GREEN AND WHITE

GREEN and WHITE

1931

Theme: Pyramids

*"We have not wings—we cannot soar—
But we have feet to scale and climb
The cloudy summits of our time.
The mighty pyramids of stone
That wedge-like cleave the desert airs,
When nearer seen and better known,
Are but gigantic flights of stairs."*

ENTRANCE TO CORTHELL HALL

"A teacher builded a temple,
She wrought with skill and care,
Forming each pillar with patience,
Laying each stone with care.
None saw the unceasing effort;
None knew of the marvelous plan;
For the temple the teacher builded
Was unseen by the eyes of man."

ENTRANCE TO EAST HALL

"Gone is the builder's temple,
Crumbled into dust,
Pillars and groins and arches,
Food for consuming rust.
But the temple the teacher builded
Shall endure while the ages roll;
For that beautiful unseen temple
Was a child's immortal soul!"

NEW AUDITORIUM—GYMNASIUM

THE NEW BUILDING

When next we, the graduating class, visit Gorham Normal School there will be another building on the campus. This structure, which will contain the chapel and gymnasium, measures up in every way to the high standards of architectural beauty established by the other buildings. The new structure, located northwest of CortHELL Hall, is to be constructed of variegated brick trimmed with Indiana sandstone. As an appropriate symbol of permanence, the steps are to be of granite.

The plans call for a central tower and two wings which will extend east and west. The main entrance will be in the central tower from which one may go to the west wing which will contain the chapel or to the east wing where the gymnasium will be located. The auditorium will be equipped with tiered seats which will enable those sitting in the rear of the room to see the stage in comfort. Facilities for the presentation of plays and entertainments have also been provided. The gymnasium will be equipped with shower rooms for boys, girls, and visiting teams, locker rooms, and two offices for the gymnasium instructors.

Although we, as a class, will not have the opportunity of enjoying this fine, new building, we leave to coming classes, through the use of it, the chance to make for Gorham Normal School a name even more glorious than that she now enjoys.

THE FOUNDATION OF EDUCATION

If education may be defined as "the unfolding and perfecting of human spirit," then religion and economics are the logical foundations. By religion is not meant only a belief, but an impulse to serve others and to purify one's self. Our attitude towards life is our religion. In our schools it should develop personality. We as future teachers who wish to profitably educate children must study the sources of religion, or as has been previously stated, the "human spirit."

Economics has to do with the body and its welfare; with food, clothes, shelter, and physical opportunity. One of the first specific aims in education should be the complete health of the body. It is the most important problem now before the parents and teachers. Our present loss of vigor is credited to change of habits, industrial life in the open to the factory, and increasing leisure time. It is claimed that there is a general dwarfing of our nation. A too large proportion of our people have ailments which could easily be remedied with knowledge. We over-eat, over-indulge, or over-heat; we protect ourselves too much. The first care of the teacher should be the children's health. He should therefore make the schoolroom, like the home, a true sanatorium.

ROBIE HALL --- EAST HALL

ACHIEVEMENT

Although we may not realize it, we are in the process of moulding during our many years of school life. It depends upon us as individuals just how "firm" this moulding will be at the completion of our normal school career. If we have worked hard in school, accepting the responsibilities placed upon us, building character until we have acquired all the requisites of good citizenship, we may be reasonably sure of success.

Opening the door into the past, we find numberless instances where achievement has been so great as to be recorded in the pages of history. A young man once living in the State of Illinois, his worth unknown, later became our beloved president, Abraham Lincoln. A poor lad walked the streets of Philadelphia carrying a loaf of bread under each arm. He was considered insignificant, but it was he who in later years became the famous Benjamin Franklin.

How did these men gain achievement? They knew the secret that many of us have not yet found, namely, that achievement is attained through work, inspired by a high ideal. This ideal may be merely a mental idea or it may be some person, perhaps a great hero. Have you some high ideal to which you will dedicate *your* life? Youth is the time to build the ideals that lay the foundation of success.

We are all adventurers about to step forth and explore an unknown country. If we succeed, we shall bring honor to our school; if we fail, we must try again, for no great achievement was ever attained without struggle. The true adventurer is he who can change defeat into victory.

IMPORTANCE OF EARLY HOME TRAINING

There are some truths in architecture and life which have from early times been recognized by mankind. One is that it is necessary to build on a firm foundation.

The early Egyptian, in building the pyramids, those eternal monuments to Egypt's greatness, realized this need. The Master, in his parable about the house built on sand and the house built upon a rock, teaches that any structure is only as firm as its foundation. Thus down through the ages people have been pointing out by word and example the importance of solid groundwork.

If the foundation is so important to a building, how much more important is it to a human life! Fortunately or unfortunately, according to one's viewpoint, a person cannot take a shovel and pick and reach the bed rock upon which the monument of his life is to be built. The foundation of the human temple is laid before that human has reached school age.

Early home training is the under structure of a life. How necessary it is that this training be of the proper kind! By word and example, the child of pre-school age should be given as materials for the beginning of his monument the rocks of truth, honor, and loyalty, joined by the cement of friendship and love.

When the storms and winds of life come, the man whose early home training has been weak will be like the house built upon the sand. He who has had the moral constants impressed upon him early in life will be able to stand, "Four square to all the winds that blow."

WORLD BROTHERHOOD

For generations one aim of education has been social efficiency and a more worthy aim would be hard to find. Consider the meaning of the phrase, social efficiency. Our ancestors did not know or dream of such inventions as the airplane, the radio, the wireless, the telephone, which have made the world a smaller place, a more congenial place in which to live. To them social efficiency meant living an honest, upright life, being useful citizens in their own small communities and living up to the approved social standards of their immediate surroundings. Today the aim of education must of necessity have a broader meaning. The vision of the present generation must include more than one's own city, town, state, or even country.

What is the vision of our present-day students? Is their outlook on life narrow? Is it dimmed by the influence of others, by the traditions and precedents of former ages, or is it clear and wide, wide enough to include this whole world upon

FORGE AND MACHINE SHOP

which we live? It is the duty of the present-day teacher to see that this vision is broadened. Today the Acropolis of Greece, the shrines of the Orient, the jungles of Africa, the plains of Siberia, and the pyramids of Egypt are as near to us and as much a part of our life and life problem as were the civic problems of our grandfather's narrow sphere. We must be able to understand and tolerate the religion, the customs, the ideals of all these people who are a part of our world. We should be able to look into every corner of the globe with a vision undimmed by centuries of traditions and prejudice.

Gaining such an attitude may be compared to the building of an ancient Egyptian work of art, the pyramid. There should be a firm, broad foundation, consisting of a thorough knowledge of our own community and the duties of citizenship in our own country. Upon this foundation should be built, stone upon stone, a structure made up of ideas, knowledge, and gems of wisdom from all over the world. We may hope to at last reach the top and look out into the distance, the future, freed entirely from limitations of the past, ready to be world citizens with a vision wide enough to apply that present-day aim, world brotherhood.

ROBIE HALL RECEPTION ROOM

STONES OF LIFE

In the building of a mighty pyramid of long ago, great stones were hewn, shaped, and fitted together to form a perfect whole. To produce the unity and magnificence of the completed structure, the utmost care had to be given to each separate part.

Like pyramids are our lives. They too are composed of countless stones, each one a factor in itself, yet each contributing to the worth or weakness of the entire unit. To us is given the task of choosing enduring, noble parts of which to build our lives. To mold and weld together these parts is our second duty.

Among these many stones may be found a few whose value pervades and uplifts all others.

Religion, faith in One who controls all, plays a most important part in your life and in mine. It might be called the keystone upon which depends the life of the whole. Without it existence is drab and meaningless; with it vigor and courage come to enrich us. Religion should not be superficial; it must delve deep beneath the mere surface of things and include all that is good.

EAST HALL RECEPTION ROOM

Education is another factor which determines our ultimate worth. Contact with the right sort of persons, books, and experiences make for our constant development and broadened viewpoint. A richer, fuller life is unfolded to those who heed the call of education.

In weighing the value of this stone and that, we are convinced that companionship occupies a noteworthy position. Association with real friends results in growth of character. Many gifts of love and understanding are exchanged among friends. Of far greater importance than any material thing is the help and joy we find in our friends.

“What you are to be you are now becoming.”

“Build today, then, strong and sure
With a firm and ample base;
And ascending and secure
Shall tomorrow find its place.”

DORIS BRYAN, '32.

JUNIOR HIGH

"I am a teacher—
And ardent, restless, longing youth
Look unto me expectantly,
Fulfilment of their dreams to aid;
As I lead they follow.
Oh, let me take the upper road
Leading to the heights,
And they must follow,
A mighty trust is mine."
"I am a teacher—
And trusting, childish eyes
Look unto me confidingly,
Their little hands in mine,
To follow me to anywhere.
Be my way on high or low or middle ground
They follow.
O, let me feel
What mighty trust is mine!"

WALTER EARLE RUSSELL

TO THE CLASS OF 1931

THE capstone of the great pyramid Cheops shouts to the admiring spectators, "Behold the exalted position which I have achieved!" The man of wealth in a position of prominence and power boasts, "I am a self-made man." The Normal School graduate with an excellent record behind her and bright prospects before her congratulates herself on the great success she has made of her life thus far.

The capstone forgets the sweating Egyptians that dragged it into its exalted position and the broad foundation layers that give it stability and security. The boasting man of wealth and position forgets the favoring social and political background without which his achievement would have been impossible and futile.

Is the Normal School graduate, looking forward so expectantly to success, in danger of forgetting the debt she owes to the State and the municipality for the organized facilities they have placed at her disposal, the obligation she is under to the community and the home for the encouragement and inspiration with which they have stimulated her, and the gratitude due her forebears for her rich natural gifts? Is she inclined to view her successes as solely her personal achievements and her failures as due to a hostile environment?

"CAMPUS PINES"

ADVANCED SENIORS

After three years of sailing on the broad seas of knowledge and experience, carefully steered by faculty advice and hearty coöperation, our sturdy ship of preparation is approaching the docks. We have tried to carry with us into every port the spirit of loyalty and effort which Gorham Normal School has instilled into captain and crew alike. We have done our best in aiding our school to stand as a leader, both in scholarship and sociability. Soon we shall re-embark on broader seas. It is not with fear but with happy anticipation that we face the unknown.

Beautiful and brilliant, lovable and fine,
Deserving of lots more than such a tiny rhyme,
Popular, admired, gracious, sweet and fair,
Understanding, loyal, a better friend is rare.
In knowing her we're richer in the end,
And we are glad to claim her as a friend.

PRESIDENT'S MESSAGE

TO MY CLASSMATES

God placed the gold within our lives,
To shine as we saw fit.
He placed the love within our hearts
And gave us ready wit.
He planned the paths that we should tread
And planned for us a goal.
He placed a seed of love and truth
Within each heart and soul.

Don't take that gold and make it lead,
Don't take the shine away,
But let us try each day to spread
Some goodness on our way.
Let's put our thoughts in teaching,
And make ourselves worth while.
Let's make our work far-reaching
And greet life with a smile.

Let's fill our rooms with sunshine
And chase all clouds away.
Let's try to make for others
A bright and better day.
Let's take what He has given us
And mould our lives aright,
Then through the aid of others
We can always spread our light.

Is like that of a lark.

Here's to "Dot" with all her jokes;
 She likes to keep us laughing.
 But what she likes the best
 Is B. U. and "Marshalling."

If you want to appreciate her executive ability, ask Louise.

DOROTHY MABEL FICKETT

"Dot"

Yarmouth High School Yarmouth, Maine

ROSELYN JACKSON GARLAND

"Rosie"

"Dignified in manner, sober in judgment."

Belfast High School Belfast, Maine

Roselyn entered our class in 1930 after several years of teaching experience. Girls, if there is any advice you want about your future work, call on "Rosie," for she is an authority. Maybe if you are looking for a Chrysler, she could advise you on that subject, too, for it is rumored that she frequently tries out a new one.

Pep? Plenty!
 Personality? Plus!

A wise-cracking girl with a sunny disposition—if you don't believe it, try following her around for a day. You just can't keep up with her, we'll vouch for that! So here's to you, "Gin," and your success!

CHRISTINE FRANCES GREENLEAF

 Then went her sunshine way."*

Lincoln Academy Boothbay, Maine

Were I to try and pen my thoughts
 Of trusting youth and cheerful gaiety,
 Of a charming disposition of a splendid sport,
 Of a happy look of a dear little girl,
 All that would be Lora.

ADELAIDE STROUT HAMILTON

 (2); Christmas Cantata (3); A. A. (1, 2, 3, 4); Vice-
 President of Glee Club (3, 4); Y. W. C. A. (1, 2, 3, 4).

