No one could have been at the Kimball

louse for the past few days without noticing

that among the guests was a marked charac

ter. Every night a stout, thick, heavy man

would appear in the rotunda of the hotel;

long uncombed locks borne down by his

small patch of long thin chin-whiskers, hair

well sprinkled with gray, and a face that lit

up with a wealth of intelligence whenever an-

imated in conversation. This man was Gen-

eral Robert Toombs, one of the first intellects

of the South, say what you will. He is vastly

popular with his personal acquaintances, and

has friends by the thousands. The moment

has friends by the thousands. The moment he leaves his room he is surrounded by a crowd, all eager to be in his presence and hear every word that falls from his lips. He may begin talking with a friend, and in five minutes he will have a dozen listeners, and the crowd will increase until, if he does not break away, he will soon find himself addressing a respectably-sized andience. He talks

speeches at the bar are fine specimens of for-ensic eloquence. Yet it is said that he is not a close student, spending little time among his law books, and giving over the prepara-tions of his cases to other hands. It is in the

court-house that his talent shines out con-spicuously, and there he literally overrides all

pposition and carries the day by adroit man-

gement and vehement eloquence.

Drink, But Remember.

If you think it is your duty to drink intoxi-

nember that this draught represents the

bread of some starving brother; for the food

of at least six million persons is yearly grasped by the maltster and distiller, and its nour-

hment destroyed. Remember that so long as you are in health

these liquors are unnecessary; 2000 medical men have asserted it, and hundreds of thou-sands of teetotalers proved it.

Remember that most persons who act as you do, injure their health and shorten their

ives by so doing. Remember that not drunkenness alone, but

drinking, fills our jails and penitentiaries, our poor-houses, and our lunatic asylums; employs our coroners and our hangmen, and works mischief incalculable on all ranks and

DAILY PRESS. PORTLAND. WEDNESDAY, NOVEMBER 8, 1871.

A Polygamous Household. AN INTERIOR VIEW OF MORMON LIFE. The Salt Lake City correspondent of the

In a chair sat Mrs. Hawkins, a dark-haired, slouch hat to his very eyes, big mouth, a black-eyed woman from Birmingham, where she was converted to Mormonism about thirty years ago, and married to Hawkins, also a Mormon at the time, in an English parish. church. Mrs, Hawkins wears a plain bonnet. a delaine dress, and drops her H's all over the floor. She refers to Hawkins as "my usband," and seems thoroughly aroused to the necessity of correcting him for the recreations of his maturer age. In short, Mrs. Hawkins has two suits against Thomas. This one is for adultery, and the next will be for divoce. Mrs. Hawkins is accomanpied by her break away, he will soon find himself addressing a respectably-sized audience. He talks in a fluent flow of words and ideas, possessing something of the graphic conversational powers attributed to Dr. Samuel Johnson. Indeed, the gruff old lexicographer is brought to my mind whenever I see Toombs.

The General is now here in attendance upon the federal court. He has as extensive law practice as any lawyer in the State. Indeed, he says he has got more than he can attend to, and more than he wants. His speeches at the bar are fine specimens of for-

baldhead; a light blue, animal eye, which would pick out a woman quickest in a land-scape; not an atheletic body, and that clad in light, worn clothes; silent, attentive, and at times uneasy, during the trial—such is the meager hero of three marriages, brought up seven years after date to answer the charge of aduletry. I have understood that Hawkins stands in doubtful odor among his church people for not equalizing himself more among his families, both socially, and financially.

I called on him, and found him in his room fumbling over a great pile of political speeches and legal papers. He received me in a frank, open hearted munner, and immediately entered into conversation, talking in a "solid sluice" about law-suits, fairs, fires and whatever topic was suggested. A client of his in a two-thousand-deliar case came in, and in less than two seconds the General was rattling away at him, giving him enough advice in five minutes to last a week. General Toombs is a natural talker, and his gift of speech is backed by a head full of ideas. Great talkers are apt to be commonplace, but he is not. He does not talk without saving something; every sentence contains an idea, The common expression among the Mo The common expression among the Mormons is:

"There's wrong on both sides in that family;" but the inevitable addenda is: "just as in plenty of monogamous families."

Here is Mrs. Hawkins' testimony, in part showing that all is not tranquil in those households, and that dissolution is proceeding of itself more rapidly than interference and

something; every sentence contains an idea, and he seems to have the power to keep an uninterrupted flow for hours at a time. A. Yes sir. At this point, when it appeared to be coming out exactly how the inside of a heavenly mansion was conducted, and how objecting damsels were chastised, the lawyers made objections, and we returned to the matter of the adultery.

