Duryea renovation near completion

By BRIAN KELLEY

The first of many planned Main Street house renovations neared completion over the summer, much to the delight of the residents of the house.

According to Nelson Williams, vice president for business affairs, the repairs and improvements for Duryea Hall were largely completed before the start of the semester.

Williams said that all of the interior work has been completed. Such work included: installation of new windows, doors, carpeting, electrical wiring, telephone wiring and a new heating system, as well as repainting of the house and renovation of a bathroom.

A small room on the first floor will be turned into a kitchen.

Exterior work included: some reroofing, reinforcement of the

porch, and cleaning of the brickwork.

According to Williams, there are plans to replace the house's German siding and to landscape the yard.

He added that most of the furniture in the house is new.

Omega Chi sister and Duryea resident Bonnie Keene said that she was pleased with the renovations, and that she felt lucky to live in the house.

"We're really proud of it, and we're going to take care of it," Keene said. She described how the residents cleaned the new carpet after their first party of the year.

Debbie Rosenberg is another happy resident. "I'm all over it," she said.

While Williams could not present an exact figure of the cost involved, he said that the budget for the work was \$90,000.

The Philadelphia architectural firm of Dagit-Saylor is handling the Duryea renovation and is studying the work necessary for other houses.

Williams listed these houses as: Fetterolf, Hobson, Shriner, Sturgis, South and Super Halls. Super Hall is located between Trinity Church and Fetterolf, and is only being considered for exterior renovation.

What Williams called a "very tentative" budget for these renovations is about \$1,000,000. But Williams said that he expects the actual cost to be 50-60 percent of that.

The budget allows for renovation on these houses much like those done on Duryea.

Williams is pleased with the college's relationship with the architects, who he described as experienced renovators.

Will Reaganomics last?

Campus Press Service

Though starting their fourth school year since the advent of "Reaganomics," college economics departments still aren't taking supply-side economics very seriously.

"Supply side is a political issue," claims Professor Phillip Cagan, head of Columbia University's economics department.

Cagan, like many of the professors interviewed for this article, believes, "It will be gone in a few years."

But some supply-side proponents, notably former Southern Cal professor Arthur Laffer, contend the theory is in fact making headway in college classrooms.

"It's being taught everywhere," Laffer says, "and has become the basic percept of the (economics) professional journals."

Laffer was one of the first advocates of supply-side theory, which forecasts that tax cuts — not the "pump priming" of Keynesian economics — would best stimulate the economy.

Laffer's ideas attracted a small coterie of followers, including a Wall Street Journal editorialist

named Jude Wanniski. Wanniski's writings eventually attracted converts like Ronald Reagan, Sen. William Roth and Rep. Jack Kemp.

All, of course, eventually helped mold America's current supply-side economic policy. Despite evidence the policy has helped generate record levels of economic growth, many campus econ departments haven't adjusted their courses.

"Professors have the luxury of being able to teach obsolete theories longer than government and business can adhere to them at the risk of losing money," Wanniski scoffs.

The reason it's not taught is that it's not a very good theory, others counter.

The recent economic recovery is explained better by traditional economic theory than by supply-side theory, says Professor Michael Veseth, an economist at the University of Puget Sound in Tacoma, Wa.

"The big spending cuts, world recession and large structural deficits that caused the recovery have more to do with old-fashioned Keynesian pump-priming than with supply-side

economics," he insists.

Keynesian theory, hatched by British economist John Maynard Keynes, has been the basis of American economic policy since the 1930s, when President Franklin Roosevelt employed it to try to spark a recovery from the Great Depression.

Keynes' then-radical advice was let the government go into debt in order to get money to inject into the economy, thus stimulating consumer demand. With consumer demand up, business would begin producing goods and services again to meet the demand.

When demand and government spending sparked inflation, Keynes advised the government to reduce spending.

Until then, most schools taught "classical economics," which stressed individual choicemaking in a society tending toward full employment, explains John Sumansky of the Joint Council on Economic Education.

"Studies of the overall economy and Keynesian theory eventually didn't burst on the scene," Sumansky says. "They

UC wins award

An innovative program to reduce campus operating costs has brought Ursinus College special recognition and a monetary award of \$100.

Ursinus saved \$32,000 last year by replacing an old steam absorption chiller air conditioning system. Ursinus chose an ice storage system with off-peak operation using an air cooled reciprocating unit as an alternate method of air conditioning. The system consists of an ice storage compartment and two air-cooled compressors. The compressors are controlled by an energy management system that allows

the compressors to operate during the night. In the morning the chilled waterpump is turned on, circulating the chilled water from the storage box into the cooling coils throughout the building.