Who is the girl that peeps up a place?
 Why, "Dot," with her lively grace.
 There's some attraction—seems like "Jake,"
 But "Dot" just laughs and says it's a fake.
 But we know better. Anyway, "Dot,"
 We wish you luck and of success a lot.

ELIZABETH MARGARET HAYES

"Liz"

"She seems as happy as a wave that dances on the sea."

Portland High School Portland, Maine
 Training, Forest Street School, Westbrook, Grade 4
 Commuters' Club (1, 2); A. A. (1, 2, 3, 4).

Elizabeth is small, but it's quality not quantity that counts. If a
 sense of humor is a priceless gem, she certainly is the possessor. Best of
 luck to our loyal pal.

GLADYS LAURA HEALD

*"Haste thee, nymph, and bring with thee Jest and Youthful
 Jollity."*

Fryeburg Academy Falmouth, Maine

 She's using her tennis racquet.

 (3, 4); Art Editor of GREEN AND WHITE (3, 4); Ad-
 visory Board of School Newspaper (3, 4); Civics Com-
 mittee (3, 4).

Virginia is a jolly commuter, and yet, for all her carefree nature, she is
 one of the most talented artists in the class. You've been a great pal,
 Virginia, and we wish you the best success.

REEDINA ELIZABETH HILL

"Dee"

"I'm sure care's an enemy to life."

 Outdoor Club (1, 2); Kennebec Valley Club (1, 2, 3, 4); A. A.
 (1, 2, 3, 4); Class Secretary (1, 2).

That spirit of fun and readiness which make up one of the best of
 personalities has won for "Dee" a place in the hearts of many during the
 two short years at Gorham. Blue and Gray are nice colors, we agree,
 but then, so are Green and White. Don't forget that.

MARGUERITE DUNHAM JOHNSON

"Johnny"

*"The secret of happiness is not doing what one likes, but in
 liking what one has to do."*

Dalton High School Dalton, Mass.

 President of Campfire (1, 2, 3, 4); A. A. (1, 2, 3, 4);
 Editorial Board of GREEN AND WHITE (3, 4); Civics Com-
 mittee (3, 4).

She is a very quiet lass,
 One of the brightest in the class;
 She is always ready her service to give,
 Among the most willing that ever did live.
 A born teacher surely is she,
 That's just as clear as it can be.

MILDRED ROSINA LITTLEFIELD

"Rose"

"As I live, an excellent, sweet lady."

Bridgton High School Bridgton, Maine
 Training, Warren School, Westbrook, Grades 2 and 3
 Orchestra (1, 2, 3, 4); Glee Club (3, 4); Christmas Cantata

Here's to the girl from Bridgton. Why do we hear so much about
 Bridgton, I wonder? Rosina, in you we recognize real worth as a friend
 and ability as a teacher. Here's to your success.

CAROLYN ELAINE MOORE

"Dolly"

 Everyone says, "Oh, how sweet!"

MARGUERITE WOODWARD PARKER

"Margy"

"I am part of all that I have met."

Boothbay Harbor High School Boothbay Harbor, Maine
 Training, Gorham Training School, Grade 1
 Outdoor Club (1, 2); A. A. (3, 4).

How glad we are that "Margy" entered our class when she returned
 after five years of teaching! She is one of the quiet, studious kind and
 stands high in her classes. We hear her ambition is to settle down on a
 potato farm in Aroostook.

MARY ELLEN PEARSON

"Her air had a meaning, her movements a grace;
 You turned from the fairest to gaze on her face."

Portland High School Portland, Maine
 Training, Warren Street School, Westbrook, Grade 1
 Hockey (1); Commuters' Club (1, 2); A. A. (1, 2, 3, 4).

The latest rumor says that Mary's interests are centered about one
 who plans for "a life on the ocean waves." As for her teaching abilities,
 well—she especially enjoys projects. If those kindergarteners don't
 develop a liking for school under her guidance, they just must be
 hopeless.

BARBARA FLANDREAU PIKE

"Bun"

"Not too serious, not too gay."

Bridgton High School Bridgton, Maine
 Training, Bridge Street School, Westbrook, Grade 1
 Glee Club (3, 4); Orchestra (1, 2, 3, 4); Outdoor Club (1, 2);
 A. A. (1, 2, 3, 4).

"Bun" is a real student in that she is a clear thinker with a logical
 mind, which she uses to express herself in all her classes. These quali-
 ties are true qualities of success.

MARION EMMA ROSSBOROUGH

"Mary Ann"

"Constant as the gliding waters."

Liberty High School Hollis Center, Maine
 A. A. (1, 2, 3, 4).

Jolly, good-natured and shy,
 A lover of sweet apple pie.

Here's to "Mary Ann," one of our best natured seniors. She always is
 wearing a smile, though certainly a quiet miss.

ELEANOR ROWE

"And her modest answer and graceful air
 Show her wise and good as she is fair."

Edward Little High School Auburn, Maine
 Training, Forest Street School, Westbrook, Grade 4
 Androscoggin County Club (1, 2); A. A. (1, 2, 3, 4).

When you hear someone speak of a charming blonde, it's most certain
 to be Eleanor. Everyone has been delighted with her personality, and all
 join in wishing her future happiness and success.

NINA ALBERTA SHELDON

"Nenie"

"Keep your face toward the sun and your shadow will fall
 behind you."

Stetson High School Stetson, Maine
 Training, Gorham Training School, Kindergarten
 Outdoor Club (1, 2); Camp Fire Girls (1, 2, 3, 4); Penobscot
 County Club (1, 2, 3, 4).

How our Nina has changed!

Nina of our junior year was homesick and sad;
 Nina of our senior year is happy and glad.

Nina is a companionable sort of person to have around. Whether
 work or play is proposed, she is right there.

BESSIE HAMILTON SMITH

"Betty"

"The heart of honour, the tongue of truth."

Waterboro High School Waterboro, Maine
 Training, Gorham Training School, Junior Primary
 A. A. (1, 2, 3, 4).

Bessie not only knows her lessons, but also an art in the selling of lightning rods. We know that Bessie makes jolly good company with her mirthful laugh and sincere cordiality. If children love truth, sympathy, and devotion, she is assured of success.

OLIVE EDNA SMITH

"Smitty"

"The world's calm sunshine."

Thornton Academy Alfred, Maine
 Training, Gorham Training School, Kindergarten
 Y. W. C. A. (1, 2, 3, 4); York County Club (1); A. A. (1, 2, 3, 4).

We wish we knew better
 That quiet, brown-eyed lass
 Who is not very talkative
 But always recites in class.

She's a friend we're glad to claim.
 Always treats everyone just the same;
 She is willing, good, and kind,
 Just the best you'll ever find.

GENEVA MARIE SPURLING

"Peggy"

"She has a cheery nature."

Southwest Harbor High School Islesford, Maine

 A. A. (1, 2, 3, 4); Y. W. C. A. (1, 2, 3, 4); Outdoor Club (1, 2); Washington County Club (3, 4).

"Good things come in small packages." The good things found in the small package which is Geneva are generosity and good humor. Geneva will help anyone at any time, but, what is more important, she will give the help with a smile.

VERNA MILDRED STUBBS

"Bunny"

It is hard to write about Verna, she has so many qualities one would like to mention. If you need a friend, a vocalist, a student or an athlete, call on "Bunny." She is always there and ready to give you her best.

ELINOR BARBARA THOMPSON

"Tommy"

"Serious, yet a brighter bit
 Sparkles in her ready wit."

Brewer High School Brewer, Maine

 House Committee (1); Outdoor Club (1, 2); A. A. (1, 2, 3, 4).

Here's to Elinor, so petite,
 So modest, and so very sweet;
 Every word is filled with vim,
 And on her face you'll find a grin.
 There's someone in Auburn, 'tis said,
 Who answers to the name of "Ed";
 Though no more here we may tell,
 'Twas for him that Elinor fell.

MADelyn LINA ULMER

"Mad"

"Her manners were gentle, complying, and bland."

Portland High School Portland, Maine
 Training, Pleasant Street School, So. Portland, Grade 1
 Commuters' Club (1, 2); A. A. (1, 2, 3, 4).

Madelyn is the girl who takes life seriously, but life is serious, after all. Madelyn has been able to contribute many fine points on Agriculture, because of a "certain farmer in New York," and we know that she likes Fords.

BERTHA MAE WARREN

"Bergy"

"Her mirth the world required,
 She bathed in it smiles of glee."

Wolfville High School Wolfville, Nova Scotia
 Training, Gorham Training School, Grade 1
 Y. W. C. A. (1, 2, 3, 4); Vice-President Y. W. C. A. (3, 4);
 Outdoor Club (1, 2); A. A. (1, 2, 3, 4).

Here's to the "quiet" girl of G. N. S.,
 If you only knew, you'd surely change your guess;
 She's full of fun and she sure is bright,
 She keeps us in "stitches" from morn 'til night.

There will be a special meeting of the Cassiopea Club in Room 304 at 8.00 o'clock. Everyone please be prompt and bring necessary equipment.

To Dan, the boop-boop-a-doop man, star drum pounder and basketball player.

His ready smile and pep
 Have won him a great "rep."

MURIEL EDITH BAGNELL

"Meo"

"I would be giving and forget the gift."

Beverly High School

Training, Bridge Street School, Westbrook, Grades 3 and 4
Massachusetts Club (1, 2, 3, 4); Outdoor Club (1, 2, 3, 4);
A. A. (1, 2, 3, 4).

"Meo" is a most energetic little person who has a winning personality. It is whispered that she has one weakness. Is it "Fitzy" from Mass.? We have enjoyed having her in our class and we wish her the best of success and happiness.

CATHERINE LOUISE BRANN

"Cay"

The calm of self-reliance."*

Your best of sportsmanship and delightful sense of humor have made the days at Gorham more pleasant for us all, "Cay," and we're looking forward to your companionship next year.

Take 5 feet 4 inches, add to it black hair and sparkling eyes, and you'll have our little "Roxie." In passing on, we can't forget her dancing ability. Was Center ever opened without "Roxie" heading the line? Does your future fame lie in science or art, "Roxie"?

MILTON OTTIGNON DUSTIN

"Like a friend long lost."

In every sport committee and game
You are always sure to see her name.
From a waitress at Gorham to archery,
You will always be able to find Marjorie.
With golden curls and a pleasing smile,
She has friends around her all the while.

MADELEINE FRANCES MORRILL

"Mad"

"She speaks not all she thinks."

Thornton Academy Kennebunkport, Maine

Training, Gorham Junior High School, History and Geography
York County Club (1, 2); Y. W. C. A. (1, 2).

Here is one of our real girls. She always has a pleasant word and smile for everyone. As well as being "right there" in her studies, she's always right there at mail time—why? Here's my prediction for her—Another year at G. N. S.—one of teaching, then—well, use your imagination.

MARY PEABODY

"May"

*"My crown is called content;
A crown it is that seldom kings enjoy."*

Westbrook High School South Windham, Maine
Training, Bridge Street School, Westbrook, Grade 8
Glee Club (1, 2, 3, 4); Editorial Board, GREEN AND WHITE (3, 4); A. A. (1, 2, 3, 4).

Mary is one of those modest girls who shyly refrain from boasting their accomplishments, but when the donor of talents passed by, Mary was not slighted. Her skill in playing the piano is the envy of her friends, and in the classroom she sets a standard that's hard to reach.

MARGARET STINSON ROSS

"Peg"

"Bid me discourse, I will enchant thine ear."

Sanford High School Gorham, Maine
Training, Gorham Junior High School, English
A. A. (1, 2, 3, 4); Civic Committee (1, 2, 3, 4); Glee Club (1, 2, 3, 4); Editorial Board, GREEN AND WHITE (3, 4); Operetta (2).

Red hair and freckles may spell quickness, but who ever saw "Peg" in a hurry? "Locket" and the mountains are her chief enthusiasms but we all know that she can get excited over a basketball game! Best wishes, Peg.

ELIZABETH AGNES SANBORN

"Betty"

"The sweetest garland to the sweetest maid."

Norway High School Gorham, Maine
Training, Gorham Junior High School, English
A. A. (1, 2, 3, 4); Art Club (1, 2, 3, 4).

"Betty" knows her football—after Knute Rockne, she's first! Now she's learning to ride horseback; perhaps she'll attract the attention of the Prince of Wales. She's not very noisy, but she's a good sport, and we like her!

VIRGIE LEONA SKILLIN

"Virg"

"Mirth, with thee I mean to live."

Sanford High School Springvale, Maine

We always know when Friday's here, because there is Virgie all in her Sunday best. Why do you leave us so often, Virgie? Do you spend your week-ends playing bridge? However, 'tis all right, since Monday's lessons are always well prepared.

LAURA KATRINA SNOW

"Snowflake"

"Full of love and gentle charm."