One other witness was called, the brother-in-law of Hawkins, who flew off in high tiny white onions put in the jar some may think an improvement. To this she replied that the lawyers might as well have it as "is woman."

a quart of very good cones for breakfast. In selecting a filter, chose one with a bottom of silvered gauze, instead of perforated tin, as the perforated bottom lets the finely ground coffee through. When the water is boiling hot, put the coffee in the filter, and pour the water over it and the coffee is made. If the is still alive; yet gossip, with its keenest scent has never found or named him. JAMES A. JACKSON & Co—Gentlemen: As you have communicated to the medical protession the recipe of the "Home Bitters" it cannot, therefore be considered as a patent medicine, no patent having been taken for it. We have examined the formula for making the "Home Bitters," and unhesitatingly say the combination is one of rare excellence, all the articles used in its composition are the best of the class to which they belong, being highly tonic Stimulant, Stomachte, Carminative, and slightly I axative. The mode of preparing them is strictly in accordance with the rules of pharmacy. Having used them, seen its effects in our private practice, we take pleasure in recommending them to all persons desirous of taking Bi ters as being the best Tonic and Stimulant now offered to the public. out Chicago) Chicago Losses (if all is gone,)

Mr Beecher has opened his season with unusual health and spirit. His BRANCH OFFICE great lecture room, plain as a Plymouth barn, is full from week to week. And even the parlors adjoining have to be opened to accommodate the throng. A great many people attend the Friday night meeting from other churches, who do not hear Mr. Beecher preach. The Friday night meeting is unique, and unlike anything on the continent. It is crisp, sparkling and entertaining. The singing is hearty and full. Four hymns are usually sung. There are no omissious, but the hymn is sung straight through. Two brethten are called upon to pray between the singing, and ten men do all the praying. One of the ten is invariably called upon year after year. Why the circle is not enlarged it is difficult to tell. The Scriptures are not read.

The Flections.

The returns received from the elections yesterday are meagre, but yet enough in the most important States to indicate the result. The most important of any State election is that in New York. Six months since, it was counted certain for the Democracy by 50,000 majority, but the riots on the 12th of July and the astounding revelations of and Tammany ring, and the extent to which that power had gained control of every department of the government, including courts, has aroused the people to the danger of the State, and the result of Tuesday's vote will prove that the Republican State ticket is elected by a mafority not less than 30,000, and probably 40, 000. The Democratic ticket will go out of New York with hardly more than 30,000 majority, where in 1870 it had 52,227 and 69,000 in 1868. In the Legislature, the Republicans will have a handsome majority in both branches. It is estimated that they will have more than twenty of the thirty-one Senators. In the last Legislature the Democrats had three majority. The Assembly, in which the Democrats, by bare faced fraud, in counting out a Republican, had one majority, the Republicans will have a larger majority than for

In Massachusetts, the returns received indicate that Mr. Washburne, the Republican candidate for Governor, is elected by a larger majority than was Gov. Claffin last year. The Labor Reform and Prohibition vote is unexpectedly small, falling off in those places where it was largest in 1870. As separate organizations, the election shows that they are but inconsiderable fractions, securing hardly more than a large scattering vote. The indications are that the Legislature will be about as largely Republican as heretofore.

In New Jersey Parker, Democrat, is elected by a majority of bout 500, gaining heavily in Newark and larger places; but both branches of the Legislature are Republican. In Maryland, the Democratic ticket, as ex-

pected, is elected, but in some sections the Republicans have made handsome gains. Wisconsin shows very light Democratic gains on a quite full vote, but Gen. Washburne is probably elected by 6000 majority with a Legislature of the same complexion. The few returns received from Minnesot indicate that the Republicans have maintain ed their usual majorities.

THE Tribune with much apparent reluc tance is forced by the conclusive character of its evidence to make the very original announcement that Secretary Fish was to retire at once and that George W. Curtis would be charged with the portfolio of the State Department. There is a season for all kinds of stories. When the circuses are travelling through the country, it has its seasonable story of the tight-rope performer who has broken his neck by a fall in the next town. The story of the lively old lady who knits so many hundred pairs of double mittens in four languages with other like elegant accomplishments, has its regular season in which to appear in the newspapers. But this report about the resignation of Secretary Fish is reported rather too frequently and recklessly to sustain the character of a first-class story. be charged with the portfolio of the State Desustain the character of a first-class Secretary Fish now says that he has no idea of retiring until the matters connected with the Treaty of Washington are adjusted, and it must be admitted that Mr. Fish has, at least, moderate opportunities to know something

Col. Scorr, the railroad king, has a very strong show with the best Democratic papers. The Indianapolis Sentinel has dropped Ex-Senator Hendricks and has now taken this "newest departure" while the Pittsburgh (Pa.) Post says that as a Democrat, Colone Scott can beat General Grant in Penn sylvaina oy fifty thousand votes, The Louisville Daily Ledger, which is understood to favor Wade Hampton, Alex. H. Stephens or the Cardiff Grant for the presidence does not take kindly to the Scott movemen and heads its aunouncement of the matter as follows: "All Aboard the Compromise Cars -Tom Scott's Last Achievement."

