THE COLLEGE OF THE HOLY CROSS

WORCESTER, MASS.

Conducted by the Fathers of the Society of Jesus.

FOUNDED 1843.

Historical Statement.—The College of the Holy Cross, founded in the year 1843, by the Right Rev. Benedict Joseph Fenwick, second Bishop of Boston, is the oldest Catholic college in New England. The most cherished wish of Bishop Fenwick was to establish in his diocese an institution which should furnish a secular education of the highest grade, and at the same time thoroughly imbue its students with the principles of the Catholic faith. He was aided in his first steps to realize this desire by the generosity of the Rev. James Fitton of Boston, who in 1840 had erected on Poackachoag Hill, or Hill of Pleasant Springs, near Worcester, the Seminary of Mount St. James. This, with nearly sixty acres of land attached, Father Fitton presented to the Bishop in 1842, and on the site of this structure, or in its immediate vicinity, the distinguished prelate determined to lay the foundation of his college.

The fact that the site was a gift was not the only consideration that induced the Bishop to erect his college upon it. The healthfulness of the location and the natural beauty of the scenery that surrounds it were controlling motives. Towards the north, this Hill of Pleasant Springs commands an extensive and most delightful view of Worcester, at the time of the founding of the College a town of

hardly 10,000 inhabitants, now a bustling city of more than 120,000, and, next to Boston, the largest of Massachusetts. Over and beyond its many steeples and spires and other elevations, in the background towers aloft the summit of Mt. Wachusett. Stillwater, a lake in miniature, amid the hills to the northwest, the Blackstone running along their base, the village of Quinsigamond and the town of Millbury to the east and south, can all be seen from the brow of the hill. The view thus afforded of the busy city, the succession of hills and intervening valleys, make the location of Holy Cross College most charming and interesting.

On such a site, and amid such surroundings, was the College of the Holy Cross begun. The Bishop had called the Fathers of the Society of Jesus to take charge of it. Classes were organized in the Seminary of Mt. St. James on the 2d of November, 1843, and there continued until January 13th, 1844, when the college building was completed. The corner-stone of the latter was laid by Bishop Fenwick on June 21st, 1843. The first annual exhibition was held July 29, 1844. The saintly Bishop Fenwick died August 10th, 1846, and was buried, in compliance with his own wish, in the College cemetery. He had taken a deep interest in the success of the college. A few days before his death, the 6th of August, he ceded to the Fathers full control and possession of the institution which he had founded, with the buildings and grounds free of incumbrance.

A class of the students, who had entered in 1843 and 1844, had advanced to "Philosophy," by which name the Senior year was then known, and were ready for graduation in 1849. The college, therefore, in that year applied to the Commonwealth of Massachusetts for the privilege of incorporation. The petition for a charter was presented in March, 1849, and was acted upon early in April. The petitioners were disappointed. The charter was not granted until the year 1865, when the sobering influence of the Civil War had caused all differences of opinion in regard to the college to be set aside.

If the students were disappointed in the hope of receiving their diplomas from their Alma Mater, they were not deprived of the

benefits of graduation. Georgetown College conferred the degrees on this and all succeeding classes until 1865. His Excellency the Governor, Alexander H. Bullock, at the Commencement in 1868, alluding to the successful attempt to obtain a charter, said that he had been deeply impressed by the manner in which the friends of the college hid all signs of disappointment, and exhibited a patience which, under such circumstances, he should hardly have dared to expect from many Christian denominations.

On the afternoon of July 14th, 1852, eight days before the annual commencement, a fire broke out which destroyed the whole of the central building, a calamity which not only suspended the class exercises, but threatened the very existence of the institution. The Rt. Rev. John B. Fitzpatrick, who was then Bishop of Boston, sympathized heartily with the Faculty, and determined that the college, which had been a monument to his predecessor's zeal for Christian education, should not perish. On the 3d of October, 1853, the college, enlarged and remodelled, was again opened.