Daytona Beach High School Portland, Maine
Art Club (1, 2, 3); Outdoor Club (1, 2); Y. W. C. A. (1, 2, 3); A. A. (1, 2, 3); Assistant Business Manager, GREEN AND WHITE (3).

Laura is a four-square girl. She may be quiet, but when it comes to studies, she's right there. We regretted that Georgia's attractions have taken her from us. However, we all wish Laura good luck in the southern clime.

SHIRLEY ILENE SNOW

"Snowflake"

"She hath a natural, wise sincerity."

Daytona Beach High School Portland, Maine
Art Club (1, 2, 3, 4); Y. W. C. A. (1, 2, 3, 4); Outdoor Club (1, 2).

From the Sunny South came Shirley Snow.
Such charming voices and graceful ways
Have the fair southern girls, and you know
That our own Shirley is no exception.
When for the South again she did depart,
More than one her absence grieved, I'm sure,
'Cause she found her way into every heart
With her cleverness, poise, and lore.

BARBARA LUCILLE STROUT

"Barbs"

"True merit, like a river, the deeper it is, the less noise it makes."

Millbridge High School Millbridge, Maine
Training, North Street, Whitney School, Gorham
Washington County Club (1, 2, 3, 4); A. A. (1, 2, 3, 4).

She surely is doing her daily good deed,
Being cheerful, helpful, and true;
We know good fruit will result from this seed,
And follow her all her days through.

ELEANOR ROBERTA SYPHERS

Attractive, gay, petite, and sweet,
A finer friend one could not meet;
Classmate, helper, kind and true,
Her winsome ways will capture you.

LETHA LILLIAN TAYLOR

"Now she's here, now she's there,
Laughing, jesting everywhere."

Oxford County Club (1, 2, 3, 4); Y. W. C. A. Fair (2);
A. A. (1, 2, 3, 4); Outdoor Club (1, 2).

Who have we here? Oh, need we guess?
I think we know this charming miss;
She's witty, cheerful, full of fun,
And has a host of hearts she's won.

NELLIE ETTA TYLER
"Nell"

"Forever foremost in the ranks of fun."

Training, Bridge Street School, Westbrook, Grade 7
Civic Committee (1, 2, 3, 4); Outdoor Club (3, 4); Wash-
ington-Hancock County Club (3, 4); Editorial Board, GREEN
AND WHITE.

"Oh, Nellie! Can you see the bird in the top of that tree?" And
Nellie immediately knows and names the tiny feathered creature. How-
ever, that's not all, for her interest and knowledge in astronomy is most
astounding. Fortunate the children who have one so appreciative of
Mother Nature as their teacher!

CLAYTON LEE VERRILL
"Clate"

"Never late till twelve, then it's early."

Westbrook High School West Scarboro, Maine
Training, Bridge Street School, Westbrook, Grade 9
Basketball (1, 2, 3, 4); Lambda Pi Sigma (1, 2, 3, 4).

Clayton is a very popular commuter at Gorham Normal. On the
basketball floor he has stopped many an opponent's basket, besides
making enviable shots himself. The "heart-breaker" of his class at
Westbrook, he still continues this work at G. N. S.

MARY IMMACULATA WARD

Training, Broadway Grammar School, So. Portland, Geography
Athletic Council (1, 2); Dramatic Club (3, 4); Commuters'

Mary's a leader in everything—athletics, lessons, teaching. She's the
one who cheers us up and gives us confidence in ourselves when we feel
we aren't doing our best. Mary is a helping schoolmate and a loyal
friend.

ARLEEN MAY WATSON

That you can see for a mile,
He's sure to make a fortune fair.

Class Basketball (3, 4); Class Tennis (3, 4).

"Burt" is one of the studious members of our class. His appeal to the
fair sex is greater than you may suspect. Faithful efforts and keen
thought ably expressed are but two of his fine characteristics.

JOHN ARTHUR ANDERSON
"Johnny"

"Awake, thou that sleepest!"

Y. M. C. A. (3, 4); Glee Club (1, 2); Kennebec Valley
Club (1, 2, 3, 4).

Sometimes his memory is shockingly defective. For instance—but let's
not discuss that now. However, he is not the only member of the class
of '32 who suffers from a short memory. John is a young man of very
fine qualities; his sincerity, perseverance, and trustworthiness make it a
pleasure to have him in our midst.

CHARLES LOUIS CRAGIN

Portland High School Portland, Maine

Training, Gorham Training School

Lambda Pi Sigma (1, 2, 3, 4); Baseball (1, 2); Commuters' Club (1); Business Manager School Paper (4); Advisory Board School Paper (4).

"Charlie," though quiet, gets his studies done promptly and still finds time to improve the general welfare of G. N. S. We notice he doesn't get as much exercise this year as last. We wonder why!

RAYMOND ALBERT DEAN

"Ray"

"There's life alone in duty done,

We all know that fellow named Dean.
There's no meanness in him 'twould seem;
Frolic and fun dance in his wake,
And well with the girls he seems to take.

DONALD SHERMAN DOW

"Don"

"As merry as the day is long."

Fryeburg Academy North Scarborough, Maine

"Don" is one of the popular and well liked boys on the campus, so it is only logical to expect that he will accomplish even greater undertakings when he leaves Gorham.

RICHARD FREDERICK JOHNSON

"Dick"

"Then I told her of my Love."

Morse High School Bath, Maine

Training, Gorham Training School

Watch "Dick," during his five-minute social periods in the lower hall. Note changes in his expression. At first he seems to be saying, "Why do the teachers detain my Juliet?" At last she comes — but then, that cruel bell again.

JOHN HAROLD KENNEDY

"Ken"

"My heart is ten times lighter than my looks."

Edward F. Searls High School Lowell, Mass.

We watched Harold wire his lamp in Woodturning class, and 'tis easy to see he is interested in electricity. Everyone admits that it will be a fine field for him to work in, because you can't shock him.

Windham High School Windham, Maine

Training, Gorham Junior High School

Look for a rattling flivver with a neat appearing young fellow at the wheel and you will see "Bill." He is a good athlete and a great asset in giving us a daily cheer. Beware of blondes, "Bill."

DEAR OLD MAINE

Dear old Maine, we love you,
 Each year more and more,
 Something ever new's unfolding
 That we've never seen before.
 How we love your smiling hillsides!
 How we love your ocean shores!
 Dear old Maine, we love you
 Each year more and more.

We love you in the springtime,
 When field and woods grow green,
 We love your babbling brooklets,
 We love your lakes' blue sheen.
 We love the first spring flowers,
 Wake robin, hepatica, daffodil,
 And the brave little mayflower
 Under the pines on the hill.

We love you in the summer,
 When days grow long and hot,
 We revel in your coolness,
 Ne'er found in other spot.
 Just then your skies are bluest,
 That's when you entertain,
 When guests from every region
 Flock to dear old Maine.

We love you in the autumn,
 When the woods are at their best,
 When maples, oaks and beeches
 In brightest hues are drest.
 None other place can rival,
 On sea or land or plain,
 The beauties of an autumn
 Spent mid the hills of Maine.

We love you in the winter,
 When field and wood and hill
 Are covered 'neath snow blanket,
 And the streams are hushed and still.
 We love your long, long evenings
 Beside the firelight's glow,
 We love your sports and frolics
 On the ice and in the snow.

Dear old Maine, we love you,
 Spring, summer, winter, fall,
 Dear old Maine, we'll always
 Live 'neath your kindly thrall,
 We would not change your beauties
 For wealth or worldly gain,
 There's nothing half so glorious
 As life in dear old Maine!

JUNIORS

In order to be successful in life, it is necessary for each individual to have a definite picture of what he wishes to accomplish.

We, the junior class, started on our training for the teaching profession with a shining goal before us. We hope that our chosen work will bring the following experiences to our lives:

Teaching will broaden our lives and thus increase the capacity for enjoyment through the acquisition of a cultural background. It will give a respected position in homes and in the community. It will bring financial independence.

To us will come the satisfaction, derived from doing good and leading a contented well-balanced life. There is a very natural desire in each to be of service in the world. How can we touch more lives than by teaching?

CARPE DIEM!

Everywhere there are things to do.
 Big things and little things. Do them now.
 Carpe diem!

Do the little things, they may seem trivial,
 But they will give strength to do more.
 Carpe diem!

Don't grumble about everyday monotony,
 Do the daily duties—well!
 Carpe diem!

CARPE DIEM

The world has honor for him who tries,
Who stands for the right and true,
Who puts the best he has in the fight,
The one who has courage to do.
Carpe Diem.

To heights of grandeur not all can climb;
Success must needs defy some,
But each of us has a deed to do
In this huge old world's busy hum.
Carpe Diem.

Men who reach the far-set goals of youth
Are those who know that each day
Brings with it fine opportunities
For him who attention will pay.
Carpe Diem.

Success is made not at one lone time;
It is the result of work,
It comes to the one who knows his chance,
And to chance is not a shirk.
Carpe Diem.

When I was a pupil at G. N. S. I was very fond of our Pater, William J. Corthell, and thought he knew the most of any man I ever was acquainted with. I have never changed my mind. As a teacher he was way ahead of his time.

Mr. Corthell was very proud of his "Strawberry Class." Quite a number taught fifty years. I think six are teaching this year. Fifty-one years is a long look backward and the circle is narrow that once was wide, and the faithful few that in life abide grow nearer and dearer with the ebbing tide.

The remaining members of the "Strawberry Class" look forward to their annual reunion as one of the most precious days of the year.

I have four children and seven grandchildren. Have led a very happy life. "What is more delightful than old age surrounded with the studious attention of youth?"

REMINISCENCES OF GORHAM NORMAL SCHOOL 1899-1901

Before touching upon some reminiscences of Gorham Normal School at the beginning of this century, it may be of interest to glance briefly at events of earlier days that were stepping stones to the establishment and development of our beloved school.

When Maine was still a part of Massachusetts, Gorham became an educational center. In 1806 Gorham Academy, the beautiful colonial building now used as the Industrial Arts Department for men, opened its doors to male students. Among its alumni are enrolled the names of many of Maine's illustrious citizens. Thirty years later the sentiment for higher education for girls was realized in the "Maine Female Seminary," which was erected on the site of the present Junior High School. This building became the first dormitory for the Normal School when it was established in 1879. It was the seminary which Kate Douglas Wiggin chose for "Rebecca of Sunnybrook Farm" to attend. In 1894 it was destroyed by fire and immediately steps were taken by interested persons to build a new dormitory. In 1898 Robie Hall was first occupied. It was named for Governor Frederick Robie, whose home was in Gorham and who gave generous support in securing the building.

In 1899 the Administration Building (Corthell Hall), Robie Hall, and the Academy Building were the only structures on the campus. Dirt driveways and walks became oozy and sticky when rain fell, and boards on which to pass over dryshod were laid between the school building and Robie Hall. The "57 varieties" of trees had been set out and the nature study classes searched for the tulip, catalpa and gingko. Thirty years of silent, steady growing has added great beauty to our lovely campus. Buried in the ground under the roots of the woodbine that arches the entrance to Robie Hall is a sealed bottle containing the names of the members of the class of 1901 who planted the vine on Arbor Day of that year.

On a fair fall morning of 1899, the early trains brought to Gorham a number of young women with a desire to train themselves to teach school. Those who were familiar with the approach to Normal Hill quickly placed their baggage and themselves in the only conveyance available and left the newcomers to find the way as best they could.

GREEN AND WHITE

At the school door a loud chatter of voices guided the arrivals to the assembly room where, perhaps, one hundred fifty young women with one lone young man were gathered. Old acquaintances were extending cheery greetings after the summer vacation, while the students making their début were dreading the examination which was a requirement of admission.

The seats, now in use, faced the north and a carpeted platform extended between the doors, which at present lead from the main room into the two libraries. The old clock which faithfully marked the hours and was watched by the tired and impatient for the close of the session, long since ceased its duty and hangs in the Kindergarten Center. It then hung over the above mentioned platform where a door has since been cut to permit exit through the hall to the various recitation rooms at the rear of the libraries and Teachers' Room.

Large chandeliers containing oil lamps hung from the ceiling and with wall lamps, furnished lighting for dark days and evening functions.

Each school day, at 8.00 A. M., a bell on the Administration Building summoned members of the school to morning exercises. Occupying the chairs on the platform were Principal William D. Corthell, affectionately called the Pater, at his desk, Mr. Russell, Miss White, Miss Stone, Miss Halliday, Miss Fickett and Miss Maude S. Andrews. A cherished memory is the beautifully expressed prayer of the Principal which was a fitting inspiration with which to begin the day. At the close of the afternoon session all returned to the main room to hear notices and to sing a hymn.

