The Ouachita-Central System.

Article V. of the Constitution of the Arkansas Baptist Convention provides that it shall be one of the objects of the Convention "to encourage Ministerial and Gospel and General Education. . ." For the accomplishment of this purpose, there have been organized, under the auspices of the Convention: Ouachita College, at Arkadelphia; Central College, at Conway; Ouachita Bentonville Academy, at Bentonville; Ouachita Maynard Academy, at Maynard; Magazine Ouachita Academy, at Magazine; and Mountain Home Academy, at Mountain Home.

The Convention at Paragould in 1901 adopted the following report of the Committee, appointed the preceding year, to consider the advisability of affiliating all the schools under the auspices of the Convention:

A Plan for the Affiliation of all Baptist Schools in Arkansas under the Auspices of the Arkansas Baptist Convention.

It is hereby declared to be the object and purpose of this act of affiliation to promote and foster the best interests of, and to increase the patronage of, and to reduce the expense of operating, and to increase the amount of money to be raised for, and to destroy friction between, and to preserve the integrity of all the schools entering the system.

1. The system is to be known as "The Ouachita-Central System of Colleges and Academies."

2. All schools of the system shall be under the direction of one board of trustees, composed of fifteen members to be nominated by the present boards of Ouachita and Central Colleges, and to be elected by the Convention at its present session; and one-third of that number shall be nominated annually by the board, subject to election by the Convention.

3. An executive or Advisory Committee for each school, consisting of three or more discreet persons, suitably located and who may be others than members of said board, may be appointed by the board of trustees, who shall have supervision over its respective school. There shall be only two schools with power to issue diplomas, namely: Ouachita, for men and women; and Central, for women, only.

4. It shall be the duty of the board of control to see that the two colleges and all the academies are well equipped with such apparatus, fixtures, improvements and additions to grounds and buildings as will best fit them for the work mapped out for each; and, in apportioning funds for this purpose, the schools shall be kept as nearly abreast as possible, no intentional discrimination being made in schools of the same class.

5. All property, moneys, incomes, rights, credits, and effects belonging to the several schools entering this system shall belong to and be controlled by the board of control as trustees for the respective schools, and said board shall assume the debts of both the colleges.

*Stenography and Typewriting.***Historical Sketch.**

At the Arkansas Baptist Convention at Fayetteville in 1883, Ouachita College received its first impulse. It was then decided that such a college was a necessity, and a commission was appointed, with R. J. Coleman as President, to agitate the question and to report at the next annual meeting of that body. They reported to the Convention in 1884, at Pine Bluff, stating that the suggestion met with almost universal favor, but that they did not think the time had arrived to begin the work, and recommended that the commission continue its work another year. At the Convention of this body in Hope, in 1885, the commission reported that after another year's agitation, many of the associations in the State had passed resolutions requesting the Convention to build the College, pledging their support. The commission suggested the selection of a board of trustees, with instructions to begin the work of locating and building the College. The board was selected by the Convention and properly organized.

After a thorough canvass had been made of the desirable places in the State for the location of the College, the historic grounds of the old Blind Institute, at first the property of the state, and afterwards converted into the Red River High School, crowning the eminence on the banks of the beautiful Ouachita River, at Arkadelphia, were chosen for this seat of learning. Nature seems to have fitted the place for the purpose to which it is dedicated. In July, 1886, J. W. Conger was elected President of the institution, with instruction to select his faculty and organize the College, and to prosecute all necessary work.

The College was duly opened September 6, 1886, with a faculty of six teachers, and with 100 pupils enrolled the first day, in the old frame building located on the present campus of thirteen acres. The old building was in bad repair, but the citizens of Arkadelphia contributed about \$600 for improvements. The first year there was an enrollment of 235 pupils, 60 of whom were non-residents. The main College building was begun in 1888 and finished in August, 1889. The old building was enlarged in 1889 and used as a Young Ladies' Home. This building was burned in May, 1890. The generous people of Arkadelphia immediately raised a subscription to begin the erection of our present beautiful Young Ladies' Home. It was begun in 1890 and finished in February, 1891. In 1898 the Conservatory Building, costing about \$12,000, was erected. The three buildings and campus are estimated to be worth \$75,000; libraries, laboratories, furniture and general equipment of the three buildings, about \$25,000; total valuation of the property, \$100,000.

Dr. J. M. Hart served as first President of the Board of Trustees and continued in office five years, ending in June, 1891. Col. M. F. Locke succeeded him and served as President until June, 1894. Hon. W. E. Atkinson was elected and served until 1899; Eld. C. W. Daniel was President one year, when Mr. Atkinson was re-elected and is now President.

There has been a net average enrollment during the past sixteen years of about 350 pupils, representing during this period fifteen different States. There have been 185 graduates from the academic schools, and 82 in the Conservatory of Fine Arts, making a total of 267 graduates of the institution. There has been a yearly average of about 40 beneficiaries who have received tuition fees gratis, amounting to about \$1,500 per year.

Purpose.

It is a narrow and false conception of education that fosters only the development of the intellectual side of man's nature. True education demands the symmetrical training of the intellectual, æsthetic, moral and spiritual natures. It is only thus that the student can be best fitted for accomplishing the greatest good for himself and his fellow-men, and for doing most for the glory of God.

Christian Education, or the building of character upon the fundamental principles of the Christian religion, must be given by Christian schools,—not that the Bible must necessarily be taught as a text-book (though this is most desirable) but that the Book of Books must be placed above all others, and its truths taught by precept and example. The atmosphere of the institution must be a Christian atmosphere.

We strive to furnish as broad and thorough training in literature, science and art as that given by purely secular schools, and yet under the best religious influences—in this is our superiority over the secular institution.

Founded by the Baptists of Arkansas, and fostered by their State Convention, Ouachita College is a distinctively Christian institution. Its aim is to teach its pupils to place culture above wealth, usefulness above social position; to soften the heart and guide its emotions; to broaden and deepen the intellect; to so mold, under the best Christian influences, the characters of its students that, when they go out from its walls, they will be prepared not only to meet and grapple successfully with the problems of life, but to become loyal servants of God, and thus a blessing to mankind.

Buildings and Grounds.

There are four handsome brick and stone buildings and one cottage on the campus.

Main Building.

The main building is 126x80, three stories high and contains offices, chapel hall (55x65), library, museum, reception hall, laboratories, society halls, and class rooms for the Literary and Business Departments.

The Young Ladies' Home.

The home for young ladies is the gracious gift of the people of Arkadelphia and their friends, at a cost of more than \$20,000. This building is 150 feet long, with a projection in the rear of 125 feet. It has corridors 14 feet wide, extending the full length of the building; three stairways; double parlors; reception halls. in addition to conveniently arranged bed rooms. The rooms are carpeted and the corridor floors are overlaid with linoleum. The building is heated with steam. The gymnasium for young ladies is on the third floor.

Conservatory Building.

This elegant structure is admirably arranged for its intended use. It fronts 144 ft., is 75 ft. deep, and three stories high. On the first floor is the art studio, office and lecture rooms of the Director of Music, and the spacious auditorium, which is elegantly furnished with over 600 opera chairs, pipe organ, etc. On the second floor is located the School of Oratory and Elocution, and Stringed Instru-

ments, etc. The third floor contains the practice rooms of the Conservatory. The building is heated with steam.

President's Home and Cottage.

These buildings are on the campus and are occupied by the President's family and the Business Manager's family, respectively. By this arrangement the President and Business Manager are enabled to have the general oversight of the College day and night.

All buildings are of modern architecture, well ventilated and lighted, and have steam heat. All dormitory buildings are equipped with the latest improved appliances in the way of electric lights, hot and cold water, bath rooms, etc.

The campus is situated on a high bluff within a few hundred yards of the churches and business portion of the town. No college enjoys a more beautiful location and more cheerful surroundings. The campus is shaded, has concrete walks, beautiful shrubbery, and a constantly active fountain.

