A Profile of La Salle

The History

La Salle College was chartered by the legislature of the Commonwealth of Pennsylvania in 1863. The founders of the new educational institution consisted of Christian Brothers, priests of the Archdiocese of Philadelphia, and several Catholic laymen. The College's beginnings were modest indeed: at first it was an adjunct to St. Michael's parish school. As the small college began to establish its educational reputation, its need for space dictated several moves. From St. Michael's the College moved to a center city site at Juniper and Filbert Sts. and from there to the old Bouvier mansion at 1240 North Broad St.

Forty-three years later, in 1929, the still expanding college purchased part of the historic Belfield Farm, once the home of American painter Charles Willson Peale, and began to build the collegiate Gothic towers of College Hall. La Salle was hardly settled in its new home before the Great Depression threatened its very survival. The lean years of the 1930's became even more difficult when World War II depleted the student population to a mere 90 students.

With the end of the war, however, the influx of veterans taking advantage of the G.I. Bill necessitated a new cycle of growth and expansion that has continued until the present day.

Two decisions stand out as noteworthy in this period of change. The first is the inauguration of the Evening Division in 1946 and that division's subsequent development as a leader in the state in providing evening degree programs for adults. The second is the decision to admit women students, thus ending a century old tradition and beginning a new chapter in La Salle's history. Women entered evening classes in 1967 and day classes in 1970. Of the entering class of 1973, 27% were women.

The tremendous expansion of La Salle to its present 3000 day students is apparent in the building boom that has taken place on campus. Additions over the last 25 years have included the David Lawrence Library and the newly-completed Library Annex in Wister Hall; a College Union; nine residence halls, the Holyroyd Science Center; a biological field station; Olney Hall, a new classroom and faculty office building; and Hayman Hall, the athletic facilities building completed in 1972.

This remarkable physical growth has been complemented by an equally remarkable academic development. Studies show a continuing improvement in the credentials of each entering class. Recent years have seen more graduates pursuing higher degrees and winning prestige scholarships. Curriculum study has not stood still, and today's curriculum is more varied, more flexible, more responsive to the needs and interests of students. Among the many special programs are those for honors students, for study abroad, for cooperative education, and for disadvantaged students.

The Campus

For a city college, La Salle's campus is surprising. Tucked behind the brick facades on Olney Avenue is a pleasantly green and peaceful tract of about forty acres. Though buses stop at the door and the subway is only a few blocks away, the campus benefits from some of the country-like aspects of its site. Across 20th Street is historic Belfield, one of the few farms within the city limits. South of the campus lies Wister Woods, now a part of Fairmount Park. The result of these happy accidents of locale is that the campus retains a somewhat suburban atmosphere while losing none of the advantages of being an urban college.

In Philadelphia, these advantages are both educational and cultural. The city has a noteworthy group of educational institutions, with a variety of specialized libraries. Its orchestra and museums are internationally famous. Most of the city's cultural and historical resources are within convenient commuting distance from the campus.

Architecturally, the buildings on campus reflect the history of the College's growth, ranging from the traditional collegiate Gothic to the modern.

In addition to the classroom buildings (College, Wister, Holroyd, and Olney Halls) and the residence halls, the campus has the David L. Lawrence Memorial Library, the College Union, and the Hayman Hall athletic facilities.

Over 200,000 volumes are housed in the air conditioned Lawrence Library and its Wister Hall Annex, along with reading rooms and files of some 700 periodicals. The College Union is a center of student activities, containing dining rooms, lounges, a theatre, and activities offices. The newly completed Hayman Hall features a swimming pool and diving well, basketball and squash courts, an indoor track, a sauna bath, and other athletic facilities.

The People

More than buildings, more than books, more than lectures and examinations, education is a matter of people. It is the people who make up La Salle—the students and the teachers—who give the College its character. You may well ask, “What are they like, these people with whom I may spend my next four years?”

Most of the students come from the northeastern states, but there are representatives from 21 states and 14 foreign countries. Studies of student characteristics reveal that 75% of the students will probably pursue graduate or professional studies. A majority of them selected “to broaden intellectual interests” when asked to identify their goal in coming to college. Such interest promotes a common bond between majors in a particular subject that often ripens into permanent friendships that are continued in alumni professional groups.

Your teachers at La Salle are Christian Brothers, priests, and lay professors. All of them share the same goal: to be of as much help to you, the student, as they can be. St. La Salle’s dedication to teaching is the informing spirit of the College, and you will be conscious of this spirit in the willingness of your professors to give that extra moment of explanation or advice which can mean so much. While many of these men and women are engaged in their own scholarship or research, their primary focus is always the classroom and their basic obligation is to you, the student.

7

Making the transition between high school and college is never easy, but at La Salle you will find many people who want to help and who understand some of the problems you face perhaps better than you do yourself.

During the summer months preceding the start of classes you and your parents will be invited to participate in the Pre-College Counseling Program. At this time you will come to the campus for a full day of conferences with the Counseling Center staff, as well as representatives from Financial Aid, Housing, Placement and other areas of the College. During the program you will have a personal interview with a counselor to discuss your educational and career plans and will

meet with an academic adviser who will assist you with your fall roster. In an informal atmosphere of small group discussions, you will also have the opportunity of sharing your ideas with other freshmen, with upperclassmen who have experienced the same transition, and with faculty members and administrators anxious to be of help. The overall aim of the summer program is to make your adjustment to college life as pleasant as possible.

In addition to this initial counseling program, the Counseling Center offers continued diagnostic and counseling services throughout your college years. If you are uncertain of your major or of your vocational plans, the staff is happy to assist you in making a sound choice based on your own interests and capabilities. The Center also offers personal counseling and psychiatric consultation, as well as informational services about graduate and professional schools, drugs, selective service and a variety of occupations.

Nor is your physical well-being neglected while you are on campus. A College physician is always on call, and a registered nurse is in daily attendance in the dispensary. Medical insurance is available and recommended to all students.

Throughout your college days, the Director of the Career Planning and Placement Bureau will be at your service to help you select a career and assist you in planning job campaigns. This office is sometimes able to assist students in finding part time or summer jobs related to their career goals.

All in all, you will find the human side at La Salle an important part of your education. Long after you have forgotten painfully memorized facts from a textbook or lecture, you will remember the teachers and students with whom you associated in your college years.

The Academic Life

“The only privilege a student had that was worth his claiming,” wrote Henry Adams, “was that of talking to the professor, and the professor was bound to encourage it.” La Salle professors do encourage it, and classes are small enough to permit discussion and personal relationships with your teachers.

The result is an academic environment where learning and intellectual development are nourished. In more concrete terms, the result is the gratifyingly high number of prestige awards won by La Salle graduates.

The presence at La Salle of good teachers, a fine library, and uncrowded classes are all helpful to your academic success, but the actual achievement of your academic goals is ultimately up to you.

The most important adjustment to collegiate life you will have to make is in learning to budget your time wisely. No one will force you to learn; no one can. Instead, you will be treated as a mature, intelligent person. You will be given assigned readings, papers, and projects in research to be turned in by a certain date. You yourself must plan when these assignments will be done; you yourself must bear the responsibility for meeting standards set by your instructors.

The standards for academic achievement are treated in some detail in the reference section of this catalog and need not be discussed here. The important thing for you to realize about the academic side of your college life is that it is the central test of your maturity and sense of responsibility. Learning is sometimes hard work, but it is the most rewarding kind of effort, not only in grades but in the self-satisfaction of having met a difficult challenge successfully.

But the academic side of college is not just a bleak picture of challenges, responsibilities, and standards. The academic side really offers one of the deepest, most lasting joys a person can experience—the joy of understanding.

Suddenly some part of human experience fits into a pattern for you; suddenly you understand why. The best part of the joy of understanding is that it is endless. The deeper your understanding goes, the deeper the satisfaction you experience.

Perhaps you haven't yet discovered this kind of joy; you may even doubt that it exists. Yet when you first experience it, you will begin to understand what education is all about and why many people willingly devote their lives to study and research.

The Social Life

The social side of college life should be a vital part of your educational experience. In living with others, planning activities together, and sharing your ideas in hours of informal discussion you are learning much that is a desirable part of liberal education. You are learning to understand and respect differing points of view; you are learning to discover new relationships and to develop your own convictions.

An important part of college, therefore, is the opportunity to share your concerns, to test your thinking in conversations and meetings with your peers, other men and women of your age who are trying to discover themselves just as you are.

Though this kind of informal relationship with other students has deep and permanent effects and cannot by its nature be planned or organized, it is often nurtured by common interests in organized activities. A lecture, for example, by a visiting celebrity from the world of politics or literature may kindle student discussions in the Snack Bar or the residence halls. Such concerts and lectures are weekly occurrences at La Salle.

Athletics too may develop common interests among students, whether they are participants or spectators. The athletic program encourages both intramural and intercollegiate competition. Varsity teams from La Salle have often been leaders in basketball, baseball, swimming, track, cross-country, crew, soccer, golf, and tennis. Varsity teams for women now include basketball, field hockey, and softball.

La Salle's reputation for excellence in drama rests on the work of The Masque and Theatre La Salle, who collaborate on two productions during the school year, and on the widely acclaimed Music Theatre productions which regularly draw more than 20,000 people to the campus each summer.

The Philosophy and Objectives

La Salle College is a group of buildings—brick, marble, limestone—situated on a hill overlooking Wister Woods. But it is also a great deal more. It is the embodiment of two great educational traditions: the American tradition of educating men in the foundations and spirit of democracy and the roots of western civilization, and the La Sallian tradition of dedicated teaching and concern for the individual, dating back to St. John Baptist de La Salle, founder of the Christian Brothers.

In the light of these traditions, La Salle offers students an education founded on the idea that man's intellectual and spiritual development go hand in hand, complementing and fulfilling one another. The basic purpose of the College is a free search for truth and the development of materials and skills necessary for the search; its religious concern is an extension of that purpose. In a company of mature teachers and scholars, the College urges the student to confront the ultimate questions of human experience: who he is; where his destiny lies; how he is to reach it.

La Salle is committed to a liberal education of both general and specialized studies. It wants its students to liberate themselves from narrow interests and prejudices and to learn to observe reality with precision, judge events and opinions critically, think logically, communicate effectively, and sharpen esthetic perception. The curriculum involves a body of knowledge about the universe; about man—his nature, behavior, and values; about God. It also provides an opportunity to gain specialized knowledge in one field of learning as a preparation for graduate study or entry into professional life. Beyond this breadth and depth of knowledge, the College encourages its students to seek wisdom, that is, to grasp those basic principles which can give order to particular facts.

As a private Catholic college, La Salle pursues these aims in a religiously diverse community of teachers and students interested in studying secular subjects in their autonomy, undertaking religious studies in a systematic way, and investigating what interrelations these subjects may have. The community also engages in programs in which the students' personal, social, and religious values may take root and in which the students may grow in mature attitudes and behavior in all human relationships. The ultimate hope of the College is that its graduates will be ready for informed service and progressive leadership in their communities and will be able to fulfill the immediate and final goals of their lives.

The Residential Community

Living in the La Salle residence halls can be an enhancing educational experience. Because you are at the College 24 hours a day you can more fully participate in campus activities and organizations. You are close to class, to Hayman Hall, to the Library and to faculty offices; and you don't have the daily hassle of traffic jams, parking spaces, or bus schedules. Practically speaking, it is convenient to live in the residence halls. Economically speaking, it is not as expensive as one might think. The cost is less than \$6.00 a day for room and board.

An average of twenty-three residents live on each floor of the residence halls, a number which is small enough to encourage a spirit of friendship and large enough to provide for a mixture of personalities and a variety of interests. As a resident you are exposed to different people and opportunities and you will have many occasions to test your ability to handle your own affairs responsibly. Your development as an individual is limited only by your imagination and your willingness to participate in the life of the residence halls.

On-campus life is increasingly active. The Residence Council sponsors dances, parties, movies, coffee houses, lecture series, Sunday mass, trips, and an extensive intramural sports program. Hayman Hall offers an Olympic-sized pool, basketball courts, squash and handball courts, weight rooms, an indoor track, and a sauna bath. The College Union has programs which include a continuing film festival, concerts, lectures, plays and special events.

Proximity to center city Philadelphia offers frequent pop and rock concerts, year round pro sports, first run movies and plays, and cultural and historical resources. In warm weather the Jersey Shore is only an hour's drive away, and in cold weather, the ski slopes of the Pocono Mountains are roughly two hours away.

Life in a college residence hall is a unique experience which is not easily duplicated elsewhere. Living with peers, working, dining, and socializing together, is a singular experience which can be exciting and educational. At La Salle, many things—staff, students, facilities, organizations, location, and costs—all combine to offer residents opportunities to experience college life to its fullest.

Qualifications for Admission

La Salle College does not discriminate against any applicant for admission because of race, color, creed, or national origin. Admission is based solely upon an applicant's qualification and ability to meet the established admission requirements.

If a student is well-motivated toward a college career and can show evidence of academic achievement and ability, the Admissions Committee will welcome an application. In arriving at its decision, the Committee studies the high school record, test scores, and the recommendations from high school faculty, guidance counselor, and principal. Each applicant is given personal consideration. The following are the specific requirements for admission:

15

HIGH SCHOOL UNITS

Your record should show successful completion of at least 16 units of high school work including the following:

| | |
|---|----------------|
| English | 4 units |
| Mathematics: | |
| Algebra & Plane Geometry or two years of Algebra | 2 units |
| History | 1 unit |
| Natural Science | 1 unit |
| Foreign Language | <u>2 units</u> |
| | 10 units |

The remaining six units may be distributed as follows:

1. Applicants for the *Liberal Arts* program may present six other units in academic subjects.
2. Applicants for the *Science and Mathematics* program may present six other units in academic subjects but including an additional one and one-half units in mathematics.
3. Applicants for the *School of Business Administration* may present six academic or commercial units, excluding typing.

LANGUAGE REQUIREMENTS

All applicants should present two units in the same foreign language.

ENTRANCE EXAMINATIONS

Applicants to the freshman class are required to take either the American College Testing Program or the Scholastic Aptitude Tests given by the College Entrance Examination Board. These tests should be taken no later than January (SAT) or February (ACT) of the senior year. Arrangements may be made through your high school counselor or by writing, six weeks before the test date, to either:

CEEB— The Educational Testing Service
Box 592, Princeton, N.J. 08540

or

Box 1025, Berkeley, Calif. 94701

OR
ACT— The American College Testing Program
Box 451
Iowa City, Iowa 52240

La Salle College's identification number for both tests: 2363

ACHIEVEMENT TESTS

The CEEB Achievement Tests are not required. These tests are helpful to departmental advisers, however, in determining placement in certain English, mathematics, and foreign language courses. They are recommended, therefore, to students who:

1. wish to apply for a waiver of the freshman composition requirement;
2. desire immediate placement in a calculus course;
3. plan to continue study of a language in college after having completed at least two years of that language in high school.