It was during the Civil War, as hinted at above, that the college, besides having become endeared to the Catholics of New England, had attracted the favorable notice of many of their non-Catholic brethren. The most distinguished among those who manifested an interest in the college at this period was His Excellency the War Governor, John A. Andrew. He visited and examined the institution during the school term of 1862, and presided at the annual commencement held July 7, 1863. On the latter occasion he spoke in the highest terms of the college, and the sincerity of his praise was unmistakable. He had taken pains to acquaint himself with the methods of teaching, and was qualified to bear testimony to their excellence. The impression made upon the Governor during these two visits secured his interest in behalf of a charter, and he more than once urged the Faculty to apply for it.

The interesting event of incorporation was not long delayed. The petition was presented to the Legislature in the session of 1865, and a bill framed to meet the exigencies of the case, and read a third time in the House of Representatives on March 21st, was passed

without opposition. The senate confirmed the action of the lower body, March 23d, and on the following day the Governor affixed his signature.

The charter granted to "The Trustees of the College of the Holy Cross," with other privileges, the power "to confer such degrees as are conferred by any College in this Commonwealth, except Medical Degrees." This placed the college on an equality, before the Commonwealth, with all other institutions of a similar character. It was no little gratification to the Faculty that their earnest devotion to the cause of religion and education was acknowledged by the State, and it was a source of pride to the students to be able to receive from their Alma Mater, in her own words and over her own seal, the testimony of her approval.

The college was particularly indebted to Hon. Alexander H. Bullock for many acts of courtesy. As a resident of Worcester, he had always taken a neighborly interest in the college, while Speaker of the House he offered to present the petition for a charter, and while Governor of the State he presided at three successive commencements.

Location and Equipment.—The college buildings, as stated above, are situated on one of the highest of the eminences surrounding the city of Worcester, and command an extensive view of the surrounding country. To this delightful prospect exceptional advantages of pure air and perfect drainage are added by this high elevation, while the graceful terraces to the north and west of the college buildings furnish recreation grounds that are unsurpassed in every respect.

The old buildings, whose accommodations satisfied the student of a quarter of a century ago, have been enlarged and improved in many ways, and extensive new constructions and improvements have been made.

An improvement of vast importance, begun in the spring of 1875, was the raising and extending of the east wing of the building. This wing, the only part of the building spared by the fire in 1852, gave place in time to a structure one hundred and twelve feet long,

with an east frontage of ninety feet. Like the centre and west wing, it is five stories high. On the first story is the refectory; on the second, the study hall. The chapel is on the third floor, and occupies the space of two stories. Everyone is impressed on entering it by its fine proportions and general beauty. Adjoining this wing, on the southeast corner, is the infirmary.

The latest and chief improvement, however, is the large addition to the college, completed in the spring of 1895, and formally opened in September of the same year. Nothing that could help to the advantage and convenience of the students was omitted in its construction. In this new building is the gymnasium, one of the largest in New England, 139 feet long, 50 feet wide, and 20 feet high. It is equipped with all the apparatus usually found in modern gymnasiums; a running track, one-seventeenth of a mile in length, elevated about ten feet from the floor, skirts the entire hall. Off the main gymnasium, shower baths are provided for the students.

Another large apartment is the new Fenwick Hall. This is finished in light wood, so that the close row of double-arched windows on the west and south, throwing floods of light upon the already bright interior, make it a most attractive assembly room. This hall is used for the weekly elocution classes, the dramatic exhibitions of the students, the public and private debates, and all general assemblies of the students. It is provided with a stage equipped with all the latest theatrical appliances and is lighted by electricity.

The scientific department on the second floor is provided with all the necessary conveniences for physical and chemical laboratories. The lecture-room for Physics and the laboratory for Analytical Chemistry are large and specially designed and constructed for the purpose.

The class-rooms on the third floor of this building are spacious and cheerful, the corridors long, wide and lightsome.

The two floors above the class-rooms are reserved for the private rooms of the Seniors, Juniors and Sophomores. These rooms are pleasantly situated with east and west exposure.

The upper floor contains a large and well-ventilated dormitory, to which is attached a spacious and well-furnished lavatory.

