of MPO Investments		
Program	Miles	\$'s in millions
Highway Reconstruction	9.7	\$21.9
Highway Rehabilitation	.7	\$1.3
Highway Paving	21.5	\$15.2
Safety	--	\$7.1
Multimodal	--	\$1.4
Other	--	\$3.3
Total	31.9	\$50.2

In Summary, uses of capital funding for highways and bridges are shown in the following table:

FY 2012-2013 Capital Funding Highway & Bridge	
Work Category	Millions of Dollars
Bridge Replacement/New	\$120.7
Bridge Rehab/Preservation/Other	\$63.3
Bridge Design for Future Delivery	\$9.5
Bridges Subtotal	\$193.5
Highway Preservation & Rehab Paving	\$145.0
Highway Construction	\$123.0
Highway Safety and Spot Improvements	\$59.2
Highway Light Capital Paving	\$44.3
Highway Striping	\$10.7
Major Project Study and Implementation	\$9.6
Highway Design for Future Delivery	\$4.8
Highways Subtotal	\$396.6
GARVEE Debt Service	\$31.3
Administrative Transfers to other Agencies (1)	\$15.7
Project Support Services	\$15.7
Asset Inspection, Inventory and Analysis	\$13.3
Statewide Planning	\$9.3
Other Production Support (2)	\$13.3
Total	\$688.7

(1) Does not include \$14.3 M in FHWA funds to be used to support the Amtrak Downeaster service.

(2) Includes funding for Regional Planning Contracts, Environmental Compliance and Permitting, Civil Rights Compliance, Safety Programs, Engineering Research, Engineering Oversight, Municipal Support Services

VI. Multimodal Capital Investments

This *Work Plan* focuses the vast majority of scarce transportation funding on short-term critical infrastructure needs such as highways and bridges. However, MaineDOT also supports the development and operation of an efficient, environmentally sensitive and cost-effective multimodal transportation system. In fact, a significant amount of federal transportation funding must be spent on multimodal projects. This *Work Plan* invests a total of \$75.9 million in Maine's rail, airports, public transit, ferry service and bicycle/pedestrian trails, summarized as follows:

FY 2012–2013 Capital Work Plan Multimodal Transportation Improvements	
Program	Total
Industrial Rail Access Program	\$1
Small Harbor Improvement Program	\$1
Air Transportation	\$52.5
Transit Capital	\$8.7
Transportation Demand Management	\$2.3
Safe Routes to School	\$2.6
Non-motorized	\$7.8
Total	\$75.9

A. Freight Rail -- IRAP

Rail freight service is an important component of the freight transportation mix in Maine since it is particularly cost-effective when moving high-volume, low-value commodities over long distances. It gives shippers an additional transportation option besides highway transport when moving their products to market and inbound raw materials to their plants. This *Work Plan* provides \$1 million for the successful Industrial Rail Access Program (IRAP). IRAP is a minimum 50:50 public: private partnership program for infrastructure investments facilitating the use of freight rail in Maine. It is one of the best economic development tools available for businesses that want to move from truck to rail service or that are solely dependent on rail. It also helps to ensure the health of the State's railroads by providing new customers. Since 1997, the state of Maine has funded \$6.8 million for IRAP. This investment has been matched by private-sector investments of more than \$9.6 million in more than two dozen locations around the state.

B. Working Waterfront – SHIP

The Small Harbor Improvement Program (SHIP) is a grant program for a variety of improvements at small coastal harbors. Established in 1995, SHIP has leveraged over \$7.5 million in municipal and private investment in 140 projects in 65 communities throughout Maine. The program protects Maine's working waterfront through a combination of pier, bulkhead construction, and reconstruction projects. It also funds floats, landside improvements, public access, and other activities that help assure the viability of Maine's working harbors. This *Work Plan* provides \$1 million that will leverage a minimum of \$250,000 in additional investments.

C. Aviation

This *Work Plan* provides \$52.5 million including leveraging \$1.3 million in local funding and \$1.3 million in state match for Federal Aviation Administration funds to provide grants for infrastructure improvements to publicly owned airports statewide. Projects include runway and taxiway reconstruction, safety improvements, and other enhancements to improve airport access, to invest in economic development, and to improve the safety of air services in Maine. In addition, there is limited funding for preservation to protect and extend the life of previous investments.

D. Transit

MaineDOT currently owns almost 400 transit vehicles which it leases to Maine's transit providers. These vehicles have a replacement value of \$50 million. Over 100 of these vehicles have reached or exceeded their useful lives and are still in service. In addition, demand for transit and transit ridership increases as the cost of fuel increases. This *Work Plan* provides \$8.7 million for transit capital including fleet replacement.

E. Transportation Demand Management

This *Work Plan* includes just over \$2 million for new Park & Ride facilities and \$240,000 for GoMaine vehicle replacement totaling approximately \$2.3 million.

F. Bicycle and Pedestrian

This *Work Plan* provides \$10.4 million for initiatives directed toward bicyclists and pedestrian safety such as sidewalk construction, the inclusion of bicycle lanes and MaineDOT's Safe Routes to School Program. The federal Safe Routes to School Program improves conditions and creates new opportunities for children walking and biking to school by constructing sidewalks, improving un-safe road crossings, improving intersections, and making other safety improvements as requested by the communities.

VII. Transit and Rail Operations Work Plan

Appendix A details over \$46.4 million in biennial funding to support the operations of transit services, passenger rail and *GoMaine* throughout Maine. Though not capital in nature, funding for rail and transit is also vital to their contract operations.

A. Rail Operations

Maine's *Downeaster* provides five daily round trips from Portland to Boston and is projected to extend service from Portland to Brunswick during this biennium. The Federal Highway Administration currently enables Congestion Mitigation and Air Quality (CMAQ) resources to fund rail operating costs in addition to projects such as intersection mobility improvements, variable message signs and park & ride facilities. This biennial transit operations *Work Plan* provides \$18.1 million in funding as follows:

- \$14.3 million in CMAQ Federal Highway Administration Funding to be transferred to the Federal Transit Administration
- \$3.8 million from the State, Air, Transit, Rail (STAR) Account

B. Transit Operations

As referenced in MaineDOT's 2009 Biennial Operation's Plan, Maine has 20 transit providers through the state providing coordinated service to everyone, including commuters, tourists, the elderly and individuals with disabilities. These services enhance employment and recreational options for residents and visitors alike providing a viable transportation alternative as gas prices increase. The biennial transit operations *Work Plan* provides \$28.1 million in funding as follows:

- \$16.3 million in operations funding from the Federal Transit Administration
- \$10.7 million in local matching funds
- \$1.1 million in funding from the State, Transit Air, Rail (STAR) account which derives its revenue from a number of sources including taxes on aviation fuel, rail fuel and vehicle rentals.

