Background

- Began in 2011

- Initial efforts included outreach via committee and subject librarians (not as successful as now)

- In 2015 - Social Science Librarian joins as a co-manager of IR and revamps SW

- Creates marketing material and signs up departments in subject areas

- In 2016, we hire first student assistant and when she graduates, we have her train a new student hire, plus a full time staff member

Training for Student Assistant

- Information literacy training (student was a transfer)

- Scholarly Communications training: Open Access, Copyright, Metadata creation, file upload, OpenURL

- Communication protocol with faculty via email or face-to-face consult

Workflow

- Student has template to follow to contact faculty to seek out permission to create SW account and to collect cv and/or publications

- Student creates SW account for professor

- Use Google sheet shared with IR managers to review publication list and check SherpaRomeo and list open access status

- Student will upload material or create metadata record

- Student will also contact faculty member for any clarification and assist faculty members via email with any troubleshooting issues for SW

Liaison Outreach

- Contact faculty in subject areas to promote awareness about IR

- If there is faculty interest, work with student worker to add faculty profile to the IR

- Create profiles for faculty

Staffing

- Need for more staffing - 1 fte cataloger assigned to IR (work will include SW)

- 3 librarians currently working on SW

- 1 Student Assistant

Statistics

- Student worker(s) helped us increase profiles from 75→172

- We encourage faculty to use dashboard for Rank and Tenure portfolios

- We tackle one department at a time, usually starting with an introduction at a Faculty meeting, and then they can meet with student or correspond via email

Thank you!!
