SUMMARY OF SERVICES

1939-1940

	<i>Total Cost</i>	<i>Paid by Patients</i>	<i>Free Service</i>
New Haven Hospital			
Number of patients treated (including emergency treatments)	20,229		
Number admitted to Hospital	11,186		
Hospital days of care given*	154,009*	\$740,235.00	\$309,852.22
	\$1,050,087.22		
William Wirt Winchester Memorial Hospital			
Number of patients admitted	214		
Hospital days of care given	19,313		
Camp Happyland			
Children admitted	106		
Number of days	5,246	67,513.74	109,942.33
	177,456.07		
New Haven Dispensary			
Number of treatments	118,406	22,366.97	91,095.65
	\$1,341,005.91	\$830,115.71	\$510,890.20

*Includes 10,471 patient days in Psychiatric Clinic, for which cost of operation is omitted.

REPORT OF THE EXECUTIVE COMMITTEE

To the Directors of the General Hospital Society of Connecticut:

We report with sorrow the death during the last year of the following members of the Hospital staff:

- Dr. Willis Ellis Hartshorn, Attending Surgeon—August 4, 1939.
(1916-1939)
- Dr. Donald Wallace Porter, Attending Pediatrician—September 8, 1939. (1916-1938)
- Dr. Harvey Cushing, Consulting Neurologist—October 7, 1939.
(1933-1939)
- Dr. Willard Burr Soper, Medical Director, William Wirt Winchester Hospital and Associate Physician, New Haven Hospital—October 30, 1939. (1927-1939)
- Dr. Henry Lawrence Swain, Consulting Laryngologist—January 11, 1940. (1894-1940)
- Dr. Raynham Townshend, Assistant Attending Surgeon—January 31, 1940. (1909-1940)
-

IN submitting their report for the year ending June 30, 1940, the Executive Committee follows its regular procedure in bringing to your attention the major problems of the year, leaving to the Director the responsibility for the more detailed report on the many activities of our continuously growing institution.

The patient days have increased from a total of 142,795 in 1938-39 to 154,009, an increase of 11,214. The visits to the Dispensary have decreased from 119,106 in 1938-39 to 118,406, a decrease of 700. Financially, the auditors' statement shows that the New Haven Hospital operated at a loss of \$60,781.66, compared with a loss for the year ending June 30, 1939, of \$73,373.43, a decrease in operating loss of \$12,591.77. The Dispensary incurred a loss of \$46,127.85 as compared with a loss of \$40,214.79 for 1939, an increase of \$5,913.06. The total loss falling on the New Haven Hospital for the year 1939-40 was \$106,909.51, a decrease of \$6,678.71 over the year ending June 30, 1939. The deficit was reduced by a contribution of \$100,000.00 from Yale University. The Winchester Hospital showed a loss of \$13,288.91 compared with \$18,350.71 for the previous year, a decrease of

\$5,061.80. This loss was charged against principal of the William Wirt Winchester Fund.

For several years we have called the attention of the Board of Directors to the continuing operating loss of the William Wirt Winchester Hospital and the lack of demand due to the increased beds provided by the state sanatoria for tuberculosis. After Dr. Soper's death on October 30, 1939, the problem became an acute one, and after serious study the Executive Committee recommended at a special meeting of the Board of Directors held on June 24, 1940, that the William Wirt Winchester Hospital be closed on August 1, 1940, and that a special committee be appointed to present a program for the use of the income from the special endowment. The Directors gave their approval.

It is the Committee's problem to find projects that qualify under the terms of Mrs. Winchester's gifts which can be conducted without further impairment of the principal of her Funds, and we hope to have the Committee's report in the near future for your consideration.

Camp Happyland, under the leadership of Mrs. Austill, provided one hundred and six children with a happy and healthful summer. The Camp was operated at a per capita cost of \$1.37, or a total cost of \$7,168.62. Contributions toward the meeting of this cost were gratefully received from: Kiwanis Club, City of New Haven, Employees Tuberculosis Relief Association, and the Christmas Seal Fund of West Haven, with the result that it was necessary to charge only \$4,368.62 to the William Wirt Winchester Funds. We are indebted to President Seeley and her associates in the Camp Happyland Association for its continuing interest in our summer Camp.

