## Early Winter Cold Spell Grips Nation

By THE ASSOCIATED PRESS

An early winter cold spell held a grip on most of the eastern half of the nation today but warmer weather appeared on the way for much of the chilled central states.

Subzero cold again stung northern areas of the Midwest and sections of the Northeast. Freezing weather extended into the northern Gulf region.

Watertown, N.Y., which Monday reported a low of 33 below zero, was considerably warmer this morning with a mark of -20. The mercury also dropped to 20 below in Lebanon, N.H., and Lone Rock, Wis.

Lowest marks of the season were reported in sections of northern Illinois, including -14 in Rockford and at Chicago's O'Hare Airport.

Mild westerly winds swept across the Northern and Central Plains and temperatures, at subzero levels for several days, moderated. The warmer weather was expected to extend across most of the nation's mid-section.

FRIENDLY GREETING . . . President Lyndon B. Johnson kisses Mrs. Willard Deason, wife of an old school buddy, at the dedication of Synagogue Agudas Achim, in Austin, Tex. The President was guest of honor at the dedication, originally scheduled for the last week in November, but postponed following the assassination of President Kennedy. Man at right is not identified. # Air Force Calling 3,500 Men Home From Japan

## Peace Prayers Underlie Hopes For New Year

By BERNIE GOULD  
Associated Press Writer

The new year starts at midnight tonight with world leaders expressing hope that it will be a peaceful one.

The celebration will range from the solemnity of prayer to the whoope-making noises of revelers.

In Italy, they'll throw junk from windows and doors to symbolize removing old and undesired things to make way for the new. It's illegal, but it's also traditional.

In New York's Times Square, a million or more people are expected to brave frigid weather and watch the dropping of a lighted ball down a 70-foot spire of the Allied Chemical building (formerly the Times Tower) at precisely midnight. The annual event will be televised.

Still millions of others will crowd into nightclubs, hotels and private homes the world over for fun and cheer—bottled and otherwise.

The main concourse of New York's Grand Central terminal—normally the scene of hurrying train commuters—has been converted into a balloon-filled ballroom for a New Year's Eve charity dance.

JOINT CHIEFS CONFER WITH PRESIDENT . . . The Joint Chiefs of Staff prepare to leave Bergstrom Air Force Base for the LBJ ranch near Johnson City where they conferred with President Lyndon B. Johnson on the Defense Budget for the fiscal year of 1965. Left to right are: Secretary of Defense Robert McNamara; Navy Chief of

Naval Operations, Admiral David McDonald; Marine Commandant David Shoupe; Air Force Chief of Staff, Gen. Curtis LeMay; Assistant Secretary of Defense Roswell Gilpatrick; Chairman of Joint Chiefs, Gen. Maxwell Taylor; and Army Chief of Staff, Gen. Earle Wheeler. (AP Photofax)

## Last of B57 Bombers To Be Deactivated

By CONRAD FINK  
Associated Press Writer

TOKYO (AP)—The U.S. Air Force is going to transfer 3,500 men and 78 planes—including its last operational B57 bombardment wing—from Japan to the United States.

This major realignment of U.S. air strength was confirmed today by Lt. Gen. Maurice A. Preston, commander of U.S. forces in Japan, and the U.S. Embassy. Neither would give any details.

An informed source disclosed the United States is negotiating additional Air Force withdrawals but has assured the Japanese it will honor its pledge under the U.S.-Japan security treaty to defend Japan from attack.

A U.S. Embassy spokesman said the Japanese government agreed to the withdrawals in recognition of the need for "the most efficient use" of military resources to meet the United States' global commitments.

In Washington, a Pentagon spokesman also declined to elaborate on the realignment.

An informed source in Japan gave these details:

The initial withdrawals are expected to be completed by next fall. Some 2,000 U.S. dependents also will be returned home, and about 2,400 Japanese employees at U.S. bases are expected to lose their jobs.

## Little Man Feels Uneasy Despite Fairly Good '63

By JAMES MARLOW  
Associated Press News Analyst

WASHINGTON (AP)—The little guy, any little guy going home this New Year's Eve, felt like a man blowing feathers. He tried to clear his head of a lot of things but they floated back and stuck.

It had been a good year for him, in a way. He had a job, which millions didn't. There hadn't been any war, or even fear of war, at least in this country. Next year looked peaceful, too.

But he felt a little uneasy. He didn't have any illusions about peace in the world. Peace, he

knew, was like a blanket on a nest of tigers. Even when they were quiet they were hungry.

That wasn't really what made him uneasy. There had been other New Year's Eves when he went home, just as he was going now, and thinking just about the same thoughts, most always about himself.

Now it wasn't so much about himself. That was the difference. Something outside himself and bigger than himself had troubled and hurt him like a pain ever since that day when President John F. Kennedy was killed.

It had spoiled the taste of life

for him a bit. Christmas hadn't been the same for him as any other Christmas. Now New Year's Eve wasn't, either.

A brilliant young man, a father and a president, a good man, for no one could say he wasn't, suddenly dead, shot like a tin can and maybe for just about as much reason.

To this day the little guy didn't know the reason and had never even heard one. Nobody seemed to know. That made everything worse. Even a completely crazy reason would have been more understandable than none.

So far as he knew the president had been killed for nothing. Lee Harvey Oswald had been charged with it but Oswald had been killed, too, before his story could come out and for a reason that also isn't clear.

It made the little guy think about the things he had managed not to think much about as the years went by and he grew older and his children grew up.

It was the things about the world he lived in, the real one, not the little one he inhabited which was pretty much limited to the office and the people on the street where he lived and a few friends.

In the office, on his street, among his friends he had seen spats and spites, some of them very unpleasant.

But the people he knew somehow managed to get along or, when they didn't, they backed away from one another and walked another road, even if it had been made lonelier by a harsh word that could never be withdrawn.

But the little guy knew the big world is overloaded with people—sick, or stupid or stuffed with hate—for whom violence is a form of conversation.

He couldn't help thinking, and this was what gave him the uneasy feeling: if this can happen to a president, what else can happen? He had a greater sense of uncertainty than any he had known in his whole life.

## Defense Spending Set at \$51 Billion

By DOUGLAS B. CORNELL  
Associated Press Writer

JOHNSON CITY, Tex. (AP)—President Johnson has decided to spend about \$51 billion on defense next year.

The big question today was how acceptable is this to the nation's military commanders who had wanted a \$60 billion? Johnson had a budget session Monday with the Joint Chiefs of Staff, Secretary of Defense Robert S. McNamara and Deputy Secretary Roswell L. Gil-

patric.

McNamara had a chance to talk about it afterward. The top commanders of the armed forces didn't, although the White House had billed them for a news conference.

McNamara told reporters all the loose ends aren't pulled together yet, but that the new defense budget will be about \$51 billion—a billion less than the spending estimate for the present fiscal year ending June 30.

"This \$1 billion savings," he said, "can be made without in any way reducing the defenses of this nation. As a matter of fact, I believe that the budget that will be submitted to the Congress will yield defenses superior to those in any other time in our history in peacetime."

The Joint Chiefs of Staff will have an opportunity to speak later before congressional appropriations committees.

Johnson had said the Joint Chiefs would have a chance at Monday's meeting to appeal reductions in the amounts they originally recommended.

Japan's Prime Minister Hayato Ikeda and Soviet Premier Khrushchev exchanged New Year's greetings.

"I hope people of the world will make further efforts in 1964 toward realization of world peace and security of mankind," Ikeda said.

Khrushchev expressed a desire for closer ties between the two nations and for peace in the Far East.

West German Chancellor Ludwig Erhard told President Johnson in a telegram he hoped the new year "will bring us closer to our mutual goals."

Premier Enar Gerhardsen of Norway, in a New Year's radio address to his people, said President Johnson "wants lessening of tensions and disarmament under international control."

The premier, a Socialist, added: "He also wants a peaceful world where the resources are used rationally to the benefit of the whole human race."

## British Troops Guard Cyprus Buffer Zone

NICOSIA, Cyprus (AP)—British troops stood guard in a neutral buffer zone between the Greek and Turkish Cypriot sectors of Nicosia today, and the capital of Cyprus enjoyed its first 24 hours without shooting after nine days of communal violence.

In the Greek Cypriot sector, government and business offices and shops reopened.

Greek and Turkish Cypriot representatives continued negotiations for improvement of conditions in the beleaguered Turkish section, particularly for restoration of telephone communications and collection of the dead and wounded.

The leaders of the two communities—Greek Cypriot President Archbishop Makarios and Turkish Cypriot Vice President Fazil Kutchuk—agreed to the buffer zone Monday.

Johnson had said the Joint Chiefs would have a chance at Monday's meeting to appeal reductions in the amounts they originally recommended.

## Johnson May Veto Public Works Bill

AUSTIN, Tex. (AP)—President Johnson is seriously considering vetoing the \$4.4 billion public works appropriations bill, it was learned today.

Informed sources said the president feels some features pertaining to the Panama Canal previously have been held to be an invasion of rights of the executive department.

The section involves a require-

ment that requests for appropriations be submitted to a congressional committee for approval, rather than to the president.

It was understood that Johnson made known his doubts about the bill in telephone calls to Rep. Carl Albert, D-Okla., the House Democratic leader, and to Sen. Clinton B. Anderson, D-N.M.

## Drinking and Drowsiness Hit Drivers

MADISON, Wis. (AP)—"Drinking and drowsiness are two dangers that every driver should take into account and plan to combat," James Karns, State Motor Vehicle Department commissioner said today in urging driving care in the New Year holiday period.

"Drivers who are intoxicated or sleepy have lost their sense of good judgment and are likely to commit mistakes which could prove fatal in an emergency situation," he added.

The commissioner noted that "even those persons planning to attend watchnight services in houses of worship cannot with impunity disregard traffic regulations."

He said the usual force of lawmen will be on duty for the year's final holiday. They will include the State Patrol's 250 men, county traffic and sheriff officers, and several thousand city and village officers.

## Congress Adjourns

# Difficult Decisions For Next Session

WASHINGTON (AP)—Congress adjourned its longest peacetime session with fair warning that when it returns to work in eight days it faces "some of the most difficult decisions which this or any Con-

gress is likely to be required to reach."

The battles over civil rights legislation and tax reduction had been only postponed and still lay ahead, although Democratic leaders express confidence both measures will be enacted.

Adjournment Monday came as an anticlimax after the false starts, angry words and pre-dawn session during the holiday rush when the drive to close up shop was blocked by the foreign aid appropriation bill.

The Senate completed action on the battered \$3 billion measure Monday including the provision giving the President discretionary authority to approve government guarantees of credit for private commodity sales to the Soviet bloc.

With this out of the way the Senate adjourned at 2:19 p.m. and the House made it official at 2:51 p.m. after a one-minute session.

It then became a time for year-end stock taking, of balancing the debits and credits of the 1963 Congress which has been described by critics as a "do-nothing" session and by Senate Republican leader Everett M. Dirksen as a "stop, look and listen" Congress.

Its leaders rank its chief accomplishments—all gained after long struggles—as the ratification of the limited nuclear test-ban treaty and enactment of three major education bills.

WILKIE gets \$17,500. If he is elected to a full term next April his pay would go to \$24,000. He is serving out an unexpired term under a gubernatorial appointment.

Currie will succeed Timothy Brown, who is retiring under a new requirement that a justice leave the court at the age of 70. Brown, 73, has been on the court for 14 years and chief justice since May, 1962.

Fairchild is the apparent chief justice successor to Currie, who will have to retire in 1970.

## Beilfuss On Court Monday

MADISON, Wis. (AP)—Wisconsin's Supreme Court will have a new chief justice and a new member on Monday.

George Currie, 63, an associate justice, will be elevated to the chief justice role because he has served longer than any other member and law prescribes the line of succession.

Bruce Beilfuss of Neillsville, 48-year-old circuit judge, will become the high court's newest member. He was elected in April to a 10-year term.

The oath elevating Currie will be administered by Justice Thomas E. Fairchild. The oath for Beilfuss will be given by Justice Horace Wilkie.

The State Bar is handling arrangements for the ceremony and as part of it, newly-sworn Associate Justice Beilfuss will swear in Lowell Schoengarth as judge of the 17th Circuit where Beilfuss presides. Schoengarth was elected in April.

Currie, now receiving \$17,500 annually, will get a boost to \$25,000 when he takes over the chief justice duties.

Beilfuss' pay will be \$24,000. Fairchild receives \$14,000 a year and this continues for the term for which he was elected in 1956. If he seeks reelection in 1966 and is successful, his

pay would go to \$24,000.

Currie will succeed Timothy Brown, who is retiring under a new requirement that a justice leave the court at the age of 70. Brown, 73, has been on the court for 14 years and chief justice since May, 1962.

Fairchild is the apparent chief justice successor to Currie, who will have to retire in 1970.

## No Paper Wednesday

In order that Winona Daily News employees may observe the New Year's Day holiday this newspaper will not publish a paper on Wednesday.

We ask all of our friends to observe the day safely and urge you to look for the Daily News as usual Thursday.

Happy  
New Year

Beilfuss' pay will be \$24,000. Fairchild receives \$14,000 a year and this continues for the term for which he was elected in 1956. If he seeks reelection in 1966 and is successful, his

## Communications Workers Vote To Quit AFL

NEW YORK (AP)—Members of one of the largest locals of the Communications Workers of America—some of them shouting "We want Hiofia"—have voted to withdraw from the AFL-CIO union.

The vote was taken Monday night at a meeting of 5,000 members of Local 1101, which represents 10,000 of the 23,500 plant employees of the New York Telephone Co.

No one spoke against the motion to disaffiliate and only a few hands were raised in opposition.

WEATHER  
FEDERAL FORECAST  
WINONA AND VICINITY — Variable cloudiness and warmer tonight and Wednesday. Low tonight 16-24, high Wednesday 24-32. Warner Thursday, little precipitation.

LOCAL WEATHER  
Official observations for the 24 hours ending at 12 m. today: Maximum, 14; minimum, -6; noon, 14; precipitation, none.

## Empty Stomach, Empty Head

By EARL WILSON

NEW YORK — Strictly as a public service, I will now explain to you how to drink New Year's Eve so you will damage the fewest people and ruin the fewest homes. It is a very simple thing as you shall see . . .

To attain the maximum benefit, follow these two simple rules: (1) Don't go out and (2) even if you stay home, don't drink.

That's clear, isn't it? (That we're going to ignore that?) Now then:

1—Don't start out the evening drinking doubles. Doubles are drunk by people who will soon be seeing the same way.

2—Don't drink on an empty stomach. Old Chinese expression: People who drink on empty stomach have empty head.

3—Try to figure out your capacity ahead of time and stay within it. It was that great drinker Joe E. Lewis who once said, "I know my capacity, the trouble is, I always pass out before I get to it."

4—Seriously, if you're going to have to do some social drinking, it is a good idea to get some sleep—and I mean before you get to the party . . . like the night before. Be rested (not to be confused with arrested).

5—EAT SOMETHING before an evening of heavy imbibing—a couple of lean hamburgers and a couple of glasses of milk . . . or you could swallow a couple of ounces of salad oil to give your stomach a lining. And keep eating while you're drinking, remembering that's how the Russians handle that vodka.

6—Avoid over-sweet drinks and fancy mixtures involving cream.

7—When you're eating, you can mix most anything, as your stomach is getting a lining, but before, don't mix the grape with the grain—that is don't follow (the grape) wine, champagne, sherry, port or cognac with (the grain) whiskey, beer, vodka or gin. Keep them apart.

8—Learn to sip. The great professional drinkers who run saloons and drink all day and night can be observed with a glass from which they take the most delicate little sips. They never gulp.

9—DEVELOP "the pause." Break into the drinking routine by smoking a cigaret, taking a walk out on the terrace, making a phone call or washing your hands before you get another one. Try to get over the idea that you must drink everything in sight because there won't be any left. There will be some left.

10—When you get to the point where you say to yourself, "I can have just one more, then I've got to quit," QUIT RIGHT THERE because the delayed reaction of the one you've just had is going to kyo you in about 15 minutes. You've had enough.

11—So that's it. The most important rule we've left for last: DON'T DRIVE.

12—One further thought. If you see me around New Year's Eve kindly remind me of these nuggets of wisdom. It's just possible that I will have forgotten. TODAY'S BEST LAUGH:

### They'll Do It Every Time

By Jimmy Hatlo

**FARM GARAGE FIRE . . .** The garage Road burns in an early morning fire. (Daily News photo)

## Garage Burns; Freezers Lost

Edward Bronk, Goodview Road, said that it was too early to estimate the loss in a fire which destroyed a garage on his farm this morning.

He said that two freezers, a large number of tools, some bicycles and other equipment were lost in the fire which occurred shortly after 3 a.m.

Winona firemen received a call about the fire at 5:20 and sent a tank car and two men to fight it. They worked for two hours and used one booster line.

The fire was out of control in the two-stall garage by the time firemen arrived. Their efforts were to save other buildings nearby.

Bronk's car was driven from the garage and the car later was used to pull a tractor out. These were the only things saved.

Firemen said that it looked as though the fire started near wiring at the rear end of the garage. Bronk agreed that the fire appeared to have started in the wiring.

The garage, an old stone and wood structure about a half-mile south of the county highway department garage, was engulfed by flame. Smoke and light reflection could be seen about two miles away.

Bronk said that he and the family were asleep at the beginning of the fire, but were awakened by neighbors.

Robert Dorfheid, employe of the highway department, called firemen after he was informed of the fire by Lambert S. Bronk, Rollingstone.

## Voice of the Outdoors

By WILLIS FERNHOLZ (District Fish Manager, La Crosse)

Now that ice fishing is well under way, many fishermen will be interested in the weights of their fish.

It's no easy job to estimate the weight of a fish, especially when you're not handling fish every day. I recall one instance of a 5-pound northern pike which had been taken through the ice of Lake Onalaska. Estimates by a number of fishermen provided a range of 3 1/2 to 9 pounds.

The figures in the following tables were obtained from fish taken locally in netting surveys in the Mississippi River. These tables were prepared from a relatively small number of fish and cannot be considered hard and fast rules for a length-weight relationship.

The physical condition of fish varies greatly with the waters that produce them. However, these tables may dispel the doubt in your mind as to the weight of your fish. Just weigh them with your ruler.

## 22nd Dead in Florida Fire

JACKSONVILLE, Fla. (AP)—Injuries suffered when flames and smoke swept through the Roosevelt Hotel claimed the life of a 22nd person today. Cause of Sunday's tragic blaze still was undetermined.

The latest victim was Mrs. Josephine Dupre, 35, of Atlanta. Her husband, Walter, 36, died in the fire.

Fire Marshal E. C. McDermott said Monday he would report later his findings on the fire's cause and the damage to the 12-floor, 300-room hotel.

Of the 66 guests and firemen injured in the fire, three remained hospitalized.

**FOUND YOU, DEER . . .** These two Mabel, Minn., women, really were looking for their hunting husbands when they dropped these two deer. Mrs. Lyle Paulson got a 120-pound buck and Mrs. Richard Rilling a 160-pound doe. The hunting party was in Allamakee County, Iowa. (Griswold photo)

## Corporation Audit Tax Director Named

ST. PAUL (AP)—Clarence A. Anderson, 48, St. Paul, was appointed Monday by Tax Commissioner Roland F. Hatfield as chief of the Corporation Audit Group in the Income Tax Division.

Anderson, graduate of the University of Minnesota, joined the Income Tax Division in 1957. He has been acting chief of the Corporation Audit Group since September.

He lives at 1474 Branston St., St. Paul.

## Masons at Lanesboro Elevator Sold

LANESBORO, Minn. (Special) — Bernard Ward has been re-elected worshipful master of the Lanesboro Masonic lodge. Other officers: C. W. Hanson, senior warden; A. M. Evenson, junior warden; Albion Morey, secretary; E. R. Sears, treasurer; Donald Capron, senior deacon; Theodore Opem, junior deacon; Dr. A. W. Hignum, Tyler; Roy Hazel Jr., senior steward; Lee Boyum, junior steward.

## Eleva Store Sold

ELEVA, Wis. (Special) — Mr. and Mrs. Clarence Craven have sold their Gamble Store to Mr. and Mrs. Stanley Amundson of Milwaukee. Amundson, who now is working for the Milwaukee police department, will take over the business about April 1. Both Mr. and Mrs. Amundson were born and raised in Strum. They recently adopted a little girl. The Cravens have no definite plans for the future.

## Osseo OKs \$615,000 Job

OSSEO, Wis. (Special) — Osseo district electors Monday night voted 151-21 to borrow for a \$615,000 addition to Osseo High School.

Of those who favored the addition, 94 were against including a swimming pool and 57 for it. The board thus is authorized to proceed with plans for the six classrooms, industrial arts and music departments, new kitchen, cafeteria, multi-purpose room and physical education lockers, and extensive remodeling of the present high school to include more library space; a classroom for the mentally handicapped, biology laboratory, updated ag classroom, and shop, art room for grades 7-12, and larger administrative offices.

A straw vote Dec. 12 favored the addition 122-22. A total of 172 votes was cast Monday night in the official referendum.

