NEW HAVEN HOSPITAL

SEVENTY-FIFTH ANNUAL REPORT

FOR THE YEAR 1901.

NEW HAVEN HOSPITAL—VIEW FROM NORTHEAST.

SEVENTY-FIFTH ANNUAL REPORT

OF THE

DIRECTORS

OF THE

General Hospital Society

OF

CONNECTICUT

For the Year 1901

Presented at the Annual Meeting, January 30th, 1902

NEW HAVEN:

THE TUTTLE, MOREHOUSE & TAYLOR CO.

1902

ADMISSION OF PATIENTS

1. Applications for the admission of patients should be accompanied by a certificate from some respectable physician, stating the nature and probable duration of the disease, and should be addressed to the Superintendent of the Hospital, New Haven, Conn. In accordance with the regulations of the hospital, the Superintendent, as the representative of the Prudential Committee, arranges the terms of admission according to the circumstances of the case and the accommodation required.

2. The nursing is performed by the Connecticut Training School for Nurses.

3. The ordinary charge per week for accommodation in the wards is \$7.00, which includes medical and surgical attendance, together with medicine, nursing and washing.

4. Private rooms are furnished at \$25.00 or more per week, according to the requirements of the case.

5. Persons partly supported by the towns in which they reside and partly by the State appropriation are admitted on an order from the town authorities. Town patients are received at \$5.00 per week.

6. Soldiers enrolled on the State quota in the Civil war, or in the quotas of other States if residents of Connecticut at the time of enlistment, and now residents, are admitted as State patients on an order from the executive officer of the Soldiers' Hospital Board.

7. Sailors whose support is provided for from the marine hospital fund are admitted on the order of the Collector of the Port of New Haven.

8. Persons carried directly to the hospital from the place of an accident are immediately admitted.

9. A written history of the case should be sent with the patient.

10. *Insane persons* and those suffering from *contagious diseases* are not admitted.

MEDICAL BOARD

CHARLES J. FOOTE, M.D., *President.* OTTO G. RAMSAY, M.D., *Vice-President.*
JOHN S. ELY, M.D., *Secretary.*

Attending Physicians.

S. D. GILBERT, M.D. L. S. DEFOREST, M.D. MAX MAILHOUSE, M.D.

MEMBERS OF THE SOCIETY

VICE-PRESIDENTS AND DIRECTORS FOR LIFE.

A donation of \$1,000 constitutes the donor a vice-president for life.

Mrs. Harriet Atwater,	Charles S. Leavenworth,
Frank W. Benedict,	Julia H. Leavenworth,
Mrs. Hannah J. Bennett,	Samuel E. Merwin,
Mrs. Lucy H. Boardman,	Mrs. Josephine E. S. Porter,
Mrs. S. E. Burroughs,	Joseph Porter,
Henry F. English,	Mrs. Ezekiel H. Trowbridge,
Mrs. Ann S. Farnam,	Mrs. Mary B. Wade,
Henry W. Farnam,	John D. Wheeler,
Susan V. Hotchkiss,	Mrs. J. D. Wheeler,
Mrs. Mary E. Ives,	Mrs. Eli Whitney, Jr.

LIFE DIRECTORS.

A donation of \$500 constitutes the donor a life director.

Dr. Francis Bacon,	Dr. Robert S. Ives,
Dr. Louis B. Bishop,	Dr. T. H. Russell,
Dr. Timothy H. Bishop,	Mary E. Scranton,
Dr. William L. Bradley,	N. D. Sperry,
Dr. William H. Carmalt,	Pierce N. Welch,
Henry L. Hotchkiss,	Eli Whitney.
William E. Downes,	

LIFE MEMBERS.

A donation of \$50 constitutes the donor a life member.