APPLYING FOR ADMISSION

The Committee on Admissions will consider a qualified applicant for acceptance any time after completion of the junior year. The following credentials are required for evaluation:

1. A completed application to La Salle College.
2. A transcript of three year high school scholastic and personality records.
3. The results of the College Board Scholastic Aptitude Test or of the American College Testing Program.

The successful applicant must graduate from high school with creditable grades.

An interested student is encouraged to arrange for a campus visit, which might include a personal interview and tour.

In exceptional cases, students may be admitted after completion of the junior year on the recommendation of their high school counselor and evidence of superior achievement.

Applicants may secure application materials from the Office of Admissions. These materials include a form which is to be mailed directly to the College by the high school. Completed applications and the \$15.00 application fee should be sent to the Office of Admissions. The Director of Admissions will notify applicants as soon as possible after a decision has been made. If accepted, a student is asked to forward a \$100.00 deposit, usually within three months of acceptance. This deposit will be applied to first semester expenses; the entire deposit is forfeited if an applicant chooses not to attend La Salle.

ADVANCED PLACEMENT PROGRAM

La Salle College participates in the Advanced Placement Program of the College Entrance Examination Board. Consequently, the College agrees to give credit and/or advanced placement to students who perform satisfactorily both in college-level courses taken in secondary school and in the advanced placement examinations administered by the Board. The equivalents for the grading scale are:

- 5 or 4=Advanced credit and advanced placement
- 3=Same, on recommendation of departmental head
- 2=Advanced placement only on recommendation
- 1=No advanced placement or advanced credit

TRANSFER STUDENTS

La Salle College welcomes qualified transfer students to the fall and spring terms, and to the Summer Sessions. Candidates for admission from colleges which offer courses of study similar to those of La Salle College should submit transcripts of high school and college records as soon after applying for admission as is possible. All transfer students should submit the results of College Entrance Examination Board tests or of the American College Testing Program, if available. A letter of appraisal from the Dean of Students of the college or university attended is requested in most cases.

All of these records should be in the Admissions Office at least 60 days before the beginning of the semester for which the student is applying. This interval is suggested to provide ample time to process the application, to evaluate transcripts, and to arrange a pre-registration interview.

The previous college record of the applicant must indicate good academic standing. A student applying for transfer from a fully accredited college or university should have a grade point average of 2.25 or higher (on a 4.00 scale). Transfer applicants from colleges which have applied for regional accreditation will be considered if their grade point average is 2.75 or higher (on a 4.00 scale). The decision on each applicant is based mainly on the grade point average earned at the college or university attended prior to applying to La Salle.

Credit will be allowed for courses completed with grades above the lowest passing grade given at the institution from which the applicant is transferring. Normally, 70 credits may be accepted for transfer.

A transfer student may be required to make up certain courses which belong to the sequence required in the program of studies for which he is applying.

La Salle College participates in the College-Level Examination Program of the College Entrance Examination Board. Qualified transfer students and others

with advanced preparations who wish to be considered for advanced credit through this program should write for information to the College-Level Examination Program, Educational Testing Service, Box 977, Princeton, N.J. 08540.

Interested prospective transfer students should direct their inquiries to the Coordinator of Transfer Admissions.

ADMISSIONS FOR VETERANS

All veterans with proof of a high school diploma or its equivalent, who have not been dismissed or placed on probation at another institution of higher learning since separation from service, are eligible to enroll as full time students at La Salle College. Veterans should telephone the Admissions Office to arrange an interview with an admissions counselor.

ACCOMMODATIONS FOR RESIDENTS

The residence halls accommodate approximately 700 students, and consist of nine dormitories, most of which are coed, and an apartment complex, with two bedroom furnished apartments, open to married students and to seniors. To reserve a room in the residence halls, a student should indicate on the application an intention to live on campus, and when confirming acceptance to the College submit the required \$50.00 residence hall deposit. Should the student decide not to occupy the room reserved, the entire advance deposit is forfeited.

Each room in the residence hall is furnished with a bed, desk, bureau, book shelf, mirror, two lamps, an easy chair, and drapes. The apartments are similarly furnished. Students may supply their own linen; however, the College will provide a weekly linen supply service for the charge of \$10.00 per semester. Adequate laundry facilities are available within the dorm complexes. Many personal needs such as toilet articles, paper supplies, towels, magazines, and sportswear may be purchased at the Campus Store.

All residence halls provide complete study, recreation and living learning facilities. There is an air conditioned, carpeted, study room in each dormitory, and a large centrally located study lounge equipped with air conditioning and comfortably furnished for quiet study. There are four other large, well-furnished lounges equipped with color televisions, and a smaller lounge with a fully equipped kitchen.

Meals are provided in the College Union Dining Halls. Since the meals must be planned on the basis of total participation by the resident community, no adjustment in fees can be expected for meals not taken on campus. Students have the option, however, of purchasing either a five or seven day meal ticket. Special diets for medical reasons can be arranged through the Director of Food Services.

Both the residence halls and the dining halls are closed during the Thanksgiving, Christmas, and Easter recesses.

The dormitories have facilities for the installation of telephone service into each room. Residents who desire to avail themselves of this service should make arrangements directly with the telephone company. Public telephones are also located on every floor of the residence halls. Calls for residents can not come through the College switchboard.

Residents are permitted to have cars on campus. The lot facilities are adjacent to the halls, but during class times parking is limited.

The residence halls administration is headed by a professionally trained staff who reside there. In addition, a student staff member resides on each floor of the dormitories to provide information, and referrals, and assistance in problem solving and program planning. The staff is an outgoing and diversified group who are interested in working with students to make their college life in residence an enjoyable and worthwhile experience.

COURSE SELECTION

Incoming freshmen will receive a course selection form in the mail after they have confirmed their acceptances. At this time they may indicate their choice of courses for both the fall and spring terms. Additional academic counseling is available to freshmen during the Pre-College Counseling Program in the summer.

* Applicable to those taking programs in biology, chemistry, physics, or earth science.

There are no additional fees for matriculation; registration; library, athletic facilities, or dispensary services; participation in student activities; the student newspaper; or the student identification card for admission to athletic events. However, in the face of rising costs, La Salle College must reserve the right to amend or add to the charges at any time and to make such changes applicable to students presently enrolled as well as to new students.

METHOD OF PAYMENT

Students are billed twice a year for one-half of the annual tuition and the room and board costs. Invoices for the fall semester are due in mid-August and for the spring semester in mid-December. Payment in full of the semester invoice within the time prescribed is a prerequisite to the completion of registration and inclusion on the official class lists.

The College does not carry open student accounts. Extended or monthly payments may be arranged, but **ONLY** through a **BANK LOAN PROGRAM** offered by a Philadelphia bank. Application for the bank loan program must be made directly with the bank well in advance of registration. Information regarding the bank loan program may be obtained at the Office of the Bursar of the College.

GRADUATION FEE

A graduation fee of \$40.00 is due and payable in the spring semester in which the individual will receive his degree. The College cannot be responsible for the inclusion in the graduation program of any candidate who pays fees after the deadline set at the billing date. The graduation fee covers the Senior-Faculty Reception, baccalaureate services, the cost of the diploma, the use of cap and gown, and all other expenses incidental to the commencement exercises. No candidate may be recommended for a degree, diploma, or certificate until the graduation fee and all other financial obligations have been paid.

21

REFUND OF TUITION

Under certain circumstances, the student who withdraws may receive a partial refund on his tuition. Information on terms and conditions is available on the student's matriculation card. There are no exceptions to these terms and conditions. Additional inquiries may be directed to the Bursar's Office.

Scholarships and Financial Assistance

No student is denied admission because of financial need. The financial aid program at La Salle College provides opportunities for scholarships, grants, loans, and student employment. Applicants for financial aid will be considered for any form or combination of forms of assistance.

Since the primary responsibility for college expenses rests with the parents and student, financial assistance is normally granted on the basis of financial need together with demonstrated and potential academic achievement. La Salle College participates in the College Scholarship Service. Candidates seeking financial assistance are required to submit a Parents' Confidential Statement to the Service. Forms are available at the guidance office of the secondary school or from the College Scholarship Service, P.O. Box 176, Princeton, New Jersey 08540.

COMPETITIVE SCHOLARSHIPS

Up to thirty tuition scholarships are offered annually to high school seniors who have demonstrated exceptional academic aptitude and achievement. These awards are renewed annually for the remaining three years provided the recipient maintains a 3.0 (B) average. Application forms for these competitive scholarships may be obtained from the Director of the Honors Program. The completed forms must be received by La Salle College no later than February 15. The applicant must arrange to take the tests of the College Entrance Examination Board in Scholastic Aptitude or the American College Testing Program no later than the January testing date. Arrangements for the tests must be made directly with the College Entrance Examination Board, Princeton, New Jersey. Applicants must request the Board to send results to the Admissions Office, La Salle College, Philadelphia, Pennsylvania 19141.

CHRISTIAN BROTHERS' SCHOLARSHIPS

La Salle College offers fifteen scholarships to students graduating from all Catholic high schools in the Camden and Philadelphia dioceses and from high schools conducted by Christian Brothers of the Baltimore province. Competition is based on academic excellence and extracurricular activities and is restricted to students nominated by their high school principal. Scholarship application forms will be sent directly to nominees designated by the principals.

NATIONAL MERIT SCHOLARSHIPS

La Salle College sponsors four National Merit Scholarships annually. To be eligible for one of these scholarships, a student must take the regular National Merit Scholarship Test and indicate his intention of attending La Salle College. These scholarships are administered by the National Merit Scholarship Corporation; it uses the regular procedures of its national competition and assigns the amount of the award based on need with a maximum of \$1,500.00 each year for four years.

ARMY ROTC SCHOLARSHIPS

The Department of the Army sponsors one- two- three- and four-year scholarships to incoming freshmen and to upperclassmen in the ROTC program. Each scholarship provides free tuition, textbooks and laboratory fees, and carries a \$100.00 monthly stipend.

Application for four-year scholarships must be submitted by high school seniors before January 15. Requests for applications should be addressed to Army ROTC, P.O. Box 12703, Philadelphia, Pa. 19134. It is advisable to write for and obtain an application as early as October of the senior year.

Recipients of one- two- and three-year ROTC scholarships are chosen on a competitive basis from among students in the La Salle ROTC program who must apply directly to the Professor of Military Science at La Salle.

LAW ENFORCEMENT EDUCATION PROGRAM

This federal assistance program is designed to help improve the nation's criminal justice system—police, courts, and corrections—by enhancing the quality of criminal justice personnel through opportunities for higher education.

Loans as well as grants are available to students at La Salle College who are actively employed by a law enforcement agency.

For further information and applications, contact the Director of Financial Aid, La Salle College.

SCHOLARSHIPS FROM OTHER SOURCES

Some scholarships and grants are made available annually by agencies in the Philadelphia and neighboring communities to students entering the College or to upperclassmen already in attendance.

Information about off-campus grants frequently held by La Salle students which involve competition or appointment can be obtained from the following:

1. Pennsylvania State Scholarships, Pennsylvania Higher Education Assistance Agency, Towne House, Harrisburg, Pennsylvania 17102.
2. New Jersey State Scholarship, Department of Education, Box 1293, Trenton, New Jersey 08625.
3. Food Fair Stores Scholarships, The Food Fair Foundation, Food Fair Building, 3175 John F. Kennedy Blvd., Philadelphia, Pennsylvania 19104.
4. Philadelphia City Scholarship Program, 516 City Hall Annex, Philadelphia, Pennsylvania 19107.
5. The Hero's Scholarship, City of Philadelphia, Room 490, City Hall, Philadelphia, Pennsylvania 19107.
6. Bulletin Scholarship Foundation, Bulletin Building, Philadelphia, Pennsylvania 19101.
7. J. Wood Platt Caddie Scholarship, c/o Cecil J. Barnett, Esq., 29 Bala Avenue, Bala-Cynwyd, Pennsylvania 19004.

LOANS AND EMPLOYMENT OPPORTUNITIES

La Salle College participates in the loan program as established by the National Direct Education Act. Students who demonstrate financial need are eligible for consideration for long term loans under the provisions of the act. All loans are offered to meet educational expenses only and are granted on the same basis as all other financial aid.

In addition, the Guaranteed Loan Program, which is similar to the National Direct Student Loan Program, was authorized by the Higher Education Act of 1965. Under this program, the student borrows directly from a bank or other financial institution, instead of through the College. Students desiring further information on this program should direct their inquiry to the Director of Financial Aid.

La Salle College also participates in the Federal College Work-Study Program. A number of on-campus jobs are available on a part time basis. Applications may be obtained from the Financial Aid Office. Care is taken to insure that this activity does not interfere with the student's academic and extracurricular life.

BASIC EDUCATIONAL OPPORTUNITY GRANTS

Currently, this program provides the possibility of grants for freshmen and sophomores. To be eligible, the student must file an application with the federal government. Applications may be obtained from high school guidance counselors or from the Financial Aid Office at La Salle.

SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS

The Supplemental Educational Opportunity Grant program was established by the Higher Education Act of 1965. Its purpose is to provide grants to students of exceptional financial need who, for the lack of financial means of their own or of their families, would be unable to enter or remain in college without such assistance.

Applications are available from the Office of Financial Aid, La Salle College.

PROCEDURES FOR APPLYING FOR FINANCIAL ASSISTANCE

A candidate who desires financial assistance must submit the Parents' Confidential Statement to the College Scholarship Service or the Family Financial Statement to the American College Testing Program.

Either statement should be filed no later than January 15. Applications received after that date will be considered only if there are funds available.

Financial aid awards will be announced at the time of the offer of admission or as soon thereafter as possible.

Most types of financial aid require annual re-application. All applications for renewal must be filed with the Financial Aid Office prior to April 15 of each succeeding year.

La Salle College's financial aid program is organized to help the able student who needs financial assistance. As long as the student continues to demonstrate academic progress as well as financial need, the College will make every effort to assist him.

Academic Programs and Procedures

REGISTRATION

During an announced pre-registration period in the spring term, a student meets with his chairman or adviser to plan his roster of courses for the upcoming year. On the basis of this pre-registration, the Registrar's Office publishes a Master Roster listing courses, times scheduled, and teachers assigned. The student then chooses his course section, time, and teacher. The Business Office will bill the student in August and December for the courses chosen, completing the registration process.

Students who have not completed mail registration will register on campus during the week before classes begin.

If a student cannot register during this period because of circumstances beyond his control, he may complete registration during the first two days of classes.

Late registration is permitted only in the most unusual circumstances and requires the permission of the dean of the school and the payment of a fee of \$10.00.

PROGRAM OF STUDIES

The program of studies prescribed by the student's adviser and approved by the dean of the school in which the student is enrolled is his official roster of courses.

It is the student's responsibility to see that all the requirements of his program are fulfilled. He should have in writing from the dean any exceptions to the prescribed program which may be granted him.

A student may be permitted to change from one program to another, or from one area of instruction to another, only when his previous record indicates that he may profit by such a change. In any change of this type the student must have the written permission of his chairman and the dean of his school. This change may entail taking approved summer courses or an additional semester in college. In no case may a student who transfers receive promotion or a degree sooner than he would have received it had he not transferred. No degree may be received less than one year after change of curriculum.