Average investment per farm is now approaching \$30,000—three times as much as in 1950.

DEAR ABBY:

# He's Always In Market

By ABIGAIL VAN BUREN

DEAR ABBY: I know plenty of women who have nothing on their minds but money, but my husband is the only man I know who thinks about business and money night and day. He even DREAMS about money. All night long I can hear him buying and selling stocks in his sleep. Is this normal? ROSE

DEAR ROSE: It's normal. Be glad your husband is preoccupied with "figures" of a business nature. Count your blessings while he's counting his shares. And don't sell him short.

DEAR ABBY: One day last week I went into my garage to do a little work, and there I found two neighbor children playing INSIDE an old refrigerator I had stored there. They were three and four years old. When I think of the tragedy that might have occurred if that refrigerator door had accidentally slammed shut on those little tots, my blood runs cold. I gave them a long lecture on how they had no business in my garage (the door was closed), and then I gave them a few whacks on their behinds so they'd remember it. The next thing I knew, I got a call from one of their mothers telling me it was against the law to lay hands on another person's child and I would be hearing from her lawyer. Who is crazy? GOOD NEIGHBOR

DEAR NEIGHBOR: I am not a lawyer, so I can't tell you who broke what law. Neither am I a doctor, so I can't tell you who is crazy, either. But I can tell you you should have kept your garage door LOCKED, or stored the "attractive" nuisance elsewhere.

DEAR ABBY: We had a very fine photographer take our children's pictures in color, so I suggested to my husband that we have them made up and give them to his parents as a gift. (Nicely framed, of course.) My husband said that giving a picture as a present is in very poor taste. I say he is wrong. He told me to write to you for your opinion. MRS. C.

DEAR MRS. C.: A picture is the one thing a person can't go out and buy himself. I have yet to see grandparents who didn't appreciate pictures of their grandchildren.

DEAR ABBY: I never knew love songs were out of place at a wedding ceremony. "Oh, Promise Me" and "Because" were sung at our wedding 26 years ago. Had I known what the future held in store for me I would have requested, "I Can't Give You Anything But Love, Baby." BROKE BUT HAPPY

HAPPY NEW YEAR TO ALL MY READERS! ABBY

## OUT-OF-TOWN-COLLEGES

### On Yale Dean's List

GORDON N. GOLDBERG, A former Galesville resident, son of Mr. and Mrs. Louis W. Goldberg, 54 W. Broadway, was one of 12 Minnesota students at Yale University to be named to the dean's list for academic achievement.

Gordon is a graduate of Winona High School, majoring in culture and behavior. He is a ranking scholar.

CHATFIELD, Minn. — Paul Cravath, son of Mr. and Mrs. Russell Cravath, is one of six Luther College students to be selected for the Negro Exchange Program. He will attend Fisk University, Nashville, Tenn., an all-Negro school. A sophomore majoring in English, he plans to attend law school.

Two area students have been listed for fall quarter scholastic honors at River Falls State College. They are Paul McNaughton, son of Mr. and Mrs. Raymond McNaughton, EAU GALLE, and Edward Kannel, son of Mr. and Mrs. Earl Kannel, PLUM CITY.

INDEPENDENCE, Wis.—Karen J. Flury recently became an active member of the Epsilon Omega chapter of Delta Zeta, national social sorority, at Eau Claire State College. She is a junior majoring in upper elementary education and the daughter of Mr. and Mrs. Jacob Flury.

GALESVILLE, Wis. — Mrs. Donald Bakehouse, the former Harriet Homer, was recently promoted to assistant professor at the University of Minnesota.

ETTRICK, Wis. (Special) — Suzanne Mattson will graduate from Platteville State College Saturday. She has majored in elementary education and minored in art. She is the daughter of Mr. and Mrs. Richard Mattson. Immediately upon graduation she will take a teaching post at Waukesha, Wis.

LAKE CITY, Minn. — Henry Schmauss Jr. and Thomas Wiel, students at Annapolis Naval Academy, spent their Christmas vacation at the homes of their parents, Mr. Henry Schmauss Sr. and Mr. and Mrs. Theodore H. Wiel.

EYOTA, Minn. — Wallace Selleseth, principal at Dover-Eyota High School, has received his masters degree in educational administration from the University of Minnesota.

### County Responsible For Prisoner's Care

ST. PAUL (AP) — A county where a person is arrested, and not the county of residence, is liable for the medical costs and hospitalization of the offender, Atty. General Walter F. Mondale said Monday.

A 17-year-old Clearwater County youth, arrested for car theft, required medical attention at the Mahnomon County village hospital for some days. Andrew J. Wambach Jr., Mahnomon County attorney asked which county must bear the cost.

### Connally Won't Attend Grid Tilt

AUSTIN, Tex. (AP) — Gov. John Connally announced he would not attend Wednesday's Cotton Bowl football game here between the University of Texas and the Naval Academy.

Connally, who was wounded when President Kennedy was assassinated Nov. 22, will be at his old home of Floresville, Tex., over New Year's Day.

### Duluth Man Dead From Exposure

DULUTH, Minn. (AP) — A Duluth man, George Johnson, 68, died in a hospital Sunday night from the effects of exposure.

He was found partly frozen early Sunday on a downtown street.

He lived in the Cook Home, a residence for old people.

### Irish Playwright Still 'Pretty Ill'

DUBLIN, Ireland (AP) — Brendan Behan was reported "fairly comfortable but still pretty ill" today.

The 40-year-old playwright

### Central Park Private Jungle

NEW YORK (AP)—Domestic cats gone wild have turned Central Park's bird sanctuary into a private jungle.

Evicted from mid-Manhattan apartments, the cats have found good hunting among the park's song birds and migratory ducks.

A park worker said Monday that 47 cats were trapped this year and 26 last year. One was found unconscious in a Dublin street early Monday. Police are trying to determine whether he fell or was the victim of a hit-and-run driver.

Tuesday, December 31, 1953 WINONA DAILY NEWS 7

### Less Whisky, More Beer for Minnesota

ST. PAUL (AP)—Less whisky and more beer has been consumed by Minnesotans in the last six months.

William H. Joyce, liquor control commissioner, said Monday

that liquor taxes for the first half of the current fiscal year dropped \$24,117—from \$7,752,300 to \$7,728,183. Beer taxes amounted to \$2,493,984 as compared with last year's corresponding period of \$2,333,108 — an increase of \$160,876.

**CHARGE IT! PENNEY'S IN WINONA IS OPEN MONDAY and FRIDAY, 9 to 9** Tues., Wed., Thurs., Sat. 9 to 5

**READY FOR OPENING** . . . The Alma City Council expects to lease its new small boat harbor soon so it will be ready for summer opening. The area also will furnish a large natural bathing beach area, and a park will be developed on adjacent land. Access to the area has been completed from Highway 35, with signal lights at the Burlington Railroad crossing.

# Alma Boat Harbor To Open in Spring

ALMA, Wis.—Applications for leasing of the new Alma Boat Harbor, completed and ready for next spring, have been received by Charles Zepp, chairman of the committee, and will be considered by the City Council.

The harbor, dredged by A. Kertzman Dredging Co., Lamolite, will have room for some 100 slips of varying sizes, from cruisers to small fishing boats, according to Mayor Edmund Hitt.

JUST SOUTH of the harbor entrance is a large natural bathing beach with sand bottom, dredged in when the nine-foot channel was built 30 years ago. The Mississippi River channel is southwest of the beach.

To the southwest of the beach and marina is island area which the city will develop into a park. Hitt said. Ample parking space is provided on three sides of the harbor, and beach parking will be provided on the island.

The city built an access road to the recreation area from Highway 35 and cooperated with the Chicago, Burlington & Quincy Railroad in providing flasher signals across the tracks which lie northeasterly along the harbor. It is about a mile above Alma.

The U. S. Corps of Engineers let the dredging contract at \$38,235. The city's expenditure on the project was about \$40,000.

REPORTEDLY the American Legion has expressed an interest in developing the swimming area and beach house. The natural beach hasn't been used because of lack of access. The beach includes a natural diving area.

Next summer Alma people won't have to take their children out of town to learn to swim, for the city will have its own facilities.

## Forced Savings Charged in Cuba

MIAMI, Fla. (AP) — "Voluntary savings" take 20 million pesos monthly from Cuban pay checks, the anti-Castro Revolutionary Workers Federation said today.

The exile organization said pressure is put on workers to make ample deposits in the government savings system. It quoted a recently arrived refugee, Arnaldo Machado, as saying there is so much red tape that

workers can't withdraw deposits. Average deposits by 2 million workers, the report said, are 10 pesos monthly. A peso is officially pegged at \$1.

PLAINVIEW PATIENTS  
PLAINVIEW, Minn. (Special) — Carolyn Reed, 17, daughter of Mr. and Mrs. Ronald Reed, underwent knee surgery at St. Mary's Hospital, Rochester. Carolyn is a senior at Plainview Community High School. Mrs. George Pretzer is expected home from Methodist Hospital, Rochester.

## Irvin Kerlan Killed by Car

MINNEAPOLIS (AP) — Dr. Irvin Kerlan, 51, founder of the Kerlan collection of books at the University of Minnesota, was struck by a car and killed Saturday while crossing a street in Washington, D.C.

A native of St. Cloud, Minn., Dr. Kerlan received his medical degree at the University of Minnesota in 1934.

He had lived in Washington since 1939, retiring in 1962 as chief of the research and reference branch of the Food and

Drug Administration's bureau of medicine. In 1961 he received the university's outstanding achievement award.

In 1939 he presented his collection of children's books, manuscripts and book illustrations to the University of Minnesota. The collection now totals 10,000 volumes.

**Missing Plane Reported Safe**  
SANTA BARBARA, Calif. (AP) — The Civil Air Patrol Monday cancelled plans for a search for a private plane after it was

located at Orange County airport, Santa Ana.

Earlier it had been reported that Donald Hubert of 1116 7th Ave., Duluth, Minn., was missing in a rented plane on a flight Christmas Day from Oxnard. But this morning the CAP was informed the plane made a safe landing at the airport in Orange County. (No pickup)

**Horse Stealing Charge Pressed**  
FARIBAULT, Minn. (AP) — The first man to be charged with horse stealing here since

1876 waived preliminary hearing in municipal court Monday and was bound over to District Court for trial.

David S. Aarsvold of rural Lonsdale was charged in connection with theft of two horses the night of Nov. 30 from U.W. Ellege of near Faribault.

Both horses have been recovered. One had been sold at an auction in Plain, Wis., the other was found grazing near Mantorville, Minn.

Aarsvold is held in lieu of \$1,500 bond. He is also charged with theft of four ponies the night of Sept. 17 from Al Karow of Faribault. The ponies have not been recovered.

# Review and Forecast

**CLEANUP JOB TERRIFIC . . .** This scene on the corner of West Wabasha and Ewing street the day after a half-a-million dollar tornado hit Winona June 8 was typical of the sights greeting Winonans all over the city. Few sections escaped entirely. Hun-

dreds of trees were uprooted as was the one in this photo. Sidewalks were lifted from their base and general havoc spread over the city. Here a group of on-lookers views the damage the following day. (Daily News Photo)

**LOOKED AT, NOT LOOKING . . .** The city's oldest girl friend, Wenonah, found a niche in Lake Park this year. The object of crushes dating as far back as 60 years, she was the center of discussion throughout the process of location. Prolonged discussion also raged over which direction the statue should face. Should she greet the

multitudes entering Lake Park from the north, via Main Street? Or should she give them the back of her hand, so to speak, to gaze unblinkingly across Lake Winona? Nobody thought to design a rotating base, and park board commissioners, impaled on a single choice, ruled in favor of the north facing. (Daily News photo)

**UPDATING: WHERE OR WHEN? . . .** Old buildings, a bountiful commodity, were more than ever in the limelight this year as steam built up under the urge for downtown redevelopment. Opposition was voiced against the "bulldozer approach" and against the pursuit of federal grants to help finance the

hoped-for renewal. Some advocates, wanting renewal above all else, pressed for federal assistance but hoped that privately financed rebuilding would gather momentum enough to remove any need for government help and its attendant restrictions. (Daily News photo)

**BURYING DETAIL . . .** This year garbage went underground as the city contracted for disposal in a sanitary landfill, one mile east of the corporate limits. The view is north from the entrance on old Highway 61. Several tons of wrapped garbage and rubbish are deposited every day and buried each night at the site.

Some Homer Township residents have protested against operation of the landfill, alleging that nearby wells will be polluted. They have threatened legal action to force discontinuation of the landfill but no court action has yet been taken. (Daily News photo)

## Winona's Big Stories of 1963

**COLLEGE BUILDING BOOM . . .** Assisi Hall Juniorate, rising in St. Michael's Field on the College of Saint Teresa campus, typifies the surge in college construction that boosted Winona's employment rate to record levels during 1963. In addition

to the continuing program at Saint Teresa's, St. Mary College started construction of a new gymnasium late in the fall and more than \$4 million worth of new construction has been authorized at Winona State College. (Daily News photo)

**STORM CENTER . . .** Enclosed area in the picture represents approximately the 4.4 acres of land under consideration as a Holiday Inn motel site. Running across the lower, or south, side of the tract is Highway 61, with the south shore of Lake Winona forming the general northern boundary. At the right is lower Huff Street, where the access road would be located.

which must be held before securing necessary rezoning, are sure to be lively. Opponents object to commercial establishments on the lake shore. Advocates say the city's economy needs the \$500 thousand building and attendant pay roll of about 40 employees.

Late this year, aldermen granted a 150-day option to purchase the property to Holiday Inn franchise holders. The price: \$7,500. Public hearings,

A new shopping center is scheduled for construction on land a quarter mile west of this site. The center has no lake shore frontage but will be accessible both from Highway 61 and Gilmore Avenue. (Daily News photo)

**THREE FOR TWO . . .** One of the city's landmarks, the old general hospital, gives way to wreckers to make room for a planned apartment development of three units. Razing of the building, vacant since last year, was started after hospital directors tried and rejected two other alternatives. They decided not to remodel it into a nursing home because of excessive costs and elected not to sell it because purchase bids were considered too low.

gent on whether permits could be secured for erecting the new \$450 thousand apartment complex. The nurses' residence, left background, also will be leveled. Apartment buildings will have 11 apartments each and off-street parking will be provided for 33 cars.

In October, a Minneapolis development firm bought the property conditionally, the sale contin-

Hospital directors meanwhile set plans in motion for building a nursing care addition to Community Memorial Hospital. Total cost for the 100-bed annex is estimated at \$900,000. (Daily News photo)

**RECORD EMPLOYMENT RATE . . .** The kind of activity that boosted the city's employment rate to record highs during 1963 is typified in this picture of operations at Peerless Chain Co. Here, workers turn out tire chains on a semi-automatic chain

making machine. Peerless Chain currently employs around 300 workers. Throughout the past year, the labor force at the firm has run around 225 persons. (Daily News photo)

# Minnesota Road Building in District at Peak

## 2 Winona Co. Highway Jobs Go Into 1964

The story of Minnesota Highway Department construction projects in the Winona area is a continuing story.

In Winona County, the two major projects are not scheduled for completion until well into 1964, according to Charles E. Burrill, district engineer, Rochester.

The largest project — the largest in dollars, in fact, ever contracted by the state — is an 8.6-mile stretch of Trunk Highway 61 and Interstate 90 being built between LA CRESCENT and DAKOTA. Prime contractor for the construction of the four-lane highway is S. J. Groves & Sons Co., Minneapolis. The contract cost was \$7,064,192.

An area firm, Tri-State Construction, Inc., Alma, is principal subcontractor on the project. Tri-State is doing all the bridge work.

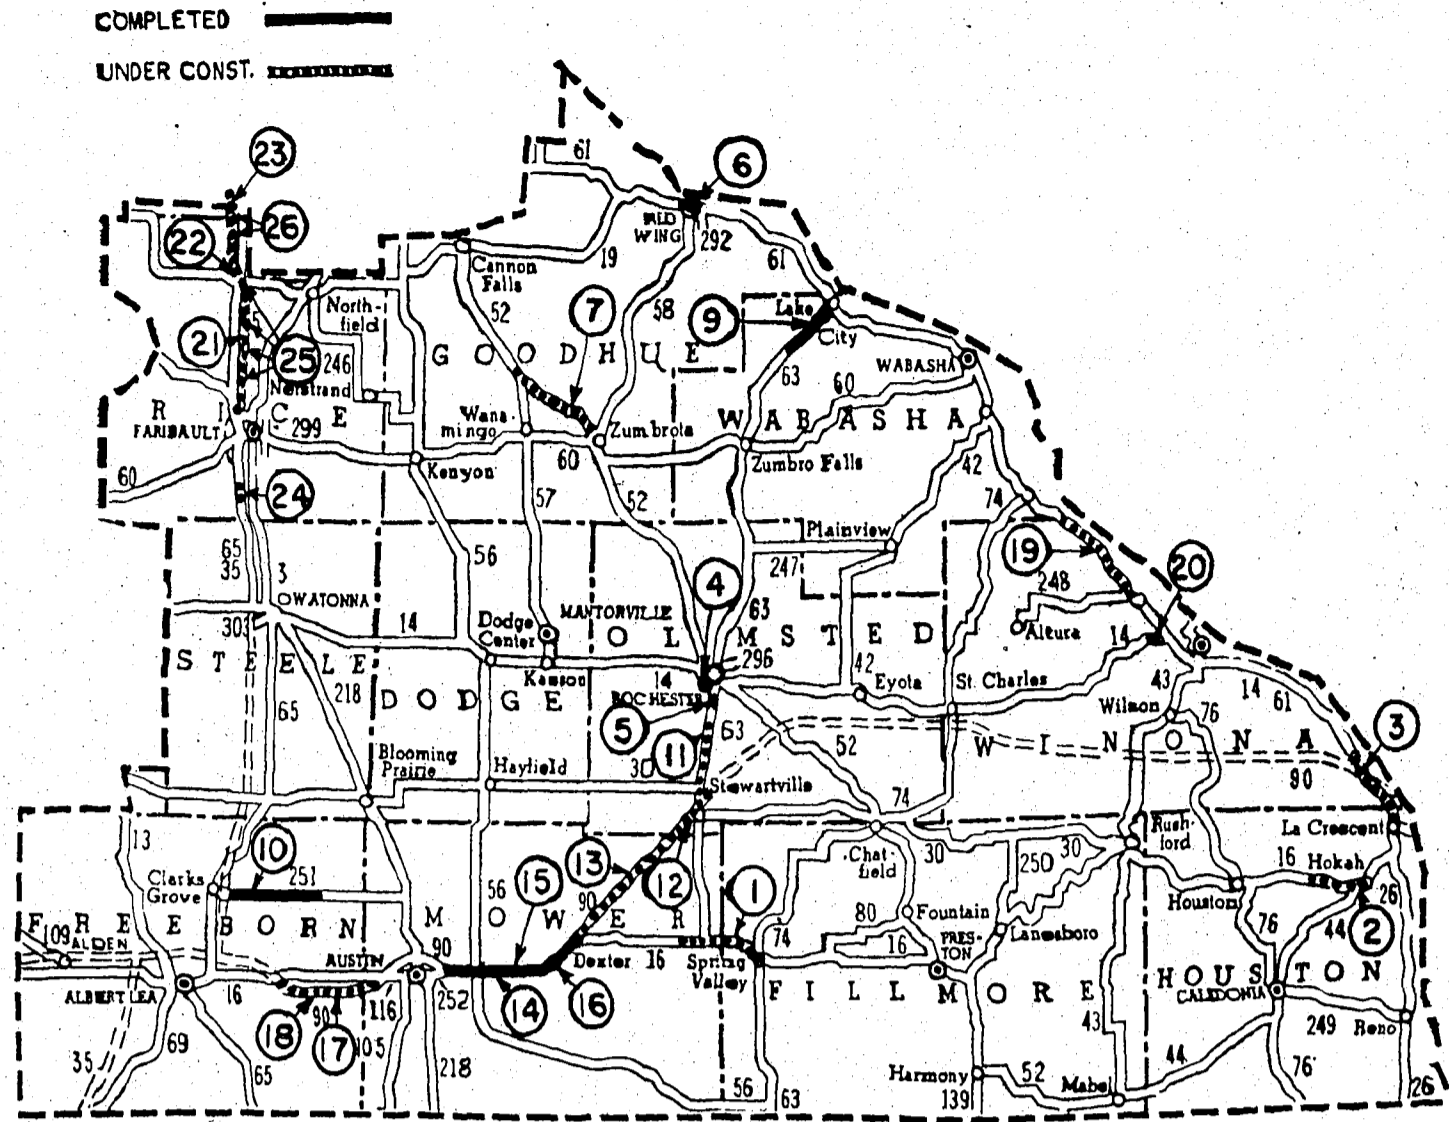

The project began on Aug. 8, 1962, and is not scheduled for completion until late in 1964.

Completion of the stretch now under construction will mean completion of the super-highway between Minnesota City and La Crosse. Work involves excavating, grading and installing of crushed rock base, concrete paving and plant-mixed bituminous surfacing for service roads and shoulders. Four service roads and six bridges are included.

About three-fourths of the segment is in Winona County, the rest in Houston County.