Library, Museum and Apparatus.

About 4,500 volumes are now at the disposal of the pupils. The leading periodicals, dailies, weeklies, monthlies, both religious and secular, are found upon our tables. To the museum has been added \$1,000 worth of specimens, secured from an eminent scientist.

Earnest efforts are being made to add such collections of state minerals, animal specimens, and apparatus as will enable the professor in charge to give due prominence and character to natural science in our College.

We ask our friends to help us. This department has received valuable additions in the past. The department is sufficiently equipped to do first-class work.

Literary Societies.

The Alpha Kappa, Corrinnean, and Polymnian Societies for young ladies, and the Philomathean, Hermesian and Athenian Societies for young men are thoroughly organized and full of interest.

These societies are strong factors in developing the social and literary taste of their members. Self-government is secured by the constant practice of parliamentary rules. Pupils are urged to connect themselves with one of the societies.

The Societies have large and elegantly furnished halls. Secret societies and fraternities are prohibited.

Religious Life.

The pervasive Christian atmosphere of Ouachita College is due largely to the excellent influences emanating from the well organized church life of Arkadelphia. The regular prayer meeting is largely attended by pupils.

The Sunday Schools, at the Church and at the College are full of interest.

The Young Men's Prayer Meeting, at the Church each Monday evening, is rich in results.

The Young Ladies' Prayer and Bible Meeting, at the College Home every Sabbath afternoon, is largely attended.

The young men of the college and town have a strong organization for practical work and study of the Bible known as the Brotherhood of Andrew.

The Young People's Union meets every Sabbath afternoon at the Church.

All these organizations are aided and enforced by daily Chapel service of Bible reading, expository talks, and singing. Ouachita is a Christian College and places emphasis upon the spiritual phase of character.

Athletics.

The most thorough scholarship and the greatest usefulness are compatible with vigorous health. The student's health should improve during his College course.

The ideal college teaches its pupils to aim for bodily strength, vigor, grace and beauty. Athletics in Ouachita will have this in view. We will not violate on our grounds the principles taught in our lectures on Ethics. No hired professionals or brutal contests.

The Ouachita Athletic Association for outdoor exercises, including tennis, basket ball, and field sports generally, was organized six years ago with a membership of almost all the male students.

Ouachita Business College.

Instruction is thorough and practical in every department. The pupil is put in charge of a set of books—buys and sells merchandise, declares profits and losses and closes out the business. He is in actual business from the start.

A business education seems to be necessary for everyone, in this progressive age. There is a greater demand today than ever before for proficient business men. The banks, mercantile business, railroads, telegraph companies, manufacturing enterprises, demand experts. Our Business College is designed to prepare men and women to fill worthily the best positions.

The President of the College and the Principal of this school will spare no effort to insure good positions for our graduates. We deal honestly with our pupils. We do not promise positions, but think we are in position to do as much for graduates as are those who make certain definite promises, many of them never being fulfilled. Scholarships will be issued. Pupils can take their own time to

finish the course. It requires from twelve to twenty weeks, according to the application and ability of the pupil. Our course has been extended and perfected until it includes everything necessary to a first-class business education, and is equal to that of any Commercial College in the State.

Our course of study is so arranged as to combine Theory and Practice in the most admirable manner, and includes:

Bookkeeping,
Legal and Business Forms,
Correspondence,
Penmanship,
Spelling,
Commercial Law,
Business Arithmetic,
Political Economy,
Shorthand and Typewriting.

Military Department.

A sound mind in a sound body, both controlled by sound morals, is what Ouachita endeavors to give every student that enters her portals.

As one of the means toward this end a military department has been established.

Military discipline teaches neatness, promptness, courtesy, and devotion to duty.

The drill insures a regular amount of moderate exercise for every student and is thus conducive to health. It also improves the appearance and carriage of the student.

Exercises both with and without dumb-bells are carefully used to symmetrically develop the frame and muscles.

It is in youth that the hollow chest, stooped shoulders, weak back, and other physical defects, may be most readily overcome. This we endeavor to do.

All male students are required to drill unless excused by the President for some physical disability and must provide themselves with the prescribed uniform within a reasonable time after entrance. The full uniform and cap of regulation material is furnished at \$15.00, made to order.

The United States Cadet rifles and other necessary supplies are used.

Drum and Fife Corps.

A set of U. S. Regulation Drums and Fifes belongs to our equipment. This adds much to the Battalion Drill.

Government.

The central aim of our work is to aid in the acquisition of culture, critical judgment, concentration of thought and moral purpose. Our government is mild, yet firm. Childish caprice and youthful passion will be directed into a channel of improvement. No gentleman pupil will be allowed to visit young ladies. No lady pupil will be allowed to receive regular attention from young gentlemen. A faithful, earnest pupil has no time for such diversion. Receptions are given at the Home under the direction of the President and the faculty at stated periods. Special rules and regulations will be read and explained from time to time with advice. The admission of pupils to the institution and the enjoyment of its privileges imply a sacred contract on their part to observe promptly all regulations.

Upon entering College the pupil is furnished with printed regulations.

Prohibitions.

1. Entering or discontinuing a school without permission of the President.
2. Withdrawing from the class without consent of the teacher and permission of the President.

3. Lessons of any kind taken outside of the College without permission of the President.

4. Contracting debts at stores or elsewhere, without written permission of parent or guardian and the consent of the President.

5. Attending balls, parties, theatres, or any public amusement calculated to interfere with regulated study or good morals.

6. Absence from regular work, or from town without consent of the President.

7. Absence from boarding-house after study hours begin, without permission of the President.

8. Keeping in possession a concealed weapon, playing cards or dice, or drinking spirituous liquors.

Pupils unwilling to keep these regulations should not apply for admission.

Dress.

Uniform dress not only promotes convenience and economy but has greater tendency to suppress the feeling of pride and rivalry in the matter of personal decoration. For these reasons, and to prevent extravagance and promote economy, the young lady boarders will be required to wear uniforms.

The uniforms are tailor-made and unique in design. The entire cost of uniform (including cap) of good serviceable material, will not exceed \$13.50. This does not include shirt-waists.

Shirt-waists of white or cream-colored material will be worn by the young ladies throughout the year. Each young lady must be supplied with rubbers, mackintosh and umbrella.

Conservatory of Fine Arts.

EMIL LIEBLING, Director General.
F. D. BAARS, Local Director.

It is a source of great pleasure to announce that Mr. Liebling's connection with Ouachita College has been eminently satisfactory from every point of view. He is now in close sympathetic touch with all the work of the Conservatory. His examinations, personal interviews with students and lecture recitals have given enthusiasm and inspired confidence. Many teachers of the State have been greatly helped.

REPORT.

MR. J. W. CONGER,
President Ouachita College, Arkadelphia, Ark.

My Dear Sir:

After visiting your College twice during the past session I beg to inform you that I find the Music Department in excellent form.

The spirit of progress which has always been manifested continues to work its potent influence, and in connection with conservative teaching methods secures thoroughly satisfactory results.

Your teachers are competent, faithful and enthusiastic, and the students almost without exception have done admirably.

It will be my earnest endeavor to serve the interests of your College in the future.

Yours truly,
EMIL LIEBLING.

May, 1903.

The most marked progress has been made in our Conservatory of Fine Arts.

The beautiful new building, one of the most elegant in the South, with its spacious auditorium, its perfect arrangement for convenience, comfort and work, would not be complete without good instruments.

Thirty grand upright pianos add much to our work. Not only a good teacher but a good instrument is needed, and combine these two, a good teacher, a good instrument with a good student, all located in an attractive, convenient building, the results can be only of the highest order.

A Pipe Organ.

One of the finest instruments in the State, the largest in any college, adorns the auditorium.