CLASSIFICATION OF STUDENTS

A full time student carries a minimum of twelve semester hours, although normal progress toward a degree requires an average of fifteen hours a week. A student's program may require more hours per week in some areas of instruction.

Class level is determined by the number of credit hours earned by the student. Students having 0 to 23 credit hours are considered freshmen; those who have earned 24 to 53 credits are sophomores; those having 54 to 83 hours juniors; and those with more than 84 credit hours are classified as seniors.

Part time students carry a roster of less than twelve hours per week. Students in this category will require more than the normal four years in which to earn a degree.

Students who do not fulfill certain admission requirements may be admitted to follow particular courses and are considered as special students. They do not register for a degree granting program. Credits earned by a special student may be counted towards a degree as soon as he has met all the requirements for admission and candidacy for a degree provided that the credits thus earned be applicable to his program of studies for the degree. A special student cannot hold a scholarship nor take part in extracurricular activities.

INTERDISCIPLINARY PROGRAMS

The interdisciplinary program offers the freshman an approach to education marked by a focus upon a common topic jointly taught by several faculty members. Examples of topics studied are: "Man and His Environment," "Repression and Expression," and "Work and the Quality of Life." Particular concerns also include the growth of a student-teacher community of learning and the opportunity for students to develop responsibility as participants in the directing of the program.

In the freshman year the student takes from six to twelve hours (two to four courses) in interdisciplinary work. These courses satisfy certain General Education and Distribution requirements. The student has the option to take the courses on a pass/fail basis. Ordinarily, science majors and students enrolled in the honors program are not eligible.

27

DUAL MAJORS

In some circumstances, a student with special needs and abilities may be permitted to major in two departments or to follow a special interdepartmental program. After developing the program in consultation with both departments, the student must obtain approvals of both chairmen and of the dean. Arrangements should normally be completed during the spring semester of the sophomore year.

HONORS PROGRAM

The honors program is designed to provide the most academically talented students with an enriched program of general studies that will be both challenging and stimulating. The freshman honors student, as an apprentice in the program, studies in honors sections of two or three required courses. If he proves himself able and interested, he continues with honors courses in such areas as religion, philosophy, and English, which offer more depth and more advanced reading. In the upper division, such courses will frequently be given by distinguished visiting professors.

In his last two years, the honors student may, with the approval of his chairman, substitute an independent study course in each semester for any regularly scheduled course except religion or seminar. Class meetings in these courses are less frequent, and emphasis is on individual reading and research. During the course of the regular academic year, visiting lecturers and authorities in various fields are invited to the Honors Center for small and informal discussions with interested honors students. Further information on the program is available from the Director of the Honors Program.

COOPERATIVE EDUCATION PROGRAM

The Cooperative Education Program permits students to integrate classroom theory with practical experience by alternating specific periods of attendance at the College with specific periods of employment.

A student may begin a coop program as early as the sophomore year and still complete requirements for graduation within four and a half years. Cooperative education can add relevance to a student's academic program, furnish practical experience, afford an understanding of human relationships outside of one's peer group, and provide realistic vocational information as well as financial assistance.

Students interested in learning more about this new program should see the Director of Cooperative Education.

LA SALLE IN EUROPE—FRIBOURG, SWITZERLAND

Recognizing the advantages of travel in other countries and first-hand contact with other cultures, La Salle College offers a sophomore and junior year program which provides its students a first-hand opportunity to study at the University of Fribourg in Switzerland. Nestled in the valley of the Sarine, Fribourg is one of the most beautiful cities in one of the most beautiful countries in the world.

A unique feature of the University of Fribourg is its official bi-lingual character; courses are offered in both French and German, often the same course in either language. In conjunction with two other colleges (Providence and Rosary), La Salle College forms part of the American College Program of the University of Fribourg. This organization offers many courses in English.

In most instances, students will be housed in private homes or apartments located near the university. These rooms are chosen by the resident director of the program. Students accepted into the program attend an orientation course during the semester prior to departure. Those students deficient in French or German will be permitted to enroll in special courses during the summer prior to departure. Interested students should see Dr. Leonard Brownstein, Director of Foreign Studies.

UNDERGRADUATE LANGUAGE PROGRAM—UNIVERSITY OF SEVILLE

La Salle College is a member of the Council on International Educational Exchange and a consortium of 40 colleges and universities which forms a Cooperative Study Center in Seville, Spain.

The University of Seville is one of the oldest universities in Spain. Students may apply for a semester or an entire academic year. Each five-month session consists of two cycles. The first provides intensive language training, and the second offers a variety of special courses including Spanish language, literature, art, contemporary civilization and teaching English as a foreign language. Students are housed in private homes. Meals are taken at the place of residence.

The principal aims of the program are:

1. To help the student achieve fluency in the spoken and written language.
2. To give the student the opportunity to experience and understand the nature of Spanish society and institutions through constant and direct exposure to the nation's history, art, and contemporary life.
3. To prepare the future teacher of Spanish for the role which he will play in the classroom situation.

Interested students should see Dr. Leonard A. Brownstein, Director of Foreign Studies.

NURSES' COOPERATIVE PROGRAM

La Salle participates in a cooperative program with a number of area hospitals in teaching the basic sciences to the students from these hospital schools. The essential program remains under the control of the parent schools. These students receive college credit for those courses attended at La Salle.

URBAN STUDIES AND COMMUNITY SERVICES CENTER

The Urban Studies Center seeks to involve the human, academic, and material resources of the College in the larger urban community in which it is located. Such involvement in the community's growth and development enables the College to draw upon the practical experience with urban problems possessed by many in the local community, thereby broadening the base of the education offered its students. The relationship further aids the College in developing an urban studies curriculum relevant to the community perspective and initiative. The Center is located on the corner of Wister and Clarkson streets.

COMMUNITY ACADEMIC OPPORTUNITY PROGRAM (CAOP)

The CAOP Program provides an opportunity for a college education to selected disadvantaged students who are residents of Northwest Philadelphia. Students are chosen for this five-year program on the basis of geographic, economic, academic, and motivational criteria. Interested applicants should follow the normal procedure in applying for admission, indicating their interest in the CAOP Program on their application.

COURSES AT CHESTNUT HILL COLLEGE

The cooperation of La Salle with Chestnut Hill College, a Catholic college for women situated about five miles from La Salle, results in a valuable coordination of programs. Students from either of the associated colleges can register for courses at the other college, with full credits, and without the payment of extra tuition. The calendar for the academic year in both colleges is identical. Students wishing to register for courses offered at Chestnut Hill will follow the same procedure as when they register for courses at La Salle. Classes at Chestnut Hill begin on the hour, at La Salle on the half-hour.

Students interested in preparing for elementary education may take part in a special cooperative program with Chestnut Hill College, which may be arranged in consultation with the Dean of the School of Arts and Sciences.

SUMMER SESSIONS

A variety of courses are offered in both day and evening sessions during the summer. A student may use these courses to enrich his academic program,

to lighten his regular schedule, to make up failures, or, in some instances, to accelerate his progress toward a degree. The Summer Sessions are administered by the Dean of the Evening Division.

Properly qualified applicants from other accredited institutions are also admitted to the Summer Sessions.

RESERVE OFFICERS' TRAINING CORPS PROGRAM

Freshmen may elect to participate in the Reserve Officers' Training Corps at La Salle by so specifying on their Course Selection Form. No service obligation is incurred during the first two years. Women students may enroll in military science courses on a college credit basis.

Students who successfully complete the basic course for freshmen and sophomores may be chosen for the advanced course. Advanced course students and ROTC scholarship recipients also earn a monthly stipend of \$100.00. (See page 23 for additional information on the ROTC Scholarship Program.) Cadets earn approximately \$280.00 per month while attending the Advanced Summer Camp.

Students transferring to La Salle as juniors, or current students who have not previously participated in ROTC, may take advantage of the special two-year program. They should make arrangements through the Professor of Military Science during the spring term of their sophomore year. They begin the program by attending a six-week Basic Summer Camp the summer before their junior year. During their last two years, they attend ROTC classes and take part in the Advanced Summer Camp.

Additional information is available from the Professor of Military Science, La Salle College, Philadelphia, Pa. 19141.

ATTENDANCE POLICY

Students are expected to attend classes regularly. Absences are permitted to provide for conditions beyond the control of the student. Ordinarily, these would be equal to twice the semester hours scheduled for the course; for example, six absences in a three hour course. Attendance is noted from the first regular class meeting regardless of the time of registration.

EXAMINATIONS

The last week of each semester is set apart for final examinations. Examinations to measure student progress are given at mid-term. Students who, for satisfactory reasons, fail to take a semester examination at the scheduled time may take a delayed examination.

GRADES

The following system of grades is used in measuring the quality of student achievement in courses:

A Superior C Average F Failure W Withdrawal U Unsatisfactory
B Very Good D Passable I Incomplete S Satisfactory X Audit

In the determination of final grades for courses, recitations, written assignments, and the results of the final examination are considered.

Incomplete: The I grade is a provisional grade given by an instructor to a student who has otherwise maintained throughout the semester a passing grade in the course, but who has failed to take the semester examination for reasons beyond his control. Make-up examinations for the fall semester must be completed before the opening day of the spring semester. All I grades that have not been removed within three weeks after the last regular examination of the semester become F's. When it is physically impossible for the student to remove this grade within the time limit, he must obtain a written extension of time from the dean of his school.

Withdrawal: The W grade is assigned when a student withdraws from a course with the dean's permission before its completion. Ordinarily permission for withdrawal is not granted after mid-term examinations.

Satisfactory or Unsatisfactory: Students may take free electives under a pass/fail option. If they indicate this option to the Registrar within two weeks after the course begins, the grade for the course will be recorded as S or U. Such a grade will not affect the cumulative index, but semester hours graded S will be counted toward the total required for graduation. The purpose of this option is to encourage choice of challenging electives, including those outside the student's major field.

Audit: The X grade is assigned for courses audited. A student wishing to audit a course must so indicate at registration and must have permission from his instructor and dean.

Courses repeated: If a student repeats a course, only the higher grade is counted in the academic index. A student may not repeat a course more than once without permission from his dean.

STUDENT RESPONSIBILITIES

A student's matriculation at La Salle College is a voluntary decision which involves acceptance of the responsibility to perform academically and to behave socially in ways consistent with the goals and objectives of the College. When registering at La Salle, the student accepts College rules and regulations and the authority of the College to exercise disciplinary powers including suspension and dismissal. As a member of student organizations and as an individual, the student assumes responsibility for knowing and complying with all existing regulations in the *College Bulletin*, the *Student Handbook* and any rules and regulations subsequently promulgated through appropriate publication to the College community. Copies of the *Student Handbook* may be obtained from the Dean of Students' Office.

STUDENT REPORTS

A progress report is submitted to the Dean's Office by each instructor at the middle of each term. Final grades are submitted to the Registrar's Office at the end of a semester and these are made part of a student's permanent record. A report of semester grades is mailed to the student within two weeks after final examinations.

SCHOLARSHIP INDEX

A scholarship index system is used at La Salle to determine a student's average grade. In determining the index, each letter grade is ascribed a numerical value, called grade points. A is valued at 4 grade points; B is valued at 3 grade points; C is valued at 2 grade points; D is valued at 1 grade point; F is valued at zero grade points.

A grade point score is calculated for each course by multiplying the numerical equivalent of the letter grade by the number of semester hours. The index, or the average grade of all courses, is found by dividing the sum of the grade point scores for all courses by the total number of semester hours of course work attempted.

ACADEMIC STANDING

First year students are required to earn a minimum average of 1.50 to be in good academic standing; second year students, 1.75; third year students, 1.90. Averages are computed at the completion of each semester.

DEANS' HONOR LIST

The Deans' Honor List is published at the termination of each semester.

Those students who have a cumulative average of 3.4 are placed on the Deans' List. To be eligible for this list, a student must have complied with all the regulations of the College and must be free of all academic censure. Freshmen are not eligible for inclusion on this list.

While students on the Deans' List are excused from class attendance regulations, they are expected to fulfill the requirements of every course rostered. They are also eligible for courses in the College's honors program.

ACADEMIC CENSURE

Academic censure may assume any one of three forms, depending on the student's academic standing. An evaluation of student records is made at the end of each semester.

(a) *Probation.* A student is placed on probation when he has attained a cumulative grade point average of (a) less than 1.50 after the first or second term of his freshman year, (b) less than 1.75 after the first or second term of his sophomore year, (c) less than 1.90 after the first or second term of his junior year. Such a student will be continued on probation until he has satisfied the conditions for good academic standing.

(b) *Suspension.* This is involuntary separation of the student from the College for a definite period of time, usually for two semesters. No academic work during a period of suspension will be accepted for a student's academic record at the College.

(c) *Dismissal.* This is involuntary separation of the student from the College for an indefinite period of time. No academic work during a period of dismissal will be accepted for a student's academic record at the College.

A student is liable to suspension or dismissal: (1) when he has attained a cumulative scholarship index of (a) less than 1.00 during his freshman year, (b) less than 1.50 during his sophomore year, (c) less than 1.75 during his junior year, (d) less than 1.90 after his junior year; (2) when he is on probation for two successive semesters.

CREDIT FOR OFF-CAMPUS COURSES

Course work taken at other institutions by regularly enrolled students at La Salle College may not be offered for credit unless the student has had written permission in advance from the dean of his school to take such courses. Credit is transferred only for marks of C or better. The student's index may be affected only if the credit is for a course previously taken at La Salle.

REQUIREMENTS FOR A DEGREE

The candidate for a degree must have completed course work equivalent to a minimum of 120 semester hours. Certain curricula may require a number of hours exceeding this minimum.

He must have obtained a C average or cumulative index of 2.00 in his prescribed program of studies.

He must have fulfilled all course requirements prescribed for him by the chairman of the department in which he majored and approved by the dean of the school in which he is enrolled.

He must have fulfilled the General Education and Distribution requirements.

He must have completed eight semesters as a full time student, including the two semesters of his senior year.

HONORS

The bachelor's degree with honors is conferred on a student who has completed his course at the College with an average of all marks not lower than 3.4 and who has not incurred the penalty of loss of good standing for disciplinary reasons.

The candidate for the bachelor's degree who has earned an average of 3.8 in all courses is graduated with the distinction *Maxima Cum Laude*.

The candidate who has earned an average of 3.6 is graduated with the distinction *Magna Cum Laude*.

The candidate who has earned an average of 3.4 is graduated with the distinction *Cum Laude*.

Honors are computed on the basis of the work done for eight semesters.

WITHDRAWALS

A student who withdraws from the College must submit a withdrawal notice to the dean of his school. The date of filing the withdrawal notice is considered as the date of withdrawal in all cases.