Educational System.—The system of education is the one in use in all the colleges of the Society of Jesus, and is guided by the principles laid down in the famous *Ratio Studiorum*. This body of rules and suggestions has been elaborated by centuries of experience and has been judged worthy of attentive study and hearty approbation by the ablest scholars. One of its greatest advantages is that it secures, what can hardly be found elsewhere, and what is an essential requisite for success in educational work, natural, thorough and effective methods of teaching, employed uniformly by all the teachers.

It is not a system of ever-changing theory and doubtful experiment, but one on which have been built the characters of the world's best scholars and statesmen for centuries. It meets the demand for modern improvements by wise adaptation and readjustment. Instead of abolishing prescribed studies and increasing elective courses, it advocates a wise, deliberate and prudent election *by men whose profession is education*, not an unwise, sudden and rash choice *by inexperienced youths just entering on the process of education*.

The natural sciences and modern languages are by no means overlooked or neglected in this system, but the ancient languages and their literatures are still retained as prescribed studies, and, with mathematics and philosophy, form the "essential trinity of courses," which Prof. Ladd of Yale rightly considers "absolutely necessary for a truly liberal education."

After the completion of such a course as is here given, the graduate is not sent to the theological seminary without any knowledge of the language in which the New Testament was written or of the methods of philosophical reflection and their bearing upon the problems of life and destiny. He is not sent to the medical school without some knowledge of physics and chemistry and some idea of the moral responsibility of the physician and surgeon. He is not sent to the law school without an intelligent grasp of the ethical nature and development of man and of the logical processes which make

for and characterize sound judgment. He is not sent to the profession of teaching without some training for success in grasping truth and imparting it to others, some more intimate knowledge of the responsibility of a teacher than he can get from a few vague talks about pedagogy, some more extensive knowledge of psychology than may be acquired by a brief course in "child study." On the contrary, he is sent out from his college so uniformly equipped and harmoniously developed in character that he is prepared to take up and prosecute any career, or even get more pleasure out of a life of leisure than a man who has missed such a preparation. Even as an equipment for a business career, such a preparation, as Ex-President Low of Columbia testifies, "would make him a power in the business world beyond all his compeers who had not been so favored."

Finally, this system does *not* meet the demand of the multitude who are simply anxious to "get through college as soon as possible," but it does make profound thinkers, safe guides, clear writers, logical pleaders and cultured gentlemen.

Course of Studies.—During the preparatory period of four years of high school work and the four years of undergraduate work, the studies are not elective, but prescribed, with a few exceptions in the last two years of the college course. Besides the Latin and Greek classics, the course embraces English, in its various branches and aspects, and correlated studies, such as Rhetoric, Literature, History, etc., one Modern Language besides English, Mathematics, Chemistry, Geology, Astronomy, Mechanics, and a thorough training in Physics and Rational Philosophy. The course is described in detail further on.

Moral Training.—In this system of education, one of the most important features is the formation and training of character. Hence a closer supervision is exercised over the students than is usual, at the present day, in most of the large colleges; but the manner of doing this is such as to exclude every harsh feature. The professors live with the students, mingle with them constantly, interest themselves in their sports, direct their studies and in every way assume the re-

lation rather of friends than of taskmasters. This constant, familiar, personal communication, on kindly terms, between professor and student, is a powerful means for the formation and uplifting of character. The age of the student is also considered, and in the later years of his college course a larger degree of liberty is granted him. With regard to younger students the supervision is as close as any parent or guardian could reasonably expect. With regard to all, the enforcement of discipline, while mild and considerate, is unflinchingly firm, especially when there is question of the good of the student body or of the reputation of the college.

As the greatest help to maintaining good discipline is found in the appeal to conscience and religion, special attention is paid to religious instruction. Christian doctrine is one of the prescribed studies in every class, and weekly catechetical lectures are given to all the students. The students are required to comply with their religious obligations regularly, and to make annually a spiritual retreat of three days. Sodalties and other associations are also provided for the fostering of piety.

Physical Training.—While attending to the mental development of the student and safeguarding his moral character, the college authorities have not overlooked the importance of physical training. Besides the gymnasium already described, the student is provided with foot-ball and base-ball fields, tennis courts, hand-ball alleys, etc. Not only are physical instructors and experienced coaches and trainers provided, but all this is under the moderation and direction of a member of the Faculty, who will see that the students do not become so engrossed in athletics that their studies might be neglected or their health suffer in any way.