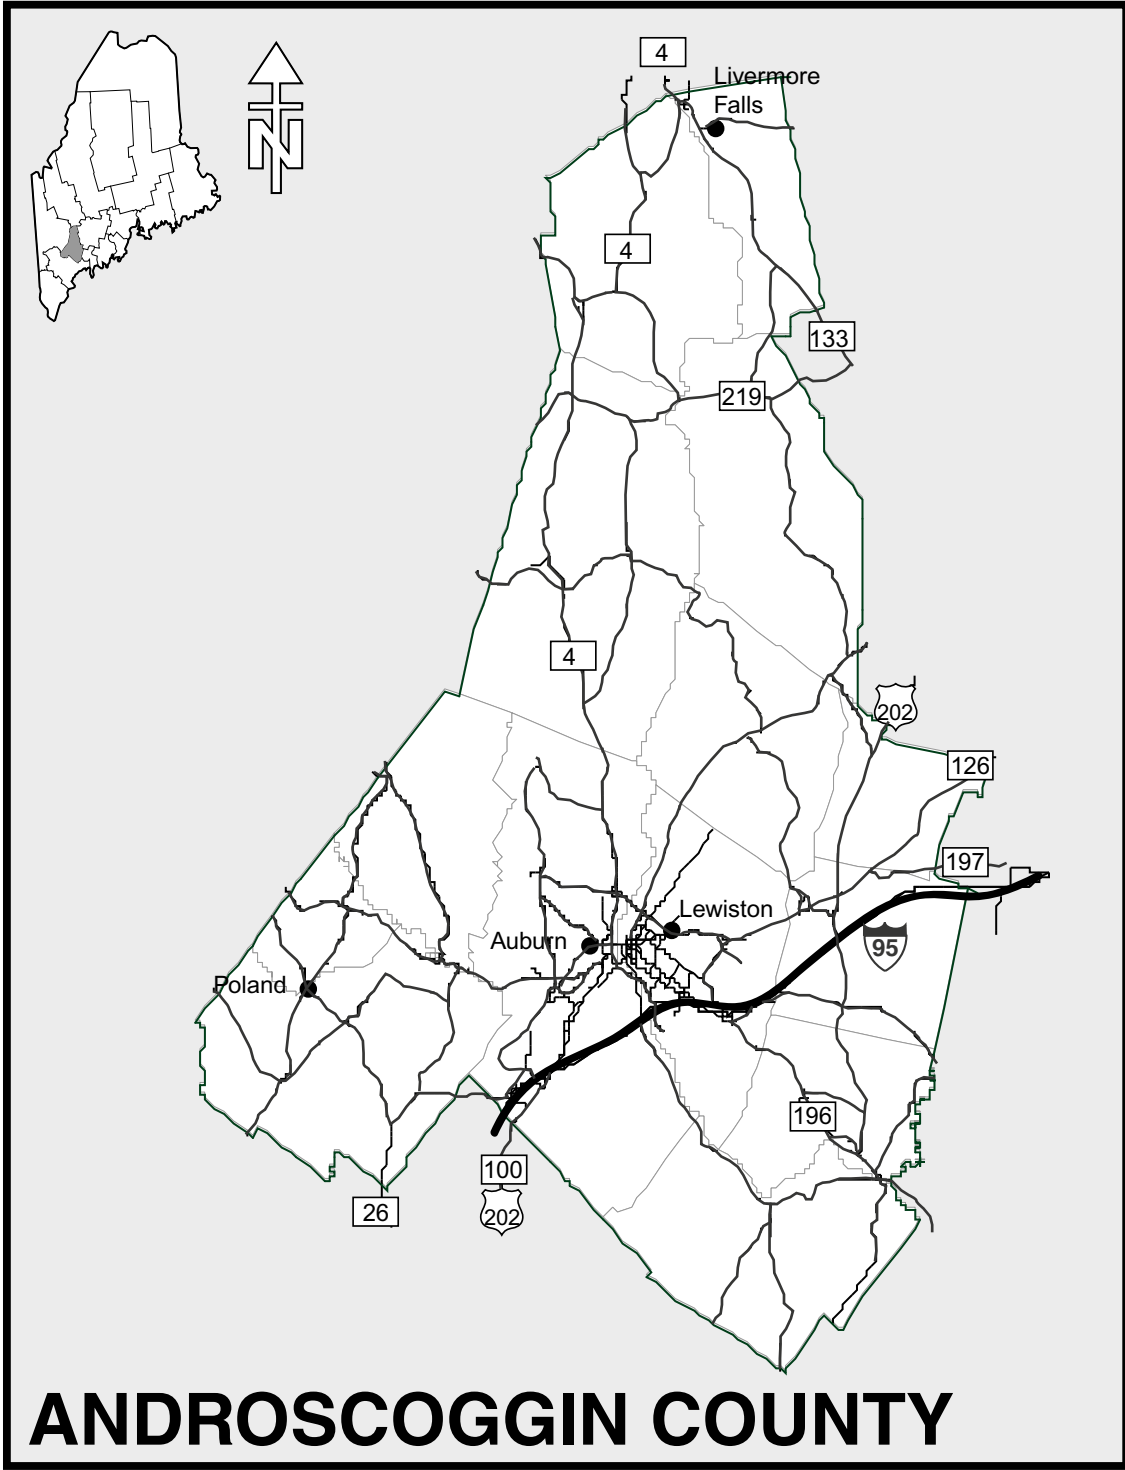

C. GoMaine Operations

GoMaine is Maine's statewide commuter service providing access to healthy, economical and eco-friendly options for commuting to and from work, besides simply driving alone. It helps commuters across Maine find practical commuting modes that save money, save energy, and save vehicle wear and tear, like carpools, vanpools, transit and bicycling. This Work Plan provides GoMaine a \$600,000 operational subsidy as follows:

- \$.5 million CMAQ Federal Highway Administration Funding to be transferred to the Federal Transit Administration
- \$.1 million from the State, Transit, Air, Rail (STAR) Account

VIII. Project Listings

County by county lists of projects are provided below, followed by statewide and regional projects, transit and rail operating funding and a municipal index. These lists are available at www.mainedot.gov. As noted above, changes to funding, bids and schedules will cause changes to this plan. For an updated list of projects to be advertised for construction in the current calendar year, please see the current construction advertise schedule available at: <http://www.maine.gov/mdot/contractor-consultant-information/pas/advertise.shtml>.

Traffic Signal Coordination and Associated Intersection Upgrades: Beginning at Warren Avenue and extending southerly approximately 0.66 of a mile to Westbrook Crossing.

WIN#	Work Type	Scope	Total
017856.00	Operational and Safety Improvements	Traffic Signals	\$65,000

Portland	Veranda Street	0.50 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

This project will be considered for funding based on continued PACTS Financial support.

Highway Resurfacing: Beginning at Washington Avenue and extending northerly on Veranda Street for 0.50 of a mile.

WIN#	Work Type	Scope	Total
019093.00	Preservation	3/4" Overlay	\$354,090

Portland,Falmouth	Route 1	1403 foot span	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Bridge Replacement: Martin Point Bridge (#2515) over the Presumpscot River. Located on the Portland-Falmouth town line.

WIN#	Work Type	Scope	Total
016731.00	Development	Bridge Replacement	\$17,250,000

Portland,Westbrook	Traffic Signal Coordination	1.96 mile(s)	Principal Arterial, Intersection
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

This project will be considered for funding based on continued PACTS Financial support.

Traffic Signal Coordination: Beginning at County Road and Spring Street in Westbrook and extending easterly on Route 22 for 1.96 miles to International Parkway and related signal connections for 0.58 of a mile westerly on Skyway Drive from Johnson Road.

WIN#	Work Type	Scope	Total
017858.00	Operational and Safety Improvements	Traffic Signals	\$70,000

Scarborough	Eastern Corridor	Non-Motorized	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>	Other <input type="checkbox"/>

Design of gap safety bicycle and pedestrian connection between Scarborough and South Portland.

WIN#	Work Type	Scope	Total
019386.00	Development	New Construction	\$150,000

Scarborough	Payne Road	1.42 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Highway Resurfacing: Beginning at Broadway and extending northerly 1.42 miles.

WIN#	Work Type	Scope	Total
019105.00	Preservation		\$611,490

Scarborough	Route 9	Minor Arterial, Highways	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

This project will be considered for funding based on continued PACTS Financial support.

Intersection Improvements without Signal: Located at the intersection of Route 1, Payne Road, Pine Point Road and Broad Turn Road.

WIN#	Work Type	Scope	Total
017343.00	Operational and Safety Improvements	Intersection Improvement	\$3,350,000

Scarborough, South Portland	Eastern Trail	PACTS	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

This project will be considered for funding based on continued PACTS Financial support.

Bicycle and Pedestrian Improvements: Eastern Trail along Old Bog Road. Beginning at Gary L. Maietta Way in South Portland and extending to Pond View Drive in Scarborough.

WIN#	Work Type	Scope	Total
019426.00	Development	New Construction	\$189,275

Scarborough, South Portland	Interstate 295 Northbound	8.44 mile(s)	Interstate, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Highway Resurfacing: Beginning at the Intersection of Interstate 295 and Interstate 95 and extending northerly on Interstate 295 Northbound for 8.44 miles to the Falmouth town line.

WIN#	Work Type	Scope	Total
016788.00	Preservation	Mill and Fill Plus	\$8,799,313

Sebago	Route 107	0.01 mile(s)	Minor Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Strut Replacement: Located 0.08 mile northerly of Convene Road on Route 107.

WIN#	Work Type	Scope	Total
019114.00	Rehabilitation	Strut Replacement	\$381,500

Sebago, Baldwin	Kennebunk Pond Road	2.11 mile(s)	Minor Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

PMRAP: Beginning at Route 107 and extending westerly on Kennebunk Pond Road for 2.11 miles.

WIN#	Work Type	Scope	Total
019110.00	Rehabilitation	PMRAP	\$475,000

South Portland	Broadway	1.12 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

This project will be considered for funding based on continued PACTS Financial support.

Highway Resurfacing: Beginning at Cottage Road and extending northeasterly on Broadway for 1.12 miles to Pickett Street.

WIN#	Work Type	Scope	Total
019098.00	Preservation	3/4" Overlay	\$814,000

South Portland	Bus Garage		PACTS
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

This project will be considered for funding based on continued PACTS Financial support.

Bus Garage: Supplemental funding for replacement of a bus garage for the South Portland Bus Service that will combine the administrative offices and maintenance facilities.

WIN#	Work Type	Scope	Total
017350.00	Development	New Construction	\$714,459

South Portland	Dartmouth Street	0.23 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

This project will be considered for funding based on continued PACTS Financial support.

Highway Resurfacing: Beginning at Rumery Street and extending easterly on Dartmouth Street for 0.23 of a mile.

WIN#	Work Type	Scope	Total

South Portland	Interstate 295	12 foot span	Interstate, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Bridge Culvert Rehabilitation: Red Brook Bridge (#6282) over Red Brook. Located 1.07 miles southerly of the Scarborough Connector.

WIN#	Work Type	Scope	Total
019278.00	Rehabilitation	Bridge Culvert Rehabilitation	\$275,000

South Portland	Mill Creek Hub		PACTS
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>	Other <input checked="" type="checkbox"/>

This project will be considered for funding based on continued PACTS Financial support.

Transit Hub: Construction of a transit hub in the Mill Creek area for the South Portland Bus Service.

