Index . . . . . 1  
Obituaries . . . . . 66

## INTRODUCTION

The Index to the Albany Times Union is an index to the final edition of the Times Union of Albany, New York. The Index provides access to news and editorial opinion about Albany, the Capital District, and the State of New York. Items of national and international importance are indexed only when there is local, regional, or state impact. Only major crime and traffic accident reports are indexed. Daily sports events are not included. Births, engagements, divorces, anniversaries, and announcements of events or attractions are not indexed. There is a special section for obituaries. Items with an accompanying photograph, illustration, graph, or chart are designated with an asterisk (\*).

Index terms were taken from Sears List of Subject Headings, 12th edition. When an accurate term cannot be located in Sears, other sources such as the Library of Congress Subject Headings and the Readers' Guide to Periodical Literature are consulted. The names of institutions, places, people, and events were used to supplement the index terms. Reviews can be found under the following headings: BOOK REVIEWS, CONCERTS AND RECITALS, DANCE, THEATER REVIEWS.

For each entry there is a brief annotation taken from either the headline or the article. This is followed by the date and page number. For example:

ALBANY (NY) - POLITICS AND GOVERNMENT				
	Clout of neighborhood groups*	12/6	C1	
			—	—
index term	annotation	photograph	date	page

The Index to the Albany Times Union is published semiannually, covering January through June and July through December. For more information about subscriptions or content of the Index, please contact the compiler. This compilation will be the last current issue published by the University at Albany University Libraries.

The Index was compiled using a Kaypro 16 microcomputer with InfoStar database management software and Wordstar word processing software.
