

# OJS for Journal Managers

Hello and welcome! This course is designed for people who need to learn how to use OJS quickly. Whether you are starting your own journal or are responsible for setting up a journal for someone else, you'll find all of the basics covered in this course, as well as pointers toward more advanced topics.

If you work through all of the lessons in this course, you will be able to:

1. Perform the major tasks required by a Journal Manager in OJS
2. Analyze and solve common problems that may arise when using OJS
3. Assist others with their use of OJS
4. Know where to look for help when you don't know what to do
