NEW HAVEN CONNECTICUT

# The General Hospital Society of Connecticut

¶ The General Hospital Society of Connecticut, which was chartered by a group of civic leaders in New Haven on May 26, 1826, owns and operates the New Haven Hospital. It is probably the fifth oldest general hospital society in the United States.

Created by and for the community, the Hospital, a voluntary institution, has served the sick and injured for more than a century. Coincidental with the growth of the city the Hospital has expanded from a capacity of 75 beds to 590 beds. It provides hospital care for the men, women, and children of the community without regard to race, religion, or ability to pay.

As a general hospital, affiliated with the Schools of Medicine and Nursing of Yale University, it is equipped to provide the patient with skilled and modern treatment for acute diseases, including contagious, tuberculous, nervous, and mental diseases.

The New Haven Dispensary, chartered in 1872, is affiliated with the New Haven Hospital. Its 35 clinics are located in the Hospital and are organized for the diagnosis and treatment of the sick and needy not requiring bed care.

## REPORT OF THE BOARD OF DIRECTORS AND THE EXECUTIVE STAFF

UNPRECEDENTED shortages of personnel and materials made this last year of wartime operations at the New Haven Hospital extremely difficult. The fiscal year ended June 30, 1945, demanded of the professional staffs, employees, and volunteer workers in the Hospital organization the utmost in coöperation, resourcefulness, personal sacrifice and, upon many occasions, sheer endurance. Traditional standards and practices were again altered to meet the imperative needs of the military and to maintain essential civilian service.

To meet the military demands the Hospital continued its co-operation with the Schools of Yale University in the accelerated training of professional personnel; the U.S. Cadet Nurse Corps was augmented; post-graduate nursing courses were instituted; an approved course for much needed X-Ray Technicians was developed; the William Wirt Winchester Hospital continued to serve the Army Air Forces for one-half the year and the Military Honor Roll of our organization increased steadily.

### *Civilian Patient Service*

Following the earlier and more severe experience of many other hospitals in an effort to maintain an acceptable standard of nursing care in the face of a steadily decreasing personnel, one nursing unit of 28 patients' beds was closed in November, 1944, and remained closed for the balance of the year. This reduction in bed complement resulted, as indicated in the accompanying statistics, in a decrease in the volume of in-patient service, nearly all of which occurred in the Ward Service. The community effect was partially alleviated by a reduction in the length of patients' stay and by an increased load on the remaining nursing units.

However, our waiting list, which existed for several years, began in the Spring of 1945 to run continuously over 200. This necessitated the establishment of a priority system of admissions. This system insured at all times immediate admission of all real emergency cases and provided machinery for checking such emergency classifications. In addition, it arranged for those

patients suffering with serious diseases the opportunity of priority admission. All other patients, primarily requiring elective procedures, were admitted in the chronological order of their registration. Many other hospitals utilized this model for their admission program.

Several officials of the Hospital took active leadership in a consolidation, during the second quarter of the year, of the two voluntary hospital insurance plans. The resulting state-wide Connecticut Hospital Service, Inc., created a new comprehensive contract to include almost all hospital service with corresponding benefit to the individual patients and the community as a whole.

The number of Dispensary visits increased by 1,983 or 2 per cent over the previous year, thus continuing to reflect the larger need for this service caused by the influx of workers to the community, the drafting of fathers into military service and the shortage of physicians.

### *Personnel*

Under the intensive pressure of military requests, nearly culminating in the drafting of nurses, and out-of-reach wartime industrial wages, our working force decreased by 48 during the year and reached the lowest point in over a decade.

Particularly hard hit from the personnel standpoint was the Hospital's Nursing Service. During the year the number of graduate nurses steadily decreased as the demands of the armed services became greater, and suitable auxiliary personnel was virtually unobtainable. The resulting pressure of work on the remaining graduate nurses was terrific, as was the burden placed on the student nurses of the Yale School of Nursing. Words cannot suitably express to both groups our appreciation for their devotion to duty and steadfastness under the trying circumstances which prevailed.

Harassed by the limiting restrictions of an increasing proportion of part-time workers and by the increased rate of absences and high turnover of a larger group of floating workers, the Hospital has been fortunate to have the stabilizing influence of a well-organized Personnel Department and a sizeable proportion of long-time employees. Augmented by a Training Coördinator this department has emphasized the induction and training of new workers as well as the improvement of the working condi-

tions and morale of the overburdened constant nucleus of the working force.