Work on the four-lane portion of TH 61 between MINNESOTA CITY and MINNEAPOLIS is scheduled for completion in the spring of 1964. Only two lanes, however, will be surfaced and open to traffic. Prime contractor on the \$2,159,072 project is Johnson Brothers Highway and Heavy Construction, Inc., Minneapolis. At Minneapolis, the project joins a four-lane section already completed, except for surfacing of the second pair of lanes.

Work involves grading, installation of gravel base and laying of a road-mixed bituminous

**HIGHWAY CONSTRUCTION** . . . State highway projects in District 6, comprising all or part of the 14 Southeastern counties, are shown on this map. A solid line indicates a completed project. A dotted line denotes a project under construction. Double broken lines show the routes of planned future roadways. Numbers correspond to those on parentheses in the list at the end of the accompanying story.

ous base. The project began Dec. 3, 1962.

The only project begun and completed during 1963 was construction of an \$18,256 foot-bridge over TH 14 on the St. Mary's College campus. Work was done by H. S. Dresser & Son, Winona. The project was finished Aug. 15.

IN HOUSTON COUNTY, a project involving grading, base and surfacing of 4.6 miles of TH 16 is now in progress. The construction zone extends 4.5 miles west from the junction with TH 44 in Hokah. Cost of the contract was \$487,217.

A 6.2-mile project in WABASHA COUNTY was completed this fall. It involved grading, gravel base, plant-mixed bituminous surfacing and storm sewer construction on TH 63 west from Lake City. Cost was \$262,462.

TWENTY-SIX projects began,

were completed, or were in progress during 1963 in Highway District 6, with headquarters at Rochester. The district includes all or part of 14 counties in the southeastern part of Minnesota.

Nineteen hundred and sixty three was a record year for the district, with \$28 million worth of roadway under way or completed. Included were 106.7 miles of grading and base, and 79.4 miles of surfacing. Many projects throughout the district, including, of course, those in Winona County, will carry over into 1964, and some into 1965.

The heaviest concentrations of projects in the district occurred on TH 35 north of Faribault and on I-90 between Austin and Stewartville.

A complete description of the projects in the district follows, with numbers in parentheses keyed to corresponding numbers on the accompanying map:

- (1) TH 16 — Miscellaneous grading, crushed rock base, and surfacing of 6.9 miles from 1.5 miles west of junction TH 63 to 0.1 miles east of the east junction of TH 63 in Spring Valley. Project began May 20, 1963, and is scheduled for completion during the spring of 1964. \$424,262.
- (2) TH 16 — Grading, base, and surfacing of 4.6 miles of roadway from 4.5 miles west of junction TH 44 to the junction of TH 44 in Hokah. Project began July 18, 1963, and is scheduled for completion in the spring of 1964. \$487,217.
- (3) TH 61 and TH 90 — Grading, base, bituminous and concrete surfacing, and bridges on TH 61 and TH 90 between La Crescent and a mile north of CSAH 13 in Dakota. This pro-

ject began on Aug. 8, 1962, and completion scheduled for 1964. \$7,064,192.

(4) TH 52 — Grading, gravel subbase, crushed rock base, plant-mixed bituminous surfacing and concrete retaining walls on 1.5 miles in Rochester between 4th Street NW and south junction TH 52. Project began July 17, 1961, and opened in July 1963. \$1,430,840.

(5) TH 63 — Pedestrian cross-over and walkway in Rochester. Project began Jan. 7, 1963 and completed on Aug. 15, 1963. \$40,472.

(6) TH 61 — Grading, gravel base, bituminous surfacing, and two bridges in the city of Red Wing. Project began April

(Continued on Page 14) MINNESOTA

## Maintenance Costs State \$1,258,000

Total expenditures for highway maintenance in Maintenance Area 6A in 1963 will come to about \$1,258,748, according to E. R. Boyce, Rochester, district maintenance engineer for the highway department.

The area includes Fillmore, Houston, Olmsted, Wabasha, Winona and part of Mower counties. State crews are responsible for administering maintenance of all trunk highways in this area, a total of 734.3 miles.

EACH SEASON has its routine work, Boyce reported. State forces did such jobs as guard rail repairing; culvert clearing, and repairing; brush cutting; shoulder repairing; surface patching; rubbish pickup; mowing; snow fence erecting and removing; preparing winter sand, salting, and removing snow; riprapping; maintaining bridges, equipment and signs, and painting highway stripes.

In addition to these, a number of special projects were carried out, both by state crews and by contractors. The department paid approximately \$181,392 for special projects carried out by its own crews. \$350,356 was spent on work done by contractors.

Added to the estimated labor payroll of \$727,000, total expenditure for highway maintenance in the area comes to approximately \$1,258,748. Last year's figure was \$1,457,324.

The following are SPECIAL PROJECTS carried out by state forces during 1963:

1. Crushed rock base and bituminous surface. a. Crossover between roadways of divided Highway 52 north of Rochester, \$2,432.17. b. Widening at Crossroads Shopping Center at Rochester Junction 14 and 63 from 2 to 4 lanes. This consisted of grading, crushed rock base and bituminous surface, \$15,124.99. c. Shoulder surfacing TH 16 west of Lanesboro, \$2,330.59.

2. Drainage and erosion control over various areas throughout the district, \$4,140.29. This work consisted of bituminous curb, riprap and masonry work.

3. Portable concrete curb island construction for traffic separation and control, TH 14 at

## New Projects Slated for '64

The Minnesota Highway Department proposes to let in this area during 1964 projects amounting to more than half a million dollars, District Engineer Charles Burrill reported.

In Winona County, plans call for construction of an \$30,000 replacement bridge in Whitewater State Park. It would be built on HIGHWAY 74 over the middle fork of the Whitewater River. 2.2 miles southwest of Elba.

On INTERSTATE 90, \$39,000 worth of lighting and sign installations is planned for the stretch between Dakota and the Mississippi River bridge.

The largest project planned is grading and surfacing of 4.9 miles of TH 16 in Fillmore County. The work would be done from the junction with TH 250 to Whalan. This is part of a program designed to make TH 16 a nine-ton road.

Burrill said that although the project has not yet been published, his department will make every effort to resurface the present TH 61 from Kellogg to Wabasha.

Rochester, \$779.45.

4. Bituminous wearing course construction over concrete pavement. TH 52 between Preston and Prosper. This was spot work, approximating 5.8 miles in area length consisting of two 1-inch layers of bituminous mixture over the pavement, \$35,602.00.

5. Bituminous surface repair. This consisted of district-wide spot work approximating 30 miles in aggregate length and averaging 24 feet in width, \$110,982.22.

6. Widening of roadway in Stockton, consisting of excavation, crushed lime stone base and bituminous surfacing. At present incomplete. Approximately present cost, \$10,000.

7. A considerable mileage of light bituminous sealing which is also done by the maintenance forces where surfaces required attention before freezing.

The following were CONTRACTS let by the state with maintenance funds in this area:

1. Bituminous seal coating. This contract embraced several sections of trunk highway scattered throughout the area on Highways 14, 30, 42, 43, 52, 63, 76, 247 and 249 for a total of 74.13 miles at a total cost of \$80,311.

2. Bituminous surface repair. This consisted of capping 9.9 miles of bituminous highway with a 3/4 inch layer of bituminous mixture of a total cost of \$11,324.22. The highways involved included 43, between Mabel and Rushford, TH 16 Peter-

son to Lanesboro, TH 30 Rushford to 18 miles west and TH 250 between Lanesboro and TH 30.

3. Application of calcium chloride in liquid form for dust alleviation and surface stabilization of crushed lime stone on highway surfaces and shoulders. This embraced a total of 132.2 net miles of highway as follows: 24-foot-wide surfaces, 22.5 miles; 20-foot-wide surfaces, 7.6 miles; 3-foot-wide shoulders, 11.9 miles, and 6-foot-wide shoulders, 90.2 miles. Contract price, \$54,766.40. The above work was area wide.

4. Crushed rock base and bituminous surface. TH 74 Spring Valley to one-third of a mile north, 1.3 miles, \$17,129.17.

5. Crushed rock base and bituminous surface. TH 76 Caledonia to 2.86 miles north, 2.86 miles, \$35,986.29.

6. Production and stock piling of crushed and screened lime stone. 21,000 tons, \$42,000.

7. Crushed rock resurfacing of TH 74 between Spring Valley and Chatfield and between Elba and Weaver. 11,500 tons, \$24,714.

8. Grading and crushed rock base over five individual areas of TH 249 between Caledonia and 1.25 miles east of Freeburg. Total 1.78 miles, \$64,315.19. This work was done to strengthen some weak areas which break up each season. The project is not yet completed, but it will be completed early in 1964.

## County Road Costs in '63 Climbing Over \$1.1 Million

By GEORGE McCORMICK, Daily News Staff Writer

The past year has been "one of the most successful" for the Winona County highway department, according to County Engineer Gordon M. Fay.

Fay's department, in addition to regular road surfacing and grading operations, built two new bridges, replacing two of the worst bridges in the county's road system, and eliminated one bridge entirely by relocating County Road 125.

THIS ELIMINATION of one bridge — that over Pine Creek a mile north of New Hartford on CR 125 — saved the county about \$26,000, Fay pointed out.

"This is the brightest spot of the year for us," Fay said. He added, however, "The condition of bridges in Winona County is far from satisfactory."

The county's highway expenditures for 1963 will total about \$1,148,575, the engineer estimated. Of this, about \$696,573 went for new construction, \$61,374 went for the purchase of new equipment and \$391,628 was paid out for maintenance.

This total is \$268,601 greater than the total for 1962, which was \$880,374. The biggest increase was in the new construction category, which rose by \$218,827 over its 1962 total of \$477,746.

ONE REASON for the sharp rise, Fay explained, was that two projects were held over from 1962 to 1963 because of unfavorable weather conditions. The two were grading of CR 107 and construction of a bridge on County State Aid Highway 5.

Expenditures for maintenance work was routine, but that a heavy rain near St. Charles in July and rain and hail storms north and northeast of Altura caused some unexpected road damage that had to be repaired.

New equipment bought by the department during 1963 includes three three-ton dump trucks,

each equipped with snow plows and wings, end-gate sand spreaders and two-way radios; a new station wagon; a half-ton pickup truck; a new motor grader, now in the Lewiston area; a new mower, and a blueprinting machine.

THE 1964 SEASON will be second year in the county's five-year program, under which county road needs during the ensuing five-year period were studied and need projects programmed.

Fay said that Winona County was the first county in the nation to adopt such a plan, which gives the highway department better control over projects than is possible under a year-to-year system.

Since the plan went into effect, however, 14 other Minnesota counties have undertaken similar studies, and Hennepin County has gone so far as to program its projects as did Winona County.

The advantages of the five-year approach to highway planning are that it gives a program continuity, enables a county to work toward a long-range goal and saves money on individual projects. At the same time—because the program can be reviewed annually when the county sets up its budget—the plan retains flexibility, Fay asserted.

AS AN EXAMPLE of how the program can bring about a saving, Fay cited bridge construction. With the five-year approach, he said, his department knows in advance where a bridge is to go, and can prepare grading for it when building a new road approaching the proposed bridge site.

Whether because of this or not, Fay asserted, the county is paying less than the state average prices for construction of new bridges.

\$610,000 for new construction, \$380,000 for maintenance and \$40,000 for new equipment.

In February, the department moved into its new building on Trunk Highway 61 in Goodview. The building, designed by Flad-Smith & Associates, cost \$242,004.

Previously, the department had its offices in the courthouse basement and its shop and garage at 265 W. 3rd St. On Oct. 9 the old shop property and some surplus county equipment were sold at auction — \$26,000 being paid for the property and a total of \$4,149.75 for the equipment.

"We're a little more efficient this way than under the old system," Fay said. He pointed out that having all the sections of the department in one place gave better control than was possible before. Another advantage he cited is that equipment can be moved into the rural areas of the county more easily.

### 1963 Construction

GRADING AND SURFACING  
CSAH 25—Seven miles north from TH 14 in Lewiston. G. E. Rietman, Oronoco, Minn., \$171,529.92. Crushed rock base on the same. Fred Fakler, \$22,108.50.

CSAH 26 — From 0.28 miles east of the intersection of TH 74 and CSAH 26 in Elba to 3 miles east. Ben Erwin and Son, Inc., Caledonia, Minn., \$39,016.46. Length 2.8 miles. (Project about 70 percent completed.)

CR 122—From CSAH 15 (2.5 miles south of Homer) to a point 1.8 miles north. William Ramlo & Sons, Inc., Canton, Minn., \$34,499.04.

CR 107—From CSAH 21 (south of Winona) to a point 2.2 miles north. William Ramlo & Sons, Inc., \$54,211.46.

CR 125 — A mile north from CSAH 15 west of Nolene. Funke Construction Co., Theilman, Minn., \$34,364.71.

### 1964 Construction

BASE AND BITUMINOUS SURFACING  
CSAH 12—Length 1.4 miles.

CSAH 31—Three miles northwest from CSAH 28 (north of Altura).

CSAH 18 — One and a half miles south from TH 14 (east limits of Utica).

CR 114—West 2.4 miles from CSAH 31 (north of Altura).

CR 115—North 2.7 miles from TH 14 (a mile west of Utica).

GRADING AND SURFACING  
CSAH 37—North 2.3 miles from CR 115 (northwest of Utica).

CSAH 29 — North 2.1 miles from CSAH 6 at Fremont.

CSAH 15 — From two miles northeast of Witoka to CR 122. Length 3.5 miles.

CSAH 17—From top of hill to CSAH 12. Length 1.4 miles.

CSAH 8—East 1.6 miles from CSAH 11 (1.5 miles south of Ridgeway).

CSAH 9 — South 1.5 miles from TH 14-61 (1.5 miles north of Lamolle).

# Big Wisconsin Area Highway Project Set

A total of \$818,636 in highway contracts was let in the four-county Wisconsin area this year, according to the La Crosse and Eau Claire division offices of the state Highway Commission.

This figure doesn't include all the expenditures; some right of way for 1964 and Interstate 94 has been purchased and is not in the total.

Most of the work was done on state highways, although some of it represented work on county-state aid stretches. The near million dollars also represents some projects not started and not completed. The report includes no exclusive county highway work.

State highway projects planned for next year total \$560,500. This is the report of G. N. Groat, engineer for District 5, La Crosse.

### Buffalo County

A 7/10 mile project was constructed on State Highway 37 between Alma and Mondovi last summer. This improvement replaced an extremely narrow bridge and provided easy curvature in place of the short sharp curves of the old highway. The contract cost was \$74,734. Federal, secondary and state funds paid the bill.

Prior to building this road, anthropology and archeology students from the University of Wisconsin found relics of prehistoric Indians in this area, known as Tell.

State Highway 35 was improved for 1.3 miles north of Fountain City, across the Waumaw Creek fill and past the new Merrick State Park entrance. The work cost \$85,500 in state funds.

A MAJOR improvement at the time was accomplished in the same contract. Building the overhead over the Chicago, Burlington & Quincy Railroad to the park was the major project, eliminating the old crossing at grade level. The project, involving also railroad facility moves and power line changes, cost approximately \$160,000.

State park road funds were

used for the project. In addition to the work here, park road funds were used to provide access to public waters on the Chippewa River.

While these park road fund improvements are not part of the Great River Road, they contribute to recreational facilities reached by this scenic highway.

Under the federal aid secondary road program, Buffalo County did not participate in any county trunk road projects in 1963.

For 1964 the published program of the Highway Commission includes the resurfacing of Highway 35 from Alma north to near Nelson, some 7.6 miles. This will have to be financed with state funds and costs \$195,000.

In addition to this, the commission expects to purchase right of way to improve 2.8 miles of No. 25 extending from the new Merrick Park entrance north of Fountain City, north of past the State Highway 88 junction and the Cochran-Fountain City School.

Right of way will be acquired on a short section of State Highway 95 west of Arcadia on a joint improvement with Trempealeau County.

The regular allotment to Buffalo County for state trunk construction is still being used for retirement of bonds by previous agreement with the commission.

### Jackson County

NO MAJOR construction projects were undertaken on state trunk highways in 1963 in Jackson County. Resurfacing of five-tenths of a mile on U.S. 12 adjacent to Monroe County was accomplished, with work in Monroe County at a cost of \$7,054.

A substantial road improvement program is planned for 1964, which includes the improvement of the 1.3 miles south of Elk Creek at an estimated cost of \$110,500, and reconstruction of Highways 93-95 on Main Street in the City of Arcadia, an estimated \$150,000 project which will include Highway 93 east of Arcadia for five-tenths of a mile.

Right of way also is being acquired for the improvement of Highway 95 west of Arcadia in conjunction with the Buffalo County project. Highway 35 from Centerville

from Black River Falls was completed.

### 1964 PROGRAM

Work programmed in 1964 in Jackson County includes resurfacing and upgrading the shoulders on U.S. 12 on about seven miles of old pavement at an estimated cost of \$205,000. The program also includes the securing of right of way for the proposed project Highway 54 between Black River Falls and Irving.

As in other counties, any accelerated program of financing would make it possible to place this section under construction in 1964.

### Trempealeau County

WORK ON the state trunk system in Trempealeau County was confined to maintenance operations, with the addition of a well and toilet facilities at a wayside rest area on U.S. 10-53 west of Osseo. Roadside funds were used to the extent of about \$5,450 for this improvement.

Right of way for this improvement was acquired for the improvement of Highway 93 between the Highway 121 junction north of Independence and Elk Creek. Trempealeau County used federal secondary funds for the completion of the new bridge and approaches across the Trempealeau River on County Trunk Q near Independence. The contract cost was \$102,674.

1964 PROGRAM  
A substantial road improvement program is planned for 1964, which includes the improvement of the 1.3 miles south of Elk Creek at an estimated cost of \$110,500, and reconstruction of Highways 93-95 on Main Street in the City of Arcadia, an estimated \$150,000 project which will include Highway 93 east of Arcadia for five-tenths of a mile.

Right of way also is being acquired for the improvement of Highway 95 west of Arcadia in conjunction with the Buffalo County project. Highway 35 from Centerville

westerly is scheduled for resurfacing, with upgrading of surface width and shoulders. As

is the case in Buffalo County, the allotted funds for state trunk construction for Trempealeau County are not yet available, as they are committed to the retirement of highway construction bonds.

As in other counties, any accelerated program of financing would make it possible to place this section under construction in 1964.

As in other counties, any accelerated program of financing would make it possible to place this section under construction in 1964.

### Pepin County

THIS YEAR'S highway story on Pepin County comes from E. J. Byrkit, the new engineer of District 6, Eau Claire. He succeeded E. R. Holm, who retired in May and, apparently in good health, died suddenly Oct. 8.

Pepin County had under construction this year two federal aid secondary projects. One was on County N approximately a half-mile south of Elba and was 1.125 miles in length. The project included grading, subbase and base course. The contract cost was \$44,450.53. The county constructed a 2-span, 52-foot-long bridge on this project without federal aid.

The other Pepin County project was on County I and started at the junction of STI 183, Trunk Q near Independence. This project included grading, subbase and base course. The contract cost was \$15,893. Both of these projects were designed for a 28-foot finished roadway with a 22-foot bituminous pavement.

No federal aid state aid projects are planned on county roads next year.

Maintenance activities in Pepin County this year included sand seal coat on 1.3 miles of Highway 25 from the Dunn County line to U.S. 10. \$2,500; painting of three bridges on Highway 35 between Pepin and

# Urban Renewal Dominates City Discussions

## Backers Call It Downtown Development

By FRANK UHLIG  
Daily News Staff Writer

The year just past may well be known as one in which the city took a searching look at itself, then decided to do something about eliminating some signs of age.

It was also a year when voters took a look at their representation, then seated three new aldermen on the City Council, at the expense of incumbents.

Only 4th Ward Ald. James Stoltman survived the February shakeout. In the 2nd Ward, Steve Morgan replaced Lloyd Deilke; A. Del Schneider toppled Howard Baumann, veteran 3rd Ward alderman, and Jim Mohan, a former Council member, defeated Mrs. Mary Masysga in her bid for a second term as alderman-at-large.

A key turnover occurred in the highly sensitive post of CITY RECORDER, occasioned by the retirement of Roy Wildgrube after 40 years of City Hall service. Succeeding him in July was John Carter, who had served a two-year apprenticeship under the man Mayor R. K. Ellings called "a walking encyclopedia of the city." Wildgrube was honored in February at a testimonial banquet and presented with a new car and a check for \$1,000.

Throughout much of 1963 the dominant theme at council meetings — a new look for city buildings and streets — recurred frequently and in many variations. Many hours were devoted to discussing whether visible evidences of old age and obscurity should be removed, preserved in part, or left in their present state.

The debate spread to outlying portions of the city, as rezoning petitions for two areas near Lake Winona were discussed. The question of how far the city should go to encourage commercial development, at the possible expense of residential or park areas, enlivened meetings of the council, City Planning Commission and Board of Zoning Appeals.

Advocates of DOWNTOWN REBUILDING, proceeding as they might across a field of fragile eggs, launched a cautious excursion into semantics — the study of word meanings. The approved phrase, for government-assisted wrecking of old buildings to provide sites for new, became "downtown redevelopment."

