Professor—One of Eighty Arrested For Protest

BY JEAN MARIE KISS
Grizzly Editor

A dismal rainy Good Friday (April 17) in Center City, Philadelphia was an appropriate setting for a protest against abortion. The only damper for this demonstration at the entrance of the Elizabeth Blockwell Center was the arrest of eighty participants, including an Ursinus Professor of Physics, Douglas Nagy.

In classic protest fashion, Nagy, who was recently granted tenure by the College's Board of Directors, instigated his arrest by jumping over a police barrier, while others blocked the entrance to the center.

"The primary motivation for the protest is that throughout history, the adults' traditional role is to protect the younger generation—in this case it is the unborn," stated Nagy.

Douglas Nagy, a physics professor, was arrested during an anti-abortion demonstration last Friday in Center City Philadelphia.

Demonstrations like last Friday's have been occurring nationwide

since the 1973 Supreme Court decision which legalized abortion.

Protestors such as Nagy also have indirect objectives in their attacks against this instituted law. The Pro-lifers wish to flood the court systems with cases of civil disobedience in order to place pressure upon officials to change the law.

"It is an act of defense for the United States Constitution," asserted Nagy, since the legalization of abortion is not included.

Nagy, who describes himself as a man who is not generally socially active and who enjoys his solitude, places a higher priority upon his involvement with anti-abortion campaigns outside the Ursinus community. "I don't feel I should take advantage as a faculty member as leverage among students, in order to promote my beliefs," he commented.

Although Nagy prefers detach-

ment, he contributes to the college when there is need. Nagy frequently spends long nights concentrating on special research projects, and working with small groups of students in the observatory tower.

And because the abortion issue was recently highly publicized on campus, Nagy arranged for the campus viewing of "Silent Scream," a movie which presented actual abortions.

"I am perfectly willing to discuss my views with students," Nagy added. "There are too many people who accept abortion simply because it's legal."

His fight against abortion legislation has not ended with his recent arrest—his fifth. "Our goal is to have one thousand people next spring," Nagy commented. "Under some circumstances, breaking the law is the best thing you can do."

Forum Series Ends

BY ANDREA POWER
Grizzly Features Editor

The spring lecture series was closed last night with the topic "Addictions in Perspective: Politics and Realities of a Chronic Problem," presented by Dr. William S. Greenfield.

A graduate from Columbia College in New York City, Greenfield attended Temple University for his medical training and served his residency in psychiatry at Temple Hospital in Philadelphia. Choosing a virtually untrodden path, Greenfield entered the profession of addiction treatment in the early 1970's when few psychiatrists dared to approach the alcohol and drug situation.

Presently, Greenfield is the Director of Addiction Treatment Services, at the Presbyterian-University of Pennsylvania Medical Center. With his associates, he is in the process of writing a book designed to inform people of the diagnosis, treatment, and social attitudes of drug and alcohol addiction.

Greenfield began his lecture by explaining the psychopharmacological aspects of drugs. Outlining the four classes of addictive drugs—(depressants, narcotics [sleep-inducing], stimulants, and hallucinogens), Greenfield reviewed

how each type of drug reacts with the nervous system to slow down or speed up nerve impulses in the body.

Two central aspects that cause addiction are the temporary feeling of euphoria and the tolerance created by the drug.

Greenfield stated that it was once thought that addiction was caused by a weakness in personality. Now it is known that drug dependency originates from mainly genetic factors. A person in whose family drug dependency is hereditary might not have the "personality" of an addict, but can develop such a personality by becoming addicted to a substance.

People can become dependent upon drugs to cope with a difficult problem or to adapt to a seemingly hopeless situation, informed Greenfield.

Of the political aspects involving substance abuse, Greenfield noted the cyclical reactions that government and society have toward drugs, citing examples from the 1915 Controlled Substance Act to the drug explosion in the 1960's to the present "War on Drugs."

About the Reagan Administration's "War," Greenfield mentioned after his lecture, "There's been a funding decrease in addic-

Spring Weekend Lacks Enthusiasm

BY KEVIN ADAMS
For The Grizzly

This weekend is the infamous Spring Weekend and it looks like it needs some help.

A weekend that should be marked by campus spirit, partying, and good times is slipping towards boredom. The Campus Activities Board, CAB, will provide fundraising booths for free. Unfortunately not many people and organizations took advantage of this great offer. Was it because they have to give away prizes? Or was it just a general lack of enthusiasm?

Groups were encouraged to perform in competitive events such as the obstacle course, water balloon toss, and a Family Feud game.

The Family Feud game will be organized by CAB and this game will consist of five-member teams. Anyone could have signed up to participate but only about a half dozen teams did. Hopefully this won't be a precedent for future years.

CAB has given a great deal of time, energy, and effort to make this weekend a success. The campus can be a part of this event by going to the Student Activities Office.

Greek Week was not the most memorable week this year; there seemed to be a lack of campus spirit. But Spring Weekend can be

great if there is a sufficient turnout at all the events planned for this weekend.

