*To the Executive Committee of the Board of Directors of the General  
Hospital Society of Connecticut:*

*Gentlemen:*

I have the honor to submit to you herewith a report of the activities of the General Hospital Society of Connecticut for the year ending June 30, 1936, embracing the usual financial and statistical data customarily presented in the Annual Report of the Society.

Respectfully yours,

ALBERT W. BUCK

*Superintendent*

*To the Directors of the General Hospital Society of Connecticut:*

IT is our custom, as you know, to carry our accounts in three units under the following heads:

NEW HAVEN HOSPITAL  
WILLIAM WIRT WINCHESTER MEMORIAL HOSPITAL  
NEW HAVEN DISPENSARY

The Winchester Hospital is owned entirely by the New Haven Hospital but has its separate endowment funds. The New Haven Dispensary is affiliated with the New Haven Hospital under an agreement which provides that the Hospital is responsible for deficits incurred in the operation of the Dispensary.

The auditors' statement shows that the New Haven Hospital operated at a loss of \$21,043.33 as compared with a deficit for the year ending June 30, 1935, of \$15,788.63, an increase in operating loss of \$5,254.70. The Dispensary operated at a loss of \$42,458.11 compared with a loss of \$37,098.81 for 1935, an increase of \$5,359.30. The total loss falling on the New Haven Hospital for the year 1936 was \$63,501.44, leaving a deficit over the University's guarantee of \$50,000, of \$13,501.44, to be met from capital funds of the Hospital. The Winchester Hospital showed a loss of \$24,953.80 compared with \$18,754.12 for 1935, an increase of \$6,199.68, which loss has been met from Winchester capital funds.

The Superintendent's report emphasizes an extraordinarily active year in the various departments and sections of the Hospital. The percentage of occupancy in the main Hospital, including the private and semiprivate patients was 71.3%. This compares with the highest percentage for a single month of 69.3% maintained in a group of 296 hospitals. The surgical wards naturally held the high record, and the proper handling of this type of patient is one of our major problems. The Superintendent emphasizes again his difficulties in dealing with the State and with neighboring cities which should be entitled to use our facilities and yet are unwilling to pay a reasonable share of the cost.

The treatment of State patients cost the Hospital \$32,553.44 over the appropriation from the State of \$20,000.00 and pay-

ments made by the State for care of patients at a rate of \$4.00 per week. The continuation of this heavy financial load is unfair, and we are hopeful that by coöperation with the State Medical Society and State Hospital Association we may present the situation to the proper officials of the State in a way that will eventually bring us fair and reasonable payment for the service rendered.

The Dispensary, with its record loss of \$42,458.11, is a continuing worry to the Superintendent and to all of us.

At the William Wirt Winchester Memorial Hospital, the census greatly increased until in March we had a waiting list of 10 patients. After careful consideration, the Executive Committee authorized the opening of the D I ward which had been closed since January 1, 1933. The new space has been occupied to fair capacity during the balance of the year. However, the increase in the number of beds proved to be a still further drain on our principal funds, and the time is approaching when a decision must be made by the Board of Directors as to how the Winchester endowment for the care of tubercular patients may be administered without impairing the principal of the fund. We have endeavored to interest the Connecticut State Tuberculosis Commission, with the hope of obtaining funds through them, but it does not seem advisable to the Commission to divide in any way the responsibility for care and treatment of State cases. Dr. Soper still continues to give the best of supervision to the institution and sets a high standard in the treatment of tuberculosis.

The most cheerful activity of the Hospital is the day camp for tubercular children operated on the grounds of the William Wirt Winchester Memorial Hospital, known as Camp Happyland. During the period from July 1, 1935, to September 14, 1935, 105 children were at the camp, and the success of their stay is perhaps best emphasized by an average gain in weight of  $4\frac{3}{4}$  pounds. Miss Cooper, who assumed charge of the camp for the first time, with a very interested and efficient group of counselors, did a fine job. The interest and coöperation of the Ladies Committee working through the Camp Happyland organization were, as usual, a great help to this worthy project; and the thanks of the Hospital is due for the assistance received from the City of New Haven, which made a contribution of \$1,500 for the salaries of the counselors; to the Christmas Seal Fund of West Haven;

to the Employees Tuberculosis Relief Association, each of which donated \$200, and to the Kiwanis Club for their generous contribution of \$750.

The temporary loss of our Chief Surgeon, Dr. Harvey, through illness is a great blow to the institution and has resulted, naturally, in difficulties of organization in his department which are, however, on the way to satisfactory adjustment.

The funds of the New Haven Hospital have been increased during the year by legacies and subscriptions amounting to \$134,065.54.

It is obvious to your Committee that the cost of operating a modern hospital must increase from year to year to insure the best and most up-to-date treatment for the patient, which means that every effort must be made to obtain further endowment funds.

The thanks of the Directors should go, as usual, to the Superintendent of the Hospital and his loyal staff. While we hope that the ensuing year will be less strenuous, the Superintendent and his staff will always be under pressure, due to the fact that they are continually in contact with suffering and distress and that they are never free from emergencies which must be met quietly and promptly.

We are, too, deeply grateful to the many volunteers who participate in the work of our large institution: the Visiting Clergymen, the Ladies Committee, the workers in the Department of Medical Social Service, and finally, to the doctors, nurses, and social workers who are directly in charge of our patients.

†Previous to the amendment of the constitution of The General Hospital Society in 1919, persons contributing at any one time \$1,000 became vice-presidents for life; contributors of \$500, life directors; contributors of \$50, life members; and contributors of \$25, members for ten years. The Act of March 20, 1919, omitted the class of life directors and provided that contributors of \$500 should be life members; of \$25, annual members. Those enumerated in the list as life directors are, therefore, those who qualified before the amendment of 1919.

*We have made an examination of the balance sheet of*

## THE GENERAL HOSPITAL SOCIETY OF CONNECTICUT

*as at June 30, 1936, and of the summary of expenses and income for the year ended June 30, 1936. In connection therewith, we examined or tested accounting records of the Society and other supporting evidence, and obtained information and explanations from officers and employees of the Society; we also made a general review of the operating and income accounts for the year, but we did not make a detailed audit of the transactions.*

*The securities shown on the books were in agreement with those shown on certified lists submitted to us by The Union & New Haven Trust Company as custodian. The funds investments consisting of stocks, bonds, etc. are shown on the balance sheet at cost or at amounts assigned by the Treasurer at date of receipt. The aggregate amount of \$3,708,462.79 shown on the balance sheet for stocks and bonds was less than the approximate amount based on June 30, 1936, market quotations.*

*The plant assets are shown at book amounts, which, except in the case of the Winchester Hospital laundry, are before providing for depreciation. No amount is included for certain buildings constructed by Yale University and occupied by New Haven Hospital.*

*It was impracticable for us to obtain direct confirmation and verification of contributions shown by the records as having been received for capital and current funds during the year ended June 30, 1936.*

*In our opinion, based upon such examination, the accompanying balance sheet and related summary of expenses and income fairly present the position of the Society at June 30, 1936, and the results of its operations for the year.*
