- Assist authors in avoiding predatory journals
- Increases visibility of scholarship and faculty standing in the academic community
- 18% Higher citation rate for OA articles (compared to average); paid-access articles citation rate 10% below average
- 27.9% of articles (in a journal with a Crossref-DOI) are OA

Budapest Open Access Initiative

‘Removing access barriers to this literature will accelerate research, enrich education, share the learning of the rich with the poor and the poor with the rich, make this literature as useful as it can be, and lay the foundation for uniting humanity in a common intellectual conversation and quest for knowledge.’
