# **PKU: Food for Thought**

The studies described in this thesis were carried out at the Department of Pediatrics, University Medical Centre Groningen, University of Groningen. Financial support by the graduate school of drug development (GUIDE) is gratefully acknowledged.

Financial support for research reported in this thesis was given by Milupa Metabolics GmbH and Scientific Hospital Supplies International.

For the publication of this thesis the support by Milupa Metabolics GmbH, Friedrichsdorf Germany; sigmau-tau BV; Merck Serono The Netherlands; the Canadian PKU and Allied Disorders Inc.; de Nederlandse PKU Vereniging; Stichting PKU-research; Nutricia-Nederland and the European Society for Phenylketonuria and Allied Disorders Treated as Phenylketonuria is gratefully acknowledged.

ISBN: 978-90-367-4218-4

The illustration on the cover depicts phenylalanine as seen through an optical microscope. The photograph was made by Michael W. Davidson from the Florida State University and available at <http://micro.magnet.fsu.edu/aminoacids/pages/phenylalanine.html>. Use of the picture for the cover page was permitted free of charge by the Florida State University.

## Table of content

Chapter 1	Introduction and scope of the thesis	9
Chapter 2	The intake of total protein, natural protein and protein substitute and growth of height and head circumference in Dutch infants with phenylketonuria <i>Journal of Inherited Metabolic Diseases 2005;28(6):845-54</i>	19
Chapter 3	Comparison of protein intake and growth in Dutch and USA infants with phenylketonuria	31
Chapter 4	Protein metabolism in adult patients with phenylketonuria <i>Nutrition 2007;23(6):445-53</i>	43
Chapter 5	Phenylketonuria: comparing the effect of a large and a small dose of amino acids on whole body protein turnover <i>Submitted</i>	61
Chapter 6	Phenylketonuria: High plasma phenylalanine decreases cerebral protein synthesis <i>Molecular Genetics and Metabolism 2009;96(4):177-82</i>	77
Chapter 7	Blood brain barrier transport of <sup>13</sup> C tyrosine in PKU patients <i>In preparation</i>	89
Chapter 8	Brain dysfunction in phenylketonuria: Is phenylalanine toxicity the only possible cause? <i>Journal of Inherited metabolic Diseases 2009;32(1):46-51</i>	103
Chapter 9	General discussion	113
	Nederlandse samenvatting	119
	Dankwoord	125
	Curriculum vitae	129
	Publications	131

## List of Abbreviations

BBB	blood-brain barrier
cPSR	cerebral protein synthesis rate
KIVA	ketoisovaleric acid
LNAAs	large neutral amino acids
NPB	net protein balance
PAH	phenylalanine hydroxylase
Phe	phenylalanine
PKU	phenylketonuria
RDA	recommended daily allowance
Tyr	tyrosine