Following morning devotional exercises, three times a week, Miss White dictated the spelling lesson of twenty words. The person sitting in the last seat in each row brought her book to the first seat in the row, the others were passed to the student sitting directly behind and then corrected. On the remaining two mornings in the week, groups of ten or twelve passed to settees ranged along the sides and back of the room. Mr. Corthell appointed a leader in each group who proceeded to conduct the lesson in "mental arithmetic." The order of procedure was for the leader to read the problems which were repeated and solved in turn by those in the group. Only the leader was supplied with a book.

The chief interest at the beginning of the morning recess was the distribution of the mail. Mr. Russell brought it from the post office and read the names on the envelopes and the fortunate ones went forward to receive letters. The last part of the recess period was devoted to the execution of a wand or dumb-bell drill. At the sound of chords played on the piano the school arose and passed to assigned positions on the platform and in the aisles. The pianist played a march and the drill proceeded. This work was conducted by Miss Stone. Athletics and Industrial Arts were not a part of the curriculum in the 90's.

When daylight lasted until after the supper hour and the lure of the campus was hard to resist, the bolder natures girded up their long skirts, secured a bat and ball and engaged in an exciting game of baseball on the green between Robie Hall and the Administration Building. Other opportunities for exercise were bird hunts in Fairy Glen and Alden's Woods, walks to Fort Hill and Lovers' Lane and to Westbrook. The trolley line between Portland and Gorham was not completed until 1901. Traffic was not a problem then. The greatest inconvenience was the cloud of dust that enveloped one and left its deposit on boots and sailor hats.

GREEN AND WHITE

No dancing by any individual was permitted in any part of the institution at any time. Temptation occasionally overpowered when the coast was clear during the noon hour, and the music that drifted from the windows impressed one as having a strong waltz or galop rhythm.

Three members of the faculty who did not gather on the platform each morning were Miss Grace Walker, Miss Ella Johnson and Miss Eleanor Cloudman. They were the practice school teachers. Miss Johnson's room was located where the present print shop is and the side entrance to the school building was at the end of a hall passing between the chemistry laboratory and Miss Johnson's room. The upper grammar school presided over by Miss Walker, was located on the second floor of Academy Hall and Miss Cloudman taught the primary grades in the Senior High School. The eight recitation rooms and gymnasium in the northern end of Corthell Hall had not been built.

Robie Hall housed less than one hundred students and teachers. The furnishings were new and attractive. Dark green upholstery and carpet with wall paper that harmonized made an attractive reception room. Rose predominated in the Teachers' Reception Room, now the Y. W. C. A. Friends of the school who had travelled abroad selected the pictures. In the dining-room, which has since become the Center, four long tables extended north and south. Miss White and Miss Andrews presided at the table toward the west and the girls felt honored who were seated near them. Fashion decreed the wearing of a blazer jacket to the breakfast table. These were most attractive and convenient to wear in getting one's room ready for inspection. It took but a few minutes to change to the shirtwaist which was the business dress of that day.

The signal for meal time was given by a hand bell. This same bell awoke us in the morning and marked the beginning and end of the evening study hour. Oil lamps were in use and a responsibility each student had to assume, was that of carrying her lamp to a table under the stairway on the second floor before school in the morning in order that it could be filled. It was easier to remember to get it when darkness came on. The janitor lighted the hall lights at dusk.

The linen was kept in what is now room 29. There were appointed hours in which to take and leave bedding. A favorite pastime was playing leapfrog over the nicely packed baskets that waited in the hall on the second floor for the laundryman.

In the leisure time following the supper hour, girls gathered around the piano in the library to sing. On Sunday afternoon Miss Andrews often read to a group such delightful stories as Captain January, The Birds' Christmas Carol, Patsy, etc. Sunday was a quiet day on Normal Hill. On Saturday afternoon, students living in adjoining towns went home each week. Parents or brothers or "cousins" drove on to the hill with a plodding farm team or a more stylish rig, then clattered away on the dirt walks not to reappear until Monday afternoon. Monday was the school holiday.

On warm spring nights, young men from town reclined on the grass back of Robie Hall. A cool, wet reception on one occasion aroused their ire and the next afternoon they caused some excitement by hauling the hose carriage on to the campus. This escapade revealed the boys who had been showered.

Glorious sunsets, silver crescents in the western sky, full moons reflected on the ocean, Orion, Ursa Major, and other constellations, Mt. Washington in many

moods, ermine-edged trees, feathered songsters, rich autumnal covering, the tender greens of spring, apple blossoms and lilacs are pictures in Memory's treasure house.

Hard work mingled with pleasure made the two years pass all too quickly, and in June, 1901, forty-seven girls, the largest class up to that time, received diplomas to teach in the public schools. Eleven of this group are still teaching. After the passing of thirty years, among the most precious of life's attributes for the members of this class are the abiding friendship of the beloved teachers and school-mates and a staunch loyalty to Gorham Normal School.

NELLIE WOODBURY JORDAN, '01.

Life at Gorham always remains a pleasant memory. A few years ago I had the pleasure of listening to King John at the Stratford Memorial Theatre. As I sat there I thought many times of that wonderful teacher, Mr. Corthell, who first presented the play to me. As I have gone through the pages and re-lived the *Lady of the Lake*, the study of the poem with that charming woman, Miss Halliday, was constantly recurring to my mind. Does anyone in our class ever hear the first song bird of spring without being reminded of that bird lover and faithful teacher, Mr. Russell?

My days are still busy with study and supervision. My husband and I are planning a trip of great interest to us for the coming summer. We are sailing to Glasgow from New York on June 20th. We shall visit Iona, Staffa, and some other islands of that region, climb Ben Nevis and go through the Caledonian Canal to Ino. From here we shall visit the places of interest in Northern Scotland and go on to the Orkneys and Shetland Islands, returning over the Eastern part of Scotland and England to London. Our interest is in the early art and history of this region. We expect to learn many interesting things.

ELIZABETH THOMPSON NEWELL, '02.

*Backward, turn backward, O Time in your flight,
Make me a student again for tonight.*

This was the trend of my thoughts as I sat April 22, 1931, waiting for the Operetta, "Once in a Blue Moon," to begin, and watching the groups of students collect and chat in their old-time fraternal fashion. The gymnasium, the principal's home, East Hall, the Junior High School and so many other things added since that Alumni dinner of the class of 1905! To be sure, that class stood at the close of one era and the opening of another. Yet the groups, before and since that date, need not be compared, for the true spirit of Gorham Normal School impresses itself on every graduate; and somewhere, somehow, in life we all have a bond that holds to those great principles that inspired Dr. Corthell years ago.

As we, of the class of 1905, delight in remembering Principal Russell almost boyishly, we appreciate his wonderful executive ability and his dignified maturity. The bulwark of strength in leadership and influence exerted by Miss Stone and Miss Halliday through these years increases the devotion we always had for them.

GREEN AND WHITE

But here the vision ended. The operetta had opened and closed, and I had seen these things and these people as a student once again.

I wish you the continued success that is yours, and I thank you.

LIDA HARMON ELWELL, '05.

*Backward, turn backward, O Time in your flight,
Make me a student again just for tonight;
Teachers, come back from the echoless shore,
Take me again to your classes as of yore.*

To let one's mind fly back over the past is bound to be refreshing if he has done his best. So many changes have come to Gorham Normal School, space will permit me to mention only a few of them.

In 1910 the school was much smaller, both in personnel and buildings. Well do I remember my first morning, both as a student and a member of the faculty.

As a student, I was the only man in the division and no doubt quite a curiosity or at least so it appeared to me. My studies consisted of Manual Training, Mechanical Drawing, Free Hand Drawing, History of Education, Geometry, Industrial Arts and Psychology.

Some amusing things are always sure to happen. I suppose Psychology, like everything else, has changed, but back in those days no arguments were allowed or questions asked, the newness of the subject made it wiser to stick to the text and let it pass. One day we were asked if there was anything one could be sure of and one timid little soul suggested love. Perhaps she had just received a letter of that type, but be that as it may, I objected, pointing to the divorce courts as a proof of my statement. The class was in an uproar. I suppose being a married man I should have said love is perpetual, everlasting, and eternal. The teacher kindly allowed me to pass the course.

Another teacher allowed me to pass her course and at the same time gave my wife credit for doing the work. Since that teacher is still on the faculty I had better remain silent. Miss White was my instructor in geometry and for her I can speak in the highest terms. She understood not only her work but her students. Miss Burr, Mr. Backus and Mr. Russell all labored hard to impart a bit of knowledge to me.

The buildings have changed. The industrial arts room was the only one furnished on the third floor of Corthell Hall. The school office was the small room opposite the library. Robie Hall accommodated the students, and the "center" was formerly the dining-room. East Hall and the junior high school were not built. The Academy was a deserted building often pointed out as an example of colonial architecture.

The growth of the school has been marvelous under the skillful guidance of Principal Walter E. Russell.

GEORGE A. BROWN, '09.

It seems we have two "great minds" here for the two above articles were received by the editors on the same day.

GREEN AND WHITE

It is a pleasure for me to contribute a few words for the GREEN AND WHITE this year, as I have in previous years enjoyed reading where my classmates are and what they are doing. I am enjoying my work very much at G. N. S., teaching Industrial Arts in the three-year course. As I have studies with all three classes and supervise the Practice Teaching in Drafting, I come to know the young men very well by the end of the three years. It is interesting to work with them and see them grasp each new problem with enthusiasm and carry it through to completion with honor to themselves.

Then, too, we have a very unique place in which to work. It is a wonderfully old style building with one hundred and twenty-five years of interesting past history and, on every hand, items of interest to catch the eye. A few years ago we had an elderly man and lady for visitors who pointed out with pride the exact spots where they used to sit in the main room when the building was Gorham Academy.

It is also my pleasure to welcome back sometime each year many graduates of the Industrial Arts Course who revisit the shops during their vacations or at Commencement time. It is my firm belief that such visits do much good for each one and for their Alma Mater as well.

L. N. CILLEY, '16.

Four years after receiving a diploma from the Gorham Normal School, I found myself back teaching in the Training School. One day a teacher who had been in my class was visiting the school. After spending a little time in my room, she confidentially inquired of one of the supervisors how it happened that Lois Pike was just doing her practice work. That was eight years ago and I am still practicing.

Isn't that what we are all doing wherever we may be located and whatever our occupation? Always I have felt exceedingly blessed in having the opportunity to do my practicing in the Gorham Normal School.

LOIS PIKE, '18.

ANYTHING?

When asked to furnish an Alumni article for the GREEN AND WHITE, I was at loss to know what to write. After inquiring of several members of the staff the nature of the article wanted and always receiving the same answer, "anything," I finally decided to do as told and write about anything.

It may be well to first tell you of my connection with the Gorham Normal School which has played such an important part in my life. As a child I attended the practice school, located in what we now know as Corthell Hall. I completed the high school course with other boys and girls of Gorham, then entered the Normal School and was graduated from the Industrial Arts course with the class of 1924. I taught two years in our sister Normal School at Castine, and then in the public schools of Wellesley, Massachusetts. In the fall of 1927, Gorham Normal School called me back to teach in the Industrial Arts Department.

Gorham Normal School holds an important place in my heart. I have grown up with the school. With the exception of my family, this school and the teachers who were here when I attended it, have meant more to me than any other thing in

GREEN AND WHITE

my life. Those teachers' lives exemplified to me the true worth of character, clean living and the wholesome relationship of mankind. Without their faith, without their trust, without their friendship, and without their patience, I should never have made a success of what their lives prompted me to try for, which was to be a MAN and a TEACHER of men. About all that I am I owe to them, especially Mr. Russell, who has been to me and my life what a lighthouse on a reef is to a passenger ship on a foggy night.

Eleven of my teachers are still on the job with that same faith, trust, and friendship for you which they had for me. It is with great pride that I can say I attended the classes of, and am now teaching with, Mr. Russell, Mr. Woodward, Miss Halliday, Miss Stone, Miss Keene, Miss Hastings, Miss Jordan, Miss Andrews, Mr. Brown, and Mr. Cilley.

Our classes were just the same then as yours are today. We had those who were late for meals and for chapel, those who were willing for someone else to do the work, those who would be vamps of sheiks, and all the rest. Mr. Brown had as many tricks played on him then as now. Mr. Cilley had just as hard a time to get the architectural drawings in on time as he does today. The favorite pastimes then as now were for Miss Ryan to give travel trips, Miss Stone to assign reports, Miss Keene to feed suet to the birds, Miss Halliday to assign work in general, and for Mr. Brown to be absent from Friday chapel.

Our class published a yearbook, which to us seemed, as yours will to you, the best ever. It was a book of about one hundred and thirty pages with a flexible green paper cover and white letters. Yours is about two hundred and fifty pages with a beautiful stiff cover. Our staff consisted of nineteen members, yours has twenty-nine.