J. C. Anderson,	Mrs. J. D. Dewell,
William L. Andrews,	Mrs. F. B. Dexter,
Charles S. Baldwin,	William E. Downes,
Mrs. N. A. Baldwin,	May Rutherford Jay Du Bois,
Simeon E. Baldwin,	Mrs. Daniel C. Eaton,
Arthur S. Barnes,	Dr. Henry Fleischner,
S. H. Barnum,	Charles E. Graves,
Bayard Barnes,	Arthur T. Hadley,
E. Henry Barnes,	Dr. W. W. Hawkes,
Thomas G. Bennett,	M. Hemingway,
Henry T. Blake,	Miss Isaphene Hillhouse,
Eugene S. Bristol,	Thomas Hooker,
Louis H. Bristol,	Dr. W. H. Hotchkiss,
Nathan S. Bronson,	Dr. S. G. Hubbard,
Charles E. Curtis,	Dr. C. A. Lindsley,
James D. Dewell,	Mrs. Mary A. Mansfield,

Edwin Marble,	Cortlandt Trowbridge,
C. S. Morehouse,	George H. Tuttle,
Rev. Hazlet McKim,	Morris F. Tyler,
Robert Morgan,	W. P. Tyler,
Mrs. John A. Porter,	Francis Wayland,
L. S. Punderson,	Mrs. Francis Wayland,
Mrs. J. B. Robertson,	Stephen Whitney,
L. W. Robinson,	Mrs. Stephen Whitney.
John H. Taylor,	

MEMBERS FOR TEN YEARS.

A donation of \$25 constitutes the donor a member for ten years.

FREE BEDS

A donation of \$10,000 entitles the donor, his heirs and assigns, to nominate patients to a free bed for one hundred years, or during the lives of any three persons whom he may nominate.

A donation of \$5,000 entitles the donor to nominate patients to a free bed, for six months in each year, for one hundred years, or during the lives of any three persons whom he may nominate; or to nominate patients to a free bed during his life.

A donation of \$1,000 entitles the donor to nominate patients to a free bed for any three months in each year during his life.

GENERAL HOSPITAL SOCIETY.

THE MARETT FUND.

For the support of free beds for poor patients.
In 1901 the income supported 143 patients for 633½ weeks.

THE JAMES E. ENGLISH FUND.

For the support of free beds for poor patients.
In 1901 the income supported 24 patients for 107 weeks.

THE ELLEN M. GIFFORD FUNDS.

For the support of the Ellen M. Gifford Home for Incurables.
In 1901 48 patients were supported for 1123½ weeks.

FORM OF BEQUEST.

Item.—I give and bequeath to the General Hospital Society of Connecticut, in the City of New Haven, the sum of ——— dollars, to be paid by my executors, out of my real or personal estate, as soon as the settlement of my affairs will permit, to the treasurer of said institution for the time being, in trust, to be applied by the directors thereof to the humane purposes of said institution.

NEW HAVEN HOSPITAL—VIEW FROM SOUTHEAST.

REPORT OF THE DIRECTORS

The Board of Directors has the honor to present herewith to the General Hospital Society of Connecticut its seventy-fifth annual report, as prepared by the Prudential Committee.

NUMBER OF PATIENTS.

January 1st, 1901	121
Admitted	1,323
Whole number treated	1,444
Discharged	1,140
Died	183
Remaining	121
Births (including 5 still)	75
Largest number any one day	149
Smallest number any one day	103
Daily average	127 $\frac{1}{2}$
Daily average of—	
(1) Attendants and others	110 $\frac{8}{10}$
(2) Nurses	47 $\frac{3}{8}$
Cost of food per inmate33 $\frac{8}{10}$
Current receipts	\$57,863.02
Current expenses	72,531.74
Deficit	14,668.72
Ambulance calls	463
Hospital Sunday collections	\$1,999.36

The use made of the Charity Funds during the last year will appear from the following table:

FUNDS.	No. Patients.	Weeks Occupied.	Daily Average.	Paid by Patients.	Drawn from Funds.	Total Cost.
Marett	143	633 $\frac{2}{7}$	12 $\frac{1}{7}$	57.50	\$ 6,912.50	\$ 6,970.00
Gifford	48	1,123 $\frac{2}{7}$	21 $\frac{1}{2}$	820.00	12,663.22	13,483.22
English	24	107	2	50.00	1,177.67	1,220.67
Totals	215	1864 $\frac{1}{2}$	35 $\frac{2}{8}$	927.50	\$20,753.39	\$21,673.89

In the way of comment upon these figures your Committee call special attention to the following facts.