THOMAS C. FIELDS who has been put under bonds for stealing half a million dollars from the city treasury of New York was one of the stump-speakers imported by the Democracy into this State during the last Presidentia campaign. When he and O'Gorman, the Corporation Counsel, and S. S. Cox, all good Tammany men, denounced "Radical corruption" and "extravagance" in City Hall, what shouts and cheers arose! Now all men see them as they are.

REV. Dr. Fulton does not exactly know which evil would be the worst-"Free rum or woman suffrage." We have not yet tested the latter but free rum is bad even if it only extends to a free discussion about ten glasses of lager beer between Rev. Dr. Fulton and Mr. Theodore Tilton. If that was the result of only a limited quanity of the meanest of stimulants, the public will be glad that those gentlemen at least don't have free rnm.

FROM CHICAGO. - A letter from a resident of Chicago, well known in Massachusetts, writes as follows to the Old Folks at Home:

"The poetry of the calamity is over, and its sad realities are beginning to be fe't; and the amount of actual want and suffering which is being endured by persons who were not of a poor class, but well-to-do and presperous before the fire, is something appalling. The excitement of the fire is dying out, and the reaction is now prostrating thousands on beds of sickness. Our hospitals are full, and private houses are filled with sick. Oh, the horrors of that night! I personally know of three mothers who were delivered of childran in the street while fleeing from the fire. This was on the north side. One person whom I knew had given birth to an infant on Saturday before the fire, and was driven to the lake shore by the flames, where she with her baby lay down just in the edge of the water, and the mother, holding her infant to her breast with one hand, with the other dashed water from the lake over herself and child to keep them from burning up; and, strange to say, the mother and child still live! Some four hundred children were born in the churches on Tuesday night, while during the fire several persons, mostly women, fall down exhausted in other nerson's hears. as follows to the Old Folks at Home: during the fire several persons, mostly women, fall down exhausted in other person's houses

and died, and the houses were soon after burn-

ed, and no one knows who they were or where they lived." So LONG as any country must maintain a system of subjecting the able-bodied populaiion of the State to bear arms, it should be of such a character as to detain the men from their pursuits the least possible time. The people of Canada seem to have come nearer to the attainment of that end than any other. The real militia of the Dominion is organized under a law which orders the enrollment, discipline and payment of forty thousand men.-The law requires of these men but sixteen days drill in the year, but the spirit of competition among the men leads them to drill at least once a week, while they spend the whole least once a week, while they spend the whole of the time for which they are paid under the canvass. The officering of this force is provided for by military schools. One of the best features of this system is the constant target-practice to which the men are subjected. The expense of maintaining this force amounts to a little less than twenty-eight dollars per man. The majority of the men drop out of the ranks when their terms of service have expired, leaving their places to be occupied by others, so that at least five thousand men are added to the drilled force every year.

WM. LLOYD GARRISON 1 as addressed a pullic letter to Judge Pitman expressing his gret that the latter has consented to stand as a candidate for Gevernor of Massachusetts at the pending election, iuasmuch as the only eftect will be to weaken the Republican party and do no good to the cause of temperance. Mr. Garrison can see no good reason why Mr. Pitman did not yield to his first impulse to deeline the Prohibitory nomination.

SECRETARY BOUTWELL proposes to recommend a reduction of thirty millions in the tariff and internal revenue receipts. It has been suggested that he ought to recommend a reduction of at least fifty millions. It is understood that the Finance. "As they swarmed out to the grate I thought I never saw a more unprepossessing-looking set of men. They are all young, below medium size, and of the lowest grade of 'poor whites.' They have neither character, property nor intelligence. Their very looks are calculated to prejudice one against them, and had they not confessed to being Ku-Klux, their appearance and actions would have disclosed it. They are the lower type of the lowest class of Southern poor whites. You may pick up a gang of negroes at random, and you will have a better looking set of men than these Spartanburg Ku-Klux. Their ignorance will be better understood when I state that sixteen of the nineten can neither read nor write.

teen can neither read nor write.

"They say that they came in and gave up because they were tired of, the bu iness, and because they could not fight the whole United cause they could not fight the whole United States army, which they understood had been sent into South Carolina. They seem to regard the State as having been invaded by a second General Sherman's army, and that death was their portion if they did not surrender. They try to shift the responsibility of their operations for the past two years upon prominent Democrats of Spartansburg county, whom they accused of putting them up to the dirty work and viving them along. They acknowledge to an 'alliance' between the Domocratic party and themselves, but complain that all the heavy work fell upon them. They say that when a campaign was going on they were

all the heavy work fell upon them. They say that when a campaign was going on they were kept so busy that they had no time to attend to crops. None of them own land, and what tarming they do is done on the tenant system. They affirm the object of the Ku-Klux organization to be to either drive the negroes out of the county or kill them. They did not propose to go into wholesale slaughter, but only killed one now and then, so as to aid materially in scaring others off. They most positively declare that the prominent Democrats of Spartansburg county were at the bottom of the diabolical business, and they propose to 'blow' on the whole thing, giving names and all, when the proper time comes. This accounts for the stampede of 'influential eitizens' from that county.

for the stampede of 'influential citizens' from that county.