Because of an unhappy and effective public reaction to a rebuilding proposal three years ago, the once-customary term for such projects is religiously — even prayerfully — avoided. Officials have been discomfited at times when, in dealing with Washington, they could not avoid using the official name of the federal Urban Renewal Administration. But, for the most part, "urban renewal," an emotion-laden phrase, has been banished from the lexicon of aspiring rebuilders.

Because fiery passions still arise at its mention, use of the term is shunned. Many a small boy has had his mouth cleansed with soapy water for less, in the opinion of image-conscious redevelopment supporters.

Hearings were held in mid-March on an application to rezone 26 acres of farm land between Gilmore Avenue and Highway 61 from R-1 (one family residential) to B-2 (central

**OFF STREET PARKING . . .** Brilliantly lit by 12 fluorescent lamps, the city's municipal parking lot, at 2nd and Center streets, now has space for 90 cars. The 32-stall section at right is the former site

of the V. Simpson building which formerly housed the A & P store and others. This portion was added to the lot and opened for business late in the fall. (Daily News photo)

business) classification. Seeking the change was Western Land Corp., Minneapolis, whose officials proposed to erect a SHOPPING MALL there.

Aldermen heard objections of neighboring residents to the change but voted the rezoning anyway. They attached conditions designed to spur action, but not speculation, by the developers. A firm set of detailed plans was to be submitted within six months and actual construction was to start within 12 months.

When September came and no plans or construction seemed to be forthcoming, the council granted extensions of the requirements requested by the applicants. One of the first solid indications of eventual development of the area was a subsequent announcement that a new Tempo store would be built there next year by the Gamble company.

The planned addition of 75,000 square feet of floor space at the WESTGATE SHOPPING CENTER was dramatically announced at a late February council meeting. Interpreted as a counter move to the development of the proposed new area, this project appeared to go into suspended animation, without further word being heard from its sponsors. Westgate is owned by a Huron, S.D., investment group.

Hottest of all was the debate over a proposed HOLIDAY INN motel site. The issue: Should the city sell 4.4 acres of Lake Winona shoreline, just west of Huff Street at its intersection with Highway 61? Neighboring residents, some school children and miscellaneous other opponents said no, loudly and strongly.

The Park-Recreation Board deciding the land was isolated and largely unusable for its purposes, endorsed the sale. The council, alternately buffeted in print by Letters to the Editor and spurred on by civic development groups and Mayor R. K. Ellings, appointed an appraisal team.

In December, aldermen voted to offer the land at the appraisal price of \$7,500, on a 150-day option. Sale conditions would require builders of the proposed \$750,000 unit to show substantial

proof of intentions to proceed as soon as possible with its construction.

If the motel firm accepts terms of the option, it will ask rezoning from R-1 to R-3 by the Zoning Appeals Board. A public hearing is required for the application. Should it be granted, the motel developers are expected to exercise their option and begin early next year on planning and construction phases. They estimate expenses of conditioning the site for building will approach \$50,000. Cash outlay for the entire project is estimated at more than \$500,000.

Equally momentous, but apparently uncontroversial, was the proposal to change zoning ordinances to accommodate three modern apartment units on the property of the OLD WINONA GENERAL HOSPITAL. The hospital, sections of which were 60 years old, had been vacant since August 1962. Cost of the new apartments would be an estimated \$450,000.

Early in October Jay Investment Corp., Minneapolis, bought the hospital property after directors decided against remodeling it into a nursing home and began wrecking operations. The purchasers asked an amendment of zoning ordinances establishing a one acre minimum size for the community development areas within R-2 zones. The previous minimum was five acres.

By qualifying the site, just over an acre in size, for community development, the council avoided the question of spot zoning to permit the development. The proper category for apartment buildings is R-3.

Aldermen unanimously voted to grant the amendment request at their last meeting of the year. Thus, although technical steps remained, the last practical obstacle to construction of the apartments has been overcome.

Public and governmental interest in DOWNTOWN REBUILDING was produced throughout the year by a mixed platoon of visiting economists, administrators, architects and federal officials. All of them delivered speeches. Interest reached a peak early in the fall when vocal opposition

to federally assisted rebuilding was expressed and a City Council member resigned from a key committee.

Three new aldermen had been seated following city elections in February. They were Jim Mohan, at large, Steve Morgan, 2nd Ward, and A. Del Schneider, 3rd Ward.

The appointment of Morgan, a 3rd Street jeweler, to head the committee for new projects and industrial development, put a dedicated advocate of downtown rebuilding to work on redevelopment.

In July, the council retained a city planner and instructed the city attorney to draw and submit a housing code, a necessity if federal funds were to be sought. Ald. Morgan's committee kept the ball rolling.

In August a 20-man advisory committee for redevelopment was named. An application to the federal Housing and Home Finance Administration for a Certificate of Workable Program was authorized by aldermen. Martin Beatty, attorney, challenged the propriety, if not the legality, of naming four non-residents of the city to the committee. Beatty later attacked the federal assistance concept as "going to Washington with a tin cup."

When aldermen voted in November to request a \$77,600 renewal planning grant, Beatty and Royal Thern, Chamber of Commerce president, were leading objectors. At the following meeting, Ald. Mrs. Muriel Olm took herself off the new projects committee. She believes in downtown rebuilding through private financing, she said, and could not conscientiously support the inclusion of federal aids and committee efforts to secure them.

The planning grant will finance studies of a 30-block downtown area between Huff and Franklin streets. It is expected that 18 months will have passed before all planning phases are completed. Then the council will decide whether to proceed with a full scale rebuilding program.

**GARBAGE COLLECTION AND DISPOSAL.** Problems resolved themselves rather well from the council's viewpoint. One of the best features was the money saved by hiring a private contractor, Modern Cleanup Service, La Crosse, to pick up garbage and place it in a sanitary landfill.

Last year, aldermen had budgeted \$75,000 for the 1963-64 fiscal year to cover costs of refuse collection, landfill operation and equipment. Had the city actually operated the service, the amount would have been insufficient, it was agreed.

In May, the council awarded a five-year contract for \$43,945 annually to Modern Cleanup Service, Inc., La Crosse, for weekly collection of wrapped garbage. The price included cost of operating a sanitary landfill disposal site, one mile east of the city, by Bruce Carpenter, a subcontractor. Part of the package was \$9,500 authorized by the council to allow licensed trash haulers of the city to use the landfill free of charge.

Combined collection both of garbage and trash was ruled out for the time being. Collections were to be once a week from cans at back doors or at

ley lines.

After a spate of complaints, lasting about two months, the new service settled down to uneventful and untroubled operation. The old city dump was closed down for good and now faces the possibility of eventual development as an industrial site.

A \$41,000 saving, a welcome sight to aldermen, was distributed to the city engineering and street departments as general construction funds. The engineer division got \$31,000 and streets got the rest, plus a one-mill levy previously designated for general construction, or a total of \$23,500.

Another saving of sorts was effected when aldermen decreed the semiannual collection of tin cans would end following last spring's pickup. Street department crews had been publicly financed for the periodic, publicly financed collection for many years.

Inching upward again this year was the city's OPERATING BUDGET and the accompanying TAX LEVY. The total anticipated outlay for 1964-65 was set at \$1,441,206, compared to the \$1,373,056 currently scheduled for costs of city operations. The mill rate for city government purposes advanced 5.18 mills, up from 101.18 to 106.36.

Although city employees generally will receive a 2 percent wage increase, beginning next fiscal year, this accounted for only about \$5,500 of the added expense. Fire and police department fund allocations went up \$37,700 and \$32,400. A new airport fund of one mill, or about \$13,500, was established. Given legislative authority for a higher ceiling on permissible mill rates for library purposes, the council raised the city library budget by \$8,474, to \$75,640.

**STREETS** and future thoroughfare plans continued to grow broader. Nine blocks of Broadway, between Sioux and Villa streets, were widened to 44 feet, bringing to an end the present schedule of improvements on this east-west artery. Total cost of the contract, plus a sealcoat on the 26 blocks of surfacing between Mankato Avenue and Sioux Street, was \$101,000.

Plans and specifications were ordered for Mankato Avenue widening, from 2nd Street to Sarnia Street, at an estimated cost of about \$120,000. The new width will be 64 feet, enough for four traffic lanes and parking space on both sides. Looking forward to 1965, the council ordered plans and specifications for West 5th Street, beginning at Junction Street. The estimated \$115,000 would be divided between city and county, since it is a county highway. The Winona share would be \$74,000; the Winona County share, \$40,300. Street congestion was further

## What Should Next School Project Be?

By C. GORDON HOLTE  
Daily News Staff Writer

The physical appearance of Winona's public and parochial elementary and secondary schools underwent little change in 1963, a year in which, however, the groundwork began on what could result in a far-reaching, long-range revamping and expansion of school facilities.

No major building projects were initiated during the past year, although finishing touches were put on the \$420,000 addition to Colter High School — which was in advanced construction stages last winter — and the building was occupied at the beginning of the fall term.

There was plenty of building talk heard around the Board of Education table during the past 12 months and for a time it looked like two large-scale improvement jobs might be undertaken this year.

For several months the board gave serious consideration to an expansion of Senior High School cafeteria facilities and the establishment of a centralized food preparation system there to serve all of the public schools.

After learning that a minimum cost of such a project probably would be near \$120,000, directors decided to hold off and do only such work needed in the cafeteria to accommodate swelling school enrollments.

There was also a good deal of discussion on several proposals for providing the Winona Area Vocational - Technical School — now housed for the most part in the Senior High building — with its own quarters.

Under terms of the overall plan, it is the city's responsibility to provide all necessary easements. Condemnation is available as a course of action but officials say this should be employed only as a last resort.

For all its accomplishments, the council nevertheless ended the year with some major questions hanging fire. A conference on RABIES CONTROL, sought repeatedly by public health groups, still has not been held, despite promises of an early hearing by aldermen.

Also bypassed with a fleeting glance was Ald. Daniel Bambenek's proposal to set up a sinking fund for SEWAGE PLANT IMPROVEMENT. With adoption by the 1963 Legislature of far-reaching pollution control measures, the city can be forced to initiate extensive improvements in its treatment system at the discretion of the state Department of Health. Bambenek's position was that the city may have to consider addition of secondary treatment facilities to its disposal system.

Establishment of a regular DEPRECIATION SCHEDULE for city equipment, in connection with city budgeting, was suggested by Mayor R. K. Ellings. The mayor said this would furnish an accurate indication of how much money should be allocated each year for replacement purchases and would take peaks and valleys out of the purchasing picture. No move was made at budget time to institute such procedures.

Relatively unproductive discussion was held on the problem of HUFF STREET improvements. A proposal to fill the present dike roadway level with sidewalks, then resurface the whole width, aroused some interest. Remaining absent, however, was the vital ingredient of positive action.

Three events highlighted the park-recreation department's year, two of which occurred almost simultaneously. Hardly under way with its new TREE PROGRAM, the department and crews were shaken up by the worst windstorm in half a century June 8. The four-man tree crew barely on speaking terms with its shiny new equipment, worked long hours to clear streets, boulevards, alleys and communication lines of fallen trees and branches. A new branch chip-

ping machine, which almost came to a vote, was that the vacated county garage on West 3rd Street be purchased and converted to school use. Again, financial considerations — and a question as to the adaptability of the old structure to school purposes — were a factor in the board's decision to abandon the plan.

Probably the year's most significant development as far as the public schools are concerned was the decision by the school board in late fall to retain a University of Minnesota survey team to make an inventory of existing public school facilities, evaluate population trends and other factors and come up with a blueprint for future school improvements and expansion.

EXPECTED TO be completed in early spring, the survey will be similar to one made by the University Bureau of Field Studies about 15 years ago, one which served as a guide for a number of major projects undertaken by the board in the past decade.

Findings of the study could have a considerable effect on future board thinking on such issues as a separate building for the vocational - technical school and establishment of the central food service.

Caught in a squeeze this year at certain grade levels where expanding enrollments are taxing existing school plant facilities, the administration also is interested in a report on the community population growth pattern as a determinant in any possible future new school construction or — more immediately — site selection.

The survey team also is being asked to weigh the probable impact on the Winona public school system of any action that might be taken at future sessions of the state Legislature on rural school consolidation issues.

Among the larger contracts awarded for work done in the public schools during the year was one for \$9,291 for the improvement of science rooms at Jefferson and Washington-Kosciusko schools.

Installation of the equipment was being completed at year's end. Completed during the past year was an addition constructed in the court between the two wings of the Senior High School building to house new toilet facilities. Basic contract cost was \$38,000 and there were additional expenditures for associated work.

An open area also was enclosed to provide storage facilities. Most of the other projects during the year could be classed as regular maintenance jobs or phases of continuing, long-range improvement programs.

ALTHOUGH NO new building was involved, the vocational-technical school this year became a participant in the federal Manpower Development & Training Act program.

Working in conjunction with the state Employment Service, the school offered classes in welding and stenography to prepare persons in this area for new jobs. The entire program is federally financed with the Employment Service determining the need for training and supervising the enrollment of students and the school providing classroom and workshop facilities and instruction.

The statute of Wenonah finally came to rest on a permanent location at the end of Main Street in Lake Park. Park-recreation commissioners hope for a large base were dashed by the City Council, which balked at the \$7,000 price tag. Aldermen instructed the city engineer to design the base. Park board commissioners, retaining the privilege of location, decided the metal statue should face toward the park entrance instead of south or west.

Problems faced by the BOARD OF MUNICIPAL WORKS were compounded by the June 8 windstorm and not resolved until near the end of the year. Most of their troubles were centered on the Johnson Street water tower, which stood empty for over a year because of amateurish incompetent work on a refinishing job. The contract was let in 1962 but outside repainting of the tank still is not finished.

The winds pushed the structure out of alignment, something commissioners said would not have happened had the 500,000-gallon tank been full of water. When, after a prolonged hassle with defaulting contractors and a bonding firm, the tank finally went into use, the tower was inched back into plumb. Inside coating was finally achieved satisfactorily last fall and water pumped into the big tank early in December. Outside painting, still incomplete, will be contracted next summer.

A major commitment for Westfield Golf Course was made by the WINONA ATHLETIC BOARD this year. Commissioners voted to devote about \$20,000 toward expenses of filling and leveling new fairway areas and installation of irrigation systems there. Course yardage is being lengthened by extension of fairways around Sweazy Lake.

**CLUBHOUSE UNDER WAY . . .**

By late fall construction was under way on the new clubhouse at Westfield Golf Club. The building, estimated to cost \$75,000, is expected to

be completed by early summer. It is a 136 1/2 by 64 1/2-foot concrete block building at 1460 W. 5th St. (Daily News photo)

**NEW MOTEL . . .** Planned to be open on or before April 1 is a new 20-unit motel owned by Nick Deones, 1060 Highway 43. A permit for the motel was obtained by Deones early in the year, but construction did not get under way until fall. The structure is 267 1/2 by 20 feet and is located east of Sugar Loaf. All units will be air conditioned. Estimated cost is \$150,000. (Daily News photo)

# Public Building High in \$5.4 Million Year

## Outlook Good For 1964; Jobs Listed

Public building boomed in Winona in 1963, running the grand total for the year to \$5,440,388, more than double that of 1962.

By contrast commercial building was the leader a year ago.

Winona's building is analyzed in three categories: Public building involves nontaxable structures; commercial and residential.

The breakdown for this year: Public, \$4,183,777; residential, \$789,926, and commercial, \$466,685. Last year it went this way: Public, \$769,490; residential, \$425,363, and commercial, \$1,419,992 for a total of \$2,614,835.

EXPANSION ON the three college campuses was the principal factor in the great increase in 1963 in public building, which accounted for nearly four-fifths of the 1963 dollar volume, but it was a good residential year too. Permits for 52 homes, valued at \$667,500, were issued.

Commercial Winona building dropped off sharply. This year's total was almost \$1 million lower than the 1962 total.

The 1963 dollar volume, although more than double that of 1962, still is small when compared with 1960. That was the year of an all-time record: \$9,897,684.

## The Outlook

THE NEW YEAR may be a better building year. Prospects indicate more building at the colleges, more commercial construction and a continuing residential increase. Some of the major definite and probable projects:

- First National Bank will build on the site of the old post office building at a cost of \$500,000 to \$750,000. The old post office building was purchased for \$151,500 and actual building costs will be in excess of \$500,000.

- A new shopping center west of Lake Winona in the area between Highway 14-61 and Gilmore Avenue. It probably will be called Miracle Mall.

- Gambles, Inc., is planning a discount store, Tempo, here. It may have an area of 40,000 square feet. Grand opening tentatively has been set for Aug. 15.

- A new Holiday Inn motel. Estimates for the motel's cost are \$500,000 and \$750,000.

- Inn Operations, Inc., Topeka, Kan., operates the Holiday Inn chain and wants to construct on a five-acre tract south of Lake Winona and between the lake and Highway 14-61.

- Three 11-apartment units and off-street parking space may replace the old Winona General Hospital and nurses' home on West Wabasha Street.

- Jay Investment Corp., Minneapolis, plans the 2 1/2-story red brick apartment houses. Estimated project cost is \$450,000.

- A 100-bed convalescent and long-term care unit addition to Community Memorial Hospital.

- The project has been approved by the hospital's board of directors. The new unit will join the hospital at the end of the present west wing.

- It will be a two-story addition with 35,000 square feet of floor space. Estimated construction costs have been set at \$200,000. Also included would be \$100,000 in auxiliary expenses.

- Expansion of Randall's Super Valu Store at Westgate Shopping Center. Announced in 1962, it may become a reality in 1964. Owners of the shopping center are in Huron, S. D.

- Additional major building at the three colleges, the details of which are reported in another story in this section.

**WARNER & SWASEY PLANT . . .** The 1963 pacesetter for industrial Winona building, the Badger Division plant of Warner & Swasey Co., was completed early this year. The \$840,000 plant and

office building are on an industrial park site opposite Max Conrad Field. Over-all area of the building is 415 by 129 1/2 feet. Building costs alone were estimated at \$520,000. (Daily News photo)

**WINONA PLUMBING . . .** Winona Plumbing Co. moved into its new location midyear. The move was from its old location at 306 Mankato Ave. into a new 50-by-150-foot concrete block building at 1126

E. Broadway. Mark Modjeski, owner, acted as his own contractor and estimated the building cost at \$20,000. (Daily News photo)

**GOODALL PLANT ADDITION . . .** One of Winona's newest industries, Goodall Manufacturing Co., 1205 E. Sanborn St., constructed a \$48,000 60-by-250-foot addition to its plant during 1963. The permit for the addition was obtained during the

second week of the year. The addition, at the east or right side of the building, is used for storage. It enabled the plant to permit conversion of present storage areas into production space. Ralph Scharmer was project contractor. (Daily News photo)

**POST OFFICE COMPLETED . . .** Construction of the new U. S. Post Office in Winona was completed early this year and now is in use. The permit for the \$180,000 brick building, which faces West 5th Street and is between Center and Main streets, was

obtained during 1961. The 176-by-140-foot structure was erected by U. S. Investment Co., Milwaukee, for lease on a long-term basis to the Post Office Department. (Daily News photo)

000, and the \$70,000 attached onto the park-recreation main-office building are in the far tenance shop, 674 Franklin St. west end near Max Conrad It's a 45-by-48-foot section.

- Work started on a new \$75,000 concrete block clubhouse for Westfield Golf Club. It measures 136 1/2 by 64 1/2 feet and is at 1460 W. 5th St.

- Built during the year was a Gold Bond Stamp Redemption Center south of Randall's Super Valu in Westgate Shopping Center. Cost of the 20-by-125-foot addition was \$8,000.

- Central Methodist Church, Broadway and Main Street, began to take its new shape during the past year. The former church was destroyed by a fire.

- The new section has dimensions of 165 by 60 by 48 feet. Estimated cost is \$675,000. Methodists expect to be using the edifice late in 1964.

- Nick Deones, 1060 Highway 42, is building a 20-unit motel. It measures 267 1/2 by 20 feet. Estimated cost is \$150,000.

- Three new service stations were completed during the year. They were: Western Oil Co., 2nd and Main streets; Clark Super 100, West 5th and Johnson streets, and Shell Oil, East Sarnia Street and Mankato Avenue.

- A \$12,940 addition was built

**BOLLER-BUILT HOUSE . . .** One of 1963's first house building permits issued in Goodview went to Earl Boller Jr. for this house. Now owned by Richard Grathen, the house is a 26-

by 48-foot structure with garage and stands at 840 48th Ave. Estimated cost on the building permit was \$13,000. (Daily News photo)

## 13 NEW HOUSES

# Goodview Enjoys Brisk Construction

Although the 1963 dollar volume of building in Goodview was slightly more than half of that in 1962 it was, in some ways, a better building year.

This year's volume reached \$172,935. It was overshadowed by 1962's \$337,020 total, but that total included two large projects. There were no major projects this year.

IN 1962, permits for construction of the Winona County highway department garage and the Nelson Tire Co. building were issued. Estimated cost of the garage was \$144,000 and of the tire company building was \$50,000.