Over 41 per cent of the employees have been in the organization for three years or more and 26 per cent for over five years. On June 30th a public ceremony was held honoring the latter group of 168 employees. Eight of the group were specially honored with jeweled service pins and war bonds in recognition of their more than 25 years of faithful service.

Plans were approved to institute at the beginning of the new fiscal year raises in basic salaries to approximate the increased cost of living, the extension of premiums for evening and night service and the further elimination of split-shifts in working hours. However, we must look forward to a continuance for some time to come of the period of labor shortage.

### *Volunteer Services*

Again this year our volunteers have turned in an enviable record of service to the Hospital. A total of 1,323 persons in the Volunteer Services and the Red Cross contributed 76,270 hours to the Hospital. Of this total 60,164 hours were contributed by the women, including 11,091 by the Junior Division, and 23,433 by the Red Cross. Our Men's Volunteer group, including Yale Aides, contributed 16,106 hours.

The month of April, 1945, was a banner one for the Women's Volunteer Service with 6,469 hours of work contributed, an all-time high. During the year the Junior Division expanded the scope of its activities with signal success, and the Men's Volunteer Service continued efficiently to partially replace unavailable personnel in essential capacities.

We, of the Hospital, and those whom our Hospital serves are grateful to our volunteers for their unselfish contribution of time for the benefit of others. They have our sincere admiration for their high sense of community responsibility.

### *Finances*

Due to an increase in rates during the preceding year and despite decreased volume the net income of the Hospital increased \$145,004.08 or 11 per cent over the preceding fiscal year. By reason of increased wage scales and increased price of materials, the expenses for the year increased \$52,255.35 or 4 per

cent. The deficit for the Hospital amounted to \$50,500.19, a decrease of 64 per cent and the lowest since the fiscal year 1935-1936.

Likewise reflecting an increase in Dispensary fees on December 15, 1944, and a reduction in the free work necessary because of the improved economic position of the workers in the community, the net income of the Dispensary increased 9 per cent or \$7,657.08. Since the expenses decreased 4 per cent, the resulting deficit for the Dispensary was \$38,390.75, which was 31 per cent below a year ago and the lowest since the fiscal year 1931-1932.

Although there was available \$100,000 appropriated by Yale University under our contractual guarantee, it was only necessary to request \$77,884.69 for the combined deficits, for which contribution we record our sincere appreciation. We are indebted also to the Community Chest, the State of Connecticut, The City of New Haven, and the Kiwanis Club for their appropriations. We are grateful, likewise, to the many donors who, by gifts of books, periodicals and flowers, have brought cheer to our patients.

Evidence of the community's continued appreciation of the Hospital is again reported with pleasure and with thanks for the \$38,838.80 of gifts to endowment principal received during the year.

Primarily as the result of the rent received from the U.S. Government for the use of the William Wirt Winchester Hospital plant, \$75,786.40 was added to the principal of these funds.

Diminished by gifts and the redemption of \$19,000 par value of these bonds, the First Mortgage 5 per cent Bonds were reduced on October 1, 1944, by \$90,400 and the balance was refunded at 4 per cent until October 1, 1954.

### *Consolidation with Grace Hospital*

Following the recommendation of the Committee on Expansion, one of the several study committees of the Board, that a new pavilion be constructed providing 300 additional private beds, conferences with Grace Hospital's Board which desired to replace and enlarge its older buildings, culminated on July 16, 1945, in a consolidation of the two hospital societies into the Grace-New Haven Community Hospital.

As its name indicates, it will preserve the special qualities developed by each of the old and respected hospitals from which it springs. United, the hospital can grow to greater strength than as a separate institution. Thus greater and better health service will be available for the whole New Haven area.

### *Conclusion*

This will be the last report of the General Hospital Society of Connecticut which has served this community for nearly 120 years.

We express our sincere thanks to every member of the Hospital organization; to the many Volunteers for their untiring efforts and effective service; and to the community for its continued interest through the years.

As we approach the troublesome problems of financial, scientific, and social developments of the post-war period, we earnestly solicit the help and understanding support from the people of the community that we may go forward to greater service through the new Grace-New Haven Community Hospital.