The prisoners who confess to being Ku-Klux say they are now sorry that they ever went into the thing. They blame what the call leaders, but are, as yet, not entirely specific who their leaders are. They comp ain that when they once went into the klan they could not get out; and they then had to push forward in the dirty work marked out for them or be dealt with themselves. At Lime Spring the klan had a whipping-post erected, where those who did not come to time were whipped. This statement is no doubt correct, for one or two of the 'boys' bear the marks of the lash upon their backs. They say they expect to be punished by a few years in the penitentiary, but they emphatically insist that the head men shall be punished also.

The latest report from Spartansburg is that

A WILD family have startled the inhabitants of Pittston, Pa., recently. They consist of a father and his two children, who for twenty years have lived in the wildness and solitude of the Wyoming woods. The old man, now demented, was once something of a scholar, and is now a kind of Biblical encyclopædia. The children, a young man and young woman, 22 or 23 years old, are idiots, and when found were entirely nude and living like wild animals. The entire family have met the fate of civilization by being made a traveling "show" of, and lovers of the abnormal and hideous are being gratified to their heart's content.

A CORRESPONDENT of the N. Y. Commercia writes that seeking the registration office in his district, he was sent to an out of the way place on the east side:

what a place! A little one-horse cigar store, and stuck into a dingy, narrow hall-way, at that. Here were policemen, several men invested with outside authority, and three men writing about a dingy table. To be questioned by these men in this miserable place, was like being questioned in Essex Market Police Court. Pshaw! on such liberty as this! A sprinkle of clean wholesome despotism is preferable. Clean despotism on Fifth avenue is better than all your boasted liberty in a Fourth avenue cigar store. A man living in a magnificent brown stone front sneak off in a picayune, mean, dirty Fourth avenue tobacco hole to vote!

By these means has Tammany driven respectable men from from the polls, and given over the voting of the city to roughs and

COL. DAVID TAGGART, U. S. One of them was a slab-sided spinster, who, having failed to procure an entire man at home, looked as if she might be going to Salt Lake City to content herself with a portion of one; the other was an Englishman, who was going into the mountains of California to hunt grizzly bears with a double-barrelled shotgun. I told him he would find the sport rather exciting when

the bears began to hunt him." THE COAL TRADE. - The anthracite coal trade says the Philadelphia Ledger, is in an unusually depressed condition for November. For a week past coal has steadily accumulated at almost all the centres, and sales are difficult at any price. Several large collieries in the Schuylkill region have stopped work in consequence. Other mines will probably diminish their production, in order to prevent further depression. "Is the reader to infer from this that the lead-ing opponents of the Rev. Mr. Rand invariably seek violent deaths? It not, why is that gen-tleman made to figure in this bit of naws?" Now, taking it for granted that the PRESS has heard of Rev. Mr. Rand, the Apostle and almost the martyr of South Seabrook, allow me to say, from the most intimate acquaintance with that worthy gentleman and his whole course of life, that if your suggestion is not literally correct, it is not so very far wrong after all; for they "labor downward" indeed, who attempt to decry Mr. Rand or his blessed efforts in the benighted village where ne has located. It not all crzy they are certainly misguided and mistaken, indeed. If you desire it, I will send you a sketch of

Mr. Rand's life, which reads like a romance. Yours truly,

The Journal says all day Sunday crowds of people haunted the vicinity of West Pitch, viewing the scene of the late double soicide. Men in boats made unsuccessful attempts to recover the bodies of the suicides. All testimony so far goes to show that Anna Wood had for some time meditated suicide and had been endeavoring to persuade several of her friends to join her in committing the act. She tried to persuade several young ladies employed in one of the Auburn shoe factories to drown themselves with her. One of them asked her how she could dare do such a thing. "I believe neither in Heaven nor in Hell," said she. It appears that Anna and Ada on Friday forenoon, an hour or two before the suicide, made application at a shoe factory in Auburn for employment.

LABOR REFORM .- Mr. Travellick, President

address upon the subject of Labor Reform be-

fore an audience of about twenty persons, at the Library Room of the Maine Charitable

Mechanic Association, last evening. John

B. Thorndike presided. The main theme of

his address was concentration of capital, which

he characterized as leading inevitably to mon

archy; while diffusion means republicanism

and Democracy. He made the startling state

ment that 58 per cent. of the wealth of the

country was held by 4 per cent. of the popula-

tion, and this is the cause of the increase of

pauperism and crime. He disclaimed all par-

tizanship, but discussed the trade relations be-tween the East and West, and labored to show

that the decline of shipping is due primarily to the high demands of Interest in America, the

rate being 9 per cent. to 3 per cent. demanded

in England. From his collation of figures he

deduced the fact that the production of labor

in this country over the consumption of the

laborer is 31 2 per cent., while we are paying

at least 9 per cent. for capital, and the differ-

ence is bankruptoy. Our indebtedness, national and individual, \$7,000,000,000, to pay the

interest of which, at 8 per cent. requires \$540,-

000,000 of the earnings of the laboring classes.