WIN#	Work Type	Scope	Total
017351.00	Development	New Construction	\$360,470

South Portland	Route 1	152 foot span	Principal Arterial, Bridge
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Bridge Removal and Intersection Improvement: South Portland Interchange Overpass Bridge (#6199), located 0.16 of a mile northerly of Main Street.

WIN#	Work Type	Scope	Total
011062.00	Development	Bridge Removal	\$1,600,000

South Portland	Rumery Street	0.55 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

This project will be considered for funding based on continued PACTS Financial support.

Highway Resurfacing: Beginning at Route 1 and extending northerly on Rumery Street for 0.55 of a mile to Dartmouth Street.

WIN#	Work Type	Scope	Total
019084.00	Preservation	3/4" Overlay	\$291,000

South Portland, Westbrook	Cummings Road	0.73 mile(s)	Minor Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input type="checkbox"/>	Other <input type="checkbox"/>

This project will be considered for funding based on continued PACTS Financial support.

Preliminary Engineering for Future Highway Reconstruction: Beginning at Running Hill Road and extending northerly on Cummings Road for 0.73 of a mile to the Westbrook town line.

WIN#	Work Type	Scope	Total
019091.00	Development	Reconstruction	\$973,406

South Portland,Portland	Route 1	Minor Arterial, Bicycle/Pedestrian	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Design and Construct a Bicycle and Pedestrian Facility: Beginning at Veterans Memorial Bridge and extending northerly on Route 1 for 0.98 of a mile.

WIN#	Work Type	Scope	Total
017574.00	Development	New Construction	\$1,250,000

South Portland,Portland	Route 77	4748 foot span	Principal Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Fender System Preservation: Casco Bay Bridge (#5900) over the Fore River. Located at the Portland-South Portland town line.

WIN#	Work Type	Scope	Total
019052.00	Rehabilitation	Bridge Substructure Rehabilitation	\$500,000

Standish	Boundary Road	1.01 mile(s)	Local, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Safety Improvements: Pave shoulders through the curves, install warning signage and chevrons. Beginning 1.79 miles easterly of Route 113 and extending easterly 1.01 miles.

WIN#	Work Type	Scope	Total
019003.00	Operational and Safety Improvements	Intersection Improvement	\$140,000

Standish	Route 25/35	Minor Arterial, Bicycle/Pedestrian	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input type="checkbox"/>	Other <input type="checkbox"/>

Engineering for Drainage and Pedestrian Safety Improvements: Located on Route 25, and Route 35, near schools and businesses in Standish.

WIN#	Work Type	Scope	Total
019388.00	Development	New Construction	\$59,000

Standish	Route 35	Major Collector, Highways	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Intersection Improvements without a Signal: Located at the intersection of Route 35 and the Whites Bridge Road.

WIN#	Work Type	Scope	Total
012757.00	Operational and Safety Improvements	Intersection Improvement	\$559,375

Standish, Limington	Route 25	4.85 mile(s)	Minor Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Highway Resurfacing: Beginning at Route 113 and extending northerly on Route 25 for 4.85 miles to Route 11.

WIN#	Work Type	Scope	Total
019079.00	Preservation	3/4" Overlay	\$754,446

Westbrook	Bridge Street	0.98 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

This project will be considered for funding based on continued PACTS Financial support.

Highway Resurfacing: Beginning at Main Street and extending northerly on Bridge Street for 0.98 of a mile to Cumberland Street.

Bar Harbor	Route 3	4.29 mile(s)	Minor Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input type="checkbox"/>	Other <input type="checkbox"/>

Preliminary Engineering for Future Reconstruction: Beginning 0.15 of a mile westerly of Sand Point Road and extending easterly on Route 3 for 4.29 miles to Route 233. Sections of project are anticipated to move to construction over multiple biennia.

WIN#	Work Type	Scope	Total
019197.00	Development	Reconstruction	\$1,500,000

Blue Hill	Route 15		Major Collector, Intersection
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Intersection Improvements: Located at the intersection of Routes 15, 172, and the Beech Hill Road.

WIN#	Work Type	Scope	Total
017258.00	Development	New Construction	\$1,260,000

Blue Hill	Route 175	114 foot span	Minor Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Bridge Rehabilitation: Blue Hill Falls Bridge (#5038) over a tidal basin. Located 0.53 of a mile southerly of Parker Point Road.

WIN#	Work Type	Scope	Total
017712.00	Development	Bridge Improvement	\$4,715,000

Blue Hill	Safe Routes to School	Non-Motorized	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Safe Routes to School Bicycle/Pedestrian Improvements: New sidewalk on High Street from Union Street along the south side to Pleasant Street. Mill Brook foot bridge improvements for pedestrians.

WIN#	Work Type	Scope	Total
016357.00	Development	New Construction	\$65,000

Brooklin	Route 175	Minor Collector, Bicycle/Pedestrian	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input type="checkbox"/>	Other <input type="checkbox"/>

Engineering for Bicycle and Pedestrian Safety Improvements: Connecting the school, post office and village area and post office on Route 175 in Brooklin.

WIN#	Work Type	Scope	Total
019417.00	Development	New Construction	\$17,000

Brooksville	Route 175	0.01 mile(s)	Minor Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Strut Replacement: Located 0.81 of a mile southerly of Route 176 on Route 175.

WIN#	Work Type	Scope	Total
019191.00	Rehabilitation	Strut Replacement	\$275,000

Bucksport, Orland	Route 46	6.78 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

PMRAP: Beginning 0.02 of a mile easterly of the Orland town line and extending easterly on Route 46 for 6.78 miles.

WIN#	Work Type	Scope	Total
019338.00	Rehabilitation	PMRAP	\$700,000

Ellsworth	Route 1	3.00 mile(s)	Principal Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Highway Resurfacing: Beginning 1.11 miles northerly of the Orland town line and extending northerly on Route 1 for 3.00 miles to 0.10 of a mile northerly of Bend Road.

WIN#	Work Type	Scope	Total
019204.00	Preservation	1 1/4" Overlay	\$825,515

Ellsworth	Route 180	1.74 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Bridge Removal: Elimination of Graham Lake Dam Bridge (#0463) with the roadway being relocated along the west side of the Union River connecting Route 180 with Route 1A.

WIN#	Work Type	Scope	Total
010063.10	Development	New Construction	\$6,330,000

Ellsworth	Route 1A	1.35 mile(s)	Principal Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input type="checkbox"/>	Other <input type="checkbox"/>

Preliminary Engineering for Future Reconstruction: Beginning 0.35 of a mile northerly of Route 179/180 and extending southerly on Route 1A for 1.35 miles to the intersection of State and Oak Streets.

WIN#	Work Type	Scope	Total
019196.00	Development	Reconstruction	\$200,000

Ellsworth	Route 1A		Principal Arterial, Bicycle/Pedestrian
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>	Other <input type="checkbox"/>

Engineering for Bicycle and Pedestrian Safety Improvements: Located on Route 1A, and connecting Birch Avenue to Church Street.

WIN#	Work Type	Scope	Total
019413.00	Development	New Construction	\$10,000

Ellsworth	Surry Road/Route 172	0.01 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Strut Replacement: Located 1.57 miles southerly of the Ellsworth/Surry town line on Surry Road/Route 172.

WIN#	Work Type	Scope	Total
019341.00	Rehabilitation	Strut Replacement	\$300,000

Franklin	Route 182	13 foot span	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Bridge Culvert Replacement: Alder Brook Bridge (#5728) over Alder Brook. Located 0.85 of a mile northerly of the Alder Hill Brook Road.

WIN#	Work Type	Scope	Total
019310.00	Development	Bridge Culvert Replacement	\$500,000

Gouldsboro	Route 186	0.07 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Highway Improvements: Embankment fill to reduce guardrail, beginning 0.10 of a mile southerly of the Clinic Road and extending northerly 0.07 of a mile.

WIN#	Work Type	Scope	Total
017121.00	Rehabilitation	Structural Overlay	\$60,000

Gouldsboro	Route 186	Minor Collector, Bicycle/Pedestrian
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input type="checkbox"/>
Other <input type="checkbox"/>		

Engineering for Drainage and Pedestrian Safety Improvements: Connecting businesses, the town hall, library and school entrance to improve economic and community development, and safety.

WIN#	Work Type	Scope	Total
019415.00	Development	New Construction	\$35,000

Gouldsboro	Route 186	0.01 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Culvert Replacement: Located 0.05 of a mile southerly of the Clinic Road.

WIN#	Work Type	Scope	Total
017542.00	Rehabilitation	Strut Replacement	\$250,000

Mount Desert	Route 102	0.01 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Strut Rehabilitation: Located 1.87 miles southerly of the Bar Harbor town line.

WIN#	Work Type	Scope	Total
019337.00	Rehabilitation	Strut Rehabilitation	\$200,000

Orland, Ellsworth	Route 1	7.52 mile(s)	Principal Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Highway Resurfacing: Beginning 0.32 of a mile northerly of Gray Meadow Road and extending northerly on Route 1 for 7.52 miles.

WIN#	Work Type	Scope	Total
019205.00	Preservation	Mill and Fill	\$3,052,686

Penobscot	Route 166	1.89 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Highway Resurfacing: Beginning at the Castine town line and extending and extending northerly 1.89 miles.