While last year only eight new house permits were issued, the 1963 permits included those for construction of 13 new houses.

An analysis of this year's permits shows that they were mostly for residential construction. Commercial and industrial construction played only a small part.

Records on the building permits were kept by Henry C. Ehmeke, village clerk. Dr. E. G. Callahan was the clerk in 1962, a year which saw one of the busier building booms in the history of the village.

Two permits, each for \$4,000, were obtained by Willard Matzke, owner of Matzke Concrete Block Co., 5568 6th St. They were for expansion of the company's plant.

ONE OF THE permits was for construction of a 38-by-60-foot addition, the other for construction of a 25-by-96-foot addition.

Commercial and industrial construction included several permits for minor, low-cost additions to buildings and plants in Goodview.

Herbert Kleyla, Service Drive, obtained a permit for construction of a 30-by-24-foot frame addition to the Shangri-La Motel. It was a \$2,000 project.

Several permits for construction of additions to Goodview houses and for construction of garages and additions to garages also were among those issued.

Earl Boller Jr., 1135 44th Ave., was again this year, the major house builder in the village. He obtained permits for construction of five new houses. Boller built four houses in 1962 and six in 1961.

THE HOUSES were: 28-by-46-foot with garage, 850 48th Ave.,

\$12,000; 26-by-48-foot with garage, 810 48th Ave., \$13,000; 40-by-28-foot houses with garages at 4865 9th St., 470 48th Ave., and 860 48th Ave., \$12,000 for the first and \$11,000 for the others.

Other houses built or being built in Goodview: Mrs. Ted Worner, 865 40th Ave., 34-by-26-foot with separate garage, built on existing foundation, \$8,000; Richard Pettit, 3840 6th St., 36-by-30-foot with garage, \$13,000; Floyd Farnholtz, 865 37th Ave., 32-by-56-foot with separate garage, \$12,000; Arne Odegaard, 845 43rd Ave., 48-by-28-foot stucco frame house with separate garage at 4300 7th St., \$10,000;

S. N. KOHNER, 4169 6th St., 56-by-30-foot with attached garage, Ralph Scharmer, contractor, \$15,000; Gordon Matthees, 755 30th Ave., 70-by-26-foot with attached garage at 3960 Service Dr., Ralph Scharmer, contractor, \$11,000;

Donald Kohner, 4450 8th St., 42-by-32-foot, no garage, at 9th Street and 37th Avenue, Rollingstone Lumber, contractor, \$12,500, and Vernon Keith, 4079 9th St., 32-by-42-foot on existing basement house, no garage, Rollingstone Lumber, contractor, \$10,150.

**STUCCO FRAME HOME . . .** Arne Odegaard was contractor for this 48-

by 28-foot stucco frame house at 4300 7th St., Goodview. (Daily News photo)

**UNDER CONSTRUCTION . . .** Construction of the Daniel F. Przybylski house at 636 Lake St., was under way at year's end. The new house, partially completed, will have dimensions of 39 by 107 feet and will face Lake Winona.

Features of the house will include three fireplaces. Bruce McNally is contractor. It has an estimated price tag of \$30,000 and includes an attached garage at the far left. (Daily News photo)

## Total Second Highest

The 1963 building total was the second highest total recorded in the city during the past 41 years. Records, kept since 1922, show the total in 1960 to be the highest.

Here is a recap of building permit totals for the past 41 years in Winona:

1922	\$ 341,120	1938	652,313
1923	534,495	1939	314,063
1924	1,253,686	1940	385,447
1925	833,555	1941	371,156
1926	236,261	1942	105,526
1927	662,045	1943	63,092
1928	541,605	1944	109,180
1929	333,240	1945	332,000
1930	479,476	1946	857,983
1931	106,170	1947	749,903
1932	264,383	1948	743,908
1933	474,475	1949	1,404,993
1934	719,134	1950	2,343,351
1935	170,457	1951	697,807
1936	208,510	1952	1,539,345
1937	580,220	1953	3,409,731
		1954	1,784,950
		1955	1,883,710
		1956	2,824,783
		1957	1,669,614
		1958	1,793,306
		1959	3,390,427
		1960	9,397,684
		1961	3,463,764
		1962	2,614,835
		1963	5,440,388

1963 dollar volume	\$5,440,388
Residential	789,926
Commercial	466,685
Public (nontaxable)	4,183,777
New houses	52
Their value	667,500
1962 dollar volume	\$2,614,835

## 1963 Highlights

WINONA'S 1963 building picture included a sizable increase in the construction of new houses. Permits for 52 new houses were issued by year's end, compared with 24 in 1962.

The major area for new house construction continues to be the west end and southwest end of the city. New house construction is expected to continue to increase in 1964.

Construction projects from 1962 and 1961 were completed during the past year as were those issued early in 1963:

- Warner & Swasey Co. moved into its new Badger Division plant and office building early in the year. The structure, built at an estimated cost of \$840,000,

Mrs. Cecilia Orlikowski  
1010 E. Broadway, 28 by 40 Feet  
Leo Prochowitz, Contractor

L. J. Casper, Contractor  
527 Westdale Ave.  
36 by 54 Feet

D. A. Eitsert Home  
754 West Burns Valley  
24 by 58 Feet

**LAKE BOULEVARD . . .** The latest addition to homes on Lake Boulevard was this 46- by 54-foot structure owned by James Frankard. The permit for the house was the sixth issued during 1963. Mrs. Frankard stands in front of the east door to the house, which is at 177 E. Lake Blvd. Bruce McNally was contractor. Estimated cost was \$20,000. (Daily News photo)

**IN WINONA**

# New Home Total Doubles '62 Pace

Home construction in Winona during 1963 more than doubled that of 1962. It was an above average year with 52 house permits issued, compared with 24 in 1962. The 1962 total was below the annual average of about 35 for the past 38 years. Valuation of those 52 permits was \$667,500, compared with last year's \$287,500. Average valuation was \$12,875. Residential construction reached its most recent high year here in 1955 when 88 new houses were built or being built. Seventy-six permits were issued in 1960 and 47 in 1961. **HILKE HOMES, Inc.**, 1678 W. Broadway, was the biggest house builder, quantity-wise, in the city this year. They obtained permits for construction of 11 houses. In second place was a new firm which has its main offices in Rochester. Sather Winona Homes, 120 Center St., acquired eight permits. The 1963 new house permits in the order in which they were issued and the estimated building costs follow:

**LARSON BROTHERS**, 553 W. Mark St., 26 by 36 feet on old foundation at 102 Lenox St., gas-fired forced air heating, and remodeling garage, \$5,000. L. E. Torgerson, 110 Fairfax St., 24 by 27 feet on basement house at that address, electric heating, Bruce McNally is contractor, \$8,000. Hilke Homes, 55 by 36 feet with attached garage at 307 Elm St., gas-fired hot water heating, \$15,000. Hilke Homes, 38 by 33 feet with attached garage at 1670 W. Broadway, gas-fired hot water heating, \$15,000. Mr. and Mrs. Ray Greenwood, Blair, Wis., 28 by 48 feet with 20 by 22 garage at 1008 W. Wabasha St., gas-fired forced air heating, contractor is Leo Prochowicz, \$10,000. James Frankard, Goodview, 46 by 54 feet at 177 E. Lake Blvd., oil-fired forced air heating, Bruce McNally, contractor, \$20,000. **HAROLD WOODEN**, 700 1/2 E. 5th St., 32 by 32 feet at 929 E. 5th St., gas-fired forced air heating, \$10,000. William Lukitsch, 424 W. King St., 26- by 38-foot two-story house at 310 Lake St., gas-fired forced air heating, Bruce McNally, contractor, \$16,000. Hilke Homes, 38 1/2 by 33 1/2 feet at 315 Elm St., gas-fired hot water boiler heating, \$15,000. Raymond Kulawicz, 574 W. 4th St., 29 by 60 feet with attached garage at 467 Junction St., gas-fired hot water heating, Hilke Homes contractor, \$18,500 Mankato Ave., oil-fired forced air furnace heating, \$5,000. Harold Kreuzer, 550 Mankato Ave., 27 1/2 by 40 feet at 000. Herbert R. C. Nichols, 33 Fair-

fax St., 26 by 54 feet at 20 Lenox St., oil-fired forced air heating, \$10,000. M. G. Schott, 217 W. Broadway, 28 by 50 feet at 324 Lake St., gas-fired forced air heating, Ralph Scharmer is contractor, \$10,000. L. J. Casper, 751 Clark's Lane, 36 by 54 feet at 527 Westdale Ave., gas-fired forced air heating, \$10,000. **HILKE HOMES**, 56- by 32-foot two-story house attached garage at 320 Elm St., gas-fired forced air heating, James Carroll is owner, \$18,000. Hilke Homes, 55 by 36 feet with attached garage at 331 Elm St., gas-fired hot water boiler heating, \$12,000. Hilke Homes, 48 by 29 feet at 339 Oak St., gas-fired hot water boiler heating, \$12,000. Norman Lueck, 468 Westdale Ave., 28 by 50 feet with attached garage at 460 Westdale Ave., oil-fired forced air furnace heating, \$13,500. J. J. Jeresek, 1304 W. Broadway, 92 1/2 by 55 feet with attached garage at 1320 W. Broadway, gas-fired forced air furnace heating, Ralph Scharmer, contractor, \$25,000. L. J. Casper, 56 1/2 by 28 feet with attached garage at 535 Westdale Ave., gas-fired forced air furnace heating, \$13,000. Willard Hoeft, 906 Gilmore Ave., 68 by 30 feet with attached garage at 545 Glen View Dr., oil-fired forced air heating, Bruce McNally, contractor, \$12,000. **CYRUS KOHNER**, 526 Chestnut St., 32 by 30 feet on old foundation at that address, gas-fired forced air heating, \$7,000. Hilke Homes, 44 by 30 feet with attached garage at 339 Elm St., gas-fired hot water boiler heating, \$15,000. Larson Brothers, 38 by 26 feet with attached garage at 12 Otis St., gas-fired forced air furnace heating, \$8,000. Larson & Gernes, 1670 Monroe St., 44 by 24 feet at 23 Lenox St., gas-fired hot water heating, \$7,000. Larson & Gernes, 44 by 24 feet at 27 Lenox St., gas-fired hot water heating, \$7,000. Daniel F. Przybylski, 370 E. 5th St., 39 by 107 feet with attached garage at 636 Lake St., \$30,000. Harold Schultz, 905 W. Howard St., 61 by 36 feet with attached garage at 465 Glen View Ct., electric heating, Fowler & Hammer, Inc., contractor, \$12,000. **JOHN ENGLER**, 65 Lenox St., 48 by 30 feet with attached garage at 1614 W. King St., gas-fired forced air furnace heating, \$5,500. Gerald Hermann, 717 E. 3rd St., 28 by 46 feet at 1281 Lakeview Ave., no heating choice, E. P. Whitten, contractor, \$12,000. Hilke Homes, 62 by 28 feet with attached garage at 334 Oak St., gas-fired hot water boiler heating, \$12,000.

Hilke Homes, 64 by 32 feet with attached garage at 1666 W. Broadway, gas-fired hot water boiler heating, \$12,000. Hilke Homes, 62 by 36 feet with attached garage at 1662 W. Broadway, gas-fired forced air heating, \$12,000. L. J. CASPER, 36 1/2 by 50 1/2 feet with attached garage at 453 Westdale Ave., gas-fired forced air furnace heating, \$12,000. M. L. Boerst, 1022 Gilmore Ave., 28 by 61 feet with attached garage at that address, gas-fired hot water boiler heating, \$16,500. John Howes, 115 E. Broadway, 30 by 58 feet with attached garage at 506 Collegeview, gas-fired hot water heating, Bruce McNally, contractor, \$15,000. Leo Prochowicz, 1007 E. Broadway, 24 by 44 feet with 16- by 22-foot garage at 1002 E. Broadway, gas-fired forced air furnace heating, \$10,000. L. J. Casper, 29 by 63 1/2 feet with attached garage at 526 Westdale Ave., gas-fired forced air furnace heating, \$12,000. Larson Brothers, 38 by 26 feet with attached garage at 22 Otis St., gas-fired forced air furnace heating, \$10,000. Orville Fossum, 270 W. Howard St., 57 1/2 by 28 feet with attached garage at 1353 Lorrai Dr., oil-fired hot water boiler heating, \$10,000. John Januschka, 729 E. Mark St., 24 by 44 feet at 1517 W. Howard St., gas-fired hot water boiler heating, \$14,000. **SATHER WINONA Homes**, 120 Center St.: 26- by 40-foot two-story house with attached garage at 1621 Edgewood Rd., \$14,000. 23 1/2- by 48-foot two-story house with attached garage at 1629 Edgewood Rd., \$15,000. 26- by 40-foot two-story house with attached garage at 1612 Edgewood Rd., \$14,000. 23 1/2- by 48-foot house with attached garage at 1620 Edgewood Rd., \$15,500. 27 1/2- by 45 feet with garage in basement at 811 Clark's Lane, \$15,000. 24 1/2 by 44 feet with garage in basement at 785 Clark's Lane, \$13,000. 27 1/2 by 45 feet with garage in basement at 803 Clark's Lane, \$15,000. 23 1/2- by 48-foot two-story house with attached garage at 1635 Edgewood Rd., \$15,500. **NORMAN GIRTLE**, 672 E. Sornin St., 31 by 54 feet with attached garage at 606 E. Sornin St., oil-fired forced air furnace heating, Bruce McNally, contractor, \$12,000. Bruce McNally, 34 by 64 feet with attached garage at 1752 W. Mark St., gas-fired forced air furnace heating, \$15,000. Wilmer Larson, 1670 Monroe St., 48- by 34 1/2-foot split level house with attached garage at 1618 W. King St., gas-fired hot water boiler heating, \$11,000.

including a two-car garage at the left. Heating is by gas-fired forced air furnace. Ralph Scharmer was contractor for the house, which had an estimated cost of \$25,000. (Daily News photo)

## St. Mary's

1963 WAS an unusual year for St. Mary's College in that no new buildings were completed. The expansion of the physical plant at Terrace Heights went through a temporary lull after the completion in the fall of 1962 of Father Damien Hall for seminarians of the Fathers of the Sacred Hearts of Jesus and Mary. In December, however, construction started on a new \$719,491 gymnasium. The new building will eventually be part of a projected \$14 million student activities center. The gymnasium will include three basketball courts, which

College construction played a major role in Winona's economy during 1963, and promises to continue to do so in 1964. Labor and business officials credited the expansion programs at Winona State College, St. Mary's College and the College of Saint Teresa with contributing to the city's record employment rate during much of the past year.

## Winona State

NINE PROJECTS, which will cost a total of \$4,708,071, have been authorized at Winona State College, according to Dr. Neils Minne, college president. Four projects are under construction now, and one has been completed as far as available funds will permit.

Completion of the new arts and industrial arts building, to be known as Paul Watkins Hall, is expected early in 1964. The \$577,000 building is being constructed at King and Winona streets, in the same block as the recently completed Pasteur Hall. The building may be put into partial use by the beginning of the 1964 summer sessions, but full use is not expected until fall because of the great amount of equipment that has to be moved from Somsen Hall.

Another new building that should be ready for use by the fall of 1964 is Gildemeister Hall, the education building now being erected at King and Johnson streets, behind Somsen Hall. The main part of this \$619,000 structure will be a three-story classroom and office building. A one-story wing will house offices of the teacher education director, placement director and psychological services branch.

The Prentiss wing of the proposed Prentiss-Lucas dormitory complex should be ready to house 200 students late in 1964. The contract for the \$706,778 structure was let in the summer of 1963. Eventually, another 200-bed wing will be built, and the two wings connected by a new food service facility—to be known as S. J. Kryzsko Commons—now in the planning stages. The whole complex will be situated south of Morey Hall.

Recently, the state college board approved a plan to incorporate into the food service building a college union, which would be financed by student union fee collections. A committee of faculty and students currently is working on plans for the building with the consulting architectural firm of Hammel and Green, St. Paul. A meeting to approve final plans will be held early in January, Dr. Minne said. Construction is expected to start in the spring. Total cost of the combined food service-student union is expected to be around \$1 million.

Work currently is proceeding on a new service building, which will be situated near the college's heating plant on Mark Street. It will provide space for shops and repair services. It will cost \$80,000.

RELATED TO the new building installations is the extension of the heating and utilities tunnel, which now has been completed as far as available funds will permit. It terminates on Winona Street halfway between King and Howard streets. Cost of the tunnel extension was \$92,793.

A sixth project authorized by the 1963 Legislature is an addition to Maxwell Library. The Legislature appropriated \$750,000 for this purpose. The addition will extend eastward from the present library to the corner of Sanborn and Johnson streets. Preliminary planning, with the cooperation of the consulting architect, already has begun.

Proceedings have been started in District Court here for acquisition of land at Sanborn and Johnson streets for the library addition. Also planned is the acquisition of the half block between Huff and Winona streets fronting on Howard Street, and an additional half block between Winona and Washington streets fronting on Howard Street.

## St. Mary's

can be separated from each other by means of folding doors. They will be able to be converted into tennis and volleyball courts. The lower level will have space for the college's intramural program, as well as handball courts and locker and shower facilities. Flad-Smith & Associates, Winona, are the architects. P. Earl Schwab has the \$469,000 general construction contract. Other contractors and the amounts of their contracts are: Electrical, Scharmer Electric, Austin, \$58,400; plumbing, American Plumbing Co., Winona, \$119,218; and elevator, Gust Lagerquist & Sons, Minneapolis, \$9,737. The overall cost also includes an estimated \$16,000 for folding bleachers.

## Saint Teresa

SCHEDULED for completion by the summer of 1964 is the juniorate for student sisters completing their professional training at the College of Saint Teresa. To be known as Assisi Hall, the \$981,000 building will consist of two three-story wings

**ARTS AND INDUSTRIAL ARTS . . .** Nearing completion is the new industrial art and art building at Winona State College. The structure is at the corner of King and Winona streets, in the same block as the recently completed science building, Pasteur Hall. (Daily News photo)

**ST. MARY'S GYMNASIUM . . .** Bulldozers have begun to prepare the site for the new gymnasium at St. Mary's College. The structure is being built between the present Benilde and St. Edward's halls. (Daily News photo)

**EDUCATION BUILDING . . .** Winona State College's new education building takes shape on the half block between Winona and Washington streets fronting on King Street. It will be put into use in 1964. (Daily News photo)

**TERESAN MASTER PLAN . . .** This scale model of the College of Saint Teresa campus of the future shows where new buildings will be located. West Broadway runs along the top of the plan, and the left side is west. Existing buildings are shown in gray, and those projected for the future are shown in white, with an identifying number on their tops. Proposed for the future are: A library (1), administration and alumnae center (2), fine arts building (3), auditorium (4), faculty-student center (5), service center (6 and 7) and residence hall (8). No construction timetable has yet been set.

together housing 125 student sisters, an unusual circular chapel and an independent heating plant, laundry unit and dining hall. Construction began during the summer of 1963. Future plans for the college include construction of a library, an administration and alumnae center, a fine arts building, an auditorium, a faculty-student center, a service center and a residence hall. The most pressing need is for the library, Sister M. Camille, president of the college, said.

Plans for a new library now are being prepared, she said, but no estimate of cost has yet been made. It is hoped that construction can start sometime during 1964, Sister Camille said, but the actual beginning of the project will depend on the availability of funds. Federal funds, available under the recently passed aid-to-education act, will be sought for the facility, she said.

**BIG HOUSE . . .** The West Broadway area was the site for the new J. J. Jeresek home. One of the largest houses built in Winona during 1963, it stands at 1320 W. Broadway. Its dimensions are 92 1/2 by 55 feet and it

# It Was Best Year Ever for Jobs in Winona

### Average for 12 Months Hits 10,380

By RAY H. BROWN  
Manager, Winona Office  
State Employment Service  
"Jobs in abundance."

That was the picture of Winona's employment throughout most of 1963. Job totals pushed to the highest peak ever attained. Claim filings dropped to near all-time lows and the number of persons seeking work was at rock bottom during the late summer and fall months.

Total employment pushed to the highest point of the past 16 years, topping all recorded levels as far back as 1947. Most industries throughout the area saw 1963 as a year of top payroll levels.

THE NUMBER OF persons at work in the city averaged 10,380 throughout the entire 12 months ending Nov. 30 — the best yearly average ever attained. Only in one month did totals fall below the 10,000 mark. The mid-winter decline which normally gets under way after the holiday season, dropped employment to 9,943 at mid-March — the year's low point.

April saw the start of an upward movement which continued through the summer and fall months, pushing totals to the all time record of 10,872 persons at work in late October. This total was equivalent to a little more than 43 percent of the city population — more than one job to every 2 1/4 people in the community.

Employment activity was strong throughout the year. Payrolls moved up at a steady pace after the winter lull. The months of April, May and June set all-time highs for their respective months.

The year's first strong pickup hit in May. Construction started moving ahead after limping through the winter and spring months. The manufacturing plants of the city swung into their heaviest hiring since the previous fall, and outdoor activities, which had been shut down because of cold weather, spurted to full scale operations.