The high census and the annual deficits make it evident that we need more hospital beds and more endowment. A study of the existing plans for plant expansion, with which you are familiar, should be made under proper architectural supervision, and it is our hope to make definite recommendations during the next Hospital year. We feel that a campaign for funds must be made for new building as well as for endowment and that an active campaign should be conducted within the next two years.

We take pleasure in reporting gifts to principal during the year in the sum of \$38,061.30; miscellaneous gifts to income during the year amount to \$3,923.24. We are indebted to the Community Chest, the State of Connecticut, and the City of New

Haven for their appropriations of \$35,000, \$20,000, and \$5,000 respectively.

Our thanks as usual go to Dr. Blake and the Medical Board for the treatment of patients, to Miss Grant and the nursing staff, to Miss Rice of the Medical Social Service, to the large group of employees directed by Miss Dana, and to Mr. Hamilton's administrative staff.

Gratitude is also due to the many volunteers who have worked under the leadership of Mrs. Stewart Jones, to the members of the Children's Recreation Committee for their work with children in the wards and Dispensary; to the Board of Lady Visitors for the holiday gifts to patients and personnel and for the decoration of the Hospital at Christmas time; and to the Committee of Visiting Clergymen.

We are grateful too to the many donors who by gifts of books, periodicals, and flowers have brought cheer to our patients.

D. SPENCER BERGER

Executive Committee

Laboratory tests totaled 30,546 in number during the year. They were made in laboratories like this, located in many parts of the Hospital.

Below: In an effort to meet the demand for Hospital care, many private rooms have been converted to semi-private use.

Report of the Director

To the Directors of the General Hospital Society of Connecticut:

A YEAR ago this annual report portrayed a period of retrenchment and stocktaking. This report, my second as the Director, reflects the first full year of new policies. The inclusive rate has made possible improved medical care. The patients and the doctors are happy with its benefits and any suggestion of discontinuance brings forth a volume of protest. The physicians using our facilities have formed themselves into committees of study from which have sprung many suggestions effecting better service, including the establishment of a Blood Bank. The augmented nursing staff with less turnover than before has secured an intensive nursing service of a quality which materially reduced requests for special nursing service. Weak spots in our operating organization have been bolstered, especially at the points of public contact, with increased satisfaction from those who use our service. Our public relations program has developed a monthly magazine which not only has disseminated information of public health, but also has brought the members of the community into closer contact with our activities. The National Hospital Day program received national award as the second best program among hospitals in the United States and Canada. Aided by the appointment of a part-time Secretary of Volunteer Service, this corps of workers from the community has grown significantly in size and has become a more effective force in our operation. The Nosocomium Club, a voluntary organization of our employees, has promoted a multiple program of recreational and educational activities, through which the workers learn to respect each other as individuals and develop a high standard of morale with ensuing increased cooperation. Exit interviewing of all employees, as well as a continuous review of the rate and causes of labor turnover, has brought to attention factors for correction with wholesome results. The new accounting system has yielded a clearer conception with greater control and a fund of information which has nearly reached the stage where its utilization should produce greater operating economy. Important changes in the methods of the collection of patients' accounts should reduce substantial losses during the coming year.

The accompanying statistics in the many pages of this report display that this hospital has been of increased service to the community. Over 1,400 more patients were admitted. There was an increase of 8 per cent in days of service, as well as a reduction in the average length of stay. Wholesomely, the largest increases continue to be in other than ward cases; namely, 8 per cent in private and 36 per cent in semi-private cases. The extreme pressure occurring during the year can be ascertained by the extent of the peak loads, the substantial expansion in departmental services, the necessity of reopening rarely used ward units, and the high percentages of occupancy. Likewise all professional services were increased. It is significant to note the continuance of the steady growth in cases of Chest Surgery and Neurosurgery.

It was natural to have a decrease of patient visits in the New Haven Dispensary in view of better general business conditions. There was a slight increase in the volume of service at the William Wirt Winchester Hospital. However, for many years it has been disturbing that this institution for the care of tuberculosis has been utilized to less than half of its capacity. Faced with a building expansion program for tuberculosis care by the State government, an exhaustive survey of the needs within Connecticut and the surrounding states, as well as a careful search for possible further methods of economy of operation, was conducted. It was clear that there was no longer any need for such an institution, that the principal funds would be exhausted by increasing deficits and that the funds could be used more effectively otherwise for the benefit of the community in accordance with the intent of the donor in the field of tuberculosis. Consequently, this hospital unit is scheduled to close during the summer of 1940.

