LA SALLE COLLEGE BULLETIN (USPS 299-980) Volume LXIII May 1982 No. 2

Published four times a year, in March, May, June and December
by La Salle College, Olney Ave. at 20th St., Philadelphia, Pennsylvania 19141.
Second Class postage paid at Philadelphia, Pennsylvania

General Information

During 1982 there are two Summer Sessions of five weeks each, offering credit courses—Session One, June 1 through July 1; Session Two, July 6 through August 5—and one ten week Summer Session offering both credit and non-credit courses, June 1 through August 5.

Besides matriculated La Salle students, men and women from other institutions are welcome, provided they obtain the approval of their own academic officers and meet the requirements of La Salle College.

La Salle College does not discriminate against any applicant for admission to the college because of race, color, sex, national origin or physical handicap. Admission to La Salle College is based solely upon an applicant's qualification and ability to meet the educational and other established admission requirements.

The staff of the Summer Sessions is selected from the regular full-time faculty members of La Salle College.

Summer Sessions are conducted in air-conditioned classrooms and lecture halls.

Attendance

Attendance at La Salle College is compulsory and absence from class and/or laboratories necessarily affects the final grade. Missed laboratory work and examinations (other than final examination) may be completed at the discretion of the course instructor.

Any student who, because of unavoidable absence, is unable to take the final examination as scheduled must file a written request for a special final examination in the Office of the Dean. No special final examination will be administered without the approval of both the instructor and the Dean. Each special final examination is subject to a fee of \$5.00. All make-up examinations must be completed by July 11 for the first summer session and by August 20 for the second summer session.

Fees

Tuition (per credit hour)	\$95
Laboratory Fee (per semester)	\$30
Late Registration	\$10
Reinstatement Fee	\$50
Special Final Examination	\$ 5

Credit Cards

La Salle College will charge your tuition to your VISA or MasterCard credit card. These cards may also be used in the Campus Store and the Textbook Store.

Pre-Registration

All students who intend to matriculate at La Salle College must pre-register by the pre-registration date published in the Academic Calendar. Please use the appropriate pre-registration form provided at the back of this bulletin.

Tuition invoices are not mailed for Summer Sessions; they must be picked up at Registration.

Final Registration

For the dates and hours of final registration, please refer to the Academic Calendar.

All students, even though pre-registered, must complete the process of final in-person registration.

Rules of the College make payment of all fees an integral part of final registration; hence, registration is incomplete until all the fees have been paid.

Courses listed in this bulletin are subject to cancellation if there are not sufficient students registered for the course.

Change of Roster

No course or section may be changed for another course or section without the approval of the Registrar. No change in course will be allowed after the date listed in the Academic Calendar.

Refunds

Undergraduate Summer Sessions

Time of Withdrawal	Refund
Before first day of class	100%
During first week	60
After first week	None

Pre-session and Other Intensive Programs

Time of Withdrawal	Refund
Before first day of class	100%
During the first day of class	50
After the first day of class	None

For the purpose of refund, the student shall be considered to be in continuous attendance up to and including the date of submission of proper notice of withdrawal. The notice of withdrawal must be addressed to the Dean of the particular school. Ceasing to attend or giving notice to an instructor does not constitute proper notice. The allowed percentage of refund shall be based upon the official withdrawal date which shall be determined by the date the notice of withdrawal is received by the Dean, or the postmark, if mailed.

For the purpose of refund computation, a week shall be defined as the period of seven successive days beginning with the official College opening of classes and NOT the first day in actual attendance by a particular student.

In those instances where a student's educational expenses were satisfied in whole or in part by Title IV Program Funds, and a refund of these educational expenses is authorized, that refund will be proportioned in accordance with U.S. Department of Education regulations governing refunds and cash disbursements made directly to students. Under those regulations, priority is given to the return of funds to Title IV Assistance Programs in the following order: State Grant Programs, SEOG, NDSL, BEOG, Guaranteed Student Loans. Students should be aware that the regulations may prevent the refund of any personal funds used for payment of tuition and fees. In instances where a student has received a cash disbursement prior to the recording of his or her withdrawal, the student may be required to return those funds to the College.

Reinstatement Fee

Any student who was not included on the official class rolls (who has not properly completed the registration process) and who is subsequently added to the rolls shall be assessed a Reinstatement Fee of \$50.00 which, along with all other educational expenses due, must be paid prior to such reinstatement.

Transcripts

Students who wish credits transferred to another institution should fill out a request for transcript of grades at the time of final registration.

Withdrawal

Withdrawal from a class must be made in writing to the Dean of Summer Sessions. The official date of withdrawal (for the purpose of computing charges and grades) is the date on which the Summer Sessions Office receives the written notification, not the date of the writing. Students who fail to give written notice of withdrawal from the Summer Sessions will be charged the full tuition and receive a grade of failure (F) for each course. The final date for withdrawal is noted in the Academic Calendar.

Activities

All facilities of the Student Union Building, cultural and social center of La Salle College campus activities, are open to students attending the Summer Sessions. The air-conditioned Music Room is available for leisurely study, and food services are offered in the air-conditioned Snack Bar.

Emergencies

Ordinarily, messages cannot be delivered to students on campus. However, under conditions of extreme emergency, the Summer Sessions Office will attempt to locate students during class hours. The number is (215) 951-1234.

Resident Life

The residence halls are open to men and to women during each of the summer sessions. Single and double rooms are available.

The Campus Food Service will be open Monday through Friday during the day on a cash basis only, during all of the summer sessions. Vending machines are located in the residence halls for snacks. Safety regulations prohibit the use of electrical cooking devices such as coffee makers, heating coils, and hot plates.

Room assignments and keys may be picked up at the time of occupation. Room occupancy begins at 12:00 Noon the day prior to classes. The residence halls close on the last day of exams. Housing application forms must be requested directly from the Resident Life Office.

It is possible to retain the student room during the intervals between sessions. Intentions to stay should be noted at the time of occupancy, so that fees can be assessed.

Fees:

Double Room — \$215 per session*, per occupant

Single Room — \$283 per session*

Security Deposit — \$25 (not applicable to present La Salle Residents).

The security deposit and a reservation deposit of \$75 must accompany each room reservation and will be credited to the fees upon billing. Refunds of reservation deposits will be made upon written notification of withdrawal at least 10 days prior to the commencement of the summer sessions.

If a resident is obligated to terminate residence before the end of the session, room fees cannot be refunded.