ADDED STEP-UPS in the manufacturing field and climbing worker rolls in construction pushed Winona's employment levels to an all-time mid-year peak in June. July saw a slight settling back as school vacation closings forced personnel dropoffs for the summer. August bounced back, resuming the climb which continued through late fall.

It was in late October that employment hit the all-time record high. Top levels in manufacturing, near peak operations in construction, the re-

opening of schools, with stepped-up hiring in the service and trade groups shoved Winona's work force to a record 10,872 at work. This high mark was about 200 higher than 1962's top level and reflected a climb of some 900 workers from the early year low point.

Major industrial activities in the city are in three main categories — manufacturing, wholesale and retail trade, and the service establishments. Three-fourths of all jobs in the city fall within these three. Manufacturing, as in the past, was number one with 42 percent of the work force. Trade rated second with 18 percent and service was number three with 15 percent of the total.

Kinds of Industry	Percent
Manufacturing	42
Trade	18
Service	25
Government	8
Utilities	4
Railroads	3
Construction and other activities	10
*Includes Public Schools and State College.	

MANUFACTURING The manufacturing industries of the city carried peak level crews during most of the year. Nine of the 12 months hit all-time record highs for their respective months. This group of industries, which traditionally has been the leader in Winona's employment picture, paced the trends of work all year long. The entire employment pattern throughout the year followed very closely the movement of the manufacturing plants. At peak, 42 percent of the work force — some 4,370 persons — were on jobs in this field.

Following the lowered levels of January, February and March, when factory crews were down because of late 1962 layoffs, factory employment started upward in April. Recall of workers in wood products and peak season production in commercial fertilizers boosted the factory group to an all-time April high.

May and June saw continuing climbs as many of the local plants moved into their heavy hiring season. Production steps in the textile field, additional worker callbacks in wood products and crew build-ups in metal working pushed factory payrolls to all-time records for the months of May and June.

The next big jump hit in September. Recall of workers in chain manufacturing, additions to production crews in automotive parts and top level oper-

ation in candy making shoved factory totals to a September all-time high mark.

The advance continued into October and moved to the top point of the year when total factory employment reached 4,573 — a figure surpassed only once in the past 16 years. It was a story of "as manufacturing goes, so goes the Winona job market."

CONSTRUCTION Construction, always a highly seasonal activity, followed its normal pattern. Low in the winter, it pushed up slowly in spring and early summer and hit the high point in late fall.

Although the number of men at work fell short of the good levels of 1957 and 1958 when highway construction in the area was booming, 1963 payrolls climbed well above those of last year. The move-up was slow at first but picked up in the season. The first real climb came in June. Highway work which had been slow for several years perked up. Contract lettings on four-lane Trunk Highway #1 allowed contractors to get well under way. Crews built up rapidly during July and August to full scale operations.

Worker additions on building projects edged totals up slowly but gradually during the summer. The high point hit in late October and carried through November. The unusually mild weather of the fall months and absence of snow permitted uninterrupted work well into December.

Contractors maintained full crews on most building projects of the area to near the year's end. The first real drop-off was at mid-December, when cold weather wound up work on new highway construction in the area.

PLACEMENTS 1963 was a banner year in job placements. Job filling activity of the local office spelled out the good economic picture of the city. Placement work by the service paralleled very closely the good employment trends of Winona during the year.

A total of 4,039 persons were placed in job openings with the business firms of the area, an average of 336 a month. The total included both town and farm work. The number of job requests filled was by far the biggest annually since the early days of World War II.

More people were put to work during 1963 than any single year since 1943, when job placements totaled 4,046 — only 7 higher. Following is a comparative table of jobs filled by the

Year	Jobs Filled
1963	4,039
1962	3,847
1961	3,259
1960	2,994
1959	2,908

The need for people to fill demands by local business firms was strong throughout much of 1963.

HIRING WAS slow during the first quarter. Winter slowdowns in the construction field, slackened operations in other outdoor activities and seasonal production dropoffs in some manufacturing firms kept worker needs at a low point through March. April moved up sharply to net the first substantial employment climb of the year.

Manufacturing moved up when plants in the textiles, chemicals, concrete products and wood products started their early year crew buildups. Worker needs climbed with the approach of summer. Manufacturing, which had remained at a comparatively good level even during the winter, pushed ahead rapidly.

Demand for employees really unlimbered in June (the year's high placement month), when 894 jobs were filled by the office. Job orders continued high through the summer and showed few signs of slackening off until cold weather choked off much outdoor work in mid-December.

Heaviest hiring was in the factory field. Job placements in Winona's manufacturing plants totaled 2,372 — more than half of the total placement figure for the year. The continuing heavy employer needs pretty well drained the local worker supply. Job seekers hit a new low in late fall as the demand continued without letup. It was only the influx of people from outlying areas seeking work in the city which helped prop up the steadily dropping local worker rolls.

Openings in the office field for stenographers, secretaries, office clerks and bookkeepers often went begging. The need for qualified people with proper training in these fields was always much higher than the available supply. These shortages are not new nor are they confined to Winona alone.

The shortage has been present for a number of years and is of nationwide scope. Job placement in the professional, office and retail sales field totaled 370, and might have been considerably higher had qualified applicants been available.

WOMEN Winona payrolls showed that

al testing does much to help accomplish this end. During the past year, the office administered tests to more than 1,700 persons, a climb of more than 23 percent from 1962. This demonstrates a gradually increasing interest in testing by both employers and workers seeking jobs.

A good percentage of Winona firms now require applicant testing as part of the hiring process. This eliminates much of the guess work in putting people on the job and does much to increase worker success in his occupation, by placing him in that job for which he is best fitted.

THIS DOES NOT mean that testing eliminates people from jobs. On the contrary, tests oftentimes reveal that individuals have basic aptitude patterns which place them in an ability status far exceeding the job for which the tests may have been taken. This inevitably results in upgrading the applicant's own job-hunting effort.

Experience has shown that workers selected where tests are part of the hiring factor, adapt more readily to specific jobs; they tend to learn the job faster and show better stability.

Tests are used to assist students and others in determining careers, in conjunction with other factors such as personal prediction and job availability. This is particularly helpful in deciding the need and ultimate value to the individual of vocational training.

Occupational testing has moved along at a rapid pace over the years. Once thought of as more-or-less untried and experimental, it has become a "must" in the hiring practices of many firms today.

The tests offered include the General Aptitude Test Battery, specific aptitude tests, proficiency tests such as typing and shorthand and oral trade questions, used to measure an applicant's familiarity with a particular trade.

The General Aptitude Test Battery, a series of twelve tests, is administered to high school seniors in the three-county area, and is a part of the cooperative school program presented by the state employ-

ment service. Approximately 425 graduating students from the various high schools of the area were tested by the local office during 1963.

THE SPECIAL testing-placement program for business students of the Winona Senior High School has proven an excellent help to not only the student seeking employment, but to the businessman looking for an office worker. This program was inaugurated five years ago as a cooperative program between the school and the employment service and is proving more successful every year.

The program is aimed at early and proper placement of graduating seniors in the business field. Testing is done by employment service personnel at the school. Interviewing and job counseling follow. Referral to office job openings with local business firms is made near the end of the school year and in most cases students have their first jobs waiting for them as soon as school is out.

TRAINING Training for unemployed is a new program in which the office participated for the first time this year. Government sponsored and financed training programs were inaugurated in Winona for the first time in 1963. Two training classes, one for stenographers and one for arc welders, were set up at the Winona Area Vocational-Technical School.

The program is of nationwide scope and was organized under the Manpower Development Training Act, passed by Congress March 15, 1962. Schooling under this program aims at training unemployed and persons who are underemployed and need training as a means of earning a livelihood.

Establishment of classes is a joint venture involving the employment service and the schools. All actual training is done by the Winona Area Vocational-Technical School. The school develops the course of training and provides all training facilities, equipment and instructional staff. The needs for training are determined by the employment service.

Applicants to be enrolled in classes are recruited and selected by the employment service and after completion of class work, placement of graduates is

handled by the service. The arc welder course was completed the latter part of August and the students were soon put to work in jobs which called for welder training.

The stenographer course finished in late September and within three to four weeks all graduates had been placed. Because of the very good acceptance by the local business firms and the continuing heavy need for stenographers, a second course was started Dec. 9 and will graduate in early August.

UNEMPLOYMENT COMPENSATION Dropping unemployment compensation rolls pointed up the very favorable economic conditions that Winona enjoyed during the year. Compensation paid by the Winona office during the 12 months ending in November was \$689,611., about even with the payment total of 1962.

Dollar payments don't tell the whole story, however. Throughout much of the late summer and fall, filings were much lower than in 1962. It was the January, February and March period, when payments were heavy, which kept the yearly figure up. As hiring pushed into gear and employment moved upward, claim filings fell off. The pattern during the summer, fall months, and up to mid-December was bright.

Following the usual seasonal picture, filings stepped up rapidly in January and February. The high point hit in late February when 1,340 persons were in claim status. A slow drop-off started in March and continued falling as work perked up.

At the low point in late October, only 163 individuals were reporting for payments and this small number included everything from the three-county area served by the office, a total population of about 70,000.

On a county basis, Winona far outranked the rest of the area. Total benefits to Winona County residents for the year were \$541,444. Houston County people collected \$107,838 and Wabasha was lowest with \$40,332.

Itinerant claims service was provided by the office to CALHOUN, WABASHA and MONTICELLO on a bi-weekly basis during the winter months when the volume of filings ran high.

## Minnesota Builds Highways

(Continued From Page 10) 19, 1962, and opened this fall, \$710,654.

(7) TH 52 — Grading, gravel base, road-mixed bituminous base, and concrete box culvert with surface work extending 8.1 miles from 1.5 miles north of Hader to 1 mile north of Zumbrota and 0.3 miles north of the north junction of TH 60. Project begun Nov. 27, 1961, and completed last summer, \$498,141.

(8) TH 52 — Miscellaneous grading, gravel base, plant-mixed bituminous shoulders, and concrete paving on 8.2 miles from 1.5 miles north of Hader to the north edge of Zumbrota. Project begun Sept. 24, 1963, and the scheduled completion will be in 1964, \$865,826.

(9) TH 63 — Grading, gravel base, plant-mixed bituminous surface and storm sewer construction on 6.2 miles between CR 70, southwest of Lake City, and Lake City. Project begun May 27, 1963, and completed this fall, \$262,462.

(10) TH 251 — Grading, gravel base and plant-mixed bituminous surface on 7.2 miles from 1 mile east of Clarks Grove to two miles east of Hollandale. Project begun Oct. 2, 1962, and completed this fall, \$332,693.

(11) TH 63 and TH 90 — Grading, gravel base, road-mixed bituminous surface and concrete paving on 7.0 miles between Stewartville and south of Rochester. Project begun July 11, 1961, and completed last spring, \$1,232,386.

(12) TH 63 and TH 90 — Miscellaneous grading, gravel base and plant-mixed bituminous and concrete paving on 7.0 miles from TH 63 at Stewartville to

0.3 miles north of TH 30. On TH 90 from south of the Olmsted County line to 0.3 miles east of junction TH 63. Project begun May 1, 1963, and completion scheduled for spring of 1964, \$1,416,739.

(13) TH 90 — Miscellaneous grading, gravel base, bituminous shoulders and concrete paving on 11 miles extending from Dexter to the north line of Mower County. Project begun Aug. 16, 1962, and was just opened, \$1,751,060.

(14) TH 90 — Grading, gravel base, crushed rock base, plant-mixed bituminous surfacing, and bridge carrying CSAH 19 over TH 90, two miles east of junction TH 56 east of Austin. Project begun Jan. 22, 1963, and was scheduled for completion late this year, \$229,449.

(15) TH 90 — Grading, gravel base and road-mixed bituminous base, and concrete surfacing on 10 miles from Austin Airport Road to 3.5 miles southwest of Dexter. Project begun on May 31, 1962, and was opened this fall, \$1,892,466.

(16) TH 90 — Grading, base, bituminous and concrete surfacing on 5.3 miles from 9.5 miles east of Austin to junction CSAH 2 east of Dexter. Began Oct. 11, 1960, and now open, \$1,051,862.

(17) TH 90 — Grading, gravel base, and road-mixed bituminous surface on 9.3 miles between junction TH 16 east of Petran and west of Austin. Project begun Aug. 7, 1961, and was completed last spring, \$931,742.

(18) TH 90 — Miscellaneous grading, gravel base, plant-mixed bituminous surface and concrete paving on 9.3 miles between junction TH 16

east of Petran, to west junction TH 16 in Austin. Project begun June 13, 1963, and is scheduled for opening in spring of 1964, \$1,658,244.

(19) TH 61 — Grading, gravel base, and road-mixed bituminous base on 8.9 miles from Minnesota City to 0.4 miles south of the north line of Winona County. Project begun Dec. 3, 1962, and opening is scheduled for spring 1964, \$2,159,072.

(20) TH 14 — Pedestrian bridge at St. Mary's College, Winona. Project begun April 6, 1963, and completed Aug. 15, 1963, \$18,256.

(21) TH 35 — Grading, gravel base, and road-mixed bituminous base on 10.8 miles from the north junction TH 65 at Faribault to 0.2 miles north of junction TH 19. Project begun July 11, 1963 and finished this fall, \$1,000,199.

(22) TH 35 — Grading, gravel base and plant-mixed bituminous surface, and concrete surfacing from the north junction TH 65 at Faribault to 0.2 miles north of junction TH 19. Project begun Aug. 17, 1963, and is scheduled for opening during the summer of 1964, \$1,594,541.

(23) TH 35 — Grading, gravel base, road-mixed bituminous base, and bridge between 0.2 miles north of junction TH 19 and the Milwaukee Road at Elkro. Project begun July 9, 1962, with completion scheduled for the summer of 1964, \$734,590.

(24) TH 35 — Grading, gravel base, road-mixed bituminous surface and bridge on 1.7 miles of grade at intersection of TH 35 and CSAH 15, five miles south of junction TH 60 in Far-

bault. Project begun June 5, 1963, and completion scheduled for 1964, \$1,081,286.

(25) TH 35 — Four bridges on TH 35 to separate traffic on CSAH 1, 8, 8, and TH 19. These bridges extend from three miles north of Faribault to TH 19, 10 miles north of Faribault. Project begun Aug. 16, 1961 and opened this fall, \$349,991.

(26) TH 35 — Two highway separation bridges 3.6 miles north of junction TH 19 and 5 miles north of TH 19 north of Faribault. Project begun Sept. 20, 1962, and completed this fall, \$164,709.

### New Code Defines Bet

ST. PAUL (AP)—It might be considered gambling—and then again it might not, to shake dice to see whether a patron pays double or nothing.

Atty. Gen. Walter F. Mondale told village attorney William Terrell of Foley's primarily a question of fact.

The new code defines a bet as specifically excluding certain items, such as "a private social bet." But Mondale warned, it appears clear that using a dice box would not fall within the exclusion if a commercial establishment uses a dice box to see if the price is double or nothing.

Further, the attorney general said, such activity constitutes "gambling" and may offend conditions imposed on licenses (such as liquor) or conditions imposed by leases or local ordinances.

## Mabel Planning Phone Building, Other Projects

MABEL, Minn. (Special) — Six or more projects are planned or are being discussed for Mabel in 1964.

A new telephone building is anticipated. The Mabel Telephone Co-op has voted to remain independent and applied for a \$350,000 REA loan to install a dial system.

A need has been expressed for a new parish house for the First Lutheran congregation. It is under consideration.

Joseph B. Lund Post, American Legion, has plans for a new community center, providing the old bowling alley building can be purchased. The quarters would provide among other things, a meeting place for service organizations, and a roller skating rink.

Odell Lee Sr., village clerk, says petitions are out for curb and gutter on Oak Street, eventually to be followed by improving the street bed. Consideration of curb and gutter in the Hagen Addition also is on the agenda.

The village council is taking steps to engage engineers for a new disposal plant which must be constructed soon. Application has been made for a federal grant.

The council received a petition that Fillmore Avenue be extended to the Hagen Addition. No action will be taken until council studies the cost and need.

## Wisconsin Highway Jobs Set

(Continued From Page 10) Stockholm and east of Pepin, \$4,500; pea gravel seal coat on Highway 25 from the Buffalo County line to Durand, 2.2 miles, \$1,500; and sand seal coat on Highway 143 from the Pierce County line to County 1, 2.2 miles, \$1,200.

### 1964 PROGRAM

FOR ENGINEER BYRKH, A. E. Blunt, district chief planning and design engineer, reported work on State Highway 35 from Stockholm to the north county line.

The design and right of way acquisition, including scenic easements, are completed and contract letting is scheduled Jan. 14. It's about four miles.

This project will have a designed section of 38 feet from shoulder to shoulder with standard 10-foot ditch widths, allowing a 22-foot width hot mix bituminous surface and 8-foot compacted gravel shoulders compared with the existing roadbed width of 26 to 28 feet.

The new location will follow the existing corridor either along or adjacent to the existing alignment for an improvement of grades and vision both vertically and horizontally, particularly in the so-called "Skunk Hollow" and "sinkhole" areas to remove the present winding alignment by minor relocations. All existing bridges will be replaced by large multiple culvert pipes.

Work is expected to start next spring with completion through the surface stage in the summer of 1965. The road will be closed to through traffic during the 1964 construction season for grading operations. A detour for

through traffic will be provided from Pepin to Maiden Rock via STH 183 and the county trunk system.

A public hearing was held Sept. 13 at Stockholm regarding the project at the request of one or more individuals from the village of Stockholm. Inasmuch as federal aid may be used as part of the financing of the proposed improvement, federal law requires that opportunity be afforded for a hearing whenever the proposed route either by-passes or goes through any city, town or village, and requires that the economic effects of the proposed change be considered.

Acquisition of easements outside of the village corporate limits of Stockholm and Pepin are in progress for the preservation of the scenic beauty along the Great River Road. Funds have been made available from the Outdoor Recreation and Resource Development Program as established by law in 1961 and financed through the one-cent cigarette tax.

Grading, ballast, base and incidental construction will be the only state highway work in Pepin County next year.

MAINTENANCE projects proposed for 1964 are as follows: Sand seal coat on 7.25 miles of STH 85 from the Dunn County line to Durand, \$5,800; pea gravel seal or limestone chip seal coat on U.S. 10 from the Buffalo County line to Durand, 8.5 miles, \$9,500; and light bituminous road mix surface on 1.6 miles of STH 183 from two miles north of STH 35 and northwesterly, \$5,600.

### Chippewa Bridge

A FEDERAL-aid secondary

project is under construction in Dunn County on County H and is known as the Chippewa River bridge and approaches.

This project begins at the junction of H and STH 35 near Caryville and extends northerly across the Chippewa River for one mile. The bridge is a 75-span steel girder structure with an overall length of 905.33 feet. The width of the roadway on the bridge is 27 feet and the roadway approaches are designed for a width of 26 feet. The project was let to contract Oct. 29, 1962. Arnold, Inc., Eau Claire, was the successful bidder with a bid of \$3,939,940. The project is scheduled for completion Nov. 1, 1964, except for painting of the structure, which will be accomplished by June 15, 1965.

The project is being financed with funds from Dunn County, Towns of Spring Brook and Rock Creek, Wisconsin Highway Commission and federal and secondary funds.

### Rockefellers Expectin' in June

NEW YORK (AP) — Gov. and Mrs. Nelson A. Rockefeller said today they are expecting the birth of a child in June.

### Bill Is Signed

AUSTIN, Tex. (AP) — President Johnson signed a bill Monday authorizing future work on water projects to cost nearly \$117 million.

The new law authorizes increased authorizations for 10 river basins, including 511 million for the Upper Mississippi River and \$96 million for the Missouri River.

# Remember What Happened? It Was Good Building Year

(Continued From Page 15)

Oct. 15, Charles Langlie, 39, son of former residents here and Preston, burned to death Nov. 2 off Seward. Alaska when a chartered fishing boat caught fire.

**LEWISTON, Minn.** — This was Lewiston's centennial year, with the celebration June 28-30. Harmony Lodge 43 celebrated its centennial Oct. 21.

Five head of Holstein young stock fell about 30 feet from the North Western Railway trestle at the single arch south of Farmers Community Park July 18 and were killed.

**MABEL, Minn.** — Philip H. Losen, 40, pilot, formerly of Mabel, drowned in the crash of a Navy helicopter June 24 off California. Richard Kimber, 18, Hesper, died Sept. 13 after a two-car crash. Mrs. Martin M. Jacobson, 69, died Oct. 28 of burns received in her kitchen Oct. 14.

Raymond Christopherson, 34, formerly of this area, was killed Dec. 15 in a one-car crash near Coon Rapids, Iowa. His father, William, and brother, Carmen, were killed in a crash near Caledonia Sept. 23, 1960.

A barn, 15 Hereford steers and heifers and 31 sheep burned Jan. 29 on the J. R. Casterton & Son farm. The coin operated laundry here burned March 20. Fire destroyed a barn and contents on the Alvin Darling farm Oct. 20.

**MILLVILLE, Minn.** — W. O. Raymond C. Wilde, 34, was one of seven officers and enlisted men killed Jan. 11 in the crash of a helicopter in South Viet Nam.