Equipped as we are now, with a Faculty who have had the best advantages, theoretically and practically—

Thirty instruments in the piano department—

A new pipe organ—

A full set of orchestral instruments—

We challenge comparison with any institution, anywhere, outside of the few great conservatories.

Lectures.

Professional lecturers and distinguished men are secured to lecture before the school. Members of the Faculty also serve in this capacity. Announcements will be made from time to time during the year.

Ministerial Students.

All young ministers, with proper credentials, will be admitted free of tuition fees. Before entrance, however,

the Board of Ministerial Education must examine the credentials and give a certificate of admission to the College. Correspondence is solicited. Aid in payment of board is given as far as possible.

Ouachita Ripples.

The following is the Ripples Staff for next year:

J. H. Wharton, Athenian,	Editor-in-Chief
J. L. Smith, Philomathean,	}	Associate Editors
S. T. Mayo, Athenian,		
W. P. Wilson, Hermesian,	}	Local Editors
Miss Jessie Goolsby, Polymnian,		
Miss Ethel Adams, Corinnean,	Literary Editor
Miss Emma Owen, Alpha Kappa,	Exchange Editor
T. M. Netherton,	Faculty Editor
A. B. Hill,	Business Manager

The College magazine has been increased to eighty pages. Space will be given for reports from the various Academies and the Alumni. A strong effort will be made to make the College paper more nearly representative of the student body than it has ever been.

Price \$1 per year. For information write to the business manager.

To Teachers.

A strong course in Pedagogy leading to the A. B. degree has been added to the Curriculum. Association with mature students and progressive teachers, access to a good library, thorough instruction, a healthy, moral and literary atmosphere, all combined, offer many inducements to worthy and ambitious teachers. The teacher who desires advancement will do well to spend some time at least in Ouachita College. During the past year about fifty pupils secured positions through the efforts of the President and

Faculty. About 250 of our former pupils are teachers. Directors who desire efficient teachers will do well to correspond with the President.

Board for Young Men.

Many of the best homes near the College are open to young men boarders. Usually from two to eight board in a family. Board, furnished rooms, lights and fuel, \$10 to \$14 per month.

All young ministers who depend upon the Ministerial fund, will board in the Young Men's Home. Our object is to give poor, worthy, ambitious young men advantage at cost. Every young man will pay his pro rata part of the cost of running the Home. During the past year the cost was not more than \$90. This will be reduced in the future.

Young men who board in the Home will bring with them a pair of blankets or quilts, sheets, pillow case, towels, napkins, knife, fork, spoon, and mug or glass.

Ministerial students desiring to board in the Young Men's Home will write to President Conger or R. E. Major. Those desiring to board in private families will correspond with the President, or R. E. Major, who will make satisfactory arrangements.

To New Students.

Young ladies should notify the President upon what train to expect them. All young ladies must go immediately to the Young Ladies' Home upon arrival. Young men must have the approval of the President in securing homes. It would be well for new students to bring certificates as to character from former teachers or pastors.

The College colors, old gold and royal purple, will be sent to all new students upon application. All students are requested to wear the colors in coming to college, for pur-

pose of identification. Committees of pupils or teachers will meet trains at opening.

General Items.

1. Arkadelphia, a little city of 4,000 inhabitants, is noted for its culture, refinement and morality. It is the college center of the State, having 700 college students, 1,300 members (white) in its churches, no saloons, no billiards or ball rooms.

2. Matriculation on the first day is very important.

3. Health of pupils, moral, religious, and cultured surroundings were taken into consideration in locating the College. We feel that no mistake has been made. By special Legislative Act we have prohibition for a radius of ten miles.

4. Church and Sunday-school advantages are excellent.

5. Parents should write cheerful letters to their children. Do not encourage them to visit their homes, as it is a positive disadvantage.

6. Parents will be notified if sickness occurs. Prompt and kind attention will be given.

7. All letters and packages should be addressed in care of the President.

8. Pupils, accompanied by a teacher, will occasionally attend lectures. No young lady boarder, will under any circumstances, be permitted to spend a night out of school, and parents are respectfully asked not to make such requests.

9. Boxes of eatables will not be delivered. The table is well supplied with wholesome food, and we cannot be responsible for the health of pupils who eat irregularly and without regard to diet. Fresh fruit may be furnished.

10. Any pupil whose moral influence is not good,

will be dismissed at once. Flirting with young men or indiscreet conduct in public will subject a pupil to discipline. There will be no association with young men except in classroom.

11. The very best table fare possible, under the most careful management, will be supplied. Those desiring bedrooms for only two young ladies will pay \$10 per year more than those who room with three or four in a room.

12. Steam heat, water works, bath rooms, closets, electric lights, telephone and telegraphic connections are in the buildings.

13. NOTE WELL.—*Young ladies and teachers are required to furnish their own towels, soap, combs, brushes, napkins, one pair of blankets, one pair of sheets, one pair of pillow cases, one spread and one spoon.*

14. Students will be held responsible for unnecessary damage done to furniture or buildings.

15. Indiscriminate correspondence will not be allowed and parents are requested to limit the number of their daughters' correspondents.

16. *If pupils find fault, make complaint, or do not seem to make satisfactory progress, justice to both sides demands that a personal investigation be made.*

17. Visitors cannot be accommodated in the Young Ladies' Home.

18. Every article in a pupil's wardrobe should be plainly marked.

19. All young ladies boarding in the Home will be required to attend all lectures and entertainments held in the Auditorium.

Honors and Medals.

At the Commencement in 1902 the degree of D. D. was conferred upon Elder J. M. Carroll, Waco, Tex.; Elder J. M. McManaway, Fayette, Mo.; and Elder C. W. Daniel, Pine Bluff, Arkansas.

The Liebling gold medal was awarded to Miss Lizzie Finn for the best execution in piano music.

The Ed Thomas Medal was awarded to Miss Maze Hech for improvement in Art.

The Mrs. C. C. Scott Medal to Miss Janelle Davis for improvement in the Christian Graces.

The Mrs. Dr. Rhinehart to Miss Lizzie Clare Hyatt for improvement in Elocution.

The President Conger Medal to Miss Mary Coleman for house-keeping.

The J. W. Wilson medal to J. L. Ballenger for champion in cadet drill.

The Judge C. D. Wood gold medals were awarded to J. D. Atwood and L. T. Grumbles for excellence in the Inter-Society Debate.

The Inter-Society Medal was awarded to Miss Mary Forte Chandler for best essay.

A Certificate was awarded Miss Mamie Trigg for progress in Elocution.

History.

This College is the outgrowth of a desire of the Baptists of Arkansas to have under their fostering care an institution, devoted exclusively to the higher education of young ladies. This desire first began to materialize at Eureka Springs, in the fall of 1890, when in convention there assembled, the Baptists adopted a resolution, offered by Col. G. W. Bruce, and appointed a committee to report at their next annual meeting upon the "necessity, advisability, and practicability of building a college for the separate and exclusive education of females in this State." At the appointed time, at Arkadelphia, in October, 1891, this committee reported with unanimity in favor of such an institution, and the report was adopted by a unanimous vote of the convention. This institution, then, is the property of the Arkansas Baptist Convention, and its affairs are conducted by a Board of Trustees appointed by that body. Under this management the College has constantly grown in equipment, patronage, and influence.

Location.

In the spring of 1892, ground was broken, and the foundations of the College were laid at Conway, a thrifty town of 2,500 people on the Little Rock and Fort Smith Railroad, thirty miles north of Little Rock. This beautiful town is situated on the edge of a high, rolling prairie, one mile south of a range of the Ozark Mountains, and hence is subject neither to rigorous winters nor to sudden climatic

changes, so injurious to delicate constitutions; and yet its altitude is sufficient to give freedom from malarial influences, while the fresh breezes from the prairie render the climate pleasant in the oppressive months of summer. Parents may rest assured that their daughters could not be more favorably placed in respect to all external circumstances of topographical or climatic influences.