It has been with much pleasure I have watched the growth of the GREEN AND WHITE under the able leadership of Miss Halliday. I hope that your book and that of each succeeding class will seem to you as great an accomplishment as ours did to us.

EVERETT S. PACKARD, '24.

There have been two events during the school year 1930-1931 which merit special mention. These events were made possible by the loyal coöperation and conscientious effort of the student body. One was the awarding of a first class rating to the GREEN AND WHITE by the National Scholastic Press Association; the other, a Superintendents' and Principals' Day, sponsored and carried through entirely by student activity.

JEANETTE S. JOHNSON, '25.

The faculty and student body are glad indeed that Miss Johnson consented, September, 1930, to become a member of the Gorham Normal School faculty. All fully appreciate the wealth of good things that she so faithfully and so cheerfully shares with others.

My two years at Gorham were years of building stronger character toward better womanhood.

The love of and for beauty in all walks of life were shown to us at Gorham—nature study classes, walks, bird quests, oh!—so many, many, wonderful things—brought to our attention by some very dear people (members of the faculty) who have gained a dear place in my life.

After leaving Gorham in 1927, I taught the third grade in Medford for three years. This year I am studying at Bryant and Stratton's Commercial School, Boston. Both last year and this year, I have been studying, with credit toward my B. S. degree (on Saturdays), at Boston University.

DOROTHY C. JOSLIN, '27.

Three years ago, at this time of year, I was practice teaching at the Gorham Training School. It was nearing graduation time and we were each anxious to secure a position. Fortunately, before graduation, I secured one in the fifth grade in the town where I lived.

During the summer, I made use of my notes, particularly of those in nature study, geography, music, drawing, industrial arts, literature, arithmetic, and reading. I arranged the material which would help me the most in fifth grade work. Then I was anxious for the fall term of school to open in order to try some of the new methods which would lead to improvement in teaching. These notes proved a great aid in my teaching.

Because I had followed the courses prescribed at the Gorham Normal School so closely during my two years' teaching, I was overjoyed at the thoughts of really putting them in practice again at the training school. Now, I enjoy having as associates the teachers who have given me this excellent educational training.

My school days here at Gorham seemed particularly near one day when I visited Miss Keene's Bird Study Class. If the familiar faces of my classmates had been there, I would have believed that I was a student again at the Gorham Normal School.

RUTH L. MILLER, '28.

It is difficult for me to have a true "Alumni" feeling toward this particular senior class because, having been in classes with every division and knowing prac-

tically every member, I feel almost as much a member of it as I did of my own class of nineteen thirty.

You all know what my work has been this year so I won't tell you anything about it except that it is of the most fascinating sort imaginable. I learn and see such countless opportunities for learning new things all the time that I have finally come to this conclusion: One of the finest and most valuable of the many fine and valuable gifts we take from Gorham Normal School is not any particular lesson learned or any special knowledge gained, but a firm conviction that, after all, teaching implies learning not only on the part of the pupil but on the part of the teacher as well. I think that Gorham taught me how to be, as Arent puts it, a real "learning" teacher.

NORMA G. THURSTON, '30.

Dear Bertha:

So you want to hear all the interesting things that have happened this year. Impossible! Won't it be enough if I plead guilty to the charge of spending a year working and playing with just enough of both to feel absolutely happy?

Now, seriously, I will try to give you my impression of the first year of teaching. I have been teaching the primary grades in a two-room rural school. Every morning twenty lively youngsters come to spend the day with me. We work and play together all day and I hope we all go home a little wiser for the day's experience. I know they've taught me a great deal.

As I was thinking over what I should tell you, I remembered what I thought was the most important fact I had learned through experience this year. It wasn't very original, I know, only this: "What must be done, can be done." Teaching in a rural school certainly gives you a chance to discover every bit of ability you possess.

The most interesting part of my teaching was teaching English to two little French girls who understood only their own language.

So we have worked our way through teaching the subjects in the curriculum, cooking hot lunches, dressmaking, costume designing, dancing, and landscape gardening.

This is all the information I can give you now concerning the class of 1930. It may help a little.

We hear "Dot" Abel is married now, but have not heard who the lucky man is. Polly Baker has also been married since graduation.

Stella Mills writes that she has had a wonderful year teaching in South Paris. Now she's wearing a diamond on the third finger of the left hand.

Adele Page is married and living in East Sumner.

Marion Chandler writes that she is enjoying her year of teaching in Long Island, N. Y.

Dorothy Dorr is working in Bangor.

Esther Durgin is at home in Newfield.

Althea Healy is teaching primary grades in Athens, Maine.

Edna Hodson teaches in New Jersey.

Rama Judd is teaching in South Paris.

Caro Cunningham is teaching in Rockland.

Henrietta Darroch is teaching Junior High School English in Presque Isle.

Zelpha Doran is teaching in South Paris, Maine.

I wish all success to the GREEN AND WHITE of 1931.

"BILLIE" BRANN, '30.

PYRAMIDS

O Pyramids, in all your grandeur,
What mysteries do you hold?
Did your builders think of the future
And the history you would unfold?

You are so splendid as you stand,
Built with care of sturdy stone;
Holding treasures for a far-off land
Waiting ever for the vast unknown.

O! that mankind could be like you,
So strong and pure and upright;
Stolid, firm, and majestic, too,
With standards that tower to the heights.

A FAREWELL

'Tis with pleasure, ay, and sorrow
That we gaze upon the morrow
When from this our school we go,
From Normal Hill.

More with sorrow than with pleasure,
But we'll ever always treasure
Sweetest memories of all,
On Normal Hill.

So good-bye to Dear Old Gorham,
To our true, close friends at Gorham,
And the beautiful, old campus,
Normal Hill.

SENIOR PLAY

PRESENTED ON GORHAM CAMPUS, JUNE, 1931

ELECTRA

DIRECTED BY JEANNETTE S. JOHNSON

The tragedy of Electra by Euripides, based upon legend, narrates how Orestes and Electra, son and daughter of Agamemnon, the murdered King of Argos, slew, in due course of revenge and by Apollo's express command, their guilty mother, Clytemnestra and her paramour, Ægisthus.

In the play, Euripides seeks to solve the puzzle as to what kind of man or woman would commit such a deed as mother murder not in sudden fury but as an act of justice.

The answer is this. Orestes is an exile bred in the desperate hopes and wild schemes of exile. Being a prince without a kingdom, he broods upon his wrongs and thinks how he may be restored. Encouraged by an oracle, he finally becomes convinced of his duty and the manliness of revenge.

Electra, the central figure of the tragedy, is a woman shattered in childhood by the shock of the terrible death of her father. She is a haunted woman, eating her heart out in ceaseless broodings of hate and love, until nothing but complete revenge will bring even temporary relief to her troubled mind.

THE ENTERTAINMENT CUP

A new incentive for better entertainments has been given this year. It is in the form of a silver cup. There is a standard value that each entertainment must attain. Under the standard three things are taken into consideration. These are preparation, which includes the program and decoration; participation, which must be by the group giving the entertainment and by the school; presentation, which brings forth the entertainment value. The organizations that are permitted to enter the contest are the fraternities, clubs, Y. W. C. A. and Y. M. C. A. Before the entertainment is to be given, the names of the committee and the date must be submitted to the judges. They are Miss Nellie Jordan and Mr. Clifford Wieden of the faculty; Miss Shirley Hartley, Miss Dorothy Farrington, and Mr. Rutherford Drummond of the student body.

There have been some very fine entertainments given, but the winner cannot be decided upon until the close of the school year.

STUDENT GOVERNMENT

Gorham Normal School is proud of its maintenance of student government, proud because it means that the highest is shown in the coöperation which goes to make the system strong enough to hold the reins of the entire discipline of the students.

The House Committee, composed of nine members, a president and vice-president, is elected by the members of the student council to supervise the dormitories. The members are chosen from the advanced senior and senior classes the first semester and from all three classes the last semester.

This committee which is helped, advised, and guided by Miss Jordan, Dean of Women, meets weekly with her to plan for the welfare of dormitory life. The girls who serve on the committee suggest better ways of carrying on the routine. The willingness of students to adopt these suggestions makes many phases of dormitory life more pleasant.

The committee also tries to plan pleasurable events for the entire student body, as well as for members of the Council. The Halloween Party has become an annual and much anticipated event. The Christmas Party, which includes an evening of Christmas festivities, makes possible the contribution of many toys for the poor children of Portland. Other affairs, such as the Pajama Party and the Banquet, are on the program of events sponsored by this group.

Members of the House Committee for the first half year were: Shirley Hartley, President; Louise Gould, Vice-President; Arlene Watson, Secretary; Elinor Thompson, Mary Curtis, Helen Lee, Doris Marcroft, Camilla Little, Ruth Crowther, Mary Tapley, and Marjorie Moody.

Those who served the last half year were: Maryjane Fortier, President; Mary Curtis, Vice-President; Rachel Hallet, Secretary; Grace White, Madeline White, Janet Tapley, Dorothy Harmon, Ida Gaudette, Ruth Miller, Marjorie Snell, and Verna Stubbs.

Y. M. C. A.

The Y. M. C. A. had its first meeting soon after school opened at which new members were invited to join. We have a membership of twenty-two this year, the largest since the Y was organized.

The meetings have been held twice a month in Corthell Hall. Some of the meetings are led by members of the group, while at others we have had the privilege of listening to such speakers as members of our faculty and the different pastors of the community.

This year four delegates were sent to the State Y. M. C. A. Conference which was held at Bangor. Reports on the conference were made at the following meeting.

As a means of earning money this year, the Y sold G. N. S. pencils and hasty notes during the fall term and also had its annual sale of Christmas cards.

Our most outstanding meeting this year was the church service led by the members of the Y at the North Street Church. The speakers were West, Worcester, and Story, and the song service was led by Savage.

Y. W. C. A.

State Normal School,
Gorham, Maine, April 21, 1931.

Dear Joan:

It is a pleasure to write you about the Young Women's Christian Association at Gorham with the hope that you may receive some helpful suggestions for the organization of which you spoke. Through a letter that I received from one of the members of the cabinet even before I came to school in the fall, I had learned of the fine spirit with which the members of the Y. W. C. A. work.

Besides writing letters of welcome to the entering students, they returned early for the purpose of helping us find our rooms and of making us feel more at home. Well do I remember the smile of the senior who met me on the steps of Robie Hall just at the proper moment to keep me from overworking my tear glands. It was her influence which prevented me taking the next train for home.

That evening, just when we all felt like Rip Van Winkles "looking for one familiar face among the passing throng," two girls called to direct my roommate and me to the gymnasium for the "get together" sponsored by their association. Although strangers when we entered, we were soon acquainted and were chatting about our courses, roommates, and—well, you know what kind of conversation would take place. Two weeks later a reception was given for the juniors, the first formal function of the school year. An excellent program had been arranged and we all had a most enjoyable time. My roommate and I went together and, as there were not enough male partners, I became the man of the hour.

It is difficult to estimate the amount of good done at the beginning of the school year in the ways which I have described. Little things they seem, but after all, it is the little things that count.

The organization touches the religious life of the school through weekly meetings led usually by its members and at other times by outside speakers. Two meetings were given over to reports of delegates sent by the Association to Maqua last spring and to Poland Springs this winter. This year we have had very good attendance and we feel that these periods of quiet devotion are a change from our regular school activities and are of great inspirational value to us.

The money to support these many activities was earned by the Y. W. C. A. members. They were divided into groups of about twelve girls each. Various ways were used, such as sandwich sales, entertainments, and parties. Shortly before Christmas a bazaar was held in Center. Fancy articles, candy, stationery, and Christmas cards bearing the school seal were sold.

It is a busy time for us at present. We are electing a new cabinet, entertaining the advisory board at tea, and arranging for a banquet next week when the old and new cabinets and the advisers will be the guests. We hope to make the closing event of the year a picnic for all the members.

If you are able to make your organization as helpful and inspiring to your members as our Y. W. C. A. has been to us, you may feel that you have been truly successful.

Sincerely,

ROBERTA.

THE CHRISTMAS CANTATA

On December 19th, a cantata was given in the assembly hall by the members of the Glee Club under the direction of Miss Thelma Rhynsberger. The story of the "Universal King" was written by Francis Billinge Evans, the music was by various composers. The Glee Club was assisted by a reader, Miss Josephine Sawyer of the Junior Class.

SYNOPSIS

"Arise Shine" was the opening selection by the Glee Club. It was night. Out in the fields, under the Judean sky, a group of shepherds kept watch over their flocks. All slept except the youthful watcher, Nathan. He became conscious of the beauty and wonder of the night and was filled with awe. Soon he awakened one of his companions, Michael, and together they watched. Suddenly they heard voices singing "For Unto Us a Child Is Born."