WIN#	Work Type	Scope	Total
019190.00	Preservation	3/4" Overlay	\$250,315

Prospect, Verona Island	Route 1/3	2042 foot span	Principal Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Bridge Removal: Waldo-Hancock Bridge (#3008) over the Penobscot River. Located at the Prospect-Verona town line.

WIN#	Work Type	Scope	Total
007965.58	Development	Bridge Removal	\$7,598,000

T28 MD	Route 9	26 foot span	Principal Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Bridge Culvert Rehabilitation: Starvation Brook Bridge (#1086) which carries Route 9 over Starvation Brook. Located 0.25 of a mile easterly of Back Road.

WIN#	Work Type	Scope	Total
019307.00	Rehabilitation	Bridge Culvert Rehabilitation	\$300,000

Tremont	Tremont Road	18 foot span	Minor Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input type="checkbox"/>	Other <input type="checkbox"/>

Preliminary Engineering for Future Bridge Replacement: Clark Bridge (#3663) which carries Tremont Road over Marshall Brook. Located 0.17 of a mile northeasterly of Flat Iron Road.

WIN#	Work Type	Scope	Total
019305.00	Development	Bridge Replacement	\$150,000

Tremont	West Tremont Road	0.10 mile(s)	Minor Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Highway Safety Improvements: Beginning 0.22 of a mile easterly of the Bernard Road and extending easterly on West Tremont Road for 0.10 of a mile.

WIN#	Work Type	Scope	Total
017120.00	Operational and Safety Improvements	Safety Improvements	\$225,000

Trenton	Acadia Gateway Center	Highway Mass Transit	
Fiscal Year 2012			
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>	Other <input checked="" type="checkbox"/>

Construction of the administration and maintenance facility for Downeast Transportation and the Island Explorer Bus Service. Fiscal Year 2012.

009493.10	Development	Reconstruction	\$7,825,000

Sanford	Route 224	1.18 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Full Depth Reclaim: Beginning at Route 202 and extending westerly on Route 224 for 1.18 miles.

WIN#	Work Type	Scope	Total
019325.00	Rehabilitation	Full Depth Reclaim W/Cement	\$600,000

Sanford	Route 4		Minor Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Intersection Improvements: Located at the intersection of Route 4 and School Street.

WIN#	Work Type	Scope	Total
019001.00	Operational and Safety Improvements	Intersection Improvement	\$21,000

Sanford	Route 4	75 foot span	Minor Arterial, Highways
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Bridge Scour Countermeasures: Powers Bridge (#3827) over the Mousam River. Located 0.19 of a mile northeasterly of Jagger Mill Road.

WIN#	Work Type	Scope	Total
019272.00	Rehabilitation	Bridge Substructure Rehabilitation	\$155,000

Sanford	Safe Routes to School		Non-Motorized
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Safe Routes to School Bicycle/Pedestrian Improvements: Bicycle lanes, pedestrian crossing signals, and bicycle racks.

WIN#	Work Type	Scope	Total
016346.00	Development	New Construction	\$45,556

Sanford	Sanford Regional	Air Transportation	
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>	Other <input checked="" type="checkbox"/>

Resurfacing: Seacoast Taxiway I and II Taxilane Rehabilitation include Runup Area for 32.

WIN#	Work Type	Scope	Total
019674.00	Rehabilitation	Resurfacing	\$324,450

Sanford	School Campus Sidewalk	Safe Routes to School	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>	Other <input type="checkbox"/>

Engineering for Bicycle and Pedestrian Safety Improvements: Located at Willard Elementary School and Sanford Junior High campuses.

WIN#	Work Type	Scope	Total
019382.00	Development	New Construction	\$11,000

Sanford	York County Comm Action	FTA 5310	
Fiscal Year 2012			
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>	Other <input checked="" type="checkbox"/>

Capital transportation investments to support transportation services for elderly individuals and persons with disabilities.

WIN#	Work Type	Scope	Total
019524.00	Transit	Capital Equipment Purchase	\$88,455

Sanford	York County Comm Action	FTA 5310	
Fiscal Year 2013			
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>	Other <input checked="" type="checkbox"/>

Capital transportation investments to support transportation services for elderly individuals and persons with disabilities.

WIN#	Work Type	Scope	Total
019525.00	Transit	Capital Equipment Purchase	\$88,455

South Berwick	Reconstruction	0.44 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

This project will be considered for funding based on continued KACTS Financial support.

Highway Improvements: 1) Reconstruction: Beginning at Main Street and continuing for 0.29 of a mile northerly to the Pan Am RR tracks; 2) Mill & Fill: Beginning at Main Street and continuing 0.15 of a mile southerly to Portland Street.

WIN#	Work Type	Scope	Total
017852.00	Development	Reconstruction	\$1,230,000

South Berwick	Route 101	0.01 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Strut Replacement: Located 0.21 of a mile northerly of Flynn's Lane on Route 101.

WIN#	Work Type	Scope	Total
019262.00	Rehabilitation	Strut Replacement	\$200,500

South Berwick	Route 101	0.01 mile(s)	Major Collector, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Strut Replacement: Located at the Eliot-South Berwick town line on Route 101.

WIN#	Work Type	Scope	Total
019118.00	Rehabilitation	Strut Replacement	\$454,000

South Berwick	Route 4	1.17 mile(s)	Minor Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Highway Resurfacing: Beginning at the New Hampshire State Line and extending northerly on Route 4 for 1.17 miles.

WIN#	Work Type	Scope	Total
019115.00	Preservation	Mill and Fill	\$860,640

Waterboro	Old Alfred Road	Major Collector, Bicycle/Pedestrian	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>	Other <input type="checkbox"/>

Engineering for Pedestrian Safety Improvements: Connecting neighborhoods, sport fields and the Middle School on Old Alfred Road in Waterboro.

WIN#	Work Type	Scope	Total
019396.00	Development	New Construction	\$30,000

Waterboro	Route 4/Route 202	Principal Arterial, Highways	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Intersection Improvements: Located at the intersection of Route 4 and Route 202.

WIN#	Work Type	Scope	Total
019005.00	Operational and Safety Improvements	Intersection Improvement	\$25,000

York	Organug Road	255 foot span	Local, Bridge
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input checked="" type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Bridge Rehabilitation: Sewalls Bridge (#3096) over the York River, located 1.00 mile northerly of Route 103.

WIN#	Work Type	Scope	Total
012665.00	Rehabilitation	Bridge Rehabilitation	\$1,600,000

York	Route 1	6.96 mile(s)	Minor Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