The free work of the Society continues to grow. Yet it is pleasant to report a significant shrinkage in the yearly deficit. Commensurate with an increase in the volume of and improvement in service there was an increase of 9 per cent in expense which was more than offset by an increase of 11 per cent in income, primarily from patients. Not counting an adjustment for inventory of drugs, which improves further the financial picture, the combined deficit of the Hospital and the Dispensary was \$106,909.51. This deficit is the lowest since the fiscal year 1936-37. It is encouraging in comparison with \$134,900.94 in 1937-38 and \$113,588.23 in 1938-39. This result is obtained even though extensive repairs have been made to the sterilizing equip-

ment and substantial building improvements have been realized in the Isolation Pavilion. It is to be expected that buildings and equipment previously free from the burden of repair, due to recent construction, must now create an ever-increasing expense which cannot be avoided.

As we approach the next fiscal year it is apparent that the demand for service will continue to increase in both private and ward services. The facilities to render this service will not be adequate within the community. Earnest study must be made of ways and means to provide additional facilities in the near future, if this hospital is to continue to fulfill its obligation to the community. The approaching defense emergency forbodes troublesome times of labor turnover during lengthy periods of increasing pressure. Therefore, it is with especial significance that I express, upon behalf of the executive staff, our sincere thanks to our loyal group of workers, to the particularly coöperative professional staff, and to the members of the Executive Committee who have worked so earnestly and harmoniously with us.

For the Executive Staff,

JAMES A. HAMILTON

Director

During the year 4,938 operations were performed at New Haven Hospital.

Below: Ambulance trips during the year totaled 1,283.

X-ray examinations during the year for diagnostic purposes numbered 15,837. In addition to these, 3,605 deep-therapy treatments were given.

In the last four years great advances have been made in the treatment of infectious diseases through chemotherapy. From 1921 to 1931 the mortality rate on 606 cases of pneumonia averaged 30.5 percent. Last year sulfathiazoll was used with a resulting mortality rate of 4.0 percent.

ANNUAL NURSING HOURS

EACH SYMBOL REPRESENTS 50,000 NURSING HOURS

Thus, year by year, grow nursing hours. This growth represents increase in the number of patients cared for and a shorter period of hospitalization. It is indicative of the increase of the acutely ill patients and of the advance in medical science which is requiring more and more of the nurses' time.

Miss Maria Trumbull Dana	Mrs. R. Townshend
Mr. and Mrs. George Parmly Day	Roger W. Tuttle
Julius G. Day	Prof. Percy T. Walden
George F. Eaton	Dr. Margaret B. Weir
Dr. and Mrs. Joseph M. Flint	Mrs. Louise F. Wilson

*Previous to the amendment of the constitution of The General Hospital Society in 1919, persons contributing at any one time \$1,000 became vice-presidents for life; contributors of \$500, life directors; contributors of \$50, life members; and contributors of \$25, members for ten years. The Act of March 20, 1919, omitted the class of life directors and provided that contributors of \$500 should be life members; of \$25, annual members. Those enumerated in the list as life directors are, therefore, those who qualified before the amendment of 1919.

BOARD OF LADY VISITORS

Mrs. Lewis H. Bronson, *Secretary*

Mrs. John C. Adams	Mrs. Charles B. Doolittle	Mrs. Edward Man
Mrs. Frederick M. Adler	Mrs. John F. Fulton	Mrs. William C. Moran

---------------	--	---------------

The New Haven Dispensary gives care to patients whose incomes will not permit them to pay usual fees in doctors' offices.

*The Union & New Haven Trust Company, Treasurer,
The General Hospital Society of Connecticut,
New Haven, Connecticut.*

We have made an examination of the balance sheet of

**THE GENERAL HOSPITAL SOCIETY
OF CONNECTICUT**

*(comprising the New Haven Hospital and the
William Wirt Winchester Memorial Hospital)*

as at June 30, 1940, and of the related statements of general fund surplus and deficits for the fiscal year then ended. In connection therewith, we examined or tested accounting records of the Society and other supporting evidence and obtained information and explanations from officers and employees of the Society; we also made a general review of the operating and income accounts for the year, but we did not make a detailed audit of the transactions.

As requested by you, we did not apply the generally accepted auditing procedure of confirming the accounts receivable by direct communication with debtors.