Sessions and Holidays.—The year is divided into two terms: the first from September to February, the second from February to the latter part of June. Recesses are granted at Christmas and Easter: the former begins on the 23d of December and ends on the afternoon of the 3d of January; the latter begins at noon on Wednesday in Holy Week and ends on the afternoon of the Thursday after

Easter. Students will be allowed to visit their parents at these times, *but on none of the other ordinary holidays throughout the year.* The ordinary holidays are as follows: Festivals of obligation, state and national holidays, one day after the mid-year examinations and after the annual retreat, and Pentecost Monday. On the second Saturday of each month students whose homes are in Worcester will be allowed to visit them, on condition that they return on Sunday evening. Telegrams and letters asking privileges for students must be signed by parents or guardians, and must be addressed to the President of the College.

Examinations.—There are two examinations in the year: the "Mid-year," at the end of the first term; and the "Final," immediately before the close of the academic year, in June.

Promotions.—At any time during the year, and particularly after the mid-year examination, if any one be found worthy of passing to a higher class, he will be promoted; and such promotion is equivalent to the honors of the class he leaves. Usually, however, promotions are made only at the end of the year.

Reports.—Reports of scholarship and deportment are sent to parents and guardians in December, April and June. Two of these reports give information, also, of the positions held by the students in the two examinations.

Awards.—The honors and prizes awarded at the annual commencement in June are determined by the recitations of the entire year and the examinations. The average for recitations and examinations must be at least 90 per cent. to win a medal or premium; but honorable mention is made of those who attain 85 per cent. or more. As no allowance will be made for absentees, parents or guardians who permit their sons or wards to remain at home beyond the period allotted for vacation or recess cannot expect to see them hold distinguished places in their classes. The Faculty and students assemble at the beginning of each month, when the standing of the students in their respective classes is publicly announced and

testimonials are awarded to the students whose standing is 95 per cent. or higher.

Degrees.—The successful completion of the College course entitles the student to the degree of Bachelor of Arts.

Special Students.—As indicated on the Time Schedule of Lectures and Recitations, provision is made for special students, who may lack some of the requirements for unconditional entrance to any regular class. In these classes, the deficiency in Greek or Latin or both is remedied during the first year, or the first term, according to the previous preparation of the student and his coöperation with his instructors.

In some exceptional cases, special students are allowed to discontinue or omit a prescribed study, but with the express understanding that they thus cease to be candidates for the degree of Bachelor of Arts.

Recitation Hours.—The morning recitation hours are from 8.45 to 11.30; the afternoon hours are from 1.50 to 4. Punctual attendance of non-resident students is insisted on, and such students will not be admitted to classes or lectures, when tardy or after absence, without a note from parents or guardians, addressed to the Prefect of Studies. In the college department, 20 hours a week are given to recitations in the Senior and Junior years, and 23 hours a week in Sophomore and Freshman years. In the preparatory department there are 23 recitation hours a week in each of the four years. For the apportionment of these hours, see the Weekly Time Schedules.

Societies.—Besides the various religious organizations, namely, the League of the Sacred Heart, the Sodality of the Immaculate Conception, the Sodality of the Holy Angels, and the St. John Berchmans Sodality, there are many flourishing societies among the students of both the collegiate and the preparatory departments. Among these may be mentioned the two debating societies—the B. J. F. for Seniors and Juniors, and the Philomathic for Sophomore and Freshman classes—the Dramatic Society, the Library

Association, the Reading Room Association, the Philharmonic Society, the College Orchestra, the Banjo, Mandolin and Guitar Club, the Glee Club, *The Holy Cross Purple* (the College magazine), the Athletic Association and the Camera Club.

Alumni.—The graduates of the College from 1849 to 1902, inclusive, number 830, of which number 719 are still living, most of them holding distinguished positions in the various professions or in mercantile life. They are frequently brought together socially and kept in touch with the college, not only through the circulation of the college magazine, *The Holy Cross Purple*, and by the general Alumni Association, but also by local branch organizations, such as the Connecticut Alumni Association of Holy Cross College, the Worcester County Alumni Association of Holy Cross College, the Bristol County Alumni Association of Holy Cross College, and the New York Alumni Association of Holy Cross College.