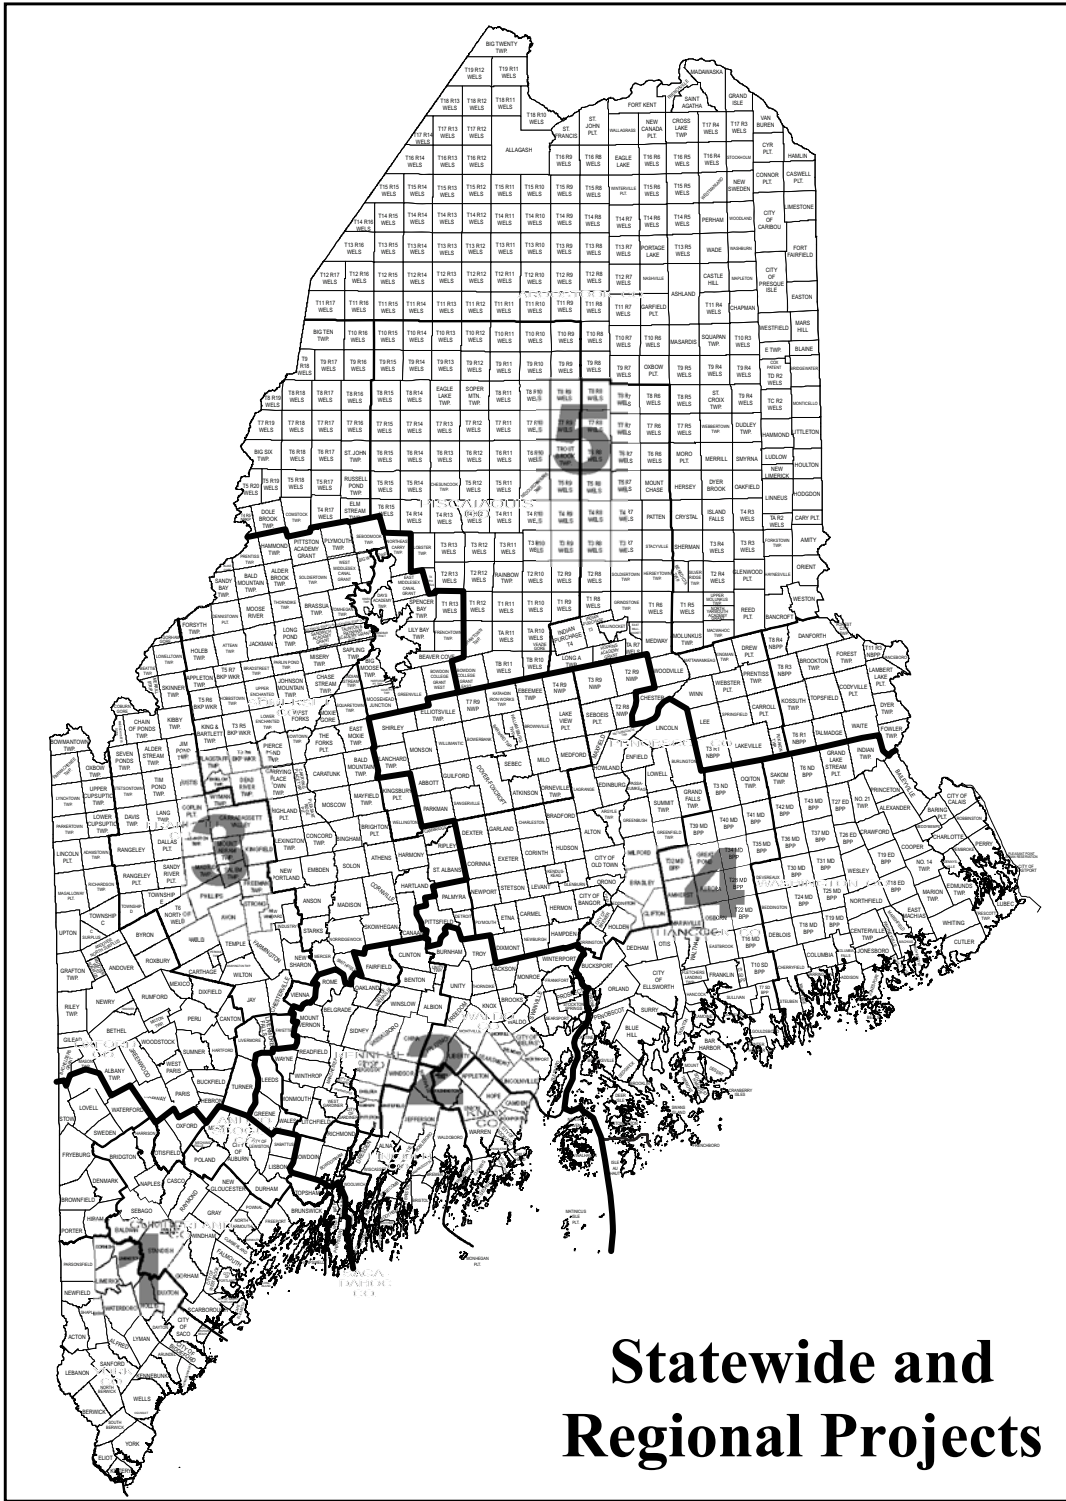

Highway Resurfacing: Beginning 0.22 of a mile northerly of Cider Hill Road and extending northerly on Route 1 for 6.96 miles.

WIN#	Work Type	Scope	Total
015822.00	Preservation	1 1/4" Overlay	\$2,467,662

York	Spur Road	0.51 mile(s)	Minor Arterial, Highways
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Highway Resurfacing: Beginning at Chases Pond Road and extending northerly on Spur Road for 0.51 of a mile to Route 1.

WIN#	Work Type	Scope	Total
015823.00	Preservation	1 1/4" Overlay	\$336,479

Statewide and Regional Projects

Regional	Premature Rutting	Production Support
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>
Other <input type="checkbox"/>		

Investigates the cause of premature pavement distresses in MaineDOT's Northern Region and tests hot mix asphalt samples for susceptibility to moisture .

WIN#	Work Type	Scope	Total
019050.00	Program Administration	General Program Administration	\$75,000

Statewide	511 Evaluation	Intelligent Transportation Systems
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>
Other <input type="checkbox"/>		

511 Evaluation: An evaluation of 511 service providers and the Radio Room operations to provide traveler information in the most effective way.

WIN#	Work Type	Scope	Total
019068.00	Operational and Safety Improvements	Intelligent Transportation Systems	\$100,000

Statewide	511 Operations	Intelligent Transportation Systems
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

511 Operations: Provides for 511 operations; including phone calls.

WIN#	Work Type	Scope	Total
019067.00	Operational and Safety Improvements	Intelligent Transportation Systems	\$250,000

Statewide	Application Development	Production Support
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Application development; to pay the Office of Information Technology charges incurred in support, development and maintenance of MaineDOT's information technology systems.

WIN#	Work Type	Scope	Total
019375.00	Program Administration	General Program Administration	\$5,700,000

Statewide	Aquatic Barrier	Production Support
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>
Other <input type="checkbox"/>		

Analysis of Projected Replacement and Costs for Potential Aquatic Barriers maintained by MaineDOT: Identify the high priority stream crossing locations.

WIN#	Work Type	Scope	Total
019024.00	Program Administration	General Program Administration	\$50,000

Statewide		Aquatic Conservation		Environmental Office	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Interagency Collaboration: Process funding for interagency collaboration for aquatic conservation.

WIN#	Work Type	Scope	Total
019363.00	Field Investigations, Studies and Research	Planning Studies	\$200,000

Statewide		Aquatic Organism Passage		Environmental Office	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Assess regulatory compliance of crossing structure projects. Identify measures to avoid, and mitigate, impacts to the environment.

WIN#	Work Type	Scope	Total
019358.00	Development	Environmental Construction - fish	\$150,000

Statewide		Asset Services		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Highway Management: Optimizes use of available funds by monitoring and evaluating the condition of Maine's roads, recommending maintenance and capital improvement strategies and reporting on their effectiveness to maintain and enhance Maine's highways.

WIN#	Work Type	Scope	Total
019038.00	Field Investigations, Studies and Research	Planning Studies	\$1,425,000

Statewide		Aviation Study		Air Transportation	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input checked="" type="checkbox"/>

Planning Studies: New England General Aviation Study.

WIN#	Work Type	Scope	Total
019632.00	Field Investigations, Studies and Research	Planning Studies	\$103,000

Statewide		Boating Infrastructure		Marine	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

U.S. Fish and Wildlife Service: Boating Infrastructure Grant Program (BIG); Tier I Federal Fiscal Year 2012-2013 allocation to fund construction, renovation or maintenance of tie-up facilities for transient boaters in vessels 26 feet or more in length.

WIN#	Work Type	Scope	Total
019699.00	Program Administration	General Program Administration	\$266,666

Statewide		Bridge Design		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Bridge Design/Construction Program Management and Project Support.

WIN#	Work Type	Scope	Total
019324.00	Program Administration	General Program Administration	\$1,950,000

Statewide		Bridge Inspections		Bridge	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

Statewide Bridge Inspections: Inspections of bridges, including; scour and testing of bridges for public safety.

WIN#	Work Type	Scope	Total
019064.00	Facility Inspections	Bridge Inspections	\$6,800,000

Statewide		Bridge Management		Production Support	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

Optimizes maintenance, repair, rehabilitation and replacement strategies for bridges using life cycle analysis, both at the network level and at project level, in cooperation with a team of experts from engineering and environmental disciplines.

WIN#	Work Type	Scope	Total
019063.00	Program Administration	General Program Administration	\$575,000

Statewide		Bridge Testing		Production Support	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

Perform live load testing using a specialized data acquisition system to provide more accurate load ratings for bridges.

WIN#	Work Type	Scope	Total
019031.00	Program Administration	General Program Administration	\$50,000

Statewide		Business Services		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Customer/Business Services: Ports & Marine planning/management, freight rail administration, rail and transit planning and highway/bridge planning.

WIN#	Work Type	Scope	Total
019698.00	Program Administration	General Program Administration	\$2,500,000

Statewide	Capital Administration	Production Support	
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Regulatory compliance, program management, development and implementation.

WIN#	Work Type	Scope	Total
019366.00	Program Administration	General Program Administration	\$880,000

Statewide	Clay Liquefaction	Production Support	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>	Other <input type="checkbox"/>

Failures and liquefaction of sensitive, low plasticity, silt clay induced by construction and natural vibrations: This study will quantify the impacts of using vibratory pile driving in Presumpscot clays.

WIN#	Work Type	Scope	Total
019049.00	Program Administration	General Program Administration	\$100,000

Statewide	Climate Change	Environmental Office	
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Compliance with federal and state floodplain management programs. Flood hazard identification, avoidance and mitigation. Assessment of potential risk associated with the replacement of flood prone crossings.

WIN#	Work Type	Scope	Total
019361.00	Field Investigations, Studies and Research	Inter-agency Studies and Planning	\$70,000

Statewide	Coastal Resources	Environmental Office	
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Coastal Hazard and Resource Identification: Staff resources for cooperative work with MaineDOT to reduce liability of the impacts of coastal resources.

WIN#	Work Type	Scope	Total
019362.00	Field Investigations, Studies and Research	Inter-agency Studies and Planning	\$20,000

Statewide	Commercial Vehicle	Motor Carrier	
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Capital Equipment Purchase: Purchase of vehicles and equipment for the Maine State Police Commercial Vehicle Enforcement Unit.

WIN#	Work Type	Scope	Total
019701.00	Development	Capital Equipment Purchase	\$600,000

Statewide	Community Development	Production Support
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Community/Regional Development Programs: Metropolitan Planning Organizations, Regional Planning Commissions, Byways, Corridor planning, Local Technical Assistance Program, Small Harbor Improvement/Quality Community Grants and Interagency coordination.

