Program

The Fifth Annual Graduate School Commencement Ceremony July 30, 2004

While the PCOM of 2004 bustles with the intellectual activity of hundreds of graduate students in numerous masters and doctoral programs amid the environs of a large medical school, it has grown from a small seed planted more than a century ago. When osteopathic schools were forming throughout the country in the 1890s, two students at the Northern Institute of Osteopathy in Minneapolis, Mason W. Pressly and Oscar John Snyder, targeted Philadelphia as a future home for an osteopathic medical college. Although the city of brotherly love had a rich history of medicine, it had but one “osteopathist” by the time Pressly and Snyder graduated in 1898 and 1899, respectively. The two pioneering osteopathic physicians followed through with their vision, incorporating the Philadelphia College and Infirmary of Osteopathy on January 24, 1899. The first PCIO degree was awarded to a transfer student; the first PCIO class, comprised of two students, graduated in February 1900 from the fledgling college, then located at 21 South 12th Street.

The college prospered and moved through a number of sites in its first century, including 1715 North Broad Street, 832 Pine Street, 19th and Spring Garden, 48th and Spruce, and finally, the City Avenue Campus. During this growth period, the medical curriculum intensified, osteopathic research was initiated, and clinic and hospital services grew rapidly as the medical school’s student body and faculty expanded dramatically.

After nearly a century of training physicians, PCOM opened its first graduate degree program, the Master of Science in Biomedical Sciences, in 1993. The first five graduates in June 1995 marked the beginning of yet another period of growth for the college - the development of a graduate school. Ten years later, nearly 500 graduate students are enrolled in PCOM’s master’s and doctoral degree programs.

PCOM’s graduate students pursue studies at the master’s level in biomedical science, counseling and clinical health psychology, organizational development and leadership, forensic medicine and physician assistant studies. Doctoral-level study is offered in clinical psychology and school psychology with certificate programs for professionals seeking respecialization in clinical psychology. Through innovative distance learning methods and modern telecommunications technology, PCOM extends its Psy.D. program to off-campus classes at East Stroudsburg University and the Dixon University Center in Harrisburg.

The faculty and administration are pleased that you are with us on this important day in our academic year as we celebrate our graduate students, their research and their future in the academic and professional community.

Program

Prelude Music	Renaissance and Baroque Selections by The Cathedral-Basilica Brass Quartet, Elin Frazier, Musical Director
Processional	“March from Athalie” (Felix Mendelssohn)
Faculty Marshals	Robert DiTomasso, Ph.D. John Cavenagh, M.B.A., PA.-C. Ruth Thornton, Ph.D.
Invocation	Richard M. Kriebel, Ph.D.
President’s Welcome	Matthew Schure, Ph.D.
The National Anthem	
Dean’s Remarks and Introduction of Speaker	Kenneth J. Veit, D.O., M.B.A.

ADDRESS:

“Gifts Rediscovered and the Responsibility of Gratitude”
Arthur Freeman, Ed.D.
Professor, Department of Psychology
Philadelphia College of Osteopathic Medicine

Presentation of Candidates for Degrees in Course	Kenneth J. Veit, D.O., M.B.A. Robert G. Cuzzolino, Ed.D.
---	---

Doctor of Psychology in Clinical Psychology
Master of Science in Counseling and Clinical Health Psychology
Master of Science in Organizational Development and Leadership
Master of Science in Clinical Psychology
Master of Science in Biomedical Sciences
Master of Science in Forensic Medicine
Master of Science in Health Sciences – Physician Assistant Studies

Conferring of Degrees	Matthew Schure, Ph.D.
Hooding of the Graduates	Dr. DiTomasso, Dr. Freeman Dr. Gosch, Dr. Kriebel, Mr. Cavenagh Mr. Clinton, Mr. Screnci, Dr. Thornton
Remarks by Student Representatives	Aisha Phillipson, Biomedical Sciences Roger Oliver Beardmore, Psychology Programs David Kon, Physician Assistant Studies

Closing Prayer	Barbara Golden, Ph.D.
Recessional	“Trumpet Tunes” (Henry Purcell)

Commencement Speaker

Arthur Freeman, Ed.D.

