THE COLLEGE OF SCIENCE AND LIBERAL ARTS

THE DEPARTMENT OF MATHEMATICAL SCIENCES

MATH 691: Stochastic Processes with Applications Fall 2019 Graduate Course Syllabus

NJIT Academic Integrity Code: All Students should be aware that the Department of Mathematical Sciences takes the University Code on Academic Integrity at NJIT very seriously and enforces it strictly. This means that there must not be any forms of plagiarism, i.e., copying of homework, class projects, or lab assignments, or any form of cheating in quizzes and exams. Under the University Code on Academic Integrity, students are obligated to report any such activities to the Instructor.

COURSE INFORMATION

Course Description: This course provides an introduction to the use of mathematical techniques in stochastic processes. We emphasize practical problem solving techniques without going into great mathematical detail. We will look at some applications in biology and finance.

Number of Credits: 3

Prerequisites: MATH 662 is recommended, but not required.

Course-Section and Instructors

| Course-Section | Instructor |
|----------------|-----------------------|
| Math 691-101 | Professor J.MacLaurin |

Office Hours for All Math Instructors: Fall 2019 Office Hours and Emails

Required Textbooks:

| Title | Handbook of Stochatic Methods |
|---------------------|--|
| Author | Crispin Gardiner |
| Edition | |
| Publisher | Springer |
| ISBN # | 978-3540707127 |
| Additional Textbook | Stochastic Processes. Theory for Applications - Gallagher. |

University-wide Withdrawal Date: The last day to withdraw with a W is Monday, November 11, 2019. It will be strictly enforced.

COURSE GOALS

Course Objectives

- Be able to understand and analyze stochastic equations, without going into abstract mathematics.
- Be able to construct stochastic models of real-world phenomena.

Course Outcomes

- Students have improved problem-solving skills.
- Students have a broad understanding of how to construct a stochastic model.
- Students have an understanding of fundamental techniques for solving stochastic problems.

Course Assessment:

The assessment of objectives is achieved through homework, exams, and weekly quizzes.

POLICIES

DMS Course Policies: All DMS students must familiarize themselves with, and adhere to, the Department of Mathematical Sciences Course Policies, in addition to official university-wide policies. DMS takes these policies very seriously and enforces them strictly.

Grading Policy: The final grade in this course will be determined as follows:

| Homework | 30% |
|--------------|-----|
| Quiz | 10% |
| Midterm Exam | 20% |
| Final Exam | 40% |

Attendance Policy: Attendance at all classes will be recorded and is **mandatory**. Please make sure you read and fully understand the Math Department's Attendance Policy. This policy will be strictly enforced.

Exams: There will be one midterm exam held in class during the semester:

| Midterm Exam | October 17, 2019 |
|-------------------|------------------------|
| Final Exam Period | December 14 - 20, 2019 |

The final exam will test your knowledge of all the course material taught in the entire course. Make sure you read and fully understand the Math Department's Examination Policy. This policy will be strictly enforced.

Makeup Exam Policy: To properly report your absence from a midterm or final exam, please review and follow the required steps under the DMS Examination Policy found here:

http://math.njit.edu/students/policies_exam.php

Cellular Phones: All cellular phones and other electronic devices must be switched off during all class times.

ADDITIONAL RESOURCES

Accommodation of Disabilities: Disability Support Services (DSS) offers long term and temporary accommodations for undergraduate, graduate and visiting students at NJIT.

If you are in need of accommodations due to a disability please contact Chantonette Lyles, Associate Director of Disability Support Services at 973-596-5417 or via email at lyles@njit.edu. The office is located in Fenster Hall, Room 260. A Letter of Accommodation Eligibility from the Disability Support Services office authorizing your accommodations will be required.

For further information regarding self identification, the submission of medical documentation and additional

support services provided please visit the Disability Support Services (DSS) website at:

https://www.njit.edu/studentsuccess/accessibility/

Important Dates (See: Fall 2019 Academic Calendar, Registrar)

| Date | Day | Event |
|----------------------|-------|------------------------------|
| September 3, 2019 | т | First Day of Classes |
| September 13, 2019 | F | Last Day to Add/Drop Classes |
| November 11, 2019 | Μ | Last Day to Withdraw |
| November 26, 2019 | т | Thursday Classes Meet |
| November 27, 2019 | W | Friday Classes Meet |
| November 28-29, 2019 | R-F | Thanksgiving Recess |
| December 11, 2019 | W | Last Day of Classes |
| December 12, 13 2019 | R&F | Reading Days |
| December 14-20, 2019 | F - R | Final Exam Period |

Course Outline

| Weeks | Dates | Reading | Торіс | |
|-------|-------|----------------|---|--|
| 1 | 9/5 | Chapter 2 | Course Overview. Probability Fundamentals. Chebyshev Inequality. Borel Cantelli Lemma. | |
| 2 | 9/12 | Chapter 2 | Law of Large Numbers. Gaussian Distribution. Central Limit Theorem. | |
| 3 | 9/19 | Handout | Discrete-Time Markov Processes | |
| 4 | 9/26 | Chapter 3 | Continuous-Time Jump Markov Processes. Kurtz's Representation Formula. Brownian Motion. | |
| 5 | 10/3 | Chapter 4 | Stochastic Integrals. Continuous Time Markov Processes | |
| 6 | 10/10 | | Review | |
| 7 | 10/17 | | MIDTERM EXAM I | |
| 8 | 10/24 | Chapter 4 | Stochastic Differential Equations. | |
| 9 | 10/31 | Chapter 5 | Forward / Backward Fokker-Planck Equations | |
| 10 | 11/7 | Chapter 6/7 | Approximation of Jump-Markov Processes by SDE Diffusion Processes. Kurtz' Theorems. | |
| 11 | 11/14 | Chapter 9 | Martingale Inequalites. Kramer's Theorem. | |
| 12 | 11/21 | Handout | Large Deviations of Stochastic Processes. | |
| 13 | 11/26 | Handout | Applications in Finance / Biology | |
| 14 | 11/28 | | THANKSGIVING. No Class | |
| | 12/5 | | Review | |
| | ТВА | | Final Exam | |