Nathan tried to awaken his other companions but they were unconscious of the sights and sounds about them, they were asleep both in body and soul. Voices were then heard singing "Across the Silent Midnight." Finally the shepherds said to one another, "Let Us Now Go Even Unto Bethlehem." Guided by the Spirit, the shepherds found the humble resting place of the Messiah. Later, on a return visit to this sacred shrine, the shepherds met three Wise Men bearing rich gifts to the young king. "Gifts for Jesus" and "The Universal King" were the closing selections sung by the Chorus.

ENTERTAINMENT COURSE

The students and faculty of Gorham Normal School enjoy each year a series of entertainments sponsored by a student committee under the guidance of Mr. Louis B. Woodward. Those presented this year were no exception to the high standard established in previous years.

The first was held Tuesday evening, November 4th. The entertainment was furnished by Miss Iva Roberts, a charming and talented young woman who read the play, "Monsieur Beaucaire," by Booth Tarkington. It was an exceedingly difficult reading, but Miss Roberts' presentation was flawless and she easily held the interest of her audience.

The second was a lecture given January 20th by Rev. James D. Dingwell, who spoke on "The Challenge of the Unaccomplished." He reviewed the achievements of man along the line of invention, such as radio, airplane, automobile, and telephone. He explained how man had coped with and solved many problems of time, distance, and labor. His main purpose was to stress certain sociological problems that man had not solved. Among those mentioned were the unfair deal for workmen, the lack of proper housing and working conditions, and the evils of the slums. Such problems as these the speaker called the challenge of the unaccomplished.

The final entertainment of the series was given on March 5th by the Anna Eichborn Ensemble. The company consisted of Miss Eichborn and her three assistants. They presented a variety of compositions which were very much enjoyed by the audience. Among the selections were harp, violin, and piano solos. The French folk songs presented by Miss Eichborn in appropriate costume were especially enjoyable.

THE INTER-FRATERNITY BALL

The Lambda Pi Sigma and the Alpha Lambda Beta held their first Inter-Fraternity Ball in the auditorium of the Junior High School, Saturday evening, March 28th. Maroon and gold dance orders were presented to the guests. The music was under the direction of Clayton Frank. Dancing was enjoyed from eight to twelve.

The auditorium was cleverly decorated with orange, maroon, and gold streamers, the combined colors of the fraternities. Huge clusters of many colored balloons hung from the ceiling. As the evening wore on, however, few balloons could be found on the walls and ceiling, while many were floating from the hands of the dancers.

After eight dances had been enjoyed, there was a short intermission during which time ice cream, cookies, and punch were served.

The patrons and patronesses of this delightful affair were Principal and Mrs. Walter E. Russell, Mr. and Mrs. Lawrence N. Cilley, Mr. and Mrs. George A. Brown, Mr. and Mrs. Louis B. Woodward, Mr. and Mrs. C. O. T. Wieden, Mr. and Mrs. Everett S. Packard, and Dean Nellie W. Jordan.

THE ORACLE

The Oracle is the newly organized newspaper of the school. It is a result of the endeavors of the Civic Committee to have a frequently issued publication containing notes of interest about the school and its alumni.

The staff was chosen last January, on the basis of competitive application, by an Advisory Board consisting of two faculty members and two student representatives from each class. Since that time it has been actively working and has succeeded in issuing seven editions of the first permanent newspaper of the Gorham Normal School.

The paper is issued bi-weekly and the price of subscription is five cents per copy.

During the first part of the year the paper sponsored a contest for the selection of the social celebrities of the school; in the latter part of the year, a literary contest for which it awarded a five-dollar gold piece to the person submitting the best composition of original prose.

Of course this was only the first year of a new organization. The foundation has been well laid and in all probability *The Oracle* will continue to be a permanent, living factor among the students of the Gorham Normal School.

SUPERINTENDENT'S DAY

On November 20th, there took place at Gorham Normal an event which was of interest to every student and teacher of the school. On this day superintendents and principals, representing the secondary schools from which our students graduated, visited Gorham Normal. The visitors were encouraged to observe, during the first three periods and the fifth period, in those classes which were of interest to them. Later in the morning the following program was given in the assembly hall:

The guests were entertained at luncheon in East Hall dining-room. After the last class in the afternoon, one of the interesting features of the day took place, for then the principals and superintendents met with their former pupils in round-table discussions. The closing hour of the day the guests spent in conference with Principal Walter E. Russell.

The purpose of such a day is to bring secondary school superintendents, principals and students into closer touch with Normal School life.

At the request of the visiting guests, students of the Normal School were later sent to the secondary schools to present to the students what the Normal School offers to young people who desire to enter the teaching profession.

Much credit is due the civic committee. Its members showed decided executive ability in planning and carrying through so successfully the entire day's program.

PRACTICE SCHOOLS

THE STORY HOUR

Kindergarten, Junior-Primary, First and Second Grades meeting once a week, in the Kindergarten, for Story Hour Assembly with members of the Kindergarten-Primary Course as voluntary story tellers.

A KINDERGARTEN CORNER

The Kindergarten children enjoy their play corner. The furniture, made by them from orange crates, provides the necessary equipment for playing "house." A tea party to them means setting the table, and later putting everything away, as well as sitting at the table for conversation and make-believe eating.

SUB-PRIMARY DOLLS

To encourage the children in the sub-primary to form habits of cleanliness, twenty-four attractive paper dolls are hung on a line under the blackboard. These represent the different children in the room. Every day a child comes to school with a clean face, clean hands, clean fingernails, and a handkerchief his representative may wear pretty clothes, but when a pupil has neglected one of these habits, he is constantly reminded of the fact by seeing his doll dressed in black.

SAND TABLE, GRADE II

Sand table arranged by pupils of the Second Grade in connection with their study of Holland.

A RADIO PROJECT, GRADE IV

This project encouraged self-activity and competition on the part of every pupil in grade four. The program was presented behind a screen to make it seem more real. This made it necessary for all the far-away performers to speak clearly and in a pleasing tone so that all their listeners would enjoy the broadcast.

MOTION PICTURE FILM, GRADE VI

The Sixth Grade made a motion picture machine from a box and some wooden rollers. A film was made illustrating the different periods of European History.

BASKETBALL TEAM, JUNIOR HIGH SCHOOL

Knapton, Swett, F. Long, Bell, McIntosh, L. Day, Fitzmorris, Charlton.

This team was a credit to our school. Its members attended practice faithfully, developing into good players under the guidance of their coach, Wayne Bagley.

ALL SET FOR RADIO BALL!

This is one of the games Gorham Junior High girls enjoy most. It is good training for basketball, but has two distinct advantages over that game—it is played in the open air, and any number can play.

PARTY COSTUMES, JUNIOR HIGH

Prize Winners at the Junior High April Fool Costume Party: Harlene Carne, first prize; Janet Young, second; Jessie Pillsbury, third.

Could you have done better if you had been given twelve pins and the two comic sections of a Sunday paper and told to produce a costume in ten minutes?

THE GREAT PYRAMIDS OF EGYPT

The great pyramids at Gizeh rear their age-old heads to the afternoon sky. Two travel-worn Bedouins crouch forward on their weary camels, their heads and shoulders protected from the sunlight by folds of white. A pack camel follows slowly behind. All about, the burning sands of the desert, the atmosphere of long departed life, the hovering spirits of Khufu, of Khafre, and of Menkure, depress or lead to reflection.

Behold, on the horizon is a vision of rest and freshness in the midst of all this scorching desolation. Is it a mirage? No, soon it proves itself an oasis offering the cool shade of palm trees, the satisfying waters of a small lake fed by a canal from the Nile. Here are pack trains with merchants come to buy cotton. Flat-topped houses give shelter. The lonely are cheered by companionship; the fatigued sleep at the foot of palm trees. A square, lateen-sailed felucca lazily drifts across the lake, carrying its burden of baled cotton.

This is not a travelog. It is the description of a sand table project carried out by the students of the D2A Industrial Arts class, under the direction of Miss Jessie L. Keene.

The historic pyramids are of cardboard covered with clay. The lumbering camels are modeled of clay and covered with wool. The interesting oval-faced Egyptians are of clay and cloth. Graceful palm trees of pitch pine and cedar lean over a glass lake. The houses are of cardboard and the felucca is woven of split reed. The saddle cloths of the camels are attractive red and blue flannel.

The scene is full of dramatic interest and the creation was intensely satisfying and educational.

LAMBDA PI SIGMA MINSTREL SHOW

Directed by J. Bell—Accompanist, Marion H. Sylvain

The boys of the Lambda Pi Sigma gave their biennial minstrel show in the Junior High School Auditorium on March 18th to a capacity house of students, friends, faculty, and townspeople. The proceeds of this entertainment go to the Lambda Pi Sigma Accident Fund, a fund which pays a portion of the expenses of any male member of the school who meets with an accident, either at work in the shops or at play while under the supervision of a member of the faculty. This fund has proved a great help to some of the boys of the school who have been unfortunate enough to meet with some accident.

LEARNING FROM THE GROUND UP

A ONE-ACT PLAY

Written and Presented by the Junior Industrial Arts Boys

Supervised by Miss Halliday and Mr. Brown

The scene opens with two wealthy lumbermen at their camp in the big Maine woods. They come in talking about their lumber project and the success that they had during the winter months. The timekeeper is working on his accounts but making very little headway. Mr. Ingham, an instructor at Gorham Normal School, arrives in the late afternoon with three of his students. The purpose of the trip is to gain first-hand information about the lumbering process. The boys readily get acquainted with the lumbermen and during their conversation a foreman and a river driver appear. They are asked to tell the boys about their experiences which they willingly do.

A lumber camp always has men coming and going, so no one is surprised when a mill man and a lumber dealer enter. The boys from Gorham learn the occupations of the two and seize the opportunity of asking questions on points of interest. During the conversation the boys in turn tell their experiences in woodwork at Gorham Normal.

The cook appears with a fierce-looking knife in hand and demands his pay, which the timekeeper at first jokingly refuses. The cook's indignation is overcome by the timekeeper handing him his money. He then announces that he is ready to serve supper.

During the conversations, the entire processes that wood goes through from the time a tree is felled until it is made into furniture are described.

ONCE IN A BLUE MOON

A Musical Romance in Prologue and Three Acts

Gorham Normal School Gymnasium, April 22, 1931

Presented by Glee Clubs Directed by Thelma E. Rhynsburger

SYNOPSIS

After an absence of four years at college, Bob Harrington is expected to return to the home of his foster aunt, Mrs. Mary Montgomery, whose daughter, Sylvia, was his boyhood sweetheart. Having fallen in love with another girl at college, he sends his chum, George Taylor, who closely resembles him, to substitute for him at the weekend party. George has always been anxious to meet Sylvia, whose picture greatly attracts him. He arrives amid preparations for a Spanish fiesta and finds Sylvia more charming than her photograph.

Unexpected guests in the persons of Sir Percival Chetwood and M. Rene Le Mon arrive and are welcomed as distinguished guests by Mrs. Montgomery, and invited to remain for the festivities. That night, while the guests are dancing, a robbery takes place and suspicion is turned on George, who is forced to disclose his identity. Things look dark for him until the guilty parties are brought to justice. A telegram from the real "Bob" announcing his marriage leaves George free to finish the story in the approved fashion.

The Athletic Association consists of an Athletic Council and two branch organizations, one for men, the other for women. The Council consists of the Principal, the three coaches, and three student representatives from each of the branch associations. All students automatically become members of one of these branch associations by paying the "blanket tax" on the opening day of school. Two dollars and seventy-five cents of this tax is used to finance athletics.

A broad interclass athletic program is now being sponsored for both men and women. Captains of interscholastic sports are elected at the close of each playing season. The size of the letters, awarded for playing ability, has been changed from eight to six inches in height. The treasurers of the branch associations are the student members of the Finance Committee, appointed by the Principal. The election of association officers takes place in the Spring preceding the year in which they are to serve. Standards and requirements for a cheer leader have been established, and "Angie" Brocato will probably be the first to receive a cheer leader's letter. These statements signify but a few of the many changes that have taken place in the various athletic policies sponsored by this association.

The cross country team completed its schedule of four runs last fall with a clean slate. This is the most successful season since the initiation of the sport at Gorham Normal School six years ago. Mr. Packard, the faculty coach, piloted the team most efficiently, and "Long" John Anderson, as captain, could always be counted upon to do his bit in fine style.

On October 22nd, Gorham met the strong Hebron Reserves on the home course. Johnson and Jean were the first to appear over the hill. Anderson and Storey tallied next. The final score showed the Gorham harriers to be decisive winners, 17-41.