TRANSCRIPTS

Students may apply at the Registrar's Office for a transcript of their collegiate work. Official transcripts bearing the signature of the Registrar and the seal of the College are sent, at the request of the student, to other institutions and organizations. Students requesting transcripts for their own use are given copies marked "student copy." Each student is sent a copy of his transcript at the time of graduation. A fee of \$1.00 is charged for an official transcript. When several copies are requested at the same time, the fee is \$.50 for each additional copy. The College requires at least one week's notice for the issuance of transcripts. No transcripts can be issued until all financial obligations to the College have been satisfactorily settled.

School of Arts and Sciences

DEGREE PROGRAMS

The School of Arts and Sciences offers general or liberal arts programs and programs in science and mathematics. Within these two areas you may further specialize in a major field of study. In the liberal arts, the Bachelor of Arts degree is offered in art history, economics, English, foreign languages, history, music, philosophy, political science, religion, and sociology. Concentration in the science area may lead to a B.A. degree in biology, chemistry, earth science, mathematics, physics, or psychology.

The School also offers programs designed as preparation for law, medicine, dentistry, teaching, social work, and work in criminal justice.

Preparation for Medicine

Most students preparing for medical school major in either biology or chemistry. However, a student may major in any program whose free-electives allow completion of the following basic courses in science and mathematics:

| | |
|-------------------|-----------------|
| Chemistry | 12-16 sem. hrs. |
| Physics | 8 |
| Biology | 8 |
| Mathematics | 0- 6 |

Member institutions of the Association of American Medical Colleges specify these courses as minimum preparation for admission. Most, however, recommend additional courses. The premedical student is therefore advised to become familiar with the exact requirements of the school(s) to which applications will be made.

Medical schools review the applicant's full undergraduate record. Evidence of broad interest, rounded development, and leadership can lend strong additional support to applications.

Because of intensified competition for admission, many medical schools are suggesting that applicants with grade point averages below 3.0 have little chance of acceptance. Students are encouraged to consult with their Health Professions Adviser concerning admission criteria.

Preparation for Dentistry

The basic requirements for admission to most dental schools are the same as those for admission for medical schools. The special courses, however, vary with each school. It is recommended, therefore, that the prospective dental student acquaint himself with the requirements of the school which he plans to enter.

Preparation for Teaching

The teacher preparation program leads to eligibility for an Instructional I certificate to teach in the secondary schools of Pennsylvania and provides a foundation for those desiring to go on to further studies in the field. The Pennsylvania Department of Education has granted program approval in the preparation of teachers of biology, chemistry, English, French, German, Latin, mathematics, physics-mathematics, Spanish, and comprehensive social studies. Students who satisfactorily complete the College's requirements in these areas and are recommended by the Teacher Certification Committee are issued teachers' certificates. Those planning to teach outside of Pennsylvania should familiarize themselves with certification requirements elsewhere.

The Education Departmental Board, consisting of faculty members from the education department, one faculty representative for each of the subject areas of teacher preparation, and eight student representatives in the teacher preparation program makes final intradepartmental decisions on planning, conducting, and evaluating the teacher preparation program. A Teacher Placement Office on campus aids graduates in obtaining teaching positions.

For additional information on the teacher preparation program, see page 52.

(The program offers three different Instructional I certificates
in each of the above-cited areas.)—Ms. Marilynn Roehm

(Further details on the specific requirements in each of these areas are available in the education department office or from the appropriate adviser.)

Preparation for Law

Law schools do not prescribe particular curricula for admission. La Salle College, therefore, approaches the preparation for law on an individual basis, tailoring the program of each student to individual needs and desires. Thus, students may major in English, political science, history, etc., as preparation for law.

Any student considering law as a career, regardless of his major curriculum interest, is encouraged to seek early counseling with the pre-law adviser, Dr. Edward Domineske.

CURRICULUM

The curriculum for Arts and Sciences students is structured in four parts:

1. General Education—7 courses (21 credits)
2. Distribution Requirement—8 courses (24 credits)
3. Departmental Requirements for Majors—ordinarily not more than 15 courses (45 credits)
4. Free Electives—minimum of 10 courses (30 credits)

The General Education courses, which will normally be completed by the end of sophomore year, concern themselves with the basic skill of written communication and with such value-oriented subjects as literature, religion, and philosophy. Each of these departments offers several courses which can be chosen to fulfill the General Education Requirement.

The range of choice is further widened by the Distribution Requirement, which is to be fulfilled by the end of junior year. Courses offered under this requirement help provide some depth outside your major field and also offer a measure of flexibility so that you can shape your program in accord with your interests.

The number of courses each department requires of its majors will normally not exceed 15, leaving at least 10 courses to be used as free electives. Some departments require their majors to take courses outside their primary field. Students may present such courses in fulfillment of Distribution Requirements.

The College recommends that students planning graduate studies acquire a good background in languages, since most graduate schools require a knowledge of one or two foreign languages before granting higher degrees.

GENERAL EDUCATION REQUIREMENTS (To be completed by end of sophomore year)

English Composition1 semester (May be waived if writing competence is established.)
Literature2 semesters (English or foreign language in translation.)
Philosophy2 semesters
Religion2 semesters

DISTRIBUTION REQUIREMENTS (To be completed by end of junior year)

Two courses in four of the areas below, exclusive of courses in your major

| Area I | Area II | Area III | Area IV | Area V |
|---------|-------------------|----------------|--------------|---------------|
| English | Foreign Languages | Fine Arts | Economics | Biology |

FREE ELECTIVES

A student may choose to concentrate his free electives in a particular discipline to build a strong minor or may use these electives to diversify his background or broaden his interests. Free electives may be taken on a pass/fail basis. (See GRADES, page 31.)

BROTHER JAMES MULDOON, F.S.C., Ph.D., *Chairman*
Professors: Holroyd, Penny
Associate Professors: Bogacz, Lowery, Muldoon, Sullivan
Assistant Professors: Belzer, Hawley, Ksiazek

Required for Major in Biology: 17 courses

- Biology 201, 407-408, and 6 additional biology courses totaling 33 hours. (The sequence of Biology 201, 202, 301, and 302 is strongly recommended by the department.)
- Chemistry 111-112, 201-202
- Mathematics 113-120 (Biology 314 may be substituted if Mathematics 120 is taken as first course.)
- Physics 105-106

Biology 151-152. (110-111)

ANATOMY AND PHYSIOLOGY

3-6 credits

A basic course in the structure and functioning of the human body with emphasis placed on the interrelationships of the major organ systems. May be taken by non-science majors to fulfill their Distribution Requirement. Two hours lecture, two hours laboratory.

Biology 153-154. (117-118)

GENERAL BIOLOGY

3-6 credits

For election in the distribution area by non-biology majors. Structure and metabolism of seed plants and vertebrate animals; brief survey of the plant and animal kingdoms. Consideration of evolution, ecology and genetics for both plants and animals. Course will incorporate lecture, visuals, demonstrations, and student investigations. Three hours lecture, no laboratory. Two terms.

Biology 155.

LIFE BEFORE BIRTH

3 credits

For election in the distribution area for non-biology majors. Lecture, visuals, demonstrations, and student investigation will illustrate the sequential formation of the human body from production of the reproductive cells, through fertilization and organ formation, to birth. In addition, common developmental problems and their causes will be discussed. Three hours lecture, no laboratory. Fall term.

Biology 156.

VARIATION IN MAN

3 credits

For election in the distribution area for non-biology majors. General principles of genetic transmission and their application to man. Discussion of currently developing procedures for genetic control which might have an impact on man, and of existing problems stemming from genetic transmission and chromosomal abnormality. Lecture, visuals, demonstrations, and student investigation. Three hours lecture, no laboratory. Spring term.

N.B. Non-majors planning to elect biology courses above the 200 level must secure the permission of the chairman.

- Biology 201.**
THE LIVING ORGANISM 4 credits
Integrated principles of modern biology; the attributes of life and hypotheses of its genesis; the continuity of life and its diversification; energy sources and the biological energy cycles; cells, organisms, and their structure and communities. *Required of all biology majors; may be waived for advanced standing.* Prerequisite: General Chemistry. Three hours lecture, two hours laboratory.
- Biology 202.**
THE INVERTEBRATES 4 credits
Life processes, phylogenetic advances, and basic classification of the major pre-Chordate phyla with emphasis on their evolution and ecology. Three hours lecture, two hours laboratory.
- Biology 251. (207)**
CLINICAL MICROBIOLOGY 3 credits
The physical and chemical techniques available for the destruction of microbes; the prevention of microbial contamination; role of specific pathogens in the etiology of human disease processes; chemotherapeutic and antibiotic preparations available to assist the body mechanisms. Recommended for nurses. Offered both semesters.
- Biology 301. (303)**
THE VERTEBRATES 4 credits
Comparative systemic anatomy of the vertebrate classes; hypotheses of origin and radiation of the phylum Chordata. Laboratory dissections of representative Chordates from amphioxus to mammal. Two hours lecture, four hours laboratory.
- Biology 302.**
THE PLANT KINGDOM 4 credits
Functional anatomy, phylogeny, and basic systematics of non-vascular and vascular plants. Three hours lecture, two hours laboratory.
- Biology 303. (407)**
MICROBIOLOGY 3 credits
A lecture-laboratory course concerned with the role of microorganisms in nature and especially in human affairs. Two hours lecture, two hours of laboratory; one term.
- Biology 305. (418)**
GENERAL PHYSIOLOGY 3 credits
Metabolic processes and associated physico-chemical phenomena of living organisms. Current hypotheses of muscle, endocrine, neural, respiratory, cardiovascular, and nutritional physiology. Prerequisite: Organic Chemistry. Two hours lecture, two hours laboratory.
- Biology 306. (419)**
NEUROMUSCULAR PHYSIOLOGY 3 credits
A physiological study of cardiac, skeletal, and smooth muscle and their relationship to the central and autonomic nervous systems. One hour lecture, four hours laboratory.
- Biology 308. (411)**
MICROTECHNIQUE 3 credits
Histochemical and cytological techniques associated with the preparation of animal and plant materials for microscopic study. One hour lecture, four hours laboratory.

Biology 310. (412)

GENETICS

3 credits

Mendel's laws of heredity as observed in plants and animals; the scope and method of modern genetics. Two hours lecture, two hours laboratory.

Biology 312. (425)

RADIOBIOLOGY

3 credits

Nuclear technology as applied to life sciences; theory, instrumentation, and use of radioactive isotopes in animals and plants. Two hours lecture, two hours laboratory.

Biology 314. (428)

BIOMETRICS

3 credits

Analysis of experiments and research data in quantitative biology. Probability distributions, analysis of variance, rectilinear and curvilinear regression, and correlation. Three hours lecture, one hour laboratory.

Biology 401. (414)

TAXONOMY OF THE ANGIOSPERMS

3 credits

Angiosperm systematics; field collecting and identifications; herbarium and greenhouse practice. Phylogeny, characteristics and importance of the leading families of flowering plants. Two hours lecture, two hours laboratory.

Biology 402. (408)

THE CELL

3 credits

Physical properties, chemical structure, and metabolism of simple and specialized cells; recent advances in the techniques of cell culture and investigation. Prerequisite: Organic Chemistry. Two hours lecture, two hours laboratory.

Biology 403. (409)

PRINCIPLES OF ECOLOGY

3 credits

Basic concepts of ecological theory; physical and biotic factors affecting the evolution, behavior, and community organization of organisms. Three hours lecture with field observations.

Biology 404. (410)

FIELD ECOLOGY

3 credits

Project laboratory at the La Salle Penllyn Biostation; supervised student research projects in terrestrial and aquatic ecology. Recommended prerequisite: Biology 403. Six hours laboratory and field work.

Biology 405.

HISTOLOGY

4 credits

The minute and ultra structure of mammalian primary tissues together with their functional relationships in the formation of major organ systems; histological basis of function is stressed. Two hours lecture, four hours laboratory.

Biology 406.

EMBRYOLOGY

3 credits

Fundamental processes underlying vertebrate development and differentiation; the frog, chick, and pig form the basis of instruction. Two hours lecture, two hours laboratory.

Biology 407-408. (Chem. 433-434)

BIOLOGICAL CHEMISTRY

4-8 credits

The principles of physical chemistry as they apply to biochemical reactions and the principal biochemical species and reaction sequences; the role of these reactions in specific biological functions. Laboratory application of techniques of analytical chemistry to analysis of biochemical reactivity. Three hours lecture, three hours laboratory.

Biology 470. (427)
SPECIAL TOPICS IN BIOLOGY

3 credits

Presentation of review papers and discussions of assigned topics from main currents of biological research; participants to be recommended by department staff.

Biology 480-481. (422-423)
BIOLOGICAL RESEARCH

2-4 credits

Laboratory or theoretical research under staff supervision; permission of chairman required. Hours to be arranged.

CHEMISTRY

GREGORY CLAUDE DEMITRAS, F.S.C., Ph.D., *Chairman*

Professors: Barth, Paul, Wilson

Associate Professors: Demitras, Tekel

Assistant Professor: Straub

Lecturers: Boyko, Polek

Required for Major in Chemistry: 15 courses

- Chemistry 111-112, 201-202, 305, 403, 301-302, 401, 402.
- Mathematics 120, 221, 222. (It is strongly suggested that chemistry majors begin with Mathematics 120 as freshmen.)
- Physics 105-106. (Physics 211 is excellent preparation for Chemistry 301 and 302, but is not absolutely required.)
- The department suggests that all chemistry majors have at least 400 hours of lecture and 500 hours of laboratory work, a reading knowledge of a foreign language, some advanced work in chemistry, physics or mathematics, and some research experience. This additional work may qualify a chemistry major for accreditation by the American Chemical Society. The chemistry program is accredited by the American Chemical Society.

Chemistry 101-102. GENERAL CHEMISTRY

4-8 credits

A terminal course. Designed specifically for students who wish to obtain a general knowledge of chemistry in one survey course. Descriptive chemistry and the quantitative aspects of chemical principles are discussed. Three hours lecture, three hours laboratory; two terms.

Chemistry 111-112. GENERAL CHEMISTRY

4-8 credits

A general course based on physical principles; emphasis on elementary thermodynamics with applications to gases, solutions, heats of reaction, electrochemistry, ionic and non-ionic equilibria. Concepts of elementary quantum mechanics applied to spectral concepts and the theory of the chemical bond. Reaction kinetics applied to reaction mechanisms. Descriptive chemistry of the representative elements and transition metal complexes. Laboratory stresses the quantitative aspects of chemistry. Three hours lecture, three hours laboratory.

Chemistry 201-202. ORGANIC CHEMISTRY

4-8 credits

Chemistry of carbon compounds with emphasis on structure, stereochemistry, synthesis and reaction mechanisms. Application in allied fields. Laboratory introduces techniques involved in organic synthesis, analysis, and study of reaction mechanisms. Intended for majors in chemistry, biology, and all students pursuing careers in the health professions. Prerequisite: Chemistry 111-112. Three hours lecture, three hours laboratory; two terms.

