CONGRESS

WHERE SHALL WE GO FOR A CHANGE See "Galaxy" for June, 1871.

the air the invalid should look out for interesting and a tractive scenery, agreeable society, apartments well ventilated if not spacious, enjoyable diet, mental diversion, and physical exercise." We propose to expiain that all of these conditions are fully and completely inliffilled at the "Congress Springs" and "Congress Hall."

In the Northwest part of Vermont is situated the town of Sheldon, the central town of Franklin county eight miles East of St. Albans, and sixty-eight miles by rail from Montreel.

Travelers will go first to St. Albans, Vermont, which is reached by all the New England, New York and Canadian Railways. On their arrival trains leave for "Congress Hall," eight miles distant, which is reached in thirty minutes. CLIMATE

The North-western part of Vermont, to within a short distance of Lake Champlain, is without doubt the healthliest portion of the United States, and most surpassingly so in the Spring, Summer and Fall the healthiest portion of the United States, and most surpassingly so in the Spring, Summer and Fall months.

In Shekion, easterly winds are almost wholly unknown at any season of the year. The water used for domestic purposes is pure granite water; hmetore water is unknown, hence the sweet. ess of the grasses, and the delicious qualities of the milk and butter produced in Shekidoa, and for which it has long been tamous.

Fevers are wholly unknown; a few months residence here soon removes all trace of diseases which invalids have contracted from poisonous atmosphere, in less healthy climates. Throughout all the warm seasons of the year the air is cool, dry and invigorating. Tornadoes have never been known, and harsh winds are rare. There are no swampe; the lands are dry and rolding, well watered and well drained. The annual deaths are said to be one in seven hundred, a smaller rate of mortality than is recorded of any other country.

There is a system of Mineral Springs at Sheldon, six in number, ail situated within two miles of each other; they differ greatly in the quality and volume of their waters, but by iar the most interesting and prominent is the "Congress Spring." This spring flows fourteen thousand gallons a day; the water is cold and clear, and of a slight husky taste.

BATHING. BATH HOUSES. Two fine Bathing Houses have been erected, which are as convenient and perfect in their fittings as can be found anywhere. Hot, Cold, and Tepid Baths are given at all hours of the day and evening. The following diseases are wholly cured, or greatly benefitted by drinking the Sheidon Congress Water, and bathiny in it, and residing near it: Headache, Sick and apopletic Headaches, Digniness Varies. FOR CONSUMPTIVES

cured.

DYSPEPTICS are soon relieved. Every form of Kidney Disease has been promptly cured. In all cases that have ever visited the Congress Springs and fully used its waters and baths.

SKIN DISEASES of all kinds, here find prompt alleviation, and a certain cure when the waters are perseveringly used by drinking and bathing, and assisted by a proper diet.

Humor in the Blood, of every variety, is soon renoved.

CANCERS. Some of the worst forms of Cancers ever known, both in males and females, have been wholly and permaneritly cured by using this water, in drinking and bathing, and as a local dressing.

Persons suffering from GENERAL PROSTRATION AND DEBILITY, arising from whatever cause, soon regain their strength at this tplace. RHRUMATISM.

"CONGRESS (HALL."

"CONGRESS (HALL."

This hotel is three stories in height, situated near he "Congress Spring," and lacing North, with wide plazzas to each story on the East, West and North idees, so that shade and out-door air can be had at all times of the day. The softest breezes woo the everted invalid to health; one hundred comfortable ocking chairs are provided for the use of the guests. The steeping rooms are all carpeted, and furnished hroughout with hair mattresses and spring beds, lankers, linen, &c., of the very best quality from he establishment of A. T. Siewart & Co., New York.

THE TABLE.

THE TABLE.

It is the determination of the proprietors of this House, that the TABLE shall not be exceeded by that of any other hotel in the quality and variety of food, or the perfection of the cooking; a good French Cook and Pastry Cooh being employed. This department gave great satisfaction last season; it is hoped the coming beason will far excel previous triumphs in this respect.

One of the features of this Hotel is its EVENING ENTERTAINMENTS, given to the young people, where all the guests of the house meet and become acquainted. At these Solrees after half past eight, Ices, fee Cream, Water I es, Sherbet, Iced Fruits, Caret, Sherry and Native Wine Punches, Chocolate, Sandwickes, &c., are served.

AMUSEMENTS. These are Quoits, Croquet, Ten-Pins and Billiards, Beautiful Riots may be taken in all directions. Fine Trout are tound in Fairfield Lake, one and a balf miles distant from the Hotel. Recent Publications. "The Physical Cause of the Death of Christ, and its Relations to the Principles and Practice of Christianty," by William Stroud. M. D., with a letter on the subject by Sir James Y. Simpson, Bart., M. D., published by D. Appleton & Co., New York, is a book destined to secure a permanent and honorable, place among standard theological works. It is the production of a master mind-the well ripened fruit of a quarter of a century's vigorous and careful thinking, reflection and investigation. Not a page but attests the wisdom, the learning, the fidelity, the thoroughness of its author and proves his wonderful adaptation to the work in hand In a book of this description it is indispensible. that ability, originality, and thorough scholarship should be apparent in every line, and if these be lacking, no felicity of expression, no charm of style can atone therefor, or give value to the book. Dr. Stroud's book lacks in neither of these particulars. The author was a remarkable man and singularly endowed. He seemed to possess every qualification necessary to make his work a master-piece. His acquaintance with medical subjects and medical literature was not less profound than his knowledge of the Bible and

scholars, and he brought to the performance of his task an all absorbing interest in the subject of which he was to treat. The chief object of the work is to denonstrate an important physical fact connectd with the death of Christ, and to point out its relation to the principles and practice of christianity. The author's opinion is that the death of Christ was not the mere result of crucifixion, but that he died from a ruptured broken heart. The latter part of the treatise is devoted to an able demonstration of the great truths of the gospel, derived from

theology in general. His mental discipline

and culture was vastly superior to that of most

men who acquire the reputation of ibeing

iternal evidence. The old but wonderful "story of the cross" and the immensity of Christ's sacrifice for a sinful race, becomes by the aid of this book more touching and impressive than ever, and the information gained from its perusal gives intense and added interest to all subsequent perusals of the "simple story" of the Redeemer's death. The want of a series of literal translations of the Greek and Latin authors who are usually studied in the American course of Academic, classical, and collegiate education, has been long felt by the most intelligent and assiduous classical teachers. That they are capable of being abused by the indolent and unfaithful pupil is no plea against their utility when employed in their legitimate place. A translation of an ancient writer into English, as perfectly literal as is permitted by the idioms of the respective langua plishment of his arduous task. If executed with fidelity and skill, it saves much time and labor in the consultation of dictionaries, and mbodies the best results of philological acunen and research in the shortest possible

