

Head of Atomic Energy Commission Gives Lecture

Dr. Libby Works with Radioactive Carbon

By ROB WINSLOW

Thursday evening, Dr. Willard Libby, head of the Atomic Energy Commission, delivered a lecture on the subject of radioactive carbon dating. It was while he was doing research at the Nuclear Institute of the University of Chicago that Dr. Libby worked on the problem of radioactive carbon.

It has been observed that cosmic rays from outer space create neutrons. Through this reaction a radioactive isotope of carbon, called carbon 14, is produced in the upper atmosphere. Carbon 14 becomes radioactive carbon dioxide which is taken in in plant photosynthesis, and animals in turn get it from plants. Thus all living organisms obtain a constant amount of radioactive carbon.

When a plant or animal dies the radioactive carbon decomposes, disintegrating at the rate of one-half its strength every 5600 years. The ratio between the radioactive carbon in the dead tree and a living one of the same species will show how long the tree has been dead.

The whole story of radioactive carbon dating, which covers the last ten years, illustrates what can emerge from the dedicated research of a scientist like Dr. Libby. We now have a more accurate method of establishing the dates of geological, archaeological, and historical origin.

In the recent controversy over the Dead Sea Scrolls, radioactive carbon dating played an important part in determining the age of the ancient document. As yet, dating by this method has to be further perfected, and many new uses can be foreseen.

CHEER LEADERS

All sophomores and juniors interested in becoming Cheerleaders next year should submit their names to Box 48 by Monday, May 14.

Atheneum . . .

(Continued from page 1)

ous speaking and fifth place in the oratorical contests at New England Forensic Association Tournament, and won certificates of achievements both as individuals and as teams. John Dando, Atheneum Adviser and newly elected vice-president of the New England Forensic Association, presented Stearns with the senior key for outstanding work.

Brown New President

Stearns then officially turned the presidency of the Society over to its new holder, Theodor Brown, who made brief remarks. Brown, the Pi Kappa Alpha Senator and a pre-law psychology major from Jamaica, New York, then introduced the newly elected officers for the coming year: treasurer-Talbot I. Spivak, a rising sophomore and outstanding freshman debater from Philadelphia; corresponding secretary, Robert W. Back, vice-president of the rising junior class, pre-law history and economics major from Morton Illinois, and who, with his partner Franklin Kury, won a certificate for achievement as a debating team; and recording secretary, Joseph Krawski, history major from Wapping, Connecticut.

Robert Stewart of the mathematics department, John Butler, Placement Director, and Doctors Richard Sheuch and John N. X. Oanh of the Economics Department, were special guests of the society at the banquet. About fifteen members, in addition to the guests, attended the event, which was preceded by a cocktail party in the apartment of George E. Nichols, Assistant Professor of English. With this banquet, the Atheneum brought its activities for this year to a close, but it is eagerly looking forward to next year and an expanded program of forensic activity.

Opponents Are Scarce for New Chess Champ

"As College Chess Champion, I will gladly play any member of the student body, the faculty, or the administration," said Freshman Harvey Lerman in a recent Tripod interview.

Lerman, the president and organizer as well as reigning champion of the newly formed Chess Club, (which meets on Monday afternoons in Goodwin Lounge), is preparing to test his skills in inter-college competition.

Next semester, the champ will match his ability against the College's arch-rival, Wesleyan.

His record is such that no one could construe Lerman's enthusiasm for conceitfulness. An avid chess player since the age of five, Lerman has won numerous tournaments in the Greater Hartford area, amassing the impressive record of 160 wins and one loss; he also ranks high on the Hartford Chess Club's ladder.

"If only I could find another able player on this campus," lamented Lerman in the interview. The chess player's lot is not a happy one.

Gen. Stedman Scholarship

(Continued from page 1)

of Antietam, leading half of the regiment in the charge on the stone bridge, and receiving a severe wound.