Julius G. Day	Dr. Margaret B. Weir
	Mrs. Louise F. Wilson

\*Previous to the amendment of the constitution of The General Hospital Society in 1919, persons contributing at any one time \$1,000 became vice-presidents for life; contributors of \$500, life directors; contributors of \$50, life members; and contributors of \$25, members for ten years. The Act of March 20, 1919, omitted the class of life directors and provided that contributors of \$500 should be life members; of \$25, annual members. Those enumerated in the list as life directors are, therefore, those who qualified before the amendment of 1919.

*To the Board of Directors,  
The General Hospital Society of Connecticut,  
New Haven, Connecticut.*

*We have made an examination of the balance sheet of*

THE GENERAL HOSPITAL SOCIETY  
OF CONNECTICUT

(comprising the New Haven Hospital and the  
William Wirt Winchester Memorial Hospital)

*as of June 30, 1945 and of the related statements of operating surplus and income and expense for the year then ended. In connection therewith, we examined or tested accounting records of the Society and other supporting evidence and obtained information and explanations from officers and employees of the Society; we also made a general review of the income and expense accounts for the year, but we did not make a detailed audit of the transactions.*

*At the request of your Treasurer, The Union & New Haven Trust Company, we did not apply the auditing procedure of confirming the accounts receivable by communication with the debtors and, owing to the amount of time which would be involved, we did not make a detailed review of the patients' accounts receivable. The allowance of \$179,095.12 appears to be sufficient to cover eventual losses on collection of the amount of \$381,572.53 shown on the balance sheet as due from patients at June 30, 1945.*

*The stocks and bonds, real estate mortgages and real estate shown on the books at June 30, 1945 were in agreement with those shown on a certified list submitted to us by the Custodian, The Union & New Haven Trust Company. At June 30, 1945 the approximate amount of the stocks and bonds based on market quotations was \$4,468,000.00 compared with a total book amount of \$4,005,353.35.*

*Our examination of the recorded changes in the accounts for the funds' investments and principal was limited to a comparison of the transactions shown on the books with reports of such changes prepared by the Treasurer, The Union & New Haven Trust Company, and submitted to your Board for approval.*

*It was impracticable for us to obtain direct confirmation and verification of legacies and gifts received during the year ended June 30, 1945. We have not undertaken to ascertain that provisions affecting funds and gifts have been observed.*

*In our opinion, based upon such examination and subject to the foregoing comments and also to the explanations shown in footnotes to the statements, the accompanying balance sheet and related statements of operating surplus and income and expense fairly present the position of the Society at June 30, 1945, and the results of its operations for the year then ended.*

LYBRAND, ROSS BROS. & MONTGOMERY  
*Certified Public Accountants*

New York, September 6, 1945.

## THE GENERAL HOSPITAL SOCIETY OF CONNECTICUT

### BALANCE SHEET, JUNE 30, 1945

Cash (Note 2)		\$	150,795.10
Accounts receivable, patients	\$ 381,572.53		
Less, Allowance for uncollectible accounts	179,095.12		202,477.41
Miscellaneous accounts receivable			36,488.84
Contribution receivable			2,884.89
Inventories of supplies, at cost			122,192.98
Deferred charges:			
Unexpired insurance, etc.	3,292.50		
Equipment	1,814.42		5,106.92
			\$ 519,946.14

**NOTES:**

1. The assets and funds of the New Haven Dispensary, which amounted to approximately \$80,000, are not included in the above balance sheet.
2. In accordance with the adopted policy of the Society, general fund cash and accounts payable have been reduced as of June 30, 1945 by approximately \$67,000, representing disbursements after that date for accrued expenses and commitments included in the accounts before closing at June 30, 1945.

## BALANCE SHEET

### ASSETS (continued)

Funds assets:

Investments at cost or amount assigned by Treasurer at date of receipt:

Stocks and bonds (approximate amount at market quotations, \$4,468,000)

\$4,005,353.35

Real estate mortgages

74,729.02

Real estate acquired from former mortgagor

73,406.97 \$4,153,489.34

Uninvested principal cash

13,478.28

Current account receivable from general fund

77,301.75 \$4,244,269.37

Plant funds assets at book amounts (Note 3):

New Haven Hospital:

Land and buildings

1,275,124.58

Equipment

286,820.27

Radium

11,104.60

New building project (land purchased, etc.)

239,026.57

Proposed extension of private pavilion (architect's fees)

5,550.29