WIN#	Work Type	Scope	Total
019029.00	Program Administration	General Program Administration	\$1,875,000

Statewide	Contract Development	Production Support
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Construction Contract Development, Procurement of Services and Payment of expenditures.

WIN#	Work Type	Scope	Total
019373.00	Program Administration	General Program Administration	\$1,250,000

Statewide	Crash Records	Production Support
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Analysis of the data assisting engineers and public safety officials to focus available resources on countermeasures producing reductions in crashes and injuries.

WIN#	Work Type	Scope	Total
019442.00	Field Investigations, Studies and Research	Traffic Studies	\$750,000

Statewide	Critical Ecosystem Restor	Environmental Office
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Leverage funds from other bureaus, and other agencies, to address high priority projects. Projects to include; eliminating tidal restrictions, and restoring affected species and habitats, as impacted, by the assets of MaineDOT.

WIN#	Work Type	Scope	Total
019368.00	Mitigation	Natural Resource Mitigation	\$113,000

Statewide	Critical Infrastructure	Production Support
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Critical Infrastructure Improvements: Spot safety, critical infrastructure improvements and assessments statewide.

WIN#	Work Type	Scope	Total
019252.00	Program Administration	General Program Administration	\$200,000

Statewide	DBE Support 2012	Production Support
Fiscal Year 2012		
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Combination of federal grant and federal funds for a program to support Disadvantaged Business Enterprise in marketing promotion, and increased participation on federally funded highway projects and contracts.

WIN#	Work Type	Scope	Total
019535.00	Program Administration	General Program Administration	\$230,000

Statewide	DBE Support 2013	Production Support
Fiscal Year 2013		
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Combination of federal grant and federal funds for a program to support Disadvantaged Business Enterprise in marketing promotion, and increased participation on federally funded highway projects and contracts.

WIN#	Work Type	Scope	Total
019536.00	Program Administration	General Program Administration	\$230,000

Statewide	Diversity 2012	Production Support
Fiscal Year 2012		
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Program funding to assist in recruitment of businesses to participate in the Disadvantaged Business Enterprise (DBE) program, as well as; funding to promote education and diversity in the trades.

WIN#	Work Type	Scope	Total
019354.00	Program Administration	General Program Administration	\$100,000

Statewide	Diversity 2013	Production Support
Fiscal Year 2013		
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Program funding to assist in recruitment of businesses to participate in the Disadvantaged Business Enterprise Program, as well as; funding to promote education and diversity in the trades.

WIN#	Work Type	Scope	Total
019353.00	Program Administration	General Program Administration	\$100,000

Statewide	Endangered Species Screen	Environmental Office
Fiscal Year 2012		
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

State/Federal Endangered Species Act: Screening transportation projects for overlap with areas of critical habitats/essential habitats, as mandated by the Act, and ensure compliance, as required, by consultation or conferencing with regulatory agencies.

WIN#	Work Type	Scope	Total
019371.00	Field Investigations, Studies and Research	Natural Resource Investigation	\$50,000

Statewide		Engineering Oversight		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Engineering oversight, evaluation and enhancements to Maine's transportation system.

WIN#	Work Type	Scope	Total
019377.00	Program Administration	General Program Administration	\$200,000

Statewide		Engineering Plans		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Engineering and Planning Preparation Software and Systems.

WIN#	Work Type	Scope	Total
019378.00	Program Administration	General Program Administration	\$800,000

Statewide		Environmental Management		Environmental Office	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

A program to ensure continued compliance with relevant, and applicable, environmental regulations.

WIN#	Work Type	Scope	Total
019365.00	Field Investigations, Studies and Research	Cultural Resource Investigation	\$20,000

Statewide		Environmental Office		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Environmental evaluation, design and review.

WIN#	Work Type	Scope	Total
019367.00	Development	Roadside Improvements	\$742,000

Statewide		Environmental Office		Production Support	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

Interagency and Intraagency Environmental coordination on projects.

WIN#	Work Type	Scope	Total
019359.00	Program Administration	General Program Administration	\$480,000

Statewide		Excavator Leasing		Maintenance Surface Treatment: Statewide	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Highway Maintenance, Other: Ditching of highway segments that are planned to be improved under the Collector Highway Improvement Program (CHIP) and the Pavement Preservation Program.

WIN#	Work Type	Scope	Total
019254.00	Preservation	Other Highway Maintenance	\$1,000,000

Statewide		Experimental Construction		Production Support	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

Projects are established to evaluate products or technologies as a part of federal aid construction projects. This project will enable research and development administrators to accurately manage the costs of post-construction experimental projects.

WIN#	Work Type	Scope	Total
019033.00	Program Administration	General Program Administration	\$15,000

Statewide		Federal Reporting		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Federal Reporting and Compliance.

WIN#	Work Type	Scope	Total
019030.00	Program Administration	General Program Administration	\$2,500,000

Statewide		Garvee Interest		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Debt Service Interest: Retirement for the 2008 Grant Anticipation Revenue Vehicle (GARVEE) Bond for statewide projects.

WIN#	Work Type	Scope	Total
017000.61	Financial Administration	Financial Tracking PIN	\$3,052,101

Statewide		Garvee Interest		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Debt Service Interest: 2010 Grant Anticipation Revenue Vehicle (GARVEE) Bond debt service interest payment.

WIN#	Work Type	Scope	Total
018111.61	Financial Administration	Financial Tracking PIN	\$3,595,192

Statewide		Garvee Principal		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Statewide: Debt Service Principal for the 2008 Grant Anticipation Revenue Vehicles (GARVEE) Bond.

WIN#	Work Type	Scope	Total
017000.60	Financial Administration	Financial Tracking PIN	\$7,470,000

Statewide		Garvee Principal		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Debt Service Principal: 2010 Grant Anticipation Revenue Vehicle (GARVEE) Bond debt service principal payment.

WIN#	Work Type	Scope	Total
018111.60	Financial Administration	Financial Tracking PIN	\$6,070,000

Statewide		GIS Management		Production Support	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

To provide continued development and management of Geographic Information System tools that provide system management information to the Department and the public.

WIN#	Work Type	Scope	Total
019042.00	Program Administration	General Program Administration	\$1,300,000

Statewide		Grant Administration		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Administer municipal payments under the Urban and Rural Initiative Program, transit provider grants, local roads and other technical and operational training.

WIN#	Work Type	Scope	Total
019027.00	Program Administration	Training	\$1,250,000

Statewide		Highway Design		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Highway Design/Construction Program Management and Project Support.

WIN#	Work Type	Scope	Total
019248.00	Program Administration	General Program Administration	\$4,700,000

Statewide	Hydraulic Flow Estimates	Environmental Office
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Develop methods to estimate design flows from observed rust and water lines in culverts.

WIN#	Work Type	Scope	Total
019370.00	Field Investigations, Studies and Research	Natural Resource Investigation	\$150,000

Statewide	Information Technology	Production Support
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Office of Information Technology's Services: To pay all rate-based charges related to the purchase or support of information and communication devices; such as internet connections, email, desktops/laptops, telephones, radios, servers and printers.

WIN#	Work Type	Scope	Total
019072.00	Program Administration	General Program Administration	\$4,000,000

Statewide	Intelligent Trans Devices	Intelligent Transportation Systems
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

ITS Maintenance: Maintenance of all ITS equipment deployed at various locations; statewide.

WIN#	Work Type	Scope	Total
019071.00	Operational and Safety Improvements	Intelligent Transportation Systems	\$500,000

Statewide	Intercity Transit	FTA 5311
Fiscal Year 2012		
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>
Other <input checked="" type="checkbox"/>		

Develop and facilitate the most efficient use of funds to provide passenger transportation in non-urbanized areas through coordination of programs and services to enhance access to health care, shopping, education, employment and public services.

WIN#	Work Type	Scope	Total
019675.00	Transit	Capital Equipment Purchase	\$590,736

Statewide	Intercity Transit	FTA 5311
Fiscal Year 2013		
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>
Other <input checked="" type="checkbox"/>		

Develop and facilitate the most efficient use of funds to provide passenger transportation in non-urbanized areas through coordination of programs and services to enhance access to health care, shopping, education, employment and public services.

WIN#	Work Type	Scope	Total
019676.00	Transit	Capital Equipment Purchase	\$590,736

Statewide		Interstate System		Vegetaion Management	
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>		

Establish sustainable vegetation in roadside areas on the Interstate System to reduce mowing and spraying.

WIN#	Work Type	Scope	Total
017058.00	Operational and Safety Improvements	Safety Improvements	\$75,000

Statewide		Interstate System		Vegetaion Management	
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>		

Remove undesirable secondary growth encroaching clear zones to improve safety, increase visibility of large animals, and prepare areas for sustainable vegetation.

WIN#	Work Type	Scope	Total
017058.10	Operational and Safety Improvements	Safety Improvements	\$75,000

Statewide		Linear Referencing		Production Support	
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>	Other <input type="checkbox"/>		

Update MaineDOT's linear referencing system, which is an essential part of geographically managed and reported data.