He commanded the regiment at Fredericksburg, Chancellorsville, and Gettysburg, and at the beginning of the overland campaign of 1864 was placed at the head of the brigade. He repeatedly won the commendation of his superiors, and was mortally wounded in one of the skirmishes that followed the mine explosion at Petersburg. Fort Stedman, one of the works near that place, was named for him in 1864. He had been strongly recommended for promotion to brigadier-general, and was given rank by brevet, to date from August 5, 1864.

Dr. Smellie Presents Lucid Final Lecture of Series

By ROLFE A. LAWSON

In completing the series—the Christian in the Academic Community—Dr. Smellie of the Chemistry Department spoke with a lucidity that convinced the listener of his sincerity and extensive thought on his subject—"The Christian in Chemistry."

Dr. Smellie pointed out the unique position of man in his ability to carry out and advance scientific thought, citing the new understanding man has acquired in the 20th century of mass and energy, and all the physical abstractions and concepts accompanying this understanding. To the scientist the understanding of Truth is only proximate, being arrived at with a

disciplined frame of thought. The scientist's truth is arrived at by mutual agreement after the use of the "scientific method," experimentation carried out again and again—predictions then being made on the basis of their observations and things already known.

The presence of "faith" in the various fields of science is seldom recognized by the uninformed layman—as Dr. Smellie demonstrated. Faith is an important part of scientific studies, the learning process being an example. The student of science must take the larger bulk of his learning on faith, until later in his

College Ring Orders Taken Tuesday for Autumn Delivery

Next Tuesday, May 15th between 11:30 a.m. and 1:30 p.m. orders will be taken in Seabury Lounge for September delivery of the Official College ring. The rings are 10 carat gold and come in lightweight and heavyweight models. The price of the lightweight ring is \$16.34, and the heavyweight ring is \$19.98.

A \$10.00 deposit will insure delivery of your ring, the balance is due upon delivery. If you are a senior, the ring will be sent to you C.O.D. as soon as your order is processed. Anyone who has any questions should contact Steve Bowen, College Ring Chairman.

When June rolls around
And you're homeward bound,
For the best smoke you've found—
Have a CAMEL!

—Man, that's
pure pleasure!

It's a psychological fact: Pleasure helps your disposition. If you're a smoker, remember—more people get more pure pleasure from Camels than from any other cigarette!

No other cigarette is so rich-tasting, yet so mild!

Varsity Track Squad Awaits Eastern Trial in Bay State

Odds-Makers Favor Jumbos, Springfield

By HUB SEGUR

THIS WEEK Trinity's track and field athletes are priming for the season's strongest competition, when about a dozen Hilltoppers will leave Saturday for Worcester and the Eastern Intercollegiate at Boston.

The team will be striving to improve on the seventh-place showing which Trin pulled down last year. Tufts and Springfield are again expected to be the teams to beat.

Dump Panthers

Karl Kurth's boys traveled deep into the hills of Vermont for their third meet in eight days and defeated a stubborn Middlebury outfit 69½ to 56½ to even their outdoor record of two-up. The clash, dominated by the brilliance of the Panther's Tom Hart—basketballer of some note—was not decided until the sweep of the javelin and two mile put the Bantam victory beyond reach. A fine team effort coupled with the sweep of four events were the key factors in the triumph. Trin's power and depth in the distances and weights turned the tide.

Tireless Tom Hart held up the Middlebury cause single-handedly, taking an amazing total of five first places, good for 25 points. Key Trinity victories came from Fred Boynton in the

high hurdles, Hub Segur in the half mile, and John Swett in the discus.

Other Winners

Weightmen Dex Smith, Ray Shepard and distance runner Bob Scharf accounted for the Blue and Gold's other firsts. Team scoring was led by Swett and Segur, each with a total of eleven points.

Wednesday's Amherst meet was a different story, as the invaders from Massachusetts took eleven of fourteen first places and walked off with an 84½-41½ victory. Co-captain Smith, Snyder, and Scharf gave Trin her three blue ribbons. "Sandor" Scharf led the team with eight points.