Aims.

This school, owned and controlled by the Baptists, aims at Christian education in the highest sense. The religious views of its patrons are respected, and the pupils are allowed to attend the church of their choice as far as practicable without interfering with proper discipline. It is our purpose to educate girls to be strong in intellect, in sympathy, in love of right; to set in motion an influence that will make the standards in education and society better; to cultivate a love for what is really beautiful and true. We would fit our girls for the grandest sphere in life—that of wife and mother in a refined and cultured home. This training the better enables her to become a "bread-winner," should necessity demand it.

We, by no means, neglect the social side of the girl's life, but fit her for ease of manner in polite society. We have none of the dissipations of the "city finishing school" that so frequently wreck the health of girls, nor the distractions which prevent growth.

Building and Grounds.

The campus consists of about ten acres of high, rolling land on the outskirts of the town. The growing shade trees, shrubs and flowers, the curving walks and broad drives varying the smooth green expanse, combine to make a most attractive lawn. The ladies of Conway have recent-

ly erected a very handsome fountain on the campus, which adds much to the beauty of the grounds. Near the center of the grounds stands an elegant three-story brick building, erected especially for and adapted to the wants and conveniences of young ladies. Here under the same roof are the school rooms, family rooms, parlors, dining hall, library room, concert hall, and ample quarters for about one hundred boarders.

Equipment.

The building is lighted by electricity, and supplied throughout with hot and cold water, which is secured from a deep well. We have our own system of water-works. There are well arranged bath rooms on each floor. The building has recently been fitted up with a steam heating plant; this not only adds to the comfort, cleanliness and healthfulness of the building, but together with the electric lights, renders the building practically fire-proof. There are four broad stairways of easy ascent leading from the first to the second floor, and three from the second to the third; these further add to the healthfulness and safety of the building.

Library.

We have a choice collection of books, and our pupils are seldom hindered in their studies by lack of works of reference. We are adding to our library constantly.

Our friends may help us in this work; and we trust that many will do so in the future, as many have already done.

During the past session our library has been a subscriber to a number of daily and weekly newspapers, and the following magazines:

North American Review, Success, The World's

Work, The Watchman, Atlantic Monthly, Youth's Companion, Review of Reviews, Century, St. Nicholas, Harper's Weekly, Current Literature, Ladies' Home Journal, Great Round World, Munsey's, The Etude, Ford's Repository, Educational Review, Arkansas School Journal, Normal Instructor.

Lectures.

The students of Central enjoy the privilege of a lecture course in which we have the opportunity of hearing the best talent in the country at rates far more reasonable than can be secured in large cities. We have special lectures from time to time by prominent men. Besides those delivered by different members of the faculty, the Principal frequently discusses questions with the young ladies of peculiar importance to them, touching conduct and health. The intimate relations arising from the life in the Home make these talks doubly valuable.

Literary Societies.

A very important feature of the college work is that of the Literary Societies. The Alpha and Euzelian Societies of Central College are second to none in their enthusiasm and earnest work. They each have beautiful halls, equipped by the young ladies and their friends.

In this more than in any other department of college life a girl learns self-reliance and does independent thinking.

Between the Alphas and Euzelians there is a healthy, friendly rivalry that enters and benefits all of our school work.

The weekly exercises consist of music, elocution, reading from magazines and choice works, essays, written debates, discussion, etc.

In the business meetings, pupils learn the fundamental principles of government, and thus they are better prepared for the study of history, civil government and political economy.

Central College Magazine.

The Literary Societies publish The Central College Magazine, which enables them to gain practical experience in business matters and arouses an interest in their literary work. The Magazine has been a great help in the past, and it is proposed to improve it in the future.

Laboratory.

While our laboratory is not large, it is equipped with apparatus sufficient for ordinary experiments, and it is being added to as requirements demand.

School of Music.

The importance of this department can hardly be over-estimated. We feel no hesitancy in stating that, in addition to the correct musical knowledge usually acquired by good pianists, we offer such advantages for higher study as will make it to the interest of those resolved to become specialists to enter our school of Music and devote their whole time to this art.

It is our aim to advance the pupils as rapidly as their ability and the time they conscientiously give to the work will admit. Particular attention is given to a correct beginning, for we realize that the foundation must be most carefully laid. A pure taste and accurate execution is cultivated from the first, in order to secure finished musicians in technique and interpretation. This school is supplied with eleven pianos, cottage organ, and pipe organ. This school has already taken a high rank, and it is our purpose to improve it.

Pipe Organ.

Students of this instrument must have good attainments in piano playing, and ought to join the classes of Harmony, Counterpoint, and Musical Form, as these studies are of special importance to organists. A special course is provided for those who wish to become professional church organists. All pupils will have opportunity for playing in public, either in concerts or during chapel services. The student of exceptional technical ability, who has passed through the theoretical examinations successfully will be entitled to a Diploma, with the title of Graduate in Organ Music.

Teachers' Training Course.

Two years ago we instituted a course for the training of teachers for work in the public schools, and it will be continued in the future. It prepares the student in Theory and Practice and School Management and takes a rapid review of public school studies, with stress laid on the manner of presenting them to a class. It is taken up the latter part of the session, and can be carried by those pursuing a regular course. Quite a number of our students who are in the higher classes avail themselves of this opportunity that they may be better prepared for work, while it is almost indispensable to those who have never taught or wish to secure a higher grade license.

Primary Department.

This department has recently been added to the school and is intended to do the work necessary to fit the girls for the Preparatory Department. It will consist of four grades. There is a special teacher in this department, and she is assisted by the teachers in the regular college work—in art, expression and physical culture.

Medals.

Every incentive will be offered for excellency in the different departments. Mr. J. H. Black, of Hope, has offered a gold medal to the young lady making the highest grade in house-keeping. The Board of Trustees offers one for highest scholarship. There will also be one given for the best essay, to be contested for by the two literary societies. There will probably be others in different departments.

The Home.

An excellent feature of this institution, and one in which all thoughtful parents are interested, is its excellent, convenient and well-arranged College Home. This is presided over by the President and his wife, assisted by the teachers. The Lady Principal will have especial supervision over the young ladies in the Home. The young ladies are members of the family, and are carefully looked after in regard to their studies, health, exercise, and habits. The discipline is mild, yet firm, and made to conform as nearly as possible to that of a Christian household.

All freedom that is consistent with safety and good government, is allowed; but every thoughtful parent will understand that there must be more restrictions in a large boarding school than in any private family.

All pupils from a distance should board in the institution. *We can not be responsible for them when they are scattered through the town.*

Parents can not overestimate the importance of boarding their daughters in the College. Here they entertain no company; they are not exposed to inclement weather; they lose no time on account of rainy days; they have the careful attention of the teachers at all times, and many other real advantages which no private family can afford.

Requirements.

Each boarder—teacher as well as pupil—must provide herself with all needed toilet articles, napkins, one pair of sheets, one pair of pillow cases, one pair of blankets, and one white counterpane. In addition to this, each one is required to bring a plate, cup, saucer, knife, fork, and spoon, to be used in her room in case of sickness.

Uniform.

For convenience and economy, as well as for placing a check upon the extravagance of such as are fond of display and to remove all causes of mortification on the part of those who are unable to afford it, we have adopted a neat and inexpensive uniform to be worn on all public occasions. In no case will it cost, complete, more than \$12.50, including the modified Oxford cap. This uniform will, with proper care, last two years.

Pupils will bring plain white dresses, to be worn as a uniform during the first month of school. For Commencement nothing but plain white dresses is allowed. The candidates for degrees wear Oxford gowns and caps on the day of graduation.

It will save trouble and expense if mothers will provide at least three white shirt-waists for their daughters; also a plain walking-skirt to be worn until uniforms are purchased.