It is still not too late to participate! Tonight at 7:00 p.m. is the Family Feud game show in Wismer Auditorium. Tomorrow CAB is coordinating student organization booths from 1:00 p.m. to 4:00 p.m. Also at this time, CAB and the Alumni Association are sponsoring Ursinus Urlympics, including a

record-breaking obstacle course and an all campus picnic.

Saturday night from 9:30 p.m. to 1:00 a.m. CAB will host a Toga party with the live band Jasper in Wismer Dining Hall (BYOB event). The weekend will end with a \$2 trip to Ocean City on Sunday, April 26, from 10:00 a.m. to 7:00 p.m.

Take advantage of all these opportunities!

At the 1986 Ursinus Spring Weekend, Phi Alpha Psi sponsored a fundraising activity, one of the many held by various campus organizations.

The Grizzly was founded in 1978, replacing the previous campus newspaper, *The Ursinus Weekly*. It is published by students twelve weeks each semester. The Grizzly is edited entirely by students and views expressed in the paper are not necessarily those held by the administration, faculty or a consensus of the student body. The staff of *The Grizzly* invites opinions from the college community and will publish them as time and space permit.

Editorial:

Ursinus' reputation is certainly growing (See Admission Expands p. 3). Only maybe gaining notoriety would be more appropriate than gaining reputation. Ursinus has definitely seen its share of headlines this past year, none of them positive. If it isn't the student body being arrested for under-age drinking and "stealing" moneybags, then it's the faculty writing about the "Coddling of College Students" or being arrested just to prove a point. It's understandable that Ursinus would like to have a wider variety of students on campus but negative publicity will not attract them. Who would want to come to a college where both the students and the faculty have been arrested and the professors appear to think the students are idiots? The newspaper coverage of Ursinus College has not been encouraging for prospective students lately. It's too bad that only bad press coverage is available from our neighboring papers.

If Ursinus does not guard its public image, it could soon be confused with another well lit institution on the Perkiomen, known for the same type of food and similar room/cell selection process.

We, as the Ursinus community, should be especially aware of the effects of harmful press coverage.

LLH

LETTER POLICY

Letters must be typed and no more than 300 words. Name and telephone number are required for verification purposes. Letters should be deposited in the Grizzly mail box in Corson Basement by 7 p.m. Monday. The Grizzly reserves the right to edit all letters. Requests for anonymity will be considered by the editorial board.

Room Selection Process Attacked

Dear Editors:

I am writing this letter to all members of the Ursinus administration who are involved in the housing selection procedure. This year's senior room lottery was little more than a farce. First of all, anybody who stood in line waiting to draw a number could see that there were more than 76 current junior girls. Wouldn't you think that the organizer(s) of this lottery would have put more than enough papers in the "Lottery shoebox"? What would it have mattered if there were 500 numbers from which to pick? I guess cutting up all of those little pieces of paper would have been too great a task, though!

The administration's answer to the shortage of lottery numbers—letting those girls who didn't have the opportunity to pick a number from 1 to 76 the first time around, pick a number from 1.5 to 76.5—is just as ridiculous as the problem I'm just glad that my chances of getting a room in a house, as an upperclassman, are not in danger since my roommate picked number 1! But I don't think I would be too

happy if I had picked a decent number (like 25) in the first lottery, only to end up with a number in the 30's because of the second lottery. With the shortage of rooms available in houses to upperclassmen, a jump in the lottery from the mid-20's to the 30's could keep someone from getting a room selected.

This leads me to my second criticism of the Ursinus administration's room selection policy. As even though my roommate drew number 1, we *can't* have any available room we want.

My roommate and I decided we wanted to live in 777 Main Street in a double that has its own bathroom. Little did we know that the Assistant Dean of Student Life Debbie Nolan had given that room to a sophomore girl, living in that house already, who could not reach an agreement concerning their room. If I am wrong, isn't there a rule which states that if two roommates do not want to live together but both want to keep their room, and no agreement can be reached between them, then

both lose that room? Why didn't Dean Nolan enforce her rule? Her reason is that "sometimes deals have to be made." Allow me to make that statement clearer: in other words, if you and your roommate are having a disagreement on who gets to keep your present room—don't worry about the rules, just have your mother call Dean Nolan and she'll make sure that, no matter what class you are, you'll be put in one of the best available rooms on campus!

I just want to know what is the sense of having a room lottery? My roommate and I have #1 and we can't have the room we want! Maybe we should have our mothers call Dean Nolan too! That seems to be the *only* way to get anything done at Ursinus!

I have one final suggestion to anyone who has to go into the lottery next year: Don't bother picking a number, instead "Let's Make a Deal" with Dean Nolan—that way you'll get what you want.

Sincerely,
Lori Rose

...and Another Attack

Dear Editor:

I feel Ursinus has a very unfair policy concerning room selection. I am a sophomore in good standing, yet due to the "freezing" of houses for freshmen I will probably be forced to spend my junior year in a room hardly to my preference. It disturbs me to think how poorly this school treats its upperclassmen.