Government has never had any definite finan-

cial policy. The value of a dollar has varied

from 2 per cent. to 20 per cent. discount; he ice

periodical panies and disorder. Under our

want of system we pay \$700,000,000 more for

the use of capital than the people of Great

Britain, and this enables the latter to do the

carrying trade of the world. John Bright says

it costs 75 cents to run a spindle in Great Brit-

ain. It costs the American \$2 25 to do the

same, and custom passes away from us because

the insurer demands his high rate of interest.

While we have coal and iron in abundance we

buy rails in Europe because the capitalist asks

from 15 to 23 per cent, to establish and operate

rolling mills. The poor go bungry and cold

and barefoot, not because the productions of

the country are insufficient, but because capital

combines against labor, and they cannot get

he dollar to buy the necessities of life. If the

labor of the country adds only 31-3 per cent.

to the wealth of the country, and capital de-

legislation. It doesn't matter who occupies

the places of power so long as the capitalist

ossesses the power to sweep the surplus of

abor into the coffers of the few. Every dol-

lar's worth of surplus that has been sent to Eu-

rope in the last four years eas gone to pay the

interest on our debt, and every dollar imported

adds to the debt of the nation. If a proposition

was made to change the form of our govern-

ment to a monarchy we would violently resist

it; but let concentration continue and the

charge is imperceptibly made. The working

men are charged with the want of intelligence.

We ask where is the intelligence of the politi-

cians when they suffer our shipping to be pros-

never resurrect them. We must diagnosis the

The speaker then went on to compare the

of the latter, but charged the government with

neglecting the provisions of the Constitution,

which empowers it to coin money and declare

the value of it; but even the specie coinage

of the Cumberland Bar, given to Judge God-

dard on his retirement from the Bench of the

Superior Court, occurred last night at the Fal-

mouth Hotel. The time set for the dinner was

8 P. M., but in respect to the "hoary nuisance

of the law's delays" the party came to table

at about 8 30 P. M. The dinner was all that

Epicurus himself could have desired had he

due course of time the Master of the Feast,

Hon. L. D. M. Eweat arose with his accus-

tomed urbanity and dignity and proposed the

first toast of the evening, "Our distinguished

Guest." The response of Judge Goddard was

happy and witty, and given in his best vein.

Then followed other sentiments and speeches

from Judges Walton, Lane, Howard and Wat-

erman, and Messrs. Symouds, Reed, Anderson,

Mattocks and several others. The applause

encourage and perpetuate the "entente cor

diale" which has always prevriled in the Bar.

JUDGE GODDARD very properly directed the

drivers of the mail carts to be "circumspect"

in driving to the rear of the new post-office so

as to avoid all danger of marring the marbie of

the building. Fancy his surprise on the next

day at being indignantly remonstrated with on

his outrageous order requiring mail-carriers to

be "circumcised," accompanied by a special ob-

jection on the part of the remonstrant against

This was a bill in equity brought by the assignse in bankruptcy to set aside a mortgage, on the ground that it created a preference under the bankrupt act, and was therefore fraudulent. Mortgage set aside. Supreme Judicial Court.

JUDGE TAPLEY PRESIDING. TUESDAY.—The celebrated Miller divorce case came up in this Court this morning on the question of almony and custody of the children. Both the libellant, Mrs. Miller, and the respondent, N. J. Miller, were present. The counsel was the same as at the trial, with the exception of Mr. Virgin in place of Judge Davis, deceased. A large number of witnesses were introduced to show the value of defendant's property and his income. Superior Court.

INAUGURATION OF JUDGE LANE. TUESDAY .- The Nevember term of the Superi Court for the trial of civil causes commenced this morning. Prayer was offered by the Rev. D. H. Hannaburg, after which Judge Goddard, the retiring Jurilee, read a lengthy review of the Superior Court since its foundation. He referred briefly to the causes which led the Cumberland Bar to draft an act for the establishment of a new Court in this county, and then proceeded to sum up the business which had been transacted by it since its formation. By it the number of cases in the Supreme Court has been, reduced from 2000 to about 300. By its aid l'tigants have been able always to have a speedy trial, and while before its establishment parties were com-pelled to wait years before their cases could be heard they can now have speedy justice.

