

Temporary writers' residence

case study
By Yanan Qian

Location: UK

Architect: Matthew Butcher, Kieran Wardle and Owain Williams

Owner: N/A

Year of completion: 2016

Climate: Cfb

Material of interest: plastic

Application: Exterior

Properties of material: The unusual structure consists of a steel frame clad in panels of translucent polycarbonate, and features a dysfunctional chimney stack and a set of fin-like shutters – all references to the region's industrial architecture.