Inquiries concerning residency rates, reservations, and housing applications should be directed to the:

Resident Life Office
ST. George Hall
La Salle College
Phila., Pa. 19141

(215) 951-1550

*Fees subject to change. Final rates will be available in April.

Academic Calendar Five Week Sessions Day and Evening Credit Courses

	Session One	Session Two
Final date for Pre-registration	May 17	June 17
*Registration	May 26, 27 (10:00 A.M. to 12:00 Noon) (5:30 P.M. to 7:30 P.M.)	June 29, 30
Classes Begin	June 1	July 6
†Change of Roster and Late Registration	June 1, 2, 3 (9:00 A.M. to 11:00 A.M.) (5:30 P.M. to 6:30 P.M.)	July 6, 7, 8
Friday make-up class (all Day courses and Evening Monday and Wednesday, or Monday, Tuesday, Thursday)	June 4	July 9
Last date to option Pass/Fail grade	June 7	July 12
Last date for withdrawal without penalty of failure	June 14	July 19
Final Examinations	June 30 (Evening M/W schedule)	August 4 (Evening M/W schedule)
	July 1 (Day; Evening T/Th schedule)	August 5 (Day; Evening T/Th schedule)
Grades due	July 5	August 10
Day Classes (Monday through Thursday)	Evening Classes	
Three credit hour classes: First period 9:05 A.M. to 10:50 A.M. Second period 11:00 A.M. to 12:45 P.M.	Three credit hour classes: Monday and Wednesday or Tuesday and Thursday 6:00 P.M. to 9:30 P.M.	
Four credit hour classes: First period 8:30 A.M. to 10:50 A.M. Second period 11:00 A.M. to 1:20 P.M.	Four credit hour classes: Monday, Tuesday and Thursday 6:15 P.M. to 9:30 P.M.	

*N.B. Tuition invoices are not mailed for Summer Sessions; they must be picked up at either Registration or Late Registration.

†Late registration entails a \$10.00 late registration fee.

Academic Calendar Ten Week Session Evening Courses

Special Session June 1 through August 5

Final date for Pre-registration	May 17
*Registration	May 26, 27 (5:30 P.M. to 7:30 P.M.)
Classes Begin	June 1
†Change of Roster and Late Registration	June 1, 2, 3 (5:30 P.M. to 6:30 P.M.)
Friday make-up classes for courses with Monday evening meetings	June 4; July 9
Last date for withdrawal without penalty of failure	June 28
Final Examinations	August 4(for Mon.-Wed. roster) August 5(for Tue.-Thur. roster)

The non-credit courses listed below are designed to aid students who are not fully prepared for college credit work in English and Mathematics. Full course descriptions are listed under the appropriate department. Each course is billed as if it were a three credit hour course.

COURSE OFFERINGS

Dept.	No.	Sect.	Cr.	Title	Time
Eng	010	A	0	Fundamentals of English Composition	Mon-Wed
Eng	020	A	0	College Reading and Study Skills	Tue-Thu
Csc	151	A	3	Introduction to Computing	Mon-Wed
Csc	151	B	3	Introduction to Computing	Tue-Thu

Summer Session Two

Evening Division

(July 6 through August 5; Friday class July 9)

Dept.	No.	Sect.	Cr.	Title	Time
Acc.	102	A	3	Principles of Accounting 2	Mon-Wed
Acc.	202	A	3	Accounting Theory—Part 2	Tue-Thu
Acc.	304	A	3	Auditing	Mon-Wed
Acc.	408	A	3	Taxation of Individuals	Tue-Thu
Bio.	156	A	3	Variation in Man	Tue-Thu
Chm.	112	A	4	General Chemistry 2	Mon-Wed
Chl.	112	A	—	Laboratory	Tue-Thu
Chm.	202	A	4	Organic Chemistry 2	Mon-Wed
Chl.	202	A	—	Laboratory	Tue-Thu
Ecn.	102	A	3	Introduction to Economics 2	Mon-Wed
Ecn.	302	A	3	Managerial Economics	Mon-Wed
Eng.	161	A	3	The Experience of Literature	Tue-Thu
Eng.	166	A	3	American Dreams, American Nightmares	Mon-Wed
Eng.	254	A	3	Oral Communication	Mon-Wed
Eng.	340	A	3	American Literature: 19th Century	Tue-Thu
EPH	102	A	4	General Physics—Part 2	Mon-Wed
EPL	102	A	—	Laboratory	Tue-Thu
Fin.	202	A	3	Corporation Finance	Mon-Wed
Frn.	102	A	3	Elementary French 2	Tue-Thu
Ger.	102	A	3	Elementary German 2	Tue-Thu
His.	116	A	3	History of the United States Since 1865	Mon-Wed
His.	247	A	3	Presidential Politics	Tue-Thu
Law	202	A	3	Legal Environment of Business	Mon-Wed
Mgt.	211	A	3	Organizational Behavior	Mon-Wed
Mkt.	201	A	3	Principles of Marketing	Tue-Thu
Mth.	111	A	3	Introduction to Calculus	Mon-Wed
Mth.	113	A	4	Algebra and Trigonometry	Mon-Tue-Thu
Phl.	161	A	3	Human Nature and Human Destiny	Mon-Wed
Phl.	169	A	3	Work and Culture	Tue-Thu
Phl.	223	A	3	Perspectives in Death	Tue-Thu
Pol.	102	A	3	American Federal Government	Mon-Wed
Psy.	201	A	3	Advanced General Psychology	Mon-Wed
Psy.	325	A	3	Readings in Psychology	Tue-Thu
Psy.	364	A	3	Social Psychology	Mon-Wed
Rel.	161	A	3	The Bible as Religious Literature	Mon-Wed
Rel.	166	A	3	Religions of the East	Tue-Thu
Rel.	223	A	3	Contemporary Moral Problems	Mon-Wed
Soc.	101	A	3	Introduction to Sociology	Mon-Wed
Soc.	210	A	3	Women and Men in Society	Tue-Thu
Crj.	222	A	3	Introduction to Criminal Justice	Tue-Thu
Soc.	302	A	3	Statistics and Research Methods 2	Mon-Wed
SWK	362	A	3	Methodology in Social Work 2	Tue-Thu
Spn.	102	A	3	Elementary Spanish 2	Mon-Wed

● Accounting

Accounting 101. Principles of Accounting I 3 credits

Training in fundamental principles of recording business transactions, including study of presentation and interpretation of financial data of a single proprietorship, partnership and corporation.