Chemistry 301-302. (405-406) PHYSICAL CHEMISTRY

4-8 credits

Elementary principles of physical chemistry discussed and illustrated by suitable laboratory experiments. The ideal gas, real gases, liquids, solids, elementary thermodynamics, thermochemistry, solutions, equilibria, kinetics, electromotive force, electrical conductivity, and chemical thermodynamics. Prerequisites: Chemistry 201-202, Mathematics 221-222. Three hours lecture, three hours laboratory; two terms.

- Chemistry 305. (302)**
QUANTITATIVE ANALYSIS 4 credits
Neutralization, oxidation-reduction, chemical equilibria, colorimetry and the methods of quantitative chemical analysis. Thorough training in volumetric, gravimetric, and colorimetric techniques. Two hours lecture, six hours laboratory.
- Chemistry 306. (402)**
QUANTUM CHEMISTRY 2 credits
Quantum mechanics applied to the solution of some elementary systems. Discussion of chemical bonding. Introduction to elementary statistical mechanics using results derived from quantum mechanics.
- Chemistry 308. (431)**
BIOCHEMISTRY 4 credits
The chemistry of carbohydrates, fats, proteins, vitamins, enzymes, and hormones; emphasis on their roles in biochemical processes. Laboratory work illustrates common techniques used to prepare, identify, and assay biochemical materials. Prerequisite: Chemistry 201-202. Three hours lecture, three hours laboratory.
- Chemistry 401. (407)**
QUALITATIVE ORGANIC ANALYSIS 4 credits
A study of the classifying reactions of organic compounds as exemplified by the analysis of compounds and mixtures in the laboratory. *Restricted to chemistry majors.* Prerequisites: Chemistry 201-202. Eight hours of laboratory per week and individual conferences.
- Chemistry 402. (408)**
ADVANCED QUANTITATIVE ANALYSIS 4 credits
Theory and practice of physical measuring instruments with particular attention to the use of the instruments. Modern trends in analytical chemistry. Two hours lecture, six hours laboratory.
- Chemistry 403. (401)**
ADVANCED INORGANIC CHEMISTRY 3 credits
The vector model of the atom, theoretical aspects of chemical bonding, descriptive chemistry trends relative to the periodic table, molecular structure and symmetry of molecules, and general discussion of the transition metals and their complex ions. Prerequisites: Chemistry 201-202, 301-302.
- Chemistry 404. (430)**
ADVANCED ORGANIC TOPICS 3 credits
Designed to extend the knowledge of organic chemistry; emphasis on those topics not fully developed in the elementary course. An introduction to the literature of chemistry is also included. Prerequisite: Chemistry 201-202. Three hours of lecture.
- Chemistry 471.**
SPECIAL TOPICS 3 credits
Courses in "Polymers and Polymer Coatings" and in "Chemical Marketing" are offered as Special Topics in the Evening Division and are open to day students.
- Chemistry 480 and/or 481. (410-411)**
CHEMICAL RESEARCH 4-8 credits
Individual laboratory or theoretical work under supervision of a staff member. *Restricted to chemistry majors.* Hours to be arranged.

COMPUTER SCIENCE

(See Mathematics, page 86)

EARTH SCIENCE

RODDY V. AMENTA, Ph.D., *Chairman*
Assistant Professors: Amenta, Stephens

Required for Major in Earth Science: 15 courses

- Earth Science 101, 102, 203, 204, 205, 301, 302, 303, 401, 402, 403, 470.
- Chemistry 101-102 or Chemistry 111-112.
- Suggested courses: Students anticipating graduate work in geology or closely related areas are advised to elect courses in basic sciences, mathematics, Russian or German.

Earth Science 101.

PHYSICAL GEOLOGY

3 credits

Principles of physical geology, including classification of rocks, weathering, earthquakes, volcanoes, glaciation, marine erosion, and mountain building. Two hours lecture, two hours laboratory and field trips.

Earth Science 102.

HISTORICAL GEOLOGY

3 credits

The geological history of the earth, with special reference to North America. The evolution of life through the ages. An introduction to oceanography. Two hours lecture, two hours laboratory and field trips.

Earth Science 103-104.

DESCRIPTIVE ASTRONOMY

3-6 credits

The celestial sphere and its coordinates; the telescope and other astronomical instruments, time and the calendar; the solar system; the stars—their distances, motion, spectra, luminosity, and development; binary and multiple star systems, nebula; and the external galaxies.

Earth Science 201.

PHYSICAL GEOGRAPHY

3 credits

A study of the genesis, formation, and characteristics of land forms. Laboratory exercises include an interpretation of land forms for topographic maps and aerial photographs. Two hours lecture, two hours laboratory.

Earth Science 202.

METEOROLOGY

3 credits

A treatment of the composition and properties of the atmosphere, observation of essential weather elements as well as the effects of weather and climate upon man and his activities. Two hours lecture, two hours laboratory. Prerequisites: Mathematics 113, 120.

Earth Science 203. (206)

OPTICAL MINERALOGY

4 credits

Elements of crystallography; the determination of minerals by means of the polarizing microscope. Two hours lecture, four hours laboratory.

- Earth Science 204. (402)**
MINERALOGY AND PETROGRAPHY 4 credits
Descriptive and determinative mineralogy; identification and study of the more common rock types. Three hours lecture, three hours laboratory.
- Earth Science 205. (302)**
PALEONTOLOGY 3 credits
A review of the invertebrate and vertebrate fossil record. Correlation of biological development with the stratigraphic record. Includes recent advances in paleoecology. Two hours lecture, two hours laboratory.
- Earth Science 301. (304)**
STRATIGRAPHY 3 credits
An introduction to physical stratigraphy, methods of correlation of rock and time rock units; the interpretation of paleogeography. Two hours lecture, two hours laboratory.
- Earth Science 302. (303)**
SEDIMENTATION AND SEDIMENTARY PETROGRAPHY 4 credits
Analysis and interpretation of sedimentary processes; classification and analysis of the common sedimentary rocks. Three hours lecture, three hours laboratory.
- Earth Science 303. (401)**
STRUCTURAL GEOLOGY I 3 credits
A classical approach to structural geology involving the study of folds, faults, lineations, geologic maps, experimental deformation. Field trips. Three hours lecture, one hour laboratory.
- Earth Science 401. (403)**
IGNEOUS PETROLOGY 4 credits
The description, classification, petrology and geochemistry of igneous rocks. Prerequisites: Earth Science 203, 204. Three hours lecture, three hours laboratory. Field trips.
- Earth Science 402. (404)**
METAMORPHIC PETROLOGY 3 or 4 credits
The mineralogy, textures, and geochemistry of metamorphic rocks. Three hours lecture, three hours laboratory. Field trips.
- Earth Science 403. (406)**
STRUCTURAL GEOLOGY II 3 credits
Principles of structural analysis as applied to structures in metamorphic rocks; an introduction to tectonics. Three hours lecture, one hour laboratory.
- Earth Science 470. (405)**
TOPICS IN ADVANCED GEOLOGY 3 credits
A seminar course; topics vary from year to year. Prerequisite: permission of chairman. Two hours lecture, two hours laboratory.
- Earth Science 480. (407)**
RESEARCH 1-3 credits
Supervised research in geology. Can be elected in fall, spring, or summer.

ECONOMICS

JOSEPH P. MOONEY, Ph.D., *Chairman*
Professors: Ciesla, Flubacher, Mooney
Associate Professors: Duffy, Geruson, Kane
Assistant Professors: Cairo, Grady
Lecturers: Ratkus, Sadnicki

Required for Major in Economics: 14 courses

- Economics 101-102, 201, 203, 303, 304, 313, 314, 411, 412.
- Mathematics 101-102.
- 2 courses in the social sciences (psychology, political sciences, or sociology).

Economics 101. (111)

INTRODUCTORY ECONOMICS I 3 credits

A study of the operation of the economic system, including a comparison of capitalistic and socialistic economies and consideration of the influence of government policies on economic activity. Emphasis on the U.S. economy and factors which determine employment, inflation, gross national product, and the money supply. A prerequisite for other economics courses except Economics 320, 411, 412.

Economics 102. (112)

INTRODUCTORY ECONOMICS II 3 credits

A continuation of Economics 101. Topics include: economic problems of the business firm; economic growth of society; urban problems associated with economic growth; economic approaches to ecological issues; international trade issues; economic problems of poor countries.

Economics 201. (203)

MONETARY THEORY 3 credits

An analysis of the role of money and the monetary system in determining income, employment, and the price level. Prerequisites: Economics 101, 102.

Economics 202. (325)

INTRODUCTION TO MATHEMATICAL ECONOMICS 4 credits

Designed to acquaint the student with certain topics in algebra, analytic geometry, and calculus which are most useful in their application in micro- and macroeconomic analysis. Prerequisites: Economics 101, 102.

Economics 203. (322)

AMERICAN ECONOMIC HISTORY 3 credits

History of the growth and development of the economic institutions of the United States from the Age of Discovery to the New Deal and their influences on political and social organizations. Prerequisites: Economics 101, 102.

Economics 213. (313)

ECONOMICS AND BUSINESS STATISTICS I 3 credits

General introduction to the basic ideas and procedures of statistical analysis with special emphasis on their application to economics and business. Methods of statistical description, index numbers, and time series analyses. Introduction to statistical inference using the normal probability distribution. Prerequisites: Economics 101, 102.

- Economics 214. (314)**
ECONOMICS AND BUSINESS STATISTICS II 3 credits
Foundations of statistical inference as applied to decision-making on the basis of limited information. Basic concepts of probability, probability distributions, estimation and test of hypotheses, regression and correlation techniques. Prerequisite: Economics 213.
- Economics 301. (317)**
LABOR PROBLEMS IN AMERICA 3 credits
Study of the sources of the union movement, its history, structure, and functions. Attention to the development of economics, political, and social power, as well as to the problems involved in the use of this power; management rights and management reaction to unions are also treated. Prerequisites: Economics 101, 102.
- Economics 302. (Adm. 322)**
MANAGERIAL ECONOMICS 3 credits
Forms of competitive behavior, uses of marginal cost analysis, pricing techniques, and profit and demand measurement and forecasting. The process of evaluating alternative business solutions and tentatively formulating policies. Prerequisites: Mathematics 101-102 and junior standing. Both terms.
- Economics 303. (401)**
INTERMEDIATE ECONOMIC THEORY I: PRICE THEORY 4 credits
Theory of consumer behavior, production, and cost. Price determination of products in various market models and of factors of production. Welfare economics. Prerequisites: Economics 101, 102.
- Economics 304. (402)**
INTERMEDIATE ECONOMIC THEORY II: THEORY OF EMPLOYMENT,
GROWTH, AND FLUCTUATIONS 4 credits
Theory of the level of income and employment. Theories of economic growth, traditional and modern. Theories of economic fluctuations, stabilization policies, and forecasting. Prerequisites: Economics 101, 102.
- Economics/Sociology 320.**
INTRODUCTION TO URBAN STUDIES 3 credits
An introduction to the varied disciplinary approaches used by social scientists in their investigation of the urban scene. Study and discussions of the literature on urban affairs. Independent research projects on surrounding neighborhood area. Co-taught by sociology and economics departments. Identical with Sociology 320. Prerequisite: 6 semester hours of social science.
- Economics/Sociology 321.**
SEMINAR IN URBAN STUDIES 3 credits
Intensive analysis of the city as a system of interrelated variables and institutional subsystems. Stresses current policies and practices in the social and economic options available to various urban interest groups. Independent research projects on the Philadelphia region. Co-taught by economics and sociology departments. Prerequisite: 6 semester hours of social science. Identical with Sociology 321.
- Economics 404.**
PUBLIC FINANCE 3 credits
An analysis of the revenue and expenditure activities of government with particular emphasis on the rationale of this government activity, the method of financing, and the effects of fiscal policy on allocation, distribution, efficiency, equity and stability in the economy. Prerequisites: Economics 101, 102.

Economics 411. (415)

HISTORY OF ECONOMIC THOUGHT

3 credits

A detailed study of the leading economic concepts and schools of economic thought from the mercantilists up to and including Alfred Marshall.

Economics 412. (416)

CONTEMPORARY ECONOMIC SYSTEMS

3 credits

A continuation of Economics 415 until Keynesian economics has been treated; a history and analysis of socialist and Marxist thought culminating in a comparative study of the structure and function of the economies of the United States and the Soviet Union.

Economics 431. (403)

INTERNATIONAL ECONOMICS

3 credits

An introduction to the theory of international exchange, to natural and policy barriers to trade, to relations between developed and developing countries, and to international disequilibrium. Stress on the evolution of the international monetary system and selected current problems such as balance of payments, exchange standards, liquidity, and the role of international institutions. Prerequisites: Economics 101, 102.

Economics 470-471. (420-421)

SEMINAR

3-6 credits

A study of methodology in economics and of the techniques of preparing research reports. Second semester includes readings, discussions, and presentation of individual research reports. *Recommended for majors who plan to attend graduate school.*

EDUCATION

GARY K. CLABAUGH, Ed.D., *Chairman*
Associate Professors: Binkowski, Clabaugh, Wallace
Assistant Professors: Bangs, Roehm
Instructor: Feden
Lecturers: Vaccara, Vogel

Required for Major in Education:

- Education 201, 203, 301, 470.
- Psychology 101.
- Courses designated for associated majors (See advisers listed on page 36.)

During his freshman year, the student follows the program prescribed for the subject which he plans to teach. Application for admission into the teacher preparation program is normally made during the second semester of freshman year. Admission requires approval of the Teacher Preparation Admissions Committee. (Forms are available in the education department office.) The candidate must have and maintain an index of at least 2.00 for admission and retention in the program. All candidates must take the Minnesota Teacher Attitude Inventory upon entering the program and again upon its completion. The National Teacher Examinations are also required upon completion of the program.

In his last three years, the student follows the program designated by his area adviser and the chairman of the education department.

Before being accepted for the Professional Semester (Education 470), the student must have an index of 2.50 or better in his associated major (for example, Education-English) and receive approval of both the chairman of the associated major and of the education department chairman.

Students not preparing for teaching may elect courses in education with the approval of the education department.

Special Education

The Pennsylvania Department of Education has recently granted approval for a program in special education. The program is designed to prepare teachers of the emotionally disturbed, the mentally retarded, and the physically handicapped. For further details, see Ms. Marilyn Roehm, Director of Special Education.

Education 201. (301)

THE SCHOOL: EDUCATION IN PHILOSOPHICAL AND
CULTURAL PERSPECTIVE

3 credits

Analysis of relationship between organizational structure and educational policies of American schooling and the socio-economic system of modern society. Both semesters.

Education 203. (302)

THE CHILD: EDUCATIONAL PSYCHOLOGY

3 credits

Study of psychological principles as they apply to the pupil and the learning process. Requires participation in reading tutorials or some similar field experience in education. Both semesters. Prerequisite: Psychology 101.

Education 301. (303)

THE TEACHER: ANALYSIS OF TEACHING

3 credits

The study of teaching skills. Includes simulations, micro-teaching, interaction analysis. Prerequisites: field experience in education, Education 201, 203.

Education 302.