The new classical library now being published by Harper & Brothers, New York, supolies the want above referred to, and has een welcomed by the whole corps of Amer ican classsical teachers. The important uses of such works in their daily vocations are too obvious to require discussion. Nor is the inerest of the series confined to teachers alone. Every reading man, though destitute of a knowledge of the ancient languages, feels a audable curiosity to form an acquaintance with the incomparable models of literary art which they have preserved. In the literal translations with which be is furnished by this series he will find the information he seeks, enabling him to comprehend current classical allusions with facility, to become familiar with the true spirit of the ancients, and to share in conversation and studies which presuppose a knowledge of Greek and Roman antiquity. Livy (books I to 30) in two volumes has been received by Loring, Short & Harmon. Price \$1.50 per volume.

"Sophocles," one of the series of Harper's reek and Latin texts, is also for sale at Lorng, Short & Harmon's. This series has been carefully prepared rom the best editions, and handsomely printed, and is intended to supply cheap and accurate editions of the classics, which shall be uperior in mechanical execution to the small German editions heretofore used in this country, and more convenient in form. author's happiest vein, and fully sustains his fine reputation as a discriminating observer and faithful delineator of human nature. To construct a story with but little plot without a single monstrosity, with no heart rending scenes, no hair breadth escapes, no ickly or exaggerated sentiment, and with out a single catastrophe, with such periect fidelity to nature as to arouse and maintain an bsorbing interest in the reader, is to our mind the evidence of genius. "Ralph the Heir" answers to this description. The characters are skillfully drawn, and the nartive progresses so quietly and naturally that one almost feels that "Ralph the Heir" and Ralph who was not the heir, the Underwood girls, old Neefit and Polly, Ontario Moggs and Mary Bonner are real personages, whose acquaintance he has recently formed,

and with whom he has been living and talking and riding and dining very much to his atisfaction and enjoyment. Polly Neefit, the breeches maker's pretty laughter, is the most charming character we have met with for many a day. Indeed she is a model of propriety and common sense. and not to know her as she is presented in

this book is to miss the acquaintance of a very superior young woman. The canvass and election of members of Parliament gives one a good idea of the excitement, corruption and eloquence usual upon such occasions, while the habits of life and habits of thought of English gentlemen and English tradesmen are truthfully described. The several love affairs are so managed that those capable of loving truly are rewarded for their constancy, while those incapable of anything better than an affectation of the ten

ler passion meet with their just deserts. "An inquiry into the Albany and Susquehanna railroad litigations of 1869, and Mr. David Dudley Fields connection therewith." by George Ticknor Curtis, is published in pamphlet form by D. Appleton & Co., New York, and is for sale by Bailey & Noyes.

Mr. Curtis' "opinion" was drawn up at the request of an intimate of Mr. Fields, wh doubtless felt that the numerous imputations cast upon his character by reason of his professional connection with certain iniquitous railroad transactions, would damage his reputation, unless something was done to counter act their influence. The opinion is chiefly interesting to railroad men and lawyers. The former can get a good idea of the deviltry of New York railroad Kings, and of the tricks and machinery by which they compass their purposes-the lawyer will find the "opinion" an ingenious vindication of Mr. Fields' pro-fessional conduct, and a valuable contribution

with us in this regard, that the Dominion Parliament will reject this part of the treaty. Why? Because the free market of the United States for Dominion fish is worth two dollars to the Dominion fishermen to every dollar which our fishermen will be benefitted by the privileges accorded to them by the treaty, and both parties know it. If the acceptance of the Treaty was with the fishermen of Maine it would be unanimously re-

So'long as it is a matter, not of opinion but of absolute certainty, that the American free market for Dominion fish is more than an equivalent for the concessions to American fishermen, we would not leave the question an open one. The treaty insures trouble and mischief by and by when the Commission, by whom the difference in the advantages enjoyed by the one side and the other is to be decided, come to hold its sessions. One party or the other will be dissatisfied and there will be endless bickerings.

The navigation of the St. Lawrence and the use of Dominion canals by American vessels, Western States, but the Provinces will be in no wise harmed by such use; on the contrary, the advantages will be certain. Montreal will become next to New York the most important commercial city in America. She could better afford to pay one hundred mil lions of dollars than close her great river and her canals against American commerce. Our own city too, we may hope would derive some benefit from an increase of the trade and commerce of the lakes flowing down the St. Lawrence. When the Grand Trunk Railway shall, as it must within a few years, complete its cut off between Montreal and Island Pond, the distance between these cities will shortened to 250 miles or less, and the status of Portland as the winter port of Montreal, and to a certain extent of all the cities of the North West, will be assured beyond possibili-

The New Hampshire Lesson. The Republicans of New Hampshire hereafter will not only require that those who seek the party nominations shall be honest, efficient and available, but the will anxiously ask if the aspirant is healthy and physically vigorous. If the experience of the past two weeks is heeded there will not be a Republican in the next house that will be exempt from military service except on the score of age. It is not our purpose, however, to dwell upon the desirability of having men of sound bodies as well as sound minds to give character to the legis lation of a State. Yet one shudders when he contemplates what baneful results can come to a progressive State from the action of the member with a torpid liver or a brain enfeebled by disease or clouded by debauchery. But we leave this part of the subject to others. There are other lessons that we

The first is, that any organization, in the New England States, particularly, under the banner of Temperance or Labor Reform, however excellent the purpose of those who have aided in the organization and honest the intentions of those who have voted for their candidates, inures wholly to the benefit of the Democratic party and only injures the success of the reform they would aid. It is too frequently the case that those who are most active in such organizations, and particularly in this Labor Reform movement, are not laboring men in any sense but usually cheap noisy politicians that have been expelled from both parties. These usually get the votes and the positions and when they have got the latter go into the market to sell and

It may be a matter of surprise to those who have voted for and elected the eight or ten labor reformers in the New Hampshire House that their representatives after their protestations so quickly found themselves ealously working out a Democratic victory in that State. But if they will only regard these organizations as Democratic side shows to secure the votes of such as have conscientious scruples against attending the performance in the main pavilion, they will understand just why the ten labor reformers took ten of those numbered votes and become, to all intents and purposes, Democrats.