Accounting 102. Principles of Accounting 2 3 credits

Relationship between understanding accounting procedures and using accounting data effectively; interrelationships between financial statements and methods of accumulating data for these statements and how particular accounting methods used influence business decisions. Problems include depreciation methods, inventory valuation, alternative methods of obtaining capital and measurement and control of costs within the corporate entity. Prerequisite: Accounting 101.

Accounting 201. Accounting Theory—Part I 3 credits

Both parts of this course present theories and problems, beyond the elementary level, which involve proper recording of transactions and preparation of financial statements. The first part comprises a review of the accounting cycle; a general discussion of the preparation of financial statements; a detailed analysis of theory as applied to transactions affecting current assets, current liabilities, long-term investments, and their presentation on the balance sheet. Prerequisite: Accounting 102.

Accounting 202. Accounting Theory—Part 2 3 credits

Includes a detailed presentation of theory as applied to plant equipment, intangible assets, long-term debt, capital stock and surplus; correction of errors of prior periods; analysis of financial statements; and the statement of application of funds. Prerequisite: Accounting 201.

Accounting 303. Cost Accounting 3 credits

Basic principles applied to job cost and process costs systems. Topics include: purchasing and issuing of materials and maintenance of perpetual inventory records, control of labor, methods of distributing factory overhead expenses, evaluation of problems involved in shrinkage and idle time, forms used in job and process cost systems, and discussion of necessity and place of cost accounting in modern enterprises. Prerequisite: Accounting 102.

Accounting 304. Auditing 3 credits

Modern audit practices, emphasizing principles and objectives of an audit. Analysis of audit basis, best standards, objective reporting, adoption of improved accounting standards, business controls, professional ethics, and legal liability. Prerequisite: Accounting 202.

Accounting 408. Taxation of Individuals 3 credits

Gives a comprehensive explanation of federal structure as it applies to individuals and provides experience in the application of tax principles to specific problems. The course covers the following topics: types of returns, rates, business and personal income, sales and exchange; business and personal deductions; and withheld and prepaid taxes.

● Art

Art 101. Elements of Art 3 credits

Elements of painting, sculpture, and architecture; applications of principles to several major artists and to major stylistic periods. Ideally suited to the general student as an introductory course.

Art 352. Print Making 3 credits

Basic print processes. Relief and intaglio printing and lithography. May be repeated for credit.

● Biology

Biology 153. The Animal Kingdom: Fantasy and Fact 3 credits

For election in the distribution area by non-biology majors. A brief survey of the animal kingdom and its relationship to man. Consideration given to evolution, physiology, ecology, parasites, and genetics. Course incorporates lecture, visuals, and student investigations. One hour lecture, two hours lecture-laboratory.

Biology 155. Life Before Birth 3 credits

For election in the distribution area for non-biology majors. Lecture, visuals, demonstrations, and student investigation illustrate the sequential formation of the human body from production of reproductive cells, through fertilization and organ formation, to birth. In addition, common developmental problems and their causes are discussed. Three hours lecture, no laboratory.

Biology 156. Variation in Man 3 credits

For election in the distribution area for non-biology majors. General principles of genetic transmission and their application to man. Discussion of currently developing procedures for genetic control which might have an impact on man, and of existing problems stemming from genetic transmission and chromosomal abnormality. Lecture, visuals, demonstrations, and student investigation. Three hours lecture, no laboratory.

Biology 310. Genetics 3 credits

Mendel's laws of heredity as observed in plants and animals, the scope and method of modern genetics. Two hours lecture, two hours laboratory.

● Chemistry

Chemistry 111-112. General Chemistry 4-8 credits

A general course based on physical principles; emphasis on elementary thermodynamics with applications to gasses, solutions, heats of reaction, electrochemistry, ionic and non-ionic equilibria. Concepts of elementary quantum mechanics applied to spectral concepts and the theory of the chemical bond. Reaction kinetics applied to reaction mechanisms. Descriptive chemistry of the representative elements and transition metal complexes. Laboratory stresses the quantitative aspects of chemistry. Three hours lecture, three hours laboratory.

Chemistry 151. Chemistry of the Life Sciences 4 credits

A terminal course for students who wish to obtain a general knowledge of chemistry with emphasis on the processes in the body and in nature. Descriptive and some quantitative principles discussed. Three hours lecture, three hours laboratory.

Chemistry 201-202. Organic Chemistry 4-8 credits

Chemistry of carbon compounds with emphasis on structure, stereochemistry, synthesis and reaction mechanisms. Applications in allied fields. Laboratory introduces techniques involved in organic analysis, and study of reaction mechanisms. Intended for majors in chemistry, biology, and all students pursuing careers in the health professions. Prerequisite: Chemistry 111-112. Three hours lecture, three hours laboratory; two terms.

● Computer Science

Computer Science 151. Introduction to Computing 3 credits

Basic programming and program structure; data representation; survey of computers, languages, systems, and applications; computer solution of several numerical and non-numerical problems. Prerequisite: one year of college mathematics (or taken concurrently). Carries lab fee.

Computer Science 153. Algorithm and Data Structures 3 credits

Emphasis on development of algorithms for problem solution with programming of several non-trivial numeric and non-numeric algorithms. Elementary data structures: stacks, queues, deques, linked lists, circular lists, trees, binary trees. Sorting and searching algorithms. Prerequisite: Computer Science 151. Carries lab fee.

Computer Science 254. File and Data Management Systems 3 credits

Introduction to COBAL language for CSC majors. File types and file management. Introduction to data base management systems and random-access data structures in their implementation. Prerequisite: Computer Science 153. Carries lab fee.

● Economics

Economics 101. Introduction to Economics I 3 credits

Studies the economic system, including a comparison of capitalistic and socialistic economies and consideration of the influence of government policies on economic activity. Emphasis on the U.S. economy and factors which determine employment, inflation, gross national product, and the money supply. A prerequisite for other economics courses except Economics 320, 411, 412.

Economics 102. Introduction to Economics 2 3 credits

A continuation of Economics 101. Topics include: economic problems of the business firm; economic growth of society; urban problems associated with economic growth; economic approaches to ecological issues; international trade issues; economic problems of poor countries.

Economics 213. Economics and Business Statistics I 3 credits

Basic ideas and procedures of statistical analysis with special emphasis on their application to economics and business. Methods of statistical description, index numbers, and time series analyses. Introduction to statistical inference. Prerequisite: Mathematics.

Economics 301. Labor Problems in America 3 credits

Sources of the union movement, its history, structure, and functions. Development of economic, political, and social power; problems involved in the use of this power, management rights and management reaction to unions. Outside readings and term paper required. Identical with Personnel and Labor Relations 301.