Judge Goddard said that criminal jurisdiction had

been conferred upon the Court in a time when crime was unusually prevalent, and he had determined to inflict such sentences as to teach lawless individuals that they might expect no lemency at his hands. During his administration he had pronounced one death penalty, one sentence of imprisonment for life, seventy-two sentences to the State prison, from one to twelve years, and eighty-two jail sentences The amount of finas imposed and paid was \$7671, He referred to the able manner in which the clerk and his efficient deputy, the stenographers and the sheriff and his deputies had performed their duties, and thanked the Bar for the uniform courtesy be had received from its members. He spoke of the large number of distinguished lawyers who had died since the commencement of his administration, but said the younger members of the Bar were rising up to

At the conclusion of his remarks the Clerk read the Judge's resignation, and also the certificate of the appointment of Judge Lane.

Judge Goddard then introduced his successor and

retired from the Bench. Judge Lane received the congratulations of the members of the Bar, a large number of whom were present, after which the docket was called and the business of the Court proceeded as usual. In the atternoon the jury was empannelled as for

Among the Vice Presidents of the great Republican ratification meeting in Brooklyn, N. Y., on Friday evening, was John E. Dow, jr. ormerly of this city. Up to yesterday morning Whittier had col-

lected and forwarded to Wisconsin and Michigan 131 barrels of assorted vegetables. The G. W. T. S .- if you can read the caba listic letters-will give an assembly at Lancaster Hall on Friday evening next. Music by Webb's Quadrille Band. Remember that the lecture of the M. L. A.

course this evening will be by the Rev. E. G. Ames of California. Five persons were admitted to the St. Lawrence Street Church last Sunday, on profes-

sion of their faith, and twelve by letter from other churches. Alford Dyer and family of this city were in Munich on the 14th of October.

JONATHAN MORGAN.-The funeral of the late

Jonathan Morgan, Esq., will take place at Congress Square church this afternoon at 3 o'clock. Rev. W. E. Gibbs will officiate. At a meeting of the Cumberland Bar held yesterday, it was votek to attend the funeral, and the executive committee was instructed to pay all the expenses of the same out of the funds of the association. It was also decided to purchase a lot in Evergreen Cemetery, in which to inter the remains of those whom it shall fall to the lot of the Bar to bury. The Aged Brotherhood are invited to attend

Corrected.-We were in error vesterday in relation to the money appropriated by the Relief Committee to the late Jonathan Morgan. When the money was refused by him unless he could take it unconditionally it was put into the hands of A. K. Shartleff, Esq, who used it for the purchase of clothing, food and fuel for the old gentleman, and every cent

of it was faithfully applied to his comfort. It has also been stated that Mr. M. was not seen from Friday until be was discovered dead, on Monday. This is a mistake. Mr. George H. Knight is certain that Mr. Morgan passed through his store after dusk Saturday afterneon, on his way to his residence on Cross street. Mr. M. was in the habit of making a short cut from Temple street through the ciety. Charity to the poor demands that every store of Mr. K., when op his way he fact does away the suspicion that Mr. Mergan died on Friday night or Saturday.

TABLEAUX OF ERIN .- These beautiful paintings were unrolled for the second time at Music Hall last evening, to quite a large and appreciative audience. Mr. and Mrs. Brennan are first-class artists in every sense of the word, and their songs and sketches form one of the most pleasing features of the entertainment. Altogether it is the best representation of the scenery of Ireland that has been exhibitel in this city. This afternoon a matinee will be given, when children will be admitted for ten cents and adults for 25 cents. In the evening the proceeds of the entertainment will be given to the St. Patrick's Benevolant Society,

HIGH SCHOOL ALUMNI ASSOCIATION.-The first regular meeting of the Alumni of the High School of Portland, was held last evening in the Common Council room. There was a large attendance both of male and female members. The regular literary exercises of the evening, which were of a very interesting character, were carried out, after which the meeting adjourned to the first Tuesday in December. The association opens auspiciously and with the brightest prospects.

The Cause and Care of Consumption.

The primary cause of Consumption is derangement of the digestive organs. This derangement produces deficient nutrition and assimilation. By assimilation I mean to a process by which the nutriment of the tool is converted into blood, and thence into the solids of the body. Persons with digestion thus impaired, having the slightest predisposition to pulmonary disease, or if they take cold, will bevery lisable to have Consumption or the Lungs in some of its forms; and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and bealthy assimilation. The very urst thing to be done is to cleinse the stomach and bowe's from all diseased mucus and slime which is clogging these organs so that they cannot perform their tunctions, and then ronse up and restore the liver to a healthy action. For this purpose, the surest and best remedy is Schenck's Mandrake Pills. These Pills cleansed the stomach and bowe's or all the dead and morbid slime that is causing disease and docay in the whole sys em. They will clear out the liver oo all diseased bile that has accumulated there, and aroure it up to a new and healty action, by which natural and healthy bue is secreted.

The stomach bowels and liver are thus cleansed by the use of Sch nek's Mandrake Pills; but there remains in the stomach am excess of acid, the organ is torpid, smalthe appetite is poor. In the bowels, the lacteals are weak, and require strength and support. It is in a condition like this that Schenck's Seawed Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, the organ is torpid, smalthe appetite is poor. In the bowels, the lacteals are weak, and require strength and support. WM. M. MARKS.