Summary:

- 100-yard dash: 1—Hart, M; 2—Bergerman, T; 3—O'Malley, M. Time—:10.4.
- 220-yard dash: Won by Hart, M; 2—Ford, M; 3—Bergerman, T. Time—:23.0.
- 440-yard run: 1—Ford, M; 2—Smith, T; 3—Beren, T. Time—:52.3.
- 880-yard run: 1—Segur, T; 2—Maynard, M; 3—Godfrey, T. Time—2:50.5.
- Mile run: 1—Segur, T; 2—Scharf, T; 3—McCanless, T. Time—4:55.4.
- Two-mile run: 1—Scharf, T; 2—Allen, T; 3—Segur, T. Time—10:52.6.
- High hurdles: 1—Boynton, T; 2—Allen, T; 3—Godfrey, T. Time—:16.4.
- Low Hurdles: 1—Miner, M; 2—Smith, T; 3—Illick, T. Time—:26.5.
- High jump: 1—Hart, M; 2—Noble and Boynton, T. Height—5'7".
- Pole vault: 1—Hart, M; 2—Greenwood, M; 3—Satterthwaite, T. Height—10'6".
- Broad jump: 1—Hart, M; 2—Greenwood, M; 3—Noble, T. Distance—20'11".
- Discus: 1—Swett, T; 2—Swell, M; 3—Godfrey, T. Distance—130'9".
- Shot put: 1—Shepard, T; 2—Swett, T; 3—Kulas, T. Distance—40'9½".
- Javelin: 1—Smith, T; 2—Swett, T; 3—Noble, T. Distance—164'7".

The Spectator

By ED DALEY

EACH YEAR AT THIS TIME, as our favorite college baseball team—the red-hot Bantams—are rolling along toward another successful season, the campus begins buzzing with the prospects of our heroes' traveling to Omaha, Nebraska, to represent New England baseball. And this year is no exception.

The Jessemen of 1956 have already rattled off five straight wins, and smarting from a jolting defeat at the hands of Amherst, should continue along the winning trail. At this writing their 5-1 New England slate is commendable enough to rate them No. 2 in this region behind undefeated Harvard. Now assuming that the Crimson loses somewhere along the line, with any luck at all our Bantams should end up top dog in this region.

The next question: Should the baseball team be allowed to travel to Omaha on June 2nd, expense-free, depriving the senior delegation on the ball club of Commencement Exercises on June 8-10? In regard to the latter complication, the senior members of the ball club have already stated by vote that they would forego these exercises.

But the underlying problem, as I see it, to the question of missing graduation is whether it is all worth it! To me, and I'm sure that there are other students who echo my sentiments, it IS worth it! This is Trinity's year for baseball—perhaps one of the finest ball clubs we have ever had

Secondly, the individual ballplayers want desperately to play in the regionals, not for personal glory, as much as that reward at the end of a successful season, which provides them with something to aim for during the season. And thirdly, and perhaps most important, this is a fine opportunity for Trinity College to gain some long overdue and well-deserved recognition.

'Overemphasis' of Sports Hurlled at DKE As Bloomer Girls Invade Trin Stadium

CO-EDUCATIONAL relations among Eastern colleges get a boost this Saturday, as Delta Kappa Epsilon plays host to Smith, Holyoke, and Connecticut Colleges in a softball game on Trinity Field at 3 p.m.

Donation to the game, which will

be played for the benefit of the Korean War Orphan Fund, is one dollar, and a party for the participants will be held in the DKE house that night.

Last year a team from Pratt and Whitney, with a professional female hurler, downed the fraternity club.

Lacrosse Team Eyes Wesmen; Brunonia Wins

A badly-battered Bantam lacrosse team faces Wesleyan on the home field today, as it tries to obtain its first win of a rather disappointing season. With the possible return of midfielder Arky Vaughan, the team may have three regular starters in one group for the first time this year.

Defenseman Tom Bass and attack Dick Bailey are now on the ever-lengthening inactive list and several substitute injuries make Blue and Gold depth very shallow.