*Professor, Department of Psychology
Philadelphia College of Osteopathic Medicine*

“Gifts Rediscovered and the Responsibility of Gratitude”

Intellect, innovation and boundless energy characterize the founder of the psychology programs at Philadelphia College of Osteopathic Medicine. Arthur Freeman is Professor and the founding Chair of the PCOM Department of Psychology. He completed his doctoral work at Teacher's College, Columbia University, studied with Albert Ellis and completed a postdoctoral fellowship at the Center for Cognitive Therapy at the University of Pennsylvania under Dr. Aaron T. Beck. In 1994, Dr. Freeman established the Psy.D. program in Clinical Psychology at PCOM. In just ten years, the Department has grown to offer the doctorate in clinical or school psychology, master's programs in counseling/clinical health psychology, organizational development, and school psychology, educational specialist-level programs for school psychology state certification, and a wide variety of professional development seminars. Arthur Freeman built a department that is an exemplar of intellectual activity through research, teaching and publication, and was recognized in 2004 with accreditation by the American Psychological Association.

In addition to 50 book chapters, reviews and journal articles, Dr. Freeman has published 30 professional books and two trade books, *Woulda, Coulda, Shoulda: Overcoming Mistakes and Missed Opportunities*, and *The Ten Dumbest Mistakes Smart People Make*.

His professional and popular work has been translated into Bulgarian, Chinese, Dutch, German, Italian, Japanese, Portuguese, Spanish, and Swedish.

Dr. Freeman holds diplomates in clinical psychology, family psychology, and behavioral psychology from the American Board of Professional Psychology, a diplomate in Adlerian psychology, and is a fellow of the American Psychological Association, the American Psychological Society, the Academy of Clinical Psychology, and the Academy of Family Psychology. He is a distinguished founding fellow of the Academy of Cognitive Therapy and a former president of the Association for Advancement of Behavior Therapy and the International Association for Cognitive Psychology. Dr. Freeman has lectured in 24 countries during the past 20 years.

Dr. Arthur Freeman has retired from the Chairmanship and relocated to Fort Wayne, Indiana this year but continues to contribute to PCOM's psychology programs through teaching and mentorship of our students.

Degrees in Course
July 30, 2004

Degrees in Course

The Graduates and their Research

DOCTOR OF PSYCHOLOGY IN CLINICAL PSYCHOLOGY

All doctoral degree recipients also earned the Master of Science in Clinical Psychology, awarded by Philadelphia College of Osteopathic Medicine at the time of progression to doctoral degree candidacy.

Jessica Stewart Allen*

Bridgewater, Massachusetts

Awards

THE SARA SOMERS RUPERT HUMANITARIAN AWARD

This award is presented at graduation to the senior Physician Assistant student who has demonstrated an ongoing commitment to those in need. The recipient exemplifies the philosophy of health care service and compassion above self.

David Kon

THE SIGMA XI RESEARCH AWARD

This award recognizes excellence in student research across all academic programs of the College.

Christina Johnson

PHYSICIAN ASSISTANT EXCELLENCE IN LEADERSHIP AWARD

Thomas Monko

DEAN'S AWARDS FOR ACADEMIC EXCELLENCE

The Dean's Awards recognize academic excellence and potential for contributions to the field of study and profession.

THE DEAN'S AWARD IN CLINICAL PSYCHOLOGY

Roger Oliver Beardmore

THE DEAN'S AWARD IN COUNSELING AND CLINICAL HEALTH PSYCHOLOGY

Maria Stella

Awards

THE DEAN'S AWARD IN ORGANIZATIONAL DEVELOPMENT AND LEADERSHIP

Michael McGarrigle

THE DEAN'S AWARD IN BIOMEDICAL SCIENCES

Aisha Phillipson

THE DEAN'S AWARD IN FORENSIC MEDICINE

Amy Bernodin

MERITORIOUS DISTINCTION IN CLINICAL PSYCHOLOGY RESEARCH

We are pleased to recognize and congratulate the following graduates of the Doctor of Psychology in Clinical Psychology program whose dissertation research, writing, and presentation was judged by the Psychology faculty to be of meritorious distinction:

L. Stewart Barbera, Jr.
Claudia A. Blackburn
Marian Bova
Ray W. Christner
Beth Arburn Davis
Michael J. Dolan
Sherri R. Edelman
Christina Esposito
Michael J. Kinney
Karyne B. Wilner

Board of Trustees

Philadelphia College of Osteopathic Medicine Foundation and Philadelphia College of Osteopathic Medicine

James H. Black, D.O.	William M. King, D.O.