It is said that if a puff of air were to be blown into a vein of ananimal, death would instantaneously follow, because circulation would be stopped. The blood makes the entire circuit of the human body every seven minutes, and whenever this circulation is impeded or any of its channels are clogged by impurities which ought to be carried off, disease follows—which will be stopped. Certificates of Cures. I have been troubled, more or less, for five years, with Inflammatory Rheumatism. For the last six months I have suffered beyond description. My limbs were badly swellen and inflamed; it was with great pain and difficulty that I could nove. My case was well known by thousands of citizens in Portland. I am to-day a well man, and I was cured by the University medicine. and Acapuncturation. versity medicine. and Acapuncturation CAPT. W. S. PENNELL, 18 Gray St.

NEW BEDFORD, Sept. 10, 1871.

DR. STAPLES, Dear Sir,—1 am feeling first rate. I have not felt so well for years as I do at the present time. It you recollect when I was at your place I was suffering with a very lame back. That has all leit me and I never felt better in my life than at the present time. I don't believe that that medicine can be be beat. I believe it is what it is recommended. I believe that medicine is entitled to as much praise as any medicine that was ever introduced to the public. I will not write any more this time.

I have been afflicted with Scrofula and Salt Rheum all my lite. I have been under treatment of eleven (m.ss called) physicians and all the time grew worse No tongue can tell what my sufferings were, with catarrh, diseased lauga, a learlul cough, my limbs, wrist and hand running sores, no appetite, badly diseased incidental to my sex. Though young, I felt that lite was a burden to me. In this oreadful condition, through the advice of a friend, I called on the proprietor of the New York University Medicines. He told me my case was doubtful, but would do the best he could. I commenced taking his medicines April 17th, and am free from the above troubles. MRS. HENRY JONES, Westbrook, Me.

Some three months ago I was persuaded by my wife to take the University Medicines. My health and mind was so badly affected that my friends became alarmed for my salety. In a week after commencing to take the Medicine I felt great relief. I am now as well as any other man. My wife has been for a long time afflicted with disease that has baffled the skill of our best physicians; some of which pronounced her case incurable. Under treatment of the University Medicines, her health has greatly improved. Any one doubting will please call at No. 6 Lincoln street, or at repair shop, Grand Trunk Depot.

GEORGE KINGSBURY.

Portland, Aug. 5, 1871.

To the Agent of University Medicines at Waterville
DEAR MRS. FLOOD:—I think it my duty to address you with a few lines stating my cure with your
wonderful catarrh specific. I have been afflicted
with catarrh ever since a child and have spent a
great deal of money among our first doctors, and
have tried everything I heard of without obtaining
any relief. I am cured by using your Catarrh Specitic. MRS. L. A. BUTTERFIELD, Waterville, Me. For five years I have suffered with catarrh, a bad consumptive cough and pain in my left side. I had imployed several physicians and have paid them wer \$150 without the least benefit. I have used six tollars worth of the University Medicines, and am elieved from the above troubles,

JOHN SHAW, West Com'st, Portland, Me.

I have been troubled with Scrolula all my lifetime and Neuralgia, in the head for seven years, and have consulted good physicians from Maine to New York without any benefit whatever. I have taken six bottles of the cancer plant and one and one hall of the Neuralgia Elixir, and a little of some other kinds and I now feel better than I ever was before in my life. I cannot say with Mr. Munsey, that I feel twenty years younger, being only twenty eight, but can say I never felt so young to my knowledge in my life.

n my life.

I think the worth of the Medicine cannot be estinated in words or money.

MRS. A. O. W. FOSTER, Wilton, Me.

Cases Treated by Letter.

DR. STAPLES:—One bottle of your extract of Can per Plant cured my little boy of Scrofula of 15 nonths standing. If I should write all day I could not give a full idea of his sufferings. We employed five physicians without relief. His sores are all healed and he appears perfectly well. We think it is a wonderful cure. Several of our friends are taking the medicine with good success.

MRS, WM. J. LEWIS.

Old Town, Sept. 17, 1870.

DR. STAPLES—Dear Sir:—The medicine 1 got at your place, Jan. 2d, has done wonders for me. It is all you recommend it to be.

You may make any use of the above you think proper.

Yours truly, The above case has been treated for the past four rears by different physicians for cancer.

This may certify that I had been suffering with the "Rhumatism" for five months, and at that time it seized my right hip and leg, down to the toot. This the physicians called "Sciatic." I tried many kinds of highly recommended medicines which I took for the blood. Still I got no relief for seven months more, all the time doing my best, with as good advisers as we have in our city. Finally I called at the New York University Branch, and the proprietor said he could help me. So I commenced on his medicine, and in tour weeks I thought I telt reliet, and in eight weeks I was able to leave my cane at home, and have been well up to this time, three months have passed.

Portland, Aug. 2d, 1870. Portland, Aug. 2d, 1870.

