

FORAGES AT KCA

Role & Importance of Clovers in Kentucky

Presented by

University of Kentucky
Kentucky Cattlemen's Association
Kentucky Forage & Grassland Council

Friday, January 15, 2010
Lexington Convention Center
Lexington, Kentucky

SPECIAL PUBLICATION – KFGC 2010-1

GARRY D. LACEFIELD AND CHRISTI FORSYTHE, EDITORS

F O R E W O R D

This marks the fifteenth consecutive year we have had a Forage Symposium at the Kentucky Cattlemen's Convention. We challenge you to consider the content of the proceedings and the discussions of the day in light of your overall beef-forage program. It is our hope you will go away with at least one idea or practice that you can implement to improve your overall forage-animal program.

On behalf of the program committee, I want to thank Mr. Dave Maples and all the fine folks at KCA for their support, assistance and encouragement. In addition, I want to thank the Kentucky Forage and Grassland Council for their continued support of Forages in Kentucky. My thanks to Don Ball, Ray Smith, and Don Sorrell for their presentations and papers for the proceedings.

Special THANKS are extended to Mrs. Christi Forsythe for her extra effort in program planning and in preparing and editing the proceedings.

I would also like to express appreciation to Mr. John McCulley and all members of the Oregon Clover Commission for support of this Conference.

Let me close by extending a special invitation to attend the 30th Kentucky Alfalfa Conference at the Cave City Convention Center on February 25. For more information on forages and forage-related events, see our website at <http://www.uky.edu/Ag/Forage>