The Freeport High School team invaded Gorham on the 28th of October. In this run, as in the preceding one, Johnson was first to break the tape. Jean, Anderson, Storey, and McSorley came in close behind him, thus ringing up a perfect score against Freeport, 15-47.

The Gorhamites journeyed to Deering High School on October 31st, where they met the purple harriers on Deering soil. This turned out to be the most closely contested run of the year; but when it was over, Gorham was the proud possessor of the winning end of a 23-32 score.

On November 7th, the Gorham team completed its schedule with a run on the home course against Canton High School. Johnson and Storey led the pack home, followed by two Canton men. Anderson, Porter, and Smith came next, claiming fifth, sixth, and seventh places respectively. This made the final tally 21-38 for Gorham.

We shall lose by graduation Parsons and Porter. Six strong veterans will be left as a nucleus for next fall's team, and these, with new material from the incoming Juniors, should prove a strong combination, from which we may expect an equally successful season. Roger Jean, this year's "dark horse" of the team, has been elected captain of the Gorham harriers for next fall.

Once again a basketball season has drawn to a close, and once again we glance back over our schedule with feelings of ecstasy and remorse.

The opening game, played against the Alumni, is pleasant to recall, as the score will certainly indicate. We will admit, however, that we did suffer with a bad case of the "nerves" in the third quarter when the "grads" led for a brief time.

THE TEAM (Continued)
Leahy (Captain), Dumas, D. Bagley, W. Bagley, Reeves, Porter.

Cheverus High School was a newcomer on our schedule and proceeded to make herself felt by defeating us twice in rapid succession. Both games were tied several times, even as late as the fourth quarter, but the "fighting Irish" simply weren't to be denied, and that's that.

The games with Westbrook were sad. Billings, leading scorer in the Telegram League, just couldn't be stopped.

In a listless game in which but one point was scored the entire fourth quarter, Farmington toppled us on our own floor. The following week she proved even more formidable when we attempted to avenge ourselves on her court. The scores? Oh yes, you'll find them in the summary. Because of these two misfortunes we were forced to yield to Farmington for this year the Chrissikos Cup, which we so proudly possessed last year. This cup does not become the permanent possession of either school until it has been won three times in succession, so the battle for it will be renewed next year.

The tenacity of the Gorham team was shown, however, the next night when we came from behind to defeat a "peppy" team at Livermore Falls in the last two minutes of play.

Boston University School of Education visited us, and how we frolicked at their expense! Modesty prevents us from saying more.

An innovation in the schedule was a trip into Massachusetts where we met Salem and Bridgewater Normal Schools on their home courts. The Salem game was strongly defensive, while the game at Bridgewater was fast, furious, and free-scoring. In the first game it is evident that we weren't defensive enough, and in the second that we were outscored. The trip, however, was delightful; and entertainment was royally accorded us during the entire stay. We attempted to return favors when Salem came to Gorham, but played the part of an imperfect host when we defeated them in a rather one-sided game.

Six of the ten men have played their last basketball game for Gorham Normal School. They will certainly be missed, though a strong nucleus for another year is left.

It is becoming more and more evident that baseball days at Gorham Normal School are numbered. The high schools and academies are all organizing into leagues with heavy schedules of games. No other normal school in the state except Machias has a baseball team, and what a long way that would be to go for a game!

In spite of difficulties, however, Manager Pressey did very well in arranging a schedule. The season opened against Deering High School at Deering. In the seventh inning the score was tied, 4-4. Two men out—two scratch hits—score, 5-4. Tuff!

At Fryeburg—a slug-fest! They slugged harder and further than we. Results—18-9. In Fryeburg's return game at Gorham, with the score 10-8 against us in the ninth inning, four timely hits were turned in by Reeves, Leahy, Wescott, and West. These, together with a couple of miscues, turned the tables. 12-11 for Gorham! Rah!

The Parsonsfield games were—. Modesty forbids any description. The results may be noted in the summary.

Bliss certainly knew how to play the game but wished to derive as much pleasure as possible out of the game at the same time. Result—Gorham, 10; Bliss, 2.

By far the best game of the season was played against the Gorham A. C. The Normalites counted 2 in the first inning; the A. C.'s 1 in the fourth and 2 in the eighth. G. N. S. tied in the ninth but lost in the tenth, 6-5.

Leahy bore the brunt of the pitching burden and was runner-up for batting honors. Dumas, who covered the initial sack well, batted over .500. Only three players were lost by graduation. Seven letter men were on hand this spring when the baseball season opened, not to mention much new material from the Junior class.

INTERCLASS ATHLETICS

The interclass athletic program for men now includes the following sports: cross country, basketball, volley ball, baseball, tennis, and track. In the fall of the year each class elects a committee or council of three, whose duty it is to select teams, appoint coaches, and arrange for officials for the various contests.

Individual contestants, who meet certain requirements, are entitled to stripes, which are to be worn on the left sleeve of a sweater. Five stripes entitle the wearer to his class numerals. There is also a system of points based on the number of wins and stripes won by each class. The class earning the greatest number of points in any sport gains possession of the cup awarded for that sport. The class earning the greatest number of points throughout the year gains possession of a large cup known as the Council Cup.

The Advance Senior Class of 1931 has presented a fine trophy case to the school that these cups may be properly displayed. The cabinet now contains, along with other trophies, the following inter-class cups: The James Bailey Cross Country Trophy, Louis' Basketball Cup, The Albert Studio Volley Ball Trophy, The Lambda Pi Sigma Baseball Cup, The Alpha Lambda Beta Track Trophy, The Massachusetts Club Tennis Trophy, The Council Cup.

The Juniors won the cross country cup handily and the basketball and volley ball cups are now in possession of the Advance Senior Class. As yet, we do not know what class will be the first to have its numerals engraved on the Council Cup.

Due to this program, at least sixty percent of the young men enrolled in the school will have participated in some form of athletics this year. In another year, with the additional facilities afforded by the new gymnasium and other tennis courts, this program may be extended to include still more participants than at present. The ultimate aim is one hundred percent. participation.

"GET SET"

THE NEW SYSTEM FOR GIRLS' ATHLETICS

The cup pictured above will be the proud possession of either the Junior or Senior class in June. Which shall it be? That is the question that the Juniors and Seniors have been hotly debating since the opening of school in the Fall.

The cup will be won by the class having the largest total of points to its credit. These points are earned by scheduled games in soccer, field hockey, basketball, baseball, volley ball, tennis, and track and field events. In each sport a team is picked to represent each class from the candidates reporting. Come on, Juniors and Seniors! Come out for your favorite sport and bring along everyone you meet. You know a larger group of candidates means a better team and the better team means the cup.

As for individual honors, a girl may win a green felt star, her class numerals, and a green felt monogram on a white background. These are won through the participation in the games mentioned above and by the completion of certain tests of athletic achievement.

This system was introduced this year by our new instructor of girls' athletics, Miss Reed. So far it has worked out very successfully and seems destined to become a permanent part of the girls' athletic program at G. N. S. Through this system we are able to better realize our truly big aim—Mass Participation!

SOCCER ON THE NEW ATHLETIC FIELD

At last our new athletic field was ready for use! Its surface was covered with a deep shade of soft velvety green grass and seemed to beckon all Gorham Normal girls to put on shin guards, bring a soccer ball and kick up a little of its turf—for it really looked too dressed up to be real.

The call was sent out and answered by some 40 candidates—Juniors and Seniors. A bit of preliminary practice and drill in the fundamentals of the game was necessary as it was a new sport to most of the candidates. When some were taught that a ball from the toe of another's boot wasn't an article to be run from, and some were informed that soccer was not football and that the other fellow had a few personal rights, the coach decided it was time for interclass games.

The Juniors were on one side of the field glaring at the Seniors who occasionally favored them with side-wise glances—just out of curiosity.

There's the whistle! It's the first game on the new field! The centers kick off; the ball is kicked back and forth but little yardage is gained for either side. Oh! There's a Junior goal. Soon the Seniors retaliate with one of their own. They are forced hard, however, by the plucky Juniors and come out on the short end of a 2 to 1 score. This is a Junior Day. Rah! Rah!

That was enough! The Seniors woke up and after hard practice took the next three games to win the series.

The hoop sport, an ever popular one at G. N. S., was greeted at the beginning of the season by an exceptionally large array of prospects. In fact, the Juniors brought out so large a delegation that it was finally decided to choose two teams, so close was the competition for team honors.

After four weeks of practice the teams were ready to meet—to do or die and abide by the results. The competition was keen and spirit was running high. Each squad was curious about the other, and soon stories of "dark horses," "flying midgets," "eagle eyes," etc. spread over the campus.

They met! Junior Team A and the Senior delegation. Though putting up stiff opposition in the first quarter, the younger set were "snowed under" when "Kay" Desmond proceeded to drop 'em in from all angles. This defeat only seemed to fire the spark of determination in the hearts of all the Team B athletes but the Seniors were simply invincible. They having to their credit a year of previous training together, were able to secure better team work, and more accurate passing. The Seniors, led by Captain Jean Lennon, continued on their winning streak for four straight games.

Then Teams A and B united in order to crush the Senior outfit. A fast spectacular game ensued. The Juniors led by ten points at the half and only by supreme effort on the part of the entire Senior Team was the assault halted and the game tied up. A week later the Juniors were able to tack a defeat on a Senior Club and thus the season ended with the Seniors in possession of the cup presented by the Massachusetts Club, by virtue of 4 victories, 1 tie and 1 loss.

VOLLEY BALL

During the period directly after basketball and before weather conditions permit spring sports to commence is an excellent time to be filled in by a volley ball tournament. Two squads have been organized this year, one for Juniors and another for Seniors. Both squads are working out in the gymnasium, perfecting their technique and teamwork. We hope that after the Easter vacation the ground will be in such a condition that the games may be played out-of-doors.

SPRING ACTIVITIES

Interest in tennis will be increased this spring as arrangements have been made for a girls' tournament in order to pick the champion for the school. The Tennis Courts will no doubt be more crowded than ever when this announcement is made to the student body.

A series of inter-class baseball games will be played on the new Athletic field. Much interest is evidenced in this sport as it is making its initial appearance at G. N. S. and large squads are expected.

Those interested in Track events or Archery will get their chance, as both of these activities are listed as a part of the Spring Schedule. It looks as though we would be very busy, doesn't it?

THE ADVANCED SENIORS JUNIOR HIGH

The Advanced Seniors! An outstanding class are we.
We show the school what a model class can do.
We lead from play right down to work,
And in our duties, we never shirk.
A parade 'twould take to show each one
Here, I'll describe them as they come!
The president, a man of intellect is he,
His name J. Omer Drummond shall be
Renowned to all. Now the most popular man in his basketball—
He thrills the fans—it's Leahy,
No other, and with him
His pal who excels in looks—that's Lin.
The first young lady who comes in line,
Miss Foster, who as our editor does shine.
Now our little dancer seeks the stage
And scrawls Angie Brocato on the page.
Shirley Hartley here we find,
We all like her, she's that kind.
And though it isn't true of Alice Trundy,
It rhymes so I'll say Mrs. Grundy.
There are lots of boys who come on the train,
Wearing stickers and hats whenever it rains;
Clint Guilford with Mucci among them are.
Kelly, Cora and Bubbly come on the street car
From Westbrook, the city of dazzling fame;
To neglect Miss McFarland would just be a shame.
Portland has lent us a wonderful share:
Leslie, Helen, Elizabeth and Claire.
Then Eleanor's a dancer who drifts as a breeze,
And Beulah in the dining room is the Chief Cheese,
And Martha Jane Lund whose book Kelly does share,
There's Helen Marrisfield with long curly hair.
Last I would add the teachers of fame:
Misses Webster and Welch (Billy by name).
Of the virtues of all I could make quite a book,
But turn to their pictures and gaze on their looks,
For their faces inspire, the intelligent eyes
Would win for poor poets full many a prize.

ADVANCED SENIOR INDUSTRIAL ARTS BOYS

Perhaps no other class in school contributes more through manual labor than the Advanced Senior Industrial Arts Boys. The sole purpose of this article is to gather, from scenes in that class, the great importance of this famous group.

We introduce this group of master minds with, not the Wright Brothers, but the Wrong Brothers—Brown and Drummond, designers and builders of modern vehicles with which to clutter up our airways. When the students found it necessary to swell the airplane wood, they found the water faucet rather handy. In Job and Trade Analysis, this would come under "Tricks of the Trade."