A REMARKABLE CURE!—I have been troubled with a bad Scrotula Humor all my lite. A learful sore broke out on my neck. For six months I was under treatment of the best medical advicers I could find in Portland, but all the time grew worse; my appetite failed and I became so weak and emaciated that I could walk but a short distance without help. In this condition I commenced taking the University Medicine. In one week my appetite was good and the deathly sinking pain in my stomach vanished. In two mouths my sore was healed. I have since gained fit; pounds in weight and am now every way well. Portland, Jan. 20th, 1871.

I have been afflicted for twenty years with Chronic Rheamatism. I have spent hundreds of dollars for medical treatment without benefit, Ten days ago, I commenced taking the University Medicines, and Lyan truly say, it has been more benefit to me the natiother treatment I ever received. My place of business is 137 Pearl stroct, I shall be pleased to answer all enquiries.

For twenty-five years I have suffered with Scrotula and Sait Rheem, (or Tetter.) Have paid out hundreds of doltars, and been treated by several first-class physicians without benefit. Some four weeks ago, I commenced using the University Medicines.—At the time my torehead and head were covered with sores and scaliness of the skin; also my tongue was covered with small ulcers. I am to-day free from all the above troubles, and can heartily recommend these medicines to the afficted.

S. C. MUNSEY, 27 Chestnut Street.

Portland, Jan. 24, 1870.

As certain individuals have reported that he above certain a late and my disease as bad as ever, I wish to say, at the time I gave the above certificate, the story was not half told. In addition to the above, my leg and back were covered with sores. I am now well and rel at least twenty years younger than I did before taking the remedies.

My advice to the afflicted is to give the medicine a trial and not to be deterred by the cry of humbug. It cured me, it has cured many others. I believe the extract of cancer plant will cure any blood disease in existence. ease in existence.

8 C MUNSEY, 27 Chestnut street,

For flity years I have been troubled with Scrotula. Some fifteen years ago a featful ulcer broke out on my leg. Three months ago it had extended from the ankle joint nearly to the knee. I could not move without great pain. In this condition I commenced taking the University Medicine,

A first it drove out a fearful humor all over me.
In a few days the humor began to subside, and the ulcer is now healed and I feel like a new being.

ELIZABETH CHAMBERLAIN, 38 Chestnut-st.

Portland, Aug. 30.

I had the Catarrh so bad for seven years that m head became contused and painful. I was obliged to get up several times in the night to keep from choking. I employed some of the oest physicians in the country without benefit. I was periectly cured with the University Medicines in three weeks.

A. M. MORGAN. 224 Cumterland St. Portland. Conductor on the Portland & Odgensburg Railroad. February 18, 1870.

Every intelligent and thinking person must know hat remedies handed out for general use should have shelf efficacy established by well tested experience in the hands of a regularly educated physician, whose preparatory studies at him for all the duties he must faild; yet the country is fleeded with poor nestrums and cure-rile, purpart ag to be the best in the world, which are not case seless, but always injurious. The unfortunate shess for Particular in selecting his physician, as it is a lamentable yet incontrovertable fact, that many syphilitic patients are made miserable with rained constitutions by maltreatment from inexperienced physicians in general practice; for this a point generally conceded by the best syphilograndhers, that the study and management of these come diam's should engross the whole time or those who would be competent and successful in their treatment and cure. The inexperienced general practitioner, having neith it oppertunity nor time to make huncelf acquainted with their pathology, commonly pursues one system of treatment, in most cases making an indiscriminate use of that antiquated and dingerous weapon, the Mercury.

There are many men of the age of thirty who are troubled with too frequent evacuations from the bladder, often accompanied by a slight amarting or burning sensation, and weakening the system in a manner the patient cannot account for. On examining the arinary deposits a ropy sediment will often to found, and sometimes small particles of somen or against will appear, or the color will be of a thin milkich hue, again changing to a dark and turbid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the

where he may be confidentially consulted, more especially in all those cases of diseases and dethity for the treatment of which he is so justly celeptrated. It is too well known that hundreds suffer from the effects of early indiscretion and seek in vain for rehef. Fer none but the educated Physician who has made these sudjects a speciality is likely to succeed in retoring the patient to health and strength.

Dr. Jacques after many years practice begs to announce his treatment is eminently successival in curring Nervous, Mental and Physical debility, Languor, Depression of spirits, Panntal dreams, Loss of appetite, Memory &c., and having had great experience during an extensive practice and received high honers and to-timonials for his superior treatment of those diseases requiring skillul and condidential advice he is enabled to ensure a sate and speedy cure.

The Do-tor particularly invites those patients whose cases may have been neglected or pron unced incur able at once, to place themselves under his care, assuring them that all that science, skill and long practice can accomplish will be at their service.

He dis incity states that no case will be undertaken unless a permanent cure can be guaranteed. All letters containing the usual consultation fee \$5, and fully describing, the case will be immediately attended to.