(1) The number of patients treated. They have again to indicate that this surpasses the record of any previous year. They reported a year ago the largest number in the history of the institution. In 1901 that number has been exceeded by 75. The daily average also, was greater than in any previous year, except 1876, when there were resident in the Hospital throughout the year an exceptionally large number of State soldier patients. It is apparent that we have reason to anticipate a continual increase of business.

(2) As to the classification of patients. Again the increase is largely in self-paying patients. Of these the number was 197 greater than in 1900, and 361 greater than in 1899. Of marine patients we had 15 less, of town patients 1 less, of State soldier patients 1 more, of charity patients 2 more, and of Free-bed patients we had 17 less. Of self-paying patients in private rooms we had 13 less, which may be owing to our raising of the rate, as the increase of self-paying patients in the wards was 110. We have to recognize a decrease in our Free-bed service in two years of $187\frac{2}{7}$ weeks, or about 25 per cent.

(3) The marked increase in our receipts. The receipts in 1901 from self-paying patients were \$24,017.65, of which \$7,147.62 came in the last quarter. This is in each case the largest amount ever received in the like period. The amount of the current receipts from all sources, \$57,863.02, was \$4,828.36 in advance of 1900, and \$8,967.68 in advance of 1899.

(4) The increase in current expenses. Certainly everything said hitherto would lead to the expectation of a reduced deficit. On the contrary, your Committee regret to say, current expenses have increased even more than our receipts, and the deficit is greater than it was in 1900 by \$1,953.14. It would seem, then, that the more business we do the greater is the excess of expenditure over income. For this there seems to be no remedy but an increase of rates. Your Committee made diligent endeavor in 1901 to reduce their expenditure. In only one direction did they achieve much success. As already indicated, by methods approved by the Directors they checked the draught upon the Free-bed funds. It was less than the corre-

sponding charge in 1900 by more than 11 per cent, and less than that in 1899 by 25.6 per cent. The net charge in 1901 was just above \$1400. Your Committee succeeded by severe economies in reducing also the daily cost of food per inmate from $34\frac{9}{10}$ to $33\frac{3}{10}$ cents, a small item in appearance, but in the aggregate a considerable one.

Your Committee endeavored, also, to reduce the charge upon the income of the charitable funds, in the only practical way, i. e. by declining applications for aid to which they would be glad to accede. They declined a number of the least urgent, but they have to report that after all the charge was greater than in the year previous by \$1,117.28. This was in part owing to the epidemic of typhoid fever in the Spring, in part to circumstances not wholly within their control.

The number of weeks occupied in 1901 was $6629\frac{2}{7}$ — $417\frac{2}{7}$ more than in 1900. Of these $1,141\frac{1}{7}$ were occupied by town patients— $185\frac{2}{7}$ more than in 1900. These town patients were benefited by the State appropriation to the amount of \$4.31 per week. Of the 1,444 patients under treatment in 1901, 883 were males, 561 females. They came from 86 different towns in this State, and from 13 other states or countries. 836 were residents of New Haven. The weekly cost of their maintenance and treatment to the Hospital was \$10.81 a piece, 33 cents more than the corresponding charge in 1900.

The following table will show the weekly cost of supporting patients since 1892, and also the daily cost of food per inmate.

Year.	Daily average of patients.	Daily average of attendants and others.	Weekly cost.	Daily cost of food per inmate.
1892	112.4	83.3	\$8.46 $\frac{6}{10}$.30
1893	121.9	96.6	8.95 $\frac{1}{3}$.30 $\frac{8}{10}$
1894	113.	96.	9.07	.29 $\frac{5}{10}$
1895	111.8	96.6	8.86	.30 $\frac{3}{10}$
1896	112.	98.7	8.77	.29 $\frac{8}{10}$
1897	118.4	99.	8.95 $\frac{1}{8}$.30 $\frac{7}{10}$
1898	123.5	105.6	9.47	.33 $\frac{3}{10}$
1899	119.7	103.	10.03	.33 $\frac{5}{10}$
1900	119.125	105.6	10.48	.34 $\frac{9}{10}$
1901	127 $\frac{1}{2}$	110.8	10.81	.33 $\frac{3}{10}$

The following table will show the number of patients of each class, the weeks occupied, the amounts received, the actual cost, and the balance which was paid from the resources of the Hospital.