Ursinus College was one of 47 winners in the ninth annual Cost Reduction Incentive Awards Program, sponsored jointly by the National Association of College and University Business Officers (NACUBO) and the United States Steel Foundation, Inc. (USSF). Total savings on those campuses last year were over \$6.8 million.

Stayed tuned....

Just a few miles west of Ursinus College is the Limerick Nuclear Power Plant, a facility that Philadelphia Electric Company has been constructing for more than 15 years.

PECO plans to commence operation of the plant within the next year. They assert that nuclear power is safe and economical. It is, they would have us believe, the energy source of the future. There are those, however, who believe that

PECO is wrong. These opponents believe that nuclear energy poses a threat to our environment and ourselves. The Limerick plant, they say, should never open.

Regardless of whether it is opened tomorrow or never opened, the Limerick plant will have an effect on our campus community.

The Grizzly will examine the controversy surrounding the opening of the Limerick Nuclear Power Plant in a three part series beginning next week.

The Grizzly was founded in 1978, replacing the previous campus newspaper, The Ursinus Weekly. It is published by students ten weeks each semester. The Grizzly is edited entirely by students and the views expressed in the paper are not necessarily those held by the administration, faculty, or a consensus of the student body. The staff of The Grizzly invites opinions from the college community and will publish them as time and space permit.

News of Yesteryear

By AMY KISTLER

With the election between Walter Mondale and President Reagan just around the corner, it is interesting to note the views and concerns of the editorial staff of The Ursinus Weekly in 1964 before the national election between Sen. Barry Goldwater and President Lyndon Johnson. The following article appeared in The Ursinus Weekly dated Monday, September 28, 1964:

EDITORIAL WEEKLY POLICY

It has been said time and again that history is an interpretation. No man is free enough from himself to make an account of a political or social event without some bias. The same is true with newspaper reporting and editorializing.

This is even more true when the reporter is deeply involved in the event, or concerned with the consequences. This is why, to be honest with our readers, and to show our concern in the coming national election, that the editorial staff of The Ursinus Weekly, unanimously endorses President Lyndon Johnson and Hubert Humphrey.

At a time in our country's social history when the oppressed are seeing the light of equal and fair social justice for the first time, we believe in supporting a man who can see beyond the comparatively trivial trouble caused by the overthrow of social oppression to the bright future through equal justice and freedom of tomorrow and

tomorrow and tomorrow.

When the problems of urban and suburban living and transportation are becoming more complex, we believe in supporting a man who will aid the lifeblood of the United States, not clot it.

At a time in our country's political history — and that of the world's — when tensions are as high as the stockpiles of nuclear weapons, we believe in supporting an already proven trusted, reliable and capable person, not one who changes from an extreme position, to a moderate one and back again. The policy of "send in the Marines" when the situation calls for a more level-headed decision might be a slower way of "pushing the button," but just as effective.

The ten months that President Johnson has held the office has proven him worthy of endorsement by the American people.

During President Johnson's next four years in office, he was successful in securing a strong Civil Rights Act (1964), which proved itself to be a major legal document opposing racial and sexual discrimination. Unfortunately, however, Johnson's strong belief in the use of military force was largely responsible for the American involvement in Vietnam. Johnson's popularity decreased, and he decided not to run for re-election in 1968.

LSU DUMPS 'GIRLS OF LSU' CALENDAR

Lynn Pesson, Vice Chancellor for Student Affairs, forced the Louisiana State bookstore to drop the calendar which features photos of 13 female LSU students, because it was "too risqué."

A number of women who posed say the photographer had pressured them "to show more skin," Pesson reports.

COLORADO RE-STOCKS MAGAZINES

Two weeks after the nearby U. of Colorado banned "skin

magazines" from its bookstores in reaction to the publication of racy photos of former Miss America, Vanessa Williams, Colorado State's bookstores will restock the magazines.

Bookstore manager James Banning said he worried that keeping the magazines off campus smacked of censorship.

GROUPSUES

The Freedom From Religion Foundation has sued to stop Wisconsin from asking students their religious preference on registration forms, and then

giving students' names to campus religious groups.

JOB MARKET

Declining numbers of teaching grads and increasing numbers of retiring teachers have improved opportunities greatly, says Richard J. McArdle, dean of Cleveland State U's. education college.

Notes from all over: Four of ten college men say they prefer dating blonde women, according to U. Wyoming reseacher George Gill.

LETTER POLICY

Letters must be typed and no more than 300 words. Name and telephone number are required for verification purposes. Letters should be deposited in the Grizzly mail box in Corson Basement by 7 p.m. Monday. The Grizzly reserves the right to edit all letters. Requests for anonymity will be considered by the editorial board.