Economics 302. Managerial Economics 3 credits

An intermediate-level course in the theory and practice of the firm, designed for non-economic majors with the indicated background courses. Theory and estimation of demand, production, and cost functions; market structures and pricing in theory and practice; selected aspects of linear programming, regulation and antitrust, capital budgeting, and risk analysis. Prerequisites: Economics 102, Economics 213, Mathematics.

● Education

Education 201. The School: Education in Philosophical and Cultural Perspective 3 credits

Analyzes the relationship between the organizational structure and educational policies of American schooling, and the socio-economic system of modern mass society. Multi-dimensional analysis utilizes the techniques of social science, history and philosophy. Special emphasis is placed on the realm of values, the importance of reflective enculturation and the thrust of modern criticism of education in America.

Education 203. The Child: Educational Psychology 3 credits

Application of psychological principles concerned with the processes of growth and development, thinking, learning and motivation to the problems of education. Principles of mental hygiene and social psychology applied to educational problems in the home, the school, and the community.

Education 270. Special Topic: The Human Potential Movement in Education 3 credits

Examines the human potential movement from the early 1960's to the present, including such aspects as encounter, gestalt, transactional analysis, self-actualization and personal development, Reality Therapy, and Outward Bound. Historical and philosophical foundations discussed. Challenging individual and group experiences under supervision of instructor. A variety of action-oriented outdoor adventure experiences allow individuals to examine and recognize their own potentialities. Special time arrangement; limited enrollment. Prerequisite: contact Dr. Robert Vogel (951-1195).

● Electronic Physics

Electronic Physics 101. General Physics—Part 1 4 credits

Introduces the student to the fundamentals of the science. Part I is an introduction to mechanics of solids. Topics considered include: motion in one and two dimensions, particle dynamics, work, energy, linear momentum, collisions, rotational kinematics and

dynamics, angular momentum, equilibrium of rigid bodies, oscillations; gravitation, waves in elastic media and sound. Laboratory. Pre or Corequisite: Mathematics 120.

Electronic Physics 102. General Physics—Part 2 4 credits

Part 2 introduces electricity and magnetism. Topics considered include: charge and matter, the electric field, Gauss' Law, electrical potential, capacitors and dielectrics, current and resistance, electromotive force, the magnetic field, Ampere's law, Faraday's law, inductance, magnetic properties of matter, electromagnetic oscillations, and electromagnetic waves. Laboratory. Prerequisites: Electronics Physics 101, Mathematics 120.

● English

English 010. Fundamentals of English Composition No Credit

A review course in grammar and composition intended for those who show by examination that they are not fully prepared for English 101.

English 020. College Reading and Study Skills No Credit

Concentrates on methods of improving reading and study skills. Attention given to development of vocabulary, mechanics of good reading habits, formulation of study habits and schedules, and strategies of test taking.

English 103. Introduction to Fiction 3 credits

Analysis of selected pieces of British and American fiction with emphasis on appreciation and understanding of their structural, technical, and aesthetic qualities.

English 160. Literature and the Sexes 3 credits

Examines literature as a reflection of the different ways women and men are shaped by their society and of the ways they have related to each other in the private and public spheres. Short critical papers.

English 161. The Experience of Literature 3 credits

Examines selected fiction, poetry, and drama, and the way in which the form of a work interacts with its content. Imaginative literature encourages the student to read with increased taste, perception, and pleasure. Short critical papers.

English 162. Concepts of Heroism 3 credits

Discusses the hero as a phenomenon that has appeared in various forms in literature from earliest times to the present. Short critical papers.

English 164. Works of Major Authors 3 credits

An introduction to the works of several major figures who, because of their timeless appeal, have continued to attract and excite readers through the centuries. Readings include such figures as: Chaucer, Shakespeare, Milton, Swift, Keats, Austen, Whitman, Melville, Eliot, Frost, Woolf, and Faulkner. Short critical papers.

English 166. American Dreams, American Nightmares 3 credits

A study of the literary expression of the pioneer "dreams" of progress and freedom, and the "nightmares" they became in the face of war, poverty, discrimination, and industrial and technological revolutions. Short critical papers.

English 206. **Fundamentals of Journalism** 3 credits

Communication theory, reporting and interviewing techniques, newswriting, copy editing and headline writing, the editorial, the feature story, newspaper makeup and design, libel and the responsibility of the press. Two hours lecture, one hour of field assignment weekly.

English 254. **Oral Communication** 3 credits

Speech composition, audience psychology, and techniques of delivery; emphasis on practical speaking experience.

English 259. **The Film as Art** 3 credits

Study of selected films and discussion of cinematographic techniques involved.

English 312. **Readings in Modern Drama** 3 credits

Selected plays of the modern theatre with emphasis on the forces which have shaped the drama of England, Ireland, and America.

English 313. **Contemporary Poetry** 3 credits

An examination of representative 20th century poetic practice in English.

English 340. **American Literature: 19th Century** 3 credits

Romantic Movement, Rise of Realism, and Naturalism. Representative readings in those movements and in all forms except drama.

English 356. **Television Production** 3 credits

Introduction to planning, production, and editing methods of electronic communication. Includes pre-production scripting and participation in production of videotaped shows.

● Finance

Finance 120. **Personal Finance** 3 credits

A review of critical aspects of personal financial management; methods of payment, savings, insurance, borrowing, and retirement.

Finance 201. **Principles of Finance** 3 credits

An investigation of the nature and concepts of money and credit; the financial structure of the United States and the sources of credit; effects of Federal Reserve and U.S. Treasury actions on financial institutions.

Finance 202. **Corporation Finance** 3 credits

A broad survey course which covers ratio analysis, basic financial forecasting, profit planning and budgeting along with operating and financial leverage of a business organization. Raising funds in capital and money markets is also given wide coverage in addition to cash management, mergers, acquisitions, corporate reorganization and tax considerations. Prerequisites: Accounting 101 and 102.

Finance 300. **Fundamentals of Financial Management** 3 credits

An introduction to the essentials of financial management with emphasis on working capital management, capital budgeting, capital structure, and risk analysis. Prerequisites: Accounting 102, Mathematics 111, Quantitative Analysis 213.

Finance 301. **Introduction to Investments and Securities Markets** 3 credits

A study of the stock market, its trading operations and regulations. Development of investments policies for personal programs as compared to institutional uses of funds. Prerequisite: Finance 201.