"Freezing" houses for freshmen is unfair for both the freshmen and the upperclassmen. Upperclassmen have already made their friends and feel houses are to their advantage by getting them away from the crowded feel of Old Mens or the Quad. A freshman on the other hand has problems when placed in a house; even in an all

freshmen house. First, they are unable to meet other members of their class and second, it often causes "clicks" to be formed; due to their lack of interaction with other classmates.

I feel freshmen should be placed in the Quad or in Old Mens and that houses should be kept open for the upperclassmen. We upperclassmen have already proved ourselves worthy of better housing just by being here for a longer period of time. Isn't that why seniors pick numbers for rooms before juniors? It should be the same in regard to freshmen.

Sincerely,
Kathy Rocklein

Apology

Dear DOG,

Please accept our apologies for missing you as an outstanding campus personality. Myrin Library staff over the years has generated many exhibits and we have often wondered if they were noticed. It is only by a serious "sin of omission" that we learn our efforts are noted.

We regret that we have slighted you or any other individual or group on campus. Thank you for calling this oversight to our attention.

Sincerely Yours,
Margaret B. Staiger
Instructional Services Librarian
Myrin Library

... and a Different Response

Dear Editors:

This is in response to the DOG (Defender of the Grizzly) who wrote in last week, April 10, to complain that the Grizzly staff had been overlooked in the favorite book display at Myrin.

I do not wish to speak for the Myrin staff, as I do not know what criteria was used in choosing those asked to make a contribution to the display.

I do wish to speak for those people whom the DOG referred to as "library geeks who mold themselves to the library carrels". The

individual who wrote the letter accused Ursinus of being "filled with cliques and stereotyped personalities". I would like to address a question to the DOG: Why would you also stereotype a group of people as well as degrade them for studying more than you obviously do?

I do not believe stereotyping and cliques can be fully eliminated from our campus. The particular individual who wrote the letter and, by the way, would not even sign his or her name, obviously has

standards which the "library geeks" do not measure up to.

The Grizzly was overlooked for whatever reason there may be; the DOG should have addressed his or her anger at being "snubbed" and stopped with that point. There was no need to put down others in order to prove the individual's point (which the DOG is just as guilty of).

Sincerely
Lisa R. Talarico
DOG II (Defender of "The Geeks")

not the case, there would be no reason to get out of bed in the morning.

Often we don't know what this grace specifically is. But isn't it possible that when we push ourselves to run further, master a subject we find loathsome, lift heavier weights, learn an abstruse concept, or paint a perfect portrait, we are doing more than simply passing time? Aren't we, in our own wordless ways, trying to make the unutterable utterable, and bring out our central eloquence? Perhaps this is why we deify ballet dancers, painters, and composers: they externalize what lies within, and in so doing, change it from a vague amorphous thing into something tangible and apprehensible. All of this is accomplished without words.

A character in Anne Tyler's novel *Dinner At The Homesick Restaurant* said that there ought to be a higher vocabulary "for words
See Private P. 12

Tillie Olsen, author of the short story collection *Tell Me A Riddle*, wrote about what she called "the unnatural thwarting of what struggles to come into being but cannot." William Kennedy, who wrote the Pulitzer Prize winning novel *Ironweed*, has stated that when he wrote *Ironweed* he was striving "to talk about the central eloquence of every human being." Furthermore, Kennedy has maintained that "we all have this unutterable eloquence and the closest you can get to it is to make it utterable at some point, in some way that separates it from the conscious level of life."

It seems that both Olsen and Kennedy are describing every person's fundamental struggle for grace. Or, in the humanistic/psychological jargon of Maslow, self-actualization. Such struggles aren't the exclusive domain of writers and other artists. Perhaps I am more attuned to the comments of writers because I am by choice a reader, or perhaps because writers, whose vocation is the handling of words, are more likely than others to attempt to utter the unutterable or be aware of its existence.

The struggle against "unnatural thwartings" is endemic to our own existence. Our attempts at grace define us. If you accept the definition of grace as "any excellence, characteristic attraction, or endowment . . . elegance of action or language," a tentative definition I found in *Webster's*, then it is easy to see the connection. We each have our own latent grace or potential for excellence which we struggle to externalize. Were this

Hartlines

BY LORA HART
Grizzly Editor

My usual biweekly sojourn to the infirmary was not for the normal pneumonia/whooping cough/malaria/bronchitis afflictions. Instead, last week's disease just happened to be (get this!) spider bites. Yes, I speak the truth. I was the victim of a starving spider. Laugh if you must but I found no humor in my malady.

Ask the next obvious question. Where in the h(Bleep) did I acquire spider bites? To be honest, I really have no clue. Somewhere on campus, obviously, as I haven't been anywhere else. But my standard answer now, after answering dozens of inquiries, is I was playing in spider webs.

While those close to me kept watch on my leg for possible hatching, the doctors at the infirmary were slightly baffled by my injuries. So after two weeks of various drugs that did nothing for

my legs but take down the swelling (as well as clearing up a few skin problems and decreasing my appetite), I finally went home to my doctor over Easter. He took one look at my leg and suggested immediate hospitalization. I told him what to do with that suggestion.