Music at Ursinus

A new director And new directions

By WALTER S. KEEHN

If you have been passing Bomberger on a Tuesday or a Wednesday evening, you may have noticed that there is a new sound coming from the second floor. It is not Rock or even New Wave; it is the Ursinus College band that is now under the direction of the new director of instrumental music, Mr. Scott Watson.

Watson, a graduate of West Chester, with a B.M., is now working on his masters in composition at Temple University. He was hired over the summer to revitalize the instrumental program; that is, he was hired to work more hours, and to dedicate more of himself to the program, instead of the previous director, who was only available once a week.

According to Watson, "band is an extra curricular activity for mental recreation, that comes from the enjoyment and satisfaction of performing music." He added that the band has taken a "new direction." This means that the band not only provides for a musical cheering section at the football games, it also performs a varied repertoire of concert band pieces. He plans to conduct a Pops concert Nov. 28 and Christmas Caroling before final exams.

Since Watson comes to Ursinus two nights a week, he holds practices for each section, for the complete band, and for the newly formed Jazz band. Watson pleads for more instrumentalists. Although there is a tight nucleus to this year's band, it is lacking in the lower brass and percussion

sections. For the Jazz band, he is looking for a rhythm section.

Watson also plans to form a number of smaller ensembles.

"Being a liberal arts college, there is no reason why Ursinus should not have a full instrumental program," states Watson. He is looking for students that played in high school bands to come out and support Ursinus.

If you would like more information about any of the bands, feel free to stop by Bomberger 226 on Tuesday or Wednesday nights, or you can leave a message at Bomberger 222. If you or some one that you know plays an instrument, Mr. Watson encourages you to join, if not for the school, then for yourself, because he feels that music should be a part of everybody's lives.

By BRIAN KELLEY

The Music Department began striving this semester to help create a better fine arts environment at the college. John French, director of music, said that the purpose of his efforts is to help students receive the exposure to fine arts that the college strongly recommends.

French said that the emphasis of changes will be in instrumental music and his department's curriculum.

The advances of instrumental music will largely be the responsibility of the new director of instrumental music, Scott Watson, who is profiled in the adjacent article.

The curriculum changes involve two new courses, and the establishment of a music minor.

"Introduction to Fine Arts" is a new, team taught course that gives students a preview of art, theater, and music. French said that the course will act as an entry level for students planning to study any of the three disciplines on higher levels.

He teaches the one semester course with Dr. Joyce Henry,

associate professor of communication arts, and Ted Xaras, assistant professor of art.

"Music History" is a course being offered for the first time this semester. A student who takes this course with "Introduction to Fine Arts," "Music Theory," and "Western Civilization" will be eligible to receive a music minor.

Students interested in instrumental music will be able to participate in a more active concert band, a newly formed Jazz band, and various smaller ensembles.

French added that the choral groups will be very active this year.

The College Choir will be giving four performances including two this spring to commemorate the 300th anniversary of the births of both Bach and Handel.

The Meistersingers and the Chamber Singers are planning a spring break tour of western Pennsylvania and Ohio as well as local performances.

French also said that four students will sing in a state choir festival in October.

Students excel in business French

Parlez-vous francais? Three Ursinus students obviously speak the French language very well. They have received certification from the Chamber of Commerce and Industry of Paris (CCIP), an internationally recognized degree granting agency.

Karen L. Dalzell, Carolyn M. Gretzinger and Elizabeth Osciak, all members of the Class of '85, are the three students who have earned the certification. Both Gretzinger and Osciak received honors. The certification in economic and commercial French is awarded to those who pass an intensive oral and written

exam. The exam, which measures an individual's proficiency in industrial and economic French, is internationally administered by the CCIP and is acknowledged widely by industry as a useful credential. This year Jacques Lange, a resident of Philadelphia, who is a native Frenchman, gave the oral exam on the Ursinus campus. The written examination is sent from the Paris headquarters.

Ursinus is the first examination center in the Delaware Valley. Frances Novack, assistant professor of French at the

college, is the CCIP representative and teaches a specific course in commercial and economic French.

Karen Kalzell, is the daughter of Mr. and Mrs. R.J. Dalzell of Glenside. She is majoring in French and Spanish.

Carolyn Gretzinger, the daughter of Mr. and Mrs. Richard C. Gretzinger of Ambler, is a French major at Ursinus.

Elizabeth Osciak is the daughter of Mr. and Mrs. John Osciak of Claymont, Del. She is a mathematics major.