The work will not stop with the legislature the present year. Acquiring a working majority in both branches, the Democracy proose to re-district the State so as to secure a Senate on a minority vote, and make such other changes as will secure them permanent advantage in the next elections.

We do not learn that the laboring classes of New Hampshire have asked the legislature in the past for any legislation in their behalf and been denied. The speeches made by the labor reform orators have been mostly mischievous in their tendency. They have discussed questions that no legislation can effect, and certainly none that they will secure from the present legislature of New Hampshire.

Another lesson that may be learned is the mportance of a single vote. No Republican can again excuse himself from not voting in that State. A dozen Republican votes in two representative districts would have changed the complexion of the State government. A few scattering votes in one city in a district decidedly Republican gave the election to

If we accept the reports of the party journals in New Hampshire, their defeat was partly due to injudicious nominations. This will be a good lesson not only to the Republicans of that State but others. The Republican party must select such men for candidates as commend themselves for their integrity, ability and devotion to their principles

to the rank and file of the party.

There are other lessons; but these suggest THE Legislature thought it had done very liberal act in voting the \$15,000 to build a Normal School House at Castine. It was supposed that the lot would be of little expense and that this sum would be sufficient to construct a fair building. It turns out however that it will require \$25,000 to finish the building that those interested in the matter have obtained plans for, and such a building as they deem of great importance. In view of the appropriation made, Gov. Perham and the Executive Council do not feel authorized to lay out the appropriation so as to involve the necessity of a further appropriation of a sum nearly as large. The Governor, in view of the state of affairs is disposed to postpone the building until another year if the purpose cannot be fully accomplished in

These cars were not entirely loaded with any one kind of fruit, but by far the greater number were loaded wholly with strawberries, and nearly all so. Calculating each quart of strawberries as two pounds, we have the equivalent of 1,056,000 quarts in May, 1870, and 2,992,000 in May, 1871, being an increase for this year of 1,936,000 quarts as compared with last tions has not always been exercised. The repudiation plank has brought the Ohio platform into disfavor with the Michigan Democrats, and one of their organs, the Detroit Free Press, vigorously assails it, saying: "It has in true Ohio fashion, and for mere local effect, upnecessarily inserted a muzzled by a put-up committee at a State declines to see him, and adds: "Foster was declines to see him, and adds: "Foster was dormerly one of my Sunday School scholars and belongs to a most respected family in St. George's church. Ar a Cabinet meeting held Friday, Secreta ry Robeson read a dispatch from Admiral Rodgers, commanding the Asiatic squadron, received that forenoon via San Francisco, giving an account of a fight between the Chinese on the Corean Peninsula and the combined forces of Americans and Europeans, connected with the squadrons in those waters.

Although the dispatch is not yet made public, it is understood that Admiral Rodgers was conveying to Corea a number of Coreans whom he had rescued from shipwrecks intending to illustrate the friendship of civilized nations as contrasted with the acts of the Coreans, who not long ago murdered a French crew wrecked on that coast. Boats' crews from the French, English, Prussian and American vessels on the mission were fired upon by the Chinese, who were probably not aware of the object of the expedition. A fight ensued in which the Chinese were punished, and Admiral Rodgers intimates that the conflict would be renewed next day. ry Robeson read a dispatch from Admiral employed to its utmost capacity, which capacity will undoubtedly be increased. THE first number of a bright looking month y magazine called the "Old Curiosity Shop," comes to us from the New England News Co. How much the interest taken by the early and is published by Harlow E. Woodward, 258 settlers of this town, in educational and religious culture may have depended upon the liberal provisions in the grant of the township to Joseph Frye, for these purposes, cannot be fully known; but one fact is now a matter of history, that but few towns in New England have had a better record in these particulars—whether or not the record Dudley street, Boston. The number contains fifteen articles of more than usual excellence and the wonder is that it can be furnished fo a dollar a year and the postage paid.

The Journal says she has been in feeble health for several mouths, and for a few weeks past had been confined to her room. The Journal says throughout the Kenn previous to the late rains, the cultivated fields were like an ash heap, and grass lands were famishing for rain. He complimated the delegates on the intelligence and skill in the debate which had been exhibited by them in previous councils. He described the unsafe condition of the Arrapahoes, Apaches, Cheyennes, Camanches and other uncivilized tribes; they were in the way of the great thoroughfare leading from the Mississippi to the Pacific shore, and in their wandering they frequently came in collision with parties of American people. His hearers clearly understood how idle it was for any power to seek to stand in the way of the expansion and growth of the white race. Their brethren have been crowded out of one State after another; the Seminoles from Florida, the Cherokees from Georgia, the Shawnees, Osages and Wyandottes from Kansas, and still the American people, aided with constant accessions of population from all parts of the world, were yet spreading and forever demanding fresh territory to found homes.

We learn from the Reporter that during the performance of the Adelphians in Skownegan Monday evening, a boxing glove was tossed across the stage and overturned a kerosene lamp used as a foot light and it fell over the stage, and breaking, the stuff caught fire. lation from all parts of the world, were yet spreading and forever demanding fresh territory to found homes.