AUDIOVISUAL AIDS

3 credits

Utilization of audiovisual materials in an instructional setting. Training in use of overhead transparencies, 35 mm color slides, audio tapes, drymounting techniques, multimedia presentations, etc. Student production of video tape programs utilizing the College's television studio.

Education 330. (420)

THE EDUCATION OF URBAN POPULATIONS

3 credits

A multidisciplinary examination of the social, economic, political and demographic aspects of urban populations as they affect formal education. Team taught. Identical with Political Science 330 and Sociology 330.

Education 470. (410)

THE PROFESSIONAL SEMESTER

15 credits

Affords education majors specific and general preparation for student-teaching experiences. Comprises one full semester and embodies instruction in Special Methods of Teaching in various disciplines, direct application of Educational Media, methods and materials to teaching and ten to twelve weeks full-time assignment to classroom observation and teaching in selected secondary schools.

The Professional Semester requires the student to participate on a five day a week, full day schedule. Prerequisites: field experience in education, Education 201, 203, 301 and approval of the chairman of the associated major and the chairman of the education department.

ENGLISHCHARLES V. KELLY, M.A., *Chairman**Professors:* Burke, Ellis, Kelly, Koch, Rodden*Associate Professors:* Cunningham, Devlin, Doran, Fallon, Hannum, Keenan, Kleis,*Assistant Professors:* Butler, Carter, Eriksson, Foote, Knodt,

MacLeod, McClatchy, McLaughlin, Musil, Newton, Rao, Thornton

Instructors: Millard, Molyneaux*Lecturers:* Lyons, Westhead, Wilsbach**Required for Major In English: 15 courses**

The English program is flexible and designed to be adaptable to the needs and career objectives of students. Before rostering his courses, therefore, the English major should consult with a departmental adviser to make sure that his program is likely both to achieve his objectives and meet departmental requirements. Generally students with the indicated career objectives should roster the following courses:

- Concentration in English as Liberal Arts Background:
English 103; 201; 202; 221, 222; 324 or 325; and one course each from four of the following groups: (321 or 322) (323, 326, 327, 328) (329, 330) (341, 342) (311, 312, 313, 343); one course each from two of the following groups: (301, 302, 303, 304) (205, 206) (207, 305, 306) (401, 402) (471); three English electives.
- Concentration in English-Education:
(10 courses) English 101, 205, 206 or 207; 221 and 222; two of the following: 103, 201, 202, 311, or 312; 341, 342, or 343; 301, 302, 303, or 304; 324 or 325; 2 English electives.
- Concentration in Speech and Drama:
English 151-152; 251; 252; 253; 312. Two elementary (351, 352, 353 or 354) and two advanced courses (451, 452, 453, 454). One fine arts elective. English 455 or 456. Three English electives.

- Concentration in Writing:
English 103; 201 or 202; 205; 311; 324 or 325; 401 or 402; 403; 3 courses from the following: 206, 207, 305, 306, or 353; Music 101; Art 101; Philosophy 301; 2 English electives.
- Concentration in English as Preparation for Graduate Study:
English 103; 201; 202; 324 or 325; one course from each of the following groups: (321 or 322) (323, 326, or 327) (329 or 330) (341 or 342) (311, 312, 313, 343); 301, 302, 303, or 304; 401 or 402; 471 or Independent Research; 3 English electives.

GENERAL EDUCATION

Fall

English 161. (201)
THE EXPERIENCE OF LITERATURE 3 credits

An examination of selected fiction, poetry, and drama, and the way in which the form of a work interacts with its content. Imaginative literature will encourage the student to read with increased taste, perception, and pleasure. Emphasis on authors who have experimented significantly with form, including Sophocles, Shakespeare, Keats, Browning, Joyce, and T. S. Eliot. Short critical papers.

English 162. (202)
FROM HERO TO ANTI-HERO 3 credits

An exploration of the changing concepts of heroism in western society from the classic ideal to the contemporary mistrust of man's capacity for heroism. Fiction, drama, and poetry to illustrate the heroic stance in confrontation with the supernatural realm, the collective social order, and the private will. Collateral readings and short critical papers.

English 163. (203)
MODES OF INITIATION 3 credits

Fiction, poetry, and drama in which the young protagonist confronts a significant change in knowledge about the world or himself, leading to a more mature vision of life. Readings drawn from such authors as Joyce, Twain, Salinger, Hemingway, Dickens, Shakespeare, Shaw, among others. Short critical papers.

English 101.
COMPOSITION 3 credits
Training in exposition and argumentation. Weekly themes.

English 103.
READINGS IN FICTION 3 credits
Structural analysis of the narrative form. Both terms.

Spring

English 164. (204)
MAJOR AUTHORS 3 credits

An examination in depth of the timeless appeal of five or six major figures who are pre-eminent in their mastery of the English language and of certain works which continue to attract and excite readers through the centuries. Figures selected from the following: Chaucer, Shakespeare, Donne, Milton, Swift, Keats, Tennyson, Whitman, Melville, Conrad, Eliot, Frost, and Miller. Critical papers.

Mathematics 102.

INTRODUCTION TO CALCULUS

3 credits

The real number system; elementary functions; differential and integral calculus.

Mathematics 107-108. (111-112)

MATHEMATICS FOR THE LIBERAL ARTS

3-6 credits

A terminal course aimed at liberal arts students. Fall term topics include number theory, groups, logic and set theory, and geometry. Spring term: logic, analysis, probability. Mathematics 107 is a prerequisite for 108.

Mathematics 113. (103)

ALGEBRA AND TRIGONOMETRY

4 credits

Sets; the real number system linear systems; matrices; logarithmic, exponential and trigonometric functions; theory of equations.

Mathematics 120. (106)

CALCULUS AND ANALYTIC GEOMETRY I

4 credits

Functions; limits and continuity; differentiation of algebraic functions; maxima and minima; curve tracing, velocity and acceleration; integration with applications to areas, volumes, surfaces and work; the fundamental theorem of the calculus.

Mathematics 221. (216)

CALCULUS AND ANALYTIC GEOMETRY II

4 credits

Differentiation and integration of transcendental functions; techniques of integration; improper integrals; conic sections; polar coordinates. Prerequisite: Mathematics 120.

Mathematics 222. (217)
CALCULUS AND ANALYTIC GEOMETRY III 4 credits
Linear algebra; vector functions; partial differentiation; multiple integration; infinite series; Taylor expansions. Prerequisite: Mathematics 221.

Mathematics 240. (201)
LINEAR ALGEBRA 3 credits
Linear equations and matrices; real vector spaces; linear transformations and matrices; determinants; eigenvalues and eigenvectors. Prerequisite: Mathematics 102 or 120.

Mathematics 321. (310)
ADVANCED CALCULUS 3 credits
Calculus of vector valued functions; Green, Gauss and Stokes theorems; infinite series. Prerequisite: Mathematics 222.

Mathematics 341. (312)
MODERN ALGEBRA 3 credits
Sets and mappings; groups, rings and homomorphisms; Sylow theorems; quotient structures; polynomial rings; ideals.

SECTION B:

Mathematics 322. (308)
DIFFERENTIAL EQUATIONS 3 credits
Differential equations of the first order; linear differential equations of higher order; Laplace transforms; series solutions; applications to the physical sciences. Prerequisite: Mathematics 222.

Mathematics 330. (350)
PROJECTIVE GEOMETRY 3 credits
Axioms systems; duality; theorems of Desarguyes and Pappus; relationship between projective spaces and vector spaces; collineations; conic sections; theorem of Pascal; pole-polar duality. Prerequisite: Mathematics 341.

Mathematics 410. (460)
PROBABILITY 3 credits
Probability spaces; random variables; discrete and continuous distributions; mass and density functions; moment generating functions; expectation; limit theorems. Prerequisite: Mathematics 222.

Mathematics 415, 416, 417, 418 (481, 482, 483, 484)
SELECTED TOPICS IN MATHEMATICS 3 credits
An introductory course to specialized research, concentrating on one particular aspect of mathematics. The subject matter will vary from term to term.

Mathematics 421. (450)
NUMERICAL ANALYSIS 4 credits
Solution of algebraic, transcendental and differential equations; difference equations; matrix inversion; Gauss and Chebyshev functions. Prerequisite: Mathematics 321.

Mathematics 422. (470)
SPECIAL FUNCTIONS 3 credits
Generating functions; orthogonal systems of functions; Legendre, Hermite, Bessel, Fourier, Gamma and Beta functions; partial differential equations. Prerequisites: Mathematics 321 and 322.

Mathematics 423. (475)
REAL VARIABLES

3 credits

Real number system; Lebesgue measure; Lebesgue integration; differentiation; general measure and integration theory. Prerequisite: Mathematics 321.

Mathematics 424. (485)
COMPLEX VARIABLES

3 credits

Analytic functions; Cauchy-Riemann equations; Cauchy's integral theorem; power series; infinite series; calculus of residues; contour integration; conformal mapping. Prerequisite: Mathematics 321.

Mathematics 430.
TOPOLOGY

3 credits

Topological spaces; subspaces, product spaces, quotient spaces; connectedness; compactness; metric spaces; applications to analysis. Prerequisite: Mathematics 341.

Mathematics 442. (425)
MODERN ALGEBRA II

3 credits

Vector spaces, modules, linear transformations, canonical forms of matrices, fields, Galois Theory, solvability by radicals. Prerequisite: Mathematics 341.

COMPUTER SCIENCE

Computer Science 151. (121)

INTRODUCTION TO COMPUTING

3 credits

Basic programming and program structure; data representation; survey of computers, languages, systems, and applications; computer solution of several numerical and non-numerical problems. Prerequisite: one year of college mathematics (or taken concurrently).

Computer Science 152. (122)

COMPUTERS AND PROGRAMMING

3 credits

Computer systems organization; machine language and symbolic coding; assembly systems; macro definition and generation; program segmentation and linkage; systems and utility programs. Prerequisite: C.S. 151.

Computer Science 350. (221)

INTRODUCTION TO DISCRETE STRUCTURES

3 credits

Review of set algebra including mappings and relations; algebraic structures including semigroups and groups; elements of the theory of directed and undirected graphs; boolean algebra and propositional logic; applications of these structures to various area of computer science. Prerequisite: C.S. 151.

Computer Science 351.

PROGRAMMING LANGUAGES

3 credits

Formal definition of programming languages including specification of syntax and semantics; simple statements including precedence, infix, prefix, and postfix notation; global properties of algorithmic languages including scope of declarations, storage allocation, grouping of statements, binding time of constituents, subroutines, coroutines, and tasks; list processing, string manipulation, data description, and simulation languages; run-time representation of programs and data structures. Prerequisite: C.S. 152, 350.

Computer Science 355.

COMPUTER SYSTEMS: HARDWARE AND SOFTWARE

3 credits

Hardware modules for control, input-output, arithmetic, and storage and their interaction; operating system software; multiprogramming, multiprocessing, teleprocessing, time-sharing and real-time systems; software design. Prerequisite: C.S. 152.

Computer Science 356. (222)

INFORMATION STRUCTURES IN COMPUTING

3 credits

Basic concepts of information; modeling structures—linear lists, multilinked structures, arrays, and trees; sorting and searching; file system functions, organization and structure; analysis of file systems; data management systems. Prerequisite: C.S. 355.

Computer Science 450.

SELECTED TOPICS IN COMPUTER SCIENCE

3 credits

An introductory course to specialized research in computers and computing, concentrating on one particular aspect of computer science. The subject matter will vary from term to term.

MILITARY SCIENCE

LIEUT. COLONEL PETER F. DRURY, M.S.
Professor of Military Science

Military Science 101-102.

BASIC FRESHMAN MILITARY SCIENCE I

3 credits

The role of power in international affairs. The national security structure of the United States. Study of the principles of war in selected battles in world history. Team taught by political science and military science departments. Leadership: psychology of leadership. Principles of leadership and management. First semester: one hour of lecture, one hour of laboratory. Second semester: two hours of lecture, one hour of laboratory.

Military Science 201-202.

BASIC SOPHOMORE MILITARY SCIENCE II

3 credits

A continuation of M.S. I: American military history team-taught by members of the history and military science departments; map readings and geology; introduction to field artillery and other branches of the Army. Leadership: continuation of principles of leadership and management. Field trips. Two hours of lecture, one hour of laboratory: two terms.

Military Science 301-302.

ADVANCED COURSE MILITARY SCIENCE III

3-6 credits

Provides basic military education and, with other college disciplines, develops individual character and attributes essential to an officer: leadership; military teaching principles; artillery and infantry operations; communications and pre-camp orientation. Instruction and experience in exercising command. Three hours of lecture, one hour of laboratory: two terms.

Military Science 401-402.

ADVANCED COURSE MILITARY SCIENCE IV

3-6 credits

A continuation of M.S. III. Develops an appreciation of command and staff responsibilities: army administration; military law; operations; logistics; the role of the United States in world affairs; field artillery operations; and service orientation. Leadership: continuation of instruction and experience in exercising command. Flight training (light aviation) is available to a limited number of cadets on an extracurricular basis. Three hours of lecture, one hour of laboratory: two terms.

PHILOSOPHY

MICHAEL KERLIN, Ph.D., *Chairman*

Professors: Mihalich, Naughton

Associate Professors: Fitzgerald, Gibbons, Kerlin, Lashchuk, Pierzchalski, Strosser

Assistant Professors: Fallon, Janik, Lowry, Macoretta, Phillips

Required for Major in Philosophy: 12 courses

- Any 100 course; any 200 course; 311, 312, 411, 412, 413, 416, 470.
- Any three courses over the 200 level.

GENERAL EDUCATION

The student must take one course in Series A and one course in Series B to complete his General Education requirements in philosophy. The course in Series A must be completed before the one in Series B.

SERIES A

Philosophy 161. (101)

HUMAN NATURE AND HUMAN
DESTINY

3 credits

A study of man in himself and his relationship to others and to the world. Themes discussed include the nature of philosophical argumentation; the problems of human freedom and human love; the dilemma of self-alienation; and the concern with human destiny in its various manifestations.

Philosophy 162. (102)

FOUNDATIONS OF MORAL LIFE

3 credits

A study of philosophical interpretations of moral life and their application to specific problems. Themes discussed include the nature of commitment and responsibility; the problem of conscience and moral law; the character of moral judgment; and the notion of the good for mankind.

Philosophy 163. (103)

ORIGINS OF PHILOSOPHICAL
THOUGHT

3 credits

A study of the historical and ideological origins of philosophical thought, and their relevancy and contribution to the subsequent development of philosophical knowledge.

SERIES B

Philosophy 261. (201)

REASON AND REALITY

3 credits

A study of the basic relationships between thought and reality. Themes discussed include skepticism and truth; rationality and selfhood; and knowledge and the various manifestations of existence.

Philosophy 262. (202)

PHILOSOPHICAL APPROACHES TO GOD

3 credits

A study of philosophical positions relating to questions about the existence and nature of God. Themes discussed include various concepts of God; the possibility of proof for the existence of God; and the philosophical dimensions of the religious experience.