CAMPUS MEMO

By RICHARD P. RICHTER

Last Saturday night, I watched part of the "Rocky Horror Picture Show," screened at the utility gym. Later in the evening, I took a walk through our backyard to visit the neighbors in Reimert Complex.

FUN AT THE GYM: At the "Rocky Horror" show, the sizeable audience seemed to know its cues. Those of you who attended stood, clapped, sang, threw rice and performed other assorted antics at the right time. I was more impressed with your acting skill than the acting on the screen. The quality of the movie itself does not call for comment. But it did provide a focal point for what seemed to be an enjoyable evening for a couple of hundred of you, many still adjusting, no doubt, to the social glitches of life away from home. My guess is that a high percentage of you had seen "Rocky Horror" before. It probably gave some of you something familiar to latch on to. The concrete floor of the utility gym is no one's idea of a comfortable place to sit and watch a film. But from my vantage point (standing), you seemed to feel comfortable with the setting for your performance.

What seemed to make it work was the feeling that a bunch of students were doing something safe together in a spirit of fun and fellowship. That may not be a

very profound educational message, but it's not a bad one for a Saturday night. And it gives us something to strive for again on upcoming weekends.

VISIT TO REIMERT: I looked forward to my uninvited visit to Reimert Complex at 12:45 a.m. on Sunday morning because Reimert at 12:45 a.m. has always held the promise for me of surprise and adventure. This visit turned out to be a pleasant melange of chatter here and there about the soccer victory, the field hockey victory, the promise of future success by the football team and the reasons why the F&M game went the way it did, and the general all-around greatness of, you guessed it, a college named Ursinus. Those of you with whom I chatted were cordial and communicative. I enjoyed and appreciated that. Two recent graduates were back on campus as registered guests for the weekend, and it was a special treat to hear them speak so affirmatively of their attachment to their alma mater.

Again, I am not sure that the lessons of Reimert on an early Sunday morning compare with those in classrooms at 9 a.m. Monday morning. The weekend chatter matters, however, and in the long run your Ursinus education would be the poorer without it. I would be too.

"ARE YOU BETTER OFF THAN YOU WERE 4 YEARS AGO?"

New Tunes

By MATT D'ORTONA

Rick James — "Reflections"

The absolute king of "punk-funk" is back! The ever-nasty Rick James and his soul pumpin' Stone City Band have returned with a greatest hits album that traces Rick's solo career from 1978's album "Come and Get It!" to 1982's "Throwin' Down." Also included on "Reflections" are two new James' compositions "17 (and Sexy)" and "Oh What A Night (4 Lux)."

Side one begins with the current single "17," which has received substantial air play. A jumpin and upbeat number, "17" talks about an older man's infatuation with a 17 year old girl. This song is definitely one of Rick's best. Other highlights on side one include "Fire and Desire" and "You Turn Me On."

Side two includes such songs as: "You and I," "Dance Wit Me," and James' monstrous hit "Superfreak." This definitely exhibits Rick James at his funky best. A must for James fans and non-fans alike!

Ratt — "Out of the Cellar"

Los Angeles has to be without a doubt the hotbed of American heavymetal. Following hot on the heels of fellow L.A. metal merchants Quiet Rust and Motley Crue, Ratt has emerged from out the pack with their platinum debut album. It's evident from this L.P. that these boys are more than ready to assume their position in the heavy metal roundtable. Not one song on "Out of the Cellar" is weak.

Side one explodes with "Wanted Man," an all-out

Reaganomics

(Continued from Page 1)

were forced on us by the Great Depression and attempts to end it."

Years after the theory became government practice, college economics departments began teaching it. Since the publication of Prof. Pul Sauelson's landmark Keynesian textbook in the late forties, Keynesian economics has been the standard emphasis in most departments.

"Colleges are not teaching supply-side courses," asserts Vanderbilt economist Professor John Siegfried. "If it's taught, it's taught as part of another course. Strong supply-sider were talking about it in 1968, but it didn't have a label."

Siegfried attributes the increased interest to media hype, not academic study of the theory.

"It's a very important idea," he concedes. "But now there's a lot of attention in the popular press. The increase (in emphasis) is not in academic areas."

Wanniski attributes campuses reluctance to teach supply-side

theory on its own to simple stuffiness. Tenured economics professors have a vested career interest in defending "outdated" Keynesian theory. Things will change as younger economists successfully use supply-side theory to predict the economy's performance, Wanniski predicts.

Side two picks up where side

rocker. The band, made up of Robin Crosby (guitars), Steve Pearcey (vocals), Warren De Martini (guitars), Juan Crouchin (bass) and Bobby Blotjer (drums) continues to pump out more hot metal than a Pittsburgh steel plant! The highlight of side one is their single "Round & Round." With the help of heavy video rotation on MTV and heavy FM airplay, this song has put Ratt on the map.