WIN#	Work Type	Scope	Total
019047.00	Program Administration	General Program Administration	\$140,000

Statewide		Long Creek Watershed		Environmental Office	
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>		

Representative of the MaineDOT position in the Long Creek Watershed Management District, and to monitor storm water quantity, and quality, from MaineDOT porous pavement project(s).

WIN#	Work Type	Scope	Total
019357.00	Mitigation	Natural Resource Mitigation	\$400,000

Statewide		Maintenance Paving		Maintenance Surface Treatment: Statewide	
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>		

Maintenance Surface Treatments: MaineDOT will pave 1,200 miles; 600 miles in 2012 and 600 miles in 2013. Projects will be selected annually based on pavement conditions in order to keep roads serviceable.

WIN#	Work Type	Scope	Total
019249.00	Preservation	Maintenance Surface Treatment	\$43,300,000

Statewide		Major Studies		Planning	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Implementation of existing Major Studies statewide.

WIN#	Work Type	Scope	Total
019041.00	Development	New Construction	\$2,500,000

Statewide		Management Information		Production Support	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

Management Information Development and Administration: To provide on-going process review and appropriate management tools to increase Department efficiency, effectiveness and transparency to the public.

WIN#	Work Type	Scope	Total
019073.00	Program Administration	General Program Administration	\$1,200,000

Statewide		Material Quality		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Materials Quality Assurance Program and Project Support.

WIN#	Work Type	Scope	Total
019380.00	Program Administration	General Program Administration	\$1,100,000

Statewide		Materials Testing		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Materials Exploration and Testing Services, and Equipment.

WIN#	Work Type	Scope	Total
019379.00	Program Administration	General Program Administration	\$350,000

Statewide		MATS Expansion		Production Support	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

To further develop the system used by Maintenance and Operations to manage its work into a Department-wide work management system.

WIN#	Work Type	Scope	Total
019066.00	Program Administration	General Program Administration	\$460,000

Statewide		Mountain Division		Non-Motorized	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
Other <input type="checkbox"/>					

Design and Engineering for future improvements to the Mountain Division Rail with Trail.

WIN#	Work Type	Scope	Total
019423.00	Development	New Construction	\$150,000

Statewide		Multimodal		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
Other <input type="checkbox"/>					

Multimodal Project Engineering and Development.

WIN#	Work Type	Scope	Total
019593.00	Program Administration	General Program Administration	\$150,000

Statewide		Multimodal Design		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
Other <input type="checkbox"/>					

Multimodal Design/Construction Program Management and Project Support.

WIN#	Work Type	Scope	Total
019424.00	Program Administration	General Program Administration	\$500,000

Statewide		Multimodal Maintenance		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
Other <input type="checkbox"/>					

Optimizes available funding for multi-modal system assets, recommending maintenance and capital improvement strategies and reporting on the effectiveness to enhancing the State's infrastructure; analysis tools are under construction.

WIN#	Work Type	Scope	Total
019422.00	Program Administration	General Program Administration	\$475,000

Statewide		Natural Areas Program		Environmental Office	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
Other <input type="checkbox"/>					

Funding for data collection and management to use for screening transportation projects.

WIN#	Work Type	Scope	Total
019364.00	Field Investigations, Studies and Research	Inter-agency Studies and Planning	\$20,000

Statewide	New Freedom-Non Urban	FTA 5317
Fiscal Year 2012		
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>
		Other <input checked="" type="checkbox"/>

New public transportation services and alternatives beyond those required by the Americans with Disabilities Act of 1990 (ADA) to assist individuals with disabilities with transportation options; including jobs and employment support services.

WIN#	Work Type	Scope	Total
019533.00	Transit	Capital Equipment Purchase	\$120,094

Statewide	New Freedom-Non Urban	FTA 5317
Fiscal Year 2013		
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>
		Other <input checked="" type="checkbox"/>

New public transportation services and alternatives beyond those required by the Americans with Disabilities Act of 1990 (ADA) to assist individuals with disabilities with transportation options; including jobs and employment support services.

WIN#	Work Type	Scope	Total
019534.00	Transit	Capital Equipment Purchase	\$120,094

Statewide	New Freedom-Urban	FTA 5317
Fiscal Year 2012		
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>
		Other <input checked="" type="checkbox"/>

New public transportation services and alternatives beyond those required by the Americans with Disabilities Act of 1990 (ADA) to assist individuals with disabilities with transportation options; including jobs and employment support services.

WIN#	Work Type	Scope	Total
019546.00	Transit	Capital Equipment Purchase	\$122,740

Statewide	New Freedom-Urban	FTA 5317
Fiscal Year 2013		
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>
		Other <input checked="" type="checkbox"/>

New public transportation services and alternatives beyond those required by the Americans with Disabilities Act of 1990 (ADA) to assist individuals with disabilities with transportation options; including jobs and employment support services.

WIN#	Work Type	Scope	Total
019548.00	Transit	Capital Equipment Purchase	\$122,740

Statewide	New Product Evaluation	Production Support
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>
		Other <input type="checkbox"/>

Provides for program management of the New Products Program. This program is a central clearinghouse for all new product submittals, and a process to review and approve/not approve submitted products.

WIN#	Work Type	Scope	Total
019040.00	Program Administration	General Program Administration	\$158,000

Statewide	Non-Interstate System	Vegetaion Management	
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Establish sustainable vegetation in roadside areas on the non-Interstate System to reduce mowing and spraying.

WIN#	Work Type	Scope	Total
017059.00	Operational and Safety Improvements	Safety Improvements	\$100,000

Statewide	NSTI 2012	Production Support	
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

National Summer Transportation Institute: Annual grant funding to support youth education in transportation related professions. Federal Fiscal Year 2012.

WIN#	Work Type	Scope	Total
019046.00	Program Administration	General Program Administration	\$31,000

Statewide	NSTI 2013	Production Support	
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

National Summer Transportation Institute: Annual grant funding to support youth education in transportation related professions. Federal Fiscal Year 2013.

WIN#	Work Type	Scope	Total
019045.00	Program Administration	General Program Administration	\$31,000

Statewide	OJT Support	Production Support	
Fiscal Year 2012			
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Funding for services to promote, and increase, diversity in employment in highway construction trades, and on federally funded projects.

WIN#	Work Type	Scope	Total
019351.00	Program Administration	General Program Administration	\$550,000

Statewide	OJT Support	Production Support	
Fiscal Year 2013			
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>	Other <input type="checkbox"/>

Funding for services to promote, and increase, diversity in employment in highway construction trades, and on federally funded projects.

WIN#	Work Type	Scope	Total
019355.00	Program Administration	General Program Administration	\$550,000

Statewide	On the Job Training	Production Support
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
		Other <input type="checkbox"/>

Funding for required monitoring of trades training program to ensure attainment of diversity project goals.

WIN#	Work Type	Scope	Total
019350.00	Program Administration	General Program Administration	\$100,000

Statewide	On the Job Training	Production Support
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
		Other <input type="checkbox"/>

Funding for required monitoring of trades training program to ensure attainment of diversity project goals.

WIN#	Work Type	Scope	Total
019356.00	Program Administration	General Program Administration	\$100,000

Statewide	Origin Destination Study	Production Support
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
		Other <input type="checkbox"/>

Provide detailed traffic characteristics, and patterns, utilizing various data collection techniques, including; manual observations. This information is needed for decisions involving travel time improvements and considerations for driver safety.

WIN#	Work Type	Scope	Total
019025.00	Field Investigations, Studies and Research	Traffic Studies	\$180,000

Statewide	Park and Ride	Transportation Demand Management
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
		Other <input type="checkbox"/>

Maintenance: Statewide; maintenance of Park and Ride facilities.

WIN#	Work Type	Scope	Total
019518.00	Rehabilitation	Rehabilitation	\$80,000

Statewide	Park and Ride	Transportation Demand Management
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
		Other <input type="checkbox"/>

Park and Ride Facilities: Statewide; as the need arises, construction of new Park and Ride facilities.

WIN#	Work Type	Scope	Total
019519.00	Development	New Construction	\$120,000

Statewide		Pedestrian Improvements		Production Support	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

Economic, Transportation, Safety and Community Impacts of Pedestrian Improvements in Maine: Quantify the benefits of pedestrian improvement projects.

WIN#	Work Type	Scope	Total
019034.00	Program Administration	General Program Administration	\$75,000

Statewide		Pile Load Test		Production Support	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

Analysis of dynamic pile load test results from the past 20 years to determine more reliable static pile capacity estimates.

WIN#	Work Type	Scope	Total
019044.00	Program Administration	General Program Administration	\$50,000

Statewide		Planning Policy		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Transportation policy initiation, review and development.

WIN#	Work Type	Scope	Total
019023.00	Field Investigations, Studies and Research	Planning Studies	\$625,000

Statewide		Planning Program		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Implementation of the federally mandated Statewide Planning and Research Program.

WIN#	Work Type	Scope	Total
019043.00	Field Investigations, Studies and Research	Planning Studies	\$625,000

Statewide		Pooled Fund		Production Support	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

Pooled Fund Projects: National Cooperative Highway Research Program (NCHRP), Transportation Research Board (TRB), New England Transportation Consortium, Clear Roads Initiative, American Association of State Highway and Transportation Officials (AASHTO).

