I'm really excited!! I've finally finished making you a better black. BLACK V.1.0 (beta) (the flattest, mattest, blackest art material on the planet) is available now from culturehustle.com - I want you to help me make it even better so please share what you make and how you mix it! It comes in two parts a SUPER BASE - this is a special acrylic co-polymer with a unique molecular structure that means it holds more pigment than any other acrylic, I've made it smell of black cherry and added the best mattifiers out there so it reflects nearly no light! Then you get BLACK - an ultra light fast, micronized pigment to mix into the base! I really hope you enjoy it and it does the job! Love Stuart xxx if you want some it's here: culturehustle.com