For everyday use plain dresses, must be worn, such as would be suitable at home—calicoes, gingham and the like.

These regulations are insisted upon, and we hope that parents will assist in maintaining them.

To Our Patrons.

It is important that all pupils be present on the first day of the session and remain to its close. The loss of a

few days at any time during the term is a serious matter to the pupil. Every class has certain work to do which cannot be suspended nor retarded to suit the convenience of members who are absent. As a rule, pupils who visit home during the session become discouraged and suffer loss.

Pupils are not allowed to spend the night away from the college unless they are accompanied by their parents or present a written request from them. If the President thinks best he may refuse even then. Correspondence is restricted to the pupil's immediate family, unless parents furnish the President with a list of those with whom their children may correspond. All letters bearing any other postmarks are forwarded to parents for examination. All letters, whether incoming or outgoing, must pass through the hands of the President or Lady Principal, and are subject to inspection.

No young lady is allowed to leave the premises unless accompanied by some one of the teachers.

Parents should always confer with the President or Lady Principal when called on to incur any expense not anticipated.

All questions regarding studies, examinations, habits, social privileges, visits, and recreations, must be decided by the President, and all communications from parents respecting the same should be sent to him direct, and not through the medium of the pupil.

Pupils will be charged for damage done by them to the school property. The occupants of the several rooms will be held responsible for the damages done in their rooms.

Accessibility.

Conway can be reached by pupils from almost any part of the state on the day they leave their homes, and pupils returning can reach nearly any part of the state the same day they leave Conway.

General Information

*Applying to both Ouachita
and Central Colleges.*

Conditions of Admission.

To Either College.

Pupils, from other schools, bringing certificates of proficiency in the Preparatory Courses outlined on another page will be admitted to the Freshman Class, with the provision that students admitted on certificate are on probation and must prove their ability to do the College work as condition of remaining with the class. Pupils who do not bring such certificates will be examined on the subjects outlined under "Schedule of Preparatory Work."

Schools.

Instruction is given in the following schools:

- I. Philosophy.
- II. Latin Language and Literature.
- III. Greek Language and Literature.
- IV. Mathematics.
- V. Modern Languages and Literature.
- VI. English Language and Literature.
- VII. History.
- VIII. Political Science.
- IX. Natural and Physical Sciences.
- X. Pedagogy.
- XI. Bible.

Courses of Study.

School of Philosophy.

The subjects are treated mostly by topics. Wherever conflicting theories are encountered, the various arguments and their necessary tendencies are presented to the student and he is encouraged to investigate and judge for himself.

We endeavor to present the basal principles of all knowledge and belief so as to avoid bigotry on the one hand and skepticism on the other.

In Psychology the student is referred to his own consciousness as the final test of all psychical truth.

The principal theories of ethics are carefully considered and applied to questions of duty—individual, domestic, social, civic, and theistic.

1. Logic. Hyslop. Three hours a week. First term. (57.)*
2. Psychology. Dewey. Three hours a week. Second term. (57.)
3. Ethics. Gregory. Two hours a week. First term. (38.)
4. History of Philosophy. Weber. Two hours a week. First and Second terms. (76.)

Courses 1 and 2 are required of candidates for all degrees.

School of Latin.

Applicants for admission to this school should have completed a course made up of grammar, prose composition, reading and mythology, as follows:

Grammar.—A thorough preparation in the elements of etymology, syntax and prosody. Bennett's Foundations of Latin and his Latin Grammar are recommended.

Prose Composition.—The first twenty five lessons in Bennett's Latin Composition.

Reading.—Three books of Caesar's Gallic War; and three

*The numbers in parentheses indicate the total number of recitation periods in each course.

books of Virgil's *Aeneid*. It should be remembered that the College desires the ability to read Latin; the choice of selections studied is of secondary importance.

The Roman method of pronouncing Latin is used.

Mythology.—Guerber's *Myths of Greece and Rome*.

The undergraduate work in Latin comprehends the following: [The bracketed courses are not given in 1903-1904.]

1. Cicero and Composition. First Oration against *Catiline*; Bennett's Latin Composition complete. Three hours a week. First term. (57.)

2. Cicero; Second and Third Orations against *Catiline*. Horace; Selections from the *Odes*. Three hours a week. Second term. (57.)

3. Latin Literature. Mackail's *Roman Literature* supplemented by lectures. History of Roman Literature, Capes' *Early Empire*. Two hours a week. First and second terms. (76.)

[4. Roman Antiquities: A systematic consideration of the constitution of the Roman family, status of women, marriage, children, education, the Roman house and its furniture, food, dress, baths, games and amusements, books, trade, travel, religion, death, burial, etc. The aim of this course is to afford a more thorough and sympathetic knowledge of Roman private life than the course in literature alone would give, through systematic lectures copiously illustrated by lantern views and photographs from the remains of Roman civilization preserved in Pompeii, Herculaneum, Rome and elsewhere. Two hours a week. First and Second terms.] (76)

Course 4 alternates with course 3.

5. Horace; *Satires and Epistles*. Tacitus; *Germania and Agricola*. Two hours a week. First term. (38.)

Course 5 is collateral with course 3.

[6. (a) Roman Comedy. Selected plays of *Plautus* and *Terence* with some attention to the place of comedy in Roman Literature. Critical study of versification, language and syntax. (b) *Livy*; *Book I. Cicero de Senectute*. Two hours a week. First term.] (38.)

Course 6 alternates with course 5 and is collateral with course 4.

7. Roman Satire. Lectures on the history of Roman Satire with translation and exegesis of selected satires from *Ennius* to *Juvenal*. Two hours a week. First and Second terms. (76.)

8. Teachers' Training Course. Problems in teaching Latin; estimates of text books; examination of questions in pronunciation

and syntax; peculiarities of orthography; exercises in teaching preparatory authors. Two hours a week. First and Second terms. (76.)

9. Latin Epigraphy. Introductory lectures and the reading of inscriptions of different periods from squeezes and facsimiles. Two hours a week. First and Second terms. (76.)

10. Latin Palaeography. A study of mediaeval manuscripts from facsimiles. Two hours a week. First and Second terms. (76.)

School of Greek.

The course in this school presupposes three full years of preparatory study distributed as follows:

First Year.—White's *First Greek Book*. The inflections must be thoroughly mastered.

Second Year.—Three books of *Xenophon's Anabasis*. Pearson's *Greek Prose Composition* with special reference to the writing of Greek with the accents, and to the general principles of syntax. Babbitt's or Goodwin's *Grammar*.

Third Year.—Ten Selected Orations of *Lysias*, edited by Bristol. Two books of *Homer's Iliad*, edited by Sterritt. Advanced Greek Prose Composition.

The so-called continental sound of the vowels and diphthongs and pronunciation according to the written accents are preferred.

Full college credit will be given for second and third year preparatory Greek when preparatory Latin is taken.

The undergraduate work in Greek comprehends the following: [The bracketed courses are not given in 1903-1904.]

1. Demosthenes; *De Corona*. Advanced Prose Composition. Three hours a week. First term. (57.)

2. Greek Tragedy. *Aeschylus*; *Prometheus*; *Sophocles*; *Philoctetes*; *Euripides*; *Hippolytus*. Three hours a week. Second term. (57.)

3. Greek Literature. Lectures. A summarizing history of the development of the literature in connection with the political and social history of the people. Two hours a week. First and second terms. (76.)

[4. Greek Antiquities. The land and the people. The equipment and environment of ancient Greek life. A study of the private life of the Greeks. Lectures illustrated by lantern views and

photographs from ancient monuments and remains. Two hours a week. First and second terms. (76.)]

Course 4 alternates with Course 3.

5. Herodotus. Reading of Books I., III., and VII., with special reference to local history, topography and antiquities; Homer; Reading in the Odyssey; Study of Homeric poetry and Homeric life. Three hours a week. First term. (57.)

