White Supremacy: White supremacy characterizes various belief systems which center on one or more of the following key tenets:

1. whites should dominate people of other backgrounds, especially where they may co- exist;
2. whites should live by themselves in a whites-only society;
3. whites have their own “culture” that is superior to others;
4. whites are genetically superior to other people.

Some US examples?

Slavery, Jim Crow, Genocide of American Indians, WW II Japanese Internment.....

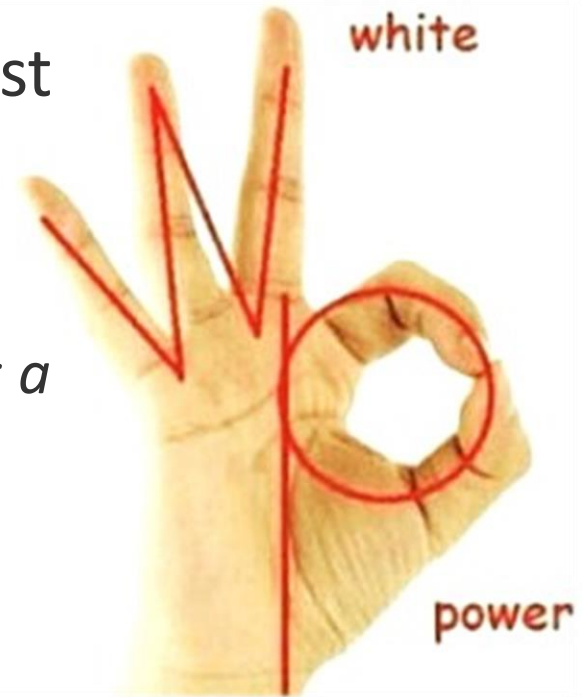

Extreme Right: “Extreme right” is used to describe right-wing political, social & religious movements that exist outside of & are more radical than mainstream conservatism. In the United States, the extreme right consists primarily of two large, slightly overlapping spheres.

1. In one sphere is the white supremacist movement, including its various sub-movements, such as neo-Nazis, racist skinheads, & the alt right, among others.
2. In the other sphere are anti-government extremist movements such as the militia movement & sovereign citizens (collectively, this sphere is often referred to as the “Patriot” movement). Also in the extreme right are several “single-issue” movements, which each tend to be the extreme wing of a more mainstream conservative movement; these include anti-abortion extremists, anti-immigrant extremists, anti-Muslim extremists, & anti-public lands extremists, among others.

From the Anti-Defamation League

White nationalist groups espouse white supremacist or white separatist ideologies, often focusing on the alleged inferiority of nonwhites.

Merges the belief that the United States is a white nation for white people only.

Discussion Questions

How do they use social media to spread hate?

How have conservative media stars helped them?

How have progressive activists helped them?

What can we do to fight the spread of hate?

Three Tips

1. Use authoritative sources & get educated.

Southern Poverty Law Center, Anti-Defamation League, national newspapers, leading scholars, college courses in humanities & soc. sciences

2. Don't engage them; report & block.

Support de-platforming efforts

3. Engage in massive, non-violent protest.

Put their insignificance & pettiness on display