● French

French 101. **Elementary French I** 3 credits

Familiarizes the student with basic rules governing French grammar and phonetics and provides practice in comprehending, speaking, reading, and writing the language.

French 102. **Elementary French 2** 3 credits

Continuation of the fundamentals of grammar with emphasis on short oral exercises.

● Geology

Geology 101. **Physical Geology** 3 credits

Various physical processes that constantly change the interior and the surface of the earth, including weathering, earthquakes, volcanoes, glaciation, marine erosion, and mountain building. Two hours lecture, two hours laboratory and field trips.

Geology 105. **Physical Oceanography** 3 credits

Physical oceanography with emphasis on tides, currents, waves, chemistry of sea water, and geology of ocean basins. Three hours lecture.

● German

German 101. **Elementary German, 1** 3 credits

Familiarizes the student with the basic rules governing German grammar and phonetics and provides practice in comprehending, speaking, reading and writing the language.

German 102. **Elementary German, 2** 3 credits

Continuation of the fundamentals of grammar with emphasis on short oral exercises.

● History

History 115. **History of the United States to 1865** 3 credits

A survey of the American people from colonial days to the Civil War.

History 116. **History of the United States Since 1865** 3 credits

A survey of the American people with particular emphasis upon industrialization, social change, and the growth of the nation as a world power.

History 225. **Imperialism in the Modern World** 3 credits

The expansion of western nations into the world of Asia and Africa in the 19th century, and the contraction of western influence in these areas in the 20th century.

History 247. Presidential Politics 3 credits

Historical analysis of presidential campaigns from 1900 to 1980, stressing the evolution of political techniques, issues, political parties, and presidential personalities.

History 270. Special Topic: Byzantine Civilization 3 credits

The Byzantine Empire as a separate and unique civilization from the 5th century to 1453. A survey course to be taught by Dr. Labunka.

History 315. The Civil War Era 3 credits

Detailed study of the disruption of the Union, stressing the causes, personalities, and human drama of the military events leading to Appomattox.

● Law

Law 201. Law of Contracts 3 credits

Introduces the students to the more common rules and principles governing business transactions; the rights and duties of individuals resulting from contractual and quasi-contractual obligations.

Law 202. Legal Environment of Business 3 credits

A study of the politico-legal framework within which business operates. The nature, formation, and application of law to business; the historical development and present constraints upon decision making; the interface of business and the whole of its legal settings. Legal procedure, judicial, legislative, and administrative law considered in perspective.

● Management

Management 201. Organization and Management of Human Resources 3 credits

Interpersonal and intergroup perception, communication, individual motives, organizational structure, leadership and management styles and their influences on human behavior, considerations of costs, efficiency, morale, effectiveness, traditional and modern organization theories, centralization vs. decentralization. Experimental approach supplemented with cases and readings.

Management 300. Introduction to Operations Management 3 credits

Plant layout, plant location, work methods, inventory control, scheduling, productivity measurement, incentive systems, interrelationships with other departments. Problems from various service and manufacturing industries, including quantitative appreciation of techniques like EOQ, expected values. (Formerly, Management 202).

Management 211. Organizational Behavior 3 credits

Business organizations are analyzed in an interpersonal setting with emphasis on the importance of work group behavior, individual behavior, supervisor behavior, intergroup behavior, and organizational change. Relevant findings of behavioral science are examined and related to work and productivity in a modern organization. Case discussions and readings contribute toward the formation of a conceptual framework to better understand organizational behavior and administration.

Management 302. Operations Management 3 credits

Focuses on effective management of operations which typically involve a large proportion of the assets, personnel and other resources of organizations producing goods or services. Gives the student the opportunity to develop skills, judgment, and understandings for the management task of analyzing, improving, and operating productive systems. Primary topics are: managerial understanding of equipment and process technologies, work force management, operations planning, scheduling and control, quality and reliability, technological change, and project-oriented operations. (Formerly, Management 212).

Management 370. Special Topic: Field Study in Public Management: Nantucket Island 3 credits

Management problems and problem-solving strategies as seen in a single municipal system. Eight-day field study includes readings, lectures, and personal interviews with local government officials on Nantucket Island. Class meetings on campus before and after the eight-day trip (June 1-June 9). In addition to regular summer tuition, a \$220.00 fee includes all transportation, meals, and lodging during the trip. Limited to 15 students. This course is offered in conjunction with the Department of Environmental Education, Southern Connecticut State College. For further details, please consult Dr. Steven Meisel, Management Department, La Salle College, (215) 951-1364. Prerequisite: Management majors, Management 201; non-majors, History 116 or Sociology 101.

● Marketing

Marketing 201. **Principles of Marketing** 3 credits

Important principles and factors relating to marketing functions in the American economy. Principal topics are the nature, significance and functions of marketing; consumer motivation; behavior and buying problems; wholesaling and retailing of consumer goods; marketing industrial goods and raw materials; market research and merchandise development; buying, selling, price policies and practices; channels of distribution; and governmental relationships to marketing.

Marketing 302. **Management of Promotion (Advertising)** 3 credits

Economic and social aspects of advertising; a practical treatment of copy, layout and media; effectiveness of advertising, advertising departments and the advertising agency. Prerequisite: Marketing 201.

Marketing 401. **Marketing Research** 3 credits

The use of scientific method in the solution of specific marketing problems and in the conduct of general market research studies: methods of marketing research, gathering data, tabulation and analysis, interpretation of results, and report presentation.

Special Course to be Conducted in Australia

Marketing 370. **Special Topic: Current Problems in International Marketing** 3 credits

Study of social, cultural, political, institutional, behavioral, economic and competitive conditions in international marketing. Seminars with leaders in both the private and public sector to be conducted in Sydney, Canberra, and Melbourne, Australia, August 17 through September 8. In addition to regular summer tuition, estimated cost of \$2400 to include round trip air transportation from Philadelphia, airport transfers, hotel, breakfast, and seminars. Interested individuals must contact Mr. L. Thomas Reifsteck (951-1075) **prior to June 17** to make arrangements for this course.

● Mathematics

Mathematics 011. **Elementary Algebra** No credit

This course provides an opportunity to build basic computational skills in arithmetic and algebra. It is intended for those who are not adequately prepared for Mathematics 101. The course is self-paced; the source material for this course is presented on tape; the student has access to a teacher who provides additional individualized diagnostic testing and instruction. The topics of the course include: sets, signed numbers, fractions, exponents, operations on algebraic expressions, equations, and function.