Side two picks up where side

theory on its own to simple stuffiness. Tenured economics professors have a vested career interest in defending "outdated" Keynesian theory.

Things will change as younger economists successfully use supply-side theory to predict the economy's performance, Wanniski predicts.

"Supply siders," for example, "are the only ones who predicted the current economic boom without inflation," he asserts.

"Eventually schools recognize" who's got the better track record, he says, "and switch to supply side."

Because nearly all of the nation's 65,000 economists are Keynesians, Wanniski thinks it may take a generation for college economics departments to begin emphasising supply-side theory.

For the moment, Wanniski says he and his peers have to be content with making the theory the foundation of U.S. policy. "The major influence of supply side has been outside colleges, in the political arena."

Roving Reporter

The Grizzly 5

Grizzlies fumble opener

By TIM COSGRAVE

The Ursinus Grizzlies, after dominating the first half, dropped their season opener to F&M last Saturday, 30-7. The F&M diplomats were able to capitalize on numerous second half turnovers to seal the victory.

The Grizzlies started off strong as their defense literally shut down F&M's high powered offense. The Grizzlies lone score came on a 37 yard pass from quarterback Brian McCloskey to wide receiver Billy Scanlon. John Carey kicked the extra point and the Grizzlies led 7-0 at halftime.

The second half was a disaster as the Grizzlies special teams fell apart. The Grizzlies turned the ball over to F&M six times inside their 30 yard line. With this type

of field position the Diplomats were able to capitalize and put 30 points on the board.

Another loss occurred when the Grizzlies lost the services of both of their starting running backs. Last week it was learned that fullback Ed Malandro will have to undergo surgery on his right shoulder. Malandro will be finished for the season.

The other starting running

back Mark Garcia was lost for an indefinite period of time when he tore ligaments in his knee during first half action Saturday.

The Grizzlies encounter Western Maryland this Saturday at Patterson Field. The Grizzlies will try to avenge last year's loss. Western Maryland is a tough team that likes to throw the ball a lot. Their favorite receiver is senior Rich Johnson who burned the Grizzlies last year with 10 receptions.

FOOTBALL

BEAR BITS — Game time Saturday is 2 p.m....Western Maryland lost to Gettysburg Saturday, 30-0...The Grizzlies travel to Swarthmore next Saturday.

Bear Booters take two

By KENNY BULL

Ursinus College defeated both Western Maryland and F&M last week in soccer to improve their record to 3-0. Ursinus traveled to Western Maryland last Tuesday.

After a long trip, Ursinus was anxious to play and it showed on the field. U.C. totally dominated the game, with the final score of 4-1. Goals were scored by Jamie Meyer, John Ackerman, Brad Young and Pete Kushnisky. The lone WM goal was scored in the second half.

James Barnes and Tom Brown had exceptional days in the nets. After a well deserved victory on

Saturday, Ursinus anxiously awaited their next opponent.

Franklin & Marshall, who defeated Ursinus last year, 2-0, was probably U.C. first real test. The team played an A-1 game defeating F&M, 4-1.

Ursinus took the lead early in the game despite tough F&M attacks. Mike O'Malley took a ball from Ackerman and slipped it into the corner. The first half was dominated by F&M, but Ursinus prevailed 1-0 at the half.

With a few words of encouragement by Coach Walter "Gentleman" Manning, the Bears came out storming. F&M scored during the first couple minutes of the second half, but Ursinus' fire was still inside them and Steve Coulter scored on a beautiful shot from inside the 18 yard line. After his goal F&M sank heavily and Ursinus College added two more goals with 10 and five minutes to go in the game.

Jeff Jones got the third goal on a pass from Steve Popescu. The fourth goal was scored by Pete Kushnisky to put the game on ice.

Volleyball team

off to a strong start

By DIANE JOHNSON

The 1984 Ursinus Women's Volleyball team can best be summed up in three easy terms: young, gusty, and very promising. Only four of the 14 players who walked into Coach Kathy Curley's Aug. 30 pre-season camp were upperclassmen, and of those four only sophomore and junior co-captains, Debbie Doleniak and Kathy Slatter, and junior Chris Roghan had played at Ursinus.

A team listing 10 freshmen on its roster may lull some opponents into a false sense of security, until they view either of three talented new setters, Laura Kirby, Janine Jones or Donna Megneni, putting the ball in action for twin hitters, Jane and Gen Cumpstone. The 5'11" twins, along with 5'10" Junior Diane Johnson, add some much welcomed height to the front line of this year's Lady Bears.