Scholarships.—While other institutions number their scholarships by hundreds, and the value of them may be estimated at millions of dollars, Holy Cross is able to offer very few. These she names with grateful benedictions on the heads of those who bestowed them. They are: (1) The Governor Ames scholarship, open to residents of Worcester, on examination, for tuition during the college course, (2) The John Reid scholarship, (3) The Monsignor Griffin scholarship, limited to residents of St. John's Parish, Worcester, for tuition during the college course, (4) The Rev. Robert Walsh scholarship, limited to residents of the Immaculate Conception Parish, Worcester, Mass., for tuition during the college course, (5) the Mrs. Driscoll scholarship, entitling the holder to board and tuition during the college course, (6) The Rev. D. H. O'Neill scholarship, limited to St. Peter's Parish, Worcester, Mass., for tuition during the college course, (7) The Rev. Charles E. Burke scholarship (interest on \$2000), limited to graduates of St. Joseph's High School, North Adams, Mass., (8) The John J. Power scholarship, founded by the Reverend John J. Power, D. D., limited to St. Paul's Parish, Worcester, Mass., for tuition during the college course.

It is hoped that in time other generous friends of the College may be inspired to found at least partial scholarships and thus enable the Faculty, in answer to numerous appeals from deserving students, to make reductions for board and tuition. Thus the interests of education and charity could be made to go hand in hand and the future success of many a promising young man's career would be assured.

Terms.—The following is as complete a general statement as can be given of the expenses of a student's year in either the College or the Preparatory Department, with the terms for payments and some information about equipment and incidental expenses:

Board and Tuition, - - - - -	per annum, \$225 00
Washing and mending linen, - - - - -	" 20 00
Physician's Fee, - - - - -	" 5 00
Gymnasium Fee, - - - - -	" 5 00
Library and Reading Room Fee, - - - - -	" 2 00
Medicines charged to individuals.	
Half-Boarders, tuition and dinner, - - - - -	" 130 00
Day Scholars, tuition, - - - - -	" 60 00
Students of Science, additional, - - - - -	" 10 00
Graduation Fee, - - - - -	" 10 00
Music at the Professor's rates.	
Room and attendance (for upper classes only), per annum, - - - - -	\$50 00 and 70 00

All charges must be paid *half yearly in advance*, or a satisfactory bond given, with two sureties, living in the State of Massachusetts, to pay the same within *one month*. Should any defer paying them for the space of *one month* from the beginning of the term, the President is *directed to remove* their sons and wards from the institution. Should any pupil be removed by his parents or guardians, or *should he in any manner withdraw himself from the college*, before the term expires, no deduction will be made.

No expenditure for clothing or for incidental expenses of the student, nor advances for pocket money, will be made by the institution, unless an equivalent sum be deposited with the Treasurer of the college. The books and stationery necessary for the different

classes may be purchased at the college, but will not be supplied on credit unless special instructions to that effect be given to the College Treasurer.

Each resident student must be supplied with at least two suits for daily wear and one for Sunday, shirts, stockings, pocket handkerchiefs, towels, cravats, shoes or boots, etc. All articles of clothing should be marked with the name of the student.

ENTRANCE REQUIREMENTS.

Students may enter at any time during the year, and, on examination, will be assigned to the class for which their prior attainments have fitted them; but it will be found most to the interest of the student to enter in September.

Satisfactory testimonials of good conduct will be required from all new students, but especially from those who come after the beginning of a course in another institution.

Candidates for admission to advanced classes must pass a satisfactory examination upon all the subjects previously studied by the class which they propose to enter.

From classical preparatory schools of established reputation, students are admitted to the Freshman Class without examination, upon the principal's certificate that they have completed the required amount of work and are prepared to enter college. In such cases, however, a catalogue, giving the course of studies required in his school, must accompany the principal's certificate. Such courses must indicate an advance of four years beyond grammar school studies. The courses prescribed in our Preparatory School may be found further on, and may be taken as an indication of our standard.

