Ways and Means

DESCRIPTION

This bill requires moneys deposited with gas and electric utilities by their customers that go unclaimed for more than three years to be collected by the state (in the same manner as unclaimed property is currently collected by the state) and allocated to the Low Income Energy Assistance Fund (LIEAF) which the bill rates. The moneys deposited in the LIEAF are continuously appropriated to the Controller who is directed to disburse 75% of the funds to the Low Income Home Energy Assistance Program (LIHEAP) and 25% to the Energy Crisis Intervention Program (ECIP), both of which are administered by the Department of Economic Opportunity.

FISCAL EFFECT

A continuous appropriation of approximately \$4 billion annually from the LEAF to fund low-income energy assistance program. A loss of up to \$4 million beginning in 1997 to the General Fund form reducing the amount of funds deposited in the Unclaimed Property Fund (UPF), thus available for transfer to the General Fund (if unclaimed after five years.)

Assembly Bill 548 (Moore)

DESCRIPTION

This bill makes legislative findings that the Department of General Services (DGS) has a conflict of interest between its role as a provider of telecommunications services through CALNET and its role in acquiring the cost-effective goods and services for the state. Consequently, this bill:

- 1) Requires DGS, in circumstances where it is providing computer or telecommunications services through CALNET in competition with private sector vendors, to adopt procedures to treat itself as it would any other vendor.
- 2) Requires the Department of Finance (DOF) to conduct a study, as specified, on the impact of the CALNET/CALDEX procedures on state operations and on private sector telecommunications providers. This study is due by July 1, 1992.
- 3) Prohibits the DGS from (a) committing any funds for further CALNET/CALDEX modernization or expansion, and (b) provide CALNET/CALDEX network services to any non-state or public entities other than those already using the network on January 1, 1992, until the results of the study have been reviewed.

FISCAL EFFECT

One-time costs to the Department of Finance of \$100,000 for the specified study. In addition, the Legislative Analyst indicates ongoing costs of up to \$420,000 to the Service Revolving Fund (General Fund and various special funds) to ensure that the DGS is treated the same as private vendors, as specified.

DESCRIPTION

This bill requires the California Public Utilities Commission (CPUC) to study and assess certain issues involving the "Universal Telephone Services Act". This bill renames "universal telephone service" as "lifeline telephone service. It requires the California Public Utilities Commission (CPUC), when formulating lifeline rates and service requirements, to assess telephone penetration rates by income, ethnicity and geography in an annual report to the Legislature. It also requires the CPUC to assess fraud in the lifeline program. The bill mandates that lifeline customers pay no more than fifty percent (50%) of the basic residential installation and connection charges, and allow the CPUC to limit these reduced rate charges in a given period. The bill further prohibits charges for eligible lifeline users who switch from lifeline to basic service.