The delegates that he was addressing, he said, represented the tribes who had the country secured to them by treaties with the United States. It was as fair and is as fine a country as the foot of man ever trod. The population of that country did not exceed 60,000 persons, and it was fully capable of supporting in abundance 600,000 people. It was a finer country than Kansas or Nebraska and it was equal in fertility to Illinois. The speaker believed in the white race. He knew the American people were aggressive and perhaps violent, but he would have it understood that they vindicated their aggressiveness by their increasing industry, energy and the careful ends to which they applied all that they acquired. He could see no reason why the Indians should not be equal to the white man. His body was equally robust and his brain as large. "Now what are you going to do? You are met in council to adopt a constitution and frame laws for the government of your territory and to harmonize your various tribes under the confederation. You cannot do this without harmony, without mutual concessions and willingness to yield a corresponding benefit for every advantage that is conceded to you. You can't all be Creeks, Choctaws or Cherokees. Each must sacrifice something for the benefit of the whole, and any additional security they would gain by the confederation of their whole number it would pay ten-fold for whatever concession they might be called upon to make."

In honor of Gen. Sherman the council deferred the business till next day, when Gen. ing their afternoon service till the third Sabbath of September; the Sabbath School till then, will meet at 3 P. M. We did the Empire Circus injustice yester-

day by saying that the tight rope performance was not given outside the canvas. On account of the threatening weather at 1 o'clock it was postponed until 5 o'clock, and a great many people were not aware of the fact. The circus as a whole was much better than the people were led to expect from current reports made Thursday a cow owned by Samuel Stickney

of Brownfield, was run over and killed by a gravel train on the Portland & Ogdensburg The early records of York county have been

re-copied and have just been bound up in good style by Hall L. Davis. It was curious to read over some of the documents, dating back to 1653. To us of the present age it seems almost puerile to preserve so carefully some matters of personal interest alone which the volume ontains. Mr. William Fessenden, of Fryeburg, aged

89, a cousin of the late Gen. Samuel Fessenden, one day this week covered one and a half acres of corn. He did well. Track-laying on the Portland & Ogdensburg

from Fryeburg towards Conway was begun Friday afternoon. The people of Fryeburg are much exercised in regard to the location of the road from the village to the depot. The ques-tion was finally submitted to the County Commissioners, who give a hearing on the matter At a meeting of the Trustees of Westbrook

The alumnae of Portland High School will give their reception at the City Hall Friday evening, June 30th, instead of the 29th, as pre-viously announced. This became necessary from the prior engagement of the Hall for the

Republican State Convention. There was more drunkenness on our streets yesterday than has been witnessed for a long time. Up to 11 o'clock last night nine persons had been taken to the station.

the Crawford House. Now that Portland has a railroad pushing directly for that beautiful place, it will be of more interest than ever to our citizens.

We were unable to accept the polite invitation of Prof. A. Graham Bell of the Boston Deaf-Mute School to attend yesterday's exhibition at Pemberton Square. A visit during Anniversary week, however, satisfied us that he and his associates are doing a wonderful work in teaching "visible speech," by which the dumb talk and read to us, though all the while not hearing themselves the sounds they form. The Portland Catholic Sabbath School Union will give a dramatic entertainment next Monday evening, at Music Hall, on which occasion they will perform the drama of Robert Emmett and the farce of That Rascal Pat. Their recent performances in Music Hall were highly spoken of by those who were present. Our Visitors. The hospitalities of our military and fire men to their visitors continued through yes

their homes last evening with pleasant recol-lections of our city and warm friendship towards her organizations. The visiting firemen were abroad early after the pleasures of the dance, and spent the morning in walking or riding around the city and visiting places of interest, often under the guidance of their hosts. Mayor Kingsbury took Aldermen Linscott and Seavy and Engineer Poor under his especial charge. At 11 o'clock they assembled at the Adams House and marched with their band to the house of Casco Engine Company No. 5, where tables were elegantly spread. Chief Engineer Moody and a number of the A-sistant Engineers, the Mayor and city officers joined them, and an hour was spent in feasting and merriment. A shower came up while thus engaged, and as a proper accompaniment the band played an elegant compo sition entitled Silvery Showers, cornet solo by Mr. Boardman. It was a right merry time and a new signal was adopted, "All up!" raising the right hand with the first and second

ingers extended, when drinking. About 2 o'clock Casco Engine Co. and Washington Hook and Ladder Co. with delegations rom the other city companies turned out in their new uniforms, with the Portland Band, and received the Massachusetts boys at the Adams House, the latter company having their truck with them. Chief Engineer Moody, and several Assistant Engineers and officers of the fire companies were in the ranks as invited guests. The route of march was quite long, and the display was very attractive. At the close of the day the visitors were escorted to the Boston boat, and the companies parted with personal expressions of regard, and a reg-

ular fireman's farewell. The Charlestown City Guards made a parade in the forenoon, visiting the Western Promenade on their route, where they broke ranks and for a time enjoyed the splendid scenery which that place affords. In the afternoon they received and did escort duty for the Lynn Cadets, after which carriages were furnished and the company were given a ride around the city. At half past 6 the Infantry turned out and escorted them to the Boston boat, by which they left for home. The Guards won much praise for their good appearance and courteous bearing, and their visit has been much enjoyed by our citizens.

When the train from Augusta arrived, at 3.15 p. m., it brought the Woldridge Cadets, of Lynn, a splendid corps, which had just enjoyed the hospitalities of the military of Bangor and Augusta, and were on their way home to participate in the celebration of the 17th of June in Charlestown. This is Co. I, of the 8th Massachusetts Regiment, and is officered as follows: J. C. Batchelder, Captain: C. C. Frye. 1st Lieutenant; J. F. Pool, 2d Lieutenant The uniform is dark blue with buff facings and trimmings, French caps and white belts.
It numbered yesterday 60 guns, and was accompanied by the Lynn Band, 22 pieces, in very neat uniforms. The company carried the colors of the 8th Regiment. The following gentlemen accompany the Cadets as guests: Hon. J. N. Buffam, ex-Mayor of Lynn, Messrs. E. F. Sawyer, E. Smith and N. E. Moulton, honorary members of the company; and the following members of the staff: Capts. Chas. al singing, whether members or not, are invitost everything called for at his counter Aids-de-Camp, W. Shaw, C. E. Parsons and A. Parsons; Surgeon, Charles Healey; Assistant Surgeon, A. Fuller; C. E. Kimball, Quartermaster of the 8th Regiment, and J. McDavitt, Adjutant.

