UNIVERSITY LIBRARIES

2007–12 Scholarship

UNIVERSITY *of*
DAYTON

MESSAGE FROM THE DEAN

I am pleased to present our listing of research and scholarship at the University Libraries. The Libraries' faculty are routinely involved in inquiry advancing our discipline's knowledge base. We recognize the importance of integrating other disciplines into our work and applying theory and knowledge to meet campus needs. Making our ideas public, evidenced by the examples in this scholarly record, provides an opportunity to build on each other's contributions and create dialogue with others in our profession. Publishing journal articles, writing books or book chapters, and delivering presentations document our contribution to the ongoing advancement of librarianship and other fields.

The scholarship listed herein demonstrates a high level of intellectual activity and contributes to a variety of disciplines. The breadth of topics includes instruction techniques, user studies, collection management, and Mariology. This report demonstrates the University Libraries' commitment to scholarly activity and exemplifies our desire to rethink ideas, systems, and theories.

This report is evidence of the outstanding scholarly contributions of the faculty of the University Libraries. I am pleased to work with such an accomplished and collegial group of faculty.

Kathleen Webb
Dean, University Libraries
August 2013