Mathematics 021. **College Algebra** No credit

The purpose of this course is to develop a mastery of the fundamental concept of algebra. It is a course intended for those who do not qualify for Mathematics 113. The topics are factoring, fractions, exponents, radicals, graphing, linear and quadratic equations, and problem solving.

Mathematics 101. **Intermediate Algebra** 3 credits

Algebraic operations, linear and quadratic equations, exponents and radicals, elementary functions, graphs, systems of linear equations.

Mathematics 111. **Introduction to Calculus** 3 credits

Fundamentals of differential calculus, concentrating on algebraic, exponential, and logarithmic functions with applications of calculus to the management and social sciences. (In Evening Division, formerly 102 "Survey of Mathematics.")

Mathematics 112. **Calculus and Finite Mathematics** 3 credits

Continuation of Mathematics 111. Topics include integral calculus, permutations, combinations, elementary probability and linear algebra. Prerequisite: Mathematics 111.

Mathematics 113. **Algebra and Trigonometry** 4 credits

Sets: the real number system linear systems; matrices; logarithmic, exponential and trigonometric functions; theory of equations.

Mathematics 120. **Calculus and Analytic Geometry I** 4 credits

Functions: limits and continuity; differentiation of algebraic functions; maxima and minima; curve tracing, velocity, and acceleration; integration with applications to areas, volumes, surfaces and work; the fundamental theorem of the calculus.

Mathematics 221. **Calculus and Analytic Geometry 2** 4 credits

Differentiation and integration of transcendental functions; techniques of integration; improper integrals; conic sections; polar coordinates. Prerequisite: Mathematics 120.

Mathematics 222. **Calculus and Analytic Geometry 3** 4 credits

Linear algebra; vector functions; partial differentiation, multiple integration; infinite series; Taylor expansions. Prerequisite: Mathematics 221.

● Military Science

Military Science 101-102. **Military Science, 1** 1-2 credits

The art of war from ancient times to the present. A study of military operations, leadership, and the evolution of military theory and institutions from the Revolution to Vietnam. Examines the how and why of American involvement in wars. Students must roster both parts of the course together for credit to be awarded. Prerequisite: approval of Department Chairman.

Military Science 201-202. **Military Geography,** 1-2 credits

The estimate of national power and the role of geopolitics examined in the framework of American military operations and the national security structure of the U.S. Includes a study of map reading and geomorphology. Class discusses and practices the essence of orienteering. Students must roster both parts of the course together for credit to be awarded. Prerequisite: approval of Department Chairman.

● Music

Music 101. **The Art of Listening** 3 credits

A concise introduction to the essential elements of music, focusing on its language, forms, styles, and genres. This course is designed to encourage perceptive and involved listening as well as to investigate how music is put together. Understanding possible meanings of specific statements in music is also an objective. Ideally suited to the general student as an introductory course.

Music 221. **Introduction to Jazz** 3 credits

Jazz from New Orleans Dixieland to contemporary large bands. Evolution as an art of style and form, including Dixieland, Ragtime, Boogie-Woogie, Swing, Bop, Cool, Funky and some recent jazz-rock innovations. Recommended as an introductory course for non-music majors.

● Nursing

Nursing 401. **Nursing Human Systems in Stress: Theory & Practice** 6 credits

Theories of stress and its effects on individual and family systems presented. Research findings relating stress to disease onset and impaired healing emphasized. Non-invasive, self-care, self-regulation therapeutic modalities explored and practiced as nursing interventions for systems in stress, in a variety of clinical settings. *Restricted to students accepted as Nursing Majors in the La Salle College BSN degree program. Prerequisites: Nursing 330 and Departmental approval.*

Nursing 406. **Health Care Delivery Systems: Strategy and Change in the Real World of Practice** 4 credits

Traditional and emerging care delivery systems in which nurses practice are analyzed from a general systems perspective. Comparisons between the nursing system and the structure and process of other professional systems are drawn. Trends analysis, planning philosophies and change strategies are introduced. A reorientation toward professional autonomy and newly emerging nursing roles is emphasized. One credit of the four credits is acquired through a non-directed, self designed project relevant to theoretical concepts presented in the course. *Restricted to students accepted as Nursing Majors in the La Salle College BSN degree program.*

Nursing 408. **Seminar in Nursing** 4 credits

Designed to help the student integrate viewpoints presented in previous courses and develop a problem for investigation with the self-system, a client system, or a nursing system as the focus. Student's selected problems are the central focus of the research and discussion activity of the seminar. One credit of the four credits is acquired through independent work on the problem under investigation. *Restricted to students accepted as Nursing Majors in the La Salle College BSN degree program. Prerequisite: Nursing 330.*

● Personnel and Labor Relations

Personnel and Labor Relations 301. **Labor Problems in America** 3 credits

Sources of the union movement, its history, structure, and functions. Development of economic, political, and social power;

problems involved in the use of this power, management rights and management reaction to unions. Outside readings and term paper required.

Personnel and Labor Relations 302. **Personnel Administration** 3 credits

Designed to train students to analyze existing programs, to adapt procedures and to develop original methods which will insure efficient personnel administration. Job analysis; policy determination and administration; selection, promotion, transfer, and E.E.O.; health, safety, and OSHA.

● Philosophy

Philosophy 161. **Human Nature and Human Destiny** 3 credits

A study of man including the questions of his identity and of his relationship to others and to the material world. Themes discussed include those of freedom and love, the dilemma of self-alienation, and various manifestations of concern with human destiny.

Philosophy 162. **Foundations of Moral Life** 3 credits

A study of philosophical interpretations of moral life and their application to specific problems. Themes discussed include the nature of commitment and responsibility, the problems of conscience and moral law, the character of moral judgment, and the notions of the good and the common good.

Philosophy 164. **Critical Thinking** 3 credits

Aims at developing the skill of analyzing, interpreting, and criticizing arguments from a variety of disciplines. Topics include: clarification of concepts, distinguishing between conclusions and reasons for conclusions, evaluation of arguments, and the recognition of fallacies.

Philosophy 166. **Reason and Reality** 3 credits

A study of the basic relationships between thought and reality. Themes discussed include skepticism and truth; rationality and selfhood; and knowledge and the various manifestations of existence.

Philosophy 167. **Philosophical Approaches to God** 3 credits

A study of philosophical positions relating to questions about the existence of God. Themes discussed include various concepts of God; the possibility of proof for the existence of God; and the philosophical dimensions of the religious experience.

Philosophy 169. **Work and Culture** 3 credits

A philosophical consideration of the relationship between work and other dimensions of human life. Topics include: work and society, work and rationality, work and morality, work and play, work and creativity, work and alienation.