Saturday Worcester will invade the campus in an effort to right last year's loss. Having just dropped a close game to a powerful New Hampshire club, the Techmen figure to provide rugged opposition for the Hilltoppers.

In losing to Brown 10-4 Saturday, the team in the second half of the game looked good. Doug MacLeod led the offense with two goals and Bob Weiser chipped in with one score and two assists. The team's late surge was not enough to overcome the sharpshooting of Brown's Silverstein as he pumped in five goals in the course of the contest.

Early in the first quarter four quick goals were scored by the Bruins before the Trinity defense could get its sights set.

Wednesday's game of a week ago saw Trin travel to the University of

Jack stalks giant in his joint

OR WITH THESE EGGS, WHO NEEDS BACON?

There once lived a crazy, mixed-up old giant. He lived at the top of a beanstalk and he got his kicks out of a little red hen. Of course, that wasn't bad, because that chicken laid golden eggs.

Now down at the bottom of the stalk lived our boy, Jackson. Our boy was low on loot and his mother . . . man, she wasn't making it at all. The feedbag was M. T. So Jackson started thinking of a way to get loot fast: "How," said he to himself, "could I get that frantic chicken away from that character upstairs?" He looked around the hut for something to trade—How about an old piano roll? Mom's bifocals?

Uncle Looey's plectrum banjo? Wait a minute!!! In the cistern was a six-can carton of Budweiser! So he gets the Bud and sashays up the stalk. Well, citizens, there's no use dragging this Budweiser bit out: The giant buys the Bud, gives Jackson the hen, mom's doing great and so will you if you're up to date. Get Budweiser, man . . . it's the world's favorite beer!

All cisterns . . . and brothers, too, for that matter . . . should discover that there is a difference in beers. This Budweiser . . . it is the most.

Netmen Await New Englands After Walloping Mass., Clark

By AL TUBMAN

ROY DATH'S varsity tennis team came through with two 9-0 wins over the U. of Mass. and Clark last week to give the squad a 5-1 record for the season. The Springfield match was rained out Monday and postponed until the following day.

Going into the Springfield contest Dave Beers had collected a string of 17 straight victories. Eleven of them were notched as a sophomore last year and six as a junior this year. Jack Tewksbury and George Steinmuller have only lost one match this year and the team looks strong for their match with A.I.C. today.

Friday and Saturday the players will travel to Harvard to engage in the New Englands. Roy Dath says that the success of the team depends largely on their luck in the draw. Some men that the team has met this year and who will be at the New Englands are Hicks and Hartlove from Amherst and Pete Boswick and Bill Breed of Middlebury. Yale is also very strong. Last year Trinity came in third and hopes to do better this year.

Frosh Nine to Meet Wesleyan Yearlings

FROSH BATS are readying to meet Wesleyan at Wesleyan this afternoon, St. Thomas Seminary here at 2:30 Saturday, and Nichols Jr. College there next Tuesday.

Although Amherst's Hazen pitched a two-hitter against the frosh here last Saturday to win 6-0, the Trinity nine will keep fighting in hopes of beating Wesleyan again today. In the game with Wesleyan here last Wednesday, the Bantams racked up a 9-1 victory, as Jim Canivan pitched a solid three-hitter. Trinity counted 11 hits in the Wesleyan game, while McDonough and Graham made the two hits in the Amherst game.

"St. Thomas should present a formidable resistance," declared Coach Bill Gerhold, "because they have good hitters and fielders. Wesleyan's good hitters may also give us trouble," he added.

Intercollegiates Next for Golfers

BOSTON will be the scene of action for the golf squad this week-end, as the linksmen play in the New England Intercollegiates. Yesterday Mitch Pappas' boys faced a rough Amherst contingent.

Williams defeated the Bantams Friday 7-0, with only Al Briggaman and Al Payne coming close to victory. Against AIC in the same triangular meet, Fran Duggan's win on the twentieth hole over Tom Bowler clinched a 4-3 triumph.