**MONDOVI, Wis.** — Leon Hoch, 17, senior, died Jan. 8 in a wrestling match of a spasm introducing food into the windpipe. Reuben Herold, 70, of the village of Herold, was killed on Highway 37 July 11 when his car was struck as he was making a left turn. Mrs. Violet Burshaw, 52, died July 22 of injuries received in a Highway 37 accident July 10.

John Parison, 9, lost left eye when a bullet he and another child were pounding exploded. The Mondovi Youth Center burned Dec. 23.

**MONEY CREEK, Minn.** — Samuel N. Wheaton, 49, of here, was killed in a collision near Dow City, Iowa, Sept. 10.

**NELSON, Wis.** — The Martin Quarberg farm home near here burned Feb. 1.

**NODINE, Minn.** — Gerald A. Andring, 19, Nodine, drowned June 30 while swimming in a gravel pit at Goodview.

**OSSEO, Wis.** — Robert W. Hoover, 17, who stayed with the H. M. Badkers six years, drown-

ed in the Rock Falls mill pond June 4. Robbie E. Toft, 15 months, died June 18 from swallowing a kernel of corn June 15. Norris Nelson, 70, York, was killed when a tractor tipped and rolled over him July 16.

**PEPIN, Wis.** — Dennis Molne, 14, lost one eye New Year's Day while burning trash and something exploded, probably a flash bulb.

Two freight cars were thrown into the Chippewa River and eight others derailed on the Burlington bridge here April 19, tying up traffic on this road, for the Great Northern and Northern Pacific passenger trains which use it. A new bridge replaced the swing section that had not been opened for navigation since 1910.

**PETERSON, Minn.** — Smoke and water damage were extensive to the Mrs. Marion Gorder store here in a fire Nov. 1.

**PICKWICK, Minn.** — Electors of the Upper Pickwick District voted to merge with Pickwick School.

**PIGEON FALLS, Wis.** — Marie Larson, Osseo, and Patricia Ann Slaby, Arcadia, were sent to the Lions Club state camp for the blind at Rosholt in July for a week's vacation by the Pigeon Falls and Arcadia Lions clubs.

**PLAINVIEW, Minn.** — Herbert Dean Hayden, 6, Eltopia, Wash., was accidentally shot to death at the home of relatives while visiting here. Fielding D. Green, 46, Van Nuys, Calif., former Plainview farmer, was fatally injured Oct. 4 in a car accident at Santa Monica, Calif. The Community Presbyterian Church celebrated its centennial Oct. 6. Ernest Goetz celebrated his 50th year as owner of the Bootery.

**PRESTON, Minn.** — Peter M. Vaalemoen, 67, died April 10 of injuries received when a team pulling a manure spreader ran away. W. L. Kruppenbacher, 69, native here and former president of the Mars Candy Co., Chicago, died at River Forest, Ill., Nov. 28.

Mrs. Sarah Rollins, 102, one of the oldest in the area, was given a birthday party July 4 at Preston Nursing Home by the Laneshoro VFW Auxiliary.

Five boys killed 23 rattlesnakes from one nest in August, the largest number on which the Town of Forestville clerk paid bounty at one time since he held office.

**RIDGEWAY, Minn.** — A pack of wild dogs living in nearby woods killed sheep and chickens in the area in January.

St. Patrick's Catholic Church, 90 years old, was destroyed by fire March 10.

Open house was held at the Ridgeway Creamery Oct. 20 Aug. 9.

**TREMPEALEAU, Wis.** — Dr. Alta K. Fisher, University of Iowa, showed films July 20 on excavation of 2,000-year-old Indian mounds uncovered here for the Milwaukee Museum in 1928.

**UTICA, Minn.** — The David Christie barn burned with three calves and one beef Jan. 8.

**VIOLA, Minn.** — The 89th annual Gopher Count here June 20 paid \$1,159.55 in bounties.

**WABASHA, Minn.** — John Jacobs, 28 years Wabasha County sheriff and game warden prior to that, was honored at a testimonial dinner Jan. 28. Edward B. Wise, 65, coroner 38 years, died Feb. 26.

Mrs. Louis Sass, 48, collected a bet for completing a 50-mile jaunt, a fad suggested by President Kennedy in which many from the area participated.

The fall Wabasha District Court criminal arraignments were delayed because Attorney Donald Kelly, Minneapolis, was subpoenaed as a witness in the biggest trial of the year in Minnesota, in which T. Eugene Thompson was convicted of conspiracy in the murder of his wife.

Wabasha County looks forward to widening of Highway 61 six miles between here and Kellogg and removal of concrete lips next year and a four-lane Great River Road between these points in fiscal 1966.

**WHITEHALL, Wis.** — Arnold Simonson, 50, drowned in the Trempealeau River July 2. The John Lamberson barn burned Sept. 30.

The school district voted against an indoor swimming pool.

Cooperation was small in the trial cropland conversion program in Trempealeau, Buffalo, Pepin and Jackson counties.

Judge A. L. Twesme was appointed in October and December by the Supreme Court to hear three cases against Milwaukee policemen for accepting bribes and other charges.

**WAUMANDEE, Wis.** — The Montana - Salem Evangelical United Brethren Church observed its centennial Sept. 1-8.

**WYATTVILLE, Minn.** — Neighbors gathered at the Lee, Bernard and Edward O'Rourke farm to pick corn in November because the men were in poor health. This was one of many instances of helping others in the area.

**WEAVER, Minn.** — In a highway robbery at midnight April 17, an auto carrier driver was forced to the side of the highway by a foreign car and robbed of \$275 in cash and tools.

John Michels barn and hay

**NEW MEDICAL BUILDING** . . . Over 2,000 people visited the new Winona Clinic Building, 420 E. Sarnia St., during the afternoon of Oct. 20 as its staff conducted an open house. Surrounded by spacious parking areas, the new building is windowless, its interior climate completely controlled. The building has 18,000 square feet of floor space. (Daily News photo)

**KOHNER RESIDENCE** . . . Ralph Scharmer was the contractor for this 50-by-30-foot wood frame house at 4160 6th St., Goodview. It was built for S. N. Kohner, who had lived in a house next door to the east. Estimated cost of the house was \$15,000. (Daily News photo)

**Sichler Planning To Close Store**

A closeout sale will begin Thursday at the Ford Hopkins Service Store, 56 E. 3rd St., according to Joseph Sichler, owner of the business.

Sichler did not announce future plans beyond closing out the business he has operated for 30 years. He purchased the business from the Ford Hopkins system 10 years ago, after managing it for the company for 20 years. The building is owned by Chicago interests.

Sichler and his wife live at 415 W. Wabasha St.

**TWO-STORY HILKE HOUSE** . . . Hilke Homes, Inc., one of Winona's largest house construction firms, built this two-story house at 320 Elm St., during the year. The 56-by-32-foot structure now is owned by James Carroll. It has an attached garage. (Daily News photo)

**WHITTEN'S HOUSE** . . . Contractor E. P. Whitten constructed this 24-by-60-foot house with attached garage on the street bearing his name. The house, which was built at an estimated cost of \$12,500, stands at 206 Whitten St. (Daily News photo)

**CONTRACTOR'S HOUSE** . . . Harold Wooden, Winona contractor, built this house for his family during 1963. The 32-by-32-foot structure was built at 929 E. 5th St. He estimated the cost at \$10,000. Shown on the front steps are Wooden's children, Bernard, Susan, Jeffrey and Steven. (Daily News photo)

# Changes Highlight Church Year

By FRANK BRUESKE, Daily News Church Editor

A pope died, the cornerstone of the new Central Methodist Church was put in place; an auxiliary bishop for the Winona Diocese was named; the bishops attended the second Vatican Council at Rome; a new fellowship was started and seven new pastors took over Winona congregations.

These were the top church stories of 1963.

● **POPE JOHN XXIII**, head of the world's Catholics, died June 3 after an illness of several

months. Three weeks later a new pope who took the name of Pope Paul VI was the church's new leader.

● **JAN. 22, 1961**, the main structure of Central Methodist Church was destroyed in a million-dollar fire. Last Nov. 8 Dr. E. Clayton Burgess, pastor, laid the cornerstone for the new \$200,000 structure slated for completion in late 1964.

The church at Main Street and Broadway had its share of sidewalk superintendents as spectators daily stopped and

viewed progress of the structure.

After the cornerstone was put in place a copper document box including newspaper clippings and church documents was sealed into the stone.

"I wonder who will be the next man to see the material in that box?" Dr. Burgess asked the day after the laying of the cornerstone.

● **"WITH THE pomp and pageantry of a Roman festival, but with the dignity accorded only to God, the Most Rev. George H. Speltz was conse-**

crated titular bishop of Claneus and auxiliary to the bishop of Winona at Cathedral of the Sacred Heart this morning," according to the March 25 issue of the Daily News.

Bishop Speltz was the second auxiliary in the 74-year history of the Winona Diocese. In 1926 Bishop Francis M. Kelly became the first auxiliary. Bishop Speltz was the 15th priest born in the Diocese of Winona who has been consecrated as bishop. He was born at Altura May 29, 1912, and was ordained a priest June 2, 1940.

● **SEVEN NEW pastors** took over new congregations during 1963. Bishop Speltz was named pastor of St. Mary's Catholic Church. He replaced the Rt. Rev. Msgr. R. J. Snyder, who retired because of ill health.

The Rev. Louis O. Bittner accepted a call to Redeemer Lutheran Church. Pastor Bittner, a native of East Burns Valley, took over the congregation May 5. He replaced the Rev. David T. Pankow who accepted a call to Eagle Bend-Clarissa, Minn., parish in August 1962. Rev. Bittner came to Winona from a Stewartville charge.

The Rev. Donn Muehlenpach took over duties as pastor of Winona Gospel Church in June. A native of Milwaukee, Wis., Pastor Muehlenpach replaced the Rev. Robert Sabin as head of the Winona church. This was his first full-time charge after graduating from the Apostolic Institute, St. Paul.

A new minister arrived in Winona in June to head the McKinley Methodist congregation. He was the Rev. C. Merril LaGrone, who was assigned to McKinley from Joyce Methodist Church, Minneapolis. He replaced the Rev. Edward Gehlbach, who was assigned to a Methodist Church at Red Wing.

Pastor LaGrone, a native of Lawton, Tex., helped carry bricks for a church constructed by his father, also a minister, and returned to Texas years later to be pastor of the same church.

A new pastor also took over the Evangelical United Brethren congregation here. He was the Rev. O. S. Monson, who replaced the Rev. Paul Milbrandt who transferred to a Methodist in the Rockford, Ill., district of the Rock River Methodist conference. Pastor Monson, a native of Spring Valley, came here from a charge at Marshall, Minn.

A Winoman was named president of the Church of Jesus

Christ of Latter Day Saints. He was Ronald Putz, 23 Otis St., who was the first local person to hold that post in six years.

Putz replaced Elder Paul Adams who worked full time in the area as a missionary. Putz was officially installed Feb. 2.

In November of 1963 the Rev. Russell M. Dacken became pastor of the First Baptist Church. He replaced the Rev. Walter Eckhardt who accepted a call to a Twin Cities church. Pastor Dacken, a native of Burlington, Iowa, came here from Wayne, Neb., where he headed a congregation nine years.

The Rev. Emil Geistfeld, one of two pastors at St. Martin's Lutheran Church resigned his pastorate at St. Martin's to accept a call to Vernon Center, Minn., near Markota, despite a nearly unanimous vote by the congregation to have him stay.

On Nov. 15 the Rev. A. U. Deye, the second pastor, was named as senior pastor at the church. A call was issued to Concordia Seminary, St. Louis, for an assistant pastor.

One Winona church, Faith Lutheran, is currently without a local pastor. The Rev. Robert L. Nelson accepted a call to Burnside, Iowa, in July.

● **WINONA'S TWO bishops**, Bishop Edward Fitzgerald and George Speltz, attended the second session of the Second Vatican Council at Rome this fall along with other bishops from the world.

This was the second session attended by Bishop Fitzgerald and the first for Bishop Speltz. They departed for Winona Sept. 25 and returned Dec. 6.

Bishop Fitzgerald emphasized the role of the layman in church work after returning from the council.

"The laity has always accepted its passive role in the church," he said. "But there are many jobs in the church that can be done by the laity. There is a definite need for more active participation," he said.

Pope Paul VI reduced the dependence of the bishops on the Vatican Curia - a concept that the bishops as a whole share with the pope in authority over the church. A liturgical decree was approved at the council permitting sections of the Mass to be presented to the congregation in English.

● **THE CHURCH of the Nazarene** was presented with a "double honor," when two members of its congregation were honored at the Minnesota's Dis-

**BLESSING** . . . Bishop George Speltz, center, gives his first blessing as a bishop after his consecration as auxiliary bishop at Cathedral of the Sacred Heart. On his left is Bishop Peter W. Bartholomee, St. Cloud, and on his right, Bishop F. W. Freking, Salina, Kan. (Courier photo)

# Full Oswald Story Asked

By LOUIS HARRIS  
Despite the information the public has received about the assassination of President Kennedy, a substantial amount of

doubt still remains in the minds of the American people about how and why that shocking murder took place.

The forthcoming report of the special commission headed by Chief Justice Earl Warren on the Kennedy killing will thus go to an audience a good part of which is still uncertain as to what happened.

The prevailing view, based on circumstantial evidence, is that Lee Harvey Oswald was the murderer of the President. A majority also believe he committed the crime alone, motivated by the twisted designs of a mentally ill individual.

People are especially sorry that Oswald was never brought

to justice, partly because it would have been most fitting to give the man accused of being the killer of the President a fair trial, and partly because many feel now the full facts will never be known. When a cross-section of the American people was asked nearly a month after the event whether or not Oswald shot the late President, here are the results:

### DID OSWALD SHOOT KENNEDY?

	Total Nation Percent
Believe he did	74
Don't believe he did	3
Not sure	23

It would be overstating these results to conclude that better than one person in every four has doubts about Oswald as the murderer. Three in every 100 do not believe he did it. The undecided 23% is either lacking in facts other citizens have or feel that without a legal trial the full extent of Oswald's involvement will never be known. When asked to state in their own words just why they think Oswald killed the President,

those with opinions tended to discount the possibilities of an organized conspiracy:

### WHAT MIGHT HAVE MOTIVATED OSWALD

	Total with opinions Percent
Crazy, mentally ill	41
Somebody put him up to it	20
Radical extremist	7
Had grudge against government	7
Communists behind it	7
He hated everyone	6
His Communist leaning	5
To get attention	3
Feeling of accomplishment	3
Brain-washed	1

The shooting of Oswald did not bring comfort to many Americans. To the contrary, there was genuine concern over the fact that he never was brought before the court of justice:

### ON OSWALD BEING KILLED WITHOUT TRIAL

	Total Nation Percent
Glad he got his due	5
Sorry he wasn't tried	83
Not sure	2

When probed to state in their own words just why they felt this way about the shooting of Oswald by Jack Ruby, people gave these reasons:

### VIEWSON KILLING OF OSWALD WITHOUT TRIAL

	Total with opinions Percent
Why glad he was killed	4
Should have gotten worse	1
Eye for an eye	1
Why sorry he was killed	43
Only justice to try him	35
Will never know true story	35
Would have removed doubt of guilt	7
Find out if conspiracy	5
Wrong to kill anyone	2
Black eye for United States abroad	1
NOT SURE	2

Public interest in the circumstances of the killing of President Kennedy continues high. Evidence of this was found when the public was

asked if the trial of Ruby should be televised:

On televising trial of Jack Ruby

	Total Nation Percent
Should be televised	44
Should not be televised	44
Not sure	12

Although the judge in Dallas has ruled against it, the public is split down the middle on televising the Ruby trial. The main argument favoring the admission of television is the desire of the public to see what is going on. The reasoning against it is that TV would make the trial a spectacle and further mock justice in this country.

Along with the sense of sadness that still pervades the American people over the death of John F. Kennedy, there is also a rather deep sense that justice was sorely aborted in the killing of the President's accused assassin, no matter how convinced people might be that Oswald was indeed the killer.

### Stillwater Vet Has 99th Birthday

STILLWATER, Minn. (AP)—Dr. R. J. Coffeen, retired veterinarian and a Stillwater mayor in the 1920s, observed his 99th birthday Monday. A small party in his honor was held at the senior citizens' home where Coffeen resides.

### Zion Church Scene Of Fournier-Cory Wedding Rites

GALESVILLE, Wis. (Special) — Zion Lutheran Church, Galesville, was the scene of the wedding of Miss Kathleen M. Cory, daughter of Mr. and Mrs. Carlyle Cory, Galesville, and Gary N. Fournier, son of Mr. and Mrs. Norval L. Fournier, Dayton, Ohio.

The ceremonies took place Saturday, with the Rev. Vernon Hintermeyer officiating. Soloist was Mrs. Hintermeyer and organist was Miss Helen Johnson.

**THE BRIDE** wore a gown of ivory peau taffeta with a chapel train. It was fashioned with a scalloped scoop neckline edged with lace, long sleeves coming to points over the hands and a waistline accented with a double-tiered cummerbund. The skirt featured lace points extending from the waistline. Her veil was held by a pearl crown and she carried a bouquet of quilled chrysanthemums and Christmas holly.

Mrs. Allen Johnson, Milwaukee, sister of the bride, was matron of honor. Bridesmaids were Misses Carol Moulton, Galesville, and Karen Seltzer, Milwaukee. They wore floor-length gowns of willow-green satin, designed with A-line skirts and a Watteau panel at the back. They had pillbox hats with veils and each carried a long-stemmed chrysanthemum with Christmas foliage.

**WILLIAM FOURNIER**, Dayton, brother of the bride, was best man and John Craper and Barry Larson, both of Madison, were groomsmen. Head usher was Allen Johnson, Milwaukee. A reception was held in the church parlors.

Pre-nuptial parties were given by Mmes. John Harper and Michael Greenwood and Miss Bonnie Fournier in Dayton and by Misses Moulton and Elaine Holthaus in Galesville.

The newlyweds will make their home in Dayton, where the groom is manager of the parts department in Materials Handling Systems. He is a graduate of Colonial White High School, Dayton. His bride, who is a hairdresser, is a graduate of Gale-Etrick High School, La Crosse State College and Accredited School of Beauty Culture, Milwaukee.

**AUXILIARY TO MEET** — ARCADIA, Wis. (Special) — The Auxiliary to the Ticker-Erickson American Legion Post will meet Monday in the Legion Clubrooms, at 8 p.m. Hostesses will be Mmes. Leon English, John C. Sobotta and Darrell Schultz.

**MEETING CHANGED** — PLAINVIEW, Minn. (Special) — The regular meeting of Dorcas Society of Immanuel Lutheran Church has been changed to Jan. 8 and will be at the home of Mrs. Grace Zabel.

**Ts'ai Lun**, a Chinese court scholar, produced the first sheet of paper in 105 A.D., by macerating bark, rope, old rags and fish nets.

**CORRECTION** — DAKOTA, Minn. (Special) — The next Sock Hop in the village school of Dakota will take place on Friday evening and not New Year's Eve as was previously announced. This is the first dance of 1964. Favors will be passed around. Chaperons will be present and there is a small admission charge. Young people in age range of 12 through 19 years may attend.

**DOHRN FAMILY PARTY** — LAKE CITY, Minn. (Special) — Mr. and Mrs. Lloyd Edgenberger, rural Lake City, opened their home for the annual Emil Dohrn family Christmas party and dinner Sunday, instead of at their parents' home, as in bygone years.

About 45 to 50 persons were present, including Mr. and Mrs. Emil Dohrn, relatives from Eyota, Minn., Zumbro Falls, Minn., St. Paul and Lake City.

**JOB'S DAUGHTERS ROYALTY** — Gayle Anderson, daughter of Mr. and Mrs. Miner Anderson, Wabasha, was installed as honored queen of Wabasha's Job's Daughters at ceremonies Sunday afternoon at Wabasha Masonic Hall. Installed as senior princess was Mary Gardlund, left, daughter of Mr. and Mrs. Gust Gardlund, Reads Landing, Minn. Mary's twin sister, Margaret Gardlund is junior princess of the Bethel (Joyce Lund photo)

Mr. and Mrs. David Fakler (Haefer Studio)

### Fakler-Grathen Vows Exchanged At St. Stanislaus

Miss Kathleen Grathen, daughter of Mr. and Mrs. Raymond Grathen, 960 E. 6th St., became the bride of David R. Fakler, son of Mr. and Mrs. Roger Fakler, Winona Rt. 1, Saturday morning at St. Stanislaus Catholic Church.

The Rev. Paul Breza officiated. Mrs. George Schultz, Gilmore Valley, was soloist and the junior choir sang.

The bride wore a floor-length gown with a three-gored skirt, long sleeves and a scoop neckline. The train was caught at the front waistline by a large bow. A pill box hat held her veil. She carried long-stemmed white roses tied with gold satin ribbons. The dress was styled and made by Mrs. Frank Fakler, Gilmore Valley.

Miss Bernice Ebertowski was maid of honor and Miss Mary Jane Mlyneczek was bridesmaid.

