Contributor Information

Name: Kristen Walters

Signature/E-Signature:  Date: April 4 2018

Email (required): KIWALTER@SFU.CA

Identification of Content

Title of Content: Apex predator behavior in a changing salish sea: the role of bald eagle foraging behavior in coastal food webs & nutrient cycling

SSEC identifier of presentation: SSE7 - 460

Author(s): Kristen Walters

Date Content was created: March 20 2018

Keywords: bald eagles, nutrient cycling 530

Description of Content (abstract):  
We examine the role of bald eagle foraging behavior, particularly intraspecific competition & kleptoparasitism rates, in coastal ecosystems under a decline in salmon populations.