Classification of Patients.	Number of Patients.	Weeks Occupied.	Rate per Week.	Amount Received.	Cost at per week.	Loss.	Profit.
U. S. Marine.....	28	56	\$7	\$ 502.00	\$ 605.36	\$ 103.36	
State Soldier.....	19	107½	6	653.86	1,158.21	504.35	
Towns.....	203	1141¼	5	* 11,398.61	12,340.39	941.78	
Self-paying in wards..	735	2564¾	7	† 14,436.94	27,719.93	13,282.99	
Charity.....	†308	2063¾		927.50	22,305.66	21,378.16	
Free Bed.....	52	416¾			4,506.23	4,506.23	
				\$27,918.91	\$68,635.78	\$40,716.87	
Self-paying in private rooms.....	99	280½	15 to 25	6,580.71	3,028.34		\$3,552.37
	1444	6629¾				\$37,164.50 Drawn from Treasury.	

* Including State appropriation credited to towns.

† Amount actually received—i. e. amount receivable less sums still owed by patients, good and bad debts.

‡ Under this head are classified patients upon the Charity funds, and those upon the General fund, the infants, and cases of sickness among our help.

The following table exhibits the number of weeks occupied by charity and free-bed patients each year for the past ten years, indicating the way our benevolent work has grown.

1892	1893	1894	1895	1896	1897	1898	1899	1900	1901
1472½	2137½	1989¾	2163½	2317	2395¾	2394¾	2755	2582½	2480¾

Recurring to the matter of increased expenditure in 1901, it may be said that a part of it was definitely anticipated, namely, that resulting from the opening of the new Maternity Ward in the beginning of January. As far as can be determined this increase amounts to about \$3,000.00. This is the Superin-

tendent's estimate. The number of cases treated in it was 90, and the service was most satisfactory. This number was not so large as was expected, but considerably larger than in any previous year's experience with the same class of cases, and it is believed that when the great advantages of this institution are better known to the community, many more will avail themselves of the opportunity it affords.

The principal cause of increased expense—aside from this—was the epidemic of typhoid fever last Spring, which was of course wholly unlooked for, and yet laid upon us imperative demands. It proved an expensive task for us to meet them, but in accordance with the traditions of the Hospital, we felt bound in such an emergency to do our utmost for the relief of the public at any cost, trusting that their appreciation of our service would remunerate us in the long run. Some special donations were received at this time, that were very welcome, notably one from our President. During the prevalence of this epidemic, and at one period later in the year nearly every bed in the Hospital was occupied.

It may be claimed that the emergency was fully met. At the outbreak all the patients were removed from the children's ward, to the apartments formerly occupied for obstetrical cases, and wards one and two west were prepared to receive typhoid patients—the one for men, the other for women. Our pavilions also were made ready for the same uses. The cases came in rapidly, and the additional labor which the proper care of them necessitated soon overtasked our working force. A sixth member was temporarily attached to our House-staff. The physicians demanded extra nurses; the Training School could not furnish them, and we had to engage them wherever we could find them, as the demand in the city was very great. We were also obliged to employ extra orderlies and other helpers; and thus our pay-rolls for April and May were increased by \$1,150.96. The extra expenditures for medical and surgical supplies cannot be exactly stated, but the increased charge for these items during the year may give some indication of them. This increase was \$1,220.33. As a matter of course, our house-keeping expenses were increased by the large addition to the number of inmates. But any estimates of the actual cost to

us of this outbreak must be approximate only. It was more, however, than the increase of our deficit.

Under the head of ordinary supplies, coal is the item showing the largest increase in cost during the year. There may be offset to this that at the close of 1901 we had in our bins about 200 tons more than at the close of 1900. But the consumption in 1901 was actually greater than in 1900, even allowing for this difference, by reason of the increase of our plant.

