DOI troubles

Error - DOI Not Found

Deleted DOI / URL

.....
This DOI / URL is not currently attached to any meaningful content. It was created in error and is configured to point to this information page.

Current Links for DOI: 10.3920/978-90-8686-712-7

D. Sauvant

Modelling nutrient digestion and utilisation in farm animals (2011)

<http://dx.doi.org/10.3920/978-90-8686-712-7>

This ebook is available for purchase via Wageningen Academic Publishers.

This ebook is available to library customers on SpringerLink.

Book available via WAP

Book available via SpringerLink

Some DOI troubles can be fixed

- Bonus: When they fix it for you, it is fixed for everyone!
- In the meantime, you can use the direct link.
- ... unless the book is not actually there.

“Slippage”

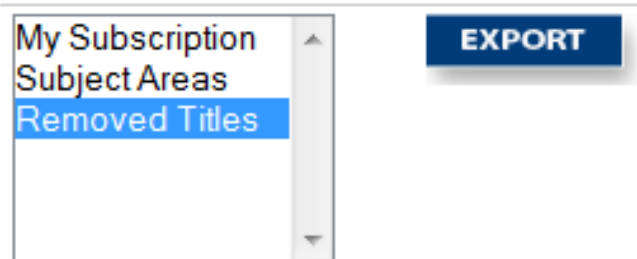

- Some ebooks on a frontlist may never appear on the site
- Individual ebooks may just disappear

Lists may be available...

- But not forthcoming.
- You may have to periodically dig several levels deep on the website to get them:

To download a list of titles available on

Solutions?

- Use provider-neutral records when you can
- Edit MARC records to conform with local standards
- Verify access to all titles (periodically)
- Communicate with other catalogers

MarcEdit

- Developed by Terry Reese at Oregon State
- MARC editing in a friendly yet powerful text editor
- Z39.50 client
- (Binary editor!)

Version control

- Maintain previous versions of files efficiently
 - No need for `fileFeb12-FINAL6.mrk.bak`
 - Undo to any previous version
- Mercurial (Hg):
 - Free, lightweight, cross-platform
 - Easy to set up and remove repositories
- Command line, GUI (TortoiseHG, SourceTree)

Automation

- MarcEdit Macros
 - Visual Basic, Visual Basic.NET
- .mrk format is text, so you can process with your favorite programming language
- Don't have a favorite language (yet)?

#catcode #libcodeyear

- From CodeAcademy.com:

 **Code Year**

**There's still time! Learn to
code in 2012.**

**356,292 people are learning to code
this year. Why not you?**

Sign up for Code Year to **start receiving a new interactive programming lesson every Monday**. You'll be building apps and websites before you know it!

Text processing tools

Cygwin (unix) tools: grep, vim, vimdiff, sort, wc
(and the list goes on)

```
grep ^=856 ebooks.mrk
```

```
=856 40$u http://dx.doi.org/10.1007/978-1-4419-9934-4
=856 40$u http://dx.doi.org/10.1007/978-1-4302-3513-2
=856 40$u http://public.eblib.com/EBLPublic/PublicVie...
=856 40$u http://dx.doi.org/10.1007/978-0-85729-661-0
=856 40$u http://dx.doi.org/10.1007/978-3-8349-6217-1
```

My automation (bash, PHP, mysql)

- `new_ebsco.sh`
- Profile for each vendor answers:
 - What lines should I add/delete?
 - What does a valid URL look like?
 - How can I tell if the ebook is live?
- (Check logs for problems)
- `pull.sh <filename>`

Generic link checkers may not be effective

- Ebook errors can be valid web pages, and errors don't mean you should give up!
- **HTTP/1.1 200 OK**
 - Full text ebook
 - Web site form to buy the book
- **HTTP/1.1 404 Not Found**
 - No such page on server
 - Broken DOI (that you should report)

Effective link checking (my method)

- Database holds a list of links to be checked
- Script checks each according to site profile (pausing 10 seconds between each link):
 - Is it a PDF?
 - Does it contain the phrase “This is not part of your subscription”?
 - Can you click through to fulltext chapters?

More thorough link checking

Title: [Distributed computing and artificial intelligence](#)

Title: [Distributed computing and artificial intelligence](#)

GOOD

BAD

Problem:

- Bad DOI
- No access
- Other

The screenshot shows the SpringerLink interface. At the top, there is a search bar with the text "SEARCH FOR" and a "GO" button. Below the search bar are tabs for "AUTHOR OR EDITOR", "PUBLICATION", "VOLUME", "ISSUE", and "PAGE". The main navigation bar includes "HOME", "MY SPRINGERLINK", "BROWSE", "TOOLS", and "HELP".

The search results show the book "ADVANCES IN INTELLIGENT AND SOFT COMPUTING" (Volume 79, 2010, DOI: 10.1007/978-3-642-14883-5). The book cover is displayed on the left, and the title "Distributed Computing and Artificial Intelligence" is highlighted in orange. The authors are listed as "Andre Ponce de Leon F. de Carvalho, Sara Rodriguez".

Below the book information, there is a "Table of Contents" section. The first entry is "Front matter" (1-8), which is highlighted in green. The second entry is "Feature Selection Method for Classification of New and Used Bills" (1-8), which is highlighted in red and has a "Bad DOI" problem indicated by a red box. The other entries are "Otoliths Identifiers Using Image Contours EFD" (9-16), "Semantic Based Web Mining for Recommender Systems" (17-25), and "Classification of Fatigue Bills" (27-33).

At the bottom of the page, there is a "Hide thumbnails" section with a "Zoom" control.

Communicate

- Dead links are in catalogs everywhere ... how to let people know?
- Let vendors know if you find them in the wild!
- A blog / database for “zombie e-books” ?

Any questions?