Course 5 is collateral with course 3.

[6. Aristophanes; The Knights, Wasps, Peace, Birds and Frogs. Thucydides; reading of books six and seven mainly with reference to the literary and historical questions connected with the subject matter. Three hours a week. First term. (57.)]

Course 6 alternates with course 5 and is collateral with course 4.

7. Teachers' Course. Lectures on Greek Grammar. Aims and methods in translating Homer and Xenophon. Bibliography for the teacher of Greek. Two hours a week. First and Second terms. (76.)

8. The History of Greek Art. Tarbell's History of Greek Art and Garden's Handbook of Greek Sculpture. The course will be illustrated with lantern slides, most of them made especially for this College. Two hours a week. First and Second terms. (76.)

9. New Testament Greek. Reading of Mark and selections from the Acts of the Apostles. Study of N. T. Grammar. The most interesting scenes in the Holy Land will be illustrated with lantern views. Three hours a week. First and Second terms. (114.)

School of Mathematics.

Higher Arithmetic and the equivalents of Taylor's Elements of Algebra and Beman and Smith's Plane Geometry are required for admission to these courses.

1. Algebra through Logarithms. Taylor's College Algebra. Two hours a week. First and Second terms. (76.)

2. Solid and Spherical Geometry. Beman and Smith's Geometry. Three hours a week. First and Second terms. (114.)

3. Algebra. Continuation of course 1. Three hours a week. First term. (57.)

4. Plane and Spherical Trigonometry. Crockett's Trigonometry. Three hours a week. Second term. (57.)

5. Surveying. Carhart's Surveying. Two hours a week. Second term. (38.)

Students in this course have the use of the College compass, transit, and level.

6. Plane and Solid Analytic Geometry. Bailey and Woods. Three hours a week. First and Second terms. (114.)

7. Theory of Equations and Determinants. Burnside and Pantton. Two hours a week. First and Second terms. (76.)

8. Advanced Algebra. Chrystal's Algebra. Two hours a week. First and Second terms. (76.)

9. Differential Calculus. Byerly. Five hours a week. First term. (95.)

10. Integral Calculus. Byerly. Five hours a week. Second term. (95.)

Courses 1, 2, 3, and 4 are required of all candidates for degrees.

School of Modern Languages.

Courses 6 and 7 are open only to those students that have completed courses 1, 4, and 5.

Courses 1, 4 and 5 are required of all candidates for degrees and of candidates for diplomas in the Conservatory.

School of History.

The applicant for admission to this school must be familiar with Montgomery's *Student's American History*, Myers' *General History* (or their equivalents), *Arkansas History* and some primary work on *Citizenship*.

This subject is taught from the standpoint of cause and effect. A systematic study of the most important facts is required. Outline work and map-drawing are duly considered. Much time is given to library and research work. Sources are consulted as much as possible. Written reports on assigned subjects are frequently required.

1. History of Eastern Nations and of Greece. Three hours a week. First term. (57.)

2. History of Rome. Two hours a week. Second term. (38.)

3. Mediaeval Europe. Three hours a week. First and Second terms. (114.)

5. American Constitutional History. Two hours a week. First term. (38.)

6. Other Modern Nations. Library work. Two hours a week. First term. (38.)

7. Ecclesiastical History. Two hours a week. Second term. (38.)

Courses 1, 2, 3, 4 and 5 are required of all candidates for degrees.

School of Political Science.

The first part of this course is designed to familiarize the student with the principles of Political Economy. The text book will be supplemented by lectures on the application of these principles to practical affairs.

Courses 2 and 3 give much attention to the governments of modern states and the laws regulating their intercourse in peace and relations in war.

1. Political Economy. Two hours a week. First and Second terms. (76.)
 2. Institutional History and Administration. Two hours a week. First and Second terms. (76.)
 3. International Law. Three hours a week. First term. (57.)
 4. Sociology. Two hours a week. Second term. (38.)
- Course 1 is required of all candidates for degrees.

School of Natural and Physical Sciences.

For admission to this School a knowledge of Elementary Physiology, Elementary Physics, and Elementary Chemistry is required.

1. Physiology. Three hours a week. First term. Martin's Human Body, Briefer Course, used as a basis. Collateral reading and laboratory work required. (57.)
2. Botany. Two hours a week. Second term. Gray's text book used. Each student is required to prepare an herbarium of at least sixty specimens from flora in this vicinity. (38.)
3. Geology, Dynamic and Structural. Three hours a week. First term; two hours a week second term. Field and laboratory work and collateral reading required. Text-book: Le Conte's Elements of Geology. (95.)
4. Geology, Paleontological. Two hours a week. Second term. This course pre-supposes (3.) Advanced laboratory work and field exercises throughout the course. Reading and reference books; Geikie's Text Book of Geology, Dana's Geology, Winchell's Geological Studies, Scott's Introduction to Geology. (38.)
5. Zoology. Two hours a week. Second term. The course consists of the study of typical forms from the Protozoa to the Vertebrates, with needed reference to text-books and general authorities. Laboratory methods made prominent; dissection of available forms required. Course 1 is a prerequisite to admittance to this course. (38.)
6. Physics, General. Three hours a week first term; two hours a week second term. Laboratory work throughout the year. A knowledge of Trigonometry is pre-supposed. Gage's Principles of Physics is used as a basis, with some good Laboratory Manual. (95.)

7. Astronomy, General. Two hours a week. Second Term. Recitations and Informal Lectures. Trigonometry and general Physics are a prerequisite to admittance to this course. Young's Elements used as a basis. (38.)

8. Chemistry, General and Qualitative Analysis. Three hours a week, First and Second terms. Laboratory work. Text-books: Remsen's Briefer Course; some good manual. Prescribed reading. (114)

9. Chemistry, Quantitative Analysis. Three hours a week throughout the year. Laboratory work with occasional quizzes on the principles involved in the study of Elementary and Volumetric methods. Text-book and reference books: Remsen's Advanced Course; Cairn's Analysis; Talbott's Fresenius' Analysis; Sutton's Volumetric Analysis. Reading includes matter in Historical Chemistry, Pure and Applied Chemistry and Journal Literature.

Courses 1, 2 or 5, 3 or 6, and 8 are required for the degree of A. B.

School of Pedagogy.

To know what to teach is only a part of a suitable preparation for teaching. Tact and power to control and communicate mark the difference between the trained teacher and the one untrained. An enlightened public does not now consider them in competition. The demand upon Ouachita for trained teachers has caused her to widen the scope of her usefulness in the establishment of this chair and to outline a course leading to a Normal certificate and to an A. B. degree, with Pedagogics emphasized. The purpose of this department is to convert the scholar into the teacher. We desire to furnish a body of well-trained teachers for the various departments of school work, and the course will be presented in such a way as to form an assential element of a liberal education.

Normal Certificate.—To be entitled to a Normal Certificate the following studies must have been completed: Constitutions of the United States and of Arkansas, Physiology, Zoology, Geology, Botany, Algebra through quadratics, Plane and Solid Geometry, Rhetoric, Elementary Physics, Elements of Psychology and Ethics, General History, Latin through Course 1, Theory and Practice of Teaching. The above course will thoroughly prepare for examination for State Certificate.

Courses

I. Theory of Education; Critical Study of the educational doctrines found in Plato, Quintilian, Comenius, Locke, Rousseau, Herbart, Spencer, Pestalozzi, Froebel and Mann. Two recitations per week throughout the year. (76.)

II. Problems of Education, embracing organization, management and method. Library work, reports and discussions. Two recitations per week throughout the year. (76.)

III. History and Philosophy of Education. Work mainly based on Rosencrans, Bain, Compayre, Sully, and Painter. Library work and discussions. Two recitations per week throughout the year. (76.)

School of Bible Study.