The Clinical Annex, completed early in the year, has proved a very useful addition. Twice a week during the terms of the Medical College it is used for medical clinics. Twice in the twenty-four hours on other week-days, it is used for classes or lectures, in the instruction of nurses.

An effort was made during the Summer by your Committee to secure additional endowment for the Hospital, and some very encouraging pledges were obtained. Undoubtedly the most pressing need of the institution at present is in this direction, and it is to be hoped the effort may not be abandoned.

Late in the year Miss Anna D. Schultze, the Superintendent of Nursing, and Miss Anna S. Williamson, her assistant, felt constrained to resign their positions, and the Executive Committee of the Connecticut Training School have selected to succeed them Miss Emma L. Stowe, and Mrs. Martha J. Smith. The latter is a graduate of the School. The former comes to us with large experience in other Hospitals.

We take pleasure in renewing our acknowledgments of gracious coöperation in our work, of generous gifts in aid of it, and of kind offices in promoting the welfare of those under our care, on the part of various friends and benefactors. Among these we include the clergymen of the city who have conducted religious services in the Chapel; the Christian Endeavor Society of the Calvary Baptist Church, that has sent a quartette to sing in the wards on Sunday afternoons; Miss Rose Porter and the ladies associated with her, who have continued to support a Kindergarten teacher giving daily instruction to the patients in the Children's Ward; the Hospital Aid Society, and the Needlework Guild, who have rendered us most valuable assistance; Mrs. S. E. Barrett and Mrs. H. H. Johnston, of the Board of Lady Visitors, for their self-sacri-

ficing labor in arranging the Christmas tree and entertainment in the Chapel, continued now so many years; and to the kind friend who provided on Aug. 9, as she has done in former years, a steamboat excursion for such inmates of the Hospital as were able to go, and special refreshments for those who could not go, thus making for all an unusually pleasant day. All of these have our hearty thanks, and so has our good friend Gov. Merwin, who never forgets to supply flowering plants for our beds at the south of the Hospital, or to accomplish any other service to the inmates for which he discovers his opportunity.

It is simple justice, also, to renew our acknowledgments of the disinterested, the faithful, the efficient services of the attending and consulting physicians and surgeons. What the institution, its inmates, and the public owe to them can hardly be appreciated apart from the opportunities afforded by our official position to observe and measure them. Nor would we be forgetful of the House-staff, upon whose laborious and self-denying exertions so much depends. From our veteran Superintendent, always found faithful, from the retiring Superintendent of Nursing, and from our efficient Housekeeper, we have had excellent service, from the high standard of which we hope to see in the future no falling away. We believe the Hospital to be in good condition, and worthy of public confidence.

All of which is respectfully submitted.

CHARLES RAY PALMER,	} <i>Prudential</i> <i>Committee.</i>
CHARLES E. GRAVES,	
WM. G. DAGGETT,	

NEW HAVEN, Jan. 30, 1902.

REPORT OF THE MEDICAL BOARD

NEW HAVEN HOSPITAL, Jan. 30, 1902.

To the General Hospital Society of Connecticut :

GENTLEMEN—The following statement of the medical, surgical and gynæcological work of the Hospital, for the year 1901, is hereby respectfully submitted as the report of the Medical Board.

JOHN S. ELY, M.D.,

Secretary of the Medical Board.

DISEASES TREATED DURING 1901.

MEDICAL REPORT.

DIAGNOSIS.	In Hospital Jan. 1, 1901.	Admitted.	Received by Transfer.	Discharged.					In Hospital Dec. 31, 1901.
				Cured.	Improved.	Unimproved.	Not treated.	Died.

SUPERINTENDENT'S REPORT

NEW HAVEN, CONN., Jan. 22, 1902.

To the Prudential Committee of the General Hospital Society of Connecticut :

GENTLEMEN—I herewith submit the seventy-fifth annual report of receipts and disbursements, number of patients treated in the Hospital, their condition at time of discharge, and other items of interest connected with the business of the year 1901.