In all other cases for admission to Freshman Class, a successful examination is required in the following subjects. Equivalents in certain subjects will be accepted.

LATIN.—(1) Grammar.—The entire Latin Grammar, including a knowledge of all regular syntactical constructions; translation into Latin, at sight, of complex English sentences, entailing the application of rules for relative clauses, indirect discourse and conditional sentences. Prosody—all the rules for quantity, in-

cluding increments of nouns and verbs. Application of rules to hexameter and pentameter verse. Scansion of Ovid and Virgil.

(2) Composition.—Translation into Latin of easy, continuous prose based on Cæsar and Cicero. This requirement is of very especial importance, and great weight will be given to it in the examination. The use of Cicero's Letters, as well as his Orations, as models for the acquirement of Latin idiom, is strongly recommended to those preparing to take this examination.

(3) Authors.—Nepos, Lives of Themistocles, Miltiades, Hannibal. Cæsar, *De Bello Gallico*, 2 books. Ovid, *Metamorphoses* and *Tristia*. Cicero, Selected Letters, *De Senectute* or *De Amicitia*, two of the Orations against Catiline. Virgil, *Bucolics* 1 and 4, *Georgics*, Book 4, *Æneid*, 2 books. For some of these may be substituted Phædrus, Catullus, Sallust.

GREEK.—(1) Grammar.—Etymology complete (including all the irregular and defective forms); the rules for accents; the rules of syntax and their application; the Homeric dialect.

(2) Composition.—Translation into Greek of simple English sentences based on Xenophon's *Anabasis*.

(3) Authors.—Xenophon, *Anabasis*, Books I. and II. Lucian, *Six Dialogues*. Homer, *Iliad*, Books I. and II., or *Odyssey*, Books I., II., and III. For some of these may be substituted Cebes' *Tablet*, Anacreon's *Odes*, *Epitaphs* and *Elegies* of Simonides of Ceos, and Xenophon's *Cyropædia*, *Memorabilia* or *Hellenica*.

N. B.—In assigning the matter above, the purpose of the Faculty is, on the one hand, not to insist on quantity, and, on the other hand, not to accept the mere reading of a stated amount of assigned authors as sufficient preparation for college. In the discussion of the classic authors, both Greek and Latin, the candidate must be prepared to give a complete grammatical analysis of every word, phrase and sentence, and to point out exceptional idioms, and must be informed on the chief points of collateral erudition connected with the text.

ENGLISH.—Higher Grammar.—The candidate must be prepared on the matter contained in Davidson and Alcock's "English Grammar and Analysis," Meikeljohn's "The English Language," or some equivalent work.

Composition.—A brief prose composition will be required, evidencing proficiency in narrative and critical writing. This exercise will be based on books and authors assigned for study in our Preparatory School. (See page 49). Questions will be asked as to the subject matter, method of treatment, structure and style of these books. Fair penmanship and accurate spelling will be considered as essential preliminary requirements.

The authors assigned for 1902-1903 will be: Coleridge, *The Ancient Mariner*; Tennyson, *The Princess*; Addison's *Sir Roger de Coverley*; *Macaulay, *Essays on Milton and on Addison*; *Milton, *Minor Poems*; *Shakespeare, *Macbeth*; *Burke, on *Conciliation*; Lowell, *The Vision of Sir Launfal*.

A careful study of the works marked thus* (subject matter, form and structure) will be exacted; a general acquaintance with the other assigned books will be sufficient.

N. B.—The Uniform College Entrance Requirements in English for 1902 will be accepted, as will any fair equivalent work in this department.

HISTORY.—The History of the Oriental Nations, Greece and Rome; Modern General History; Montgomery's History of the United States, or some equally good history; Elements of Civics.

MATHEMATICS.—Elementary and Higher Algebra; Geometry, plane and solid.—Wentworth's Complete Algebra, and Wentworth's Geometry, or works of equal grade.

SCIENCE.—A fair knowledge of Physical Geography, Physiology and Hygiene, Zoology, Botany, Astronomy and Elementary Physics.

MODERN LANGUAGES.—One modern language other than English is required, preferably French or German; the elements of grammar, including the irregular verbs; translation into English, at sight, of simple prose; grammatical analysis.