With soldierly courtesy the Charlestown Guards volunteered to receive the Cadets at the depot, which they did in a very bandsome manner, and escorted them to the Falmouth Hotel, where they dined and supped, and remained until midnight when they left in the

CHARLES MATTHEWS .- Our citizens should not forget the rare dramatic treat which is to be offered to them on the evening of the 30th inst. It is not often that an opportunity is presented of witnessing so distinguished an actor as Mr. Matthews, and the present opportunity should be eagerly embraced. Our city has from time to time been favored with visits from eminent stars, whose performances have usually been well attended, and large sums of money have gone into the managerial treasury. But the pleasure derived from these entertain ments has always been more or less dampened by the inefficiency of the support, or the poverty of the scenery and effects. The large expense attendant upon the securing of the star renders it almost impossible to procure a competent and talented company for a support. It is true there have been several noteworthy exceptions to this general rule, such as the case of Messrs. Locke & Leslie, who not only engaged Mr. Wyzeman Marshall as the leading attraction, but also secured the services o Miss Fannie Herring, Mr. Louis Aldrich and Mrs. E. L. Davenport, in addition to their support might be rendered to Mr. Marshall. But generally the case has been otherwise

excellent company, in order that an efficient and our citizens have become so used to this order of things that they accept it as a matter of course. But this will not be the case with Mr. Matthews. The company which is to support him bave attained a national reputation, and need no eulogy from us. A company to which Mr. J. W. Wallack was regularly attached for a long time, and which includes among its members the well known names of Mr. G. H. Griffiths, Mr. C. A. Steadman, Mr. George Clair, Miss Amelia Harris, and Miss Josephine Orton, must of necessity take the precedence of all others. Now that Music Hali has been provided with its scenery, which by the way, is admirably

adapted for the light comedies in which Mr. Matthews is to appear, and with the first-class support, we know of no reason why the entertainment will not be absolutely perfect in every respect, and afford our citizens a dramatic treat such as they have never before enjoyed. We sincerely hope that no indifferent or careless spirit will be manifested by our citizens in regard to this entertainment, but that when the evening shall arrive, the hall will be filled with the largest audience ever assembled to witness a dramatic performance in this city. The expense attendant upon such an entertainmeut must of necessity be very large, and it is but our legitimate duty to see that Mr. Harry Mc-Glennin and his worthy principal, Mr. Arthur Cheney, shall meet with no pecuniary loss in the expensive enterprise which they have un-

place:

Mr. Murphy delivered his lecture, on Temperance, at Lemont Hall, on Monday evening. Prof. Jotham B. Sewall presided, and prayer was offered by Rev. Mr. Byington. Mr. Murphy's address was mainly confined to a narrative of his own personal experience as a rumseller in Portland, showing how readily, notwithstanding his stern resolve at the outset, he fell into the evil way of drinking. He explained, as no person could who had not "passed through the mill," the devious ways to which the barkeeper entices his victims to their ruin. He spoke of the terrible sufferings entailed upon his poor wife and children, by his wicked conduct, and he made the most earnest appeals to the young to avoid the formation of the social habit of drinking.

The address was a plain, straight-forward, manly appeal, based upon a bitter personal experience, (with no boast of the reformed drunkard) free from the expression of extreme of unfriendly opinions. Though not always correct in expression, the language of the speaker was exceedingly vigorous, pointed and affectionate, and his bearing that of a sincerely reformed man. Considering how little Mr.

affectionate, and his bearing that of a sincerely reformed man. Considering how little Mr. Murphy has spoken, he certainly acquits himself wonderfully well upen the stage. We think that such an address as he delivers, is eminently calcuted to open the eyes of the young to the fearful evils of the saloon and the bar room.

on Wednesday evening, in connection with of making out a case, which as was expected | the dramatic entertainment by the Catholic Sunday School Union, there was witnessed an exhibition of skill and proficiency in the manual of arms, which was deserving of the highest praise. Three members of the Port land Cauets executed the silent drill in splendid manner, which for perfect unison of movement, preciseness of action, and rapidity of execution, we have seldom if ever seen equalled. A repetition was enthusiastically demanded, and was given to the perfect satis faction of the audience. We understand that this excellent company, who, under the direction of their able and popular captain, are now making rapid progress in the school of the dier, will issue a challenge to the entire State terday, and we believe the latter returned to in the autumn of the present year. Our various military organizations must look well to their laurels if they would preserve their reputation, or the laurel crown may be wrung from them by this young and growing compa

AMATEUR THEATRICALS.—It will be seen by eference to our entertainment column, that the Amateurs will present the popular melodrama of "Don Cæsar De Bazan," at Music Hall on Tuesday evening next, for the benefit of the Portiand Fraternity. We are assured that it will be presented in a first class man ner, with gorgeous costumes, and all of the original music, by the best musical talent o our city. This drama has long been a favorite with our theatre-goers, dealing as it does with the intrigue and romance of the Spanish

All who were so fortunate as to witness the performance of "Still Waters Run Deep," a short time since, need not be told that this amateur association contains among its mem bers ladies and gentlemen who pessess more than ordinary dramatic talent, and whose performances are above the average of the theatrical companies which usually visit our city. We trust that the hall will be filled with ; large audience on Tuesday evening, and that a large sum may be realized for the worthy ob ject to which the proceeds will be devoted.

GRAND PIC-NIC EXCURSION.-A few days since we noticed the fact that the annual picnic of Forest City Temple of Honor is to come off ever the Portland & Ogdensburg railroad on the 5th of July. We learn that the arrangements are progressing most satisfactorily. The new pavillon at the foot of Lake Sebago is rapidly approaching completion, and will be first occupied on that day. The list of amusements which we have seen promises a rich treat to all who attend. We are not permitted to give details at present, but learn that the fare for the round trip, with all its accesseries, is to be but one dollar. An advertisement giving fall particulars will appear in a few days.