The Revised version of the English Bible will be the basis of the work in this department. Steele's Outlines of Bible Study will be used, also maps and helps from the library. The purpose shall be to impress the unique fact that the Bible is a history of God's revelation of himself to man. The following is an indication of the work proposed:

1. Introductory.—The Bible a divine revelation: its origin, plan, structure; early history of the Jews; the priesthood, sacrifices, institutions and government. Two hours a week, fall term. Elective. (38.)

2. Old Testament History.—Development of the Jewish nation: the nature and purpose of the prophetic office; a study of the personality and work of a few of the prophets; relation of the Jews to surrounding nations; preparation for the Messianic era. Two hours per week, spring term. Elective. (38.)

3. The Life of Christ.—Harmony of the Gospels. It is desired that the pupil acquire a consistent view of the life of Jesus as it is portrayed in the four gospels. Two hours per week, fall term. Elective. (38.)

4. Apostolic History.—The Book of Acts and the Epistles will be studied. The ministry of the Spirit; the life and writings of Paul. Two hours per week, spring term. Elective. (38.)

The required studies for the degree of Bachelor of Literature are the same as those for the degree of Bachelor of Arts except that no Latin or Greek is required, and that the course is one year shorter in electives. Seventeen recitation periods per week.

Credit will be given towards literary degrees for the following Conservatory courses:

Theory of Music, one year.....(2 hours per week)	50 hours
History of Music, one year.....(2 hours per week)	50 hours
Oratory, three years.....(2 hours per week)	150 hours
History of Art, one year.....(2 hours per week)	50 hours
Making a possible credit of.....	300 hours

Or, such theoretical courses in these subjects will be considered equivalent, hour for hour, to other electives for literary degrees.

No degree will be conferred on any student of the College who has not sustained a good moral character.

Pupils completing any course of study in any school shall be entitled to a certificate of proficiency in that course.

No degree will be conferred on any pupil until all bills are paid or satisfactorily arranged.

Conservatory.

Courses of Instruction.

In the Conservatory, instruction is given in Pipe Organ, Piano, Violin, Mandolin, Guitar, Cornet, Theory, Harmony and History of Music, Voice Culture, Elocution, Painting in Oil and Water Colors, China Work, Drawing, Crayon, Perspective, Repousse, Pastel, and Gymnasium. Courses of instruction in these subjects are outlined on the following pages.

Piano Course.

Grade 1.—Emery's Foundation Studies. Easy studies by Czerny, Loeschhorn, Koehler. Sonatinas by Clementi, Diabelli, Kuhlau and Schmitt. Five finger work and major scales.

Grade 2.—Studies continued, also Sonatinas. Easy Sonatas by Mozart, with additions from similar works by Lange, Wolff, Merkel, and Lichner. Beethoven opus 49. Modern selections by Behr, Bohm, Bendel, Koelling. Minor scales, chords and arpeggios.

Grade 4.—Mozart, Haydn, and Beethoven Sonatas. Studies continued, also those by Herz, Biehl, Hasert, Duvernoy, Lecoupey, and Heller, op. 47. Salon pieces by modern masters for the development of musical taste and variety of touch. Introductory octave work. Lessons in theory. Transcriptions from standard operas. Lebert and Stark Book 2. Selections from Schubert, Schumann, Mendelssohn.

Grade 3.—Sonatas continued. Heller's Etude op. 45 and 46. Jensen opus 33. Loeschhorn op. 67. Hasert, Kalkbrenner and Neupert Etudes. Compositions by Weber, Chopin, Reinecke, Mendelssohn, and others. Mozart Concertos. Czerny op. 740, Cramer Etudes, Clementi Gradus, Kullak Octave studies. Bach Inventions. French and English Suites.

Grade 5.—Bach's Preludes and Fugues. Moscheles Etudes

op. 70. Chopin studies op. 10 and 25. Concertos by Weber, Mendelssohn, Beethoven, and Schumann. Modern works by Reinecke, Greig, Rubenstein, Henset, Thalberg and Liszt. Review the entire course. Musical History.

Pipe Organ.

The student should have two or three years of thorough work on the piano before taking lessons on the organ.

We offer a thorough and practical course of instruction beginning with Stainer's method, in which the student is made familiar with the mechanical parts of the instrument, the pedal, manual, stops, registration, mutations, etc. Organ technique is made a specialty, and a course is selected from the best organ literature.

Violin.

The violin is becoming more and more popular, and justly so. Next to the piano it is the sweetest instrument we have, and capable of the greatest variety of expression. It is pre-eminently an instrument for young ladies, requiring delicacy of touch, gentle care, and accurate treatment, qualities with which God has so generously endowed woman. Still, we believe that the piano is the instrument of all instruments, but next to the piano, or auxiliary to it, we recommend the violin.

We have a class large enough for duets, quartettes, etc. As soon as pupils are sufficiently advanced they are admitted to the College orchestra.

Guitar and Mandolin.

Every young lady or gentleman who sings should learn to play the guitar. It makes the softest and sweetest accompaniment, and is also capable of some excellent solos, or may be used with other instruments. It is one of the most convenient instruments, as it is light and easily carried about on a trip and to social gatherings where no piano or other instrument is accessible.

The mandolin is a sweet-toned instrument, easily learned, and capable of splendid solo and ensemble work. Our Mandolin and Guitar Club is always very popular.

During the coming session we shall arrange a special course for instruction in the simplest method of teaching singing in the

public schools. All children should be taught to sing. It will perhaps be but a few years before singing will be taught in all our public schools.

Cornet.

[In Ouachita College only.]

The cornet is becoming more and more popular, both as a parlor instrument and as an instrument for leading congregational singing in our churches. It is also a means in "physical culture." We know of nothing that will so deeply develop and strengthen the muscles and nerves of the throat, chest, and lungs as the moderate but regular practice on the cornet.

Voice Culture and Solo Singing.

The production of a pure, resonant and musical tone is the result of patient and intelligent study. The natural and easy control of the voice is obtained only by the correct use of the breath and vocal organs. Every voice requires special treatment, consequently to use exclusively either the so-called German or Italian method is erroneous. When one can focus and place the voice easily, without contracting the throat or other necessary muscles, all habits of bad tone production are then conquered. The following is the course as laid out:

Grade 1.—Rules for breathing; development and blending of registers; study of the scales, major, minor, and chromatic; arpeggios and slow trills; concone studies; selected songs.

Grade 2.—Continuation of Grade 1. Correct placing of tones; exercises for agility; trills; concone studies; Exercises Elementaires Gradues by Mme. Marchesi; songs from American and European composers.

Grade 3.—Exercise for flexibility; study of rapid trills; mordente, the turn, gruppetto; strict attention given to enunciation and interpretation. Studies from Marchesi, Seiber, Panofka, and Vaccai; songs by Schumann, Franz, Rubenstein, Schubert and others of the Roman school. Oratorio.

Grade 4.—Vocalises and solfeggio continued; the trill, turn, etc., with rapid cadenza passages. Selections from oratorio and opera; selected German and Italian songs. Artistic interpretation and phrasing is insisted upon throughout the entire course.

Students completing the above course, and the first three grades

in the Piano course with Theory and Harmony and History of Music, will be entitled to graduation in Vocal Music.

Glee Clubs of young ladies are organized.

Free Advantages.

1. A series of practical lectures on different subjects related to music, such as "What does music teach?" "Art, its mission," "Music in religious worship," etc.
2. Two concerts given by the faculty with explanatory lectures, presenting some of the best works in vocal and instrumental music.
3. "Semi-monthly recitals" given by the students, showing the work of the department, and helping students to overcome the timidity of playing before an audience, together with "Talk on Music."

School of Elocution and Oratory.