N. B. Certificates of the "College Entrance Examination Board" will be accepted, provided they cover the subjects described above.

ENTRANCE REQUIREMENTS.

PREPARATORY DEPARTMENT.

The equivalent of eight years' pre-academic work or the completion of a full grammar course in a public or parochial school is required for entrance to the first year of the Preparatory Department. From applicants who have completed such a course, certificates will be accepted, signed by the Principal of the school.

All other applicants must be prepared to show, on examination, proficiency in arithmetic, English grammar and composition, geography and United States history.

All who make application for advanced standing must give satisfactory evidence, by examination or certificate, of having done the work beyond which they desire to be advanced.

Applicants who are not prepared to meet the requirements for entrance on the first-year courses, may enter a special class (Rudiments), where they will be taught the branches in which they are deficient.

Although students may enter at any time, it will be found most to their interest to enter in September.

Every candidate for admission, who is not personally known to some one connected with the institution, must furnish testimonials of good moral character.

SUBJECTS DEBATED

in the B. J. F. Society during the past year.

- Resolved:* That the coal operators should recognize the labor unions of which their employees are members.
- Resolved:* That a Catholic University should be established in or near the City of New York, embracing all the essential advantages of the great Protestant Universities.
- Resolved:* That the Senators of the United States should be elected by the direct vote of the people.
- Resolved:* That tariff for revenue only is desirable.
- Resolved:* That the college course for the degree A. B. should be shortened to three years.
- Resolved:* That the United States, in preventing the forcible collection of claims from Venezuela, by the allied powers, is acting within its rights.
- Resolved:* That the public ownership of common utilities would be detrimental to the general welfare of the United States.
- Resolved:* That the United States should increase the efficiency of its fleet, so as to make it the equal of the navies of Europe.
- Resolved:* That the policy of the President in appointing negroes to office is prejudicial to the Republican party.
- Resolved:* That the newly acquired possessions of the United States are, economically considered, a burden to the Republic.
- Resolved:* That the Chinese Emigration Law of 1882 should be reënacted.

FINAL DEBATE.

- Resolved:* That the powers enjoyed by the Labor Unions of the United States to-day are excessive.

Philomathic Society.

This Society was founded in 1873. "The object of the Society is to cultivate in its members the faculty of debating and to afford them an opportunity of acquiring information on subjects which shall be principally of an historical or literary character." (Const., Art. II.). Membership is limited to members of the Sophomore and Freshman classes.

SUBJECTS DEBATED

in the Philomathic Society during the past year.

- Resolved:* That religious instruction should be given in the public schools.
- Resolved:* That the right of voting should be restricted by an educational qualification.
- Resolved:* That the policy of protective tariff should be abandoned by the United States.
- Resolved:* That it would be unjust in the United States government to demand the withdrawal of the Friars from the Philippines.
- Resolved:* That an anti-trust law should be enforced by the government.
- Resolved:* That immigration to the United States should be restricted.
- Resolved:* That municipalities should own and control lighting and transportation facilities.
- Resolved:* That labor unions promote the best interests of workingmen.
- Resolved:* That suffrage should be denied negroes in the Southern States.
- Resolved:* That a system should be adopted by which the A. B. degree could be obtained in three years.

The Dramatic Society.

The first dramatic societies established at the college were the "Poackachoag Dramatic Club," founded in 1849, and the "Smithsonian Ethiopian Minstrel Club," established the same year. The dramatic club was reorganized under the former name in 1864. The society was established on its present basis in 1889. Its chief aim is to promote elocution by training the students in dramatic art. Classic dramas are presented each year with marked success.

The Students' Library.

The Students' Library, which at present contains about 3500 volumes, was opened for general use in the fall of 18.5. Previously, reading matter was supplied from the libraries of the various literary and debating societies. These special libraries were generously donated to the general library. An annual fee of \$2.00 is imposed upon all the students. From the revenue thus accruing, over 500 new volumes, containing the best works in prose and verse, were added this year. The library is open daily from 12 to 1 P. M. No book may be kept out beyond two weeks.