CATHOLIC REJOICINGS.-Agreeably to the re quest of Bishop Bacon the residences of our Catholic citizens were brilliantly illuminated last evening, in celebration of the 25th anniversary of the reign of Pope Pius IX. The Bishop set the example by splendidly illuminating the palace on Congress street and all the Catholic school edifices. On Munjoy the display was quite brilliant, and so it was in the vicinity of the residence of the Bishop, while Centre, Fore and York streets were never be fore in such a blaze. The illumination was general so far as our observation extended, in il the houses occupied by Roman Catholics, and the streets were filled with spectators. At the palace there was beautiful music from the Portland Band. At the Cathedral this forenoon Pentifical Mass will be celebrated by Bishop Bacon. A mass by Werner will be sung, with a Vivia, and at the close of the

mass a grand Te Deum will be given. THE TELEGRAPH furnishes the press a long and disjointed harangue purporting to be the remarks of Dr. Lanahan before the Committee to investigate the charges against the Methodist Book Concern officers. It was at first to our great joy asserted that the hearing was to be with closed doors, but to the infinite disgust of worldly editors, it has got out and into the hands of the Associated Press agents. Most people can see no sense in this Book Concern rumpus, so little in keeping with the orderly proceedings of that powerful denomination.

Debate in the Assembly.

Debate in the Assembly.

In the Assembly to-day the resolution appointing a committee to revise the decrees of the government of national detence was passed to a second reading. M. M. Arago and Simon during debate on resolution argued for thorough investigation and protested against calumbies heaped upon that government. A resolution for a committee to enquire into the causes of the late insurrection in Paris was introduced and was followed by a heated discussion. M. Hautjens attacked the party of the left as the losterers of a revolutionary spirit.—M. Tolain defended the international sodiety and denounced Napoleon, who he said was at one time willing to allow a memorial issued by the society to be distributed in France if a paragraph en logizing him was inserted in it. M. Tolain promised that if an investigation was ordered they will appear before the committee with documentary evidence justifying the course of the international society throughout the late war. He was asked by a deputy if he could likewise defend the insurrection and replied by judignantly repudiating all sympathy

BERLIN, June 16.—The triumphal entry of the army and the inaugnration of the equestrian statue of King Frederick William the 3d took place to-day in accordance with the programme in the imperial proclamation of the 12th. The weather was most lavorable and the city crowded with people who have been thronging hither for the past fortnight. The streets on the line of march were superbly decorated and in public squares triumphal arches were raised and platforms erected to accommodate the thousands of spectators. The procession was one of the most magnificent of modern times—was headed by eagles and standards captured from the French. It marched in from Templehof field to the palace between two rows of cannen, numbering nearly 2000, taken during the war. At intervals along the line enormous trophies formed of captured arms were erected. After the first divisic n of the column had passed the Brandenburg gate, the Emperor with German princes in his train preceding the army, was received at the potal by deputations from the municipal gov. of Berlin and principal cities of Germany. Addresses of welcome and congratulation were presented when the Emperor at the head of a brilliant cortege rode down the triumphal way which is constructed in honor of the occasion. The road was strewn with flowers as he advanced by a hundred young girls dressed in white. The army then entered the gate with the Prussian Guards at the head of the line, which was mainly composed of detachments representing every regiment which took part in the war, each bearing its regimental colors.

The appearance of the men was suberb and the enthusiasm of the great masses of spectators as they passed was unbounded. Each reg-

The appearance of the men was suberb and the enthusiasm of the great masses of spectators as they passed was unbounded. Each regiment as it entered Paris and Patz where the crowd was greatest was cheered with indescribable enthusiasm. Some of the regiments which were well known in Berlin, and others which had distinguished themselves during the campaign were received with special ovations, the people breaking into their ranks and crowning them with wreaths and overwhelming them with flowers. When the procession had concluded its march the Emperor proceeded to unveil the statue of his father, Frederick William the 3d.

William the 3d.

All the eignataries of the Empire, victorious generals and members of Parliament assisted at the ceremony in the presence of the army and a countless number of speciators. The veil of the statue was removed amid tremendous cheering, firing of cannon and music from the military bands. The Emperor standing at the foot of the statue delivered a speech

ing at the foot of the statue delivered a speech, closing with these words: "This monument, which was projected in time of the profoundest peace, now becomes a memorial of one of the most brilliant though bloodiest of modern wars. May the peace so dearly deserved be a lasting one."

The ceremonies closed with conferring honors on the various Commanders.

Numerous orders were granted by the Emperor and the hereditary command of the most distinguished regiments were given to various Generals and Princes.

Among those who received these marks of fame were Princes George of Saxony, and Leopold of Batavia.

General Von Roon is elevated to the rank of Count of the Empire, and Von Moltke made Field Marshal of the Imperial Army. Tonight the entire city is illuminated and rejoicing is at its height.

The state of siege of Paris ceased yesterday The state of siege of Paris ceased yesterday. The National Guard in the valley of the Rhine from Lyons to Versailles is being disarmed. There are 60,000 soldiers in Paris, 20,000 will be sent to Algeria, and all the principal towns will be garrisoned.

The International Society of Paris makes the following proclamation:—We are disarmed but not conquered and are still 100,000 strong. Favre and Trochu were the authors of our misfortunes, aided by capital and the priesthood. We accept the responsibility of the conflagrations. We must have no interior Deputies and no reversion at the polls. The reaction took away our arms but not our votes. "Vice la Social Republique," "Vice la Commune."

WASHINGTON.

WASHINGTON, June 16.—Secretary Boutwell bis P. M. decided that he has power to hear he appeal of the New York Central Railroad Company from the recent decision of the Commissioner of Internal Revenue, but that it is not necessary to do so for the due administration of the law or for the protection of the rights of the company. If therefore the company shall not pay the amount already assessed there will be a levy on their property. They however have a right to institute a suit against the Collector and the Government thus be enabled to defend the decision. A Battle with the Coreans.

A Battle with the Coreans.

Admiral Rogers, commanding the Asiatic fleet, forwards from Borsa island, Corean, June 3d, the following account of his reception by the Coreans, to whom he bad gone for the purpose of negotiating a treaty for the protection of ship wrecked sailors of civilized nations who have hitherto suffered death, slavery, or other cruel treatment at the hands of the natives.

Our Minister and Corean Envoys exchanged professions of amicable intentions to a survey of their waters.