We compromised on a drug that increased my appetite fourfold and almost constant leg elevation.

No more tanning attempts as the tissue on my leg is damaged enough and exposure will only darken the four inch sear I'll probably have anyway. I can't walk properly since my now cow-like ankles are swollen beyond recognition. (No KDK jokes, PLEASE!)

I've been told I have had a near brush with death but it's hard to accept that I could have died from minor spider bites. I can just see my epitaph, "A Daddy Long-Leg-

ger finally got her down." Dr. Wentzel, Harrop, Barclay and Kiss, Esq. Inc. Co., are all atwitter because their diagnosis' were correct and "I told you so" will go on forever. I don't know why they're sticking with their respective majors as pre-med is obviously more appropriate. Thank God they weren't correct about the hatching. With all the other problems these bites have caused, the last thing I needed was to give birth to numerous legged little ones.

Fresh deli and dairy sandwiches made to order. Party trays and 2 foot hoagies. Friendly and attentive service.

Admissions Expands to New Areas

BY VICKY SCHARUDA
Grizzly Asst. Features Editor

Currently sixty-eight percent of the student body resides in Pennsylvania. Twenty-four percent of the student body are permanent residents of New Jersey. However, according to Lorraine Zimmer, Director of Admissions, these statistics are slowly beginning to change.

"Ursinus has established a good reputation in the Tri-State area," Zimmer stated in an explanation of the phenomenal number of Pennsylvania and New Jersey natives. "People have heard of Ursinus and

consider it an excellent school," she continued.

Yet she also stated that more applications have been received from other geographic locations. The number of 1987 applicants residing in New York has increased from past years by nearly 400%.

Accepted applicants from Virginia, Florida and Michigan have already paid their deposits in preparation for fall enrollment.

Next year Admissions counselors will visit high schools in New Hampshire, Maine and North Carolina. These states will be added to the ever increasing list of schools:

Massachusetts, Connecticut, Maryland, Virginia, Florida, Washington D.C. and New York as well as Pennsylvania, New Jersey and Delaware.

Zimmer also stated that other equally-rated institutions in Pennsylvania do not receive as many applications as Ursinus does. What is the reason for this popularity? She believes that the Ursinus name is spread through high schools by the students who have already visited the school.

Zimmer is optimistic that the See Admissions P. 7

News Notes

Singing Instructions Begin

Singers of all ages are invited to shed their inhibitions and to create some beautiful noise. The beginning voice class at Ursinus College will explore the basic techniques of singing with emphasis on progressive vocal exercises within a group setting. A love of music is the only prerequisite.

The class will meet from 10:30 a.m. to 12:30 p.m. on five Saturday mornings, April 25 to May 30. The class will not meet on May 23, Memorial Day holiday weekend. The fee for the course is \$30.00.

Karen Richter will be the instructor for the class. Miss Richter holds a Bachelor of Music degree in music education from Westminster Choir College and a Master of Music degree in voice performance from Combs College of Music.

Miss Richter is also soloist and section leader with the choir of St. Paul's Church, Philadelphia, and a chorist with the Opera Company of Philadelphia. She sang in the chorus of the Opera Company of Philadelphia's production of *Boris Godonov* and is presently in rehearsal for their production of *Romeo and Juliet*.

The beginning voice class repertoire will include Broadway show tunes and other light, popular fare. Class members will have the option to do some solo singing.

Student Musician Presents Recital

Andrew P. Wack will present a recital of classical and modern works for organ on Sunday, May 3, at 7:30 p.m. in Bomberger Hall. Wack, completing his senior year at Ursinus College, will perform selections by Bach, Coiok, Widor, Tournemire, Haydn and Hurford on the Heefner Memorial Organ.

The recital, which is open to the public and free of charge, is part of an independent study of music undertaken by Wack. At Ursinus, he is a mathematics major with a music minor.

Wack is a student of Douglas Tester, director of the choirs at St. Anne's Episcopal Church in Abington, Pa, and an instructor of organ at Settlement Music School, Philadelphia.

While at Ursinus, Wack has been a member of the Meistersingers and the Chamber Singers. He is president of Pi Nu Epsilon, music honor society, and is a pianist with the College Jazz Ensemble.

The son of Mr. and Mrs. Henry P. Wack of Souderton, he will study computer science at the University of Delaware following his graduation from Ursinus.

Chapter Scholars Announced

BY JILL GRIFFITHS
Grizzly Asst. News Editor

The newest members of Ursinus' honor society, the Chapter Scholars, have just been announced. Included are both juniors and seniors that have been selected by the Faculty Chapter Scholars. Seniors are James Alderfer, Charles Bellitto, David Carrol, Nancy Emmons, Paul Eppley, Lois Groff, Jill Kesloff, Robin Knowblach, Angel Salas, Arvind Srinivasan and Andrew Wack. Juniors George Holloway, Frank Moulton, Jeanne Radwanski and Debra Ritter round out the group.

These students have various majors, but are especially noted because of breadth of program, academic excellence, and wide interests. Perhaps they are double-majors, have minors they have done well in, or have interests in sports, music, or other activities.