The team had its first test, a week after they first walked onto a court together, against Bryn Mawr. Although the beginning of the first game was shaky, the Ursinus women began to show what they were made of and came back from a 14-8 deficit to take the game. They dropped the

second, but won the match on strong third and fourth games.

Coach Curley, who thought she gained a few premature gray hairs at the Bryn Mawr match, saw how far down her team could dig when the Bears traveled to Del Val for their first conference match. Down 2 games to one, and losing halfway through the third, the team gathered its composure and silenced a large Del Val crowd by bouncing back to take the third game. They then rolled through the fourth and fifth to take the match 3-2.

After registering their first loss against F&M on Thursday night, 3-0, Ursinus came out smoking against Eastern on Saturday morning. Debbie Doleniak served for 13 straight points as the Bears easily won the first game 15-2. Coach Curley took advantage of the chance to mix up the line and give the others members of the team, Kim Krominski, Rita Wallace, Betsy Klug and Laura Kuhn some experience. Ursinus disposed of Eastern, 15-8, 15-8 for a 3-0 victory.

Saturday the team will host Swarthmore and Gettysburg at 10 a.m. in the Parent's Day tri-match. Matches are held in the third gym in Helffrich Hall, come on out and see the action.

Pennant race winds down

By CHRIS GODOR

With only half a month remaining in the Major Leagues, three of the divisions are almost decided; only one has a close battle brewing, the American League West. Starting with the National League, in the Western Division, the San Diego Padres are more than 10 games above the closest competitors, the Houston Astros and the Atlanta Braves.

In the East, the race is a bit closer; the New York Mets are trailing the Chicago Cubs by 8 games. The Phillies are 10½ games behind the Cubs. Both the Cubs and the Padres will be newcomers to the Fall Classic. Neither team has reached the World Series. The boys from

Wrigley had their last chance in 1945, but they lost in the Championship Series.

The Padres will have their first chance at a World Series ring. The Padres will not be without some Series experience though; Steve Garvey, Gret Nettles, Garry Templeton, and Goose Gossage have been there several times, and each has at least one ring.

The Chicago Cubs also have a few World Series vets. Some of their leaders are Ron Cey, Leon Durham and Rick Sutcliffe. Others who have played in the playoffs are Larry Bowa, Bob Dernier and Keith Moreland; all

(See PENNANT, P6)

Hockey continues to dominate each team it faces. It has beaten Michigan 4-0, Rutgers 2-0 and Toledo 2-0.

SPORTS WATCH

Cross Country	Saturday 9/22 (?) Indiana University Pa.

• Pennant

(Continued from Page 5)

were with the Phillies at some time in their careers.

Consequently, attempting to choose a victory on the basis of Series experience would be a toss up because both teams are essentially equal. Two of the better players this year, Tony Gwynn and Ryne Sandburg, are members of the Padres and Cubs, respectively. Gwynn is leading the league in batting with an average of .351, while Sandburg is in among the leaders in most of the hitting categories, for example, batting, runs and hits. The Championship Series will most likely be a tough fight for both teams; they are closely matched.

The American League has the one undecided division — the West. A ½ game separates three teams from the pennant: the Kansas City Royals, the California Angels, and the Minnesota Twins. Minnesota was leading for a while, but lately the Twins have been losing ground steadily. The Royals were not expected to do as well as they have.

The real surprise was the plummet of the Chicago White Sox. This team went from the best record last year, 99-63, to more than 10 games under .500.

The Angels have been in the thick of things for the past couple years. They still have Reggie Jackson, Fred Lynn and Bobby Grich. All of them are good ballplayers and can handle the pressure when the end of the season is in sight.

The Twins — on the other hand, are very young and have not played baseball after October 2. The Royals still have many of the older ballplayers like Willie Wilson, Frank White and Hal McRae. George Brett has been injured and has not played. All in all, the American League West is quite boring this year since there has been very little exciting play.

The situation in the American League East is completely opposite from what is happening in the West. The Detroit Tigers jumped out in front in the beginning of the year and have not given it up.

Ever since Sparky Anderson went from the Big Red Machine in Cincinnati, he has been molding this current Detroit team. His team consists of some of the better players at their respective positions.

Jack Morris is very likely to win 20 games this year. Lou Whitaker and Alan Trammell are one of the best double-play combinations in baseball history.

Shorts

WORKSHOP

Assessing Your Career Options will help participants identify their marketable skills and interests and the careers that they match. Mr. David Rich, a career counselor, consultant and lecturer, will lead the workshop on Saturday, Oct. 13 from 9 a.m. to 4 p.m. The workshop fee of \$35 covers the cost of all materials and coffee and lunch to be served by the college.

