TRINITY COLLEGE BULLETIN

Special Edition

FINAL REPORT

Program of Progress

JUNE 1955 — JUNE 1958

Published monthly except April, June and December by Trinity College. Entered January 12, 1904, at Hartford, Connecticut, as second class matter, under the Act of Congress of July 16, 1894. Accepted for mailing at special rate of postage provided for in section 1103, Act of October 3, 1917, authorized March 3, 1919.

Volume LV (Special Edition)

Supplement to No. 9 (November 1958)

FINAL REPORT
TRINITY COLLEGE PROGRAM OF PROGRESS

June 1955 — June 1958

President Jacobs has discussed both in his Annual Report for the year 1957-1958 and in his Five-year Report (1953-1958) many of the details of the Program of Progress. He has given the important figures and has named the leaders of the campaign. I shall limit myself to a few additional comments about the Program of Progress.

A capital campaign represents the concentration of the interest of the College's supporters on certain short-range goals which are a part of a long-range development program. Our goals in the Program of Progress were taken from a program outlined by President Jacobs and the Trustees in 1953. The goals did not represent all the needs of the College nor did we expect each individual goal to be met.

The total goal was the largest ever set by a college of Trinity's size and the amount raised was a record also. What contributed to this success?

First of all, the Convocation in November 1955 gave inspiration to hundreds of supporters of Trinity. Without this impetus the success of the Program of Progress would have been impossible. Secondly, Chairman Robert S. Morris, '16, recruited excellent leaders and a good soliciting organization. President Jacobs has discussed the factor of leadership and has mentioned many of the persons responsible for the program's success. A complete list of the top committees and of all area chairmen forms a part of this final report. There is one person who, in addition to those noted by President Jacobs, deserves very special mention and thanks. James S. Schoff of New York, First Vice President of the Parents Association, pointed out the ways in which the funds for the Student Center could be raised. His fine advice in November 1957 and his active leadership during the last six weeks of the campaign accounted for over \$600,000 in gifts.

There were many large gifts, and it is interesting to note that 91% of the \$4,666,981 raised came from less than 10% of the more than 4,000 contributors. A list of gifts in excess of \$20,000 follows.

In some instances the total gifts for specific purposes of the campaign exceeded the amount originally set. For example, it was thought that the College would have to replace only two years of annual giving; actually, three years' income had to be made up. The allocation of \$230,000 for South Campus utilities was not even contemplated, but no building can be erected on the South Campus until these utilities have been installed. The College tried to run the campaign as economically as possible, and total costs were less than 4% of the amount raised.

There are always persons, departments and committees working behind the scenes to whose efforts very little publicity is ever given. I should like to mention here the very fine help given by the Faculty Committee on Development, composed of Professor Harold L. Dorwart, Chairman, and Professors James W. Burger, Norton Downs,

Wendell E. Kraft, James A. Notopoulos and Richard Scheuch. The Administration Committee on Development was very active both in planning the goals and in running the Convocation. This Committee was composed of Dean and Vice President Arthur H. Hughes, Dean Robert M. Vogel, and Messrs. John F. Butler '33, Donald B. Engley, Kenneth C. Parker, William R. Peelle '44 and J. Kenneth Robertson. The Treasurer's Office established a well-defined system of bookkeeping whereby it was possible at any time to know which pledges were unpaid and the amount of the balances due. The 100% cooperation in record keeping between the Treasurer's Office and the Development Office made for excellent public relations since, at all times, it was possible to furnish an immediate answer to any donor about the status of his gift. Mr. Robertson, the Treasurer, designed the system and Mrs. Stella S. Rustigian carried it out to perfection.

Miss Margaret E. Olmsted of the Development Department deserves special praise. In addition to her regular work, she took on all the desk work involved in record keeping. This was so well anticipated that the forms and allocations of various phases of the job were consistent throughout the campaign. Through day by day entries, each pledge could be checked regularly. Through her reports on accumulated gifts, it was possible at any time to get an accurate grand total and to know a total amount designated for any specific purpose in the over-all goal. This work required endless hours of checking and rechecking.

The College is most grateful to the consulting firm of Marts and Lundy. This firm helped the College to establish its goal, to put on the Convocation and to carry through with the initial phases of the campaign. The Director assigned to Trinity's Program of Progress, Melvin D. Brewer, was not only most capable and effective in his work, but also a most willing and most cheerful associate who soon became a good friend.

The following pages give (1) a statistical breakdown of contributions by type of giver; (2) a breakdown of gifts by amounts and a list of the largest gifts; (3) the campaign organization including area chairmen; and (4) a list of all contributors to the Program of Progress divided by alumni, parents and friends with an asterisk marking each person who contributed a share or more.

While President Jacobs has already thanked the Trustees of Trinity College for their giving and for their leadership, I wish to add my thanks to his. It was a fond hope in 1955 that the Trustees might contribute \$500,000. The final figure of almost \$800,000 represented the difference between success and failure.

Funds must be found now for a science building, for a fine arts center, for the Library and for scholarships. It is toward these goals that President Jacobs has directed the attention of the College's supporters. With the success of the Program of Progress now a matter of record, and with President Jacobs' leadership, I am confident that these new goals will be attained long before the deadline he has set.

Albert E. Holland, *Vice President*