The number of patients remaining in the Hospital, Dec. 31st, 1900, was 121—64 males and 57 females; admitted during the year 1901, 1323—819 males and 504 females; making a total of 1444 under treatment. Of this number 855 were discharged cured, 205 improved, 47 unimproved, 33 were not treated, 183 died, and 121 remained under treatment December 31st, 1901. There were 70 births—28 males and 42 females; also 5 still births, which were not included in the number of deaths.

The whole number of weeks occupied was $6629\frac{3}{7}$, of which $1141\frac{4}{7}$ were occupied by town patients, receiving the benefit of the State appropriation at the rate of \$4.31 per week.

The average residence of each patient was $4\frac{4}{7}$ weeks. Deducting the patients supported by the Gifford Fund in the Home for Incurables, the average residence of the remainder was $3\frac{2}{10}$ weeks.

The patients admitted came from 86 different town in this State and from 13 other states and countries. 836 were residents of New Haven.

The largest number of patients any one day was 149; the smallest number, 103; the daily average $127\frac{1}{7}$; the attendants and other inmates, not patients, averaged $110\frac{3}{10}$; making a total of 238. Of these $47\frac{2}{8}$ were nurses, with matron and maid of the Nurses' Home.

The Charity funds furnished support and treatment, wholly or in part as follows :

	No. of Patients.	Weeks Occupied.	Daily Average.	Amount received towards support.
Marett Fund	143	633 $\frac{2}{7}$	12 $\frac{1}{6}$	57.50
Gifford "	48	1123 $\frac{2}{7}$	21 $\frac{1}{2}$	820.00
English "	24	107	2	50.00

The ambulance responded to 463 calls during the year.

The current receipts, less amount refunded to patients, were \$57,862.02; the current expenses were \$72,531.74; excess of expenses over receipts, \$14,668.72.

The average cost of supporting each patient in the Hospital was \$10.81 per week; the daily average cost of food for all the inmates of the Hospital was 33 $\frac{3}{10}$ ¢. These items are made up as follows :

Total current expenses	\$72,531.74
Less board of Superintendent's family and super- numerary nurses	843.56
	<hr/>
	\$71,688.18
Number of weeks of hospital care, 6629 $\frac{2}{7}$.	
Cost per week per patient	\$10.81
Total cost of food	\$29,409.41
Average daily number of inmates, 238.	
Cost of food per inmate per day	33 $\frac{3}{10}$ ¢

The accompanying balance sheet gives detailed statement of my receipts and expenditures for the year.

Yours respectfully,

JOHN H. STARKWEATHER,

Superintendent.

THE SUPERINTENDENT IN ACCOUNT WITH GENERAL HOSPITAL SOCIETY.

APPENDIX

FUNDS OF THE SOCIETY

The only funds belonging to the Society the income of which is unrestricted, are (1) the General Fund, which includes the following :

1874, Irene Larned Fund.....	\$ 5,000.00
1878, Nelson A. Hotchkiss Fund.....	5,000.00
1885, Mary A. Miller Fund.....	1,000.00
1890, Henry J. Prudden Fund.....	1,720.00
1894, Andrew L. Kidston.....	5,000.00
1898, Chas. S. and Julia H. Leavenworth.....	2,000.00
1900, Frank W. Benedict.....	1,000.00
1901, Circular Letter of July 1.....	21,598.00

and (2) the Annie R. Winchester Dye Fund, \$15,000.00.

The Marett, Gifford, and English Funds are Charity funds, and the income can only be used for the support of poor patients. There seems to be a general impression that these funds have made the Hospital rich, and that it does not need more money. This impression is an erroneous one. The funds mentioned are a very great help to the institution in carrying on its strictly charitable work, but there still remains each year the same failure of receipts to meet expenses, due to the fact that so-called self-paying, town, and State patients do not pay the cost of their support.

With regard to the Free Beds, it must be borne in mind that the income from the endowment of each bed is not sufficient to support a patient continuously throughout the year.

SECURITIES HELD BY THE TREASURER.