In prior years, patients' accounts considered uncollectible, including those placed with collection agencies and all accounts over one year old at the end of the fiscal year, were written off against the allowance for doubtful accounts, which was built up by credits on percentage bases with corresponding charges to operations. During the year ended June 30, 1940, the allowance was increased by monthly credits, but the former practice of writing off bad debts was practically discontinued. Largely as a result of the foregoing, the total amount of the patients' accounts receivable shown on the books increased during the year ended June 30, 1940, from \$129,270.14 to \$244,727.16 while the allowance increased from \$85,963.56 to \$193,555.04.

In the circumstances outlined in the two preceding paragraphs, we are not in a position to pass upon the amounts stated on the attached balance sheet for patients' accounts receivable and the related allowance, but it would appear that the net amount of \$51,172.12 shown on the balance sheet after allowance for uncollectible accounts is not excessive.

The stocks and bonds, real estate mortgages, and real estate shown on the books were in agreement with those shown on certified lists submitted to us by the custodian, The Union & New Haven Trust

Company. The funds investments are shown on the balance sheet at cost or at amounts assigned by the Treasurer at date of receipt. At June 30, 1940,* the approximate amount of the stocks and bonds based on market quotations was \$3,472,000.00 compared with a total book amount of \$3,779,549.72.

Our verification of the recorded changes in the accounts for the funds principal and investments was limited to a comparison of the transactions shown on the books with reports of such changes prepared by the Treasurer.

It was impracticable for us to obtain direct confirmation and verification of legacies and gifts received during the year ended June 30, 1940. We have not undertaken to ascertain that provisions affecting funds and gifts have been observed.

In our opinion, based upon such examination and subject to the foregoing comments and also to the explanations shown in the footnotes to the balance sheet, the accompanying balance sheet and related statements of general fund surplus and deficits fairly present the position of the Society at June 30, 1940, and the results of its operations for the year.

LYBRAND, ROSS BROS. & MONTGOMERY,
Certified Public Accountants.

New York, October 10, 1940.

THE GENERAL HOSPITAL SOCIETY OF CONNECTICUT

BALANCE SHEET, JUNE 30, 1940

ASSETS

Funds Assets:

Investments in stocks, bonds, etc., at cost or at amounts assigned by the Treasurer at dates of receipt

Stocks and bonds (approximate amount at market quotations \$3,472,000)	\$3,779,549.72

229,062.92
\$6,894,088.52

LIABILITIES AND FUNDS

Funds principal:		
Endowment funds and funds functioning as endowment (per statement attached),		
subject to annuity payments aggregating \$800 per annum		\$4,609,513.51
Less:		
Unallocated net loss on disposition of investments	\$ 425,366.56	
Advances to general funds to provide working capital	175,000.00	600,366.56
		<u>4,009,146.95</u>
		2,775.00
		<u>4,011,921.95</u>
Agnes D. Goeckler fund for cancer		
Plant liability and capital:		
First mortgage 5 per cent bonds due 1944	1,000,000.00	
Less, Unissued	464,000.00	
		<u>536,000.00</u>
Capital invested in plant	2,117,103.65	2,653,103.65
General fund liabilities and surplus:		
Accounts payable, etc.	3,350.67	
Patients' credit balances	3,129.18	
Accrued interest on first mortgage bonds	6,700.00	
Note payable, Yale University	1,418.60	
Unexpended appropriations, special funds, etc.	12,344.81	
Reserve for replacement of motor trucks	3,955.06	
Due to funds principal for advances to provide working capital	175,000.00	
	204,998.32	
Surplus	24,064.60	229,062.92
		<u>\$6,894,088.52</u>

NOTES:

1. The assets and funds of the New Haven Dispensary, which amount to approximately \$40,000, are not included in the above balance sheet.
2. The amounts shown for buildings and equipment are before allowance for depreciation (except in the case of Winchester Memorial Hospital laundry) and do not include buildings constructed by Yale University and used by the hospital. The Society is contingently liable under certain agreements and upon certain contingencies to acquire such buildings erected by Yale University.
3. General fund cash and accounts payable have been reduced by approximately \$38,000, representing disbursements made subsequent to June 30, 1940, but included in the accounts prior to such date.

STATEMENT OF GENERAL FUND SURPLUS
FOR YEAR ENDED JUNE 30, 1940

Surplus, June 30, 1939		\$ 5,445.62
