INTRODUCTION

The Index to the Albany Times Union is an index to the one-star final edition of the Times Union of Albany, New York. The Index provides access to news and editorial opinion about Albany, the Capital District, and the State of New York. Items of national and international importance are indexed only when there is local, regional, or state impact. Daily sports events are not included. Births, engagements, divorces, anniversaries, and announcements of events or attractions are not indexed. There is a special section for obituaries. Items with an accompanying photograph, illustration, graph, or chart are designated with an asterisk (*).

Index terms were taken from Sears List of Subject Headings, 12th edition. When an accurate term cannot be located in Sears, other sources such as the Library of Congress Subject Headings and the Readers' Guide to Periodical Literature were consulted. The names of institutions, places, people, and events were used to supplement the index terms. Reviews can be found under the following headings: BOOK REVIEWS, CONCERTS AND RECITALS, DANCE, THEATER REVIEWS.

For each entry there is a brief annotation taken from either the headline or the article. This is followed by the date and page number. For example:

ALBANY - POLITICS AND GOVERNMENT					
	Whalen announces that he will run for mayor*		1/8		A1
index term	annotation	photograph	date	page	

The Index to the Albany Times Union will be published semiannually, covering January through June and July through December. For more information about subscriptions or content of the Index, please contact the compiler.

ACKNOWLEDGEMENTS

The initial production costs of the Index to the Albany Times Union have been partially supported by a grant from the Capital Newspapers Group and by the SUNY Albany Library Development Fund. Continuing support of the Index will be maintained by the University Libraries and through subscriptions. I would like to thank Otis Midgett for providing outstanding editorial skills and Steven Watkins for contributing technological assistance. I would also like to recognize Dorothy Christiansen for her administrative support of this project.

The Index was compiled using an Osborne Executive microcomputer with WordStar word processing software and Personal Pearl database management software.

Michael Knee

Capital Newspapers Group consents to the use by the University Libraries of copies of the the Times Union solely for the purpose of preparing an index of the Times Union. Capital Newspapers Group reserves all rights to the name and content of the Times Union in all respects. The University Libraries hold all rights to and have sole responsibility for the Index, including its intellectual content and accuracy.