REPORT OF THE BOARD OF VISITORS

To the Directors of the General Hospital Society of Connecticut:

GENTLEMEN:—The Board of Visitors of the General Hospital Society of Connecticut begs leave to submit the following report of its observations and work for the year ending January, 1902.

The several members of the Board assigned to visit the Hospital have performed their respective tasks, and are pleased to express their approbation of the general management of the Hospital in its varied departments.

We regret that lack of funds renders it impossible to make some needed improvements in bath rooms and other parts of the Hospital.

The patients have made less complaint than in former years.

The Training School for Nurses, under the present charge, is developing a standard of excellence with which we are much gratified.

The Department of Housekeeping is well ordered and generally satisfactory.

The past good order and uniform courtesies among attendants have been sustained during the past year.

Respectfully submitted,

MAX ADLER, *Chairman*,
A. B. HILL,
W. A. BEARDSLEY,
C. O. SCOVILLE,
B. E. LYNCH,
G. F. PRENTISS, *Secretary*.

THE REPORT OF THE BOARD OF LADY VISITORS

To the Directors of the General Hospital Society of Connecticut:

GENTLEMEN:—In presenting their annual report, the Board of Lady Visitors take pleasure in attesting to the continued good reports given at their monthly meetings during the year. Frequent mention having been made of the unsatisfactory condition of the children's clothing, some of the members of this Board have arranged to buy and make up a sanitary outfit, to be worn by the children during the period of their stay in the Hospital—such wardrobe to be the property of the institution.

Respectfully submitted,

ELIZABETH PUNDERFORD, *Chairman.*
CORNELIA P. BULFORD, *Secretary.*

CONNECTICUT

TRAINING SCHOOL FOR NURSES

The Training School for Nurses has been established for twenty-seven years. At first the number of pupils was limited to six; within two years it was increased to eleven, then to fourteen, and these not being sufficient to meet the many demands for special and continuous attention which critical cases required, the Prudential Committee raised the number to seventeen in 1880, to nineteen in 1882, and to twenty-three in 1883. In 1884 the number was made to depend upon the number of patients in the Hospital, and averaged during the past year with the head nurse and assistant $47\frac{2}{3}$. The pupils remain in the school for two years and eight months, pursuing their studies and daily routine of work under the charge of the Superintendent of Nursing. Each nurse is assigned to one ward or department for several weeks, and in the course of a year has studied surgical, medical and obstetrical nursing, and also the preparation of special dishes suitable for invalids and convalescents. Symptom records are kept, to enable the physician to ascertain the varied phases of disease, since he last saw his patient.

The pupils are expected to take such cases of private practice and missionary work as may be assigned to them during eight months of their last year in the school. Their home is in the Hospital, when their services are not called for elsewhere, and the school pays the board of all the nurses there in excess of the number allowed.

The Hospital authorities appreciate most highly the advantages of having this school established here. Those who enter it either have a special gift for nursing, or with a true spirit of self-sacrifice have devoted themselves to the noble work of ministering to others; consequently the duties of the department are performed more faithfully and more skillfully than

in former years, when it was thought that strength was the only requisite in a nurse.

Those wishing to receive this course of instruction must apply to the Superintendent of the School, when, if approved by the executive committee, they will be accepted as pupils in the Hospital. The candidates must be over twenty-three and under thirty-five years of age, and present a certificate from a clergyman and physician as to their good moral character and sound health. They will be received for one month on probation and without compensation.

Information concerning the school will be furnished by the President or other members of the executive committee.

Pupils are received from any State.

Physicians or others, in any part of the State, desiring to secure the services of trained nurses for men or women, medical or surgical patients, should apply by telegraph, telephone or letter, stating the nature of the case, to the Superintendent of Nursing, New Haven Hospital.

The price per week for services of a trained nurse is \$15.00,* unless two members of the family are ill at the same time, when there will be a slight additional charge. It cannot be too strongly impressed upon the public that it is more economical and safer for the patient to employ a reliable nurse, than to indulge in a natural but misplaced sentiment which sacrifices the strength of an entire family in the care of one invalid member.

* An extra charge is made for nursing contagious diseases.