Philosophy 263. (203)

MIND AND EXPERIENCE IN MODERN
PHILOSOPHY

3 credits

A study of the main trends in the classical period of modern philosophy (Descartes to Kant), and the impact of such themes as rationalism, empiricism, and romanticism in the formation of the contemporary philosophical mind.

Philosophy 301. (401)

AESTHETICS

3 credits

A consideration of the philosophical basis for making judgments about the art experience. Designed to acquaint the student with the major features and thinkers of the classical, romantic, and modern periods.

Philosophy 302. (402)

EASTERN PHILOSOPHY

3 credits

A study of the primary streams of Hindu and Chinese thought as they originated and as they attract western thinkers of today. Jainism, Samkhya-Yoga, Vedanta, Early Buddhism, Transcendental Buddhism, Confucianism, Taoism, forms of Chinese Buddhism, and Zen will be given most attention. Fall term.

Philosophy 303. (403)

AMERICAN PHILOSOPHY

3 credits

A presentation and evaluation of the major thinkers and themes in American thought from the Enlightenment through Transcendentalism to Pragmatism. Figures studied include: Emerson, Peirce, James, Dewey, and Royce. Spring term.

Philosophy 304. (409)

RUSSIAN AND EAST EUROPEAN PHILOSOPHY

3 credits

A critical and historical study of philosophy in Eastern Europe beginning with the dominant schools of Russian thought including the Slavophiles, Westernizers, Nihilists, Populists, critics of religion and culture, Marxists and Communists. A study of central figures in Hungarian, Polish, Ukrainian philosophic thought included. Spring term.

Philosophy 305. (428)

MARX AND MARXISM

3 credits

An historical and systematic study of the writings of Karl Marx emphasizing the Hegelian origins of his critique of capitalism, the problem of ideology, the Marxian view of social science, and the development of Marxism as theory and practice at the hands of Engels, Lenin, and Stalin. Fall term.

Philosophy 306.

SOCIAL PHILOSOPHY

3 credits

A critical examination of theories about society. Topics include: person and community, human rights (particular emphasis on the civil rights movement and the women's movement), law and justice, alternative social structures. Some attention given to the nature and scope of the social sciences. Fall term.

Philosophy 307.

CLASSICAL LOGIC

3 credits

A study of the major forms of logical inference with particular stress on Aristotelian logic. Includes a consideration of the more informal aspects of logic such as the ways of avoiding ambiguities and fallacies and the problems of definition; the role of argument in rational discourse. Fall 1974.

Philosophy 308.

THE PHILOSOPHY OF HISTORY

3 credits

A study of some of the principal viewpoints about historical knowledge and historical development. Problems discussed include: subjectivity and objectivity, causality and explanation, perspective and relativity in history. The great schemes of historical interpretation also considered. Spring term.

Philosophy 311. (302)

PROBLEMS OF KNOWLEDGE

3 credits

A systematic investigation into the sources, limits, and nature of knowledge. Topics include: meaning and its relation to truth of statements; nature and criteria of truth, role of observation, perspective and conceptualization in the justification of knowledge claims. (Required of all philosophy majors; open to others with the approval of the chairman.) Fall term.

Philosophy 312. (315)

ADVANCED MORAL PHILOSOPHY

3 credits

Intended to stimulate and help the student to do clear, precise, philosophical thinking about ethical questions through the reading and discussion of some of the primary philosophical texts that influenced the development of western moral thought; a more specialized course than Philosophy 102. (Required of all philosophy majors; open to others with the approval of the chairman.) Spring term.

Philosophy 321. (Adm. 421)

BUSINESS ETHICS

3 credits

Business practices evaluated in the light of ethical principles. Special concern given to moral dimensions of management decision-making and to the ethical problems of consumerism and government control. Spring term.

Philosophy 401.

PHENOMENOLOGY AND EXISTENTIALISM

3 credits

An approach to contemporary phenomenology and existentialism through philosophers such as Husserl, Heidegger, Sartre, and Merleau-Ponty. Topics include: the phenomenological method, human existence as process, meaning vs. absurdity, and the over-coming of alienation.

Philosophy 402. (406)

PHILOSOPHY OF SCIENCE

3 credits

An investigation into the nature and concepts of science. Philosophical problems common to the natural and social sciences. The impact of revolutions in the history of science discussed with reference to changes in the factual base, meaning of terms and values or criteria of rationality. Spring term.

Philosophy 403. (407)

THE PHILOSOPHY OF LANGUAGE

3 credits

Course attempts to develop a theory capable of explaining communication. Discussion of basic problems such as the relationships between word and concept, meaning and reference, signs and symbols. Discussion will encompass poetic as well as conceptual uses of language. Fall term.

Philosophy 404.

SYMBOLIC LOGIC

3 credits

A study of the following aspects of symbolic logic: truth functional logic, quantificational logic, logic of relations, proofs of adequacy for the system used, undecidability and incompleteness, the relationship between modern logic and Aristotelian logic. Fall 1975.

Philosophy 411.

HISTORY OF WESTERN PHILOSOPHY: ANCIENT PERIOD

3 credits

Philosophy in ancient Greece and Rome, with concentration on Plato and Aristotle. Fall 1973. (Required of all philosophy majors.)

Philosophy 412.
HISTORY OF WESTERN PHILOSOPHY: MEDIEVAL AND
RENAISSANCE PERIODS 3 credits
From St. Augustine through the age of scholasticism to the Renaissance. Spring 1974.
(Required of all philosophy majors.)

Philosophy 413.
HISTORY OF WESTERN PHILOSOPHY: MODERN PERIOD 3 credits
From Hobbes and Descartes to the Enlightenment, with concentration on the rationalists,
empiricists, and Kant. Fall 1974. (Required of all philosophy majors.)

Philosophy 416.
TUTORIAL IN PHILOSOPHY 3 credits
Introduces the student to the critical reading of a major philosophical text. Text will
be studied in common, and critical papers will be written on the text studied. Spring
1975. (Required of all philosophy majors; open to others with the approval of the
chairman.)

Philosophy 470. (425)
SEMINAR 3 credits
A comprehensive investigation of philosophy as an integral and integrating discipline.
Qualified majors (and others approved by the chairman) may elect an honors extension
of the seminar (three additional credits). Requirements: maintenance of 3.75 index
in philosophy, submission of an acceptable research paper done under department
mentor chosen by student, and attainment of a distinguished pass in the oral examination.
Spring 1974. (Required of all philosophy majors; open to others with the approval
of the chairman.)

Philosophy 490.
SPECIAL TOPICS 3 credits

PHYSICS

JOSEPH W. SIMMONS, M.S., *Chairman*
Associate Professors: Guttman, Simmons
Assistant Professors: Galatola, Longo, Strieb

Required for Major in Physics: 15 courses

- Physics 111, 112, 113, 211, 212, 213, 311, 313, 411, 412
- Physics 214 and 224 or 351 and 352
- Mathematics 120, 221, 222

Physics 101. (333)
FROM THE ATOM UP 3 credits
For science and non-science majors. The concepts and models of dynamics and astron-
omy culminating in the Newtonian world view and the Quantum Revolution. Con-
cepts rather than mathematics are stressed. No prerequisites.

Physics 102.
FROM THE ATOM DOWN 3 credits
For science and non-science majors. The insights and puzzles resulting from probing
the nucleus and below: nuclear energy, the elementary particles, the concepts of
relativity. Concepts rather than mathematics are stressed.

Physics 105-106. (211-212)

GENERAL PHYSICS

4-8 credits

Mechanics, heat, light, sound, electricity and magnetism, and modern physics. Prerequisite: Mathematics 120. Three hours lecture, two hours laboratory; two terms.

Physics 111-112.

GENERAL PHYSICS I & II

For freshman physics majors. Topics include mechanics, special relativity, electricity, and magnetism. First semester is self-paced program (the Keller Plan) involving 12 self-taught units. Prerequisites: Mathematics 120 and 221 concurrently. Three hours lecture, two hours laboratory; two terms.

Physics 113. (213)

GENERAL PHYSICS III

4 credits

Includes topics relative to wave phenomena and modern physics. Prerequisites: Physics 112 or 106; Mathematics 221 concurrently. Three hours lecture, two hours laboratory.

Physics 151. (315)

SCIENTIFIC PROGRAMMING

3 credits

The elements of computer programming with emphasis on the Fortran language and its scientific applications. Open to all science majors and designed to enable the student to utilize computer techniques in his own field of study. Two hours lecture, two hours laboratory.

Physics 211. (311)

MATHEMATICAL PHYSICS I

3 credits

Vector analysis, differential equations, introduction to partial differential equations, Fourier series and boundary value problems. Emphasis on the physical origins and applications of mathematical techniques.

Physics 212. (312)

MATHEMATICAL PHYSICS II

3 credits

Complex variables and complex integration, Fourier and Laplace transforms, special function of mathematical physics and boundary value problems. Physical applications stressed.

Physics 213. (405)

THERMAL PHYSICS

3 credits

Topics treated include the first, second, and third law of thermodynamics; kinetic theory of gases; transport phenomena; Maxwell-Boltzmann statistics; Bose-Einstein and Fermi-Dirac statistics. Three hours lecture.

Physics 214. (410)

ELECTRONICS I

3 credits

Familiarization with basic electronic instruments, such as the oscilloscope and function generator, two terminal devices, capacitors, inductors, resistors and diodes, transistors as on-off devices, operational amplifiers, pulse and digital circuits. Prerequisites: Mathematics 222, Physics 106 or 112.

Physics 224.

ELECTRONICS II

3 credits

Three terminal devices, transistors and tubes, small signal analysis, DC biasing, multi-stage operation, feedback, special purpose semiconductor devices, operational amplifiers. Prerequisite: Physics 214.

Physics 302. (421)
HISTORY OF SCIENCE 2 credits

An introduction to scientific thought and scientific discoveries from the earliest times to the present. Individual work in the history of physics. Two hours lecture.

Physics 311. (309)
ELECTRICITY AND MAGNETISM I 3 credits

Special relativity, electrostatics, potential theory, solution of Laplace's equation, magnetostatics, Faraday's law, dielectrics, Maxwell's equations, wave equation in free space, Poynting vector. Prerequisite: Physics 211 or equivalent.

Physics 312. (310)
ELECTRICITY AND MAGNETISM II 3 credits

Electromagnetic waves in wave guides and materials, electromagnetic radiation, static and dynamic electric and magnetic properties of materials. Prerequisite: Physics 311 or equivalent.

Physics 313. (304)
STATES, WAVES, AND PHOTONS 4 credits

A modern introduction to optics encompassing matrix representations of optical systems and polarization states of light; the Jones calculus, the Mueller calculus and the Stokes representation; states of light as eigenstates of operators, expectation values, the bracket product and probability amplitudes; an approach to scalar diffraction through Green's theorem and Fourier transforms; the electromagnetic field and its quantization. Prerequisite: Physics 311. Three hours lecture and one laboratory period.

Physics 321. (305)
INTRODUCTION TO ASTROPHYSICS 3 credits

Methods for determining the basic properties of stars, such as temperatures, masses, and radii; stellar energy and structure.

Physics 322. (306)
PLANETARY PHYSICS 3 credits

The solar system and its origins; interiors and atmospheres of terrestrial and giant planets, interplanetary matter and comets. Prerequisite: Mathematics 221.

Physics 351.
ADVANCED LABORATORY I 3 credits

Laboratory work with close faculty guidance, but emphasizing independent work and a professional approach. A selection of experiments from mechanics, acoustics, electricity and magnetism, atomic and nuclear physics, experimental methods and instrumentation, error and data analysis. Prerequisite: Physics 113.

Physics 352.
ADVANCED LABORATORY II 3 credits

Similar in purpose to Physics 351 but with material selected which will not duplicate the student's previous experience. Prerequisite: Physics 113.

Physics 411-421. (413-414)
MECHANICS 3-6 credits

Topics include the single particle and systems of particles in one, two, and three dimensions; rotation of a rigid body; moving coordinate systems; and the mechanics of continuous media. Lagrange's and Hamilton's equations are developed and tensor methods are introduced in their non-relativistic applications. Prerequisites: Physics 211, 212 or equivalent. Three hours lecture; two terms.

Physics 412.
QUANTUM PHYSICS I

3 credits

The origins of quantum mechanics, the Schrodinger equation and its applications to one dimensional systems and the central field perturbation theory, quantum theory of measurement. Prerequisite: Physics 211 or equivalent.

Physics 422.
QUANTUM PHYSICS II

3 credits

Applications of quantum mechanics to problems in atomic, nuclear and solid state physics. Prerequisite: Physics 412.

Physics 481-482. (419-420)
RESEARCH

1-2 credits

Individual studies and research, presentation of papers, familiarization with the literature.

POLITICAL SCIENCE

ROBERT J. COURTNEY, Ph.D., *Chairman*
Professors: Cleary, Courtney
Associate Professors: Dillon, Nathans
Assistant Professors: Foley, Hill, McGovern

All political science courses except 471-472 are open to all students.

Required for Major in Political Science: 15 courses

- Political Science 101, 102, 471, 472
- 6 political science electives
- Economics 101-102
- 2 history courses from Section A

Political Science 101.

SCIENCE OF GOVERNMENT 3 credits

A study of the nature of political authority, the state, its organs and their functions. *Required of all political science majors.*

Political Science 102. (201)

AMERICAN FEDERAL GOVERNMENT 3 credits

An examination of the organization and functions of the federal government of the United States; a study of the separation of powers and relations with states. *Required of all political science majors.*

Political Science 103. (203)

SURVEY OF POLITICAL THOUGHT 3 credits

An analysis of the major political writers from Plato to the present. Emphasis on each author's concept of the state, its function and end, and his solution to the problem of the reconciliation of the common good with individual freedom.

Political Science 201. (103)

POLITICAL GEOGRAPHY 3 credits

A survey of the geographic factors influencing the real and potential economic and political development of nations. *Required of all political science majors.*

Political Science 202. (302)

AMERICAN STATE GOVERNMENT 3 credits

A study of the state as a partner in the federal system; the states' constitutional development; and principles underlying state governmental organization, reorganization, and functions.

Political Science 203. (303)

AMERICAN CONSTITUTIONAL LAW 3 credits

An analysis of the development of the Constitution via the interpretations of the Supreme Court. Principal topics are the federal system, judicial review, separation of powers, powers of Congress and the President, the Commerce Clause, and political and civil rights.

Political Science 204. (304)

BEHAVIORAL POLITICAL THEORY

3 credits

An examination of the nature of science in the study of political phenomena. A critical introduction to the major 20th century approaches to the study of politics, including systems, models of individual and collective decision-making, and concepts of power. The behavioral approach to politics: substance and method. Recommended for students interested in graduate school.

Political Science 205. (305)

BUREAUCRATIC POLITICS AND ADMINISTRATION

3 credits

Analysis of bureaucracy within the national and urban context; internal characteristics and external political relationships with executives and legislatures, including unionization of bureaucratic personnel, budgetary relationships, innovation and the relationships of bureaucracy with clientele groups and the general public.