For registration form or more information, call Linda Long, Assistant Director of The Evening School at 489-4250.

FOLIAGE BUS TOUR

The Ursinus Women's Club will sponsor a fall foliage bus tour to Lancaster County on Tuesday, Oct. 2. The scenic tour will include a few interesting historical visits.

The bus will depart from in front of Ursinus College's Wismer Hall at 8:30 a.m. Upon arrival in Columbia, the travelers will visit the Watch and Clock Museum and the beautiful antique-furnished Wright-Ferry Mansion located nearby. The bus will then proceed to the Central

Their catcher, Lance Parrish, has a very good arm and is no slouch with the bat.

The top five teams in the East could each be in first place in the West. The Boston Red Sox, with a record of 76-69, are in the fifth slot in the East; however, if they were in the other division, the Sox would still have a comfortable lead.

Toronto is the closest to the Tigers, and they are 11 games out. Last year's World Champs, the Baltimore Orioles, are 13 games behind Detroit.

Whoever does win the American League West is probably going to lose to the Tigers anyhow. The Tigers have, by far, the best team this year. Defensively the Tigers are quite good. Their pitching is above average, and they are capable of knocking the ball out of the park. The Tigers have to be the favorite to win the big games in October.

Farmers Market in Lancaster for a look around the famous market and a lunch break. In the afternoon, the tour will include a visit to the Heritage Museum's well-known collection of antiques and a visit to the Pennsylvania Farm Museum. Concluding the bus trip will be a dinner stop at the Akron Diner. Estimated arrival back on campus is 7:30 p.m.

The \$17 per person price covers bus transportation and admission to the four places; meals are not included. Interested persons are asked to make reservations by sending a check, payable to "Ursinus Women's Club," to the Alumni Office, Ursinus College, Collge, Pa. 19426. For further information on the tour, contact the Alumni Office at 489-4111, ext. 202.

AWARDS AVAILABLE

The National Research Council announces the 1985 Postdoctoral, resident and cooperative research associateship programs for research in the sciences and engineering to be conducted in behalf of 21 federal agencies or research institutions, whose laboratories are located

throughout the United States. The programs provide Ph.D. scientists and engineers of unusual promise and ability with opportunities to perform research on problems largely on their own choosing yet compatible with the research interests of the supporting laboratory. Initiated in 1954, the Associateship Programs have contributed to the career development of over 4,000 scientists ranging from recent Ph.D. recipients to distinguished senior scientists.

Applications to the National Research Council must be postmarked no later than January 15, 1985. Initial awards will be announced in March and April followed by awards to alternates later.

Information on specific research opportunities and federal laboratories, as well as application materials, may be obtained from Associateship Programs, Office of Scientific and Engineer Personnel, JH 608-D3, National Research Council, 2101 Constitution Ave., N.W., Washington, D.C. 20481, (202) 334-2760.

Friends of Library to hold book sale

The Friends of the Ursinus College Library have announced that it is time for their semi-annual book sale. The sale will start Sept. 22 and continue through Oct. 27 in the College's Myrin Library. Hours are Monday

through Saturday, 9 a.m. to 9 p.m. and Sunday, 1 to 9 p.m.

Both hard cover and paperback books will be on sale as reasonable prices; during the first week of the sale, most hard cover books will be \$1 and

paperbacks will be 50 cents. Fiction, biography, and scholarly works will be available on a first-come, first-served basis.

Books in good condition are needed to ensure the success of this sale. Anyone wishing to

donate hard cover or paperback books are asked to bring them to the library during the sale hours. For more information or help in transporting your donations, contact Dr. Chuck Broadbent, at 489-4111, ext.243.

New Bloom in Physics Dept.

By ALISON J. GRAF

This semester there is a new face in the Ursinus Physics Department, Dr. John A. Bloom of Hatfield. Teaching our general physics lab should be a change of pace for Dr. Bloom. With his many degrees and experience in different fields, he will have much to contribute to his students and the Ursinus environment in general.

While teaching at Ursinus College Dr. Bloom will be working on yet another degree. This time he is studying for a Ph.D. from Dropsie University in Marion, Pa. His present area of research is ancient near eastern studies. Dr. Bloom is studying this topic because he has an interest in science and scripture. He wants to learn more about science, particularly medicine, in ancient cultures. He also wants to take these cultures and compare their medical knowledge to that of Israel during the same time period. Dr. Bloom feels the Old Testament medical laws far surpassed those in practice in the surrounding cultures. What he wants to investigate is whether or not Israel's advanced knowledge of medicine at the time came from divine intervention or if it was due to some other factors. Since the study of this subject involves the reading of ancient scriptures Dr. Bloom had to learn several ancient languages as part of his research. These languages included Akkadian, Ugaritic, Sumerian, "Biblical Hebrew," and "Classical Arabic."