The Monococy, Palos and four steam launches under Commander Blake were sent June 1st to examine the river Sable at a point called Difficult passage on the French chart, at a point where navigation is most perilous,—masked batteries manned by several thousand Coreans numasked and opened a heavy fire without warning upon our people.

The Frence ships in advance fought gallantly and our vessels bearing up drove the enemy from their works. The tide swept all the ships past the batteries and they anchored and threw 8 inch shells among the retreating enemy, which evidently were not expected.

The Monocacy was slightly injured by knocking upon a sunken rock, but it is now temporarily repaired. The vessels in returning received no fire. The enemy having been driven from the forts. Our people displayed great gallantry and only two were slightly wounded. A communication was received to-day which may open negotiations. Otherwise, since the Coreans have met peaceful evertures with unprovoked war, our forces will laid, and destroying the forts will take such others measures as the interests of civilization require.

All the members of the Cabinet were present to-day with the exception of Mr. Oakeman.

Burlington, Cedar Rapids & Minnesota R. R. 1st. Mortgage 7 per cent. Gold Bonds At 90 and Accrued Interest in Currency ON A COMPLETED ROAD,

PREE OF L. S. TAX.

This road is now in the dullest sesson of the year earning more than 12 per cent, net on the amount of its mortgage obligatiors.

Its 7 per cent, gold bonds are equal for security to Government or any Railroad issue. They command a ready market and we are prepared to buy and sell them at all times. No investment in the market possessing equal guarantees of safety, returns an equal percentage of interest. The Cheago Burlington and Quincy has given a traffic guarantee and obligates itself to invest in these bonds 50 per cent, of the gross earnings derived from all business from this road. This is sufficient indication of the estimate of this enterprise by the largest and most far-sighted Corporation in the West. A limited quantity still tor sale by PENRY CLEWS & Co.,

FOR SALE BY

Gorham has spent \$1200 in improvements on its church and chapel; South Freeport paid off a debt of \$1800, and High street Portland one of \$20,000.

Rev. G. N. Marden is unanimously invited to settle at Farmington, successor of Rev. R. B. Howard. Salary \$1500. At Brunswick there were last Sabbath twenty-tour baptisms by Rev. Mr. Millan at the river, and two in the Methodist church. The Free Baptists had four the same day. Seven baptisms and seventeen admissions were had at the Baptist church in Gardiner. Prof. Barbour preached a unique and im pressive discourse at New Gloucester the 13th, on the separateness of Christ from sinners as shown in his origin, his character. his deeds, death and present power over men. That of Rev. E. H. Byington of Brunswick made also a favorable impression on these made also a favorable impression on those who have been looking for a man of more than ordinary merit to take Dr. Adams' place.

His theme was "Christians the light of the world," and illustrated from scripture and from history in an effective manner. The "Nearness of Christians to Christ and to each other," was the theme of discussion by the Conference. Pastors Hincks, Fenn, Parker, Abbott and Adams participated. The lay members, with two three exceptions, did not avail the members of the arrest transfer of the conference o members, with two three exceptions, did not avail themselves of the opportunity of debate. The right of woman to talk in meeting elicited, as usual, a great deal of interest. But two insisted on a literal application of Paul's words as to "silence," while the evident sympathies of the audience were in an opposite direction. Mary Magdalene, it was said, was the first preacher of the Resurrection. She and the woman of Samaria were street and the woman of Samaria were street preachers. They and others since, fulfil the promise that our "sons and daughters shall prophecy." The need of more fellowship and sociability was emphasized, as opposed to the "odious, atomistic form of life" in which some are isolated. The religion of hand-shaking was alluded to and the need of social recognition in the sanctuary recole are some them. tion in the sanctuary, people among them-selves, without formal introduction, and of the preacher who may be a stranger. The follow-ing questions were asked and answered. 1. How can we interest the church member the Sabbath School? Convince them of

its importance. Awaken their interest in the Bible itself. Get good teachers and have a Bible service every Sunday, half a day. 2. How relieve Christian despondency arising from struggles with a besetting sin? Go to Christ. There alone is strength to overcome 3. How promote the interest of a prayer meeting? Have the women talk; close at the end of the hour promptly; don't sing from a book but from memory and often; let all repeat Bible verses; speak sitting and speak short. These are helps, not the steam, the moving power, but the oil that removes friction.

4. Can we keep the Golden Rule? Yes, otherwise it would not be enjoined. The trouble is we are too exacting of each other. 5. How reach vagrant youth who spend the Sabbath in pleasure? Bring them to the hearing of the gospel by systematic visitation on the part of the church, by free seats, at least half the Sabbath and by making the services interesting. A Children's choir is an attraction in some Protestant Sanctuaries and might be in all. If the aggregate was the services and the services in the services and the services in the services and the services are services as the services are services are services as the services are services as the services are services are services as the services are services are services as the servic might be in all. If the vagrants won't come, take the gospel to them. Out door meetings may be held half the Sabbaths of the year. 6. Shall we let restive boys go, who desire to be rid of our control? By no means, but with patience, kindness, ingenuity and love, win them.

7. Is secret prayer a test of plety? Yes, if real and not formal prayer, and intelligent

8. Should the Lord's supper be always privately observed. No. Our dress, posture and other circumstances are different from those of the disciples. Moreover, by the supper we "do show forth (literally preach) the Lord's death" to the witnessing world. 9. Can we have assurance of acceptance with God? Most certainly. 10. What is the prayer of faith, "ask what you will, etc." A belief that God will give the blessing asked or a better.

11. Shall women speak in meeting? Yes indeed, but we would neither teaze them to do it, nor scold them for not doing it. Edith O'Gorman the converted nun, a member of a Baptist Church in New Jersey, gives a startling expose in her "Convent Life Unveiled," of the private life of priests and nuns. We do not relish the acrimonious tone of some of her statements, nor the self-admiration of others, but we cannot but feel that the volume deserves a wide circulation that the volume deserves a wide circulation as a warning to American Protestants. The Connecticut Publishing Co. give it a neat

cept the call at Lowell.