In this day of gangs and gang wars it is only natural that such a progressive group should have gang leaders. We offer the big, two-fisted he-man from central Maine, "Pussyfoot" Bell, and his two husky aids, "Fighting Joe" Dumas and "Stealthy Steve" King. Also in the gang

we have the "Four Blackshirts," Lessard, Salisbury, Dionne and Baker, who are members of the class in forging. The shop is a lively place when these boys are there for they are always busy seeing who can make the most smoke by shifting dampers and putting paper over the drafts. They are very musical and are often heard harmonizing favorite numbers, accompanied by the tapping of hammer on anvil. They often try to hand the instructor pieces of red-hot iron. But don't let these gangsters scare you; if one steps up and tells you to reach for two handfuls of sky, have no fear.

Reeves and Walker come next. They are famous for their collection of rifles, revolvers, bows and arrows and home workshops. We also place Anderson here—the big, bad boy from South Windham. One day early last winter we were surprised when a member of the S. P. C. A. put in his appearance and demanded to see Anderson. It was later discovered that he had been beating up some of the neighborhood cows.

The next person with whom you must become acquainted is "Dick" Savage, who has a special interest in the little "junk" and pawn shops in Portland. "Dick" has a great interest in alarm clocks.

Two members remain, George Lowd and Fred West. George isn't what his name implies, for he is the most industrious and quiet boy in the class. Fred is well known throughout the country, calling many of our famous men by their first names. He is a wizard in "math," second only to Einstein himself.

A1

Dear Lou:

Just back from nine hard innings of bat and bawl (practice teaching), and what a game! We had our final get-together at the banquet tonight.

With "Dan" as toastmaster, assisted by Clate, the evening was a big success. "Roxie," who as usual was the first to make remarks, wanted to know why Fred ate Pease with his knife. Muriel and Vergie sheepishly dropped theirs and seized their forks, this act escaping the notice of Roger and Shirley, who were otherwise occupied, and those also engaged, Barbara, "Tweet," Laura, Eleanor S. and Lora.

Those hailing from Murderers' Row: Jean, Lee and "Babe," after trying to start scraps, were dragged out.

Howard Kimball read the Bill of fare to Carl(s)—sons, Clark and Foster, while David(s)—son decided to Philip on "Ham."

We were honored by the presence of two members of the All-American Team, Morse from Bates, and Sanborn from Bowdoin. Their topic for the evening was "Burn Your Bridges Behind." Their enlightening presentations sent the Busy B's—Boulter, Brackett, Bonnell, Brann, Bryan and Bryant—Oliver-Buzz. Few noticed that Adelaide had resorted to her Ward of gum.

Nellie, from her Conner, commended Ross, Elwell, and Peabody on their ability to make at least two home runs a day.

We surely did have a great time and I hate to think of the team breaking up this year.

Yours,
Sou.

STATION A3

This is Station A3 G. N. S. broadcasting over a frequency of thirty-eight Gorhamites with Mary Pearson announcing.

This program is sponsored by the Smith company composed of the Misses Hazel, Maxine and Olive, dealers in Rings and other jewelry. It has been in existence since the Morrill Act. The company is assisted by many prominent people of the time and you will hear a few in this program.

The first number will be a vocal solo by Miss "Kay" Shaw, famous soprano, and member of the Arctic Circle, the Northern Four Hundred. She will be accompanied by Miss Robbins, the well-known pianist, second only to Paderewski.

You will hear, now, Polly Piligian read "The Young Snell" by Millet Pike, author of the famous "Riddle of the Weston Border."

The next feature will be a skit entitled "Spurling, the Blacksmith," produced through much toil and Swett by Peavy Pederson.

We present now an interesting and educational lecture on the use of H's given by those famous Englishmen—Nelson, Russell, Ulmer, Saunders, Yeaton and Titcombe, Esquires.

Please stand by for station announcements!

Station A3 G. N. S. broadcasting the Parker hour.

Word was received from Sheldon that Tingley McDill Stubb-ed his Stowe. He is now under the care of Dr. Mudge.

For request numbers call Robie and East Towle operator or Wright to the station to which you are now listening.

Two girls from the A4 division sat reminiscing. The past year had been quite eventful and I was very much interested in their conversation.

"Can you forget the struggle with the mouse in Reading Class?" laughed Marion. "Miss P. threw an eraser at it in order to quiet Alma, Kay and Betty, and I surely did expect Dot F., Kits, or Jane to faint."

"Speaking of fainting," said Mary, "remember the time when Irene O., Dot H. and Fannie keeled over? What a scare we did get! And then poor Polly hurt her knee so that she couldn't take Gym for a long time. How that girl played tricks on Alice, Louise and Phyl. Polly, "Skinny" and Marion T. carried off all the honors in that stiff Advanced Arithmetic course, didn't they?" "I'll say," rejoined Marion, "Bertha Warren and that little Ethelyn L. weren't so far behind, were they? Do you know that 'Eth' hasn't grown a fraction of an inch since she was fourteen?"

"Yes," replied Mary, "I heard her say so. Imagine it! I heard that Dot M., Bee, Marion R., Gould, Etta, Leona, Virginia and Rosina didn't miss a single gym class. Aren't they athletically inclined! Speaking of gym, Madelyn M. at roll call always chirped up with, 'She was here today.' Remember?"

"I should say I do. We didn't see much of Tina and Evelyn while they were at Fort Hill, did we? I hear they liked it there," Mary said. "Or Irene G. either while she was home with the mumps."

"Say, exclaimed Marion, "could you tell me where Dolly got all those suits she wore, and what sense there was in Mary Tapley's dieting one day and eating five dishes of ice cream the next? And where did Rachel go week-ends? I think that big ring she wore must have had something to do about it."

"So do I," agreed Mary. "I guess, too, that we won't forget, right off, our more silent waters, Mabel, Gerry, Marguerite, Geneva, Bessie, Eva, Polly M. and Marge P. But did those girls know their lessons! Although Margaret G's taste in reading selections wasn't so good, and Eleanor sometimes thinks of pigs, they, too, were right there with the goods."

"Agreed, my dear, but have you forgotten our prima donna, Evelyn L., and our blond athlete, Marge Moody?"

"I should say not," said Marion. "Many's the time I've been up on Murderers' Row and heard Marge crying to her bunkie, 'Watch over me, Iggy!' Well, I guess we've talked over about all of them, haven't we? They sure are a great bunch!"

C1

At last it was bedtime. I had toiled on my Carpenter work and I was dead tired, but now my work was Dunn. It had been two Days' work in one but it could not be Dodge(d). I drank my Coffee and soon retired, sleeping as if my bed were a Coffin. As I slept, a terrible dream swept through my overworked brain.

It was a fine day and I started out to take pictures. I was walking through the Calderwood when a kind Chamberlain stepped up to me and said the king was after me for the murder of Cheney. I dropped my Camer(a) on the ground, the king in pursuit. His wig fell

off, showing his Arch(ed) forehead and Bald head. I stumbled over a baby Austin that was in the way, and ran into a Coleman, driving a Bick(ery) Ford. I finally reached the end of the wood where I came face to face with a Garrison of the King, built of Emery stone. I knew David-son of Cornell, was the Cunning-ham who wanted to prevent me from Cate-ning by, but a soldier named Doughty let me by.

I rushed on into a Brown Field, many Akers wide and covered with Berrys. A Crane was standing on the bank of a wide river, which ran through the Field. Although I argued with the Chest(1)ey old boatman about my Fee to cross, everything seemed, again, quite peaceful.

You can B(r)ett that I was hungry and so I stopped at a Booth(near)by. It was of Colonial fashion with a member of the Alden family as hostess, assisted by two Blakes. I had nice corn on the Cobb, a Col(d)tart, and a nice drink from the cold water Fossette. Upon leaving I bought a box of Foss's chocolates.

Just then the alarm went off and I found it was all a dream.

THE C2 DIVISION

Clash, clang, dash, bang! A fire? Oh, no, just the C2's. Speaking of fires, though, the C2's wouldn't make such a bad fire-fighting crew after all. First for the apparatus itself; we wouldn't need ladders for we have Nola and, oh, yes, there's a Long girl, too. Carolyn and Peg would make perfect horns—plenty of noise, you know. Why wouldn't Erna's ready laugh serve as the siren? Charlotte and Mildred always seem to be together, sort of like headlights maybe. Now for the crew! Nellie seems to lead in class discussion, so perhaps she would be our driver to the fire. Arlene and Marilyn ought to be able to play the hose all right since they play the piano so well. Probably Amy, Mary Mac, Gertrude and Mad could help on the reserve water line, and say, if you have ever seen Helen and Barbara catch those balls up in Gym, you'll agree that they would be ready to hold the life net. There's no reason under the sun why Edith and Mary G. wouldn't make good lieutenants since they are generally at the head in their work. And for Callmen, Margaret, Ruth, Ethel, Florence, Bunny, Esther, Dot, and Gen ought to fill the requirements, for how they can call them! And please don't forget our mascots, Thelma and Theo. They may be small, but oh my! All firemen, being only human, have their Betty Co-eds. So have we—Betty Hamilton and Betty Huntoon. Where are the blondes you say? Well, how about Edna and Es? Anna is neither blonde nor a "Betty," but she sure has a way with men. That doesn't Marr our reputation, however, for when an alarm rings in, we dash out under the Moon and take the Hill on high. Of course, like all firemen we get hungry. Well, we have Lamb and a couple of hams, but you can't find an egg among us. And so we conclude you'll have to Grant we're a pretty good division.

C3

Heigh ho everybody! This program is coming to you through station G. N. S. by courtesy of the C3 Division. This is Josephine Sawyer announcing.

The first number on the program will be a musical selection played by the heavenly Pennell twins, accompanied by Alma Peters. The solo parts will be sung by Leona Ross, Mildred Rose, and Dot Rawnsley.

Next will be a gum snapping contest between Winona Packard and Josephine Renski. The judges are Bertha Rogers, Claire Quimby and Alice Peers. That was close all right, but I guess Winona must have the strongest jaws.

As an added attraction we have with us tonight the three Sprowls, who will render one of their whispering numbers.

We now turn the microphone over to Edna O'Brion, who will give you all the latest sport news.

This is Jo Sawyer again! We have a big surprise for you. Constance Smith and Ruby Severy are to debate on the Progressive Party.

It's too bad you can't be present at the Cummuters' tea given by Mary Quinn. Martha

GREEN AND WHITE

Nutting, Vivian Scott and Katherine Somers seem to be enjoying themselves.

You probably read in the papers about Helen Small giving Genevieve Porter a black eye. Roommates must have their fun. Well, Genevieve has her "uke" here, and will entertain you.

The next number was to be a song specialty by Christine Stevens, but she went walking this afternoon and hasn't returned. I shall therefore take this time to tell you about a new Literary Club. The Misses Ruth E. and Ruth L. Staples are organizing the club to bring to the knowledge of the world the great literary talent of the C3 Division. To join, they have only to send to this station samples of their talent. This week Dorothy Murphy sent in Nature poems, Helen Rose a satire on the modern generation, and Grace Orne an animal story. These three were accepted as members of the club.

Now you will hear "Stand Up and Cheer," sung by Elsie Roberts, Dot Packard, Ruth Robbins, Helen Selwood, Ann Shields, Dot Robinson and Dot Stacy.

This concludes our program for this week. Please stand by for station announcements.

- "Joe" and Mulvey weren't harmonizing some new song hit?
- Bill Cragin ever came to school without his "wit"?

20. Second entertainment. I refer you to the write-up on this entertainment.
24. Another interesting basketball game with the Boston School of Education. The fantastic dance after the game interested everyone.
30. The most important game to most of us was the Farmington vs. Gorham because of the winning of that lovely cup. Who was the winning team? Oh, Farmington this year. The Y. W. C. extend their best wishes to the class of '31. May you always continue your good work for our Alma Mater. We have attempted to do our bit by establishing a Scholarship Fund from the proceeds of the play "Aunt Lucia" and a Bridge Party, given at the Eastland Hotel. This fund is for deserving prospective teachers.

JUNIOR C1

We hustle when we want to,
 We hustle when we don't;
 We say we can, we must, we will,
 When we want to say we won't;
 We rake our brains, and scratch our heads,
 And stop with nothing less,
 Than to let you know that we are glad,
 To be at G. N. S.

JUNIOR C2

JUNIOR C3

Just a year we've known each other,
 How the friendly bond has grown!
 Now our feeling for another,
 In the soil of life is sown.
 May our flower of friendship grow
 As tall as the tallest tree;
 And may the roots of each plant know
 Depths, deep as the deepest sea;
 And may we call this thought a seed,
 Planted firmly on this site;
 The C3 Division of '32,
 In the soil of the GREEN AND WHITE

JUNIOR C4

From every corner of the state
 This class has come,
 Just for an education
 Mixed with good fun.
 When those who are our advisers
 Say to us, "don't!"
 We sweetly smile and say thank you
 'Stead of "I won't!"
 Each one has his own opinion,
 As I have mine;
 But give me the C4 Division
 For all the time.