Dr. Bloom has a B.A. in physics from Grinnel College and a M.S. and a Ph.D., in physics from Cornell University. He held a teaching assistantship at Cornell and also did post-doctorate work there.

His post-doctorate research was in fluorescence microscopy, a biophysics topic. This involves using fluorescent materials to mark certain biological molecules and track their movements.

We hope he will enjoy his time at Ursinus College.

Get down to business faster. With the BA-35.

If there's one thing business students have always needed, this is it: an affordable, business-oriented calculator. The Texas Instruments BA-35, the Student Business Analyst.

Its built-in business formulas let you perform complicated finance, accounting and statistical functions - the ones that usually require a lot of time and a stack of reference books, or like present and future value

calculations, amortizations and balloon payments.

The BA-35 means you spend less time calculating, and more time learning. One keystroke takes the place of many.

The calculator is just part of the package. You also get a book that follows most business courses: the *Business Analyst Guidebook*. Business professors helped us write it, to help you get the most out of calculator and classroom.

A powerful combination.

Think business. With the BA-35 Student Business Analyst.

CALENDAR

Friday 9/21

Movie: If You Could See What I hear: Don't miss Mark Singer in his compelling portrayal of a blind singer who learns to deal with his blindness in this real life story of Tom Sullivan. Time: 7:30 p.m. Friday, Sept. 21. Place: Wismer Aud

Saturday 9/22

Movie: Terms of Endearment: Deborah Winger, Shirley MacLaine and Jack Nicholson lead-off this Academy Award winner of 1983. This movie is filled with many touching moments as well as quite a bit of humor that will prove to be a great evening of entertainment. Time: 10 p.m., Friday, Sept. 21; 9 p.m. and 12 a.m. Saturday, Sept. 22; Sunday, Sept. 23. Place: College Union.

Monday 9/24

Movie: Christine: Come over and see a car take on a life of its own in this thriller filled with suspense. Time: 9 p.m. Monday, Sept. 24-Thursday, Sept. 27. Place: College Union.

Parents' Day schedule

9 a.m. — Registration, College Union.

10 a.m. -12 noon — There will be academic department displays in the College Union Lounge. Meet the faculty, exhibits/lab demonstrations. Don't miss the viewing.

10 a.m. — Field Hockey
10:30-11 a.m. — "Changing Political Attitudes of Young Voters," a lecture by Dr. Gerald Fitzpatrick will be held in Wismer 007-008. Dr. Fitzpatrick is a member of the Political Science department here at Ursinus. 1984 is an important election year and Dr. Fitzpatrick will lend us some informative insight into the views of many young people in the country as well as members on our campus. Don't be apathetic in our election system and don't miss Dr. Fitzpatrick's talk.

11 a.m. — Volleyball game vs. Gettysburg and Swarthmore, away.

11:30-12 noon — "You Have to Be One to Know One," a lecture by Dr. Roger Staiger will take place in Wismer 007-008. Dr. Staiger will be stressing the training and excellence in science one must develop in order to be a scientist. Join Dr. Staiger in his talk.

Stay on the lookout for mime and flute duo that will be roaming

the Ursinus campus from 10 a.m. to 12 noon.

Noon to 1 p.m. — Buffet luncheon, Wismer Dining Hall.

1 p.m. — The Ursinus Soccer Team will take on Drew this Saturday. Don't miss the exciting action.

1-1:30 p.m. — Welcome by President Richter, Presentation by William Akin, dean of the college, "The Modern Liberal Arts: Education for Tomorrow's Leaders in Wismer Auditorium.

2 p.m.: Come on down to Patterson Field and root on the Ursinus Football team as they take on Western Maryland in the 1984 season opener here at home.

3 to 4:30 p.m. — Le Cercel Francais will be hosting "A Taste of French Culture," in Paisley Lounge. The celebration will include desserts, conversation and culture of France. Be sure to drop by for a sampling of French life.

4:30 p.m. — Take your student to Dinner. Wismer Dining Room open 4:30 to 5:45.

7:30 p.m. — The College Union will host a dessert special. Sample a variety of desserts while listening to Phil Giordano, Jazz Trio. The evening should prove very enjoyable.

We hope you participate in the many activities of Parent's Weekend. Get involved and have an enjoyable day!!!