Trin won the first two matches as Briggaman and Jim Steinmetz won by scores of 3 and 1 and 4 and 3, respectively. Sophs John Crandall and Dick Perkins, however, lost their matches by identical scores of 6 and 5, to tie up the match.

The Hilltoppers also lost the next match when Smith was defeated by Breglia by the score of 6 and 5. Payne defeated Dietz 5 and 4, to set the stage for Duggan's win.

Jesseemen to Tackle Wesleyan, Cadets After Lord Jeff Loss

BY BILL MCGILL

WESLEYAN'S CARDINALS invaded Trinity field this afternoon to face Moe Drabowsky and the slightly shaken Bantams, whose five game winning streak was halted, 7-6, by Amherst Saturday. The Cards, though smarting from a 5-1 loss to Williams, came to town sporting a 6 and 2 record.

The Wes offense has piled up 70 runs in the eight-game span, with Denny Denault and Hinman setting the pace. Norm Wissing, Bill Bixby and Cliff Hordlow have limited the opposition to 33 runs. Wissing took the rap Saturday, so it was expected that Bixby or Hordlow, whose last effort was a 6-0 four-hitter against Coast Guard, would take on the Bantams. On Tuesday Trinity will travel to Middletown.

To Invade "Coasties"

Next in line are the Cadets from New London, who will close out their season by hosting Trinity on Saturday. Last weekend Coast Guard split a twin-bill with Kings Point to make them 3 and 8 for the season and snap a seven-game losing streak. Credit for the victory went to Dick Rybacki, with aid from Dick Coombs. Either one of the two may go for the Cadets,

opposing George Case who set them down, 10-1, on six hits two weeks ago.

In the Saturday debacle the Lord Jeffs, behind Ted Kambour, took advantage of some sloppy baseball on the part of the Bantams to win. What proved to be the winning run was tallied in the sixth inning when Dave Stephens singled Marsh McLean home from third with the only hit the hosts could get off reliever Case in four innings. McLean had reached base on an error, then scampered to third on another miscue.

Loss to Moe

The loss was charged to Drabowsky, who worked the first four innings, allowing six runs. Moe surrendered five hits, but his big trouble was his old nemesis, wildness, perhaps stimulated by the flood of big league scouts in the stands. The Bantams could gather only five hits, two by Ray Aramini, who also scored twice.

On Friday the rain swept possible victory away as the Trinity-Columbia tilt was called off with the Lions at bat in the top of the fifth. At that point the Bantams were on top 2-1, with righthander Case tossing a one-hitter. George was only two outs away from making the game official when

the umpire stepped in.

Lions Score

Columbia had scored in the third on an error by George Kelleher and a single by pitcher Warren Smith. As the rain started to fall in the fourth, Charley Sticka beat out a bunt, then stole second. Ron Kozuch lashed a double down the left field line to tie the count. Kozuch was picked off third, but Aramini walked, stole second, went to third on an error, then raced home on a bunt by Jack McGowan.

Amherst, Choate Defeat Freshmen Court Outfit

OPENING its season in rather a hard manner in meeting two of the finest tennis teams in the East, the freshmen netmen lost their first match to Amherst 8-1. They took an identical loss from Choate ten days later with Frank Fineshriver winning the only match of the day 6-4, 6-1.

Roy Dath said that the contests the little Bantams had to play from here on in would be more evenly matched. Loomis has been added to the schedule which already includes Nichols Jr. College, May 10; Kent on May 12; and Wesleyan on May 17. The Loomis match is scheduled for May 14.

I-M Season Approaches Finish With Net, Cinder Competition

WITH ANY luck from the elements, intramural tennis should be concluded this week. The season is rapidly drawing to a close and the additional 70 winner's points could prove very decisive for the leader.

Four matches between Sigma Nu and Elton, A.D. and Theta Xi, Hall and Brownell and DeKe and Psi U will be played Monday. Then there are matches scheduled for Tuesday and Wednesday and the following Monday and Tuesday. Intramural director Karl Kurth warns that all postponements of these matches must be cleared through him and that matches not played by the 16th of May will be considered as no game played.