The College Seal

The College Seal first appeared in 1925 embossed on the cover of *The Synopsis*, the College's first yearbook. Volume One of *The Synopsis* was published by the junior class of Philadelphia College of Osteopathy in honor of the graduating Class of 1925. The first Seal incorporated the College motto *mens et manus*, "mind and hand." The Seal's origin is unknown, as is its designer.

In 1938, Edgar O. Holden, D.O. '22, dean of the College from 1924-1943, and Russell C. Erb, Ph.D., associate dean from 1937-1943, proposed and designed a Coat of Arms. The Coat of Arms appeared for the first time in the 1938 alumni magazine and featured a heraldic design that applies to the osteopathic profession. The three triangles are symbolic of the three segments of the vertebral column, which has a significant part in the science of osteopathic medicine. The hand emerges from a noble crown indicative of the regal aspect and dignity, as well as the healing powers of the human hand when applied to the art and science of osteopathic medicine. The College motto was retained and the Coat of Arms was utilized as the College Seal in various motifs through the mid-1980s.

An adaptation of the first College Seal was re-introduced in 1986. Today's College Seal, similar to the original, was adopted following the College's Centennial celebration in 1999.

The Seal features a centrally-placed shield within which are shown a scroll and a flaming torch of knowledge. Immediately above is the College motto *mens et manus*, reflecting the College's osteopathic origin. Uppermost and arranged in a radial pattern are streaks of solar brilliance. Separated from either side of the shield are branches of laurel joined and bound together at the center, close to the base of the shield. These components exemplify teaching, learning and the attainment of knowledge leading to successful careers in the health care professions. The name of the College and the year of its founding encircle the Seal.

The Academic Costume

The academic dress worn today for ceremonial occasions originated in medieval times and stems from the early days of the oldest universities. It is thought that long gowns were first worn for warmth in the cold lecture halls. And hoods may have covered the tonsured head (shorn crown) of priests and monks who made up the faculty. One university insisted on the tonsure for scholars. The hoods were replaced by the skull cap, which in turn was displaced by a headgear somewhat like that worn today.

The faculty and students of European universities still wear a diversity of academic regalia. However, in 1893, a United States intercollegiate commission dictated a uniform code which has been accepted by most American colleges and universities.

The commission devised three types of gown and three types of hood for the bachelor's, the master's and the doctor's degree. All gowns are black except for the associate in arts degree, which is gray.

The bachelor's gown features pointed sleeves and is worn closed; the master's gown has an oblong sleeve and may be worn open or closed. The gown for the doctor's degree has bell-shaped sleeves slashed with three velvet bars. The front of the gown is faced with velvet and is worn either open or closed. Mortarboards are generally recommended for caps, although soft, square-topped caps are permissible. Tassels may be black or gold and are usually gold for the doctor's degree.

The colorful hoods are lined with silk in the color or colors of the institution granting the degree. The length of the hood varies according to the degree: short for the associate's and bachelor's degree; medium for the master's and long for the doctorate. In addition, the hood is trimmed with velvet facing representing the academic discipline or school of study. Although there has been much innovation in cap and gown design in recent years, the standard colors representing the various academic disciplines have remained the same. These are:

<i>White:</i>	Arts and Letters or Humanities
<i>Golden yellow:</i>	Science
<i>Purple:</i>	Law
<i>Lemon yellow:</i>	Library Science
<i>Sapphire blue:</i>	Commerce or Business
<i>Light blue:</i>	Education
<i>Brown:</i>	Fine Arts
<i>Dark blue:</i>	Philosophy
<i>Green:</i>	Medicine—the color of life and growth. (Fellows of the American College of Osteopathic Surgeons wear hoods trimmed with crimson.)