Chapter Scholars at Ursinus College is modeled after the National Honor Society Phi Beta Kappa, which holds that a liberal education seeks to quicken the mind and spirit by encouraging full development

See Chapter P. 7.

Students Represent U.C. in D.C. at Center

BY LISA GILMORE
For The Grizzly

On March 20, 21, and 22, two political science majors, Dan Scholl and David Bloom, traveled to Washington D.C. to represent Ursinus in the eighteenth annual Center for the Study of the Presidency student symposium. The Center publishes the prestigious *Presidential Studies Quarterly*. In line with the bicentennial of the Constitution, the theme of the convention was "to secure the blessings of

liberty."

The Center invited several distinguished members of the government to discuss their constitutional duties. On Friday night the Deputy Secretary of State, John C. Whitehead, spoke about providing for the common defense -- an order predicted in the preamble of the Constitution.

On Saturday morning the newly appointed Vice-Chairman of the Joint Chiefs of Staff, General Her-

res, elaborated on Mr. Whitehead's talk by describing the role of the armed forces.

Finally, Attorney General Edwin Meese III spoke about the theme of justice enumerated in the *Constitution* and *Bill of Rights*. Following each speaker's presentation, students were able to ask questions ranging from Nicaragua to the Tower Commission. All in all, the symposium was an excellent learning experience.

class of 1991 will "maintain the quality and quantity of students" already enrolled at the college. "Ursinus is a symbol of good tradition and (it) upholds that tradition," she asserted.

Could these factors affect the rumored eighty percent marriage rate among Ursinus graduates? Zimmer believes this percentile to be exaggerated. Alumni Office statistics show that only 1,532 total alumni have married Ursinus graduates — 14.6%. It has not been determined as to the reason students insist that the percentile is much higher.

At least, 65.4% of the student body can be relieved that their spouses could be found in a place other than Ursinus.

Brown Urges Students to Pump on For Fourth Annual Lift-A-Thon

On Wednesday, April 29th, the Fourth Annual Lift-a-thon will be held from 4:00 to 6:00 p.m. in the A. Scott Callahan Conditioning Room. Among the current participants are the football team, other athletes and interested students.

Anyone interested in participating should see Coach Brown or his secretary in Helfferich. The registration will be open until the actual event.

The purpose of the Lift-a-thon is to raise money to be reinvested for additional equipment for strength training. The students solicit funds, (from 1¢ per pound and up) for the amount of weight they can bench

press in one repetition. After all the money has been collected, the funds are used to purchase items from an already prepared "wish list". The purchasing continues until the funds are exhausted.

Over the past three years, the amount of money that has been raised ranged from \$1100.00 to \$1400.00 each year.

Coach Brown hopes the whole college community will participate in some small way. He says, "If every student could contribute \$2.00, we could raise \$2400.00. \$2.00 is not a lot of money when

you think what it's going towards."

Three very beneficial by-products of this event have transpired. (1) The students enjoy the finest conditioning facility of any of the institutions that we identify with, (2) the young men and women are as strong or stronger than most of the teams we compete against, (3) the conditioning room is kept neat as a pin because the student/athletes that train there have invested time, energy and money out of their own pockets. Their vested interest has paid numerous dividends for the college, the teams and themselves.

Crowded House Instruments Variety

BY STEVE GALL
Grizzly Music Critic

Progressive rock listeners of the early Eighties may remember *Split Enz*. Having released such songs as "I Got You" and "Six Months in a Leaky Boat," the group was out of mainstream play by 1982. Lead vocalist Neil Finn has returned, however, joined by two newcomers, bassist Nicholas Seymour and drummer Paul Hester. They

are *Crowded House* (Capitol), as the title to their first release exclaims.

The album is full of musical variety. Producer Mitchell Froom has hired a variety of musicians, including the Heart Attack Horns who worked on Tom Petty's *Southern Accents* release of 1985. The Horns greatly enhance Finn's melodic abilities, which are often made childlike by his weak vocal

abilities. It is Finn's voice, in fact, that is the only poor point on this album.

Fortunately, one flaw is counteracted by more than one strength. Finn has a knack for creative and often comical phrases within the context of serious songwriting, as in "Don't Dream It's Over":

*There is freedom within
There is freedom without
Try to catch the deluge in a paper cup*

and
*In the paper today
Tales of war and of waste
But you turn right over to the TV page*

While I find Neil Finn's voice annoying at times, I won't penalize him for something he was born with. Strong song writing and instrumental variety make this album good lighter rock listening. I give *Crowded House* an overall grade of A-.

Chapter From P. 4

of human capacities. Phi Beta Kappa was originally conceived to recognize excellence in and commitment to liberal arts. Ursinus is not accredited at this time by the prestigious group, but hopes to be in the future.

There are several faculty members involved in Ursinus' Chapter Scholars, and they fall into two groups: those who are Ursinus graduates and were elected Chapter Scholars, and those who are non-Ursinus graduates but were members of Phi Beta Kappa. Dr. Neslin, professor of computer science and mathematics, is taking over the organizational aspect from Dr. Wickersham and Martha Takats. Neslin mentioned that a banquet is held at the end of the year for the newly elected scholars. At this time, they receive a book that has been chosen for them by the faculty members, and relates to their interests. Neslin said that it was enjoyable to be able to recognize the efforts of excellent students.