Philosophy 206. **Social Philosophy** 3 credits

Critical examination of the nature and origins of society through reading and discussion. Themes include: person and society, human rights and law, justice and society, culture and society, the natural and the social sciences. Particular problems considered will include the Black experience in American society.

Philosophy 207. **Classical Logic** 3 credits

A study of traditional, or Aristotelian, logic stressing the major forms of inference found in ordinary discourse. It includes a consideration of the material or non-formal fallacies in deductive and inductive reasoning.

Philosophy 213. **Philosophy of Sports** 3 credits

A philosophical investigation of sports and athletics and their significance as a basic human experience. Topics include sports and the achievement of human excellence; sports as a basis of social and cultural structure; and the analysis of sports in philosophical movements such as Marxism and existentialism.

Philosophy 222. **Love and Human Sexuality** 3 credits

A philosophical exploration of human love and sexuality. Attention will be given to the connection between the philosophical approach and that of other disciplines. Works by authors such as Plato, Aristotle, Thomas Aquinas, Santayana, Ortega y Gasset and Sartre will be read.

Philosophy 223. **Perspectives on Death** 3 credits

Various philosophical strategies for coming to terms with human death. Western and non-Western sources are used. Philosophical views on death applied to problems such as aging and dying, suicide and euthanasia, medical conquest of death, and definitions of death. Of particular value for students choosing careers in the health professions.

● Physics

Physics 105-106. **General Physics 1, 2** 4-8 credits

Vectors, elementary mechanics of point particles and rigid bodies, gravitation, simple harmonic motion and waves, electromagnetism, D.C. and A.C. circuits and elementary optics. Three hours lecture, two hours laboratory. Prerequisite: Mathematics 120.

● Political Science

Political Science 102. **American Federal Government** 3 credits

An examination of the organization and functions of the federal government of the United States; a study of the separation of powers and relations with states.

Political Science 220. **International Relations** 3 credits

An analysis of the basic patterns and major factors underlying international politics. Consideration to current international problems.

Political Science 247. **Bureaucratic Politics and Administration** 3 credits

Analysis of bureaucracy within the national and urban context; internal characteristics and external political relationships with executives and legislatures, including unionization of bureaucratic personnel, budgetary relationships, innovation and the relationships of bureaucracy with clientele groups and the general public. *Required of all Political Science/Public Administration majors.*

Political Science 270. **Special Topic: American Political Thought** 3 credits

Reading and discussions on the American Political Tradition from the founding period through the Civil War to the present quest for equality. Readings from Madison, Jefferson, Lincoln, Thoreau, Roosevelt and Wilson will consider the tension between equality and liberty, the nature of democratic statesmanship, and the goals of politics.

Political Science 271. **Special Topic: The Modern Presidency** 3 credits

Changing role of the President from F.D.R. to Ronald Reagan. Particular attention to institutional and behavioral aspects of presidential power and policies. President Reagan's first eighteen months in office evaluated.

Political Science 370. **Special Topic: Civil Rights and Civil Liberties** 3 credits

Reading of selected Supreme Court decisions to provide basis for discussion of critical contemporary issues in civil rights and civil liberties. Topics include: sex discrimination, abortion, freedom of speech, obscenity, police arrest procedures and busing.

● Psychology

Psychology 101. **General Psychology I** 3 credits

Introduction to the scientific study of human behavior. Emphasis on methods of psychological research and principles and theories developing from this research.

Psychology 201. **Advanced General Psychology** 3 credits

Introduction to selected content areas of experimental psychology, including psychobiology, sensation and perception, and cognitive processes. Prerequisite: Psychology 101.

Psychology 203. **Developmental Psychology** 3 credits

A survey of the development of children from birth through adolescence. Aspects of physical, intellectual, motor and per-

sonality development will be considered. The etiology and modification of deviant behavior in the various age groups will be discussed.

Psychology 206. Personality Dynamics and Adjustment 3 credits

An analysis of the human system, the dynamics of individual behavior, and a consideration of resources necessary for effective living as they are related to a better understanding of personal adjustments in healthy persons developing toward maturity. Prerequisite: Psychology 101.

Psychology 210. Statistics I 3 credits

An introduction to statistics, emphasizing such descriptive measures as central tendency, variability, and correlation. Prerequisite: Mathematics 111-112 Day; Mathematics 101-111 Evening.

Psychology 211. Statistics 2 3 credits

An intermediate course in inferential statistics, emphasizing such techniques as the analysis of variance and t-tests. Prerequisite: Statistics I or equivalent.

Psychology 315. Abnormal Psychology 3 credits

Surveys principal forms of major and minor mental disorders, with emphasis on causes, symptoms, course and treatment. An analysis of the overall problem of mental illness and a study of certain borderline personality and behavioral patterns and other forms of psychological deviation.

Psychology 325. Readings in Psychology 3 credits

Readings consist of basic books and periodicals having relevance for the broad field of psychology; assignments discussed in seminar fashion. Prerequisite: Psychology 101.

Psychology 330. Cognitive Psychology 3 credits

Systematic study of the research and theories developed to explain human memory, language, thinking, and consciousness. Prerequisite: Psychology 201.

Psychology 364. Social Psychology 3 credits

Study of the facts and theories dealing with the phenomena of social behavior. Focuses on individual behavior as it affects and is affected by the behavior of others.

● Quantitative Analysis

Please see listing for Economics 213.

● Real Estate

Real Estate 201. Real Estate Principles and Practices 3 credits

This is a basic course designed to form the foundation for all other courses in real estate. It acquaints the student with types of real estate brokerage, financing, legal instruments and restrictions, office and property management, marketing techniques and current trends within the industry. Real estate mathematics to assist the student taking the state licensing examination is also included. (Formerly, Real Estate 101.)

● Religion

Religion 161. The Bible as Religious Literature 3 credits

A study of the Bible focusing on the religious and human experience of those who, under divine guidance, wrote it. An analysis of Jewish and Christian religious literature in general. The literary genres of the Bible. External circumstances that exerted an influence on the composition of the Bible. Directed reading in the Bible accompanied by explanation, interpretation, and discussion of principal ideas.

Religion 163. Human Religious Experience 3 credits

Studies diverse patterns of thought and behavior that express man's religious experience. The universality of this experience, and the different ways it manifests itself in the great religious traditions, east and west, primitive and modern. Identifies common elements of these religious traditions as well as those elements which set one tradition off from another.