The aim in this department is to stimulate a love for the best literature through its interpretation by the living voice; to awaken the imagination and stimulate thinking through the study of the great thoughts of great minds; to develop the personality of the student; so to train the voice and body that they may become agents of expression. Special attention is given to stammering and other speech defects. This work is of special value to clergymen and others whose lifework will call for a continued use of the voice. Speaker's sore throat is due to bad breathing and wrong use of the vocal organs.

Public recitals are given frequently throughout the year when by the student may gain confidence before an audience. The time required for graduation in this department is three years.

Courses.

- I. Voice training, vocal expression. Harmonic training of the body. Recitations and speaking. Studies in lyrics and narrative poems. Burns, Wordsworth, Scott, Longfellow, etc.
- II. Voice training and vocal expression continued. Harmonic training and expression. Recitations and speaking. Studies in Tennyson and best short story writers of the day. Study and comparison of Masterpieces in oratory.
- III. Advanced voice training. Advanced vocal expression. Cultivation of dramatic instinct. Dramatic action; criticism. Reciting of selections from standard novels. Shakespeare—*Mercutio of Venice, Twelfth Night, Hamlet*. Acting of individual scenes and of whole plays.

Physical Culture and Gymnasium Work.

The purpose of this work is to increase chest and lung capacity, to straighten stooping shoulders, raise drooping head and strengthen the weak back; to secure grace and ease of bearing; to learn how to sit, how to stand and how to walk. Courses are given in Swedish gymnastics and in harmonic gymnastics. Special classes arranged for those needing special work. Each school is well equipped with gymnasiums for young ladies.

Many students feel the need of work of this kind in college life, and those who follow out the prescribed courses of free and machine work will find themselves better students and more capable in every particular; for a strong mind must be supported by a strong body.

School of Art.

The teachers in this department have enjoyed extensive study under the best masters, and bring to their work the latest methods of Art.

Special courses for those desiring simply artistic work.

The regular course includes:

- I. Object drawing in pencil, sepia, charcoal and pen and ink for illustration.
 - II. Cast work, oil and water colors from still life and flowers.
 - III. Sketching from life and out-of-door work, landscape and figure. Advanced oil and water colors. Pastels and time sketches.
- The study of the History of Art and Architecture continues throughout the course. Italian, Flemish, German and Dutch schools are treated separately and illustrated.

Lectures open to all students will occur frequently on the "Old Masters," practical art questions, and topics of the day as related to art. It will be shown how Art molds character and influences thought.

Expenses.

(The expenses for young ladies are the same at Ouachita and Central.)

Pupils entering during first month will be charged in full from first day.

No extra charge for Modern Languages. Many extra drills and exercises without cost.

An extra charge of \$10 each will be made where only two young ladies occupy a room in the Home.

The Laboratory fee will be \$2.50 per year in the Biological or Botanical Laboratories; and \$5 per year in the Physical or Chemical Laboratory.

School books, sheet music, tablets, writing material, etc., are kept in the College Library and will be furnished at low prices for cash. To be self-sustaining, our supply department must be on a strictly cash basis.

Patrons who wish to open accounts for these supplies can do so by depositing \$10 with the Business Manager. Should a student have a small medicine or express bill and not be otherwise prepared to meet it, we shall feel at liberty to draw on this deposit for the amount.

If there is any misunderstanding or dissatisfaction about accounts or any thing whatever, write us a courteous letter and prompt explanations will be made.

Withdrawals and Payments.

All charges are made by the term, and not by the month. If a student withdraws on account of sickness by advice of a physician charges will be made only to time of withdrawal. If the withdrawal is for any other cause, except with the full consent of the president, charges at full rates will be made to close of term.

The Annual Session is divided into quarters. Payment for

board and tuition of young ladies is required *quarterly in advance*. No deduction for lost time can be claimed, *except on account of protracted sickness, and then for no length of time less than a month*. No deduction for absence for the last four weeks of the session.

Award of Scholarship.

Ouachita and Central offer a free scholarship (\$50.00) in College Department to the student in each High School or Academy in the State who makes highest general average in classes during the entire scholastic year. Certificate stating such fact from the Principal will be required. These scholarships are not transferrible.

Liberal Propositions—Reductions.

1. Reductions may be made when more than one pupil enters from the same family. The reduction will depend upon the departments the pupils enter. Write for information.

2. All non-resident ministers of the Gospel *in active service, who will become active agents for the enlistment of students, and who will undertake to give the institutions full benefit of their influence in their respective circles*, shall have free tuition for their minor children in the regular literary course.

3. All resident ministers in the pastorate will be granted free tuition in the literary department for one minor child.

4. Pupils who do special work in two extra branches will not be charged for literary work.

Courses of Study for the Preparatory Departments of Ouachita and Central Colleges and for the Affiliated Academies.

Schedule of Preparatory Work.

Affiliated Academies.

Elsewhere in this catalogue will be found a course of study for the Academies and the preparatory departments of the Colleges. The Academies are owned by the Board of Education, and are entering upon a useful career.

Ouachita Maynard Academy.

J. P. ROEX, A. B., Principal.

In 1900 committees under instruction from State Line and Current River Associations purchased the property of Abbott Institute and asked the Trustees of Ouachita College to accept it as an affiliated Academy. The request was granted and the Academy has been very prosperous. The property is valued at about \$2000, has good campus, and is situated at Maynard, Lawrence Conty.

The people are enthusiastic over the work of the Academy, and it is the purpose of those immediately interested to add more commodious buildings costing about \$5000 before the opening in September, 1903. The enrollment was 147 the past year, under a faculty of four teachers. There were 71 boarding students.

Ouachita Magazine Academy.

C. E. SCOTT, A. B., Principal.

In 1900 the generous people of Magazine proffered to the Ouachita Trustees a beautiful plat of ground and \$800 in good notes and subscriptions with which to establish an Academy. As a result we now have a beautiful two-story brick building well equipped. Many improvements have

been made the past year. 200 pupils have been enrolled, 95 of whom were boarders.

Ouachita Bentonville Academy.

S. C. PARRISH, A. B., Principal.

This valuable property (\$17,000) is located in Bentonville and was formerly known as Bentonville College. In 1900 the property was deeded to the Ouachita Board. The main building is a three-story brick, well furnished, situated on a beautiful campus of five acres. The generous people of Bentonville made donations for a dormitory, and a beautiful two-story brick building was erected and furnished the past year. Five teachers and 139 pupils, of whom 47 were boarders, were registered.

Ouachita Mountain Home Academy.

L. A. MORTON, A. B., Principal.

This property, formerly known as the Mountain Home College, is now free from debt. The building and campus are valued at \$15,000. Prof. Morton has proved himself a wise, cautious and energetic builder. A beautiful two-story stone building on the campus will be used as a dormitory the coming year. Seven teachers and 225 pupils the past year.

All these academies will open in September with encouraging prospects. Expenses very moderate. Circulars, giving full information about the academies, may be had by addressing cards to their respective principals.

Accredited Schools.

The College desires to promote the growth of thorough secondary schools. The academies at Magazine, Bentonville, Maynard, Mountain Home, Fordyce, Jonesboro and Bodcaw are affiliated with the colleges, having the same course of study, with the same text-books, as is given in the preparatory department of Ouachita and Central. Hence we give full credit to students from these academies who bring from their principals certificates stating in full the work done in the academies.

With reference to the relation to the colleges sustained by other schools, with different courses of study, and different texts, it is difficult to state anything more definite than that the colleges desire in all cases to give full credit for actual work done, and that certificates from principals, stating the time spent in recitation, the text used, and the parts of books completed in the various courses will be honored, and the student will receive credit for the equivalent work in the preparatory department of the colleges, provided always that if the student fail to maintain his standing in the class assigned him, his work at Ouachita or Central is to be the final test of the character of previous work.

Advanced college standing will be given on the same conditions, in case such work has been done with proper equipment and under such conditions as make satisfactory college work possible.