Political Science 206. (401)

U.S. FOREIGN RELATIONS

3 credits

A study of the diplomatic and military instruments of American foreign relations, the formal and informal powers and processes by which policy is made, and the basic patterns of national interest and policy prior to World War II

Political Science 207. (402)

U.S. FOREIGN RELATIONS

3 credits

An analysis of the main problems of American foreign relations from 1945 to the present.

Political Science 208. (405)

MUNICIPAL GOVERNMENT

3 credits

A study of the organization and functions of government at the municipal level and an analysis of trends and types of municipal governments.

Political Science 209. (406)

WESTERN EUROPEAN POLITICS

3 credits

A political analysis of the constitutional principles and governmental organizations of England, France, and Germany.

Political Science 210. (408)

LATIN AMERICAN POLITICS

3 credits

A political analysis of the constitutional principles and governmental organizations of Argentina, Brazil, and Chile.

Political Science 211. (407)

INTERNATIONAL RELATIONS

3 credits

An analysis of the basic patterns and major factors underlying international politics. Consideration to current international problems.

Political Science 212. (409)

AMERICAN POLITICAL PARTIES

3 credits

A view of the political problems of the United States as revealed in the major and minor political parties that have arisen during the country's history.

Political Science 213. (413)

NON-WESTERN POLITICAL SYSTEMS

3 credits

A study of the governmental institutions and political processes of India and Pakistan. Particular emphasis will be given to factors contributing to development of democratic and non-democratic systems.

Political Science 214. (414)

NON-WESTERN POLITICAL SYSTEMS

3 credits

A study of the governmental institutions and political processes of the People's Republic of China and Japan. Particular emphasis to problems of development and modernization.

Political Science 216.

WESTERN EUROPEAN FOREIGN POLICIES

3 credits

A comparative analysis of the recent and contemporary foreign policies of Great Britain, France, and Germany, with some incidental material on the diplomacy of selected smaller powers.

Political Science 217.

COMPARATIVE FOREIGN POLICIES: ASIA

3 credits

This course will focus on the foreign policies of the major Asian powers and their relationship with the United States and Soviet Russia. Particular emphasis will be placed on the changing power configuration and on the development of Asian international organizations.

Political Science 218.

THE LEGISLATIVE PROCESS: THE U.S. CONGRESS

3 credits

The role of Congress in the legislative process; its internal operations and external political relations; especially with the President. Comparison of the characteristics of Congress with those of state legislatures and European legislative bodies.

Political Science 219.

MODERN POLITICAL IDEOLOGIES

3 credits

The interrelation of theory and practice and the development of "ideological" thinking will be explored through an analysis of the conceptions of man, history, state, and revolution espoused by Marxism-Leninism, Fascism-National Socialism, and Anarchism. Readings from original sources: Marx, Lenin, Mussolini, Hitler, Sorel, Camus, and Guevera.

Political Science 330. (420)

THE EDUCATION OF URBAN POPULATIONS

3 credits

Identical with Education 330 and Sociology 330. See p. 53

Political Science 380.

SPECIAL TOPICS OR INDEPENDENT STUDY

3 credits

As interests indicate, special programs may be introduced into the curriculum discussing highly specialized problems for group or independent study.

Political Science 471. (415)

SEMINAR I

3 credits

A study of methods of research and scholarly writing. Directed research and reports on individual assignments. *Required of all political science majors.*

Political Science 472. (416)

SEMINAR II

3 credits

Supervised research and writing on major topic. Weekly presentation and group discussion of individual papers. Submission of written thesis. *Required of all political science majors.*

PSYCHOLOGY

JOHN P. DONDERO, F.S.C., Ph.D., *Chairman*
Professors: Dondero, Grimes, McCarthy, Rooney
Associate Professors: Filicetti, Kovatch, Pfeiffer, Schreiner, Smith
Assistant Professors: Bernier, Burke, Gilligan, Keller, Oden, Pritchard,
Schrader, Small
Lecturers: Brennan, Mitchell, Platt, Spergel, Walker

Required for Major in Psychology: Track 1: 12 courses; Track 2: 13 courses

Track 1

- Psychology 101, 102, 210, 211, 319, 320
- 4 electives in psychology
- 2 courses in mathematics

Track 2

- Psychology 101, 206, 210, 315, 408
- 1 course in methodology
- 5 electives in psychology
- 2 courses in mathematics

Psychology 101.

GENERAL PSYCHOLOGY I

3 credits

Introduction to the scientific study of human behavior. Emphasis on methods of psychological research and principles and theories developing from this research.

Psychology 102. (201)

GENERAL PSYCHOLOGY II

3 credits

For students who want to meet graduate school entrance requirements in psychology. Open to other students who desire a more intensive coverage of the principles and theories of psychology than is possible in the first introductory course. Prerequisite: Psychology 101.

Psychology 203. (311)

DEVELOPMENTAL PSYCHOLOGY

3 credits

A general study of the development of behavior and the human personality from conception through adulthood; special emphasis on childhood and adolescence. Prerequisite: Psychology 101.

Psychology 206. (324)

PERSONALITY DYNAMICS AND ADJUSTMENT

3 credits

An analysis of the human system, the dynamics of individual behavior, and a consideration of resources necessary for effective living as they are related to a better understanding of personal adjustments in healthy persons developing toward maturity. Recommended for students not majoring in psychology.

Psychology 210. (212)

STATISTICS I

3 credits

An introduction to statistics, emphasizing such descriptive measures as central tendency, variability and correlation. Prerequisite: Mathematics 101-102 or equivalent.

RELIGION

WILLIAM J. MARTIN, F.S.C., S.T.D., *Chairman*
Associate Professors: Davis, Martin, Schepers
Assistant Professors: Biechler, Efroymsen, Halligan, Keenan, Kelly,
Van Everbroeck, White
Instructor: McKenna
Lecturers: Frank, Gore, Hansbury

Required for Major in Religion: 14 courses

- 2 courses from General Education offerings; 12 additional religion electives, including at least one from each of the 4 study areas (biblical, theological, historical, and religious) and Religion 470.

GENERAL EDUCATION

Religion 161. (102)

THE BIBLE AS RELIGIOUS LITERATURE

3 credits

A study of the Bible focusing on the religious and human experience of the men who produced it. A reading and analysis of the Jewish and Christian biblical literature. Literary genres of biblical literature. The course will also investigate the impact of other Near Eastern cultures and literatures on the formation of the Bible. Finally the Bible will be viewed in the broader sense of history along with its impact on men and the great religions of the world. Both terms.

Religion 162. (103)

DIMENSIONS OF FAITH IN WESTERN THOUGHT

3 credits

An historical study of the development of Christian faith as commitment, response, and communal relationship through a reading of selected passages of Scripture, and subsequent Christian writers such as the early Church Fathers (Origen, Augustine), medieval and reformation thinkers (Aquinas, Luther, Calvin), and modern authors (Kierkegaard, Schleiermacher, Newman, Rahner). Both terms.

Religion 163. (104)

HUMAN RELIGIOUS EXPERIENCE

(The Phenomenology of Religion) 3 credits

A study of the diverse patterns of thought and behavior that express man's religious experience. The topics for study will be selected across the great religious traditions, from tribal and archaic cultures to the present. This course furthermore will identify the elements these great religious traditions have in common, as well as those elements that set them off from one another. Both terms.

Religion 164. (105)

RELIGION AND THE CONTEMPORARY SEARCH FOR SELF

3 credits

What is behind the identity crisis of today? Does man need God in order to be man? Is there any human meaning apart from other men? How does man best relate to the world? These and similar questions will be examined from both the religious and secular point of view by placing in dialogue readings from fields such as: theology (Tillich, Cox, Heschel); existentialism (Sartre, Camus); psychology (Jung, Laing); literature (Eliot, Weisel, Ginsberg); and media (Dylan, Bergman). Both terms.

SECTION A: BIBLICAL STUDIES

Religion 210. (117)

OLD TESTAMENT THEMES

3 credits

A study of the origin and development of biblical traditions and theological themes: God, man, the meaning of life, the Exodus theme, prophecy, etc. Such ideas will be studied in both their Old Testament context as well as their relation to the New Testament.

Religion 211. (220)

CONTEMPORARY NEW TESTAMENT ISSUES: STUDIES IN JESUS

3 credits

A critical assessment of the New Testament and related sources for the meaning of Jesus. Bultmann's demythologization of the Gospels; post-Bultmann developments in the New Quest for the historical Jesus. Special consideration will be given to those Gospel passages which are the object of current controversy: Infancy Narratives, Virgin Birth, Christ's miracles, the Resurrection and post-Resurrection appearances, the messianic consciousness and divinity of Jesus.

Religion 310. (421)

THE SYNOPTIC GOSPELS

3 credits

How did the Gospels develop? How historically reliable are they? What value have they as sources for a study of the person of Jesus of Nazareth? What is Form Criticism? Source Criticism? The state of contemporary biblical scholarship. These points will be illustrated through a guided study in the synoptic Gospels: Matthew, Mark, Luke.

Religion 311. (412)

THE NEW TESTAMENT WORLD OF JOHN AND PAUL

3 credits

A critical appraisal of the perennial significance of the major theological themes in John and Paul. Selected readings from the Fourth Gospel and Pauline Epistles will be analyzed and discussed. The Jewish, Hellenistic, and early Church influences in their composition will be examined in the context of biblical and non-biblical literature of the time.

SECTION B: THEOLOGICAL STUDIES

Religion 220. (250)

THE CHURCH OF CHRIST

3 credits

An inquiry into the life and structure of Christian community. The psychological and theological factors which bring men together to constitute "Church." The Church as eschatological community in relation to Christ. A study of those ideas most generally attributed to Church: unity and catholicity, organization, ministry, and mission.

Religion 221. (260)

CONTEMPORARY CHRISTOLOGY

3 credits

A survey of the post-biblical developments concerning the person and mission of Jesus, with emphasis on the contemporary attempt to reinterpret Jesus as Man and God.

SPEECH AND DRAMA

(See English, page 53.)

School of Business Administration

The School of Business Administration offers a four-year undergraduate program for men and women leading to the Bachelor of Science degree. The current program represents several years of review of the educational needs of students entering the business world and graduate schools and the needs of the College's urban environment. Specific consideration has been given to the students' educational background and age, their experience, their expectations and goals, as well as the urban community—its structure, interests, and attitudes. The program prepares students for managerial responsibilities and provides an enduring base for personal development.

Course requirements and electives are structured to provide: (1) a solid foundation in the arts and sciences as background for professional study in business administration; (2) a business core consisting of study in the several areas of business administration and in analytical methods and techniques; and (3) an opportunity to concentrate in depth in a professional area as a basis for future career development. The general education studies provide the student with an understanding of himself, the humanistic and philosophic aspects of man, Christian thought, and the social, mathematical, and computing sciences relevant to business practice; the business core and professional studies provide a broad understanding of business administration and prepare students for a career or for graduate education.

109

DEGREE PROGRAM

The program leading to a Bachelor of Science degree in Business Administration consists of 120 credits, about half of which may be taken in business and economics. The general education and professional studies are pursued simultaneously by the student throughout the four years of undergraduate study. In the junior year, a student begins to specialize in a professional option or "major." Professional options are available in accounting, finance, industrial management, industrial relations, marketing, and quantitative analysis. Special options may be planned to meet individual needs. A cooperative program with St. Joseph's College provides students with the opportunity to become certified to teach business courses at the secondary level.

PREPARATION FOR TEACHING

Students who wish to teach courses in business administration at the secondary level may receive state certification by participating in a cooperative program involving La Salle and St. Joseph's Colleges. Under this program, the student completes his General Education and Distribution requirements at La Salle, along with course work in either accounting or marketing. Education courses are pursued both at La Salle and St. Joseph's. The student receives his degree from La Salle and his certification from St. Joseph's. Arrangements for the program may be completed in consultation with the dean.

CURRICULUM

The curriculum for business administration students has five parts:

1. General Education—7 courses (21 credits)
2. Distribution Requirement—9 courses (27 credits)
3. Business Core—10 courses (30 credits)
4. Professional Studies—4 courses (12 credits)¹
5. Electives—10 courses (30 credits)²

(The school recommends that 12 of these credits be in business or economics courses and 18 credits in arts and science electives.)

¹The Accounting Option requires 8 courses (24 credits) beyond the Business Core.

²The Accounting Option has 6 courses (18 credits) as electives. Two courses (6 credits) in business and economics and 4 courses (12 credits) in arts and sciences are recommended as electives.

General Education

These studies are aimed at providing an enduring base for personal development and an awareness of moral values and social responsibility. Normally these courses will be completed by the end of the sophomore year. They include:

| | | |
|-------------------------------|-------------|--|
| English Composition | 1 semester | (May be waived if writing competence is established.) (English or foreign, in original or translations.) |
| Literature | 2 semesters | |
| Philosophy | 2 semesters | |
| Religion | 2 semesters | |

Distribution Requirement

This requirement assures a measure of balance in the liberal arts background outside of the major field while at the same time permitting an element of flexibility so that each student may tailor his program to some degree to fit his interests and needs. The Distribution Requirement is normally completed by the end of junior year. *N.B.* Certain courses within Areas II and IV must be selected by all students in the School of Business Administration.

Business administration students may choose two courses from two of the three areas: Area I, III, or V.

| | | |
|--------------------------|------------------------|---------------|
| Area I | Area III | Area V |
| English | Religion | Biology |
| History | Philosophy | Chemistry |
| | Fine Arts | Earth Science |
| | (Music or Art) | Physics |
| Area II | | |
| Foreign Languages | | |
| Mathematics ¹ | Area IV | |
| | Economics ² | |
| | Political Science | |
| | Sociology | |
| | Psychology | |

111

Business Core

Course work consists of study in the several areas of business practice and in analytical methods and techniques. This foundation is intended to develop a broad understanding of business problems. The following courses constitute the core:

Functional Activities: Accounting 101, 102; Finance 201, 202; Management 202; Marketing 201; Law 201.

Analytical Techniques: Quantitative Analysis 213; Economics 302; Management 201.

Professional Studies

These courses provide an intensive learning experience in one facet of business practice and serve as a basis for future career development. Professional options are offered in:

| | | |
|------------|-------------------------------|-----------------|
| Accounting | Marketing | |
| Finance | Personnel and Labor Relations | |
| Management | Quantitative Analysis | Special Options |

¹Business students must take Mathematics 101, 102 or two advanced courses. They must also take Computer Science 151, or equivalent.

²Economics 101-102 is required of business students.

The professional option consists of 12 credits in a functional area beyond the courses required in the Business core. An exception to the 12 credit requirement is the Accounting Option, for which a set of course requirements has been established as necessary preparation for the Certified Public Accounting examination in Pennsylvania.

You may choose your professional option when you apply for admission or at some time during your first two years of college. If you wish to choose a Special Option, you must obtain the dean's approval of your program.

Free Electives

A student may choose to concentrate his free electives in a particular field or may use these electives to diversify his background or broaden his interests. To achieve a balance between liberal arts and professional studies, the school recommends that a student take no more than 12 credits as electives in business administration or economics.