The last big event of the season is the intramural track meet, this year scheduled for two successive Friday afternoons, May 11th and 18th. Last year the eventual cup winners, Alpha Chi Rho, battled their way to victory. They scored 21 1/3 points to top second place DeKe who had 16. A.D. was third with 15 and 5/6 while Sigma Nu, Theta Xi, and Delta Phi finished fourth, fifth and sixth, respectively.

This year the strong teams appear to be Crow, A.D. and Sigma Nu, with a Dark Horse contender in Psi U. The first afternoon will be devoted to trials for the 100 yard dash and the 220. There will also be the high jump,

the pole vault and the discus, concluding with the 280 yard shuttle hurdle relay.

The following days will be finals in the 100 and 220, as well as the broad jump, the shot put and the javelin. The big events, however, will be the all-important mile run and the 440 relay.

Frosh, Amherst to Clash In Cinder Competition

COACH Art Christ's frosh track team will travel to Amherst a week from today in what Christ says, "should prove to be a very even meet." From latest reports, the green Bantam team that started the year has improved tremendously.

Coach Christ says he will be counting heavily in the Amherst meet on Bob Brian and Bob Riddell, in the distances; Bill Lukens, in the high hurdles; Jerry Olson, in the high jump; Al Smith in the quarter; and pole vaulters Jerry Long and Jon Outcalt.

In their last outing, the frosh whipped Cheshire Academy 73 to 48. Bill Johnson in the 100 and low hurdles and Wes Formeister in the discus and javelin were the only double winners on the wet track.

Christensen and MacLeod, Presidents

Delta Phi and Delta Kappa Epsilon have elected their officers for the coming year.

Carl Christensen, '57, present steward of the fraternity and philosophy major, was elected president of Delta Phi. Don Duff, '57, is vice-president. Kip Terry, '58, is recording secretary. Dick Behr, '57, was re-elected corresponding secretary, and Steve Letcher was re-elected treasurer.

Doug MacLeod, '57, Senator, was elected president of the Delta Kappa Epsilon fraternity. Paul Marion, '57, is vice-president. Kent Sleath, '57, is recording secretary, Marty Caine, '57, is corresponding secretary, and Dave Martin, '58, is alumni secretary. Jim Dillon, '57, holds the position of treasurer.

Smellie . . .

(Continued from page 3)
studies he is allowed to question and test the facts he has accepted to this point.

The chemist went on to state that "faith is the substance of things un hoped for and unseen in science," and that this faith is something outside science, logical and abstract thinking. By his questioning nature, man can be expected to investigate. As he carries these investigations further and further man discovers that "things made are made of things that do not appear," and which man can never expect or hope to see. This realization makes for patience, deeper understanding and the awakening of spirituality.

Scientific Investigation Needed

Just as man knows science by investigation, religion—and more particularly Christianity—in the same

way must be investigated. Since science can make no statement concerning spiritual things the scientist must seek Christianity and God under his own conditions, and it is only by this method of personal searching and as a result of his conclusions, that a scientist can validly accept or reject Christianity.

Costello . . .

(Continued from page 1)
of the vast tide of knowledge which confronts him. At a time when knowledge is advancing rapidly and there is a tremendous pressure towards specialization, the philosophic mind is best calculated to grasp an integrated view of knowledge through selection and connection.

Third, philosophy provides the most conclusive answers to the deepest instinct of our nature—the instinct to know—by providing the means to know "how" and "why."

The program was concluded with the presentation of a gift and a citation to Prof. Costello by Jim Bradley on behalf of the club in appreciation of many years of inspiring teaching and for continuous contributions of wit and wisdom to the college community.

Lacrosse . . .

(Continued from page 4)
Massachusetts only to lose, 9-2. A poor third quarter resulted in the Redmen scoring four goals and breaking open what was once a close game. Pete Corbett was injured early in the first half and the Bantam defense could not group itself in time to prevent the Mass. onslaught.