They wore identical floor-length dresses of gold color, styled with pleated skirts and trains extending from the neckline. Their headpieces were rosette buds and each carried three long-stemmed bronze mums.

Ronald Grathen, brother of the bride, was best man and Carl Fakler was groomsmen. Ushers were Mike and John Goss.

A RECEPTION was held at the Athletic Club from noon until 4 p.m. The couple is spending a week's honeymoon in the Twin Cities. They will be at home at 1224 1/2 W. 5th St. upon their return.

Parents of the groom gave a bridal dinner for the couple. A shower was given at Jack's Place by Mmes. Ben Grupa and Bernard Prondzinski.

The bride is a graduate of Cotter High School and the Winona Secretarial School and works as a stenographer at Fiberite Corp. Her husband is a graduate of Winona Senior High School and is assistant to the superintendent at Filter Supply.

**ST. MATTHEWS AID** — St. Matthews Ladies Aid will meet in the church basement at 2:30 p.m. Thursday. Hostesses will be Mmes. Ervil Mueller and Ferdinand Muench.

**NOTICE**

THE BEAUTY BOX 523 West Howard IS CLOSED because of illness.

Mr. and Mrs. George E. Leifeld (Durley Studios)

### Mary Foster Is Bride of G. E. Leifeld

Miss Mary Pamela Foster, 286 E. Wabasha St., and George E. Leifeld, 521 W. Howard St., were married Saturday morning at the Cathedral of the Sacred Heart. Parents of the couple are Mr. and Mrs. E. L. Foster and Mr. and Mrs. Walter Leifeld.

**THE REV. Donald Connelly** officiated and the Nuptial Mass was sung by the Girls Maristella Choir of the Cathedral. Organist was Sister M. Barbara.

Mr. Foster gave his daughter in marriage. Her gown was of peau de soie, designed with a bouffant bell skirt with a train. It was trimmed with plumbe-colored appliques of lace, encrusted with pearls and crystals. The train was attached with a draped obi sash. Her crown of pearls and crystals held her

veil of illusion net. She carried a cascade of white roses.

Miss Joan Modjeski was maid of honor and Miss Connie Larson, Anoka, Minn., was junior bridesmaid.

**THEY WORE** identical gowns of apple-green satin in street length, with matching bell-shaped, floor-length detachable overskirts. Their matching veils of silk net were held by rhinestone tiaras. They carried cascade bouquets of red carnations.

Walter Leifeld Jr., brother of the groom, was best man. Ushers were Donald Leifeld, Fort Bragg, N. C., and James Sreec. A breakfast for the bridal party and immediate families was given at noon and there was a reception afterwards in the Cathedral Hall.

The bride's mother wore a three-piece powder blue suit and the groom's mother wore a blue dress. Both had corsages of white roses.

The couple went on a wedding

trip to Chicago and Lansing, Mich. They will make their home in Winona.

**THE BRIDE** is a graduate of Cotter High School and the Winona Secretarial School and is employed as a secretary. The groom attended Winona Senior High School and St. Mary's College. He is in the traffic department at Bay State Milling Co.

Pre-nuptial showers were given by Miss Modjeski and by Miss Gail Ryder, Minneapolis.

### Rosary Society Sets Meeting

ARCADIA, Wis. (Special) — The Rosary Society of the St. Stanislaus Catholic Church will hold its monthly meeting Sunday at 2 p.m. in the church recreational rooms.

All plans of the 50th anniversary celebration of the society will be announced at this time. Hostess will be members of Group 6 with Mrs. John Motzko as chairman. Other assisting will be the Mmes. Peter G. Bautch, Edward Giemza,

Jerome Klink, Valentine Lisowski, Albert Motzko, Marvin Rosenow, Martha Roskos, Roy Roskos, John Rybarczyk, Albert Skroch, Susan Sobotta, Peter Sonsalla, Clifford Urbick, and Severyn Waldera

### Rabinovitz Nomination Terminated

WASHINGTON (A)—The adjournment of Congress Monday canceled the nomination of David Rabinovitz as judge for the U.S. District Court in Western Wisconsin.

Rabinovitz, who was the choice of the late President John F. Kennedy for the post, declined comment.

Best known as a labor attorney, Rabinovitz was challenged for the appointment because he names his home at Sheboygan, in Wisconsin's eastern District. Also, he received a no confidence vote from lawyers participating in a State Bar poll on his qualifications and was opposed by the American Bar Association.

Rabinovitz, an early backer of Kennedy's campaign for the White House, also is Wisconsin's Democratic national committeeman. He was selected for the post left vacant with the death of Judge Patrick Stone a year ago next month.

The appointment of Rabinovitz bogged down in the Senate Judiciary Committee. Under congressional rules, the nomination expired with the adjournment of Congress.

A new nomination will be up to President Johnson, who could resubmit Rabinovitz' name to Congress after it reconvenes Jan. 7 for the second session. However, it was considered unlikely that he would do so. Failure of the full Judiciary Committee to act formally on the nomination indicated that it did not favor the appointment.

All mollusks bear a remarkable organ called a mantle, a kind of living skin or pad that secretes a limestone substance for the shell.

Send me copies of "The Torch Is Passed" Book.

Enclosed is \$ Make checks, money orders payable to THE ASSOCIATED PRESS.

Name

Address

City State

(Be sure to mail to Poughkeepsie, N. Y.)

Please Be Patient

1,100,000 Order 'Torch Is Passed'

Please be patient on the Kennedy Book. Tremendous demand to date indicates that delivery will not be as fast as first hoped on "The Torch Is Passed."

This is the hard cover volume prepared by The Associated Press and recounting in dramatic pictures and new, original text the death of President Kennedy and the events that followed.

Most Associated Press newspapers, including this one, are participating in the project, as a result, orders for the book

have poured in so fast to AP headquarters in New York that the total already stands at 1,100,000 copies.

Although one of the largest publishing houses in America has put its full resources into the job, and has actually started producing books, it will take weeks to meet all demands.

You can still order a copy of "The Torch Is Passed" by filling out the coupon and sending it along as directed, with your \$2 remittance.

Judge Denies Cut in Bail For Mastrian

ST. PAUL (AP) — Federal Judge Earl Larson today denied a reduction in bail for Norman Mastrian, accused middleman in the Carol Thompson murder.

Attorneys for Mastrian had asked a cut in the former boxer's \$100,000 bail to \$10,000.

Motorist Found Guilty of Charge

A 22-year-old Winonan was sentenced to pay a fine of \$25 or to serve eight days after he was found guilty in a municipal court trial today of the charge of speeding.

Ralph H. Rydman, 1074 Marion St., had posted \$25 bail Saturday after entering a plea of not guilty and the bail was used to pay the fine.

He was arrested by police on Highway 14-61 near Breezy Acres at 8:15 p.m. Friday. Police charged him with driving 65 m.p.h. in a 55 m.p.h. zone.

Rydman did not testify. Patrolmen John Erickson and William Gordon were the only witnesses. James Soderberg, city prosecutor, represented the state.

Erickson and Gordon said they followed Rydman east from Huff Street on the highway. They said he stopped at the junction of Highways 43 and 14-61 and continued east.

Both said they clocked Rydman's car at 72 to 74 miles per hour, but only charged him with driving 65 miles per hour. The arrest was made one-quarter mile east of Breezy Acres.

Rydman cross-examined both patrolmen in regard to technical data involved in clocking a car's speed.

Father, Son Dead in Mishap At Worthington

By THE ASSOCIATED PRESS A Worthington, Minn. father and son were killed and three feminine members of the family critically hurt late Monday when their car skidded into the path of a truck a mile west of St. James.

Dead were Kenneth Fischer, 38, and Richard, 7. Hospitalized with reportedly severe injuries were Mrs. Louise Fischer, 36, identified as the driver, and the couple's two daughters, Pamela, 12, and 11-year-old Sheila.

Officers said the Fischer car slid broadside into the path of the semitrailer driven by Donald Meyer, Mountain Lake, who escaped serious injury. The smash occurred near the junction of Highways 4 and 60.

Fischer, employed by Armour & Co., only recently had been transferred from Omaha to Worthington, where the firm is constructing a new plant.

In Minneapolis, a woman police identified as Esther Olson, 55, was fatally injured as she crossed a street near her south-side home Monday night. Officers said the car was driven by Lyle LeRoy, 51, also of Minneapolis.

The deaths carried the Minnesota traffic toll to 784, a jump of 93 from a year ago and 60 above the all-time mark for an entire year, set in both 1960 and '61.

WEST LEBANON, Ind. (AP) — Mrs. Marjorie R. Brizius, 46, South St. Paul, Minn., was killed and her husband, Russell, 50, and their three children were seriously injured Monday night in a traffic smash near here.

An Indiana father and son were killed in the collision police said occurred on a straight and dry stretch of Indiana 63.

Brizius and his children, Richard, 14, Lorraine, 16, and Steve, 6, were hospitalized in nearby Danville, Ill. in reported fair condition. He is a hog buyer for Swift & Co. and had been en route home after a holiday visit with relatives in Evansville, Ind.

St. Charles Masons To Begin Centennial Year Observance

ST. CHARLES, Minn. — Activity during its centennial year will be discussed by members of Rising Sun Lodge 49, AP & AM, at its first 1964 meeting Thursday night. M. K. Bailey, who will become worshipful master, will discuss masonry and American history.

At the Jan. 16 meeting centennial year activities will be further discussed and plans for the lodge's father and son banquet in February will be confirmed.

At a smoker Jan. 25 a film provided by Northwestern Bell Telephone will be shown, followed by a card party and social.

# Winona's Gordon Gutzmann: The Tale of a Busy Man

**A WEEK IN THE LIFE OF A BUSY MAN . . .** Gordon (or Gordy as he is better known) Gutzmann, YMCA physical director, is a busy man, a man with no time for idle moments. This panel of pictures show just some of the many activities Gutzmann directs in the span of a week. Across the top left to right, he instructs Bob Nystrom in swimming while Jim Heise (with back to camera), Dennis Sievers and Allen Holmes look on. Center, Earl Hagberg, Community Memorial Hospital administrator, gets ready to take the step test — part of the adult physical fitness class held at the "Y" — while Gutzmann takes down the results with one hand and runs the stop watch with the other.

At right, Paul Miller gets some gymnasium instruction on the parallel bars. The center group of pictures show (left) Gutzmann conducting a junior leaders meeting. Around the table from left are Fred Williams, Allen Holmes, Mike Farrell and Stan Hammer. Center, Mrs. Glen Fischer is shown the proper serving stance for badminton. At right, Fred Heyer works out in the weight room under Gordy's watchful eye. The bottom two pictures catch Gutzmann (left) giving Gary Spencer a handball lesson and then (right) working with the YMCA swim team. The swimmers are, from left, Bob Tepe, John Burmeister, Mark Stephenson and Mark Allen. (Daily News Sports Photos by Merritt Kelley)

# Winona and Surrounding Area Enjoys Banner Year in Athletics

By BOB JUNGHANS  
Daily News Sports Writer

What a great year it was on the sports panorama. This year of 1963, which is just about to go by the boards, had everything a sports enthusiast could want.

The local scene was no exception, with the current 365-day span being capped with the naming of hard-working YMCA physical director Gordy Gutzmann as Winona's "Man-of-the-Year" in athletics.

The Winona Daily and Sunday News Sports staff has chosen the top local and area sporting events of the year.

**JAN. 8** — The first of Winona's major occurrences happened just eight days after the new year began, with a visit by a pair of nationally known figures, Lenny Green and Rich Rollins of the Minnesota Twins visited the Winona Athletic Club for a "Meet the Twins" banquet.

**JAN. 25** — Local golfing got into the news in the middle of the winter when WESTFIELD Golf Course announced a proposed expansion, including a new \$95,000 club house and lengthening of the course by 150 yards.

**FEB. 15** — GALE-ETTRICK High School saw its bid for a perfect basketball season end

on this Friday night as Bangor pulled off a 64-58 upset to end the Redmen's skein at 16 on the last night of the season.

**FEB. 22** — All Rushford and area race fans were saddened as ERNIE TUFF'S modified 1953 Studebaker crashed in a practice run at Daytona Beach International Speedway.

**FEB. 24** — Just two days later, COTTER HIGH SCHOOL won its almost annual trip to the Minnesota State Catholic Basketball tournament by taking the Region 6 title thanks to a 56-50 decision over a hard-fighting Wabasha St. Felix team.

**FEB. 27** — A basketball win in itself is nothing unusual, but ST. MARY'S turned in a record performance this Wednesday night by handing Hamline University a 79-68 loss. This completed a two-game sweep of the season series for the Redmen, the first time they had been able to beat Hamline twice in one season in St. Mary's history.

**MARCH 1** — With the prep cage tournaments in full swing, LAKE CITY and PLAINVIEW combined for a scrap which ended in a sea of glass when one of the glass backboards was shattered. Lake City led 42-34 in the third quarter when the incident occurred, but with the game postponed 24 hours, the Gophers came back to win 57-56.

**MARCH 7** — Bowling got into the picture in a big way this night, as HELEN NELSON roared to a 246-669 set, tying a 21-year-old Winona all-time women's series record.

**MARCH 8** — PLAINVIEW found a place in the heart of

nearly every basketball fan as it captured the District 3 crown by befuddling a heavily favored Rochester five 40-38.

**MARCH 9** — With Winona State College hosting the NSCC wrestling championships, two of the home favorites grabbed individual titles. PAT FLAHERTY won the 177-pound division, while DAVE MORACCO prevailed at 137.

**MARCH 15** — PLAINVIEW is back again. The 50-50 regular season team, the Cinderella squad of tournament trial, saw its hopes for a state berth dashed at the hands of Austin 60-53 in the finals of the Region One tourney.

**MARCH 24** — An era came to an end as BILL HARGESHEIMER decided to hang up his whistle after 37 years of basketball officiating.

**MARCH 27** — Bowling leaped back into the limelight when the BTJ team of Mickey Spencer, Ches Modjeski, Joe Grease, Cal Hopf, and Roger Bilgen rifled a 3,261 series in the Retail League at Hal-Rod Lanes. It was the highest total hit in Winona in 15 years.

**APRIL 9** — For the fifth year in a row, SHORITY'S BAR-CAFE won the indoor softball title, and this Tuesday evening they turned back Sunshine Bar 3-2 to win the championship playoff for the fourth time in five years.

**APRIL 11** — KEITH HANZEL, a 1959 graduate of St. Mary's, was named to succeed Max Moleck as head hockey coach at the school on Terrace Heights.

**APRIL 16** — A Stockton native, Winona High graduate, and

freshman at Macalaster College, JOHN VAN WINKLE ended a sterling swimming season in which he helped the Gusties to a second place finish in the NAIA nationals, and a record time of 3:27.4 in the 400-yard freestyle relay.

**MAY 18** — Over a month went by before the next occurrence, but ROGER LEONHARDT broke the doldrums in a big way, slamming a pair of grand slam home runs in Winona State's 16-3 route of Bemidji.

**MAY 21** — For the first time in the school's history, CALEDONIA LORETO sent a team to a state tournament. The 11-man baseball team battled odds all the way to gain the tourney berth.

**MAY 25** — For the third straight year, the WINONA STATE baseball team went to the NAIA nationals at St. Joseph, Mo., by taking two games from Warburg 4-0 and 2-1 in the playoffs.

**MAY 28** — It has been almost half a year, but another nationwide figure finally ventured to Winona. This time it was All-American end of the University of Wisconsin PAT RICHTER who spoke at the Father and Son Banquet at the YMCA.

**JUNE 7** — DENNIS LORTSCHER, pride of the Lake City High School baseball team, lost a 2-0 decision to Austin in the Region one tournament finals despite giving up only one hit.

**JUNE 8** — With Winona State's baseball team finishing fourth in the NAIA tournament, ROGER LEONHARDT and JON KOSIDOWSKI were named to the All-Tournament team.

**JUNE 10** — STEVE WALLY, Winona High graduate and starward catcher for the University of Minnesota baseball team for four years, signed a professional baseball contract with the Washington Senators.

**JUNE 18** — TOM WARNER, St. Mary's graduate, and head of the Minnesota Junior Legion baseball program, visited Winona for a special meeting with Winona's LeJez.

**JUNE 18** — Twice in one day the local sports world was rocked. Lake City pitcher DENNIS LORTSCHER inked a professional baseball contract with the Minnesota Twins.

**JUNE 20** — For the first time in years, Winona's Gabrych Park was jammed with a standing room crowd as EDDIE FEIGNER (The King) and his court came to town. The four-man routed an aggregation of Winona softball players 10-1 as 2,300 watched.

**JUNE 27** — With winter bowling leagues ended, the action on the alleys is usually quite modest, but DICK NIEMEYER broke the silence with a booming 715 series the first 700 hit by a Winonian in 3 1/2 years.

**JULY 30** — On this drizzly afternoon, two of the PGA's best, DOUG FORD and JERRY BARBER, arrived at the Winona Country Club for an exhibition match and clinic.

**AUG. 4** — JON KOSIDOWSKI, whose bat and pitching arm helped the Winona State's nine gain a spot in the NAIA national three years in a row, was chosen to the NAIA All-American team as an outfielder.

**AUG. 9** — The VFW BUDDIES

baseball team rapped up the league title and fought its way into the state tournament, stopping Austin 9-6.

**AUG. 9-11** — The infant SUGAR LOAF WATER SKI CLUB was chosen as the host for the Midwest Regional Water Ski finals on this beautiful weekend.

**AUG. 11** — The Water Ski meet brought another furious sportsman in action, BUD BALFANZ, U. S. Olympic snow ski jumper watched the water sport and decided, "You'd never get me to go off one of those crazy things."

**AUG. 15** — With sagging waistlines, but high spirits, some of Winona's former baseball players took the field in an "OLD TIME'S GAME" at Gabrych Park.

**AUG. 18** — Heartbreak! Winona's VFW BASEBALL TEAM missed bringing home the state trophy by a single out as they fell to Wells 4-3 in the finals. A 3-1 lead in the bottom of the seventh evaporated on the back of a Wells' rally with two outs.

**AUG. 19** — SUNSHINE BAR unseated Lang's as champions of the Park-Rec National softball league 8-3 in a playoff after the two had tied in regulation play.

**AUG. 21** — CALEDONIA had another diamond nine gain a state tournament when its Tri-State champion team toppled Rochester Kahler 1-0 behind Gordy Bauer's three-bitter for a berth in the Class B tourney.

**SEPT. 1** — More honors were piled on Winona's JON KOSIDOWSKI as he was voted the NAIA Most valuable player in the Wisconsin Class A state ama-

teur baseball tournament. He helped Pepin win its second straight title.

**SEPT. 21** — A packed house at Winona State's Maxwell Field saw Little-All American GEORGE BORK riddle the Warrior pass defense and propel the Northern Illinois University Huskies to a 60-0 shellacking of Winona State.

**OCT. 1** — With winter bowling leagues back in action, BUD STEINHOFF started out the season with a bang, sailing to a 705 for the second Men's National Honor Court hit by a Winonian in three months.

**OCT. 25** — GALE-ETTRICK finished out its football season with a perfect 8-0 record and its fourth straight Coulee Conference grid title.

**OCT. 31** — JIM ELLIOTT, who guided the football fortunes of Winona High School for four years, called it quits after the Winhawks played their final game of the season.

**NOV. 14** — With prep sports in full swing, and action starting to pick up prior to the holiday season, another Minnesota Twin made an appearance in Winona. LEE STANGE, likeable Twins hurler, put on a bowling exhibition at Westgate Bowl before a crowd of 300.

**NOV. 17** — With the onslaught of seven-footers such as Walter Dukes and Will Chamberlain, the Winona area finally got into the skyscraper act. Holmen High School, with an enrollment of 200, found a potential giant when 16-year-old EINO HENDRICKSON became eligible for the sports. The youngster scales 7 feet tall — plus 3/4 of an inch.

**NOV. 22** — The blackest day in memory, PRESIDENT JOHN F. KENNEDY was assassinated, and out of respect for the sports-loving President, most sporting activities were cancelled.

**DEC. 1** — Cotter High School finished one of its most successful grid seasons with a 5-3 record, and standout GENE SCHULTZ was picked to the All-State team.

**DEC. 3** — Despite a dismal season, some of Winona State's grid efforts were not overlooked as ace defensive back BRUCE ZELLMER was drafted on the 19th round by the Detroit Lions National Football League team.

**DEC. 5** — A 13-year veteran of the professional racing circuit came to Winona this wintery Thursday to speak on driving safety. DUANE CARTER spoke at Winona Senior High School and a Kiwanis Club luncheon.

**DEC. 13** — The drought finally came to an end at HOKAI ST. PETER HIGH SCHOOL, as the Indians recorded their first basketball victory after 46 straight losses, defeating Caledonia Loreto 61-48.

**DEC. 27-28** — COTTER HIGH SCHOOL sponsored its first annual Holiday Basketball Tournament at Memorial Hall, and the Ramblers made it a success by taking home their own trophy.

**DEC. 31** — The sports year in Winona and area comes to an end as GORDY GUTZMANN, hard working director of the YMCA, receives the credit due him by being named Winona's "Man-of-the-Year in Athletics."
