# **Parks**

Dr. L. G. Hardman, of Commerce, Ga., governor-elect of Georgia, addressed students of the college in chapel April 21st. Dr. Hardman, in mentioning his friendship with Dr. M. M. Parks, praised him highly for his achievements as president of the Georgia State College for Women. When Dr. Hardman introduced into the legislature a bill stating that agriculture and civil government should be taught in all the schools of Georgia, Dr. Parks was one of the first to endorse the bill, and to lend it his support.

Dr. Hardman spoke of the Georgia State College for Women as the most outstanding college in Georgia offering a practical education to women of the state.

During the holidays, just before the death of Dr. Parks, Dr. Hardman received a letter from the late president. The letter now is framed and hangs in Dr. Hardman's library with his priceless treasures.

One of the most elaborate musical productions of the season was rendered at the G. S. C. W. auditorium on Monday evening, April 18th, by the world famous organization known as "The Kitchen Kabinet Orchestra."

This orchestra has traveled far and wide, entertaining large audiences at every stop. Sausa's Band and others deserve mention, but they are not to be compared with the harmonious sounds produced by this organization, and the skillful manipulation of their instruments.

The programme started at eight o'clock, by a brief history of the organization, and the introduction of some fo the most famous members of the band, by the reader, Mary Elliott.

Following this a beautiful musical romance was rendered in a most en- tire week. tertaining way. The members composing the band come from all over the world. They were as follows:

As they have come to us, we can but look upon them as precious gifts, because through them, we have had preserved for us for a long period of time, many social customs, traditions and struggles of mankind reaching back into the dark background of history, we cannot tell how far. They characterize in a unique fashion all their own, some experience of man whether bitter or sweet. Hence, let us appreciate and evaluate not only our present economic, social and religious advanare privileged to enjoy today, but also appreciate the plays and games which have done so much to preand the price they paid toward building a stable society for man. ### THE IDEAL GIRL

The ideal average girl is strong in body, is intelligent, believes in God and strives to obey His laws. She is not afraid to work, and she has courage to meet hardships and loneliness if they come. She is interested in pretty clothes, she wants them for herself. She has what she can honestly afford, and she spends time and takes pains to get the very best she can for the money she has. She likes fun, enjoys amusements and good times. She will not indulge in things of which her parents heartily disapprove or which unfit her for her work and study, and which her own conscience tells her are doubtful. She loves her friends and companions and has as many as she can. She chooses carefully her friends among the boys and men, and lets neither word nor act lower in the less degree, their respect for her. She looks forward to the day when she can have a home of her own, and fits herself to care for it with intelligence and skill. She is honest and faithful to the present tasks. She is kindly generous, helpful, cheerful, just the sort of girl one would like to live with every day.

On the other hand, important as the weather undoubtedly is, there is something a little polling in traversing a street for only a few feet before we meet on acquaintance who professes to boiling, freezing, melting or congealing. Something we do not discuss our corns and dyspepsia in polite society; then is our reaction to the thermometer much more delicate in connotation sometimes? Observe the disfavor of the one topic and the popularity of the second! If our partner of the moment seems a trifle bored, we rush in to make her more so by asking them a weather forecast. After long experience with such conversations, such requests and their makers merely rouse us to perfunctory and indifferent response. Indeed, it is downright unsafe to mention the weather to some too experienced persons, for it immediately stamps the speaker in their minds as a person of mediocre inter. o'clock. The leading rolls will be ests and conversational powers, so strongly associated with the speech of the bore has the weather become!

### CRANFORD PRESENTED BY CLASS IN MODERN DRAMA | Christine Cotner

The student body was especially favored on Saturday night, April 16, when they were given an opportunitv to see "Cranford" presented on the stage in the auditorium.

"Cranford" is a play which would Chopin, Etude G. flat maj. Op. 25, appeal to any audience but this time it proved to be unusually interesting, due to the fact that hte cast included members of the group now studying modern drama.

Mary Jane Parker, a member o pointed as coach and undoubtedly much of the success of the play was due to her untiring efforts to her skill and to her great enthusiasm.

One could not fail to fall immediately into the spirit of the play for as soon as the curtain were drawn back. Miss Katherine Scott, who is teacher of the class, appeared on the stage dressed in a most beautiful old-fashioned costume. # Laurant the Magician.

The last number of the lyceum course was given in the auditorium Saturday night, April 23. Laurant, the magician entertained the student body with his tricks of magic. The program given was very elaborate, combining "wizardy, music, fun, and colorful splendor."