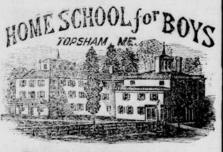

The 46th meeting of the Penobscot county Conference was held this week, Tuesday and Wednesday at Dedham. Prof. Herrick was preacher. Discussions on personal holiness and church activity were had; also a Question Box. The Oxford Conference met the aame days at South Paris. Rev. Dr. Warren of Gorham, and Rev. Mr. Haskell of the Reform School were among the speakers. A choir of children aided in the service of song. Rev. Mr. Richardson of New Castle has been preaching at Cumberland Centre, and a desire is expressed that he will take charge desire is expressed that he will take charge of the parish where Rev. U. W. Small has Zion's Advocate notes additions to the

churches in Fayette, Cambridge, Thomaston, and North Haven. Rev. G. E. Tucker is now financial agent of this paper.

A woman named Esther B. Huddleston, is attracting considerable attention in Cincinnatti as a preacher. She appeared in the Congregational Church in that city, being introduced by the pastor, the Rev. Henry D. Moore, formerly of this city, and her first discourse was upon the general subject of woman's work and usefulness. She is said to be of Quaker extraction, intellectual in appearance, with a good expansive forehead, a sharply-chiseled face, and a low but richly melodious voice. Laymen also conducted church service there. now financial agent of this paper.

BLACK BASS IN THE CONNECTICUT RIV-ER.—Whilst the Delaware and other rivers are

being stocked with black bass at great expense and trouble, this valuable fish has been establishing itself in the Connecticut without cpecial agency and almost without the knowledge of any one. Some two years ago, two ponds, at points widely apart, located near the river and with outlets into it, were carried away by a flood—probably that of October, 1869. These ponds had been stocked with black bass at private cost. The flood swept the fish into the river, where they have quietly domesticated themselves. Last year they hatched a large brood of young, and this year, they have reappeared on their spawning ground, leaving no doubt that they have taken up their permanent abode in the river. Now it would be showing a proper appreciation of the matter, and meeting the fish halfway in the good work of stocking the river, if the fish commissioners of Connecticut and Massachusetts should give them special protection for a year or two. The sportsmen and fishermen have not "got atter" them yet, and we have no doubt would gladly let them alone until they are more numerous. It is a matter for congratulation among the dwellers along the river that this most excellent fish has so quietly and securely taken up his abode in the river.—Sprinnfield Republican has so quietly and securely taken up his abode in the river.—Springfield Republican.

Rvery intelligent and thinking person must know hat remedies handed out for general use should have their efficacy established by well tested experience in the hands of a regularly solucated physician, whose preparatory studies it him for all the duties he must fulfil; yet the country is decided with poor noetrums and cure-alls, purpose ag to be the best in the world, which are not only seless, but always injurious. The unfortunate shalf the PARTICULAR in selecting his physician, as it is a lamentable yet incontrovertible fact, that many sphillitic patients are made miserable with rain of constitutions by maltreatment from inexperienced physicians in general practice; for it is a point generally conceded by the best syphilogradients, that the study and management of these come diaints should engrose the whole time or those whe would be competent and successful in their treatment and cure. The inexperienced general practitioner, having neith it oppertunity nor time to makhimself acquainted with their pathology, commonly pursues one system if treatment, in most cases making an indiscriminate use of first antiquated and dengarous weapon, the Meromy.

MISCELLANEOUS.

CARD

Having become satisfied after thorough investigaion, that Elastic Sponge, as now and lately manufactured, is one of the best of all the substitutes to curled hair, for many if not most uses in uphoistery, we have accepted the Agency of it, and intend to make it hereafter a speciality in our business. The objections which have been made to it and which it s well known we ourselves have thought were well founded, we have ascertained cannot be urged against the article as now periected. The process of manufacture has been entirely remodeled under the advice and suprintendence of one of the most emi-nent chemists of New England. New chemical and mechanical appliancies have been introduced in cleansing crude Sponge, and in charging it with glycerine with such entire success, that Elastic Sponge may now be said to be chemically pure. There is absolutely nothing in it but the clean fibre of Sponge and chemically pure glycerine. The objections to Elastic Sponge being thus reertainly entitles it to be considered one of the most

noved there remain its undisputed merits which aluable as it is one of the most curious and interesting of late discoveries. Chief among these mer-rits is, that it is proof against moths.—the great scourge of the business,—and against all other in-sects. Then its elasticity is permanent, based as it sects. Then its elasticicy is permanent, based as it is upon the non-evaporable property of glycerine and the indestructibility of sponge fibre. We have always been satisfied upon these two points which are the essential requisites in such materials. The evidence is now equally clear that it is wholesome and sweet. It is certainly light and soft, easy to manipulate, and cheap enough for all except the lowest class of goods. For the cushioning of Churches, Theatres, Public Halls, Railway Stations, Omnibusses, Carriages, Steam and Horse Cars and itselike, it will probably be found, everything considered, the best article in use; for all uses, and especially for Bedding, we are now prepared to recommend the public to give it a fair trial as we ourselves intend to do. We are ready also to answer inquiries, make estimates and take oriers for every description of work in Sponge as well as to supply the trade the article in bales.

PHILADELPHIA

with a gentleman of fair business education, good appearance and agreeable manners to join him and act as cashier,

The Entertainment is already one of the most popular on the road, and invariably meets with the greatest success, and is always welcomed on its return. The past five years it has netted over seven hundred (700) dollars per week over all expenses. Generally the Halis and Theatres are too small to accommodate the crowds who desire to gain admittance. In Portland alone the concern netted on its last visit over Twelve Hundred (1200) dollars clear money and in New Bediord, Taunton, Salem. Lynn, Portsmouth, Biddeford, Augusta, Bangor and other Eastern cities the concern met with the greatest success. The Fakir refers with pleasure to any of his numerous patrons in nearly every large city as to the popularity of his Entertainment.

This is certainly a rare opening for a man, fond of traveling to enter into an agreeable permanent business. The Fakir proposes to go direct to California (his 3d visit there) and return East during the winter and then revisit the principal Esstern Cities. None but a temperate man need apply,

The Fakir is at present tojcurning at his Villa on Long Islagd, but an interview can be arranged by addressing (within two weeks)