WIN#	Work Type	Scope	Total
019032.00	Program Administration	General Program Administration	\$800,000

Statewide	Problem Solving	Production Support
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>
Other <input type="checkbox"/>		

Projects typically established to address research needs that arise throughout the program year(s). Project types include conducting synthesis of state of the practice, collecting and analyzing field data and longer-term performance evaluation.

WIN#	Work Type	Scope	Total
019037.00	Program Administration	General Program Administration	\$157,000

Statewide	Program Development	Production Support
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Capital Work Program Development: Work includes enhanced project scoping to identify potential project impacts, candidate development, including; costs estimating, transportation management and resource allocation.

WIN#	Work Type	Scope	Total
019026.00	Planning and Program Development	Statewide Program Development	\$1,250,000

Statewide	Project Development	Production Support
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Capital Project Development and Production.

WIN#	Work Type	Scope	Total
019346.00	Program Administration	General Program Administration	\$1,100,000

Statewide	Property Management	Production Support
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Property Management and Acquisition.

WIN#	Work Type	Scope	Total
019347.00	Program Administration	General Program Administration	\$1,400,000

Statewide	Rail-Hwy Crossing Program	Rail-Highway Intersection Improvements
Engineering <input checked="" type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input checked="" type="checkbox"/>
Other <input type="checkbox"/>		

Railway-Highway Crossing Improvements, Statewide: These funds provide for the elimination of hazards, and the installation of protective devices at public railway-highway crossings.

WIN#	Work Type	Scope	Total
019697.00	Development	Signal Improvements(Rail/Highway Crossing)	\$2,400,000

Statewide		Research Program		Production Support	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

Requires states to develop, establish and implement a management process that meets Federal Highway Administration rulemaking requirements and a research program that conforms to a pre-approved management process.

WIN#	Work Type	Scope	Total
019039.00	Program Administration	General Program Administration	\$220,000

Statewide		Rest Areas		Maintenance & Operations	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Capital improvement needs at Visitor Information Centers and Rest Areas.

WIN#	Work Type	Scope	Total
017060.00	Rehabilitation	Rehabilitation	\$800,001

Statewide		River Gauge System		Intelligent Transportation Systems	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Flood Gauges: Funding for maintenance of United States Geological Survey (USGS) flood gauges used for infrastructure protection.

WIN#	Work Type	Scope	Total
019069.00	Operational and Safety Improvements	Intelligent Transportation Systems	\$100,000

Statewide		Safe Routes Safety		Safe Routes to School	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input type="checkbox"/>

Statewide Education: Federally required safety, education and transportation program for improving safety on routes leading to schools.

WIN#	Work Type	Scope	Total
019421.00	Development	New Construction	\$109,500

Statewide		Safety Office		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Oversight, evaluation and enhancement of transportation safety operations and improvements statewide.

WIN#	Work Type	Scope	Total
019374.00	Program Administration	General Program Administration	\$1,200,000

Statewide		School Programs		Non-Motorized	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
Other <input type="checkbox"/>					

Statewide Bicycle and Pedestrian Safety Program: To provide trainings in schools and communities regarding safe bicycle and pedestrian behaviors to reduce bicyclists and pedestrians injuries and deaths.

WIN#	Work Type	Scope	Total
019425.00	Development	New Construction	\$185,550

Statewide		Sidewalk Compliance		Non-Motorized	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
Other <input type="checkbox"/>					

Americans with Disabilities Act (ADA): Federally required pedestrian safety improvements on existing stand alone sidewalks.

WIN#	Work Type	Scope	Total
019419.00	Development	New Construction	\$62,500

Statewide		Slopes		0.25 mile(s)		Critical Infrastructure Program Region 1	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>	Other <input type="checkbox"/>	

Highway Improvements: To improve safety, and for mitigation of potential slope failures.

WIN#	Work Type	Scope	Total
019253.00	Operational and Safety Improvements	Safety Improvements	\$100,000

Statewide		Small Harbor Improvement		Marine	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
Other <input type="checkbox"/>					

Small Harbor Improvement Program (SHIP) constructs and rehabilitates municipal coastal facilities that ensure fishermen and lobstermen have access to the coast. The program leverages municipal match and ensures viability of the working waterfront.

WIN#	Work Type	Scope	Total
019700.00	Rehabilitation	Rehabilitation	\$1,000,000

Statewide		Small Watershed		Environmental Office	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
Other <input type="checkbox"/>					

Continuation of small watershed gauging at 15 sites to complete the last remaining gap (small watershed peak flow estimation) in MaineDOT hydrology design methods.

WIN#	Work Type	Scope	Total
019360.00	Field Investigations, Studies and Research	Natural Resource Investigation	\$78,000

Statewide		State Cost Allocation		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

State Cost Allocation Plan (STACAP): This plan enables the Maine Controller's Office and central government to recover the cost of providing un-billed central services to State Programs that operate with Federal and/or special revenue funds.

WIN#	Work Type	Scope	Total
019376.00	Program Administration	General Program Administration	\$3,000,000

Statewide		State System Plan		Air Transportation	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input checked="" type="checkbox"/>

Planning Studies: Update State System Plan Study - Aviation.

WIN#	Work Type	Scope	Total
019552.00	Field Investigations, Studies and Research	Planning Studies	\$206,000

Statewide		Statewide Cap Purchases		FTA 5310	
Fiscal Year 2012					
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input checked="" type="checkbox"/>

Capital transportation investments to support transportation services for elderly individuals and persons with disabilities.

WIN#	Work Type	Scope	Total
019540.00	Transit	Capital Equipment Purchase	\$92,914

Statewide		Statewide Cap Purchases		FTA 5310	
Fiscal Year 2013					
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input checked="" type="checkbox"/>

Capital transportation investments to support transportation services for elderly individuals and persons with disabilities.

WIN#	Work Type	Scope	Total
019541.00	Transit	Capital Equipment Purchase	\$92,914

Statewide		Streamflow Gauging		Environmental Office	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Environmental Improvements: Continue gauging at sites in Maine, as part of a larger gauging network. Essential for maintaining a data network which supports hydraulics, and hydrology, on MaineDOT projects.

WIN#	Work Type	Scope	Total
019369.00	Field Investigations, Studies and Research	Natural Resource Investigation	\$152,000

Statewide		Striping		Maintenance & Operations	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Striping: Statewide striping for Fiscal Years 2012-2013.

WIN#	Work Type	Scope	Total
019070.00	Operational and Safety Improvements	Striping	\$10,700,000

Statewide		Survey Support		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Survey Project Support and Equipment.

WIN#	Work Type	Scope	Total
019348.00	Program Administration	General Program Administration	\$2,200,000

Statewide		Systems Planning		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Transportation System Planning and Management: Traveler Information, Transportation System Performance, Travel Demand Modeling, Mobility and Safety Analysis and Conceptual Design.

WIN#	Work Type	Scope	Total
019028.00	Program Administration	General Program Administration	\$1,875,000

Statewide		Van Purchase		Transportation Demand Management	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input type="checkbox"/>
				Other	<input checked="" type="checkbox"/>

Capital Equipment Purchase: GoMaine van purchases.

WIN#	Work Type	Scope	Total
019554.00	Transit	Capital Equipment Purchase	\$240,000

Statewide		Vegetation		Vegetaion Management	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Add vegetated screens, living snow fences, and correct vegetation deficiencies along the state corridors.

WIN#	Work Type	Scope	Total
017062.00	Operational and Safety Improvements	Safety Improvements	\$75,000

Statewide		Vehicle Counting		Production Support	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Provide traffic count data collection sufficient to meet FHWA reporting requirements, monitor traffic growth and maintain the State's traffic database. Special counts are gathered upon request for Legislature and Department projects.

WIN#	Work Type	Scope	Total
019443.00	Field Investigations, Studies and Research	Traffic Studies	\$1,240,000

Statewide		Weigh In Motion		Intelligent Transportation Systems	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Weigh in Motion (WIM): Statewide installation of WIM's on the Interstate System.

WIN#	Work Type	Scope	Total
019444.00	Operational and Safety Improvements	Safety Improvements	\$505,000

Statewide		Weigh In Motion		Intelligent Transportation Systems	
Engineering	<input checked="" type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Weigh In Motion (WIM): Statewide installation of WIM's on Non-Interstate highways.

WIN#	Work Type	Scope	Total
019445.00	Operational and Safety Improvements	Safety Improvements	\$285,000

Statewide		Well Claims		Environmental Office	
Engineering	<input type="checkbox"/>	Property Acquisition	<input type="checkbox"/>	Construction	<input checked="" type="checkbox"/>
				Other	<input type="checkbox"/>

Directed studies to evaluate assertions made by owners of private water supplies that MaineDOT winter maintenance, or construction, activities have damaged the owner's potable water supplies.

WIN#	Work Type	Scope	Total
019372.00	Field Investigations, Studies and Research	Cultural Resource Investigation	\$40,000

Transit Administration / Operations

Auburn	AVCOG	FTA 5307
Fiscal Year 2012		
Engineering <input type="checkbox"/>	Property Acquisition <input type="checkbox"/>	Construction <input type="checkbox"/>