In choosing these scholars, the faculty gathers transcripts, records and teacher recommendations in order to get a full view on students. Dr. Neslin felt it important to mention again that it is not only academic excellence, but other interests the students may have.

The Ursinus community accepts and congratulates the new members of Chapter Scholars with pride.

Looking for a Summer Job? Why not consider UPS where the Summer does not have to end in August.

At United Parcel Service (UPS) we have steady year-round employment available for students. We currently have positions available for **PART-TIME PACKAGE HANDLERS**. Shifts start at 1PM, 5PM, 11PM & 4AM.

**Start at \$8.00 an hour...
with potential to earn
\$9.00 an hour!**

UPS offers outstanding benefits including hospitalization/major medical, paid personal holidays, sick days & vacation plus promotion from within.

To apply, call 443-2835 or apply in person Monday-Friday, 9AM to 4PM at the PA State Job Service Office, 471 E. County Line Rd., Hatboro, PA. EOE, M/F.

Bears Offensive Team Sweeps Haverford Double Header

BY DAVE KULP
Of The Grizzly

On Tuesday, the Bears hosted division rival Haverford in a very important game. Ursinus was faced with an ultimatum: win both or the season is over.

That's exactly what Ursinus had to do, and it's exactly what was accomplished. Ursinus pounded the ball, scoring 22 runs for the day, while being supported by strong pitching from Ritchie LaFaver, Joe Kelly, and a complete game from Wally Tittelmayer.

In the opener, Ursinus sent 11 men to the plate in the first inning, scoring seven runs on 8 hits. That proved to be all the Bears needed as LaFaver went four innings and Kelly pitched three innings of two-hit, no-run relief. Ursinus coasted to a 10-5 victory.

In the nightcap, sophomore hurler Tittelmayer had a 2:3 ball-strike ratio and went the distance giving up only two earned runs. The game was deadlocked at 5-5

in the sixth inning when Ursinus exploded for another seven run inning. After the smoke cleared, Ursinus walked away with a 12-5 victory and swept a crucial inter-divisional doubleheader.

Some offensive feats worth mentioning: LaFaver and Todd Blue pounded out five hits each for the day. Blue and LaFaver are first and second in the batting average race. John Dillon stroked four hits, including a triple to help the Ursinus cause. And finally, Dave Kulp had four hits, all of them doubles.

The Bears (4-4, 10-11 overall) travel to Washington on Saturday for a doubleheader. If Ursinus sweeps their doubleheader, and Haverford sweeps visiting Johns Hopkins, then there would be at least a three-way tie for the division lead at the season's close.

Ursinus plays its final game of the season at home against Albright next week. Come out and cheer on the Bears in their final game.

third doubles from Donahue and Hoy in a great three-set win.

After their best meal of the year, second only to Rax, the team's long ride home was more palatable with the feeling of victory.

The following day, the team took on Cedar Crest. This match did not have the excitement of the day before, but the Bears were able to score their third victory in a row. The team scored victories at each position. They not only battled Cedar Crest but also the hot sun and the black, cracked courts.

All in all, the past two weeks

have proven very uplifting for the young squad. With a victory in the final match of the year, the Bears would end up with a .500 record, attaining one of their biggest goals for the year.

LAX From P. 5

Bridget Algeo, Bobbie Sue Copley, Barb Caffrey and Johnson shut down F&M attack. On the offensive end, they also made their presence felt with Caffrey and Johnson both registering goals.

Ursinus then confronted West Chester in a hard-fought contest and came away with an 11-9 victory. Bingamen contributed six

goals, Simons added two and Sarcinello and Rambo each had one. Schoenherr came through with one goal while goalie Piersall blocked 15 shots.

The Lady Bears returned from its holiday weekend to crush Drew, 18-5. Bingamen scored five goals leaving her two short of Sue Morley's career record of 164. JoAnn Schoenherr also had five while Simons contributed three goals and two assists. Lois Groff registered three goals and an assist; Rambo and Marie Leahy also scored.

UC travels to East Stroudsburg tomorrow in hope of improving their record to 9-2.

Bid From P. 5

eleventh straight year, Albright recorded a win to the Bears' chagrin. In a battle of mental toughness, junior captain Marc Dervishian persevered to a 7-6, 6-4 victory at first singles. The April 21st loss to Albright (7-1) lowered Ursinus' record to 4-8.

On Tuesday, the Bears will inspect other examples of Berman-donations in Allentown, when they challenge Muhlenberg.

Athlete of the Week: John Wood

When John Wood was 8 years old, the National Association of Student Musicians dubbed him "international class" as a pianist, the highest rank a young musician could earn.

On Saturday, April 18, the same fingers that caressed the keyboard wrapped themselves around a shot, discus and javelin and heaved them far enough to win all three events at the University of Delaware Invitational.