Religion 164. Religion and the Contemporary Search for Self 3 credits

Contemporary meaning of self-discovery, seen in the context of those socio-religious values which contribute to an individual's sense of personal identity. Religion as an expression of the deepest dimension of human life leading to an appreciation of the possible variety of such expressions in terms of personal self-understanding.

Religion 166. Religions of the East 3 credits

Surveys the living religions of the world that lie outside the Judaeo-Christian tradition. The sacred literature, historical origin and development, basic beliefs, religious practices. Centers on Hinduism, Buddhism, Confucianism, Taoism, and Islam.

Religion 167. Catholicism in the Modern World; Problems and Challenges 3 credits

Religious and social forces shaping present-day Catholicism. Vatican II: a catalyst for change. Liturgical reform. Biblical Renewal. Ecumenism. Women's movement. Freedom and authority in Church structures. The challenges to Catholic education. Contemporary movements; charismatic religion, traditionalism. Influence of American culture on the Church in the United States.

Religion 211. Contemporary New Testament Issues 3 credits

Specific problems of New Testament Christianity as reflected in its literature.

Religion 220. The Church Contemporary Issues and Problems 3 credits

An inquiry into the life and structure of Christian community. The psychological and theological factors which bring men together to constitute "Church". The Church as eschatological community in relation to Christ. A study of those ideas most generally attributed to Church: unity and catholicity, organization, ministry, and mission.

Religion 223. Contemporary Moral Problems 3 credits

A comprehensive examination of selected moral issues of current interest: violence, war, love, freedom, situation ethics, abortion, euthanasia, human values, sin, genetic engineering, etc.

Religion 230. **American Religious Thought** 3 credits

Major religious movements within the Roman Catholic Church and Protestant churches in the United States from the American Revolution to the present. Investigates the theological implications for the churches of such movements as the American Revolution, the Great Awakening, the Abolitionist Movement, the Civil War, the Gospel of Wealth, the Great Depression, World War II, and the Atomic Age.

● Sociology

Sociology 101. **Introduction to Sociology** 3 credits

Study of American society. Emphasis on sociological concepts, theories and methods for gathering data on social realities.

Sociology 102. **Social Problems** 3 credits

Significant social problems of American society in crime, delinquency, race, ethnicity, mental health, population, the family and community disorganization.

Social Work 202. **Introduction to Social Welfare** 3 credits

Surveys social work and social welfare system comprising structured observation, rationale for social welfare provision, overview of the fields of practice and the basic methods for approaching the delivery of services. Scope, intention and background of social welfare; and opportunity to test out interest in social work.

Sociology 210. **Women and Men in Society** 3 credits

A cross-cultural examination of ways in which social roles of women and men have been structured. Emphasis on changing roles of women and men in contemporary American society.

Sociology 211. **Marriage and Family** 3 credits

Marriage and the family as social institutions. A consideration of the historical development of the family, variations of family structure in contemporary societies, and current trends in American family patterns.

Sociology 212. **Minority Groups** 3 credits

Examination of the racial and ethnic groups that compose American society. Emphasis on the processes involved in social change in intergroup relations.

Sociology 213. **Cultural Anthropology** 3 credits

A cross-cultural study of the influence of culture in explaining the variations and constants in human behavior in preindustrial and modern societies.

Criminal Justice 221. **Crime and Its Causes** 3 credits

Sociological and social psychological foundations of crime and delinquency. Topics include: definition and meaning of crime and delinquency, etiology of crime and delinquency, history and development of criminal law, criminal behavior systems.

Criminal Justice 222. **Introduction to Criminal Justice** 3 credits

Consideration of law enforcement, administration of justice and punishment and treatment of criminals. Survey of sociological and social psychological processes affecting the criminal justice system. Topics include: police function, crime prevention programs,

prosecutorial and defense functions, judicial administration and decision-making, institutional and community-based corrections, probation and parole.

Sociology 301-302. **Statistics and Research Methods** 3-6 credits

An introduction to statistical and research methods in sociology. Must be taken sequentially.

Sociology 308. **Social Stratification** 3 credits

An analysis of social class, status, power and privilege with emphasis on the United States. Conflict, action-theory, and structure-functionalist perspectives evaluated and applied to contemporary America. Efforts to create egalitarian societies in selected post-capitalistic countries also examined.

Sociology 310. **Sociological Theory** 3 credits

Development of social thought from August Comte to contemporary theorists. An attempt to see the evolution of social theory within the social context of the theorist's milieu.

Social Work 361. **Methodologies in Social Work, 1** 3 credits

The system of principles, practices and procedures used in social work. Understanding the individual in his life situation, inclusive of the intrafamilial and sociocultural context of his interaction with institutions and systems. Directed field observation in social welfare agencies.

Social Work 362. **Methodologies in Social Work, 2** 3 credits

The development of knowledge about casework, group work, and community organization methods. A range of appropriate treatment techniques studied as preparation for practice with individuals, groups and other systems. Laboratory assignments in the community, readings, and class discussions are combined to explore how social welfare agencies function. Directed field observations in social welfare agencies.

● Spanish

Spanish 101. **Elementary Spanish I** 3 credits

Familiarizes the student with basic rules governing Spanish grammar and phonetics and provides practice in comprehending, speaking, reading, and writing the language.

Spanish 102. **Elementary Spanish 2** 3 credits

Continuation of the fundamentals of grammar with emphasis on short oral exercises.

SPECIAL PROGRAM OFFERED DURING SUMMER SESSION ONE

Improve Your Reading Skills

During Summer Session One a special ten hour reading improvement program will be made available to Summer Sessions students. Dr. Edward J. Shaffer, or his associates, will conduct the program the goal of which is to offer the student the opportunity to improve reading comprehension and speed. An additional outcome may well be the improvement of self-confidence, study skills, and academic performance. The majority of students who have previously taken Dr. Shaffer's program have shown considerable improvement in their comprehension and speed in reading, but results in particular cases will vary with the individual student.

This ten hour, non-credit program will meet from 11:00 A.M. to 1:00 P.M. on each of the following days: June 2, 7, 9, 14, and 16.

The fee for this special program is \$60.00. Your check should be returned with you application for the program and should be made payable to: Dr. Edward J. Shaffer Associates.

The student's having attending and/or completed this program will not appear on any official La Salle College records.

APPLICATION FOR READING IMPROVEMENT COURSE

Return this form to the Summer Sessions Office, College Hall 110, at your earliest convenience, but not later than May 27, 1982.

Please enroll _____ in the Reading Improvement Program.