Mr. Laurant has been the profession for twenty years, and has traveled extensively in search of new attractions for his programs which include old Chinese and Indian numbers. Recently he was presented with a gold medal by the Society of American Magicians.

On his travels he is usually accompanied by Mrs. Laurant, an accomplished musician. She often occupies an important place on his program and often aids in his feats of magic.

the Spring, and his woodnymphs play about hither and yon. The Tree Hearts are awakened and come out and dance upon the green, a privilege granted to them, according to tradition, once in every hundred years. "Whether we look on whether we listen, we hear life murmur, or see it glisten."

The winds become the couriers of Spring, awakening each and every nation.

Second, come the "Gifts of Nations" whereupon our minds wonder to Springtime in Hellas with its old Story of Persephone and the Olym-England flash before our eyes with they represented can terminate in all their glory and greenness and freshness. We think of Robin Hood pacing before the Queen of May his stand as an Outlaw. The Maypole sympolizes the Tree of Life with its gay waving streamers. The bouquet of flowers on the top of the Maypole tradionally was called the "Queen" adn was presented to some distinguished guest at the end of the program. We hear various nations shown in their rethe Milkmaids singing-

And mount up in the air with the in." dew all on her breast;

And like the pretty ploughboy, she will whistle and will sing,

And at night she will return to her own nest back again."

And we remember that,-"This is Chimney Sweepers Dancing Day,

So curl your locks as I do mine, One before and one behind."

Third, come the "Gifts of Playgrounds" wherein are depicted the whole year through, plays and games of all-nations and of all Natures. Once again our mind returns from its wonderings to Springtime at G. S. C. W. Here are depicted, all kinds of plays and games of many nations. We also play competitively, plays and games which are Religious, Ritual, Social, Industrial, Classical; Re-

### PROGRESS OF PARKS MEM-ORIAL DRIVE DISCUSSED

Macon was the assembly hall of many and varied associations from April 10 through 16. The meeting thatheld the greatest interest for the G. S. C. W. girls was the Alumnae dinner given at the Y. W. on Friday evening, April 15.

Over a hundred and fifty guests were present, members of the Alumni from all over the state, members of the faculty, representatives of the present student body included the G. S. C. orchestra, and others.

Miss Mary Brooks, president of the association,, introduced the chairman for the evening, Miss Caro Lane, of Milledgeville. Ga. Miss Lane immediately took charge of the program and with very appropriate remarks introduced the guests and the members of the faculty.

Dr. J. L. Beeson gave the initial speech of the occasion and brought to the attention fo the assembly the real purpose fo the meeting, the discussion of the Parks Memorial Hospital. During the course of the evening a number of inspiring talks were given on the subject nearest the hearts of all those who once

knew Dr. M. M. Parks. Miss Gussie Tabb, who has charge of the organization of the different districts, called for reports from the chairmen. The enthusiastic answers she received were a credit to her organization. Mary Lee Anderson, degree senior; Marguerite Clark, junior; Ruth Vaughn, sophomore normal, and Dorothy Jay freshman, reported their class mates.

Of all the meetings held in Macon during that week the participating feel that the alumnae dinner was the most successful. None of the G. S. C. spirit was lacking, it even appeared strongest, if possible, in those who had been away the longest. The pic Games. In conclusion, we all agree that through plays and games a greater brotherly love is experienced. Now, can it not be possibly, or a true prophecy, that through modern playgrounds, a greater Brotherhood of Man is to be experienced because spective plays nad games played in childhood? Will not the child, through combining plays and games I met a pretty damsel, so sweetly she of all nations, grow into a man or a woman of greater sympathy, love And as we were a-walking, unto me and appreciation of all mankind, and then want to work toward a greater Unity of Mankind?

### Y. W. C. A. COMMITTEE CHAIRMEN ANNOUNCED

There have been chosen twentytwo people from the membership of Y. W. C. A. to serve as chairmen of committees next year. Each one of these will be responsible for the functioning of a separate committee.

Hhe girls on the campus will be divided according to their interest along certain lines and will be given to a special chairman, to work with her. In this the whole campus is organized and given certain tasks. It can be seen how futile it would be for the chairman to attempt to carry on the work of a whole committee. She needs each girl in her group, and they in turn need her. Thus to make the association work for the coming year effectively there must be the closest cooperation between the girls who are on committees, the heads of those committees, and the heads of departments.

Those people who are committee chairmen for the year 1927-28 are: Agnes Poole, Membership Com-

nittee. Marie Smith, Conference Conven-