Wood, a sophomore all-American at Ursinus College, broke his own school mark in the discus with a throw of 156 feet, 7 3/4 inches and earned Ursinus' Athlete of the Week award.

Three days earlier, on April 15, Wood swept the throwing events — hurling the javelin a collegiate-best 199-7 1/2 — as Ursinus

downed Delaware Valley and Haverford in its final dual meet and wound up with a 13-0 mark, the best in its 60-year track history.

Despite his relative pint size, the 5-10 Wood will be favored to win

three gold medals May 1-2 when the Bears host the Middle Atlantic Conference championship and go

for their first league title since 1964.

Wood, a Gilbertsville native and Boyertown High graduate, took a gold medal in the shot put February 20 at the league indoor championship, a silver at the ECAC meet March 7 and a sixth-place medal at the NCAA Division III championship a week later, earning all-America status.

In July 1985, two months before entering Ursinus, he won the discus and finished second in the shot put and javelin at the TAC Junior Nationals in Hempstead, Long Island.

As a senior at Boyertown, Wood won the Ches-Mont League crown in the shot put and discus, placing second in the javelin. At the 1984 Junior Olympics, he took fourth in the shot, fourth in the discus and sixth in the javelin.

Wood and Lucky Number 13 Give Runners Record

BY VINCE LESKUSKY
Grizzly Sports Editor

While the Milwaukee Brewers were tying the Major League record for the fastest start, the Ursinus men's track team was setting a record for the strongest finish in the school's history. Both teams at 13-0. The Brewer's streak ended there, but the Bear's record takes them full speed into the MAC Championships next weekend here at Ursinus.

Unofficially adopting "13" as their lucky number, the Bears opened the season with a thrashing of F & M—beating them for the first time in thirteen years. The Bears flirted with fate the Wednesday before Easter break, but when the sun had set the Bears had sealed their twelfth and thirteenth victories: Ursinus 81, Del. Val. 71, Haverford 40. 13-0.

Early on, it looked like any record setting hopes would be dashed—dashed by Del Val's sprinters. Milton Silva-Craig blew to a PR of 51.4 in the 400 m, but it only brought him third. In the 200 m and 100 m, the Bears could only scrape up fourths by Silva-Craig and Rich Dunlap, respectively, while Paul McNally bounded to second in the 400 IH.

Despite running the third fastest time in school history, the 1600 m relay team of Dunlap, Silva-Craig, Dale and Dean Lent could not keep with Delaware Valley. 12-1

was fast becoming a real possibility. Until John Wood stepped on the field.

Wood's juggernaut steamrolled over the helpless opposition. Wood took victories in the shot and discus, but saved his encore for the javelin. The all-American, a National Qualifier in all three events, speared a throw of 199'7 1/2", breaking his own record. Not to be forgotten, senior co-captain Rick Hess remained undefeated in the triple jump. Jumps of 6'4" and 20'8 3/4" vaulted junior Rick Lowe to two victories in the high and long jumps.

Following the fieldmen's example, Mike Griffin and the distance squad made 13-0 a reality. Griffin dominated the grueling steeplechase in a PR of 9:38 to first, teammate Rob Hacker crossed the line in fourth. Ursinus scored identically in the 5000 m, this time with Griffin and Jim Heinze. The Northeast Phila. connection of John Mellody, Dale and Dean Lent dominated the 1500 m and 800 m. Dean swept two firsts with Mellody holding third in the 1500 m and Dale claiming third in the 800 m.

As a tune-up for next weekends the 4x100 and 4x400 relays are running at the Penn Relays today. The entire team enters the Division II Millersville Metrics on Saturday.

Netters Frustrated in Attempt to Reach End of Season .500

BY ENNIS BALL
For The Grizzly

The Ursinus' Men's tennis team continued to flirt, but failed to court, that elusive .500 mark.

On Wednesday, the 16th, the team met York. Playing in the former U.S. capitol, the Bears suppressed any hope of an uprising, winning in straight sets, 9-0. The domination whipped the Bears' mark tantalizingly close to the break-even point.

Like Tantalus in his stream, the Bears were deprived of their desires by Washington College. The fifth ranked Division III netters mercifully denied the Bears, 9-0. The following day, Tuesday the 21st, the Bears were shackled with another loss in the Free State. Western Maryland controlled the Bears, 6-3.

In Reading, Pa., Ursinus blushed to Albright, losing 8-1. For the

Tennis Courts Wins

BY SUSAN MOCKUS
Of The Grizzly

Good news! The women's tennis team has gained victories in three out of their three last matches. Finally, this young squad has started on its winning ways!

Last week, the team tackled the Albright squad on the third floor of their new gym. Despite the unfamiliar play of the fast courts, Ursinus jumped out to a 4-2 lead after the singles competition.

Wins for the Lady Bears came from second singles Michelle Davies in a grueling three-set match, fourth singles Cindy Robbins after a great comeback, and

fifth and sixth singles Kathy Donahue and Donna Hoy with commanding wins.

In doubles, the team swept Albright by gaining a victory at each position. Sophomore Robin Asplund captured her first collegiate win when she and doubles partner Susan Mockus won in straight sets. The final result was a 7-2 win, marking the second victory of the season.

On Easter Monday, while the rest of the school was still at home on vacation, the tennis team arrived at school at 10:00 a.m. to leave for Johns Hopkins. After a 2 1/2 hour drive, a few wrong turns,

and a tour of inner city Baltimore, the red van finally made it to its destination.

Although hoping to play a short match, the Bears ended up playing their longest and toughest match of the year. In singles, the team was extended to three-sets in each of their winning matches with victories by Mockus at first singles, Donahue at fourth singles, Hoy at fifth singles, and Jen Mauro at sixth singles.

Going into the doubles matches, the Bears needed one more point to serve the victory. They got it at

Lady LAX Team Rolling Towards NCAA's

BY JEANNE RADWANSKI
Of The Grizzly

After opening this season with five straight victories, the women's lacrosse team fell victim to Division I powerhouses, Temple and Lafayette.

Ursinus had trouble keeping up with number one ranked Temple on the Owls' home turf and suffered a disheartening 24-3 defeat.

Beth Bingamen, Lois Groff, and JoAnn Schoenherr provided the goals, and Kim Piersall and Cindy Porter, both freshmen, combined

for 18 saves against the Temple barrage.

Ursinus bounced back for a tough contest at Lafayette but fell one goal short as its nationally ranked opponent froze the ball in the closing minutes.

Bingamen led the UC attack with five goals and one assist while Nancy Sarcinello contributed two goals and two assists. Groff, Schoenherr and Jill Johnson also scored and registered assists as did Rachel Rambo. Piersall had 13 saves in the net.

Ursinus refused to go home for Easter riding a losing streak and came through with a resounding 17-6 victory against Franklin and Marshall.

Bingamen and Schoenherr each tossed in four goals. Heather Simons chipped in with three goals and two assists, and Rambo had two goals and an assist.

Groff and Sarcinello both scored; Groff also providing an assist.

Defensively, Tami Trauger,

CLASSIFIED

Sales clerks needed at bookstore located in Visitor Center at Valley Forge National Park. 20-30 hours/week. Please call 783-1074 for information.

STUDENT TUTORS

Any area student that wishes to register as a tutor for the summer months, please contact Mr. Fegely in Studio Cottage Monday, Tuesday or Thursday from 3:30 to 4:45 p.m. Fee is \$6.00 per hour.

FINAL EXAM SCHEDULE CORRECTION: History 326 should be History 322.

SUMMER CAMP OPPORTUNITIES

Would you like to spend your summer as a counselor at a sum-

mer camp or do volunteer work in a work camp setting? There are many opportunities of this nature through the United Church of Christ and other denominations. If you are interested, please see Scott Landis in the Chaplin's Office, ext. 2436.

LINDBACK AWARD FOR OUTSTANDING TEACHING—CALL FOR NOMINATIONS FOR STUDENTS: The Lindback Award for Outstanding Teaching is granted annually at May graduation to an Ursinus faculty member in recognition of distinguished teaching. All students at Ursinus are invited to nominate a faculty member for the award. Nomination forms are available in the Registrar's Office and must be submitted to Dean Akin by May 1, 1987.

FALL STUDENT TEACHERS, ATTENTION: May 1 has been selected as District Visitation Day. There will be a brief meeting of all student teachers on Friday, April 24, at 12:30 p.m. in Bomber Auditorium. It is very important that you attend.

ATTENTION FISHERMEN: Cap off Spring Weekend with the ultimate of spring, the 2nd Annual All-Campus Trout Fishing Tournament. Contestants will have 3 hours to fish a stretch of the Skippack on Sunday, April 26, from 2:00 p.m. to 5:00 p.m. Contestants netting the two longest trout will be awarded \$45 in cash. Entrance is free, and transportation is available. Sign up with the Fishing Club in Wilkinson 110 by Friday, April 24, at 1:00 p.m.

FILL THE TEMPLE; FEED THE HUNGRY

A massive canned food drive to help stock the food pantry and soup kitchen of Trinity United Church of Christ in Pottstown, will be held on Wednesday, April 29. The Trinity soup kitchen serves meals on a daily basis to the needy residents of the Pottstown area and gives canned goods to them to use in their homes. You can be involved in this drive. Simply bring as many canned goods as possible to the Temple and drop them off anytime during the day between the hours of 8:00 a.m. and 4:00 p.m. This is an all campus project! For more information call Studio Cottage, ext. 2436.

Private From P. 3

that are truer than other words-for perfect, absolute truth." Perhaps that applies to our "central eloquence," as well. There may be no words to describe what lies within us, so we must meet the need to bridge the gaps and turn our potential into our reality.

This, of course, brings us back to the point I keep reiterating: since an unexamined life isn't worth living, and an un-lived life isn't worth examining, we must each make the choice to ground our conduct into something, be it the wet marshes, or the rocks. Only then can we really hope to be able to utter the unutterable within ourselves.

Drug From P. 1
tion treatment corresponding to the increase in funding for the "War on Drugs."
